Creates the Underrepresented Groups in Academia Task Force within the Board of Higher Education to examine strategies to grow underrepresented groups in institutions of higher education and to ascertain the viability of increasing the number of laboratory schools in the State and creating State-owned and operated trade schools.

Fiscal Note (Illinois Board of Higher Education)

According to House Joint Resolution 2, members of the Underrepresented Groups in Academia Task Force shall serve without compensation. Although some costs might be incurred to the Illinois Board of Higher Education in order to provide support for the Task Force, such costs would most likely be minimal. Expanding services and programs for underrepresented students can provide opportunities for a more marketable skill set that lends itself to enhancing the growth and economic viability of the State of Illinois. The Illinois Board of Higher Education has also been in discussions about developing a conference specifically focused on assisting underrepresented student populations at both public and private institutions. The Underrepresented Groups in Academia Task Force could help to promote this cause as well and/or connect its work to such a forum.

State Debt Impact Note (Government Forecasting & Accountability)

This legislation would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

Amends the Illinois Income Tax Act. Authorizes a credit to individual taxpayers who are residents of Illinois for expenditures made by the taxpayer during the taxable year for qualified college tuition expenses paid for the taxpayer or a dependent of the taxpayer, as determined under the Act, for up to 4 years of college education for each eligible student attending an institution of higher education. Provides that the amount of the credit is equal to 25% of the qualified college tuition expenses, but not to exceed $2,500 per student per taxable year. Provides that, if a taxpayer claims a credit for a dependent, then that dependent may not claim a credit on the dependent's return for that taxable year. Defines "qualified college tuition expenses" as the tuition required for the enrollment or attendance of an eligible student at an institution of higher education who is eligible to receive grants from the Monetary Award Program, except that tuition payments made through scholarships or other financial aid are excluded and tuition payments for post-baccalaureate or other graduate degrees are excluded. Provides that the credit may not reduce the taxpayer's liability to less than zero and may not be carried back or carried forward. Exempts the credit from the Act's sunset provisions. Provides that a candidate political committee established to elect a candidate to the General Assembly may accept contributes from only one legislative caucus committee during an election cycle in which the candidate seeks nomination at a primary election (rather than limiting the political committee to accepting contributions from only one legislative caucus committee). Allows the Board to assess a civil penalty for failure to file certain reports concerning independent expenditures. Requires the Board to render a judgment on certain complaints concerning disclosure and regulation of campaign contributions and expenditures before the date of the election if the complaint is filed within 60 days preceding the date of the election (rather than within 7 days of the date the complaint is filed). Provides that a Tier 1 or Tier 2 participant may irrevocably elect to participate in the Tier 3 plan instead of the defined benefit plan and may also elect to terminate all participation in the defined benefit plan and to have a specified amount credited to his or her account under the Tier 3 plan. Makes related changes in the State Employees Group Insurance Act of 1971. In the Downstate Teachers, State Employees, and State Universities Articles, authorizes a person to elect not to participate or to terminate participation in those Systems. In the General Assembly and Judges Articles, authorizes a participant to terminate his or her participation in the System. In the Illinois Municipal Retirement Fund (IMRF), State Employees, State Universities, and Downstate Teachers Articles, for participants who first become participants on or after the effective date, prohibits (i) payments for unused sick or vacation time from being used to calculate pensionable salary and (ii) unused sick or vacation time from being used to establish service credit. In the Downstate Teachers Article, prohibits an employer from making employee contributions on behalf of an employee, except for the sole purpose of allowing an employee to make pre-tax contributions. Amends the Illinois Educational Labor Relations Act to prohibit collective bargaining over that prohibition. Effective immediately.

Provides that any contract between a State agency and an authorized service provider may be terminated, suspended, or reduced by either party to the contract upon 30 days prior written notice. Permits the State to immediately terminate a contract for social services if the authorized service provider has made material misrepresentations or material omissions explicitly prohibited under State contracting requirements. States the belief that O'Hare International Airport's noise monitoring technology should be coupled with artificial-intelligence software to match the noises perceived by each station at each time to specific individual flight operations and the operations of individual airlines and to gauge the compliance of each individual airline firm with the guidelines set down in the Fly Quiet Program. Calls for a measurable improvement in Fly Quiet compliance no later than January 1, 2017, with further improvements to follow. Urges the Aviation Department of the City of Chicago to select a trusted third party that represents the interests of O'Hare International Airport's noise neighbors and to share the information enumerated in this resolution with this third party. Urges the Aviation Department and the trusted third party to collaborate to develop a rank-ordered chart of each airline firm's compliance with Fly Quiet Program guidelines. Urges the Aviation Department and the trusted third party to give the charts explicit and formal consideration as elements in any decisions made, subsequent to the start of the generation of this data and these charts, on the reallocation of departure gates and support facilities at O'Hare International Airport.
