Deletes everything after the enacting clause. Amends the Open Meetings Act. Redefines a "meeting" to include gatherings, whether in person or by telephone call, video or audio conference, electronic means (such as e-mail, chat, and instant messaging), or other means of contemporaneous interactive communication, of a majority of a quorum of the members of a public body held for the purpose of discussing public business (now, a gathering of a majority of a quorum of the members of a public body held for the purpose of discussing public business). Requires that the number of public body members necessary to constitute a quorum must be physically present at an open meeting and permits participation and voting by other members by audio and video conference. Allows members of a public body with statewide jurisdiction who are physically present in Chicago or Springfield to count towards a quorum if the meeting is held simultaneously in both places through interactive videoconference and notice and public access requirements are met. Exempts certain State bodies and boards with advisory or non-binding functions from the requirement of physical presence of a quorum. Requires that a quorum of members of a public body without statewide jurisdiction must be physically present at a closed meeting and permits participation and voting by other members by video or audio conference. Permits a public body to authorize attendance at meetings by audio or video conference, other than closed meetings of public bodies with statewide jurisdiction; authorizes those public bodies to adopt rules for such attendance. Makes other changes.

House Amendment No. 1

Removes the exemption for public bodies with statewide jurisdiction from the requirement of physical presence of a quorum at one location of an open meeting when the meeting is held simultaneously in Springfield and Chicago through an interactive video conference. Establishes the same exemption for a public body, except one with jurisdiction limited to a specific geographic area less than statewide, when the meeting is held simultaneously at one of the public body's offices and elsewhere in one or more public buildings through an interactive video conference. Removes the provision that voting members of a public body, other than one with statewide jurisdiction, not physically present at a closed meeting may vote at the closed meeting by means of video or audio conference. Makes other changes.

Fiscal Note (Dept of Commerce and Economic Opportunity)

Senate Bill 611 does not incur a fiscal impact on the Department of Commerce and Economic Opportunity. Assessing the fiscal impact on municipalities will involve factors such as the number of municipalities affected, the number of property owners, and the cost of providing written notice to the property owners regarding proposed boundary line agreements. Therefore, based on these factors, to the extent that SB 611 (Engrossed) imposes a comprehensive impact of local revenue, an estimate cannot be determined at this time.

Home Rule Note (H-AM 2)(Dept of Commerce and Economic Opportunity)

Fiscal Note (H-AM 2)(Dept of Commerce and Economic Opportunity)

SB 611 Engrossed does not incur a fiscal impact on the Department of Commerce and Economic Opportunity. The fees listed in the legislation are to be paid by individuals, such as defendants in a court proceeding. However, in practice, if a defendant is indigent, the cost of a fee may have to be absorbed by a unit of local government. Assessing the fiscal impact on units of local government in such instances will involve various factors such as the amount in fees assessed, the number of indigent defendants, and other costs which will vary statewide. Therefore, based on these factors, to the extent that SB 611 (H-AM 2) imposes a comprehensive impact on local revenue, an estimate cannot be determined at this time.

Housing Affordability Impact Note (H-AM 2)(Housing Development Authority)

This legislation will have no effect on constructing, purchasing, owning, or selling a single family residence.

Fiscal Note (S-AM 1) (Dept. of Revenue)

There is no state fiscal impact. The impact on local governments comes in three ways. (1) It makes the Alternative General Homestead Exemption (AGHE) created pursuant to Public Act 93-715 permanent in Cook County, where two thirds of the way through the implementation no loss to taxing districts has been identified. (2) It allows any of the 101 other counties another opportunity to opt into the AGHE. The fiscal impact cannot be calculated, but will depend upon how many counties opt in and whether they have properties increasing more than 7% in value annually. When the AGHE was originally offered in 2004, no county except Cook chose to adopt it. The difference between Cook County, which does not equalize between triennial reassessments and other counties that do, would reduce use of the AGHE in other counties. (3) It removes the $20,000 maximum on the AGHE. In Chicago, there were 75,000 out of 357,000 homestead properties on which the AGHE's hit the 20,000 cap the first year, primarily among higher-priced properties. The fiscal impact cannot be calculated, but the Department has contracted for a detailed study that will provide this information for Cook County.

Judicial Note (Admin Office of the Illinois Courts)

Based on a review of SB 835, it has been determined that this legislation would neither increase nor decrease the number of judges needed in the State.

Housing Affordability Impact Note (Housing Development Authority)

Insufficient information to determine a fiscal effect.

Pension Note (Comm. on Gov. Forecasting & Accountability)

Will not impact any public pension fund or retirement system in Illinois.

State Debt Impact Note (Comm. on Forecasting and Accountability)

Would not affect the level of State indebtedness.

State Mandates Fiscal Note (Dept. of Commerce & Econ Opportunity)

Does not create a state mandate under the State Mandates Act.

Home Rule Note (Dept. of Commerce & Econ Opportunity)

Does not pre-empt home rule authority.

Fiscal Note (Dept. of Commerce & Econ Opportunity)

Does not impact State finances. The bill would potentially impact municipalities in each county except Cook, DuPage, and Lake. If municipalities attempt to demonstrate that a federal wildlife refuge creates only an artificial barrier in preventing annexation, the cost of such research could vary across the state. Based on that factor, the cost to municipalities could vary across the state. Therefore, to the extent that SB 835 impacts local revenue, a fiscal impact cannot be estimated at this time.

Correctional Note (Department of Corrections)

Corrections Population Impact: None. Fiscal Impact: None.

Fiscal Note (Department of Natural Resources)

No fiscal impact.

Balanced Budget Note (Gov. Office of Management & Budget)

There is no fiscal impact to the State.

Deletes everything after the enacting clause. Amends the Coal Mining Act. Defines "lifeline cord", "self-contained self-rescue (SCSR) device", "surface supervisor of an underground mine", "tag-line", "rescue chamber", and "cache". Provides that the Department of Natural Resources shall use the telecommunications center maintained by the Illinois Emergency Management Agency to notify agents of the Department and other State, federal, and local agencies in the event of an emergency in or about any coal mine. Provides that the 4 mine rescue stations that are required to serve the coal fields of the State must be certified by the Mine Safety and Health Administration of the U.S. Department of Labor. Provides that rescue teams shall be based out of each mine rescue station and that every mine operator must provide employees to serve on a rescue team. Provides that an operator must require each person underground to carry a SCSR device on his or her person or, alternatively, a SCSR device must be kept within 25 feet of the person underground. Requires the provision of rescue chambers and materials for barricade within mines. Provides that tag-lines must be provided in every working section of a mine and on any vehicle capable of hauling 4 or more people within the mine. Prohibits methane extraction from sealed areas of active mines or abandoned mines that are attached to active working mines. Provides that at least one of the 2 travelable passageways designated as escape ways in a working section of a mine must be equipped with a lifeline cord. Provides that the return air passageway to the surface must be marked with reflectors or other appropriate signage, as approved by the Department. Provides that a vehicle suitable for transporting all persons underground working on a unit and injured persons shall be maintained in each underground working section (now, a vehicle suitable for transporting injured persons must be maintained on each underground working section where workers are working for use in case of accident). Requires the operator of a mine to provide wireless emergency communication devices and wireless tracking devices that must be worn by each person underground. Provides criminal penalties for any person who, without the authorization of the operator or the Mining Board, knowingly removes or attempts to remove from a mine or mine site or knowingly tampers with or attempts to tamper with any SCSR device, battery-powered strobe light, wireless emergency communication device, or wireless tracking device. Requires the Mining Board and the Department to work in consultation with the mining industry to study communication and tracking systems technology. Sets forth provisions concerning general surface supervisors and independent contractor supervisors. Makes other changes. Effective immediately.

Senate Floor Amendment No. 2

Deletes everything after the enacting clause. Reinserts the provisions of the bill, as amended by Senate Amendment 1, with the following changes. Requires an operator to provide for an adequate number of SCSR devices to be maintained in all rescue chambers and caches located throughout a mine (instead of requiring an operator to provide a minimum of SCSR devices in each cache located within a mine and requiring caches to be located no more than 4,000 feet apart throughout a mine). Provides that rescue chambers approved by the Mining Board must be provided at suitable locations (instead of 3,000 feet apart) throughout a mine. Replaces the provision concerning communication and tracking systems technology with a provision requiring the Director of the Office of Mines and Minerals to establish a Mine Technology Task Force to review and make recommendations to the Mining Board concerning mine safety technologies. Provides that rescue chambers, wireless emergency communications devices, and wireless tracking devices must be provided in each underground mine once this equipment is federally approved and commercially available. Provides that each applicant for a certificate as a general surface supervisor of an underground mine must have a minimum of 2 years of work experience at a coal mine surface facility (instead of an underground coal mine surface facility) or coal preparation plant. Effective immediately.

Senate Floor Amendment No. 3

Provides that each group represented on the Mine Technology Task Force shall submit the name of its representative to the Director. Provides that rescue chambers, wireless emergency communications devices, and wireless tracking devices must be provided in each underground mine within 90 days after the equipment is federally approved (instead of once the equipment is federally approved and commercially available). Provides that to the extent any of the devices have already been federally approved, the operator shall provide the equipment in each underground mine within 90 days after the effective date of this amendatory Act.

House Amendment No. 1

SB 00929 (CONTINUED)

Deletes everything after the enacting clause. Reinserts the provisions of the engrossed bill with the following changes. Makes a change to the definition of "self-contained self-rescue (SCSR) device". Removes the provision requiring an operator to provide an adequate number of SCSR devices to be maintained in all rescue chambers and caches throughout a mine. Adds a provision requiring an operator to provide at least one SCSR device for each person underground, in addition to the device already required by this amendatory Act, that provides protection for a period of one hour or longer and to provide additional SCSR devices for all persons using a mantrip or mobile equipment if such transportation is used to enter or exit the mine. Provides that if the required SCSR devices are not adequate to provide enough oxygen for all persons to safely evacuate the mine under mine emergency conditions, the mine operator must provide additional SCSR devices in the primary and alternate escapeways to ensure safe evacuation for all persons underground through both primary and alternate escapeways; includes requirements for the SCSR storage plan. Requires the Mining Board to determine the time needed for safe evacuation from each of those locations at 1,000 foot intervals. Provides that, beginning January 31, 2007, an operator must provide a minimum of 30 SCSR devices in each cache located within a mine, in addition to federal Mine Safety and Health Administration requirements, and that caches must be located no more than 4,000 feet apart throughout a mine. Provides that, beginning January 31, 2007, rescue chambers approved by the Mining Board must be provided and located within 3,000 feet of each working section of a mine. Requires an operator to submit a plan for approval concerning the construction and maintenance of the required rescue chambers. Sets forth requirements for methane extraction from sealed areas of active mines or abandoned mines that are attached to active working mines (instead of prohibiting such methane extraction). Provides that the membership of the Mine Technology Task Force shall include representatives of an organization representing mine employees (instead of representatives of the United Mine Workers of America). Provides for a temporary waiver of the requirement that rescue chambers, wireless emergency communication devices, and wireless tracking devices be provided. Effective immediately.

House Amendment No. 2

Provides that the Mining Board must adopt and impose a plan for the daily inspection of certain required SCSR devices to ensure that the devices perform their designated functions each working day and provides that certain additional required SCSR devices must be inspected every 90 days to ensure that the devices perform their designated functions, in addition to meeting all federal Mine Safety and Health Administration requirements (instead of requiring the Mining Board to adopt and impose all federal requirements concerning the testing and storage of the SCSR devices).

SB 00966 (CONTINUED)

In provisions amending the Counties Code and the Illinois Municipal Code: (i) provides that zoning powers may be used to require (instead of promote) the creation and preservation of affordable housing and (ii) authorizes incentives to developers who are creating, establishing, or preserving (instead of building) affordable housing. In provisions amending the Affordable Housing Planning and Appeal Act: (1) makes changes in the definitions of "development" and "housing trust fund"; (2) authorizes local governments to individually or jointly create or participate in a housing trust fund or otherwise provide funding or support for the purpose of supporting affordable housing (instead of simply authorizing a local government to create a housing trust fund); (3) authorizes loans (as well as grants) to not-for-profit organizations that are engaged (instead of actively engaged) in addressing affordable housing needs; (4) provides that all intergovernmental agreements entered into to create affordable housing units to meet the goals of the Act must also specify the anticipated number of newly created affordable housing units that are to be credited to each local government participating in the agreement for purposes of complying with the Act; (5) deletes a statement that amendatory provisions concerning intergovernmental agreements between local governments are inoperative on and after January 1, 2010; (6) in references to a determination of a local government's non-exempt status for the first time based on a recalculation of decennial census data, adds "after 2010"; (7) provides that in a proceeding before the State Housing Appeals Board, the affordable housing developer bears the burden of demonstrating that the proposed affordable housing development (i) has been unfairly denied or (ii) has had unreasonable conditions placed upon it by the decision of the local government (instead of demonstrating that the decision of the local government was arbitrary and unreasonable and without substantial relation to the public health, safety, or welfare); and (8) makes other changes.

SB 00973 (CONTINUED)

Replaces everything after the enacting clause. Amends the Senior Citizens and Disabled Persons Property Tax Relief and Pharmaceutical Assistance Act. Replaces the provisions concerning the pharmaceutical assistance program. Effective January 1, 2006, provides for a new program of pharmaceutical assistance to the aged and disabled, entitled the Illinois Seniors and Disabled Drug Coverage Program ("the new program"), which shall be administered by the Department of Healthcare and Family Services and the Department on Aging. Provides that to become a beneficiary under the new program, a person must (1) be either age 65 or older or disabled, (2) be domiciled in this State, (3) enroll with a qualified Medicare Part D Prescription Drug Plan if eligible, and (4) have a maximum household income of less than specified amounts depending on household size. Provides that all individuals enrolled as of December 31, 2005, in the pharmaceutical assistance program under the Senior Citizens and Disabled Persons Property Tax Relief and Pharmaceutical Assistance Act and all individuals enrolled as of December 31, 2005, in the SeniorCare Medicaid waiver program operated under the Illinois Public Aid Code shall be automatically enrolled in the new program. Divides the new program beneficiaries into 4 "eligibility groups". Provides that the program shall cover the cost of covered prescription drugs in excess of the beneficiary co-payments ($2 for each prescription of a generic drug and $5 for each prescription of a brand-name drug) that are not covered by Medicare. Provides a new definition of "covered prescription drug" for purposes of the new program. Provides that any person otherwise eligible for pharmaceutical assistance under the new program whose covered drugs are covered by any other public program is ineligible for assistance under the new program to the extent that the cost of those drugs is covered by the other program. Sets forth conditions of participation in the new program for pharmacies. Amends the Senior Citizens and Disabled Persons Prescription Drug Discount Program Act. Changes the short title of the Act to the Illinois Prescription Drug Discount Program Act. Makes changes in the legislative findings. Provides that the prescription drug discount program is for "Illinois residents" instead of only senior citizens and disabled persons. Provides for administration of the Act by the Department of Healthcare and Family Services (successor agency to the Department of Public Aid) instead of the Department of Central Management Services. Changes the requirements that a proposal for administering the program must meet, including requirements that a proposal specify (i) the amount of the discount based on the average wholesale price of the covered medications and (ii) administrative fees charged by the administering entity. Eliminates provisions (i) setting forth limits on the amounts paid for medications by persons enrolled in the program and (ii) specifying the formula for calculating the amounts paid by the program administrator to pharmacies. Provides for a program enrollment fee to be determined by the Director of Healthcare and Family Services (instead of $25), and makes changes concerning collection of the enrollment fee. Provides that to be eligible to participate in the program, a person must be a resident of Illinois and must have household income equal to or less than 300% of the Federal Poverty Level. Eliminates a provision that any person who is eligible for pharmaceutical assistance under the Senior Citizens and Disabled Persons Property Tax Relief and Pharmaceutical Assistance Act is presumed to be eligible for this program. Makes other changes. Amends the State Finance Act; changes the name of the Senior Citizens and Disabled Persons Prescription Drug Discount Program Fund to the Illinois Prescription Drug Discount Program Fund. Effective January 1, 2006.

SB 00998 (CONTINUED)

Replaces everything after the enacting clause. Amends the Mental Health and Developmental Disabilities Code. Provides that whenever a patient refuses mental health or developmental disability services, the physician shall determine and state in writing the reasons why the recipient did not meet the criteria for involuntary treatment (that is, that the services are necessary to prevent the recipient from causing serious and imminent physical harm to the recipient or others and no less restrictive alternative is available) and whether the recipient meets the standard for authorized involuntary treatment under the appropriate provisions of the Code. Provides that if the physician determines that the recipient meets the standard for authorized involuntary treatment, the facility director shall petition the court for authorized involuntary treatment unless it is determined that such a petition is not warranted. Provides that in determining whether a person meets the specified criteria for authorized involuntary treatment, the court may consider evidence of the person's history of serious violence, repeated past pattern of specific behavior, actions related to the person's illness, or past outcomes of various treatment options. Requires the Department of Human Services (DHS) to conduct annual trainings for clinical personnel on the appropriate use of authorized involuntary treatment. Provides that each facility director of a State-operated mental health facility shall prepare a quarterly report stating the number of persons who were determined to meet the standard for authorized involuntary treatment but for whom it was determined that the filing of such a petition was not warranted; requires DHS to publish an annual report. Provides that a recipient's treatment plan must include a written assessment of whether or not the recipient is in need of psychotropic medications. Effective immediately.

House Amendment No. 4

In amendatory provisions concerning refusal of services: (1) requires a physician's determination and statement whenever psychotropic medication is refused at least once that day (instead of whenever services are refused); (2) authorizes a facility director's designee to petition the court for authorized involuntary treatment; (3) provides that amendatory provisions concerning a petition to the court by a facility director or his or her designee apply only to State-operated mental health facilities; and (4) requires training for physicians and registered nurses working in State-operated mental health facilities (instead of for clinical personnel) on the appropriate use of authorized involuntary treatment.

Amends the Special Service Area Tax Law in the Property Tax Code. Provides that a municipality may propose a special service area as provided in this Law for the purpose of providing improvements to any one or more buildings if the improvements are required by municipal ordinance in order to protect the health and safety of workers, tenants, and visitors in the buildings. Sets forth requirements for establishing the special service area.

Senate Committee Amendment No. 1

Requires that 100% (instead of "51% or more") of the owners of the real estate that is to be subject to the tax must file the petition agreeing to the establishment of the special service area. Provides that if the property owners file such a petition, then the municipality may (instead of "shall") establish the special service area.

Provides that all persons who reside in, or are eligible to reside in, institutional care facilities have the right to have the amount of public funds that are or would have been expended on him or her for services provided by an institutional facility transferred to pay for community services. Requires the Department of Human Services, Department of Public Health, Department on Aging, and institutional facilities to inform eligible persons of their right to funding for community services under this Act. Requires the Department of Public Aid and the Department of Public Health to publish, annually, a report describing the implementation of the Act. Provides that the Act shall not alter or affect the manner in which persons with disabilities are determined eligible or appropriate for community services, except to the extent the determinations are based on the availability of community services, and shall not be read to limit in any way the rights of people with disabilities under federal or State law. Requires the Department of Public Aid, in consultation with the Department of Human Services, the Department of Public Health, and the Department on Aging, to adopt any rules necessary for the implementation and administration of this Act.

405 ILCS 30/4.4 new

405 ILCS 30/4.5 new

Amends the Community Services Act. Provides that whenever any appropriation, or any portion of an appropriation, for any fiscal year relating to the funding of any State-operated facility operated by the Office of Developmental Disabilities within the Department of Human Services or any mental health facility operated by the Office of Mental Health within the Department is reduced because of any of the following reasons, those moneys must be directed toward providing other services and supports for persons with developmental disabilities or mental health needs: (1) closing of a State-operated facility; (2) reduction of the number of units or available beds in a State-operated facility; or (3) reduction in the number of staff at a State-operated facility. Provides that in determining whether any savings are realized from closure of a State-operated facility or a reduction in the number of units, available beds, or staff, sufficient moneys shall be made available to ensure that there is an appropriate level of staffing and that life, safety, and care concerns are addressed so as to provide for the remaining persons with developmental disabilities or mental illness at State-operated facilities. Provides that the plan for using any savings realized from such a closure or reduction must be shared and discussed with advocates, advocacy organizations, labor organizations, and advisory groups whose mission includes advocacy for persons with developmental disabilities or persons with mental illness. Effective immediately.

Fiscal Note (Department of Human Services)

Under the bill, no overall savings would accrue as a result of any policy change regarding the DHS State Operated Facilities, regardless of the reason for the change. $565,821,500 or 15% of the General Revenue FY 2006 Budget Request is related directly to the State Operated Facilities. The entire amount of the State Operated Facilities Budget Request would be unavailable for any savings opportunities, regardless of the reason for the savings. For example, the FY 2006 Budget Request assumes $16,804,400 in savings attributable to the reduction of headcount and efficiency savings related CMS procurement efficiencies, facilities management, and IT procurement. This amount would no longer be a savings to the state, but be re-directed immediately to the appropriate community funding.

Permits a person to whom an absentee ballot was issued to vote in person on election day if he or she presents a piece of the torn or mutilated absentee ballot or executes an affidavit specifying that the person never received an absentee ballot. Authorizes an election authority to prohibit in-person absentee voting in municipal, township, and road district clerks' offices. With respect to early voting, requires that a voter's signature must be verified and requires that early voters using optical scan technology voting equipment must be permitted to request and vote another ballot if the voter's first ballot is not accepted by the voting equipment. Requires that an election authority transmit early voter information to the State Board of Elections for posting on its website accessible to local and State political committees. Effective immediately.

Judicial Note (H-AM 1)(Admin Office of the Illinois Courts)

Senate Bill 1445 (H-AM 1) would neither increase nor decrease the number of judges needed in the State.

Fiscal Note (State Board of Elections)

As indicated in Senate Bill 1445, the fiscal impact of such a program would be contingent upon funds being appropriated in next year's fiscal budget (FY07). At this point, it is not possible to determine the cost of a statewide program that would include print and electronic media service announcements, informational workshops and forums, and other educational public service materials.

State Mandates Fiscal Note (H-AM 1) (Dept. of Commerce & Econ Opportunity)

Does create a local government organization and structure mandate for which reimbursement of the increased costs to units of local government is not required under the State Mandates Act.

Home Rule Note (H-AM 1) (Dept. of Commerce & Econ Opportunity)

Does not pre-empt home rule authority.

Deletes everything after the enacting clause. Amends the Election Code. Makes changes in provisions concerning: disclosure on or in campaign communications; education programs in early and grace period voting; early voting procedures; counting of all absentee, early, grace period, and provisional ballots at each election authority's central ballot counting location rather than in precincts; signature verification of in person absentee, early, and grace period voters at the time of voting; signature verification of absentee ballot applicants and absentee ballots other than in person absentee ballots; each election authority's transmission of voter names and information to the State Board of Elections within one day after casting early and grace period ballots; restrictions on in-person absentee voting at the offices of municipal, township, and road district clerks; prohibition against revocation of early and grace period ballots in order to vote on election day; revocation of absentee ballots under certain circumstances in order to vote early or on election day; an early voter's right to a new ballot upon rejection of a ballot by optical scan technology voting equipment; notice and hearing procedures with respect to certain absentee voters whose ballots are rejected; pollwatchers at early voting polling places; and testing and approval of voting equipment. Effective immediately.

Fiscal Note (H-AM 2) (Board of Elections)

Requires the State Board of Elections, subject to appropriation, to develop and implement an educational program to inform the public about early and grace period voting: $43,200. Within one day after a voter casts a grace period or early voter ballot, the election authority shall transmit such information to the State Board of Elections. The Board shall maintain those names and that information in an electronic format on its website, arranged by county and accessible to State and local political committees. These numbers are predicated on a fully automated upload and handling process. If election authorities insist on using paper, the cost to implement and maintain this initiative would go significantly higher: $46,000 to implement and $31,000 annually thereafter. On or before the 21st day after an election, the election authority shall transmit to the State Board of Elections the number of absentee ballots, precinct by precinct, that were requested, received, counted, rejected, and counted following review. On or before the 28th day after an election, the Board shall compile the information and make such information available to the public. Once again this is predicated on a fully automated upload and data handling process. Using that assumption, our costs would be: $101,000 to implement and $81,000 annually thereafter.

Permits human service providers who receive an average of at least 51% of their operating funds from the State for the 3 years prior to the provider's application for coverage (rather than providers who receive at least 51% of their operating funds from the State) to opt for coverage of their employees as State employees. Provides that providers opting for inclusion of their employees within the term "employee" are responsible for paying the employer share of premiums under the program. Provides that the amendatory provisions are inoperable after December 31, 2009. Effective January 1, 2006.

Fiscal Note (Department of Central Management Services)

Preliminary estimates provided by the Department of Human Services place the number of eligible employees between 60,000 and 70,000. Assuming those enrollment figures and the current projections of FY 2006 liabilities for the State Employees Group Insurance Program, CMS projects the annual fiscal impact to be between $572.0 million and $667.4 million.

Senate Committee Amendment No. 1

Adds reference to:

5 ILCS 430/1-5

Changes references from a public institution of higher learning as defined in the Higher Education Cooperation Act to a public institution of higher education as defined in that Act.

Fiscal Note (Office of Executive Inspector General)

This bill creates an independent office, the Office of Higher Education Inspector General, by removing the institutions of higher learning from under the jurisdiction of the Office of Executive Inspector General for the Agencies for the Illinois Governor ("OEIG") to the Office of Higher Education Inspector General. It is estimated that this Office will require a staff of four to five employees: a Higher Education Inspector General, an Attorney, one or two Investigators, and an Administrative staff member. The estimated budget will be $450,000. This budget estimation is based upon an analysis of the Governor's Office of Management and Budget of the past experiences of the creation of the five Offices of Executive Inspector General. The funding for this new Office of Higher Education Inspector General will come from a line item in the budget for the OEIG that is designated for Higher Education issues and investigations. That specific line item is for $450,000 and will be moved out of the budget for the OEIG to create the budget for the Office of Higher Education Inspector General.

Deletes everything after the enacting clause. Reinserts Senate Bill 1683 with the following changes: Requires that computer codes of commercial, off the shelf software be placed in escrow with the State Board and that all codes placed in escrow also be available via the Internet. With respect to direct recording electronic voting systems, requires that a voter-verifiable paper ballot be produced and that the paper ballot is the official ballot that must be counted by means other than the equipment that produces it. Requires a random audit of the system consisting of a recount of the ballots in 5% of an election authority's precincts. Requires that the test plans, as well as the test results, pertaining to the system are public records and must be available on the Internet. Redefines a "computer program" to include displays of information or graphics. With respect to provisional ballots, removes the bill's provisions that the State Board of Elections must adopt rules for counting ballots cast in the incorrect precinct. Requires that a person cast a provisional ballot if the person (i) registered by mail and (ii) is required by law to produce identification when voting but fails to do so. Provides that the first procedure for a person to obtain and cast a provisional ballot is verification by an election judge that the person's address is within the precinct's boundaries. If the address is outside the precinct boundaries, requires that the judge (i) inform the person of that fact, (ii) provide the person with the election authority's telephone number to determine the proper polling place, and (iii) instruct the person to go to that polling place to vote. Specifies that a provisional voter's affidavit must include only those items of requires information that are available. Changes the form of the provisional voter's affidavit. Requires that provisional ballots cast after 7 p.m. by court order must be kept separate from other provisional ballots. When an election authority is determining the validity of a provisional ballot, provides that the affidavit must include at least the voter's (i) first and last names, (ii) house number and street name, and (iii) signature or mark. Provides that when an election authority determines that one of the specified source of information yields relevant information, the election authority need not obtain information from all the other sources but may obtain information until satisfied that the provisional voter is registered and entitled to vote. Adds an immediate effective date.

Fiscal Note (State Board of Elections)

The fiscal impact of this bill is difficult to estimate. The way the bill is currently written, it mandates that the SBE test every voting machine (NOT the program that is loaded on to these machines. For example, in Cook County and Chicago alone, there are over 5,000 machines; we would need over 100 people working around the clock for years, not just prior to an election, to satisfy this mandate.

30 ILCS 805/8.29 new

Amends the Illinois Municipal (IMRF) Article of the Pension Code to remove language requiring an affirmative resolution from the employer before airport police may become eligible for the sheriff's law enforcement employee formula. Makes park police eligible for the sheriff's law enforcement employee formula. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note (Government Forecasting & Accountability)

Would increase employer contributions for some airport authorities and park districts, as some IMRF members that are currently covered by the regular IMRF formula would instead be eligible for the SLEP formula.

Senate Floor Amendment No. 1

Provides that the changes apply to collective bargaining agreements entered into on or after the effective date.

40 ILCS 5/7-132 from Ch. 108 1/2, par. 7-132

30 ILCS 805/8.29 new

Amends the Illinois Municipal Retirement Fund (IMRF) Article of the Pension Code. Requires participation by all full-time municipal police officers who do not participate in an Article 3 police pension fund. Makes these police officers eligible for the sheriff's law enforcement (SLEP) formula. Excludes Chicago. Pre-empts home rule powers. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note (Government Forecasting & Accountability)

The fiscal impact would vary among municipalities. If the employer does not currently participate in IMRF, the cost of providing retirement benefits to police could be substantial. Would also increase the cost for municipalities that currently offer police officers the IMRF regular formula, as this bill requires all IMRF-covered police officers to be covered by SLEP formula.

Senate Floor Amendment No. 1

Provides that the changes apply to collective bargaining agreements entered into on or after the effective date.

30 ILCS 805/8.29 new

Amends the Illinois Municipal Retirement Fund (IMRF) Article of the Illinois Pension Code. Increases the retirement formula for sheriff's law enforcement employees (SLEPs) to 2.5% of the final rate of earnings for each year of SLEP service. Increases the maximum pension payable to a SLEP from 75% to 80% of the final rate of earnings. Removes the 2-year service requirement for earning new benefits after a return to service as a SLEP. Makes these changes apply to persons in service on or after July 1, 2004. Also increases the additional employee contribution paid by SLEPs to 2.5% of salary. Eliminates the reduction in benefit imposed on a surviving spouse who is more than 5 years younger than the deceased member, for the surviving spouse of any member who dies on or after the effective date. Allows a SLEP to convert up to 10 years of non-SLEP service credit into SLEP credit by paying the difference in employee and employer contributions, plus interest. Makes the additional unfunded liability for all changes subject to a full 30-year amortization period. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note (Government Forecasting & Accountability)

The Fund's actuaries have not yet determined the fiscal impact. Similar legislation in March 2004 would have increased accrued liabilities of the Fund by $36.2 Million and increased average annual costs by 1.18% of payroll when the benefit increases are calculated individually.

House Amendment No. 3

Replaces everything after the enacting clause with the engrossed bill with the following changes: (i) allows the employer, by resolution or ordinance, to provide for amortization of the additional unfunded liability over a 35-year or 40-year period; (ii) increases the additional employee contribution paid by SLEPS to 3%; and (iii) removes the effective date provision.

220 ILCS 5/16-102

220 ILCS 5/16-107

Amends the Public Utilities Act. Requires each electric utility to file, on or before February 1, 2006, a tariff or tariffs which allow residential retail customers in the electric utility's service area to elect real-time pricing beginning January 1, 2007. Sets forth information required to be included in the tariff. Requires an electric utility providing real-time pricing to install an appropriate meter for customers who elect to use real-time pricing and in all new service locations unless the customer requests a watt-hour meter. Requires the electric utility to contract with an Illinois nonprofit corporation to develop a program of consumer outreach, education, and enrollment concerning real-time pricing and to establish and administer information and technical and customer assistance for management of electricity use. Authorizes the electric utility to impose a uniform charge on all residential customers in order to recover its reasonable costs in complying with the real-time pricing provisions. Defines "real-time pricing" to mean tariffed retail charges for delivered electric power and energy that vary hour-to-hour (now, that vary on an hour-to-hour basis for non-residential retail customers and that vary on a periodic basis during the day for residential retail customers) and that are determined from prices posted by the Independent System Operator or by a comparable methodology approved by the Illinois Commerce Commission. Effective immediately.

Senate Committee Amendment No. 1

Deletes a provision requiring each electric utility providing real-time pricing to install a meter capable of recording hourly interval energy use in all new service locations unless a watt-hour meter is specifically requested by the customer.

House Amendment No. 1

Replaces everything after the enacting clause. Amends the Public Utilities Act. Requires each electric utility to file a tariff or tariffs allowing residential retail customers in the electric utility's service area to elect real-time pricing beginning January 1, 2007. Provides that the Commission may, after notice and hearing, approve the tariff or tariffs, provided that the Commission finds that the potential for demand reductions will result in net economic benefits to all residential customers of the electric utility. Sets forth information required to be included in the tariff. Requires an electric utility providing real-time pricing to install an appropriate meter for customers who elect to use real-time pricing. Requires the electric utility to contract with a program administrator to develop a program of consumer outreach, education, and enrollment concerning real-time pricing and to establish and administer information and technical and customer assistance for management of electricity use. Authorizes an electric utility to recover reasonable costs incurred in complying with such an order by imposing a uniform charge, included in its customer charge, on the residential customers in its service territory. Defines "real-time pricing" to mean tariffed retail charges for delivered electric power and energy that vary hour-to-hour (now, that vary on an hour-to-hour basis for non-residential retail customers and that vary on a periodic basis during the day for residential retail customers) and that are determined from wholesale market prices using a methodology approved by the Commission. Makes other changes. Effective immediately.

House Amendment No. 3

Replaces everything after the enacting clause with the bill as amended by House Amendment No. 1, with the following changes: Requires that electric utilities file the real-time pricing tariff beginning January 2, 2007 (was, January 1, 2007). Provides that a customer who elects real-time pricing shall remain on such rate for a minimum of 12 months. Provides that the Illinois Commerce Commission shall, in examining economic benefits from demand reductions, consider certain factors. Makes changes concerning the contents of the tariff. Removes the limitation on how an electric utility may recover its reasonable costs, but stipulates that recovery of the costs be fairly apportioned among the electric utility's residential customers, including, under specified circumstances, residential customers who do not elect real-time pricing. Provides that the provisions concerning real-time pricing do not apply to any electric utility providing service to 100,000 or fewer customers. Effective immediately.

Provides that the provisions establishing the Employment Security Administrative Fund are repealed on January 1, 2006. Effective July 1, 2005.

Fiscal Note (Department of Employment Security)

SB 1770 eliminates the Employment Security Administrative Fund, which was established in 1990 from a one-time revenue source and used for initiatives designed to decrease and prevent unemployment. At one point the fund held over $11 million, but it has now been virtually exhausted and there are no prospects of replenishing it. The only fiscal impact of the bill is that the remaining balance in ESAF ($3,268.05 as of May 5, 2005) would be transferred to the Unemployment Trust Fund, which is dedicated to paying unemployment benefits to jobless workers.

Eliminates certain language regarding transfers in 1989 and earlier years, and makes other changes. Effective July 1, 2005.

Fiscal Note (Department of Employment Security)

SB 1771 has no impact on state employees' or former state employees' rights to unemployment benefits. It simply reduces a two-step process to a one-step process. The only fiscal impact of the bill is that the remaining balance in the State Employees' Unemployment Benefit Fund ($36,568.29 as of May 5, 2005) would be transferred to the Unemployment Trust Fund.

Fiscal Note (Department of Revenue)

The Department of Revenue cannot determine the fiscal impact of this legislation on the Department of Transportation.

Fiscal Note (Department of Transportation)

The additional increase to IDOT's expenditures would be substantial in that a system would need to be created to verify the correctness of the VIN submitted to IDOT. Currently, IDOT has no need for such an accurate VIN. Development of a system that would be useful in this VIN program would be costly. Computer programming costs range from $60 for two hours to $120 for four hours depending on data parameters requested, $200 to $250 to run the job on the CMS mainframe, and $5 to produce on electronic media formats (CD's, magnetic tape, etc.).

Amends the Older Adult Services Act. Provides that no later than January 1, 2006 and every January 1 thereafter, the Department on Aging and the Illinois Housing Development Authority shall file with the Governor and the General Assembly a plan that establishes goals for the number of affordable housing units to be made available to the frail elderly in the next fiscal year. Requires that the plan: (i) detail the number of new units of housing to be created, the number of units made accessible through rehabilitation and renovation, and the number of new supportive living units to be created and certified; and (ii) include recommendations for statutory or policy changes needed to reduce barriers to the establishment of affordable housing units for the frail elderly. Effective immediately.

Senate Committee Amendment No. 1

Adds the Department of Public Aid as an agency that must file a plan for affordable housing for the frail elderly.

Senate Committee Amendment No. 2

Replaces everything after the enacting clause. Amends the Older Adult Services Act. Provides that the restructuring of older adult services shall include an affordable housing component. Provides that the Department on Aging and the Departments of Public Health and Public Aid shall utilize the recommendations of Illinois' Annual Comprehensive Housing Plan, as developed by the Affordable Housing Task Force, in their efforts to address the affordable housing needs of older adults. Effective immediately.

Fiscal Note (S-AM 1) (Department of Revenue)

Does not have a fiscal impact on the Department of Revenue. The Illinois Department of Revenue cannot determine the fiscal impact that it will have on the Department on Aging, the Department of Public Aid, or the Illinois Housing Development Authority.

Fiscal Note (S-AM 2) (Department of Revenue)

Does not have a fiscal impact on the Department of Revenue. The Illinois Department of Revenue cannot determine the fiscal impact that it will have on the Department on Aging, the Department of Public Aid, or the Illinois Housing Development Authority.

Fiscal Note (S-AM 1 & 2)(Housing Development Authority)

Senate Bill 1967, as originally filed, would have required IHDA to develop and file a plan which would establish production goals for the number of housing units to be made available to the frail elderly in the next fiscal year, detailing the number of units by new construction and rehabilitation, as well as for supportive living units. Given the content of Senate Amendment 2, it references the existing housing plan required by the Governors Executive Order 2003-18, which primarily addresses the targeting and allocation of existing State administered programs and resources among priority populations, one of those being low income seniors. As such, this amendment as written is not deemed to have any noted fiscal impact on existing IHDA resources or staffing. The Executive Order required plan is actually more comprehensive in its coverage of elderly housing needs.

Fiscal Note (S-AM 1 & 2) (Dept. on Aging)

Does not pose any additional spending or staff pressures on IDoA.

Fiscal Note (S-AM 1) (Dept. of Public Aid)

This amendment has a minimal administrative impact on the Department.

Fiscal Note (S-AM 2) (Dept. of Public Aid)

This amendment has minimal administrative impact on the Department.

Deletes everything after the enacting clause. Creates the FY2007 Budget Implementation (Finance) Act. Amends various Acts to make changes in State programs that are necessary to implement the Governor's FY2007 budget recommendation concerning finance. Effective immediately.

State Mandates Fiscal Note (H-AM 2)(Dept of Commerce & Economic Opportunity)

This legislation does not impose requirements on units of local government, therefore, does not create a State mandate under the State Mandates Act.

Home Rule Note (H-AM 2) (Dept. of Commerce & Econ Opportunity.)

Does not pre-empt home rule authority.

Balanced Budget Note (H-AM 2)(Gov's Office of Mgmt and Budget)

The Governor's Office of Management and Budget estimates that this bill, if enacted into law, will allow the State to enact a balanced budget in fiscal year 2007.

Fiscal Note (H-AM 2)(Gov's Office of Mgmt and Budget)

The Governor's Office of Management and Budget estimates that this bill, if enacted into law, will have a fiscal impact of at least $240 million, which will be necessary to enact a balanced budget.

State Debt Impact Note (H-AM 2) (Com. on Gov. Forecasting & Accountability)

Would not affect the level of state indebtedness.

SB 01977 (CONTINUED)

Pension Note (H-AM 2) (Com. on Gov. Forecasting & Accountability)

Pension Stabilization Fund: According to the Commission's FY 2007 Revenue Forecast, general funds revenues are expected to grow by 2.7% over estimated FY 2006 receipts. Therefore, no transfer of funds to the Pension Stabilization Fund would occur in FY 2007. Alternative Retirement Cancellation Payment: The State Employees' Retirement System would realize an actuarial gain when some members chose the ARCP payment, as accrued liability associated with that member, which would be eliminated, would be larger than the enhanced refund. The same ARCP payment option was offered to members of SERS in 2005, and 293 SERS members choose to participate. The system made ARCP payments of $12.2 million and $14.6 million in SERS liability was eliminated. Chicago Transit Authority Pension Funding: The Chicago Transit Authority Pension Fund's actuary has determined that the fund's assets will be exhausted by 2012 without significant increased contributions and changes to the funding structure and benefit levels.

Judicial Note (H-AM 2)(Admin Office of the Illinois Courts)

This legislation would neither increase nor decrease the number of judges needed in the State of Illinois.

Housing Affordability Impact Note (H-AM 2)(Housing Development Authority)

This legislation will have no effect on constructing, purchasing, owning, or selling a single-family residence.

Amends the Mental Health and Developmental Disabilities Code. Adds persons included within the definition of "person subject to involuntary admission", including: (1) a person with mental illness who, because of the nature of his or her illness, is unable to understand his or her need for treatment and who, if not treated, is at risk of suffering or continuing to suffer mental deterioration or emotional deterioration, or both, to the point that the person is at risk of engaging in dangerous conduct; and (2) a person who has been adjudged to be subject to authorized involuntary treatment and with respect to whom (A) outpatient treatment has been shown to be ineffective because the person is unable or unwilling to comply with his or her treatment plan and (B) inpatient admission is likely to be effective in implementing the person's treatment plan and is otherwise in the person's best interests. Provides that at any time before the conclusion of a hearing on involuntary admission and the entry of the court's findings, a respondent may enter into an agreement to be subject to an order for alternative treatment or care and custody, if certain conditions are met. Provides that an agreed order for care and custody may grant the custodian the authority to admit a respondent to a hospital if the respondent fails to comply with the conditions of the agreed order. Provides that an agreed order for alternative treatment or care and custody does not constitute a finding that the respondent is a person subject to involuntary admission. Provides that a respondent may not be cited for contempt for violating the terms and conditions of his or her agreed order for care and custody. Makes other changes.

Senate Floor Amendment No. 1

Provides that "dangerous conduct" means threatening behavior or conduct that places another individual in reasonable expectation of being harmed (instead of acts or omissions that place the individual or others in risk of harm, including threatening behavior or conduct that places another individual in reasonable expectation of being harmed). Provides that a "person subject to involuntary admission" includes a person with mental illness who, if not treated, is reasonably expected to suffer or continue to suffer (instead of at risk of suffering or continuing to suffer) mental deterioration or emotional deterioration, or both, to the point that the person is reasonably expected to engage in dangerous conduct (instead of at risk of engaging in dangerous conduct). Deletes a provision that a "person subject to involuntary admission" includes a person who has been adjudged to be subject to authorized involuntary treatment and with respect to whom (i) outpatient treatment has been shown to be ineffective and (ii) inpatient admission is likely to be effective in implementing the person's treatment plan.

With respect to the apportionment of business income for persons other than residents, provides that for tax years ending on or after December 31, 2005 the income shall be apportioned using the property factor, payroll factor, and sales factor. Effective immediately.

Fiscal Note (Department of Revenue)

Tax liability, by recalculating how positive business income is apportioned, would have been $99.7 million higher for tax year 1999, using property, payroll, and double-weighted sales method versus sales only. However, since 1999 some businesses have seen dramatic increase or decrease in business income, some new businesses have been created while some existing businesses have closed or merged with other businesses, some businesses have increased or decreased their nexus to Illinois, and some businesses have changed from Type C corporations to Type S corporations, limited liability companies, or partnerships, which means that the current actual revenue impact may be noticeably higher or lower than $99.7 million.
