## FORWARD

The attached report is being submitted to comply with Section 2-3.145 of the School Code [105 ILCS 5/2-3.145] as amended by Public Act 95-0555.

Section 2-3.145 mandates that the Illinois State Board of Education (ISBE) submit to the General Assembly and the Governor an annual report that designates school districts' special education expenditures, receipts, and net special education expenditures. The receipts are to be specified as local, state, and federal. The calculation utilizes data ISBE receives on school districts' Annual Financial Reports and Pupil Transportation Claims and from the Student Information System Data Warehouse (previously known as the Fall Housing Report) and the IEP-Student Tracking and Reporting system (I-Star).

The data is limited to data sources delineated above, so this report should not be perceived as reflecting the exact amount of net special education costs incurred by each school district; it should be noted that the methodology utilized has been consistent for all 13 years that the report has been issued. Further, the report reflects only the amount of attributed special education expenditures incurred by each district compared to the amount of attributed special education revenue received as per the methodology described below. The gross expenditures are as reported in each district's 2020 Annual Financial Report. See Appendix B for an example calculation.

Delayed state payments have an impact on this report. Depending upon the timing of the payments, state payments may not be reflected in the fiscal year in which they should have been paid. In Illinois, 680 of 851 school districts that submit Annual Financial Reports are on the cash basis of accounting. This means that revenue receipts are recognized in the fiscal year in which they are actually received. The remaining districts are on the modified accrual basis of accounting, which recognizes revenues in the fiscal year for which they are intended as long as the revenue is received within 60 days of the end of the fiscal year.

Legislative sponsors and educational stakeholders held discussions and agreed to the following assumptions, which have been used in each report since the passage of the legislation in fiscal year 2008.

- The I-Star Report is utilized to calculate the Special Education Child Full-Time Equivalent (FTE) Count. This report collects each identified special education student's enrollment in special education and the Educational Environment (EE) for each student. The EE defines a range of time the student receives regular services. For example, a student with an EE code of 02 is defined as "inside the general education classroom no more than 79 percent of the school day and no less than 40 percent of the school day." Thus, all students with an EE code of 02 are counted as receiving 60 percent special education services. The calculation for the Special Education Child Full-Time Equivalent Count would be 60 percent times the number of days the student was enrolled divided by the number of days the district was in session (for example  $60\% \times 50 \text{ days enrolled} \div 176 \text{ days in session} = .170 \text{ full-time equivalent count}$ ). This calculation is computed for each identified student in the district and summed up to obtain the total Special Education Child Full-Time Equivalent Count for the district.
- Expenditures that are directly related to special education services are allocated 100 percent as special education. These expenditures include special education instructional programs, special education private tuition, speech pathology and audiology services, etc. (See Appendix B of the attached report.)

- The ratio of Total Special Education Child Count to Total Child Count is utilized for expenditure functions that provide greater support to special education to allocate the expenditures to special education. These costs include health services, office of the principal services, etc. (See Appendix B, 19.589 percent.)
- Expenditure functions related to all students are allocated utilizing the ratio of Special Education Child Full-Time Equivalent Count to the Total Child Count for each district. These costs include guidance services, board of education services, etc. (See Appendix B, 7.219 percent.)
- Revenues that are directly related to special education services are allocated 100 percent as special education. These revenues include special education purposes levy, special education tuition, special education private facility reimbursement, etc. (See Appendix B.)
- Revenues that are not directly related to special education services are allocated utilizing the ratio of Special Education Child Full-Time Equivalent Count to the Total Child Count for each district. These revenues include general purpose levies, general state aid, etc. (See Appendix B, 7.219 percent.)
- ISBE does not collect the percentage of time ancillary services, such as social work, psychological, and other support services, are utilized for special education purposes. Therefore, these expenditures are allocated as follows: (See Appendix B.)
  - Attendance and Social Work Services—90 percent;
  - Psychological Services—90 percent; and
  - Other Support Services—5 percent.

#### **Special Education Expenditures and Receipts Report History**

Table 1, on the next page, reflects the total amount calculated for the estimated net special education expenditures after deduction of a proportionate share of local funds received and specific state and federal funds received. This year, the net special education expenditures increased to \$2.0 billion compared to last year's \$1.8 billion. The variance is discussed in the Summary section.

Fiscal Year	Estimated Special Education Expenditures (A)	Proportionate Share of Local Funds (B)	State Funding (C)	Federal Funding (D)	Net Special Education Expenditures (A – B – C – D)
2008	\$4.0	\$0.9	\$1.4	\$0.4	\$1.3
2009	3.8	0.9	1.4	0.4	1.1
2010	4.4	0.9	1.5	0.7	1.3
2011	4.5	0.9	1.6	0.7	1.3
2012	4.6	0.9	1.7	0.6	1.4
2013	4.8	1.0	1.8	0.5	1.5
2014	4.9	1.1	1.8	0.5	1.5
2015	5.0	1.2	1.7	0.5	1.6
2016	5.1	1.3	1.6	0.5	1.7
2017	5.2	1.2	1.7	0.5	1.8
2018	5.4	1.4	2.0	0.6	1.4
2019	5.7	1.4	1.9	0.6	1.8
2020	6.0	1.5	1.9	0.6	2.0

**Summary of Geographic Regions:**

Chart 1 reflects the amount of allocated special education expenditures compared to the allocated special education revenue, per geographic region.

Chart 2 denotes the overall amount of net expenditures districts incur after deducting local, state, and federal revenues allocated to special education, by geographic region.

All geographic regions of the state reflected an increase in the net special education expenditure per special education child cost for the 2021 report. This is due to the following:

- Special education expenditures increased at 6.2 percent.
- Total special education revenue increased at 3.1 percent.
- Special Education enrollment decreased 3.5 percent.

**In Summary**

The calculations for this report are limited to the data collected by ISBE and are based upon special education student counts compared to total student counts unless actual revenue or expenditures are known. This report should not be perceived as reflecting the exact amount of net special education costs incurred by each school district, but it should be noted that the methodology utilized has been consistent for all 13 years that this report has been issued. This report is not intended to denote the amount of or type of special education services school districts are providing for their students. However, this report continues to demonstrate the high costs that school districts incur to provide necessary special education services to their students.

Expenditures in FY 2020 are greater than revenue for all regions of the state. See Chart 1. FY 2020 net special education expenditures increased to \$2.0 billion compared to \$1.8 billion in FY 2019. See Table 1

# Special Education Expenditures and Receipts Report - 2021

(Based on the FY20 Annual Financial Report Data)

## DEFINITIONS & ASSUMPTIONS

### DEFINITIONS

**Basis of Accounting:** Is either a cash basis or an accrual basis. For purposes of reporting on the AFR (ISBE Form 50-35), cash basis includes a "modified cash" basis and accrual basis includes a "modified accrual" basis.

**Expenditures:** Transactions involving the disbursement of cash or the establishment of an obligation without creating an asset or canceling a liability.

**Net Expenditures:** Expenditures minus the sum of federal, state, and local receipts (Note: negative value indicates receipts exceed expenditures).

**Receipts:** Transactions involving the receipt of cash (or other economic resources) without creating a liability or canceling an asset.

- **Federal Receipts:** Consisting of federal grants, aids and reimbursements (4000 Accounts)
- **State Receipts:** Consisting of state grants, aids and reimbursements (3000 Accounts)
- **Local Receipts:** Consisting of taxes, tuition, charges for services, fees, investment income, and miscellaneous proceeds (1000 Accounts)

**Special Education Child Counts:** Are determined from the "I-Star Report" or "Fall Housing Report System" for FY07 "Student Information System" or SIS for FY08 and beyond. Special education students reported must be eligible to receive services or be in a special education program receiving direct or related services, be at least age three through age 21, inclusive, and have an individualized education program (IEP) or individualized services plan (ISP) in place. Applicable categories are:

- A. **Special Education Child Count:** Obtained from the "I-Star Report" submitted to ISBE.
- B. **Special Education Child (Full-time Equivalent) Count:** Calculated from the "I-Star Report" utilizing each student's beginning & end date and percent of time in special education as determined by the education environment.
- C. **Total Child Count:** Obtained from the student information submitted to ISBE in "SIS".
- D. **Special Education Child Count divided by Total Child Count:** Calculated from information in items A & C above.
- E. **Special Education Child Full-time Equivalent Count divided by Total Child Count:** Calculated from information in items B & C above.

## **ASSUMPTIONS**

- Figures exclude the Municipal Retirement/Social Security Fund. This fund is created if a separate tax is levied to provide resources for the school district's share of retirement benefits for covered employees or a separate tax is levied to provide resources for the district's share of social security and medicare only payments for covered employees. If these taxes are not levied, the payments should be charged to the fund where the salary is charged.
- Figures include expenditures for Bilingual programs, but exclude expenditures from Vocational Education or Title I programs.
- "Flow-Through Receipts from One Local Education Entity to Another Local Education Agency" include only the flow-through monies from federal sources (2200 Account). Similar receipts from state or local sources are excluded (2100 & 2300). However, each school district's related receipts and expenditures will be captured in the calculation.
- The school district AFR may be filed using either the cash or the accrual basis of accounting. Adjustments have not been made for any differences in the recognition/timing of receipts and/or expenditures that result from the basis of accounting used by the school district.
- The data is limited to the accuracy as reported to ISBE from the districts.
- Attendance/Social Worker and Psychological Services are assumed at 90% special education for all districts. Other Support Services – Pupil are assumed at 5% special education for all districts.
- The percentage of time assumed for special education is the highest percentage allowable for each designated educational environment. For example, if the designated educational environment reports a student is 40 to 79% in the regular classroom, it is assumed that the student is 60% special education.
- The special education pupil transportation expenditures and receipts are obtained from the unaudited Pupil Transportation Claim as submitted by the district.
