

Illinois Department of Military Affairs

2021 Annual Report

Message from The Adjutant General

Dear Governor Pritzker ...

In the Illinois Department of Military Affairs 2021 Annual report, you will read about the accomplishments of Illinois National Guard Soldiers and Airmen during fiscal year 2021. As required, this report will show you our state fiscal support and expenditures by county during the reported period. However, I am especially honored to highlight some of our successes.

2021 followed on the heels of the Illinois National Guard being on the frontline against COVID-19 response where approximately 1,650 Illinois National Guard members mobilized to perform a myriad of missions from COVID testing to call center operations, fatality management, and support of a multiple health care facilities across the state. These 1,650 Guardsmen performed over 95,000 duty days in support of COVID operations achieving the following:

- Conducted over 250,000 COVID tests on Illinois citizens by National Guard-run Community Based Testing Sites*
- Delivered 8-million masks and almost 5-thousand pallets of personal protective equipment.*
- Two hundred Guardsmen supported IEMA and 40 health departments providing medical planning support, logistical support and liaison officers to ensure immediate statewide response.*
- Managed and delivered 3.3 million cloth masks to schools*

In 2021, the Illinois National Guard didn't just play an important role in testing, but also vaccinating. With more than 1,700 Illinois Soldiers and Airmen on duty, almost 1.9 million vaccinations were administered in 241 Illinois communities.

In addition to the ILNG COVID-19 re-

sponse, Illinois Soldiers and Airmen supported flood response efforts in Illinois and wildfire response in California.

The Illinois National Guard also played a pivotal role in supported law enforcement agencies to restore peace following violent demonstrations. Approximately 500 Soldiers and Airmen spent nearly 3 months in Washington D.C. supporting security efforts around the U.S. Capitol Complex.

In total, the Illinois National Guard expended more than 260-thousand man-days supporting operations here at home. All the while the ILNG had more than 1,000 troops deployed overseas.

In 2021, Lincoln's Challenge Academy continued to change the lives of some of our state's at-risk youth. The program graduated 90 cadets in the last year and continues to have a major impact across the state.

Fiscal year 2021 was busy. Our service members performed exceptionally well while fulfilling our missions at home and abroad, and we have improved our professional and tactical skills to be ready for future missions. I could not be more proud to have led such a world class organization and the extraordinary men and women who serve our great State and Country.

*Richard R. Neely
Maj. Gen., ILNG
The Adjutant General*

The Illinois Department of Military Affairs, headquartered at Camp Lincoln in Springfield, is responsible for all matters relating to the Illinois National Guard. As a department of state government, DMAIL oversees and manages the daily operations of the Illinois National Guard and its related activities. The department became a part of the executive branch of state government July 8, 1957, as currently stipulated by the Illinois Compiled Statutes, Chapter 20, Act 1805. The department is the official channel of communication between the federal government and the State of Illinois on all matters relating to the Illinois National Guard. State funding is under the supervision of the Comptroller Division of the department. Federal appropriations are supervised by the U.S. Property and Fiscal Officer for Illinois. The department brings in significant federal dollars to the state through personnel, equipment and training support funds for operations, training exercises and assigned missions.

The Illinois National Guard, a joint Army and Air Force organization, operates under the Illinois Department of Military Affairs and is commanded by The Adjutant General, a two-star general appointed by the Governor.

The Illinois Army National Guard is approximately 10,000 strong, while the Illinois Air National Guard comprises about 3,100, for a combined strength of 13,100 members. Under Department of Defense plans, the Illinois National Guard stands shoulder-to-shoulder with the active duty components in providing our nation's defense capability. The Illinois Army National Guard maintains 49 readiness centers (48 state-owned and one federally licensed), three joint armed forces reserve centers, one state headquarters facility, one military education facility, one military museum, two outdoor weapons range complexes, two training areas, three Army Aviation Support Facilities and 24 vehicle maintenance facilities in 49 communities throughout the state. The Illinois Air National Guard maintains large bases at two civilian airports and one active U.S. Air Force Base.

The National Guard is unique from other Reserve components because of its dual mission. Not only is the Guard a vital part of the Defense Department's "total force" concept, it is also a key resource available to the Governor with an ongoing state mission. When natural disaster, civil disturbance or other state emergency strikes, the Illinois National Guard is trained and ready to respond.
