

Illinois Traffic and Pedestrian Stop Study

2021 ANNUAL REPORT: TRAFFIC STOPS

Part II Detailed Tables

Prepared for the Illinois Department of Transportation

By

The Mountain-Whisper-Light: Statistics & Data Science

In Cooperation with SC-B Consulting, Inc.

Acknowledgements

The Mountain-Whisper-Light, Inc. and SC-B Consulting, Inc. gratefully acknowledge the contributions of Jessica Keldermans (Bureau Chief) and Sean Berberet, Bureau of Data Collection, Illinois Department of Transportation, and their associates at IDOT. Many thanks to the office of the Illinois Secretary of State for providing summary statistics on drivers' licenses (without any personally identifying information). We are also grateful to the law enforcement agencies and their staff for their diligence and patience in collecting and processing the data used in this study.

Traffic Stops: Agency Tables

The following section comprises tables summarizing Illinois 2021 traffic stop data.

A summary of Illinois statewide traffic stops appears first followed by 1) statistical summaries for each agency in alphabetical order, 2) a table listing median durations of traffic stops by agency, 3) a table listing agencies that reported zero stops, 4) a table listing agencies that reported incomplete data, and 5) a table listing non-compliant agencies.

Each law enforcement agency that supplied complete 2021 stops records was provided an advance copy of their tables to review and provide feedback prior to the study team's completion of this final report. The agencies were invited to comment on the tables and the following 18 agencies did provide comments on their traffic tables:

Armington Police	Lake Zurich Police
Bourbonnais Police	Lasalle County Sheriff
Calumet Park Police	Lincolnwood Police
Downers Grove Police	Metropolitan Airport Authority
Easton Police	Morrisonville Police
Elgin Community College Police	Moweaqua Police
Henning Police	Normal Police
Henry County Sheriff	Peotone Police
Illinois State Police	Rushville Police

Each agency's comments appear in this document following their statistical tables. The study team appreciated receiving the feedback and studied the comments in detail. Two agencies expressed some concern about the estimated driver benchmark population in their tables. The study team stands by the methodology they employed to estimate the benchmark driving population for each agency, as described in detail in Part I (Traffic Stops) Appendix C of this report, while acknowledging its limitations.

Readers are urged to read *Part I* of this report, the *Executive Summary*, a separate document. *Part I* is a guide to the use of the tables and explains how all the numbers were derived. *Part I* also includes a technical appendix, which may be of interest to those who seek a deeper understanding of the methodology.

Summary of Traffic Stops for 2021 - ILLINOIS STATEWIDE RESULTS						Benchmark: Crash-based*
	White	Black or African American	Hispanic or Latino	Asian	American Indian or Alaska Native	Native Hawaiian or Other Pacific Islander
Panel: 1 Summary of Traffic Stops, Rates, and Rate Ratios with 95% Confidence Intervals. Total stops: 1,655,935. Total benchmark population: 9,350,390.						
Stops (% of Total)	799,981 (48%)	507,334 (31%)	284,783 (17%)	54,218 (3.3%)	5,859 (0.4%)	3,760 (0.2%)
Benchmark (% of Total)	5,060,436 (54%)	1,884,014 (20%)	1,826,702 (20%)	545,762 (5.8%)	28,354 (0.3%)	5,122 (0.05%)
Stop Rate (95% Confidence Interval)	0.1581 (0.1577 - 0.1584)	0.2693 (0.2685 - 0.27)	0.1559 (0.1553 - 0.1565)	0.0993 (0.0985 - 0.1)	0.207 (0.201 - 0.212)	0.73 (0.71 - 0.76)
Stop Rate Ratio vs White (95% Confidence Interval)	1.0	1.7 (1.69 - 1.72)	0.986 (0.979 - 0.993)	0.628 (0.622 - 0.635)	1.31 (1.27 - 1.34)	4.6 (4.5 - 4.8)
Panel: 2 Summary of Reason for Stop - Number (Percentage of All Stops for the Racial Group with the Noted Reason for Stop) [95% Confidence Interval]

Comments Provided by the Law Enforcement Agency – ILLINOIS STATE POLICE

The Illinois State Police (ISP) remains committed to making Illinois roadways safe for all drivers. Through traffic stops and consent searches, the ISP is taking illegal weapons and other illegal substances off of roadways in Illinois, making travel safer.

The ISP continues to build on the progress made since the implementation of the Traffic Stop Statistical Study in 2004. ISP leadership evaluates the data captured each year, ensures all officers are trained on constitutional policing, and provides comprehensive supervision to ensure compliance.

The ISP will continue to focus training on equitable treatment of drivers and ensuring the rights of all persons are protected.

Comments Provided by the Law Enforcement Agency – NORMAL POLICE

The analysis presented by IDOT does not provide a clear picture of the actual driving population in this community. The driving community in the Town of Normal is an extremely diverse population that is not accurately reflected in the assigned benchmark populations.

The mix of large employers in the private sector, multiple Universities and Colleges along with the convergence of Interstates 74, 55 and 39 create a unique transient driving population that is not adequately represented in the benchmark populations assigned to our agency. Analysis of the resident data submitted to IDOT for this study shows that only 22% of the stops involved drivers with a residence in Normal, and approximately 51% of the stops involved drivers with a residence outside of the immediate communities in our Benchmark population.

The analysis presented this year attempted to make changes to account for discrepancies in the driving population and utilized crash report benchmarks to determine benchmark population for minority drivers. The crash reports identified in our study included less than 1% of the benchmark population (832 crashes for a benchmark population of 146,579). The zip codes utilized to determine which areas to include in the benchmark and what weight to assign to each zip code included only not-at-fault drivers involved in 2 vehicle accidents.

This methodology effectively excludes the population that would be at greatest probability of involvement in a traffic stop, which is the purpose of this study. Traffic stops are conducted when violations of the Illinois Vehicle Code are observed by officers. At-fault drivers and drivers involved in single vehicle crashes or multi-vehicle crashes (3+ vehicles) are statistically more likely than not-at-fault drivers to be the subject of a traffic stop based on a violation of the Illinois Vehicle Code. This study does not recognize the diversity of drivers on the roadway in our community, and continues to provide an inadequate representation of the driving population in the assigned benchmarks.

The Normal Police Department remains committed to protecting the citizens in our community, those living and working here along with those drawn to the area to enjoy the multitude of recreational activities offered. The Department remains committed to the use of sound police strategies based on probable cause and the judicious use of police discretion.
