Re: Data Governance and Organization to Support Equity and Racial Justice Act Section 20-15(a) Report

This report is issued pursuant to the provisions of Section 20-15(a) of the Data Governance and Organization to Support Equity and Racial Justice Act (“the Act”) (20 ILCS 65/20-1). The Act requires Illinois State Board of Education to report statistical data on the racial, ethnic, age, sex, disability status, sexual orientation, gender identity, and primary or preferred language demographics of program participants for each major program the Illinois State Board of Education administers.

Introduction

In the first Annual March Data Governance and Organization to Support Equity and Racial Justice Act Report, Illinois State Board of Education identified the following “major programs” and corresponding participant populations for analysis:

- English Learners - Serving Student Enrollment Totals - District and State Levels
- English Learners –State
- Individualized Education Programs–State
- Career and Technical Education –State
- Charter Schools –State
- Advanced Placement –State
- State Assessment Participants –State
 - Illinois Assessment of Readiness-English Language Arts
 - IAR-Math
 - SAT-Reading
 - SAT-Math
 - Dynamic Learning Maps-ELA
 - DLM-Math
 - DLM-Science
 - Illinois Science Assessment
- State Assessment Proficient Students –State
 - IAR-ELA
 - IAR-Math
 - SAT-Reading
 - SAT-Math
 - DLM-ELA
 - DLM-Math
 - DLM-Science
 - ISA
- State Assessment Non-Proficient Students –State
 - IAR-ELA

- IAR-Math
- SAT-Reading
- SAT-Math
- DLM-ELA
- DLM-Math
- DLM-Science
- ISA
- All Student Enrollment –State
- Low Income (Eligible for Free or Reduced-Price Lunch) –State

For each major program identified in the Illinois State Board of Education March 2022 report, this report will provide statistical data where available for each of demographic dispositions enumerated in the Act: race, age, sex, disability status, sexual orientation, gender identity and primary or preferred language.

As of the date of this report Illinois State Board of Education was unable to begin reporting the following sex and sexual orientation.

The aforementioned data has not yet been defined and standardized across all “major programs” defined in this report.

Change Management Efforts and Potential Challenges

Educators, families, LGBTQ+ advocates, and students agreed throughout our work group discussions that the collection of sexual orientation data and the collection of sex as separate from gender identity tied to “major programs” has the potential to cause students harm as it must be identifiable to them individually and memorialized in their student records. However, the work group believes the purpose of the Act can be fulfilled by collecting student sexual orientation and more comprehensive gender identity information through anonymous survey(s) that are already used in Illinois schools.

There are currently three anonymous surveys conducted in Illinois schools -- the 5Essentials Survey, the Illinois Youth Survey (IYS), and the Youth Risk Behavior Survey (YRBS). The IYS and YRBS currently include questions regarding sex, sexual orientation, and gender identity; the 5Essentials Survey does not include questions regarding sex, sexual orientation, and gender identity. The surveys are a patchwork across schools and students and are subject to change year to year. The work group recommends ISBE utilize information from each survey to report statistical data as required by the proposed amendatory language. The work group also encourages the Illinois Department of Human Services to review current Illinois Youth Survey questions to ensure inclusion of issues faced by LGBTQ+ youth. The work group recommends that the State Board reconvene a similar group to revisit this issue by December 2024. To this end, ISBE will continue to consult with stakeholders again beginning in the Summer of 2023 regarding the previous recommendations and possible implementation of these recommendations. Initial outreach has already begun.

Recently, on June 9, 2023, HB3071 was sent to Governor Pritzker for his signature. This bill includes a language change to 20 ILCS 65/20-15 to address ISBE’s collection of this sensitive information in an anonymous way. The language change includes the following addition:

(a-5) In relation to major program participants, the Board shall not be required to collect personally identifiable information and report statistical data on the categories of sex, sexual orientation, and gender identity unless required for federal reporting. The Board shall make available reports on its Internet website, posted where other mandated reports are posted, of statistical data on sex, sexual orientation, and gender identity demographics through anonymous surveys or other methods as age and developmentally appropriate.

Methodology

The information contained in this report is based solely on the data reported to the provided by program participants and collected by programming personal for the various major programs. The data provided by program participants has not been audited for completeness and quality, therefore, no baseline for comparison has been established.

For the purpose of this report, program participants are defined as participants in a major program with an enacted appropriate of greater than \$1 million in fiscal year; direct services provided to individuals and/or a reasonable expectation that demographic information can be aggregated via proxy data without substantial cost or disruption to program delivery. The program participants count is the number of distinct individuals that have been identified as program participants regardless of demographic category.

Participant information and demographics were collected using the Student Information System. Participants are included in the distinct head count if they were enrolled on October 1, 2021 and if their information was entered into the system by date of the Report Card Snapshot. The data used for this report is similar to the data used for the Illinois Report Card. Although data for October 1, 2021 was pulled on June 9, 2023 the data was partially frozen in time on September 27, 2022. Following this date, there have been periodic updates to the data to accommodate for additional State Assessment Testing windows and other updates related to the Illinois Report Card. According to Fall Enrollment business rules, participant counts are unique head counts.

Race and Ethnicity

The Act provides that Illinois State Board of Education “shall use the same racial and ethnic classifications for each program.” 20 ILCS 65/20-15(a). The enumerated classifications are:

- (1) American Indian and Alaska Native alone.
- (2) Asian alone.
- (3) Black or African American alone.
- (4) Hispanic or Latino of any race.
- (5) Native Hawaiian and Other Pacific Islander alone.
- (6) White alone.
- (7) Some other race alone.
- (8) Two or more races.

Id. The Act further allows for Illinois State Board of Education to “further define the racial and ethnic categories[.]”
