

Illinois Film Production Services Tax Credit Annual Report
FY2023: July 1, 2022 – June 30, 2023

When a production company is ready to claim their credit, they engage an Illinois licensed independent Certified Public Accountant who submits a report attesting to the qualified expenses including exact numbers of Illinois residents hired, and vendors used. However, the Film Tax Credit rule provides qualified productions up to two years from the completion of the project to claim a tax credit. Therefore, the figures reported may be for projects dating back to 2018.

Beginning in FY2015 Q1, reporting methodology was changed from using spending estimates provided upon application to actual expenditures reported when the credit is claimed. However, we continue to report estimates for performance metrics. Estimates, while less precise, are timelier. Furthermore, projects awarded tax credits during this period may have been previously counted using the prior methodology.

Types of vendors hired, depending on production needs, include but are not limited to caterers, janitorial service companies, security companies, lumber yards, hardware stores, fabric stores, clothing companies, grocery stores, gasoline stations, hotels, restaurants, parking garages, office rentals, stage rentals, computer rentals, insurance companies and legal services.

In July 2018, P.A. 100-603 (SB 1461) was signed into law amending 34 ILCS 16/45 to help the Department comply with the statutory mandate that requires the Department to report the number of minority-owned vendor firms contracting with qualified Film Tax Credit recipients. Specifically, the new law, sponsored by Holmes, Kifowit/Turner, sets reasonable thresholds on vendor reporting. Additionally, it seeks to resolve the conflicts between the statutory reporting provisions that the Department make public proprietary and confidential information regarding vendor costs utilized by productions and prohibition of such information from disclosure within the same Act.

To promote racial diversity in the film industry in the state of Illinois, the Illinois Film Office continues to encourage educational opportunities for minorities to be trained for working in film and television. Illinois is the only state with a film production tax credit program with such a requirement. The Illinois Film Office provides support to a wide range of not-for-profit programs such as Free Spirit Media, Independent Film Project- Chicago, Midwest Independent Film Festival Summer student program, all of whom provide training programs for minority, women and underserved communities. In addition, DCEO has previously provided grant funding to IATSE Studio Mechanics Union (Local 476.) specifically for this purpose. The FILM office has worked with and met with our stakeholders to enhance awareness amongst labor trade unions, legislators, community leaders, and companies across the film industry to educate and inform about ways to succeed with a diverse workforce.

Vendors that provided goods or services that were included in an accredited production's Illinois production spending, provided that the accredited production's Illinois production spending attributable to that vendor exceeds, in the aggregate, \$10,000 or 10% of the accredited production's Illinois production spending, whichever is less are listed in Appendix 1.

Appendix 2 contains a listing of vendors identifying as either a minority-owned business or a women-owned business, as defined under Section 2 of the Business Enterprise for Minorities, Women, and Persons with Disabilities Act, based on the best efforts of an accredited production.

Vendors that provided goods or services that were included in an accredited production's Illinois production spending, provided that the accredited production's Illinois production spending attributable to that vendor exceeds, in the aggregate, \$10,000 or 10% of the accredited production's Illinois production spending, whichever is less.
