

## **MEMORANDUM**

**TO:** The Honorable JB Pritzker, Governor  
James A. Rivera, Illinois State Fire Marshal

**FROM:** Dr. Tony Sanders   
State Superintendent of Education

**DATE:** February 22, 2024

**SUBJECT:** Compliance of School Districts and Nonpublic Schools with the Annual School Safety Review Requirement

This report on the Compliance of School Districts and Nonpublic Schools with the Annual School Safety Review Requirement is submitted in compliance with subsection 30(c) of the School Safety Drill Act (105 ILCS 128/30(c)). It provides information on which school districts and nonpublic schools successfully completed the required annual school safety review in school year 2022-23, and which school districts failed to do so.

The report is transmitted on behalf of the state superintendent of education. Please contact Dana Stoerger, executive director of Legislative Affairs, at 217-782-4338 or [dstoerge@isbe.net](mailto:dstoerge@isbe.net) to obtain additional copies of this report or copies of the underlying reports that were submitted by Regional Offices of Education to ISBE and used to populate this report.

# Annual School Safety Review

---

Compliance  
of School  
Districts  
2022-23

## Annual School Safety Review Compliance Report

This report is submitted in compliance with subsection 30(c) of the [Illinois School Safety Drill Act](#) [105 ILCS 128/30(c)], which requires the Illinois State Board of Education (ISBE) to provide an annual report to the Office of the Governor and the Office of the State Fire Marshal (OSFM) concerning the compliance of school districts and nonpublic schools with the annual school safety review requirement.

### Public School Districts

The law requires each public school district to conduct at least one annual meeting to review:

- Each school building's emergency and crisis response plans; protocols; and procedures, including procedures regarding the school district's threat assessment team;
- The efficacy and effects of law enforcement drills; and
- Each building's compliance with the school safety drill programs.

Districts are to review and update their emergency and crisis response plans, protocols, and procedures and the school safety drill programs of the district and each of its school buildings. They must report certain information to the appropriate regional superintendent of schools at the conclusion of the annual review, verifying that it occurred and providing other details as prescribed in statute. Each regional superintendent of schools then provides an annual school safety review compliance report to ISBE that identifies those school districts that have successfully completed their annual review and those that failed to complete it. Reports are due to ISBE on or before October 1 of each year.

Based on the information ISBE received, it is reporting that 98 percent of districts complied with the annual school safety review requirement in school year 2022-23. This number excludes Chicago Public Schools and Illinois Department of Juvenile Justice District 428. Appendix A of this report lists each school district's compliance status.

### Nonpublic Schools

Nonpublic schools must conduct a similar annual meeting by law. Prior to this school year, they submitted their annual school safety review compliance reports directly to OSFM. However, [recent legislation](#) transferred responsibility for collecting and reporting on the compliance of nonpublic schools with the annual school safety review from OSFM to ISBE.

This report covers the 2022-23 school year, the last year that OSFM was responsible for collecting annual school safety review compliance reports prior to the change in law. Thus, the data in Appendix B on nonpublic school compliance comes directly from OSFM. OSFM reported that 1,534 nonpublic schools complied with the annual school safety review requirement in SY 2022-23. ISBE will collect these reports directly from nonpublic schools and include that data in its reporting starting with the 2023-24 school year.

Appendix A (Public School Districts)
