Mission & Overview

The Legislature created the Office of the State's Attorneys Appellate Prosecutor in 1977. The Agency was given the mission to work closely with State's Attorneys in 101 counties to prepare, file, and argue cases in the appellate courts to keep convicted criminals behind bars. The Agency's responsibility has since been expanded to include serving as Special Prosecutor, providing assistance to State's Attorneys in labor cases under the Illinois Public Labor Relations Act, in drug cases, and in tax objection cases. The Agency also provides continuing legal education services which includes specialized sessions in trial advocacy and in cases involving children who are crime victims and witnesses.

The Agency's specific powers and duties are detailed in the State's Attorneys Appellate Prosecutor's Act (725 ILCS 210 et. seq).

Objective

The primary objective of the Office of the State's Attorneys Appellate Prosecutor is to deliver quality professional services to all participating counties in full compliance with its legislative mandate. This includes:

- I. To represent the People of the State of Illinois on appeal in all cases which emanate from a county containing less than 3,000,000 inhabitants, when requested to do so and at the direction of the State's Attorney;
- II. To prepare, file, and argue such appellate briefs in the Illinois Appellate Court with the advice and consent of the State's Attorney and, when requested and authorized to do so by the Attorney General, in the Supreme Court;
- III. To assist State's Attorneys in the discharge of their duties under the Illinois Controlled Substances Act, the

Methamphetamine Control and Community Protection Act, the Narcotics Profit Forfeiture Act, the Cannabis Control Act, the Drug Asset Forfeiture Procedure Act, and the Illinois Public Labor Relations Act;

- IV. To provide trial assistance to State's Attorneys and to serve as Special Prosecutor when duly appointed by a court having jurisdiction with a court order stating the statutory provisions;
- V. To assist State's Attorneys in the trial and appeal of tax objection cases;
- VI. To conduct training programs for State's Attorneys and law enforcement personnel including programs to reduce trauma for child witnesses in criminal proceedings; and
- VII. To provide a legal intern program.

County Participation

The State's Attorneys retain exclusive control of appeals originating in their respective counties as well as the authority to control all documents in each individual case. The Agency files no documents in the reviewing courts until they are approved by the State's Attorneys otherwise responsible for prosecuting the appeal.

The participation of the State's Attorney in the program is completely voluntary. Counties that agree to participate are required to collectively finance one-third of the total appropriation approved by the General Assembly and the Governor with the exception of personal services expenses of the collective bargaining unit. The remaining two-thirds of the Agency's budget is appropriated from General Revenue Funds. Each county's portion is determined annually by the Agency and is based on population.

Board of Governors

The Agency is governed by a Board of Governors consisting of ten State's Attorneys. The Cook County State's Attorney is a permanent member by statute; eight State's Attorneys are elected annually; and the tenth member is appointed each year by the other nine members.

Director's Office

The Director is responsible for the overall supervision and coordination of the Agency and for providing all administrative services. This includes administrative and managerial functions, legal policy and other extraordinary legal concerns, budgetary and legislative matters, and Agency publications.

District Offices

Four District Offices have been established. They are located in Elgin (Second District), Ottawa (Third District), Springfield (Fourth District), and Mt. Vernon (Fifth District). Each Office is managed by a Deputy Director who supervises a staff of attorneys and clerical personnel.

Duties and History

In addition to the primary duties of preparing, filing, and arguing appellate briefs, the Agency provides numerous other services to State's Attorneys and law enforcement personnel. The Agency's initial appellate responsibility focused on criminal cases.

However, effective August 9, 1981, the Agency's authorization was expanded to represent the People of the State of Illinois on appeal in juvenile cases, paternity cases, and cases arising under the Mental Health Development and Disabilities Code when requested to do so by the respective State's Attorney. Also effective on the same date, the Agency was given

authority upon request to assist State's Attorneys in the trial and appeal of tax objection cases.

In addition, on August 18, 1982, the Agency was authorized to assist State's Attorneys on cases and appeals arising under the Narcotics Profit Forfeiture Act. Also, effective August 3, 1984, the Agency's authorization was again expanded to provide for assisting State's Attorneys in the discharge of their duties under the Illinois Public Labor Relations Act. Effective July 1, 1986, the Agency was legislatively mandated to conduct training programs for prosecutors and other law enforcement personnel to reduce trauma for child witnesses in criminal proceedings.

Effective January 1, 1988, the authority of the Agency was again expanded to permit the Agency to represent the People of the State of Illinois on appeal in all types of cases that emanate from a county containing less than 3,000,000 inhabitants when requested to do so, and at the direction of the State's Attorney otherwise responsible for prosecuting the appeal. On this same date, the Agency was also authorized to assist State's Attorneys in the full discharge of their duties under the Illinois Controlled Substances Act and the Narcotics Profit Forfeiture Act. To carry out this responsibility, the Agency created the Local Drug Prosecution Support Unit on May 1, 1988. This Unit receives funding from federal grants, and the Agency provides the required matching funds.

On September 28, 1989, the Agency entered into a collective bargaining agreement with the American Federation of State, County and Municipal Employees Union. By this agreement, the Agency recognizes the Union as the sole and exclusive collective bargaining representative for Staff Attorneys and Legal Secretaries. On January 1, 1990, the authority of the Agency was expanded through the creation of general revenue appropriations for collective bargaining personal services and

through the approval to permit the rollover of county funds.

Effective September 10, 1990, Public Act 86-1382 created the Drug Asset Forfeiture Procedure Act and amended the Cannabis Control Act and the Controlled Substances Act. These amendments authorized the Agency to receive a 12.5% share in the monies and sale proceeds of property forfeited and seized under the provisions of these Acts in counties under 3,000,000 inhabitants. They also authorized the Agency to use these funds in the investigation, prosecution, and appeal of cases arising under laws governing cannabis and controlled substances.

On July 16, 2002, the Agency was authorized to assist State's Attorneys in the discharge of their duties under the Cannabis Control Act and the Drug Asset Forfeiture Procedure Act. On this same date, the Agency was also authorized to provide trial assistance to State's Attorneys and to serve as Special Prosecutor when duly appointed by a court having jurisdiction with a court order stating the statutory provisions.

Effective May 28, 2010, the Agency was officially designated a judicial agency of state government.

On this same date, the term of the Agency's elected Board of Governors was extended from one to two years.

On September 11, 2012, the Agency was further authorized to provide services to State's Attorneys under the Methamphetamine Control and Community Protection Act.

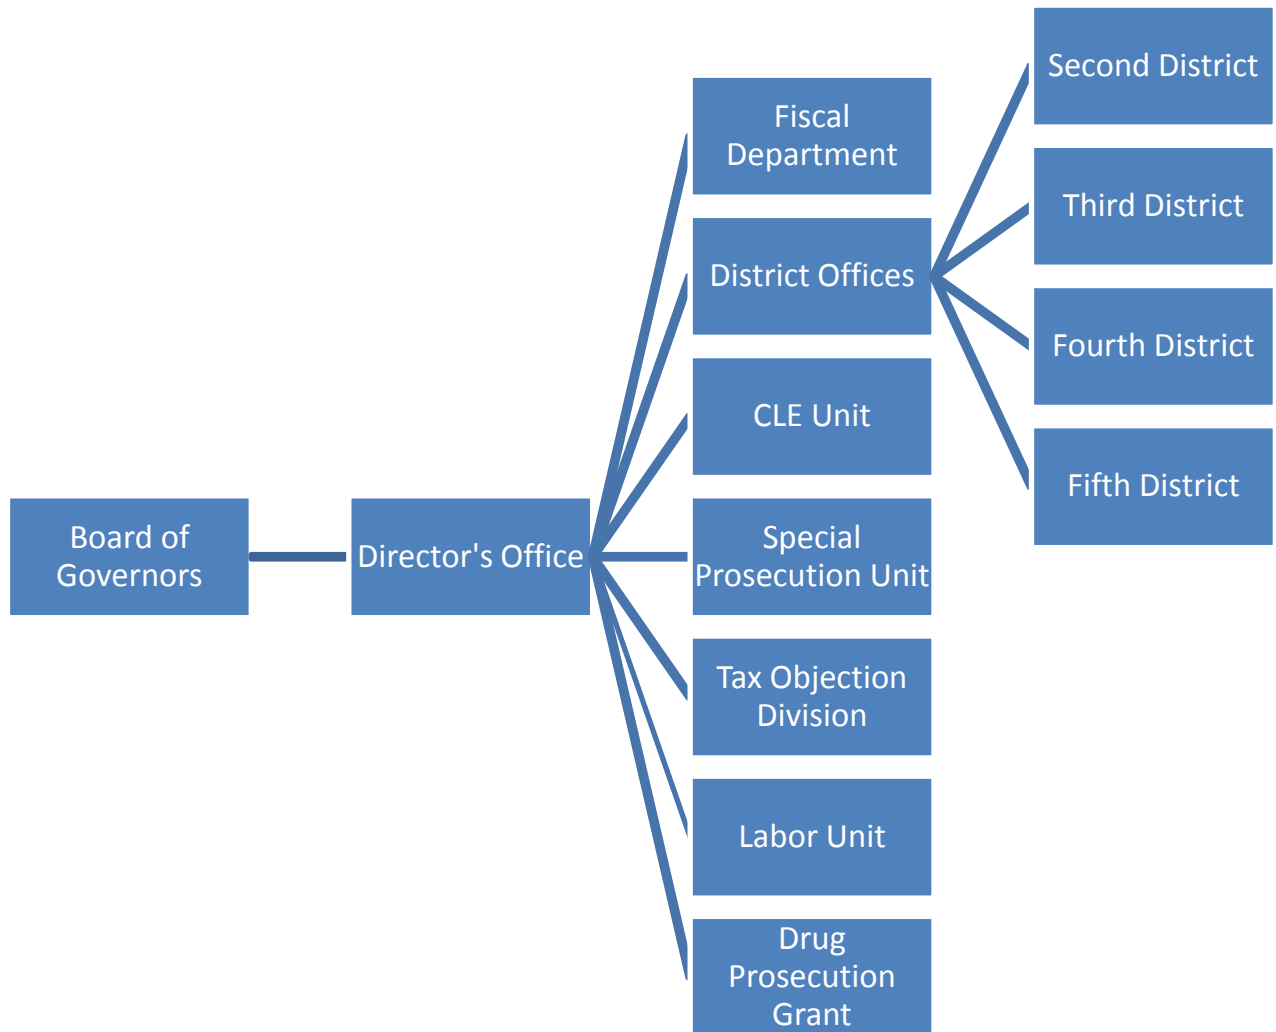

On May 23, 2014, Public Act 98-938 was passed and mandated that the Agency create a Best Practices Committee to evaluate specific issues related to the investigation and prosecution of serious criminal offenses, and to make recommendations to improve and enhance public safety.

On July 27, 2015, Public Act 99-143 was passed and mandated that the Agency include persons with disabilities in its training programs focusing on reduction of trauma in testifying in criminal proceedings.

On July 30, 2015, Public Act 99-208 was passed. This Public Act allows the State's Attorney of Cook County to appoint a designee for Board Meetings; allows the Agency to contract for or employ part-time investigators; mandates that these investigators contact and cooperate with local law enforcement agencies unless the contact and cooperation would compromise an investigation in which the local law enforcement agencies have a personal involvement; authorizes the Director to issue a badge to each investigator, contracted or employed; and allows the Director to issue identification shields to employees not exercising the powers of a peace officer if the Director determines that such identification is necessary for the employee to carry out his or her duties.

Labor Unit

The Labor Unit was created in FY85 to provide services to counties under the new Illinois Public Labor Relations Act by enabling legislation effective August 3, 1984.

State's Attorneys may request representation for their elected officials and county boards in all forms of labor relations, including conducting pre-election information campaigns, collective bargaining negotiations, grievances, unfair labor practice charges, mediation, arbitration, and other cases before the Illinois Labor Relations Board and the Illinois Circuit and Appellate Courts as required.

The following contractual personnel served the Labor Unit during FY19:

David Hibben
Hinshaw & Culbertson LLP
Stratton & Reichert Law Partnership

Local Drug Prosecution Unit

The Local Drug Prosecution Support Unit of the State's Attorneys Appellate Prosecutor was created on May 1, 1988, with funding from a federal grant and Agency match monies. The State's Attorneys Appellate Prosecutor's Act, as amended, effective January 1, 1988, charges the Agency with assisting the State's Attorneys with narcotics related prosecutions at their request. The Local Drug Prosecution Support Unit fulfills this responsibility and consists of two parts: the District Drug Attorney Component and the Priority County Component.

District Drug Attorney Component

A drug attorney was assigned to each of the four downstate Appellate Districts and served the counties in these Districts upon the request of the State's Attorney. They assisted each other when their individual caseloads became too heavy to ensure that all State's Attorneys were served on an as-needed basis. They also worked closely with the appropriate MEG Unit or Task Force. The following personnel served on the Drug Unit in FY19:

Drug Grant Attorney:
Ralph Fowler

Priority County Component

Excluding counties receiving direct federal grant funding, the Agency contracted with eleven counties having a high number of drug-related arrests to employ Assistant State's Attorneys to specialize in drug-related prosecutions.

Counties within this component are as follows:

1. Champaign
2. Jefferson
3. Macon
4. McLean
5. Peoria
6. Rock Island
7. Sangamon
8. Tazewell

We continued to see an increase of cases involving production, distribution, manufacturing, and importation of cocaine, cannabis, and heroin. These include both MEG/Task Force and non-MEG/Task Force cases. Our MEG/Task Force cases are directly related to the activity and success of the Unit.

The current grant format of contractual and Agency drug attorneys has proven to be the most efficient and effective utilization of grant funds. It allows us to focus directly on counties needing full-time assistance and also to respond to other counties on an as-needed basis.

Continuing Legal Education Unit

In FY19, the Continuing Legal Education Unit of the Agency solidified the program by providing our full schedule of core CLE programs, plus the continuation of the Violent Crimes Conference with the Cook County State's Attorney's Office.

The CLE Unit returned to its normal schedule of core programs with a fall curriculum of Courtroom Visuals, Basic Trial Advocacy and Advanced Trial Advocacy, followed by the same complement of spring programs. In addition, the CLE Unit once again conducted the annual Prosecutor Survival School for intermediate practitioners, Ethics for all and Hot Tips. Once again we complied with the new stricter professional responsibility mandated elements for mental health, substance abuse, and diversity.

The CLE Unit continued with the recently developed quarterly series of programs hosted in collaboration with the Cook County State's Attorney's Office, bringing in a mix of national, regional and local expertise to cover a wide range of legal issues relevant to prosecutors.

The CLE Unit has maintained the lodging scholarship program to encourage participation from as many counties as possible, with continuingly positive results. Several primarily downstate counties send one representative, who benefits from the lodging scholarship, and then returns to share the training materials with others within their offices. This training force multiplication is a worthwhile model and will be continued into next year's quarterly series.

The result was a rebound in the number of programs offered, the number of prosecutors trained, and the number of overall attorney hours of training provided.

The following personnel served on the Continuing Legal Education Unit staff during FY19:

Associate Director/CLE Director:
Matthew P. Jones

The CLE Unit continues to provide the only prosecutor oriented, state-wide continuing legal education in Illinois and we look forward, thanks to budget stability, to meet the ever increasing demands of prosecutors and the public to serve justice in an ethical and well-trained manner.

Special Prosecution Unit

The Special Prosecution Unit of the Agency consists of experienced trial attorneys who assist in prosecuting criminal cases when requested to do so by and at the direction of the State's Attorney and when duly appointed by a court having jurisdiction. The following attorneys served on the Special Prosecution Unit Staff during FY19:

Jonathan Barnard (Contractual)
 Thomas Brown (Contractual)
 Charles Colburn
 William Elward (Contractual)
 Ralph Fowler
 Matthew Goetten
 Lorinda Lamken
 Kristen Miller
 Jennifer Mudge
 Dave Neal
 Edwin Parkinson (Contractual)

 Charles R. Zalar (Contractual)

If a conflict of interest arises in a State's Attorney's office, and the State's Attorney wants an independent, detached review and prosecution by an outside person, or if special assistance is needed due to the complexity of a case, the Agency makes the services of the Special Prosecution Unit available.

The Unit has been particularly active in downstate Illinois where personnel and financial resources are more limited than in the more populous counties. Trial assistance has been provided in numerous murder cases and cases dealing with official misconduct of public officials as well as numerous other criminal and civil matters when the State's Attorney was unable to prosecute. Frequently, when the Unit is asked to assist, the cases involve complex issues, and trial experience is an absolute necessity.

The Special Prosecution Unit has become a valuable resource to the State's Attorneys of Illinois. The combination of a Unit of experienced trial prosecutors with legal and technical expertise and the Agency's Appellate Staff Attorneys provide the State's Attorneys with needed expert assistance.

During FY19, the Unit provided assistance to State's Attorneys on 1,126 cases in the following 96 counties:

Adams	Hardin	Montgomery
Alexander	Henderson	Morgan
Boone	Henry	Moultrie

Tax Objection Division

The Tax Objection Division of the State's Attorneys Appellate Prosecutor is invaluable for State's Attorneys confronted with specialized and complex cases before the courts, the Property Tax Appeal Board, or the Department of Revenue. Particularly in the smaller counties, State's Attorneys lack the specialized experience to handle these cases even if they could find the time from their ongoing criminal and civil responsibilities.

During FY19, tax objection services were provided to 27 counties on 77 matters.
