- General Assembly (reports@ilga.gov)

To Whom it May Concern,

Effingham Police Department received an award for reimbursement of ten (10) in-car cameras in 2018. We have 7 in-car cameras installed in law enforcement agency vehicles. The other 3 cameras are out of warranty and quit functioning. After having these cameras checked by the IT provider and installer, they were both deemed unrepairable.

The review process used by supervisors within our law enforcement agency includes the periodic pulling of video recordings for observation. These observations give the supervisors a chance to evaluate their officer's performance and professionalism, along with the officer's safety practices.

Please see attached incident logs for Camera Grant FY18 Report. First you will find an overview sheet with all cameras listed. This form also has notes where we indicate if there are problems with the camera or if the camera is out of service. The next sheets will include spreadsheets with a list of camera activations along with all required information.

Thank you!

A handwritten signature in black ink, appearing to read "Kurt Davis" followed by "05'8".

Deputy Chief Kurt Davis
