ILLINOIS GENERAL ASSEMBLY
LEGISLATIVE RESEARCH UNIT

*JOINT COMMITTEE ON
LEGISLATIVE SUPPORT SERVICES*

Senate Republican Leader & Chairman	Sen. Christine Radogno
President of the Senate	Sen. John J. Cullerton
Speaker of the House	Rep. Michael J. Madigan
House Republican Leader	Rep. Tom Cross

LEGISLATIVE RESEARCH UNIT

Co-Chairperson	Sen. Pamela J. Althoff
Co-Chairperson	Vacant
Executive Director	Alan R. Kroner
Associate Director	Jonathan P. Wolff

Senators

Thomas Cullerton
Sam McCann
Julie A. Morrison
Jim Oberweis
Martin A. Sandoval

Representatives

Adam Brown
La Shawn K. Ford
Chad Hays
Barbara Wheeler
Vacant

The Legislative Research Unit is the central general research agency for the General Assembly. A board of 12 legislators, appointed by the Joint Committee on Legislative Support Services, supervises its operations.

A staff of researchers handles inquiries from legislators, legislative committees, and partisan staff. The staff's areas of expertise include law generally, science and technology, taxation, education, local government, economics and fiscal affairs, and the political and social history of Illinois.

ILLINOIS COUNTY DATA BOOK

Seventh Edition

Compiled by
Thomas Bazan, Senior Research Associate
Proofing and Cover Design by
Kathleen Young, Proofreader-Office Associate
Layout by
Dianna Jones, Office Administrator

Publication 372, July 2013

Introduction

The Legislative Research Unit is pleased to present the seventh edition of its County Data Book. This reference collects in one place the major demographic, economic, and political statistics for each county. It is intended for legislators and others who want to become more familiar with the state of Illinois and its counties.

Part 1 describes Illinois as a whole and contains maps shaded to show some important data about counties. Part 2 gives a separate compilation of statistics for each county. Part 3 ranks all counties for most of these statistics. Part 4 contains sources and methodology. The appendices list counties by representative, legislative, and Congressional districts. Your suggestions for additions and improvements are appreciated.

Alan R. Kroner
Executive Director

Part 1 Illinois in Perspective

POPULATION

Illinois' population increased by 411,339 people from 2000 to 2010, roughly 3.3%. This was below the national growth rate of 9.7%. Illinois' share of the total U.S. population decreased 0.2 percentage points. Cook County's population decreased by 3.4%, and there were large population gains in counties surrounding Cook—15.0% from 2000 to 2010. Although downstate counties showed a combined 4.3% increase in population, most counties' populations fell. In sum, Cook County's population decreased by 182,066 from 2000 to 2010; the 5 counties surrounding Cook gained 406,996; and the remaining counties gained a collective 186,409. Overall, 61 counties lost population. By far the largest growth as a percentage of population was in Kendall County—in northeastern Illinois—which increased by 110.4%. See Map 1 on page 5.

	<i>Illinois</i>	<i>% change</i>	<i>U.S.</i>	<i>% change</i>	<i>Illinois % of U.S. population</i>
2000 Census	12,419,293	-	281,421,906	-	4.4%
2010 Census	12,830,632	3.3%	308,745,538	9.7%	4.2

The 2010 Census showed Illinois with a smaller proportion of all races except black or African American in comparison to the nation, and a population with a median average slightly below the national average. Educationally, Illinois was below the national average in the percentage of people with at least 12 years of school, but above the national average for those with 16 years or more.

	2000		2010		% change	
	Illinois	U.S.	Illinois	U.S.	Illinois	U.S.
Race						
White (non-Hispanic)	67.8%	69.1%	63.7%	63.7%	-3.0%	1.2%

Education (age 25 or over)						
12 years or more	55.4%	56.0%	55.9%	57.4%	5.7%	14.9%
16 years or more	26.1	24.4	30.3	28.2	21.6	29.5

ELECTIONS

More voters have taken Democratic than Republican primary ballots in every statewide election since 2002, except 2012, and Democratic candidates carried the state in each gubernatorial and presidential election during that time. Democratic voters outnumber Republicans in Cook County and many southern Illinois counties, and Republicans are more dominant in the collar counties and most counties in central Illinois.

Primary Election	Total vote	Democratic		Republican	
		Number	Percent	Number	Percent
2002	2,321,875	1,320,813	56.9%	946,339	40.8%
2004	2,067,824	1,310,129	63.4	702,658	34.0
2006	1,804,624	997,720	55.3	751,627	41.7
2008	2,986,982	2,059,702	69.0	910,540	30.5
2010	1,758,489	959,521	54.6	783,060	44.5
2012	1,694,317	730,219	43.1	948,178	56.0

General Election	Registered	Turnout	Kind of election	Democratic*	Republican*
2002	7,043,557	51.8%	Gubernatorial	52.2%	45.1%
2004	7,499,488	71.3	Presidential	54.8	44.5
2006	7,375,688	48.6	Gubernatorial	49.8	39.3
2008	7,789,500	71.6	Presidential	61.9	36.8
2010	7,506,073	50.5	Gubernatorial	46.8	45.9
2012	7,520,722	70.2	Presidential	57.6	40.7

* Percents do not add to 100% because they are based on all votes, including other parties.

ECONOMY

Illinois' per-capita income decreased from 107.7% of the U.S. average in 2000 to 105.3% in 2010. Income varies widely among the counties throughout the state, ranging from 135% of the national average to under 63%. See Map 2 on page 6 for per-capita income and Map 3 on page 7 for unemployment rates.

Per-capita income

Year	Illinois	U.S.	Ill. % of U.S.
2000	\$32,645	\$30,319	107.7%
2005	37,437	35,452	105.6
2010	42,040	39,937	105.3
Lowest county 2010 (Johnson)	25,000		62.6
Highest county 2010 (Lake)	53,905		135.0

Illinois has 4.3% of the total U.S. workforce and an unemployment rate that is higher than the national rate.

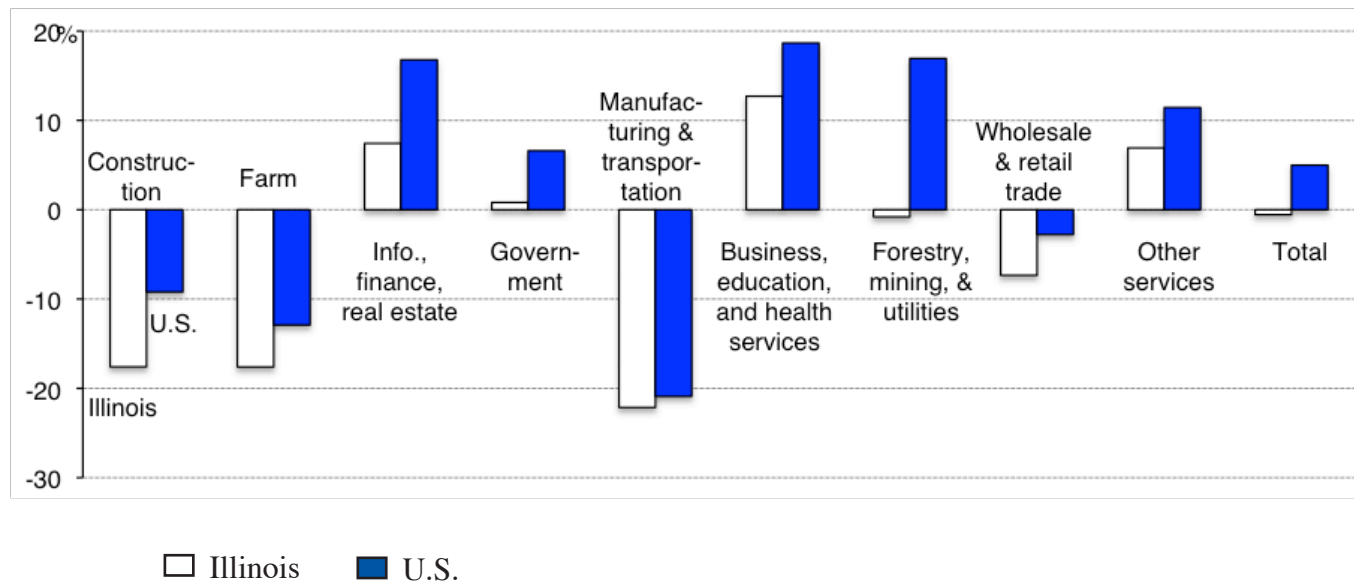

Employment

(2010)	Illinois	U.S.	Ill. % of U.S.
Labor force	6,602,663	153,889,000	4.3%
Unemployed	10.5%	9.6%	-

The distribution of jobs by kind of industry in Illinois is very similar to the national distribution; services and wholesale and retail trade comprise over half of the total employment. Illinois showed a decline in total jobs from 2001 to 2010 although the national figure showed an increase— Illinois’ percentage change in every category lagged behind the national total. See Map 4 on page 8 for the two major industry in each county.

Illinois	2001		2010		Percent change
	No. of jobs	% total	No. of jobs	% total	
Business, education, and health services	1,869,422	25.5%	2,106,983	29.0%	12.7%

Percent Change in Number of Jobs, Illinois and U.S., 2001 to 2010

REVENUES AND EXPENDITURES

Illinois state government relies mainly on sales tax, income tax, and motor fuel taxes. Local governments rely mainly on property taxes. (The figures below are totals for the most recent years for which data are available or estimates could be made for individual counties.)

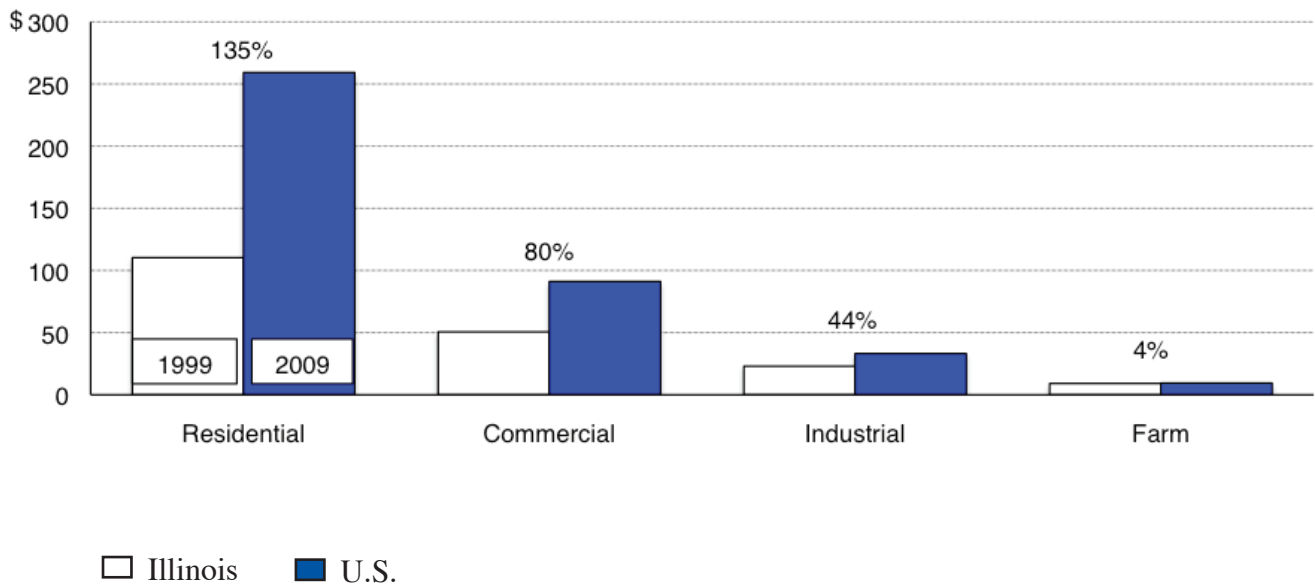

<i>Revenue collections (after refunds)</i>	<i>(millions)</i>
State sales & use tax (est. 2011)	\$9,671.7
Individual income tax (2010)	9,199.1
State motor fuel tax (2011)	1,234.5
Local property tax (2008)	24,111.0
 <i>State expenditures</i>	 <i>(millions)</i>
Elementary and Secondary education (FY 2011)	\$ 6,620.5
Human services (Medicaid, FY 2011)	10,984.1
State payroll (2011)	4,534.3
 Number of state employees, excluding those at state universities (2011) (see Map 5 on page 9)	 78,903

LAND USE

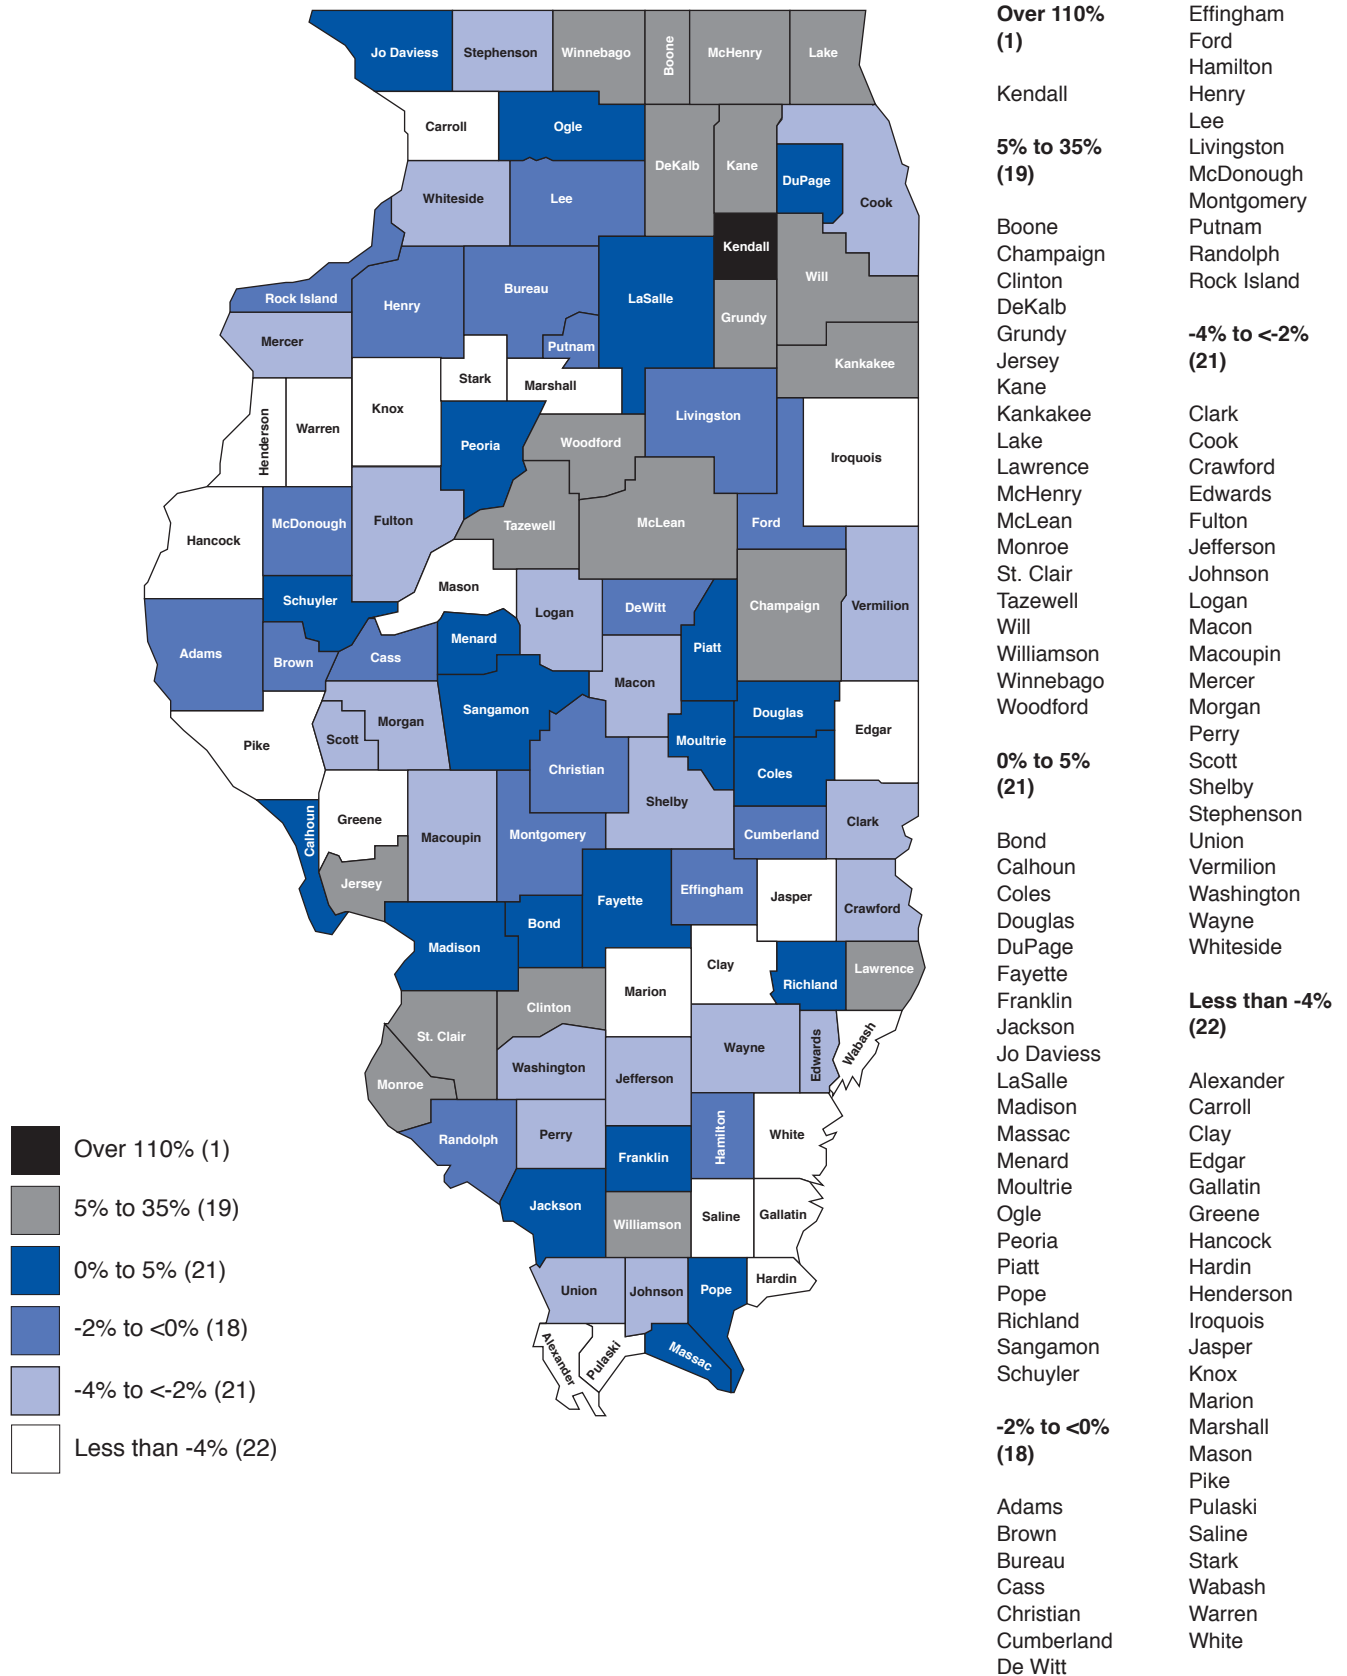

The most striking feature of the change in land use from 1999 to 2009 was the increase in the value of residential property. Figures from 1999-2009 show an increase of over 135% for residential property, which in 2009 was valued at two-thirds of the value of all property in the state. Farmland increased the smallest percent at 3.9%.

	1999	<i>Equalized Assessed Value</i>		<i>% of total</i>	<i>1999-2009 % chg</i>
		<i>% of total</i>	2009		
Residential	\$110,314.1	57.2%	\$259,246.4	66.0%	135.0%
Commercial	50,619.7	26.2	91,148.0	23.2	80.1
Industrial	22,987.9	11.9	33,119.9	8.4	44.1
Farm	9,072.3	4.7	9,425.3	2.4	3.9
Total	\$192,993.9		\$392,939.7		103.6%

Part 4

Sources, Methodology, and Appendices

Sources & Methodology

Illinois congressional, legislative, and representative districts: Illinois State Board of Elections, “2012 General Primary Official Vote Totals Book” (undated, downloaded from ISBE Internet site).

Illinois county seats, established dates, and county land area: “Counties & County Officers,” *Illinois Blue Book 2011-2012* (Feb. 2012), pp. 439-451.

2000 U.S. population by age (including median age): U.S. Department of Commerce, Bureau of the Census, “Profile of General Demographic Characteristics: 2000” (U.S. Total, Census 2000 Summary File 1 100% Data, DP-1) (downloaded from Census Bureau’s Fact Finder Internet site).

2000 U.S. population by race: U.S. Department of Commerce, Bureau of the Census, “Race, Combinations of Two Races, and Not Hispanic or Latino: 2000” (U.S. Total, Census 2000 Summary File 1 100% Data, QT-P4) (downloaded from Census Bureau’s Fact Finder Internet site). Amounts for race exclude “Some other race” (not Hispanic or Latino) and “Two or more races” (not Hispanic or Latino).

2010 U.S. population by race and age (including median age): U.S. Department of Commerce, Bureau of the Census, “Profile of General Population and Housing Characteristics: 2010” (U.S. Total, 2010 Demographic Profile Data, DP-1) (downloaded from Census Bureau’s American Fact Finder Internet site). Amounts for race exclude “Some other race” (not Hispanic or Latino) and “Two or more races” (not Hispanic or Latino).

2000 Illinois population by age: U.S. Department of Commerce, Bureau of the Census, “Sex by Age” (Illinois, Census 2000 Summary File 1 100% Data, P12) (downloaded from Census Bureau’s American Fact Finder Internet site).

2000 Illinois median age: U.S. Department of Commerce, Bureau of the Census, “Median Age by Sex” (Illinois, Census 2010 Summary File 1 100% Data, P13) (downloaded from Census Bureau’s American Fact Finder Internet site).

2000 Illinois population by race: U.S. Department of Commerce, Bureau of the Census, “Race, Combinations of Two Races, and Not Hispanic or Latino: 2000” (Illinois, Census 2000 Summary File 1 100% Data, QT-P4) (downloaded from Census Bureau’s American Fact Finder Internet site). Amounts for race do not include “Some other race” (not Hispanic or Latino) and “Two or more races” (not Hispanic or Latino).

2010 Illinois population by age (and median age): U.S. Department of Commerce, Bureau of the Census, “Sex by Age” (Illinois, Census 2010 Summary File 1 100% Data, P12); “Median Age by Sex” (Illinois Census 2010 Summary File 1 100% Data, P13); and “Age Groups and Sex”

(Illinois, 2010 Census Summary File 1 100% Data, QT-P1) (all downloaded from Census Bureau’s American Fact Finder Internet site).

2010 Illinois population by race: U.S. Department of Commerce, Bureau of the Census, “Hispanic or Latino, and Not Hispanic or Latino by Race” (Illinois, 2010 Census Summary File 1 100% Data, P9) (downloaded from Census Bureau’s American Fact Finder Internet site). Amounts for race do not include “Some other race” (not Hispanic or Latino) and “Two or more races” (not Hispanic or Latino).

2000 U.S. educational attainment: U.S. Department of Commerce, Bureau of the Census, “Educational Attainment by Sex: 2000” (U.S. Total, Census 2000 Summary File 3 - Sample Data, QT-P20) (downloaded from Census Bureau’s American Fact Finder Internet site).

2010 U.S. educational attainment: U.S. Department of Commerce, Bureau of the Census, “Educational Attainment for the Population 25 Years and Over” (U.S. Total, 2010 American Community Survey 1-Year Estimates, B15003) (downloaded from Census Bureau’s American Fact Finder Internet site).

2000 Illinois educational attainment: U.S. Department of Commerce, Bureau of the Census, “Educational Attainment by Sex: 2000” (Illinois, Census 2000 Summary File 3 - Sample Data, QT-P20) (downloaded from Census Bureau’s American Fact Finder Internet site).

2010 Illinois educational attainment: U.S. Department of Commerce, Bureau of the Census, “Selected Social Characteristics in the United States” (Illinois, 2010 American Community Survey 1-Year Estimates, DP02) (downloaded from Census Bureau’s American Fact Finder Internet site).

2010 Illinois single-parent households: U.S. Department of Commerce, Bureau of the Census, “Family Type by Presence and Age of Own Children” (Illinois, 2010 Census Summary File 1 100% Data, P38) (downloaded from Census Bureau’s American Fact Finder Internet site). Figures represent single-parent families with own children under 18 as a percentage of all families. A family consists of two or more persons, including a householder, who are related by birth, marriage, or adoption who live together in one household. Same-sex couples are included in the families category only if there is at least one additional person related to the householder by birth or adoption.

2010 Illinois children under 18 in poverty: U.S. Department of Commerce, Bureau of the Census, “Selected Economic Characteristics” (Illinois, 2006-2010 American Community Survey 5-Year Estimates, DP03) (downloaded from Census Bureau’s American Fact Finder Internet site). Figures are based on 5-year estimates because 1- and 3-year estimates are not available for every county.

2000, 2005, and 2010 U.S. and Illinois income per capita: U.S. Department of Commerce, Bureau of Economic Analysis, “Personal Income Summary: per capita personal income (dollars)” (Illinois updated April 25, 2012, U.S. updated March 28, 2012) (U.S. Total, Illinois Total, and Illinois counties, Table CA1-3, downloaded from BEA Internet site).

U.S. and Illinois Elections: Illinois State Board of Elections, *Official Vote Cast at the General Election* (various years); *Official Vote Cast at the General Primary Election* (various years); and “Candidate Totals By County” (downloadable vote totals, tables, various years) (downloaded from ISBE Internet site).

2000 and 2010 U.S. Employment: U.S. Department of Labor, Bureau of Labor Statistics, “Labor Force Statistics from the Current Population Survey” (Household Data, Table A-1) (downloaded from DoL’s Data Retrieval: Labor Force Statistics (CPS) Internet site).

2000 and 2010 Illinois Employment: Illinois Department of Employment Statistics, “Annual Average Data: Counties” (2000 and 2010) (spreadsheets, downloaded from IDES Internet site).

Illinois household income: U.S. Department of Commerce, Bureau of the Census, “Selected Economic Characteristics” (Illinois, 2006-2010 American Community Survey 5-Year Estimates, DP03) (downloaded from Census Bureau’s American Fact Finder Internet site).

U.S. and Illinois jobs by industry: U.S. Department of Commerce, Bureau of Economic Analysis, “Total full-time and part-time employment by NAICS industry” (Illinois counties, and U.S. Total, Regional GDP & Personal Income data, CA25N) (updated Apr. 25, 2012) and “Total full-time and part-time employment by NAICS industry” (United States total, Regional GDP & Personal Income data, SA25N) (updated March 28, 2012) (both downloaded from BEA Internet site).

Amounts for county are the county’s percentages of the types of jobs in the county; amounts for the state are the county’s percentage of that type of job statewide. Some industry-specific county data were withheld to avoid disclosure of confidential information; those data are *not* included in the county breakdowns, but are included in total jobs for the county. Percentages may not add to 100% because totals include jobs withheld from industry data by county. Data are nearly complete for most categories, except forestry, mining, and utilities—locations of over 35% of those jobs statewide were withheld.

State sales & use tax: Illinois Department of Revenue, “FY 2011 Municipal and County Share of State Sales and Use Taxes” (undated, spreadsheet). Estimates are local share multiplied by 6.25.

Individual income tax: Illinois Department of Revenue, “Individual Income Tax: County Report - Tax Year: 2010 - Final” (Aug. 2012) (spreadsheet).

State motor fuel tax: Estimates are each county’s proportional share of total calendar year 2011 motor fuel tax, based on sales tax collections at filling stations and convenience stores. Provided Sept. 2012 by Illinois Department of Transportation.

Local property tax: Illinois Department of Revenue, “Comparison of Taxes Extended and Collected by Selected Classes of Property” (undated, spreadsheet, 2008 Property Tax Statistics), Table 19 (downloaded from IDOR Internet site). Includes collections from taxes on real estate and railroad properties.

School district expenditures: Illinois State Board of Education, “FY 2011 County State Dist Disbursements” (undated, spreadsheet). Includes only state funds to school districts; excludes federal funds and funds to regional offices.

Medicaid expenditures: Illinois Department of Human Services, Bureau of Research and Analysis, “Fiscal Year 2011: Grant and Medical Expenditures” (undated, table). Some counties have consolidated spending; the totals for those counties are shown as combined totals.

State payroll and number of employees: Office of the Comptroller, “State Employee Numbers and Cost CY 2011” (spreadsheet). These amounts overstate total employment costs to the state because they include employees paid with non-state (such as federal) funds. The numbers of employees include anyone receiving a paycheck from the state in calendar year 2011; but exclude state college and university employees. Location is based on voting address, not where employees work.

Land use: Illinois Department of Revenue, “Comparison of Equalized Assessed Valuations by Class of Property (Thousands of dollars),” *1999 Illinois Property Tax Statistics* (June 2002), pp. 164-165, Table 15 and “Comparison of Equalized Assessed Valuations by Class of Property” (undated, spreadsheet, 2009 Property Tax Statistics), Table 15 (downloaded from IDOR Internet site).

Number of farms: U.S. Department of Agriculture, National Agricultural Statistics Service, “County Summary Highlights: 2007” (2007 Census of Agriculture, County Data, updated Dec. 2009), Table 1 and “County Summary Highlights: 1997” (1997 Census of Agriculture, County Data, March 1999) (both downloaded from U.S. DoAg Internet site).

Foreign ownership of agricultural land: U.S. Department of Agriculture, Farm Service Agency, “U.S. Landholdings of Foreign Investors by Type of Land Use and by State and County as of February 28, 2010” (Foreign Holdings of U.S. Agricultural Land as of February 28, 2010, undated), Report 3.
