To whom it may concern,

The following is an annual report regarding the camera grant for fiscal year 2018. The Perry County Sheriff's Office received 10 in-car cameras and they are all installed in our squad cars/transport vans.

Every 90 days, I collect SD cards from the deputies and inquire if they need any footage downloaded onto a disc for evidence. Blank SD cards are then given to each deputy. If the deputy needs footage downloaded, specific incidents are downloaded, logged, and placed in case files. The SD cards are then held for 90 days until they are given back to the deputy. Before the SD card is given back to the deputy, they are erased.

This cycle is again repeated every 90 days.

Attached to this report is the log of all footage pulled from deputy cameras.

Lieutenant Scott Kellerman

A handwritten signature in black ink, appearing to read "Scott Kellerman", written over a horizontal line.
