Re: 2017-18 IHSA Concussion Report

Attached to this memo is a copy of the following:

- Concussion Report from member high schools who have athletic trainers for the 2017-18 school year.
- Sample of the form member high schools complete when reporting concussions.
- A copy of HB4365, which requires our office to compile this report and share it with the General Assembly.

The cover page of this report lists the number of reported concussions by sport from greatest to least. The following pages then list, by sport, the number of concussions sustained by grade level and how many of those occurred in practices, contests, or in some non-school capacity. The final page of the report shows a category of "other". This category represents a combination of those sports that IHSA does not offer a state series. (example: ice hockey) or the selection of "other" by schools when reporting.

The reporting form was developed by our Sports Medicine Advisory Committee (SMAC). All schools are able to report concussions to our office, but the summary report only provides results required by the law.

If you have any questions about the report, please direct those questions to me via email: (canderson@ihsa.org).

You are inserting a new item.

At the request of the IHSAA Sports Medicine Advisory Committee (SMAC), the IHSAA is asking all member schools to submit reports on student-athletes who have sustained a concussion. If your school has or uses the services of a certified athletic trainer (ATC), it is most appropriate for him or her to fill out this report. However, if your school does not have or utilize an ATC, then our office would request that a school administrator (Principal or AD) complete this report for recording purposes. The SMAC will review the data throughout the year to monitor any trends that may develop; all reporting will be anonymous as it relates to student names.

When you are finished, click the button at the bottom of the page to submit the report.

Synopsis As Introduced

Amends the Interscholastic Athletic Organization Act. Beginning with the 2016-2017 school year, requires an association or other entity that has, as one of its purposes, promoting, sponsoring, regulating, or in any manner providing for interscholastic athletics or any form of athletic competition among high schools and high school students within this State to require all member schools that have certified athletic trainers to complete a monthly report on student-athletes at the member school who have sustained a concussion. Beginning with the 2017-2018 school year, requires the association or entity to compile the data reported during the previous school year into an annual report and submit copies of this report to the General Assembly. Provides for immunity. Effective immediately.

House Committee Amendment No. 1

Removes the immunity for failing to report.

House Floor Amendment No. 3

Requires the schools to complete a monthly report on student-athletes at the member school who have sustained a concussion during a school-sponsored activity overseen by the athletic trainer or when the athletic director is made aware of a concussion sustained by a student during a school-sponsored event (rather than complete a monthly report on student-athletes who have sustained a concussion).
