215 ILCS 120/10 from Ch. 73, par. 1260

Senator Neil Anderson
SB 00765 (CONTINUED)

Replaces everything after the enacting clause. Amends the Farm Mutual Insurance Company Act of 1986. Provides that, until the date that is 5 years after the effective date of the amendatory Act, a farm mutual insurance company insuring against the perils of wind or hail must have and maintain adequate catastrophic reinsurance (instead of catastrophic reinsurance which limits the company's exposure on any one loss occurrence to 20% of its policyholders' surplus). Defines "adequate catastrophic reinsurance" as reinsurance in an amount no less than that required for a 500-year event, based on an actuarially sound catastrophe model that limits the company's exposure on any one loss occurrence to (i) 20% of its policyholders' surplus or (ii) an amount authorized by the Director of Insurance. Provides that a farm mutual insurance company must additionally have and maintain aggregate reinsurance coverage in an amount no less than that required for a 250-year event, based on an actuarially sound catastrophe model. Provides that the reinsurance permitted or required under the provisions must be provided by (i) a farm mutual insurance company, (ii) an insurance company authorized to write the kinds of insurance described in the Illinois Insurance Code pertaining to casualty, fidelity, surety, fire, marine, and other types of insurance, or (iii) a reinsurer and reinsurance program meeting the standards set forth in the Illinois Insurance Code that permit a domestic company to take credit for reinsurance. Requires a farm mutual insurance company converting from unlimited catastrophic reinsurance to adequate catastrophic reinsurance to provide notice of the change to policyholders in a form approved by the Director of Insurance. Provides that the provisions of the amendatory Act become inoperative on and after the date that is 5 years after the effective date of the amendatory Act. Effective immediately.

Replaces everything after the enacting clause. Amends the State Universities Article of the Illinois Pension Code. Provides that, in lieu of the amount of a disability benefit otherwise provided, for a participant who is employed as a police officer and who incurs a line of duty disability, the disability benefit shall be the greater of: (1) 65% of the basic compensation that would have been paid had the participant continued in employment for the entire period during which disability benefits are payable, excluding wage or salary increases subsequent to the date of disability; or (2) 65% of the participant's average earnings during the 24 months immediately preceding the month in which disability occurs. Provides for a disability retirement annuity for a participant who is employed as a police officer and who incurs a line of duty disability equal to 65% of the basic compensation which was payable to the participant at the time that disability began, provided that the board determines that the participant has a medically determinable physical or mental impairment that prevents him or her from engaging in any substantial gainful activity and can be expected to result in death or has lasted or can be expected to last for a continuous period of not less than 12 months. SB 02340 (CONTINUED)

Amends the Illinois Vehicle Code. Provides that any person convicted of violating provisions related to approaching, overtaking, or passing a school bus, or similar provisions of a local ordinance, shall be subject to a mandatory fine of \$500 (rather than \$300) for a first violation. Provides that a person who observes a violation related to approaching, overtaking, or passing a school bus or making contact with a stopped school bus may file a written or oral complaint with the county sheriff's office, and at the sheriff's discretion, the report may be transferred to the Illinois State Police or municipal police department. Requires the report to be investigated by a peace officer, and the investigating officer to contact the reporting party within 30 days to provide an update on the status or outcome of the investigation. Requires that no later than July 1, 2024, a school bus must be equipped with an extended stop arm that partially obstructs the roadway if the school bus has a route that includes a bus stop which requires a school child to cross a roadway. Establishes that each extended stop arm must be equipped with additional flashing red lights. Provides that the side extension arm must be capable of extending up to 72 inches, measured from the side of the bus to the furthest part of the extension arm, and at a height not less than 36 inches from the ground. Provides that the rear extension arm must meet the same specification as the side extension arm, except that it may not extend more than 32 inches from the side of the school bus. Prohibits a driver of a motor vehicle from making contact with any portion of a stopped school bus or with a school child within 30 feet of the school bus, and the violation of such is a misdemeanor and punishable by a fine of not more than \$500. Makes other changes. Effective immediately.

Senate Committee Amendment No. 1

Deletes reference to:

625 ILCS 5/11-1414

Replaces everything after the enacting clause with provisions of the introduced bill, and makes the following changes:
Removes language allowing a person who observes a violation related to approaching, overtaking, and passing a school bus to file a complaint with the county sheriff's office. Removes language requiring a school bus to be equipped with an extended stop arm that partially obstructs the roadway if the school bus has a route that includes a bus stop which requires a school child to cross a roadway. Provides that a maximum of 2 extensions to the required stop arm may be installed on the driver's side of the school bus. Prohibits a driver of a motor vehicle from making contact with any portion of a stopped school bus or with a school child within 30 feet of the school bus, and a driver who violates such provision shall be subject to the current statutory 3-month suspension of driving privileges (rather than being charged with a misdemeanor and receiving a \$500 fine). Effective immediately.

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Makes the following changes in the provisions regarding the Partners for Conservation Fund and the Partners for Conservation Projects Fund in the State Finance Act: provides that the Funds may be used to support (rather than implement) the State's Nutrient Loss Reduction Strategy; removes new purposes that the Funds may be used for relating to the Nutrient Loss Reduction Strategy, grants to support soil and water conservation districts, and development of a Healthy Soils and Watersheds AmeriCorps program; provides that the use of moneys of the Funds for implementation of a crop insurance premium discount program must be used for a State-level implementation; removes added amounts that would have been transferred from the General Revenue Fund to the Partners for Conservation Fund; and removes provisions allowing the Fund to receive grants, gifts, and awards from any public or private entity for the purpose of expanding financial and technical assistance in order to advance nutrient loss reduction efforts within priority watersheds. Makes the following changes in the provisions amending the Soil and Water Conservation Districts Act: changes the Initiative to the Illinois Health Soils Initiative (rather than the Illinois Healthy Soils and Watersheds Initiative); removes references to watersheds and nutrient loss reduction from the Initiative; provides that the Department of Agriculture shall report on progress of the Initiative annually (rather than as a component of biennial reporting for the Illinois Nutrient Loss Reduction Strategy); changes a goals and needs assessment to a soil health assessment; makes changes to the goals and needs for soil health assessments that the Department shall consider in the Initiative; removes provisions providing that the Initiative should seek to leverage funding and resources from local, State, federal, and private entities and that the Initiative may be coordinated with research and pilot projects directed by the Nutrient Research and Education Council; and makes conforming and other changes. Amends the Grant Accountability and Transparency Act. Provides that the Act does not apply to the Department of Agriculture's Soil and Water Conservation District Grants Program. Effective immediately.

Senate Committee Amendment No. 3

Deletes reference to:

30 ILCS 708/45

Removes provisions amending the Grant Accountability and Transparency Act providing that the Act does not apply to the Department of Agriculture's Soil and Water Conservation District Grants Program.

Senate Floor Amendment No. 4

In the provisions regarding the Partners for Conservation Fund and the Partners for Conservation Projects Fund in the State Finance Act, provides that the Funds may be used to provide capacity grants to support soil and water conservation districts, including lab analysis (rather than professional development), and to implement a crop insurance premium discount program at the State level (rather than to implement a crop insurance premium discount program at the State level for practices that improve soil health). Makes the following changes to the provisions amending the Soil and Water Conservation Districts Act. Modifies the definition of "soil health assessment". Provides that soil health assessments shall be used to identify opportunities to access (rather than access and leverage) financial and technical assistance from local, State, and federal sources to guide resources to their best potential use. Provides that the Illinois Healthy Soils Initiative shall complement and improve coordination of existing resources and processes and shall not replace existing, local, State, or federal (removing private) funding or technical assistance programs. Provides that the information collected through the development of the Department of Agriculture's guidelines for soil health assessments shall be compiled (rather than summarized) and provided to the soil and water conservation districts annually (rather than by July 1) to inform the development of local soil health assessments. Provides that the soil health assessment that each soil and water conservation district shall develop shall be developed annually. Provides that, upon the request of a district, the Department may (rather than shall) assist in the preparation of the district's soil health assessment. Makes a grammatical change.

House Floor Amendment No. 1

Provides that the Partners for Conservation Fund and the Partners for Conservation Projects Fund may be used to provide capacity grants to support soil and water conservation districts, including, among other things, for development and travel stipends for meetings and educational events (instead of travel stipends for meetings and educational events). Removes implementation of a crop insurance premium discount program at the State level as a use of the Partners for Conservation Fund and the Partners for Conservation Projects Fund. Provides that "health soil practices" includes practices related to conservation. Provides that, subject to appropriation, the Illinois Health Soils Initiative shall be administered by the Director of Agriculture with consultation from specified entities (adding that the administration is subject to appropriation). Provides that, in developing its guidelines to assist soil and water conservation districts in determining local goals and needs for soil health assessments, the Department of Agriculture shall consider availability of State and federal financial and technical assistance programs (rather than State, federal, and private financial and technical assistance programs) to soil and water conservation districts, local governments, and conservation partners.

SB 01960 (CONTINUED)

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes: Provides that a municipality or park district may authorize and regulate the operation of low-speed electric scooters within the unit of local government on any or all highways, sidewalks, trails, or other public right of way where the operation of bicycles are permitted (rather than a person may operate a low-speed electric scooter where the operation of bicycles are permitted, including, but not limited to, bicycle lanes and bicycle paths, and shall have all of the rights and shall be subject to all of the duties applicable to the rider of a bicycle under the Code, except in specified situations). Provides that the use of low-speed electric scooters within any municipality or park district is allowed only if authorized by the municipality or park district. Provides that an authorization or regulation by a county or park district shall apply only in the unincorporated area of that county or on park district property. Provides that a person may not operate a low-speed electric scooter on a highway with a posted speed limit in excess of 35 mph (rather than a person may not operate a low-speed electric scooter without a driver's license, instruction permit, or State identification card). Provides that a person may not operate a low-speed electric scooter unless he or she is 16 (rather than 18) years of age or older. Provides that a person may not operate a low-speed electric scooter while carrying any package, bundle, or article that prevents the operator from keeping at least one hand upon the handlebars. Removes provisions of the Code concerning vehicles and motor vehicles. Removes language providing that an entity may not operate a low-speed electric scooter business within a municipality unless the municipality authorizes the operation of low-speed electric scooters within the municipal limits. Adds provisions relating to use of low-speed electric scooters, low-speed electric scooters in rights-of-way, and operation of low-speed electric scooters under the influence of alcohol or any drug. Exempts low-speed electric scooters from title, registration, and driver's licenses requirements. Effective immediately.

Senate Floor Amendment No. 3

Provides that the restrictions regarding low-speed electric scooters also apply to a forest preserve district and conservation district. Establishes that any authorization or regulation by a park district, forest preserve district, or conservation district applies only on property owned, managed, or leased by the park district, forest preserve district, or conservation district. Provides that every low-speed electric scooter shall be well-maintained and in good operating condition.

Amends the Pretrial Release Article of the Code of Criminal Procedure of 1963. In provisions concerning denial of pretrial release, provides that, upon verified petition by the State, the court shall hold a hearing and may deny a defendant pretrial release if (instead of only if) specified conditions are met. In provisions concerning the specified conditions to deny pretrial release to a defendant, provides that one of the conditions is if the defendant is charged with a felony offense and it is alleged that the defendant's pretrial release poses a real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case (instead of specifying that the defendant is charged with a felony offense other than a forcible felony for which, based on the charge or the defendant's criminal history, a sentence of imprisonment, without probation, periodic imprisonment or conditional discharge, is required by law upon conviction). Makes other changes concerning detainable offenses. Amends the Unified Code of Corrections. Deletes a provision that at a minimum, any person ordered to pretrial home confinement with or without electronic monitoring must be provided with movement spread out over no fewer than 2 days per week, to participate in basic activities. Supports home-visiting and Early Intervention programs as an essential component of our State's multifaceted approach to the opioid crisis, helping remediate many of its corrosive impacts on young children, their parents, and families, while also assisting efforts at preventing children from future struggles with substance use disorders of their own. Affirms these vital birth-to-3 services are a top priority for increased public resources, to strengthen their quality and extend their reach to more of the children, parents, and families who could benefit from them, particularly in communities of greatest need and those hit hardest by the opioid epidemic. Affirms home-visiting and Early Intervention services are an appropriate and necessary use for some of the hundreds of millions of funding coming to Illinois from the settlement of lawsuits against opioid makers and distributors, initiatives that can help meet the settlements' stated aims of boosting opioid remediation, treatment, and prevention.

New Act

Creates the Local Government Chairperson Term Limit Review Act. Provides that, no later than December 31, 2023, and no less than every 2 years thereafter, a governmental unit that is governed by an elected governing body that has not enacted term limits for the board's chairperson by ordinance or resolution shall consider and decide, by verbal or written vote, ordinance, resolution, or referendum of the electors of the governmental unit, whether to impose term limits for the chairperson of the governing body. Defines "governmental unit" as a unit of local government or school district. Provides that, if a governmental unit has a term limit policy for the chairperson of its governing body, before a person may be elected chairperson, the governmental unit's clerk or secretary shall determine which members of the governing body are eligible to serve as chairperson of the governing body based upon the term limit policy. Provides that the clerk or secretary shall submit an eligibility report to the governing body listing those members who are eligible and ineligible before the meeting at which the chairperson is to be elected. Limits the concurrent exercise of home rule powers. Effective immediately.

105 ILCS 5/3-3 rep.
30 ILCS 805/8.47 new

Amends the Illinois Municipal Retirement Fund Article of the Illinois Pension Code. In a provision concerning service credit for accumulated unused sick leave, provides that if the employee was in the service of more than one employer or regional office of education (instead of more than one employer), then sick leave days from all such employers shall be credited. Amends the School Code. Provides that beginning July 1, 2023, all regional superintendents of schools shall receive the same salary regardless of the population of the region they serve. Provides that the salary for all regional superintendents shall be equal to the middle annual salary tier. Makes a change concerning the posting of information on the institute fund. Repeals a provision of the Code that prohibits regional superintendents from practicing or from holding themselves out as practicing any other profession. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note (Government Forecasting & Accountability)

The fiscal impact of SB 1924 is not known, as the number of employees of regional offices of education who would receive pensionable service credit for unused, unpaid sick leave from multiple employers is not known. To the extent that service credit up to one year would be provided for employees who would have previously not been eligible to combine sick leave credit from multiple employers, there would be a slight negative impact to the IMRF employer that would assume the liability associated with the additional service credit being granted.

State Debt Impact Note (Government Forecasting & Accountability)

SB 1924 would not change the amount of authorization for any type of State-issued bond, and, therefore, would not affect the level of State indebtedness.

Fiscal Note ()

Balanced Budget Note (Office of Management and Budget)

Please be advised that the Balanced Budget Note Act does not apply to Senate Bill 1924, as it is not a supplemental appropriation that increases or decreases appropriations. Under the Act, a balanced budget note must be prepared only for bills that change a general funds appropriation for the fiscal year in which the new bill is enacted.

New Act

Creates the Pesticide Application on Rights-of-Way Notification Act. Provides that, at least 24 hours before applying a pesticide to a public right-of-way that is located within the corporate boundaries of a municipality, a certified applicator employed or contracted with by the State or a unit of local government to apply the pesticide shall provide notice of the application to all residents whose residences are located within 200 feet of the public right-of-way to be treated. Provides for monetary penalties for violations following an administrative hearing with the Department of Agriculture. Provides penalties for violations of the Act following an administrative hearing. Specifies that penalties are to be deposited into the Pesticide Control Fund, with unpaid penalties subject to collection by the Attorney General. Creates a petty offense and provides for an alternative prosecution by a State's Attorney following referral by the Department of Agriculture, with identical fines for the petty offense. Provides for the adoption of rules by the Department of Agriculture. Defines terms.

Senate Committee Amendment No. 1

Replaces everything after the enacting clause with the provisions of the introduced bill with the following changes. Requires that the State or the unit of local government in which the application of a pesticide to a public right of way is to be made to provide notice of the application to residents within 200 feet (rather than the certified applicator to provide notice of the application to residents within 200 feet). Provides that notification by the State or unit of local government may be sufficient if posted in certain correspondence (rather than specified notification requirements for the certified applicator). Removes corresponding definitions.

Senate Floor Amendment No. 2

Replaces everything after the enacting clause with the provisions of the bill, as amended, with the following changes. Limits the definition of "unit of local government" in the Act to exclude a park district, a forest preserve district, or a conservation district. Exempts from the Act's notice requirements the application of a solid mosquito larvicide in accordance with a specified administrative rule.

New Act

Creates the Safety Moratorium on Carbon Dioxide Pipelines Act. Establishes a temporary statewide moratorium on construction of carbon dioxide pipelines until certain studies at the federal and State levels are conducted. Amends the Condominium Property Act. Provides that the board of managers of a condominium shall adopt a policy to reasonably accommodate a unit owner who is a person with a disability who requires an accessible parking space to ensure that person has access to the building. Provides that for an association that sells parking spaces, if an owner of an accessible parking space is unable to sell the accessible parking space to a qualified user, the board of managers shall purchase the parking space for fair market value and ensure that the space remains available to persons with disabilities who require an accessible parking space. Provides that a unit owner who is a person with a disability who requires an accessible parking space may bring a civil action against the board of managers to compel the board of managers to provide an accessible parking space. Provides that a prevailing unit owner is entitled to attorney's fees and court costs.

Senate Committee Amendment No. 1

Replaces everything after the enacting clause. Amends the Condominium Property Act. Provides that the board of managers of a condominium must adopt a policy to reasonably accommodate a unit owner who is a person with a disability. Provides that the board of managers must make reasonable efforts to facilitate a resolution between unit owners to provide for accessible parking if the association does not own or otherwise control parking that meets the accessible parking needs of a unit owner who is a person with a disability who requires accessible parking. Provides that the board of managers must adopt a policy no later than 90 days after the effective date of the Act for existing condominiums or 90 days after the date of the election of the initial board of managers under the Act. Provides that all accessible parking spaces constructed or created in accordance with applicable statutes or ordinances must remain part of the common elements for all new construction condominiums and conversion condominiums submitted after the effective date of the Act. Provides that no developer or declarant shall construct, create, or otherwise make parking units or limited common elements of accessible parking spaces. Provides that any rules or regulations adopted by the board of managers for the use of common element accessible parking spaces must provide that a unit owner who is a person with a disability who requires accessible parking has priority over non-disabled unit owners. Requires the board must review a request for accessible parking within 45 days of receipt of the request to do so. Provides that nothing in this Act precludes a disabled person from purchasing a parking unit or a residential unit to which a limited common element parking space is assigned, and no developer or declarant shall refuse to sell a parking unit to a disabled person or assign a limited common element parking space to a residential unit purchased by a disabled person. Provides that if a disabled person purchases a parking unit or a residential unit to which a limited common element parking space is assigned, that unit owner who is a person with a disability who requires accessible parking may request use of a common element accessible parking space in exchange for permitting the association use of that disabled unit owner's parking unit or limited common element parking space.

SB 01701 (CONTINUED)

In the provisions regarding the Partners for Conservation Fund and the Partners for Conservation Projects Fund in the State Finance Act, provides that the Funds may be used to provide capacity grants to support soil and water conservation districts, including lab analysis (rather than professional development), and to implement a crop insurance premium discount program at the State level (rather than to implement a crop insurance premium discount program at the State level for practices that improve soil health). Makes the following changes to the provisions amending the Soil and Water Conservation Districts Act. Modifies the definition of "soil health assessment". Provides that the information collected through the development of the Department of Agriculture's guidelines for soil health assessments shall be compiled (rather than summarized) and provided to the soil and water conservation districts annually (rather than by July 1) to inform the development of local soil health assessments. Provides that the soil health assessment that each soil and water conservation district shall develop shall be developed annually. Provides that, upon the request of a district, the Department may (rather than shall) assist in the preparation of the district's soil health assessment. Makes a grammatical change.

House Floor Amendment No. 1

Provides that the Partners for Conservation Fund and the Partners for Conservation Projects Fund may be used to provide capacity grants to support soil and water conservation districts, including, among other things, for development and travel stipends for meetings and educational events (instead of travel stipends for meetings and educational events). Provides that "health soil practices" includes practices related to conservation. Provides that, subject to appropriation, the Illinois Health Soils Initiative shall be administered by the Director of Agriculture with consultation from specified entities (adding that the administration is subject to appropriation). Provides that, in developing its guidelines to assist soil and water conservation districts in determining local goals and needs for soil health assessments, the Department of Agriculture shall consider availability of State and federal financial and technical assistance programs (rather than State, federal, and private financial and technical assistance programs) to soil and water conservation districts, local governments, and conservation partners.

Provides that a food operation may use alcohol to make extracts, such as vanilla extract, or as an ingredient in baked goods as long as the created product is not intended for use as a beverage. Provides that, if a food operation product assessment shows that a food has a pH of 4.6 or less or a water activity of less than or equal to 0.92, then the food shall not require temperature control.

Senate Floor Amendment No. 2

Adds reference to:

410 ILCS 625/4

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill, as amended by Senate Amendment No. 1, with the following changes. Replaces the definition of "time-and-temperature controlled for safety food" with a definition for "time/temperature control for safety food", which means a food that is stored under time or temperature control for food safety according to the Department of Public Health's administrative rules. Makes conforming changes. Replaces instances of non-potentially hazardous with not a time/temperature control for safety food. Provides that time/temperature control for safety food shall be maintained and transported at holding temperatures as set in the Department's administrative rules to ensure the food's safety and limit microorganism growth or toxin formation. Removes language providing that, if a food operation product assessment shows that a food has a pH of 4.6 or less or a water activity of less than or equal to 0.92, then the food shall not require temperature control.

Amends the Recorder Division of the Counties Code. Removes a requirement that a recorder be commissioned by the Governor. Provides that the chief deputy recorder (rather than the deputy recorder) shall be the recorder when the elected recorder is in active military service and that the chief deputy recorder shall receive the same compensation as the recorder during this time unless already receiving higher compensation than the recorder. Allows storage of certain information or documents in databases rather than only in books. Removes provisions repealing a Section concerning a mechanics lien demand and referral pilot program that would have otherwise repealed on January 1, 2024. Provides that the recorder may accept facsimile or other photographic or photostatic copies of the signatures of parties executing documents without labeling those signatures as copies if they are digital signatures offered in compliance with federal or State law. In provisions relating to documents received stating that a mortgage or lien is to be filed but not recorded, provides that the document will be marked filed only upon payment of a fee equal to what would be charged if the document were to be recorded. Provides that a recorder may waive the fee for additional copies of certificates of discharge or release from active duty if the recorder deems collecting the fee to be a burden to the county and the fee is waived for all requesting copies of these documents. Removes and repeals provisions relating to the time for opening and closing the recorder's office. Increases the fee for violations relating to recording a map, plat, or subdivision of land to \$1,000 (rather than \$200). Replaces pronouns with gender-neutral terms. Makes other changes. Effective immediately.

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Restores language requiring a recorder to be commissioned by the Governor. Restores a language repealing provisions on January 1, 2024 relating to mechanics lien demands and a referral pilot program.
