Issue 10

*Illinois Regulation is a summary of the weekly regulatory decisions of State agencies published in the Illinois Register and action taken by the Illinois General Assembly's Joint Committee on Administrative Rules. Illinois Regulation, also titled The Flinn Report in memory of founding JCAR member Rep. Monroe Flinn, is designed to inform and involve the public in changes taking place in agency administration.*

## Proposed Rulemakings

### ■ DEER HUNTING PERMITS

The DEPARTMENT OF NATURAL RESOURCES proposed amendments to White-Tailed Deer Hunting By Use of Firearms (17 IAC 650; 39 Ill Reg 3202) and White-Tailed Deer Hunting By Use of Muzzleloading Rifles (17 IAC 660; 39 Ill Reg 3225) concerning changes in the application procedure for firearm deer hunting permits. Both rulemakings add a third Statewide lottery drawing for deer permits that remain unfilled after the first drawing (open only to Illinois residents, with a 4/30 application deadline) and the second drawing (open to non-resident applicants, with a 6/30 application deadline) are completed. Applications for the third drawing will be accepted through the third Friday in August for that year's firearm deer seasons. This drawing replaces

the random daily drawings for unfilled permits that currently take place from mid-August through mid-September. The Part 650 rulemaking also sets a 10/1 application deadline for property-only hunting permit applications and renewals (currently, the deadline is announced annually). Other amendments to both Parts extend current limitations on tree stands to ground blinds and make site-specific changes applicable to several State fish and wildlife areas. Applicants for firearm deer hunting permits are affected by these rulemakings.

### ■ INVASIVE FISH

DNR also proposed amendments to Injurious Species (17 IAC 805; 39 Ill Reg 3241), Aquaculture, Transportation, Stocking, Importation and/or Possession of Aquatic Life (17 IAC

870; 39 Ill Reg 3249) and Viral Hemorrhagic Septicemia (VHS) (17 IAC 875; 39 Ill Reg 3264) concerning movement of various aquatic species. The Part 805 amendments add new species, including golden mussels and killer shrimp, to the list of injurious species and require a Restricted Species Transportation Permit (RSTP) for live hauling of commercially wild-caught Asian carp. The Part 870 amendments clarify that amphibians and reptiles are not subject to the Part, nor are owners of private/hobbyist or commercial aquariums or water gardens that do not allow aquatic life to escape into Illinois waters. The rulemaking adds Tilapia and hybrid species of grass, bighead, and silver carp to those requiring an RSTP, which is valid only for the dates listed and for the delivery destination named on the permit. Private lake or pond owners who stock their ponds with triploid carp are exempt provided they possess receipts from a permit holder or non-resident fish dealer documenting the number, type and size of the fish sold. No more than 20 triploid carp may be transported at any one time. Commercial fishermen may harvest and transport bighead, silver, grass and black carp if the fish are dead and transported directly to a fish market or processor, or are transported live under an RSTP to a State-licensed slaughter facility or its out of State equivalent. Asian carp may be held in a live crib or

net pen provided that they are removed and killed within 72 hours, and not transported upstream of a lock and dam or other barrier. Other changes update contact information for the DNR Aquaculture Specialist, allow 8 weeks to review permit applications for new species not on the approved list, and require the annual report for aquaculture permit holders to be submitted by 3/31 (currently, 1/31). The Part 875 amendments correct a reference to the federal list of VHS-susceptible species and require an RSTP to transport Tilapia and other non-approved species from VHS-affected regions. Those affected by these rulemakings include commercial fishing operations, fish hatcheries, private pond owners, and fish processing plants.

### HORSE RACING

The ILLINOIS RACING BOARD adopted an emergency amendment to Entries, Subscriptions, and Declarations (11 IAC 1413; 39 Ill Reg 3435) effective 2/20/15 for a maximum of 150 days. An identical proposed amendment appears in this week's *Illinois Register* at 39 Ill Reg 3415. The emergency and proposed rules allow two or more horses in the same race that belong to the same owner to be treated as separate entries for wagering purposes at thoroughbred racing tracks. (Formerly, multiple horses belonging to the same owner were generally treated as a single entry, with a wager on one horse treated as a wager on all.)
