Replaces everything after the enacting clause with provisions of the bill as introduced with the following changes: Removes requirements that the program of study a person seeking licensure as a barber, cosmetologist, esthetician, hair braider, or nail technician must graduate from must include both domestic violence and sexual assault awareness education as determined by rule of the Department of Financial and Professional Regulation. Replaces references to "domestic violence and sexual assault education" with "domestic violence and sexual assault awareness education". States opposition to the proposed change of the Determination of Need Score minimum threshold from 29 to 37, which would result in thousands of people with disabilities and seniors being left without critical support for activities of daily living in their own homes.

Urges the Governor and the Illinois Department of Human Services to withdraw any and all plans to amend the Medicaid State plan to change the Determination of Need score requirements.

SENATE FLOOR AMENDMENT NO. 1

Replaces everything after the heading with similar language. Adds the Department of Healthcare and Family Services to the list of agencies that announced changes to the minimum threshold for eligibility to enter the Community Care Program and adds Supportive Living Facilities and nursing homes to the list of those institutions affected by those changes. Clarifies that Medicaid waiver service would be adversely affected by changes to the Determination of Need Assessment score requirement minimums. States that the members of the house of Representatives find it unconscionable to deny tens of thousands of people with disabilities and seniors the opportunity to receive vital care and support services. States that proposed changes to the Determination of Need score were made without any input from those that advocate for the needs of individuals with disabilities and the elderly. States that each resident residing in a nursing home with support from the State's Medicaid Long Term Care Program saves Illinois taxpayers hundreds of thousands of dollars by preventing unnecessary emergency room and hospital visits. Adds Illinois nursing home workers to the list of thousands of citizens who would be left without employment when consumers are made ineligible for assistance through the proposed changes. State the body's opposition to the proposed change of the Determination of Need Score minimum threshold from 29 to 37, which would result in thousands of people with disabilities and seniors being left without critical support for activities of daily living in their own homes and access to critical medical care in nursing homes.

Urges Governor Rauner and the Illinois Department of Transportation to immediately task their existing consultants to prepare an investment-grade ridership analysis for distribution to interested parties around the world and to prepare as expeditiously as possible the Tier One Environmental Impact Statement to qualify the high speed rail project for federal funds and to seek federal planning funds to help pay for this study. Commends Chicago Mayor Rahm Emanuel for his commitment to building high speed train service between O'Hare International Airport and downtown Chicago and urges all State agencies to provide any and all assistance to the City of Chicago in implementing this crucial transportation project. Calls upon Congress to return to their previous practice in Fiscal Year 2010 of appropriating \$2.5 billion in the annual federal budget for capital grants to states for high speed rail projects in order to help fund this high speed rail project.

Urges the Federal Energy Regulatory Commission, the Illinois Commerce Commission, and the Illinois Power Agency to independently review the PJM Interconnection LLC and Midwest Independent System Operator capacity auction rules and market design and determine why the rules and market design have not protected Illinois ratepayers from significant increases, investigate whether all auction rules were followed in the most recent PJM and MISO auctions and, if so, to determine whether additional protections are necessary to ensure to protect ratepayers from excessive rates and charges, and independently investigate whether market power was exercised by any auction participants, including the withholding of certain generation assets intended to drive up the clearing price, and whether the market design for capacity auctions allows for the exercise of market power. Urges the Illinois Commerce Commission and the Illinois Power Agency to participate in Federal Energy Regulatory Commission proceedings that will address the design and operation of the capacity market planning processes and auction practices utilized by PJM and MISO and to promote policies in those proceedings that will ensure greater transparency, prevent the exercise of market power by bidders, and to deliver capacity resources to Illinois consumers at the lowest and most stable prices.

Urges the General Assembly to implement numerous budgeting practices to standardize the annual budget process. Urges the General Assembly to not approve the expenditure of funds for new programs and services without providing an examination of the cost/benefit analysis of said program or service and a finding that the addition of the new program or service provides significant long-term benefit to the State's fiscal health by realizing cost savings or meets an overriding public policy need.
