In 1941, we introduced our first edition of Facts \& Figures. "There is need for concise and accurate data," we wrote. "Facts give a broader perspective, facts dissipate predilections and prejudices... [and] this collection of data is an important step to meet the challenge presented by the broad problems of public finance."

Facts ơ Figures 2013: How Does Your State Compare? builds on these seven decades of tradition. Mailed to every state legislator and governor, this handbook is designed to be a pocket- and purse-sized guide to state ranks on tax rates, collections, burdens, and more.

The tables were compiled by Tax Foundation staff and edited by economist Scott W. Drenkard. We hope these facts contribute to a healthy public debate.

As a nonpartisan educational organization, the Tax Foundation has earned a reputation for independence and credibility. However, we are not devoid of perspective. All Tax Foundation research is guided by the following principles of sound tax policy, which should serve as touchstones for good tax policy everywhere:

SIMPLICITY: Administrative costs are a loss to society, and complicated taxation undermines voluntary compliance by creating incentives to shelter and disguise income.

TRANSPARENCY: Tax legislation should be based on sound legislative procedures and careful analysis. A good tax system requires informed taxpayers who understand how tax assessment, collection, and compliance works. There should be open hearings and revenue estimates should be fully explained and replicable.

NEUTRALITY: The fewer economic decisions that are made for tax reasons, the better. The primary purpose of taxes is to raise needed revenue, not to micromanage the economy. The tax system should not favor certain industries, activities, or products.

STABILITY: When tax laws are in constant flux, long-range financial planning is difficult. Lawmakers should avoid enacting temporary tax laws, including tax holidays and amnesties.

NO RETROACTIVITY: As a corollary to the principle of stability, taxpayers should rely with confidence on the law as it exists when contracts are signed and transactions made.

BROAD BASES AND LOW RATES: As a corollary to the principle of neutrality, lawmakers should avoid enacting targeted deductions, credits and exclusions. If such tax preferences are few, substantial revenue can be raised with low tax rates. Broad-based taxes can also produce relatively stable tax revenues from year to year.

Note: The State Business Tax Climate Index is a measure of how each state's tax laws affect economic performance. A rank of 1 means the state's tax system is more favorable for business; a rank of 50 means the state's tax system is less favorable for business. Rankings do not average across to total. States without a given tax rank equally as number 1 .

## Selected Federal Rates, 2013

(a) Bracket widths for filers who are married filing separately are half those of married filing jointly.
(b) These are total payroll tax rates. The social security tax is split evenly between employer and employee ( $6.2 \%$ each) for all income up to $\$ 113,700$. The $1.45 \%$ Medicare tax is levied on both employers and employees on all income. The additional Medicare tax of $0.9 \%$ is levied only on employees with wages and compensation exceeding $\$ 200,000$.

## State Individual Income Tax Rates as of January 1, 2013

(a) 2013 rates but 2012 brackets. 2013 brackets were not available as of press time.
(b) Tax applies to interest and dividend income only.
(d) Rates apply to regular tax table. A special tax table is available for low income taxpayers which reduces their tax payments.
(e) Bracket levels adjusted for inflation each year.
(f) These states allow some or all of federal income tax paid to be deducted from state taxable income.
(g) Local income taxes are excluded. 14 states have county or city level income taxes; the average rate, weighted by total personal income within each jurisdiction is; $0.09 \%$ in Ala; $0.16 \%$ in Del.; $0.64 \%$ in Ind.; $0.08 \%$ in lowa.; $0.74 \%$ in Ky.; $1.57 \%$ in Md.; 0.13\% in Mich.; 0.14\% in Mo.; 0.85\% in N.Y.; 1.06\% in Ohio; $0.01 \%$ in Ore.; and $0.78 \%$ in Pa (weighted local rates are from Tax Foundation, 2013 State Business Tax Climate Index).
(h) New York has a "tax benefit recapture," by which many taxpayers with income above $\$ 100,000$ pay their top tax rate on all of their income, not just on the amount above the bracket threshold.

Note: Brackets are for single taxpayers. Some states double bracket widths for joint filers (AL, AZ, CT, HI, ID, KS, LA, ME, NE, OR). NY doubles all except the $6.86 \%$ bracket, which is effective at $\$ 300,000$. CA doubles all but the top bracket. Some states increase but do not double brackets for joint filers (GA, MN, NM, NC, ND, OK, RI, VT, WI). MD decreases some and increases others. NJ adds a $2.45 \%$ rate and doubles some bracket widths. Consult Tax Foundation website for tables for joint filers and married filing separately.

(a) Arizona's rate is scheduled to decrease to $6.5 \%$ in 2014.
(b) Rate includes a $20 \%$ surtax, which effectively increases the rate from $7.5 \%$ to $9 \%$. Surtax is required by businesses with at least $\$ 100$ million annual gross income.
(c) Ohio, Texas, and Washington do not have a corporate income tax but do have a gross receipts tax with rates not strictly comparable to corporate income tax rates. See Table 21 for more information. Delaware and Virginia have a gross receipts tax in addition to the corporate income tax.
(d) Illinois's rate includes two separate corporate income taxes, one at a $7 \%$ rate and one at a $2.5 \%$ rate.
(e) The tax rate in Indiana will decrease to $7.5 \%$ on July 1, 2013.
(f) Corporations with entire net income greater than \$100,000 pay $9 \%$ on all taxable income, companies with entire net income greater than $\$ 50,000$ and less than or equal to $\$ 100,000$ pay $7.5 \%$ on all taxable income, and companies with entire net income less than or equal to $\$ 50,000$ pay $6.5 \%$ on all taxable income.
(g) West Virginia's rate is scheduled to decrease in 2014 subject to a reserve requirement.

Note: In addition to regular income taxes, many states impose other taxes on corporations such as gross receipts taxes and franchise taxes. Some states also impose an alternative minimum tax. Some states impose special rates on financial institutions.

(a) City, county and municipal rates vary. These rates are weighted by population to compute an average local tax rate.
(b) Three states collect a separate, uniform "local" add-on sales tax: California (1\%), Utah (1.25\%), Virginia (1\%). We include these in their state sales tax.
(c) The sales taxes in Hawaii, New Mexico, and South Dakota have broad bases that include many services, so their rates are not strictly comparable to other states.
(d) Due to data limitations, table does not include sales taxes in local resort areas in Montana.
(e) Some counties in New Jersey are not subject to the statewide sales tax rate and collect a local rate of $3.5 \%$. Their average local rate is represented as a negative.

Note: Some states levy gross receipts taxes in addition to sales taxes. See Table 21 for information on gross receipts taxes.

Note: The American Petroleum Institute (API) has developed a methodology for determining the average tax rate on a gallon of fuel. Rates may include any of the following: excise taxes, environmental fees, storage tank taxes, general sales tax, and other fees or taxes. In states where gasoline is subject to the general sales tax, or where the fuel tax is based on the average sale price, the average rate determined by API is sensitive to changes in the price of gasoline. States that fully or partially apply general sales taxes to gasoline: CA, CT, GA, IL, IN, MI, NY.

(a) Indiana's inheritance tax will be phased out from 2012 to 2022.
(b) These states have both estate and inheritance taxes.
(c) Nebraska's inheritance tax is levied at the county level.
(d) New Jersey's inheritance tax only applies to estates over \$1M.
(e) Parent-to-child transfers to children 21 years and under and farming families are also exempt.
Note: Inheritance taxes are levied on the the posthumous transfer of assets based on relationship to the decedent. Generally, Class A beneficiaries are spouses, children, and often siblings. Class B beneficiaries are non-immediate family members. Class $C$ beneficiaries are non-family members. Unlike estate taxes, the term "exemption" here applies not to the size of the estate, but the size of the gift itself.
