an Act concerning education. First Reading of this Senate Bill. Introduction of Resolutions. Senate Joint Resolution 65, offered by Representative Bill Mitchell, is referred to the Rules Committee."

Speaker Turner: "Members are asked to be at their seats. We shall be led in prayer today by Lee Crawford, the Pastor of the Cathedral of Praise Christian Center in Springfield. Members and guests are asked to refrain from starting their laptops, turn off all cell phones, and rise for the invocation and Pledge of Allegiance."

Pastor Crawford: "Let us pray. Most gracious and sovereign God in heaven, who art the God of all wisdom, the God of all power, the God of all presence, and the God of all creation, we invoke Your blessing today upon this august Assembly, upon the Speaker of this House, upon its Leaders, all of its Members, and upon all of their families. Oh God, today may they be empowered with Your wisdom, that they not be unwise and understanding in knowledge. Oh God, may they be led by Your spirit today that they not be confused or misguided. God, may they find their strength in You, that they not feel weakened, burdened, or exhausted. It is today that I ask that Your grace, Your mercy, and Your peace would be with them as they go forth. This we pray, Amen."

Speaker Turner: "We shall be led in the Pledge... the Pledge of Allegiance today by Representative Bennett."

Bennett - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Turner: "Leader Currie."

Currie: "For a Motion. Thank you, Speaker."

Speaker Turner: "Hold... hold on, Leader Currie. Representative Carroll, for what reason do you seek recognition?"

Carroll: "Thank you very much. Point of personal privilege."

Speaker Turner: "Please proceed, Sir."

Carroll: "All right. Well, I have three Pages today. Two, I'm very biased about, one I'm kind of biased about. First, I'd like to introduce Jaylan Stotts, who's a fourth grader at Carl Sandburg here in Springfield. He is the son of my secretary, Jennifer Davis. So, this is Jaylan right... I don't know if you can see him or not. All right. Number two, and this is where the biased part begins. I have a 10-year-old... my 10-year-old son, Asher Carroll, who is a fourth grader at Shabonee School

And last, but not least, I have my daughter who just turned eight years old as of today, who.. who is a second grader at Hickory Point School in Northbrook. So, please give them a warm Springfield welcome and a happy birthday to my daughter, Brooke."

Speaker Turner: "Happy birthday, and welcome to your Capitol. Representative Scherer, for what reason do you seek recognition?"

Scherer: "Thank you, Mr. Speaker. Point of personal privilege."

Speaker Turner: "Please proceed."

Scherer: "Today, I have two special Pages for the day. I have Sadie Meek and Parker Meek and they are here visiting on this special Memorial Day. So, please welcome two of my six grandchildren."

Speaker Turner: "Thank you, and welcome to your Capitol. Representative Stuart, for what reason do you seek recognition?"

Stuart: "Thank you. Point of personal privilege."

Speaker Turner: "Please proceed."

Stuart: "Thank you. I don't have any Pages but up in the gallery I have five of my very favorite people in the whole world. If they would stand up. So, I have my.. my dad, my mom, Jim and Carol Kobak from Jersey City, New Jersey and then my brother Jim Kobak from Peru, New York, my sister Marcy Kobak from New York City and my husband, Steve, who lives with me obviously in Edwardsville. Halpin: "I'd also just asked to welcome my family to Springfield. First my wife, Mary Ann, and a happy belated birthday. She turned... years old last week. And my daughter Natalie is here with my son, Will, as well. Just wish them a warm Springfield welcome."

Speaker Turner: "Welcome to your Capitol. Leader Bellock, for what reason do you seek recognition?"

Bellock: "Thank you very much, Mr. Speaker. A point of personal privilege."

Speaker Turner: "Please proceed."

Bellock: "I'd also like to introduce to the Body my Page for the day, Neola Edwin and she comes from Aurora. She's in fifth grade at Avery Coonley School. And she was just telling me that she likes to play basketball, but she also plays competitive chess, which is kind of interesting. So, her family is up there. They just came from the Abraham Museum... Abraham Lincoln Museum. And I'd like to ask everybody to just give them a warm welcome. Thank you."

Mr. Clayborn Wade, his wife, Phelloniece Wade and their children, Stacy, McKenzie, Connor and their three-month-old beautiful baby, Chloe is here in Springfield. Let's give them a warm Springfield welcome."

Speaker Turner: "Thank you, and welcome to Springfield. Welcome to your Capitol. Representative David Harris, for what reason do you seek recognition?"

Harris, D.: "Thank you, Mr. Speaker. A point of personal privilege, please."

Speaker Turner: "Please proceed, Sir."

Harris, D.: "Ladies and Gentlemen of the House, I always try to put in a good news story about Illinois at the start of the Session and I'm going to do that today in a little bit different way. And if I could just have a tap on the gavel for a second, Mr. Speaker? I'm from suburban Chicago and my newspaper... my local newspaper is the *Daily Herald*, a fine newspaper, outstanding newspaper. And I'm hoping that they're listening today because on the front page of their newspaper today was a salute to veterans. And Ladies and Gentlemen, I'm a veteran, as you know, there are other veterans on the floor and we appreciate that. But we are today celebrating the 150th anniversary of Memorial Day. Veterans have their own day in November. This is the 150th celebration of Memorial Day, which was started by General John Logan, an Illinois General who went on to become a United States Senator. And he issued, as the Commander in Chief of the Grand Army of the Republic, what he called General Order #11 designating this day as

Memorial Day declaring it for the purpose... 'the purpose of strewing with flowers or otherwise decorating the graves of comrades who died in defense of their country during the late rebellion and whose bodies now lie in almost every city, village, hamlet, and churchyard in the land'. So today is the day to remember those who served in uniform but unfortunately did not come back. Those 750 thousand individuals from the Civil War, those 116 thousand doughboys from World War I, the 405 thousand GIs in World War II, the 54 thousand in Korea, the 58 thousand in Vietnam, the 4500 in Iraq and the 2350 who put on the uniform of this country, did their service, made the ultimate sacrifice, and did not come back. That's... that's bad news, I understand. But it is good news, not just for Illinois, it's good news for our country that we have people who are willing to do that. And today, Memorial Day, is the day we remember those people. Thank you."

Speaker Turner: "Thank you, Representative. Representative Severin, for what reason do you seek recognition?"

Severin: "Point of personal privilege, Mr. Speaker."

Speaker Turner: "Please proceed, Sir."

Severin: "I also have a Page with me today. His name is Mr. Henry Meinert; he's going to be in seventh grade at Sesser-Valier. And believe it or not at Halloween he played President Trump. And also he would like to be a train engineer someday, he thinks maybe he's going to get into politics. And his grandparents are up in the gallery, we'd like to welcome them. We'd like to welcome Henry Meinert. And just because he's going to be a train engineer someday, I happen to have

something for him. Here we go. Welcome him, please. Thank you."

Speaker Turner: "Thank you, and welcome to your Capitol. Representative Mitchell, for what reason do you seek recognition?"

Mitchell, B.: "Thank you, Mr. Speaker. Point of personal privilege."

Speaker Turner: "Please proceed, Sir."

Mitchell, B.: "Here on... beside me is my Page for the day. He's... we like to call this here on this side of the House, this is the Bellini day. This is a Bellini Memorial Day because Seiger Dunston is a stepson of Nick and a son of Shannon Miller Bellini. And so I'd like... and he is in seventh grade at Blessed Sacrament. He plays baseball. And, too, Representative Bellock she said her Page plays chess. Seiger was whispering to me, he... he's awfully good at checkers. So... he's a good checker player. And I also introduce Giana. Giana. Giana Bellini is the daughter, she's two years old, of Nick and Shannon Bellini. So, give my folks a big welcome."

Speaker Turner: "Thank you, and welcome to your Capitol. Representative Bryant, for what reason do you seek recognition?"

Bryant: "Point of personal privilege, Mr. Speaker."

Speaker Turner: "Please proceed, Representative."

Bryant: "I'd like to continue in the line of discussion on General John A. Logan. And I appreciate Representative Harris talking about the 150th anniversary today of Memorial Day and realizing that General John A. Logan was credited with... with beginning Memorial Day. born in Murphysboro. What's unique about General Logan is prior to the Civil War I think we would have labeled him today a racist. In fact, when he served in Congress he... he passed a... a Code known as the Black Code, which prohibited African Americans from entering Illinois and blocked... blocked the passage of a Bill that would have... later would have allowed African Americans to testify in court. As the Civil War progressed, General Logan, in seeing what was happening in the South, definitely became someone who wanted to see slavery ended... ended. And as... later as a... as a Senator, he helped to pass the 13th, 14th and 15th Amendments to the Constitution. And... and then a little bit later in life he ran for Vice President, but the really unique thing about his political career was he... he ran... he was nominated as a Presidential candidate by Frederick Davis... sorry... by Frederick... Frederick Douglass. In fact, Frederick Douglass supported... continued his support for John A. Logan in a speech and to quote Douglass he said, But what of John A. Logan? I will tell you if there is any statesman on this continent now in public life to whose courage, justice, and fidelity I would more fully and unreservedly trust the cause of the colored people of this country or the cause of any other people, no man has been bolder or truer to the cause of the cause of the colored man and of the country than has John A. Logan. There is no nonsense about him. I endorse him to you with all my might, mind and strength and without a single shadow of a doubt. And whereas... and... and later today there will be a... a Resolution passed honoring Memorial Day but also honoring John A. Logan as the founder of Memorial Day and all of his accomplishments.

And I... I think he's a great testament to us that sometimes we can have a very... poor ideas and thoughts in our early life and then, as we progress, we can learn to... to love our fellow man in a way that we didn't in our earlier life. So, I applaud the life of John A. Logan and... and his foresight in establishing Memorial Day. Thank you."

Speaker Turner: "Thank you, Representative. Representative Sauer, for what reason do you seek recognition?"

Sauer: "Thank you, Mr. Speaker. Point of personal privilege, please."

Speaker Turner: "Please proceed, Sir."

Sauer: "Many of you in the chamber may have received a flyer from me about tomorrow. Tomorrow, May 29, we're going to have our second annual Foster Care Awareness Day at the Capitol. We'll have DCFS as well as an organization from my district called, Let It Be Us, here celebrating families, volunteers and children who are in foster care. Clerk Hollman: "Senate Bill 3086, a Bill for an Act concerning government. Third Reading of this Senate Bill."

Speaker Lang: "Mr. Halpin."

Halpin: "Thank you, Mr. Speaker. House Bill... or sorry, Senate Bill 3086 is an initiative of the Illinois Municipal League affecting Joint Action Water Agencies and Joint Sewage Treatment Agencies to allow the boards of those agencies to allow... to have a... another designated city official rather than just the mayor, or the county executive, or the township executive. These bodies are a creature of intergovernmental agreement and right now by statute their boards consist of the executive elected officials of each of those member organizations. And so, this will allow greater flexibility for each of those municipalities in composing this board. I'd be happy to answer any questions."

Speaker Lang: "Mr. Breen."

Breen: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Breen: "And Representative, currently when we're going to levy taxes... when we're going to levy taxes on folks through a Municipal Joint Action Water Agency or a Municipal Joint Sewage Treatment Agency we require that the members of that board be elected officials. Is that correct? That's a current statement of law?"

Halpin: "So, on... on the Joint Sewage treatment Agencies, I don't believe that they have the power to levy taxes. On the Joint Water Agencies they have a limited ability to levy taxes but only if the intergovernmental agreement allows for it. And then only if a front end referendum takes place among the member municipalities."

Breen: "Right. And then... but what we're going to do here is put individuals who are appointed but they're not elected officials. How... how would they even be..."

Halpin: "They're..."

Breen: "...appointed to that board?"

Halpin: "...they're going to be selected by either village ordinance or county ordinance whatever may apply for that particular municipality member of the agency."

Breen: "So that could be any... it could be a staff person at the village or... or anyone?"

Halpin: "Or a city administrator, correct."

Breen: "City administrator."

Halpin: "Or a trustee. That's correct."

Breen: "But... and then those individuals would have the ability to set water rates, set sewage rates, and possibly levy taxes even though they've never been elected by any... any..."

Halpin: "Well..."

Breen: "...member of the general public?"

Halpin: "They'd be able to... to set rates for the participating members, that's correct. They would not be able to levy taxes without the voters having approved that in the first instance."

Breen: "Fair enough. And just to the Bill. I... I very briefly served on a... what I believe was a municipal joint action board, but I was an elected official as a village trustee. So, the people had already put their trust in... in me through an election. So, I... I certainly share the... the concerns of some of the folks who were on the committee that we're handing the ability to propose taxes, the ability to set rates for water and sewer, these vital services that we require. Putting those in the hands of unelected individuals, city administrator, a city water director could set the rates on his own without the input of the elected officials of the municipality. It doesn't seem like... oh and I'd like to ask for Standard Debate."

Speaker Lang: "Standard Debate will be approved, Sir."

Breen: "Thank you. So, I would respectfully, just based on those concerns unless there's some countervailing reason why this needs to be approved, I don't see how we can approve this Bill. Thank you."

Speaker Lang: "Mr. Wehrli for two minutes."

Wehrli: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Wehrli: "So, these positions... are these positions of the... are these individuals that may be appointed. Are they... would they be compensated in any way?"

Halpin: "Not that I'm aware of, no."

Wehrli: "Not that you're aware of? A yes or a no?"

Halpin: "I... I believe it's a no. There's no... there's no provision for compensation within the statute that creates these agencies."

Wehrli: "Okay. And with the passage of this Bill, would this prohibit... if a municipality still wanted to have these people elected, would it prohibit those elections?"

Halpin: "No. It would allow... what it does is allows the member municipality, as a whole by a vote of the board, to determine whether someone else will be appointed by ordinance. So, it... it's all within the power of each local participant to the joint agency."

Wehrli: "So, it... it would be up to that board to decide if they want to decide for themselves or put it out on the ballot for the... the people that they represent to allow their input on. Is that correct?"

Halpin: "Well, there's... I mean... there's no provision in the statute to allow... or to... to require or permit the... the local municipality to put that on the ballot. I believe if they wanted to put their own local referendum on the ballot they could under current law, but it... it wouldn't be a binding... it wouldn't be a binding vote."

Wehrli: "So, this removes the ability of somebody to run for that office? I could no longer get petitions signed and go file

for this office. It would have to be through the appointment of a board..."

Halpin: "No, no."

Wehrli: "...is the only way I could get this position?"

Halpin: "No. So... so current members are not elected to the board of the agency. Current... the current makeup of that board is the elected mayor, or the elected township supervisor, the elected executive of each member municipality."

Wehrli: "Okay. And when it comes to the levy, do they have direct oversight of a tax levy? I know you talked with the Representative from Lombard about fees, but what about a tax levy?"

Halpin: "So, in the... in the case that the local community... or in the case that the intergovernmental agreement, basically the document that forms the agency in the first place, if that agreement allows a levy..."

Speaker Lang: "Please finish your answer, Sir. And then please bring your remarks to a close, Mr. Wehrli."

Wehrli: "Thank you..."

Halpin: "...and if the voters then go to referendum first to approve it, at that point that levy would... would kick in and the board would have control over that."

Wehrli: "Thank you. To the Bill. I would just recommend we vote 'no' on this one. It's... I don't think it's ready to be out here yet."

Speaker Lang: "Mr. Batinick for two minutes."

Batinick: "A real quick question. What's the reason for the change? It... there's not a really good reason on our analysis here and I haven't heard one yet."

Halpin: "So... so my understanding is, it gives each local municipality a little bit more flexibility. In some cases the mayor may serve on additional boards and... and commissions and it would free up... or make that more flexible. In other cases I could foresee a municipality wanting to have someone with a little bit more expertise on the board, such as a city administrator or a... you know, a former trustee or a trustee that has a water background or something along those lines."

Batinick: "Thank you very much."

Speaker Lang: "Mr. Halpin to close."

With regard to Senate Bill 3106, the Comptroller currently runs a smart business program on which... under which the Comptroller is responsible for outreach, education, notification, and online database, and reporting the total dollars paid to minority-owned, women-owned, disabled-owned, and small businesses. The Bill also adds a Comptroller appointee in an advisory role to the BEP Council. And finally, the Amendment requires constitutional officers to aspire to the same goals under BEP as other agencies and to report on them annually. Speaker Lang: "Mr. Breen."

Breen: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Breen: "Thank you. Representative, I want to just... just to clarify, with your Bill, you are requiring that some of the data on the utilization of businesses owned by women, minorities, persons with disabilities be posted on the internet. So, it's just a... it's just reporting data. And then in a second part you are merely requiring that they actually then send the names and information for vendors who are certified for the program to the relevant government agencies 'cause apparently the names and information are not being forwarded appropriately. Is that the... the issue?"

Davis: "Well, first of all, it's... the information is given to the Comptroller's Office so that the Comptroller can report that information. And again, this was an ability given to several Comptrollers ago. And this Comptroller is just wanting to make sure that they get the information regardless of what was or was not happening. We're just trying to ensure that they receive the information from these entities."

Breen: "Right. The various agencies' Chief Procurement Officers need to forward the information to the Comptroller to assist in working the program that currently exists?"

Davis: "Well, CMS, not agencies. CMS, the Chief Procurement Officers. So, not every agency. I believe only CMS is to report that information."

Breen: "Okay. And then the only other thing the Bill does is to add the Comptroller or that person's designee to the Business Enterprise Council?"

Davis: "As a... in an advisory role."

Senate Bill 3108 provides that victims of involuntary servitude in labor trafficking, rather than only victims of the sex trade, with a civil cause of action against the persons who are responsible or profited from those acts. Zalewski: "Thank you, Mr. Speaker. Senate Bill 3119 is a Bill in three parts. The first is an initiative of IMRF, which clarifies that a police chief that returns to service as a public safety director cannot reenter for the purposes of collecting a pension. The second piece narrows a Bill that I did in the last Session dealing with Bedford Park and Tier 1 firefighters going into SLEP. This is a narrower version of that Bill. And then the third piece of the Bill deals with

evaluations of firefighters who are experiencing PTSD. It affectively says that they don't have to go... if they're 45 years or older, they don't have to go for an evaluation of their PTSD symptoms every year because it can be traumatic to relive the reasons for the PTSD. That... if the city council approves, they can just get the diagnosis the first time and... and not have to be reevaluated every year. I'd ask for an 'aye' vote."

Speaker Lang: "Mr. Breen."

Breen: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Breen: "And Representative, I see... at least on our analysis it looks like the Illinois... Illinois Municipal League may be opposed to the Bill. What... what's the nature of their opposition if they are still opposed?"

Zalewski: "Yeah, I... Peter, they seem to be opposed to the idea that the PTSD part is a slippery slope to eroding away evaluations of benefits. I... I take strong umbrage with that idea. I think it's misguided to have to have firefighters go through this evaluation every year. But that's the nature of the IML's opposition."

Breen: "Thank you, Representative."

Speaker Lang: "Mr. Wehrli."

Wehrli: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Wehrli: "Would this Bill allow them to receive a pension from a... a downstate police or fire pension system and then go to the same municipality and collect an IMRF pension?"

Zalewski: "No, I... I don't think it does."

Wehrli: "Okay. Another part of this Bill would allow those that are suffering from a certain type of disability to not have to go back on a yearly basis. Is this the first time that we would allow such exemptions to occur?"

Zalewski: "For the purposes of evaluating a mental disorder, do you mean?"

Wehrli: "No, I mean... are there any other disabilities that people that have suffered those disabilities in the line of duty don't have to go back on a yearly basis?"

Zalewski: "I..."

Wehrli: "Is PTSD going to be the first thing that we allow for someone to not go back for a yearly evaluation?"

Zalewski: "I... we don't... we're not sure, Grant. But my... I don't want to give you bad information on the record. I don't know if this is the only time we've ever done this."

argument. I mean, we're going to allow it for one thing and then where does it stop? It's the, you know, foot in the door and it... it's... we keep going down that path and pretty soon we don't have anybody..."

Speaker Lang: "Please bring... you're finished, Sir?"

Wehrli: "For you, Lou, I'll be finished."

Speaker Lang: "For me? Bless your heart. Representative Willis."

Willis: "Thank you. To the Bill. Many of you were greeted by a young woman that actually worked on the PTSD part, her father suffered from this from a very traumatic incident that he had to deal with as a firefighter. And she came down here about a month ago with her mom and I think talked to many of us explaining why this was so important, especially in their family, that her father had this incident happen to him at an early age and every year had to go and relive the trauma that caused this terrible thing to happen to him and continued to relive and relive. I think this is a good piece of legislation. It does require the pension board to totally sign off on it. This is something that if we're truly going to be a compassionate Body, this is a part that we need to look at. And so, I would urge the Body to remember when Gracie came and talked to many of us. And this is a component of the Bill that can help the many Gracies of the world and their families to heal and move on with this. I strongly urge this Body to vote 'aye' on this Bill. Thank you."

Speaker Lang: "Leader Currie."

Currie: "Thank you, Speaker and Members of the House. This measure came to me from a former colleague who was also later a Member of the Illinois State Senate. A young man that she's known since birth is a State Police... a State Trooper, an Illinois State Police Trooper, the job he always wanted, a job he very much enjoys. Several years ago, Mr. Cokins stopped somebody for illegal something over on the side of the ride, he found himself hit by a drunk driver. He ended up with 15 broken bones, 8 surgeries, and good deal of therapy later. For the last two years, he has been back on the job, not just desk duty, he's doing the real thing. The bad thing that happened to Mr. Cokins... Trooper Cokins is that he failed a random marijuana drug test. And under current State Police rules that means he must be fired. This measure would say that for marijuana use neither in the Department of Corrections nor in the Illinois State Police would there be required firing of someone in this situation. It was pretty clear that for Trooper Cokins this was a one-time proposition, not somebody who is a regular user. We've checked other state agencies. I can't find any state agency and I can't find, even in the Chicago Police Department, for example, that there is a mandatory requirement that somebody be fired if they fail a marijuana test. So, I hope you will join me in saying that

this failure would no longer, in the Department of Corrections and in the Department of State Police, require a firing of an individual who had failed this kind of test. I'd be happy to answer your questions and I would be very grateful for your support."

Clerk Bolin: "Senate Bill 3148, a Bill for an Act concerning transportation. Third Reading of this Senate Bill."

Speaker Lang: "Mr. Davis."

Davis: "Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. Senate Bill 3148 is an initiative of the Secretary of State... the Secretary of State's Office with regard to the restricted driving permit if you're on the breathalyzer machine to start your car, for lack of a better way of putting it. The new proposal allows for a two-year restricted driving permit for DUI offenders who are on the BAIID Program rather than the current one-year permit. The petitioners will save a substantial amount of time and effort, which is generally time spent in the Secretary of State's hearing process if they are able to drive on a permit for two years. So, the permit process does already allow for a review. And what they'd like to be able to do is for those who are abiding by the rules, doing what they're supposed to do, they'd like to be able to offer them a two-year time frame on the per... on the BAIID Program versus the current one-year program. But at any time they do have their ability to bring someone in if they... if the reports are coming back, if it looks like they're failing to do what the program reasonably suggests. I'll be more than happy to answer any questions."

Speaker Lang: "Mr. Breen."

fee. It's just that the permit itself will be issued for a period of two years instead of one year?"

Davis: "Well, yes. But you say no financial impact, it might actually even save a few dollars. So, for those that are allowed to extend out for the two years, then that's less time that they have to spend coming into the Secretary of State's Office. And those personnel that hear those particular cases could save them a little time and effort as well."

Breen: "Okay. So, there could be a savings in Secretary of State staff time of processing these various..."

Davis: "Right."

Breen: "...applications?"

Davis: "Absolutely."

Breen: "All right. Thank you."

corporations. These are currently FOIA able. What this Bill would do is require that those Compliance Commitment Agreements be posted on the website. I know there's been concern, and I'm sure the chamber has talked to some folks, about wanting to do something about duplicative litigation. While that is certainly a worthwhile public policy goal, it exceeds the scope and content of this current Bill. This is just a transparency measure. It says that something that's currently FOIA able should be posted online by the agency. I would ask for its... your support. And I will take any questions."

Speaker Lang: "Representative McDermed."

McDermed: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

McDermed: "Representative, you said that this information is available to members of the public right now?"

Mitchell, C.: "So, I'm saying... so right now, Representative, an interested party... 'cause I know one of the concerns about this is that it could be a way to create more opportunities for litigation. An interested party can already FOIA this information right now."

McDermed: "So, rather than having to FOIA, they'd be able to look on the EPA website and this would be there at their fingertips?"

Mitchell, C.: "As could any other taxpayer, yes."

McDermed: "Okay. There has been some concern that this would create more litigation. What would your response to that be?"

Mitchell, C.: "So, my response to that, Representative, is that anybody who is motivated enough to want to litigate on a

STATE OF ILLINOIS
100th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

139th Legislative Day

5/28/2018

particular issue based on a particular CCA would already be motivated enough to file a FOIA request and get that information right now. So, I don't think that argument hunts. I can also tell you, Representative, that there is a conversation that's going to happen between the Illinois Environmental Council and the chamber with regard to the current state of environmental litigation. Again, that will occur outside of the scope of this Bill. But I think... I'm acknowledging that it's a reasonable concern. I just don't believe that this Bill makes litigation more likely."

McDermed: "So, this Bill doesn't create any private right of actions..."

Mitchell, C.: "No. There is..."

McDermed: "...with respect to these environmental matters?"

Mitchell, C.: "No, Representative, it does not change existing law."

McDermed: "Thank you. To the Bill. Many of you realize that I've been in... here in the General Assembly trying to bring some protection for the taxpayers of Will County with respect to some quarries that are taking heaven knows what and putting them in their quarries. And in point of fact, there are some CCA agreements with some of these quarry owners throughout the state. And I think that it would be a really good thing if these CCA agreements for these folks that have, in fact, violated this so-called clean construction debris regime that we have set up in..."

Speaker Lang: "Please bring your remarks to a close."

Walsh: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Senate Bill 3215 amends the Property Tax Code to establish an alternative procedure through which certificates of sale can be assigned to the county's delinquent tax program following certain sales in error. This is an initiative of the Illinois County Treasurer's Association. They claim by streamlining this process, through which certificates of sales are assigned to the county delinquent tax program, counties may obtain administrative savings and the owner shall have additional time to redeem a certificate of their property. Be happy to answer any questions. I ask for an 'aye' vote."

I would ask for approval of this Bill. I'm not aware of any opposition."

Welch: "I am not aware of any remaining opposition. The Amendment that was approved and became the Bill, Amendment #4, removed all opposition, Leader Breen. And in fact, I received numerous text messages from those who were originally opposed thanking me for working and getting the Bill to this point. And again, this is... and the Bill was heavily negotiated with IFT and ISBE, which removed all opposition."

Because it seems you're saying that there'd now be an appeal of the denial? What... what's... what's wrong with the current process? Is there no appeal right currently to the... to the board or what... what's the issue?"

Welch: "Well, let's... let's be clear what the SEPLB Board is. It's a board that meets once every two months to go over licensure issues. And this board is made up of education professionals from our universities, from our teachers unions, and various other organizations. They do not have the power to make a binding decision. They... what they do is make a recommendation to ISBE. Under the current process, if they recommend denial of a for profit university like American... American Intercontinental University, like they did recently..."

Speaker Lang: "Please complete your answer, Sir."

Welch: "...ISBE can just put it on their agenda, bury a needle in a haystack and move this thing without much notice. This would create a separate public hearing just for that particular issue."

Breen: "Which... and... and I... as I understand, the Governor's Office is still opposed 'cause they don't see the need for the... the process. So, that was just something that had... had been a concern. I've seen that."

We just don't believe that that scenario is possible because the SEPLB Board meets on a Friday, you know, once every two months. And the State Board of Education, their regular meeting is during the week. They would never have a regular meeting on a Saturday. So, I... it's..."

Can you answer me a question which is, how can someone swear an oath to uphold the Constitution and the laws of the country when they may have broken the law or may be awaiting court hearing on a violation of that law because they're not legally in the country?"

Guzzardi: "Couple things, Representative. First of all, this is already current practice at IDFPR. They don't check people's citizenship status when they issue professional regulations. We want to simply make sure that that current practice is in line with Federal Law, which is why we introduced this new language. Second of all, to answer your question, we... you know, we passed legislation pertaining to the Attorney Practice Act a couple of years ago. You know, we're mostly talking about DACA recipients, Representative, people who are brought to this country, you know, when they were children."

brought here by their parents. They didn't violate any laws. And so, we're trying to deal with that specific segment of individuals with that earlier Bill. This Bill has no limits."

Breen: "...in... in extremist..."

Guzzardi: "Representative, as you know, these... the only way you can work in this country is if you have legal work authorization, which is a... which is given by the Federal Government. So this is not pertaining to people's ability to practice their profession; it's simply pertaining to their ability to receive a license to do so. And I just have to remind you, again, that this is already happening at all of these agencies as we sit here today. We're simply codifying current practice."

Breen: "To the Bill. This is... whatever the representation of current practice is, the fact is it is absolutely in violation of our oaths of office as attorneys. Just as the current state of Federal Law, current Federal Law bars folks who are not legally in the country from gaining any license at the state level. You have to pass a specific law to overrule that Federal Law. You're allowed to do that at the state level. That is what is occurring here. Guzzardi: "So, I was referring to the... the IDFPR portion of the Bill, although..."

Andersson: "Ah. Well, then we don't have to deal with that because I'm dealing with the attorneys' provision of the Act. So, when we get a license, we go through no less than three steps where we have to certify ourselves as being lawful. First when we apply, we are different than nurses perhaps or doctors who aren't charged with upholding the law but we are. So first, we've got that. Second, we go through a thing called character and fitness. And notwithstanding the bad reputations that sometimes attach to attorneys, we're very concerned about the ethics that we uphold. This would require a second violation when they would not tell... not disclose that. And third..."

Guzzardi: "So... so, can I jump in here, Representative?"

Andersson: "...and third..."

Guzzardi: "Go ahead."

Andersson: "...when we raise our hand and we swear our oath the day... the moment we become attorneys, we are now breaking that oath. How do you address that?"

Guzzardi: "...citizens who are... who are not citizens or legal permanent residents, like DACA recipients. We've already opened the door for those people to become attorneys because we believe that there is reason to allow them to practice in the state. This simply codifies that in Federal Law."

Speaker Lang: "Mr. Andersson, please complete your remarks."

Andersson: "Thank you, Mr... Mr. Speaker. I understand your point about DACA. DACA is a unique situation, as the Floor Leader indicated. That's not what your Bill is limited to. I cannot support this. You are invading an area that is not the Legislature's purview. And you are setting up a system by which attorneys are required to lie. I urge a vote 'no'."

Speaker Lang: "Mr. Skillicorn for two minutes."

Skillicorn: "Thank you, Mr. Speaker. To the Bill. What concerns me here is that if we add some new language and we add a situation where we went... have people that cannot legally work in the United States yet can get a license. Furthermore, Illinois is not an e-verify state. So, many states have the e-verify requirement to make sure someone is legally able to work in the United States. This is not about immigration; this is not about DACA. This is about being able to work in the United States and then have a license to work. So, we might grant someone a professional license yet they do not

have the ability to practice a profession in the United States. This seems to be duplicitous; it seems to be wasteful. And it seems to be a symptom of one of the problems that we have here in Illinois. And it's that we go through this rigmarole; we go through extra steps. Yet these people, who I may have... be sympathetic to their plight, but they are not legally able to work in the United States. So, we're going to have staff time; we're going to have employees do background checks, do investigations and then issue them a license for something they can never do until the Federal Government acts. So, if you want to change immigration laws, that's fine. Lobby the Federal Government to change the immigration laws. But this is not the time or the place to do this. We should work on our own issues and let the Federal Government work on theirs. Thank you very much."

It was simply left out in the original draft. And there's no opposition to the Bill. Even the prosecutors are okay."

Speaker Lang: "Sponsor yields."

Wheeler, K.: "Representative, this is completely unrelated to the... the Bill we looked at last week. Is that correct?"

Evans: "Yes. And I'm glad it wasn't run on that day... that we ran it today. This is totally separate."

Wheeler, K.: "All right. So, to be clear, this doesn't have the same issues or concerns that many Members raised that day then, correct?"

Evans: "No. That day is dealing with policing. This is dealing regular everyday usage and the fact that we want uniformity

throughout the state with regards to regulating these to start off. And maybe in the future we'll get more specific through working with JCAR, through working with the department. We just didn't want a mishmash of rules all over the state."

Wheeler, K.: "No, I appreciate that very much. And thanks for bringing this Bill, Representative."

Evans: "Thank you for the support."

Speaker Lang: "Representative Williams."

Williams: "Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Williams: "Just because I've been thinking so much about drones lately, do you know if the rules will include any protections of privacy concerns, even though they don't have the... obviously the civil liberties issues, in terms of flying drones over a backyard or another private event? Not that it would be used for law enforcement purposes but generally there's still a privacy consideration. Do you know if that will be part of the rules and regulations?"

Evans: "And I want to be clear, I don't want to get into the law enforcement 'cause this has nothing to do with law enforcement."

Williams: "Absolutely not."

Evans: "This about private usage. Right now, the FAA is already outlined guidelines. I think all we'll be doing is allowing the state to do whatever the FAA is required. Some of your concerns have already been addressed by Congress and the Federal Administration. I think the hope is to work with JCAR to develop appropriate rules and I think they will. I've talked to the department; they want to work with all local

municipalities to figure out the best route to... to address this. I've talked to the City of Chicago. They created an ordinance, but that ordinance was trumped by the FAA ruling. So, everyone's trying to figure this out and the best way to do it within every region and municipality. We want to allow the department, hopefully, to... to do their job."

Williams: "Okay. Great. I just think it's important to remember, even if law enforcement is not implicated in this Bill, the drones may contain flying cameras and privacy considerations are relevant regardless. Thank you for your answers."

Evans: "Thank you."

Speaker Lang: "Representative Bryant."

Bryant: "Thank you, Mr. Speaker. Sponsor yield..."

Speaker Lang: "Sponsor yields."

Bryant: "...yield for a question? Representative, I have a Bill to keep drones from flying over correctional facilities so that they can't drop in contraband including weapons and drugs. Would this help or hurt that effort?"

Evans: "I think the... what we should do is... after we pass this Bill, hopefully I can get your support, that we work with IDOT to restrict flying over correctional facilities. I think that would address that issue."

Bryant: "So, your Bill would control whether or not someone could fly... fly a drone over a correctional facility?"

Evans: "Not specifically. My Bill..."

Bryant: "IDOT would control that?"

Evans: "Yeah. Well, IDOT will have the authority to make those rules that's not already covered by FAA. I'll look through all of the federal rules. I'm pretty sure that the rules

through the Federal Government already will restrict the behavior in which you're trying to regulate. I'm pretty sure, but we can... I can double-check that. But I'm... but the federal rules were pretty extensive. I don't have the... all of the federal rules. I have some of them here in Part 107 of the Safety Operational Rules. I didn't... I don't see specifically where you can't operate over a facility, but I'm pretty sure that's covered under the rules. We can... I can double-check that for you."

Bryant: "Okay. Thank you."

Speaker Lang: "Representative Kifowit."

Kifowit: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Kifowit: "In our analysis it says that the City of Chicago is exempt. So, if all the other municipalities in the State of Illinois are... are to fall under IDOT's purview, who is going to regulate or oversight the City of Chicago because they seem to be exempt from this legislation?"

Evans: "Yeah. I think first we have to keep in mind that the federal regulations probably would cover 95 percent of drone operations. The Federal Government... right now, the city is working on an ordinance, I think. Chicago is a... is a unique space. It's their intention, and I've talked to Representatives in Chicago, to work with IDOT, but we have to just still keep in mind Chicago is a little unique as far as... I mean, it's the largest city. So, we want to, you know, I kind of work with Chicago; they've got to figure it out. But for the most part, it'll... it'll be similar to what's going on in Aurora or any other city."

Kifowit: "Well, I guess I fail to see that with regards to the drone issue why the City of Chicago could not fall under the purview of IDOT just like every other city in the State of Illinois does?"

Evans: "Yeah, well, they've already committed to working with IDOT. So, I think the issue you may have is an issue that I don't think is going to be a really a large issue in this situation. CDOT wants to work with IDOT. Everybody's trying to figure this drone thing out. Once we set some key standards and parameters, I think we can go into the details, but right now it's just a new thing. I think it's important to allow IDOT to take control, set the rules and then we'll move forward from there."

Kifowit: "And that's just my quick question, what if the City of Chicago passes conflicting information against IDOT and the rest of the state? They're allowed to..."

Evans: "Yeah. They already attempted to do that. So, Alderman Burke in Chicago passed an ordinance when this issue first started to bubble up. But they're going to be redoing the ordinance because I think folks..."

Speaker Lang: "Please bring your remarks to a close, Sir."

Evans: "Yeah. Right now the look is for uniformity. So, I think the issue that you're... you're rising is just not one that's a true issue."

Speaker Lang: "Mr. Batinick."

Batinick: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

mentioned. Why is Chicago exempt from this Bill? You said because they're unique?"

Evans: "Yeah. Well, I think when you're setting rules like this we... we kind of want to examine them. If we can get uniformity throughout the entire state, I believe Chicago will follow suit. But because Chicago is, again, it is the largest city, I think we want to kind of get this done first through IDOT. I... my understanding from working with the Representative from Chicago is that CDOT wants to work with IDOT for uniformity. It's just figuring this larger piece out."

Batinick: "Okay. I mean, I just... I just think this is a lesson for us. Plainfield's unique. Oswego's unique. Shorewood's unique. I mean, I'm going to be in supportive of your Bill. I... just like the previous Representative had mentioned, I see no reason to exempt Chicago. I think it actually makes it difficult 'cause we're going to have a State Law and people with drones are going to be operating by the State Law and they're going to have to figure out where the city border is. And there's going to be different... different rules there. And the idea of having a Bill like this is so that there's uniformity throughout the state. So, I do... I will be supporting your Bill, but I think it's a little bit of a tragedy that you exempted Chicago."

Speaker Lang: "Mr. Butler."

Butler: "Parliamentary inquiry, Mr. Speaker."

Speaker Lang: "Please state your inquiry."

Speaker Lang: "I... I have asked the parliamentarian and we'll get back to you, Sir. Do you have any questions of the Sponsor? Mr. Wehrli."

Wehrli: "Thank you, Mr. Speaker. To the Bill. Some of the confusion coming with this drone legislation is... is we're confusing geographical maps. Airspace maps are different than land maps. So, most of Chicago right now currently is what's in... what's called a no-fly zone. Drones under current Federal Law cannot be operated within 5 nautical miles of any airport. So when I hear Plainfield, Clow Airport, that airspace would actually extend over Plainfield. So right now, we already have Federal Law dictating where these drones can and cannot be flown. This just simply says that instead of the municipalities coming along with a hodgepodge of regulations which may or may not be enforceable anyway because they may conflict, most likely conflict with Federal Law, that if we're going to do anything within the State of Illinois that it goes through the state level and not the local municipality level. As someone who is a... I spent 12 years as a corporate pilot; I'm an amateur drone pilot. These laws are very thorough and they're very confusing. And when you start layering on different map layers, it gets even more confusing. So, this to me is a step in the right direction. It allows those amateur users of, quite honestly, remote controlled drones to do them in a legal, responsible way. Please keep in mind that most major metropolitan areas with an airport it's illegal to fly a drone now as it is because you're within 5 nautical miles of an airport. This is a good way to address

will move for the victims. This Bill will move the standard
to protect victims of the State of Illinois. The current
knowledge standard in the possession of a stolen motor vehicle
law knowing a criminal law has been raised requires an officer
establish that an offender has conscious awareness that a
vehicle is stolen or converted in order to charge and convict
for possession of stolen motor vehicle when the offender is
caught driving a stolen vehicle. Whether the car was taken in
a carjacking or stolen from the victim in a theft, when the
offender is later caught driving the stolen vehicle he or she
is generally able to plead ignorance or have a legitimate
claim the car was loaned to him or her and avoid charges for
possession of stolen motor vehicle. The current practice
allows repeat carjackers and car thieves to avoid meaningful
accountability so long as he or she can escape from the
carjacking or theft without apprehension. I imagine there
will be questions, Mr. Speaker."

And.. and there's something fundamental about this Bill that I think we have to realize, is we are changing the nature of criminal law and how we prosecute people with this Bill. There has been a philosophy about the law, especially about criminal law, that is from time and immemorial. And that is, that we would rather see 10 guilty people go free than we imprison 1 innocent man. This Bill dumps that on its head. The Bill removes the requirement to prove by a reasonable doubt that the.. the defendant knowingly possessed the stolen motor vehicle. Now, you just have to prove by a reasonable... beyond a reasonable doubt that a reasonable person should have known. Well, should have known is not the same thing as actually known. By my reckoning, we do not put people in jail 'cause they should have known. We put people in jail because they did something intentionally. This is a felony. This is something we have to take serious. You add to that the fact that when you do that with minors, now we're going to put them in jail at least for 40 hours,

possibly longer. Every study anywhere has shown that the more often we incarcerate our youth the more likely they're going to become a part of that system. So, we're exposing them to the very virus that we want to avoid. And last, this is clearly a due process violation. What it does is it creates a class of people, youth, versus a class of other people, people who are older, and say for the older folks, no problem you don't have to go to jail you can bail out. Younger people no option you must go to jail. That's a violation. It has to be strictly scrutinized and you have to find that it's done in the least restrictive means possible. Every..."

Cassidy: "Thank you, Mr. Speaker. To the Bill. In my previous life, I worked in the Office of the Cook County State's Attorney; I managed all of our grant funded programs. There was a program that was funded under the Motor Vehicle Theft Prevention Council, which might sound familiar to some of y'all because it's one of the funds that got swept in... during the budget standoff. The folks that worked on that grant during the time I was there, the 10 years I administered that grant, it seemed like all they ever did was carjackings. Never once, in all the years that I worked with these... with these prosecutors, did one of them say to me, you know, I can do my job better if we changed the law. They felt like the law

worked pretty well. And the reality is, the problem is not a problem with our law; it's not a problem with prosecution. It's a problem with policing. Nine out of ten carjackings don't result in an arrest. This Bill is not about that. This is a... this is an attempt to look like we're doing something... well, we are doing something. We're putting more black and brown youth in jail. We are holding youth in... in detention causing permanent harm to their lives. This is a terrible Bill and isn't an answer for a problem that is real. And the answer to that problem is better policing and better response in our communities, not greater penalties and more detention of youth, and more destroyed lives. I strongly urge a 'no' vote."

Speaker Lang: "Mr. Mitchell."

Mitchell, C.: "Thank you, Mr. Speaker. I'll also go straight to the Bill. I am not, based on my voting record, opposed to penalty enhancements in all cases. I voted for a Bill to increase penalties for illegal gun offenders and a Bill that's going to apparently reduce crime in a couple of years according to the superintendent. But this is something beyond that. Representative Andersson highlighted the due process violations that are pretty inevitable here. But beyond that, we're retaining youth for 40 hours. We are subjecting them to a mental health screening that based on our backlog at the Cook County Jail, not to speak to other jails, could take many, frankly, weeks if not over a month. This is very bad public policy to get at a very real problem. And there is probably a way to do this more narrowly tailored that does not involve detention that's a due process violation, but

this is not it. This is not going to necessarily do anything about carjacking. What it will do is ensure that we have more black and brown youth spending more time in prison, which is finishing school for criminals. Though I understand that the city's got a real problem they're trying to solve here, I would have to urge a 'no' vote."

Speaker Lang: "Mr. Skillicorn. Do you speak in favor or in opposition, Sir?"

Skillicorn: "Opposition."

Speaker Lang: "The number of people to speak in opposition has expired. Mr. Andrade to close."

Andrade: "Thank you. Thank you, Mr. Speaker. I'd just like to cover a couple points. Amendment 1 removal... remove... Amendment 1 removed the removal of the detainee of the youth for hijacking or aggravated... vehicle hijacking for the possession of a stolen motor vehicle. Currently, this Bill would move the current standard as what is the current practice right now as if... as a juvenile was caught with a gun on a school. So, please remember, Amendment 1 removed the detention for possession of stolen motor vehicle. I know people have mentioned that, but it removed the detention of a stolen... the possession of stolen motor vehicle. That is not in the Bill in its current state. Secondly, if the defendant is able to substantiate his or her reason for driving the car and the trier of fact finds the jurisdiction reasonable, the court or jury can, of course, find the defendant not guilty. And I'm also concerned about the notes that were filed. I'm still waiting on notes on legislation. But this was such a swift turnover, I'm hoping that they can get to some of my Bills as well."

Speaker Lang: "Was that a question, Representative?"

Speaker Lang: "Well, the notes come from state agencies, Representative. So, we're not in charge of those."

the Illinois Municipal League had some opposition with the Bill. So there was some concerns. This is the new Bill, Senate Bill 2638 that came from the Senate that addressed some of those issues. Since April 17, we have now received the opinion from the Attorney General's Office. This Bill is an agreed Bill between the Comptroller's Office and the Illinois Municipal League along with other groups. And this Bill clarifies that local governments can continue to file their annual audit statements using cash basis accounting, unless they switch to the accrual basis after June 30, 2019. If a local government files its statement on an accrual basis after this date, then all future filings must occur on an accrual basis. Be happy to answer any questions."

Speaker Lang: "Representative Kifowit."

Kifowit: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Kifowit: "This was in my committee and... and we had a thorough debate on that. And I just wanted to state for the record and ask the Sponsor to, again, reiterate that... and clarify that local governments can choose and not be mandated whether to submit their annual audit statements to the Comptroller on the cash basis or the accrual basis."

DeLuca: "Yes, Representative Kifowit, that is correct. The only way a local government can be compelled to submit their annual audit statement to the Comptroller using the accrual basis is if a local government chooses to file its audit statement using the accrual basis in audit year 2019 or thereafter."

Kifowit: "Is... is there any connection or... or tie-in with the generally accepted accounting principles? That was the basis

HOUSE OF REPRESENTATIVES

in committee that they were focusing on that could compel or force local governments to change if there are future changes to... to the GAAP?"

DeLuca: "Yes. This legislation is intended to preserve a local government's ability to choose between filing their annual audit statement using either the cash or accrual basis of accounting. If there is a change in generally accepted accounting principles, the intent is that the decision to make a corresponding change affecting local governments in Illinois would reside with the General Assembly."

Kifowit: "So, in essence, if a local government is using cash basis, they want to continue to do it into the future, they are allowed to do that under your law?"

DeLuca: "Yes, correct. That is the intent of the Bill."

Kifowit: "Thank you."

Speaker Lang: "Mr. Olsen."

Olsen: "Thank you, Mr. Speaker. To the Bill. I just want to state that fundamentally I have some concerns with moving to... moving away from the accrual basis. I think the accrual basis is... is much more prudent. And I believe that local governments should be using the accrual basis. However, the state is on a cash basis accounting and I don't think it would right for us to require something of local governments that we're not willing to do ourselves. So, I will be supporting this Bill, but I'd suggest that the state and all governmental entities move toward the accrual basis. I think that would be a best practice. Thank you."

Mussman: "So admittedly, that was a decision made by the Senate and I simply didn't make any changes to that."

Breen: "Well, we're the House. And we normally try to operate in a more bipartisan manner than the Senate does apparently."

Mussman: "And that's fine, but I was not aware of the discrepancy. And we can certainly talk about that, but this is the way the Bill stands now."

Mussman: "So, again, the task force will simply issue a report and it will be up to the Governor and the General Assembly what they do with that information. So, if we feel that the information in the report is in some way biased when it comes, then certainly we can react to that."

Breen: "And then who appoints the... it says at least two but no more than three members that represent organizations or agencies that provide research, analytics, and fiduciary analysis."

And if it isn't, would... certainly don't see how we could vote for it."
