94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

63rd Legislative Day

5/31/2005

Speaker Hannig: "The hour of 10:00 having arrived, the House will be in order. Members will please be in their seats. Members and guests are asked to refrain from starting their laptops, turn off all cell phones and pagers, and rise for the invocation and for the Pledge of Allegiance. We shall be lead in prayer today by Lee Crawford, the Assistant Pastor of the Victory Temple Church in Springfield."

Pastor Crawford: "Let us lift up our hearts and our minds toward His throne. Most gracious and most precious Lord. Father, we humbly come before You. Father, realizing that we can do nothing without You. For we know and believe that everything starts and ends with You. Your word declared that You are the author and You are the finisher of our faith. Father, we ask this day that You be merciful toward us, for it is because of Your mercies that we are not consumed. It is because Your great compassions, they fails us not, for they are new every day and they are new every morning. So even this day, Your mercies are new to us. They are refreshing to us and we thank You for being so merciful. And we thank You for being so faithful, for great is Your faithfulness. And we ask this in Your son's name. Amen."

Speaker Hannig: "We'll be led in the Pledge today by Representative Chapa LaVia."

Chapa LaVia - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Hannig: "Roll Call for Attendance. Representative Currie."

Currie: "Thank you, Speaker. Please let the record reflect that Representative McKeon is excused today."

Speaker Hannig: "Representative Bost."

Bost: "Thank you, Mr. Speaker. Let the record reflect that Representative Pihos is excused today."

Speaker Hannig: "Mr. Clerk, take the record. On this question, there are 116 Members answering the Roll Call and a quorum is present. Representative Brady is recognized for an announcement."

Brady: "Thank you, Mr. Speaker. The Republicans will caucus.. the Republicans will caucus immediately in Room 118. The Republican Caucus immediately in Room 118. Thank you, Mr. Chairman. Thank you."

Speaker Hannig: "The House will stand in recess 'til 11:15 a.m."

Speaker Turner: "The House shall come to order. Mr. Clerk, Committee Reports."

Clerk Mahoney: "Referred to the House Committee on Rules is House Resolution 539, offered by Representative Dunkin."

Speaker Turner: "We're gonna start on page 5 of the Calendar, Senate Bills-Second Reading. Representative Bradley, Rich Bradley. We're gonna do Senate Bill 21. Read the Bill, Mr. Clerk."

Clerk Mahoney: "Senate Bill 21 has been read a second time, previously. No Committee Amendments. No Floor Amendments. No Motions filed."

Speaker Turner: "Third Reading. Read the Bill, Mr. Clerk."

Clerk Mahoney: "Senate Bill 21, a Bill for an Act concerning public employee benefits. Third Reading of this Senate Bill."

Speaker Turner: "The Gentleman from Cook, Representative Bradley."

Bradley, R.: "Thank you. Senate Bill 21. The Police Pension Code currently states that officers who are promoted to a noncivil service rank within 3 years of a compulsory retirement or retirement on their own are prohibited from receiving a re... a retirement annuity based on the higher rank, which is captain. This Bill changes that provision to allow captains to receive an annuity based on the noncivil service rank without the 3-year requirement."

Speaker Turner: "Seeing... Representative Parke, the Gentleman from Cook, for what reason do you rise?"

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Parke: "Representative, is this... how much is this gonna cost the City of Chicago?"

Bradley, R.: "It's minimal cost to the state 'cause there's very few officers who would be eligible."

Parke: "Now, is the City of Chicago okay with this?"

Bradley, R.: "Yes, they are. It's part of a negotiated settlement and they believe that the captains in their rank, they're leading administrators and managers in the police department, they're worthy of this benefit."

Parke: "Normally there tends to be some animosity between rank and file and captain. Is this okay with the... with the police unions?"

Bradley, R.: "I... I wouldn't say that."

Parke: "You wouldn't say that this is okay with them?"

Bradley, R.: "Ya know, I couldn't really comment on how this issue plays throughout the whole department. But again, it's a negotiated settlement with the city and the police department in the best interests of the top managers of the police department."

Parke: "And do we pay anything into that? Does the state... does any money come out of the State General Fund or... or out of pension money to this fund?"

Bradley, R.: "Not to my knowledge. Not... not the least."

Parke: "So it's strictly paid for by the City of Chicago?"

Bradley, R.: "Correct."

Parke: "Thank you."

Speaker Turner: "Seeing no further questions, the question is, 'Shall the House pass... sorry. The Gentleman from Effingham, Representative Black, for what reason do you rise? Or from Vermilion, I apologize."

Black: "Did I move again, Mr. Speaker? I'm down there with... would be a privilege to live in the same county as Director Hartke."

Black: "Representative, I... I assume that these pension plans that are the responsibility of the City of Chicago would be paid for out of the General Revenue stream of the city, which is mostly likely a property tax, would it not?"

Bradley, R.: "That may be a portion, of course."

Black: "I'm sorry, I didn't... I couldn't hear ya, Rich."

Bradley, R.: "That's a portion of the taxing, sure."

Black: "Okay. All right."

Bradley, R.: "But also employee contributions, of course."

Black: "Okay. And... I... I thought we had done this before. And... and did something happ... I know we've talked about this before. Did something happen to the Bill that has caused it to come back?"

Bradley, R.: "Not to my knowledge. I think it's been negotiated and discussed in the past and finally the city has agreed to move forward with this legislation."

Black: "What... what does it do to the Chicago Firefighters Pension Code? That was a Floor Amendment that you sponsored. Is that on the Bill?"

Bradley, R.: "No, it's not. That was canceled. I was not gonna Sponsor that Amendment."

Black: "Okay. So... so basically, it allows captains... now, this is what I'm having trouble focusing on. Captains who were not assigned patrol or investigative duties, they were in an administrative post. Would that be a fair statement?"

Bradley, R.: "That would be a fair statement."

Black: "All right."

Bradley, R.: "Captains oftentimes are the police commanders at all the police districts."

Black: "Okay."

Bradley, R.: "And the upper echelon in management throughout the police department. It's the highest rank besides superintendent."

Black: "Does this enhance their pension beyond what a patrol officer would get or does it put them on parity or how does this work?"

Bradley, R.: "Well, they pay into it in their normal formula, so it's not an enhancement. They're... they're paying into the plan as according to their salary."

Black: "Yeah. So, obviously, the higher the salary the bigger the pension."

Bradley, R.: "Correct."

Black: "Do you... do you know, Representative, off the top of your head, what is the unfunded liability of the Chicago Police Pension Fund? Do you have any idea?"

Bradley, R.: "Staff said in the high forties."

Black: "So it'd be in the 40 million..."

Bradley, R.: "Right."

Black: "...or 40 billion?"

Bradley, R.: "A percentage, we're talking. High... high 40 percent."

Black: "So 40 percent of the Chicago Police Pension Fund is unfunded, or is it funded?"

Bradley, R.: "Funded."

Black: "All right. So, 60 percent would be unfunded."

Floor Amendment #2 provides the ability for a company to build a synthetic natural gas plant and to sell/enter into contracts with gas companies to sell that synthetic natural gas at a rate below market value. The company would have to start or get their permit within 3 years, start construction, and within a year have the contracts finalized. And I'd be happy to answer any questions."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Parke: "Representative, this is a no... a new coal plant. Is that right?"

Granberg: "It'd be a coal mine, Representative Parke, in a synthetic natural gas. It would take the coal, convert it into synthetic natural gas."

Parke: "Will this have to go before the EPA and the county for zoning?"

Granberg: "It would have to go through the normal permitting process, yes."

Parke: "Will there be any state tax money being used as an incentive or through memorandums of understanding?"

Granberg: "No. In fact, that would not be the case, Representative Parke. They... there is a Senate Bill 1824, I believe, or 1814, that would've done that. We have taken this plant out of that. So there would be no tax money... no state tax money."

Parke: "So, they'll have to go through the standard citing, they have to qualify under EPA."

Granberg: "Correct."

Parke: "Why do we need this at all?"

Granberg: "Well, for a number... a number of reasons. It actually helps make Illinois energy independent. It's below the natural gas rate. It's approximately 20 percent below the market rate right now. So, it helps us make us independent, it should lower residential rate costs because we'll be shipping this natural gas to Northern Illinois... or synthetic natural gas. So it should actually lower residential rates, Representative Parke. So it makes this energy independent. It uses Illinois coal in an environmentally correct way. There is no opposition whatsoever from the Citizens Utility Board, Sierra Club, or any environmental group. So you lower residential rates, you increase the use of Illinois coal, and it helps us become more energy independent."

Parke: "Where is this located?"

Granberg: "It'd be located in Southern Illinois."

Parke: "That's a big place. Where in Southern Illinois?"

Granberg: "Well, I... I'm glad you said that. I'm glad you think it's a big place. Rural Jefferson County, which would help the entire region."

Parke: "And will it provide jobs?"

Granberg: "It would provide... it'd provide 1 thousand construction jobs over the course of 3 years, 300 permanent

coal mining jobs, and 150 permanent power jobs in the synthetic natural gas plant."

Parke: "Okay. So, just natural gas, it has nothing to do with coal."

Granberg: "You would use... you would mine the coal and through new technology you convert the coal into synthetic natural gas. And because of our location in the Midwest, we have natural gas pipelines going east, west, north, and south. It would be built in close proximity to the pipeline that would actually probably ship this gas to Northern Illinois, which should reduce rates because it's below market price."

Parke: "But if it doesn't it... and you don't... it could increase rates, if it's not... if there's..."

Granberg: "Well, it's..."

Parke: "...if they're not done properly."

Granberg: "The rates right now are 20 percent lower than the market, right now, currently."

Parke: "Well..."

Granberg: "And if... if you look at the futures market, Representative, 5 years out, the... what they're buying... they're buying natural gas right now for 5 years out at a rate that's 30 percent higher. So natural gas companies are buying natural gas on the futures market right now, 5 years from now that's 30 percent higher, 30 percent."

Parke: "Well, I want you to be successful because we desperately need jobs down in Southern Illinois. And so, I'm gonna support your legislation."

Granberg: "Thank you."

Parke: "So I'd like to make sure that you're successful with this, 'cause we need jobs and we need to be able to use one of the greatest assets that this state has, and that's our coal reserves, in a way that does not pollute. So, I hope it works."

Granberg: "Thank you very much, Representative. I appreciate your comments."

Speaker Turner: "The Gentleman from Vermilion, Representative Black, for what reason do you rise?"

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. I rise in strong support of the Bill. For any of you who have watched your natural gas rates go up over the last few years, there is a shortage of natural gas. And when people have to bid for it in the winter the rates can be rather high. In fact, I think two winters ago it reached a record high price. This is new technology developing synthetic natural gas. I wish we could develop a synthetic gasoline, because we're in the same situation. The demand is outstripping the supply. This is new technology, has great and tremendous promise. I urge an 'aye' vote."

Speaker Turner: "The Gentleman from Jasper, Representative Reis, for what reason do you rise?"

Reis: "Thank you, Mr. Speaker. To the Bill. I rise in support of this legislation as well and I've... I've been honored to work with Representative Granberg and Senator Jones. This is gonna affect our area, it's gonna affect all of Southern Illinois and it's gonna affect the whole State of Illinois,

because as Representative Black says, the price of natural gas has been increasingly getting more expensive. There's a real shortage. We consume one trillion cubic feet a year. This is gonna help with 5 percent of that. It somethin' that's coming from Illinois. We're gonna utilize the transportation cost that is normally incurred in transporting coal away from Illinois, build this power plant at the mouth of the mine, save those transportation costs and utilize it in coal gasification. I know there were some concerns about the price that's locked in for 10 years. The Speaker's Office has been very concerned of that. But we've got that worked out, we've got a good 10-year deal. If you look at the NYMEX futures, there's not 1 month over the next 5 years where the price is below \$5. This is great for Illinois. This is environmentally friendly. It's utilizing an asset that's in abundance in Illinois and I urge your support on this Amendment and ultimately the final passage of the Bill. Thank you."

Speaker Turner: "The Gentleman from Randolph, Representative Reitz, for what reason do you rise?"

Reitz: "To the Bill, Mr. Speaker. This is Bill... as Representative Granberg said, this... this Bill is very important to the power holdings project in Jefferson County. We've worked hard, a number of us, Representative Eddy and Representative Bost and I all serve on, and Representative Granberg, on the Coal Develop Board. the future for Illinois coal and... and for lower gas prices. As some of the previous speakers said, this... this is an opportunity for us to produce syn... synthetic natural gas. There's a short supply and a limited supply of natural gas in the world. And if... if this technology works like we think it will, we have an opportunity to turn a lot of the... the plants that are presently burning natural gas to use synthetic natural gas and put a lot of Illinois coal miners back to work. As I said, this is about opportunity and hope for Southern Illinois but I think for all of the gas cu... natural gas customers in the State of Illinois. And I'd appreciate an 'aye' vote."

Speaker Turner: "The Gentleman from Winnebago, Representative Sacia, for what reason do you rise?"

Sacia: "Sponsor yield, Mr. Speaker?"

Speaker Turner: "He indicates he will."

Sacia: "Ladies and Gentlemen of the House, I stand in strong support of the Gentleman's legislation. This also will affect a large natural gas producing plant... I stand corrected, an anhydrous ammonia plant in my district wherein we are using or will be once this gasification comes on line a lot of Southern Illinois coal. This is an excellent Bill and I strongly encourage you to support it. Thank you."

Speaker Turner: "The Gentleman from Crawford, Representative Eddy, for what reason do you rise?"

makes good sense. Illinois has a competitive advantage that we have not been able to use to a full advantage to create jobs because of the high sulfur content of coal. There are emerging technologies that will allow us to extract the sulfur and, as a byproduct, create a synthetic natural gas. This is creative legislation that will help create jobs in Southern Illinois, but also put Illinois on the radar for a very, very important federal project called FutureGen. Our support of projects like this and the demonstration of this General Assembly to support projects like this will help Illinois in its attempt to land the FutureGen project, which would bring millions and millions of dollars and jobs in the State of Illinois. I strongly urge a unanimous vote of this Body for this legislation to send that message to Congress, that Illinois is ready to be the leader in the coal industry in this century. Thank you."

Speaker Turner: "The Gentleman from Clinton, Representative Granberg, to close."

Granberg: "Thank you, Mr. Speaker. I would simply ask support of the Amendment and hopefully passage of the Bill."

Speaker Turner: "The Gentleman from Montgomery, Representative Hannig, on Senate Bill 661. Read the... read the Bill, Mr. Clerk."

Clerk Mahoney: "Senate Bill 661 has been read a second time, previously. Amendment #1 was approved in committee. Floor Amendment #2, offered by Representative Hannig, has been approved for consideration."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. This is one of the three budget implementation Bills that we need to do on the substantive side in order to put together, along with a spending Bill, what we would call a state budget. So this is the proposal that deals with the state finance. I could... I would be happy to answer any questions now or I will explain it more thoroughly on Third Reading. I move for the adoption of the Amendment."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Thank you, Mr. Speaker. We don't seem to have those Amendments on our system. Have they not been picked up yet? I've been enlightened. Thank you."

Speaker Turner: "Seeing no further questions, the question is, 'Shall the House adopt Floor Amendment #2 to Senate Bill 661?' All those in favor should say 'aye'; all those

opposed say 'no'. In the opinion of the Chair, the 'ayes' have it. And Amendment #2 is adopted. Further Amendments?"

Clerk Mahoney: "Floor Amendment number... Floor Amendment #3, offered by Representative Hannig, has been approved for consideration."

Speaker Turner: "The Gentleman from Montgomery, Representative Hannig, on Amendment #3."

Hannig: "Okay, this is a follow-up on the budget implementation Bill and this is technical in nature so I'd ask for the adoption of this Amendment as well."

Speaker Turner: "The Gentleman asks leave for the adoption of Amendment #3 to Senate Bill 661. All those in favor should say 'aye'; all those opposed say 'no'. In the opinion of the Chair, the 'ayes' have it. And the Amendment is adopted. Further Amendments?"

Clerk Mahoney: "No further Amendments. No Motions filed."

Speaker Turner: "Third Reading. Read the Bill, Mr. Clerk."

Clerk Mahoney: "Senate Bill 661, a Bill for an Act concerning finance. Third Reading of this Senate Bill."

Speaker Turner: "The Gentleman from Montgomery, Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. This is the... a part of the budget that we will address in three parts on the substantive side and then a spending Bill. Most of what this does is items that are, I think you would say... I think you can say in most cases are technical in nature, things that we've done in the past.

So let me give you an example of some of the items that we would do. We would terminate some small funds that exist in State Government, about 20. They have relatively small balances and little activity. And we would simply transfer their balances to the General Revenue Fund. We'd transfer \$1.2 million to the Violence Prevention Fund. We... we do this every year. We'd transfer \$9 million to the Abraham Lincoln Presidential Library and Museum. We've done that since we've got that facility up and running. We'd allow \$80 million of a transfer from GRF to the Tobacco Settlement Recovery Fund. Again, we do this every year. It's a cash flow item. It doesn't impact anything other than cash flow. We'd adjust the share of the income tax refund account for the corporate and individual accounts, we do this every year and sometimes more than once a year. We'd put the School District Insurance Program in its own... in its own account in a trust fund rather than on GRF. We'd consolidate some other items. We'd transfer \$6.8 million back to the Secretary of State's Office. This was a... this was an error in a previous... in a previous fiscal year. And probably the thing that we've done in the past before, but perhaps I'll just say has some controversy, even though it is become almost an annual ritual, is that we would in this statute, list the number of funds where we would sweep 35 percent of those items and put the money into the General Revenue Fund with the backup that should that cause a problem for that fund as the year unwinds that they could go back to GRF to... to get some money back.

STATE OF ILLINOIS
94th GENERAL ASSEMBLY

We've done this in the past. In fact, last year a couple of the funds did come back and ask for some money when it was shown that there were some errors. And so the system does seem to work well. So those... this is the nature of what this Bill is about. I'd be happy to answer any questions and I'd move for its passage."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Parke: "Representative, this is considered a 'bimp' Bill, right?"

Hannig: "A bu... yes, Sir, a budget implementation Bill."

Parke: "So, in this Amendment 2 to Senate Bill 661 our analysis shows page after page after page of sweeps out of all of these funds. Is that part of this Amendment?"

Hannig: "That's part of the Amendment. Yes, Representative."

Parke: "How many sweeps... how many funds are being swept?"

Hannig: "I... I think there's... it's somewhere about a hundred and eighty, I'm told. So..."

Parke: "So would you think it'd be over 200? 'Cause you're guessing, right?"

Hannig: "I... it's un... I believe it's under 200. But the amount that we would sweep, Representative, is about... is about a hundred and sixty million dollars. That's less than what we swept last year. But it's a hundred and sixty million dollars."

STATE OF ILLINOIS

Parke: "But there isn't much left from last year, so that's why it would be less, right?"

Hannig: "Well, maybe we're just doing a better with GRF. But perhaps... perhaps your analysis is right, Representative."

Parke: "How much money... approximately how much money is being swept out of these funds?"

Hannig: "What we have done, we've identified a number of funds where we believe..."

Parke: "A number. You mean over a hundred and eighty?"

Hannig: "That's correct."

Parke: "Okay."

Hannig: "That we believe where there's an excess of funds so that they can operate and do the things that the funds normally do. And then we would sweep 35 percent of those amounts in the fund with the safeguard that should we be wrong and have to come back, there would be an opportunity for the funds to come... actually come back automatically and have GRF replenish the fund."

Parke: "Well, let me ask you, in... Amendment 2 contains language stating that the authority of the Treasurer over the fund transfer process is restricted. What purpose does this language serve?"

Hannig: "Representative, I think we just wanna clarify that it is our intention and that we have the authority from the Legislative Branch to make these tran... transfers."

Parke: "That's not my question, Sir. My question is stating that... Amendment #2 states that language that the authority

of the Treasurer over the fund transfer process is restricted. Why did you put that in there?"

Hannig: "So that we would establish that we have the authority to do this, Representative, which we have."

Parke: "But why?"

Hannig: "Representative, we've done these sweeps since... I believe since Governor Edgar's time. And we just want to make sure that anyone who perhaps has some time to read these Bills would understand that the Legislature has this authority."

Parke: "Well, if you already have it, why are you doing this? You already got the authority. Why is this in here?"

Hannig: "We just wanna remind everyone."

Parke: "Aw, come on. Remind us? That was pretty good on your feet, and you didn't even smile. Oh, there, that's much better. Isn't it because our Treasurer has taken on some authority that she feels she has and has restricted certain amount of money not to be swept?"

Hannig: "What... what page on the Bill is the language and I'll look at. Maybe I have a better language (sic-answer)."

Parke: "It's in the number of line items in your... in your Amendment 2."

Hannig: "Could... could you read to me the language specifically in the Bill and I'll try to give you an answer?"

Parke: "Well, let's look up page 56... of House Amendment 2, 'Notwithstanding any other provision of the State Law to the contrary, on or after July 1, 2005 and through June 30, 2006, in addition to any other transfers that may be

Hannig: "Yes, Representative, this is to establish the inter fund transfer for the new Department of... when we consolidated with the Department of Professional Regulation and it creates the Indirect Administration Fund. In other words, a fund that can deal with the administrations of an agency that... that actually has many..."

Speaker Turner: "Representative Parke, one minute."

Parke: "We do not see it that way. We think that you're deliberately trying to restrict the authority of the Treasurer and we don't think that's appropriate. And you do not have the authority and so I guess maybe we'll eventually end up in court on this, because we do not believe that you do have that authority. That our Treasurer is acting in her authority and we will continue to press this. Ladies and Gentlemen, to the Bill. I'm rising up in opposition to this. We think it's inappropriate to continue to sweep money out of these accounts because these monies were raised from all of these accounts to be used for the specific purpose that they were raised for. And now, we are in the midst of taking more money. This is the second... this is the third time..."

Speaker Turner: "And your time is up. The Lady from Will, Representative Kosel, for what reason do you rise?"

Kosel: "Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Kosel: "I have a couple questions to... to ask you regarding some of the fund sweeps. Do you have knowledge that I possibly don't have that breast cancer has been eliminated in the State of Illinois and that we would no longer need funds in the Mammogram Fund?"

Hannig: "Representative, would... would you... would you tell me where you find that in the Bill?"

Kosel: "Okay. This is one that was in there last night that has now been added back in?"

Hannig: "It's not in, is my understanding. But if you think that it is, I'll look in the Bill and try to find it."

Kosel: "Okay. Okay, they were in last night but they're not... they were being swept last night but now are out. What about the Veterans' Fund? Yesterday on Memorial Day we had a Veterans' Fund that was being swept. Is that... is that still being swept?"

Hannig: "It is one of the items that we will have in the Bill... that is in the Bill to sweep 35 percent, with this backup provision that if that's a problem they can go back to GRF. So the answer is 'yes'."

Kosel: "And... and that particular Veterans' Fund is designed to do what?"

Hannig: "It's... it's the... it's the Illinois Rehab Fund, I'm advised."

Hannig: "It's... I'm advised it's the Illinois Veterans' Rehabilitation Fund."

Kosel: "The rehabilitation fund for... for veterans. What is the purpose of that fund, though? What is it used for? Is it to rehabilitate them from physical defects? Is it to rehabilitate them financially for losses they suffered as veterans? What is... what is the use... what do we feel we don't need to spend on veterans?"

Hannig: "Representative, I... the point that I guess I'm trying to make on these Bills is... in this Bill is that we believe that these funds have enough available balance that they can continue to do the operations that they were set up to do without any interference. And should they find that, in fact, we are wrong and there is a fiscal problem and a cash flow problem, then they'll go back to GRF and they'll get their money. So..."

Kosel: "Then will they..."

Hannig: "...I don't think that... I don't think we're restricting any fund in any program through these sweeps."

Kosel: "I want to get back to that point that you just made, but I... I really would like to know what this fund actually funds. I mean, what action to our veterans do we feel that there's an excess money? And you don't have that information?"

Hannig: "We have information that this fund has an adequate balance to... to operate throughout the year. We were looking at this from a fiscal point of view."

Kosel: "I understand that. But there's veterans out there who may be eligible for this fund but may not feel the same way."

Hannig: "And... and none of them... and none of them will be affected by it. If there is no need to come back to GRF we will keep all the money. If there's a need to come back to GRF we'll give 'em their money back. So, everyone will be held harmless."

Kosel: "Can we talk about that, if they wanna come back, if they... the fund then has a problem and they wanna come back. Can you tell me what that procedure is within this legislation on how the funds would address that return to GRF and what that process is and what that means?"

Hannig: "It... it's the process that we established last year when we passed the Budget Implementation Bill then on, what, July 24. And it's that same process that exists. So if they have inadequate amounts of money in their dedicated fund then they can submit the bill to the General Revenue Fund."

Kosel: "So they would submit their bill to the General Revenue Funds under what condition?"

Hannig: "If they can't... if they can't pay the bills."

Kosel: "Okay."

Hannig: "So, I mean, if they get into a situation where they can't pay the bill they submit it to General Revenue."

Kosel: "But I believe in committee last night you said that they would submit it and be loaned the money. Is that accurate?"

Kosel: "I'm sorry, can you repeat that, please?"

Hannig: "Yes. Certainly, Representative. Loaned in the sense that after they draw some money from GRF, after a period of time if their loan balance is sufficiently replenished..."

Kosel: "They've gotta pay it back."

Hannig: "...that they would pay it back to GRF."

Kosel: "So you're sweeping a Veterans' Fund, you are giving \$1 million to the Beverly Arts Center, and if the veterans run out of money it's a loan..."

Speaker Turner: "Bring your remarks to a close."

Kosel: "Thank you. I'm attempting to do that. So, we... we're sweeping a Veterans' Fund, we're giving money to the Beverly Arts Foundation. If the Veterans' Fund runs out of money they have to receive a loan from the state and it must be repaid. This is ridiculous."

Speaker Turner: "I'd like to ask the Members if we could just lower the noise level just a little, it might mean that we don't have to keep asking the same questions. The Lady from Cook, Representative Mulligan, for what reason do you rise?"

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Governor can sweep. I presume that they realize sweeping those funds was a little hot to handle and might not sell well publicly. Things like the Violence Prevention Fund, which he's tried to sweep before, the Mammogram Fund that funds mammograms for poor women, these are the things that they were planning on taking but that... because people were complaining we put back a couple of them?"

Hannig: "Representative, I was advised that there was perha... perhaps some errors were made when we... when we put the fund together. So during the normal process, we did this last year and the year before, we had to return some funds because there were... errors simply were made."

Mulligan: "How many funds are being swept at this time?"

Mulligan: "Okay, so out of a hundred and eighty to 2 hundred you only found 6..."

Hannig: "No, I advi... I advised... it's about 180, I think. But I could be wrong, I didn't actually count 'em."

Mulligan: "You only found 16 that were inappropriate. What about all the banking funds that are under injunction not to be swept? When you were preparing Amendment 3 don't you think it would've been appropriate to put the banking funds back in when there's an injunction that they're not to be

swept and you're going... and the Governor is planning on sweeping those?"

Hannig: "Representative, this was a list of funds that we developed, the Members of the Legislature, to try to sweep."

Mulligan: "Right. But the funds that are also being swept are from the Bankers Association, a number of banking funds that are involved in a lawsuit that there's an injunction that they can't be swept. Now, when they... when Amendment 3 was amended, and this was pointed out to them last night in I think two separate committees that they were sweeping funds that there's injunction against sweeping, you could've added those funds into the ones that were deleted when you prepared Amendment 3. Why did you not do that?"

Hannig: "That... that wasn't the purpose of Amendment #3, Representative."

Mulligan: "Oh, really? It wasn't because someone might be unhappy that you're sweeping the Mammogram Fund that pays for mammograms for low-income women? Who... who gets served and who has to go there when we have a big... and who pays for the continuation of the litigation when you sweep the banking funds that you're under... the state is under injunction not to take? What arrogance to not... to go ahead when you're under a court injunction not to sweep those funds and to go right ahead and do it. I do not understand the arrogance that makes them believe that they can take those funds. Would you explain that to me?"

But this is to simply say that we believe, in the Legislative Branch, that we need to have authority to make certain transfers in the Bill."

Mulligan: "So you believe we have authority to go around an injunction that says do not sweep the funds and sweep them anyway?"

Hannig: "We're not overriding an injunction, Representative."

Mulligan: "But you're planning on sweeping the funds. All right, how many funds under this..."

Hannig: "It's... it... anything we do is subject to litigation, Representative. And this would be, too. It would be any part of this Bill."

Mulligan: "If they're already in litigation why would you do it again?"

Hannig: "We believe we'll prevail, Representative."

Mulligan: "You believe you'll prevail. Good luck. How many funds are designated for automatically quarterly sweeps? My understanding in the Senate discussion yesterday and in just hearing what was going on in..."

Now, I can't speak to the other two Gentlemen, however, I for one was led to believe that Senate Bill 1180, which was supposed to be a Bill to enhance police training in Illinois, the funding for that Bill is now ending up in this sweep. I would call your attention to the Traffic and Criminal Conviction Surcharge Fund where the Governor is taking 1,382,000. Mr. Speaker, could I have some order, please? Ladies and Gentlemen, one of the more respected Members of this Body yesterday sponsored a Bill, Representative Joe Lyons. I can't speak for Joe, but myself and Senat... Repr... correct... Representative Millner were asked to join in by several lobbyists and our biggest concern in committee was would this money be swept? Guess what? It's in here, a million three hundred and eighty-three thousand dollars. I really personally feel that I was duped. Certainly, certainly not by the Sponsor of this Bill but by those that came to the three of us and asked if we would be either the Sponsor or the chief cosponsors. Ladies and Gentlemen, on the other side of the aisle many of you are very concerned about natural resources. Many of you are concerned about alternative fuels. Have you looked down through this list of well over 2 hundred sweeps? Over 34 of them have well over a million dollars being swept out. Many of them are very near and dear to your hearts. How about the Sports Facility Trust Fund for a million, one hundred? How 'bout state parks for a million, forty-five? Ladies and Gentlemen, there are... how 'bout Natural Resources Restoration Fund? Natural Heritage Endowment Fund for 557 thousand. Illinois Forestry Development Fund, Illinois Habitat Endowment Fund, and let me digress to Alternative Fuels Fund, Care Provider Fund... Ladies and Gentlemen, listen to this one. Care Provider Fund for Personnel... for Persons with a Developmentally... with a Developmental Disability. Once again, I repeat, Care Provider Fund for Persons with a Developmental Disability. We're gonna take \$2,300,000 from that fund for the developmentally disabled. How can anybody with any kind of a conscience at all vote 'yes' for a budget that does this? Our Governor talked

This is an abomination. This is an insult to anybody with intelligence above plant life. This is shameful, Ladies and Gentlemen, literally shameful."

Speaker Turner: "The Gentleman from Vermilion, Representative Black."

Not in lockstep with someone who tells you this is what I want you to do or this is what I expect you to do or this is what I think you should do. And I notice a distinct lack of material on the other side of the aisle about what fund sweeps are in this Bill. I notice not very many of these injunctions copies are on your side of the aisle. When all is said and done, if you can vote with a clear conscience and then this summer go home or next fall speak to school children about we are a nation of law, we are a state of law, we are sent here to make law, and then look that school child in the eye and tell them but the law doesn't necessarily apply to the Governor of the State of Illinois, to the au... to the director to the Governor's Office of Management and Budget, and it doesn't necessarily apply to certain Members of the General Assembly who were told to vote 'yes'. This is the court injunction. It is very clear. It says some of these funds will not be transferred until further order of the court. So when you vote for this, as far as I'm concerned, you're in contempt of court and it's a contemptible position for you to take that, oh, we'll settle it later or it didn't really mean that. Until you have a definitive court decision, the injunction is clear, the injunction should stand, and you

should vote accordingly. And the only vote that you can make given this injunction and lawsuits that are sure to follow. I'm gonna look those school children in the eye in my district next fall and I'm gonna say I'm sent here to make law and I do the very best I can to follow the laws that are issued by the judges and the courts of the State of Illinois. The only responsible vote is 'no'."

Let's go back to the fund sweeps. Okay? Can you talk specifically, what is Agriculture Incidents Response Trust Fund? You're sweeping money out of that one."

Endowment Fund that would sweep a hundred and forty mil... or 420 million at a hundred and forty million a year."

Hannig: "Representative, that's not in this Bill."

Eddy: "I understand it's not in the Bill, but that wasn't the question. But obviously, you're not gonna answer the question. Let me... let me... let me just make it perfectly clear to the folks on the other side of the aisle. That plan that we were asked to consider for the cause of setting money aside for education has absolutely been abandoned and Representative Hannig just said so, that's not in this Bill. This is not about sweeping funds for educating children. This is about taking education funds that are dedicated for education and spending 'em on General Revenue projects. Earlier in his comments the Representative said that this is excess funds. I gotta tell ya, you wanna try to convince someone in the Illinois Future Corps Scholarship Fund that did not get a scholarship funded last year that there's excess money in that fund, perhaps the \$4,836 that you're sweeping this... from this fund could've paid for a scholarship so someone could teach our children. The Asbestos Abatement Fund for schools. Representative, do you know that all the schools in Illinois that need Asbestos Abatement Funds have already received the funds? Representative. Representative, has every school in the State of Illinois that wants asbestos abatement funding been funded at a hundred percent of their request?"

STATE OF ILLINOIS

Eddy: "The Illinois School Asbestos Abatement Fund will be swept at a hundred eighty-three thousand, one hundred and ninety-one dollars. Your earlier comments were, 'these are excess funds'. So that would lead one to believe that every school in the State of Illinois that needs asbestos abatement money already has it."

Hannig: "Every... every voucher that's presented to the Comptroller to be paid out of this fund will be paid. If there's not sufficient funds in this account it will be paid out of the General Revenue Fund. So, my point is that it will have no affect on anything that occurs within any of these funds."

Eddy: "Yeah. Will they be paid like the Medicaid payments that are a hundred and fifty days late? Being paid in a timely manner is a little different than being paid. And this administration has shown an inability to pay providers for services. That same inability is being shown in other areas. Let's look at another one. The ISBE Teacher Certificate Institution Fund, a hundred and twenty-two thousand dollars. The School District Emergency Financial Assistance Fund, \$2,130,000. Park District Youth Program Fund, \$4,899. Ladies and Gentlemen, please take a look at what you're doing here. People pay money... fees for a purpose. it. You need to look at what you're doing here. You are taking money from children, you are taking money from funds that are meant to support people who have been victims of sexual assault. The Sexual Assault Services Fund is being swept for \$12 thousand. Representative Hannig, try to convince someone who has been assaulted that this is excess money. That's what you're saying. These are excess funds. These funds are lying there with no purpose but there are people that are not being served by the intention of the fee that they're paying. Ladies and Gentlemen, I've met a lot of you on the other side of the aisle and I believe you to be good, honest people. You are being led over the cliff like lemmings if you support this kind of fund sweep. This is absolutely outrageous."

Hannig: "I think it's about 54 million."

Mathias: "Fifty-four million. That's... and do you know where that money will be going to?"

Hannig: "I think primarily to the RTA."

Mathias: "So, you think the money will be going to the RTA, but the RTA already collects funds for this. Is it possible that the RTA could give some of that money to the CTA?"

Hannig: "Is it possible? I suppose it is."

Mathias: "Or do you think it's probable?"

Hannig: "Representative, I'd rather not speculate on what these agencies might do."

Mathias: "Well, I'll tell you what, let me speculate. I... I... to the Bill."

Speaker Turner: "To the Bill."

Mathias: "I believe that the way it's set up right now the RTA, under a previous Bill that we enacted previous in this Session, the RTA was going to give funds to PACE for paratransit. And that fund... those funds were right now discretionary funds that were given to the CTA. So, if the state decides to give additional funds to the RTA for

paratransit then the RTA won't have to take those funds from the CTA and, of course, they can keep those. I believe it's \$46 million... somewhere between 46 to 50 million dollars that the CTA could keep, even though they won't be running the paratransit program anymore since PACE will be running. That's my speculation. And I hope you look into this when we come into... when we look at the budget Bill later I'll try to follow through on that. Thank you."

Speaker Turner: "The Gentleman from... the Gentleman from McHenry, Representative Franks, for what reason do you rise?"

Franks: "...Speaker. I... I've been thinking about this for awhile and I have heard... I've been listening to the speakers from the other side of the aisle and I agree with most of what you said. And I'm... and I'm reading the Bill, Amendment #2, and one portion that I... you guys talked about a lot of the other things, but one portion that I focus... I'm focusing on is on page 6 of the Amendment which gives more power to the Department of Central Management Services to provide more professional services and other services not only to the state agencies but also to the Toll Highway Authority and the Illinois State Board of Education. And on one of the lines that we're looking to sweep they're talking about the Efficiency Initiatives Revolving Fund. Now, we've been having a series of hearings in the State Government Administration Committee and we... and also, as you know, there's been an audit of these efficiency initiatives and

STATE OF ILLINOIS
94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

63rd Legislative Day

there is much discussion on whether there's been savings and how much. But we do see a line here sweeping over \$6 million of the efficiency initiative's, which I'm wondering where they came up with that number when we've had these hearings and such and they have not been able to justify that. And I find that to be very disconcerting. Also, I'm worried when we have CMS more power, when they are right now an agency that's under investigation by both the Attorney General and the Inspector General for exactly these efficiency initiatives. And it concerns me because when we were having our hearings what we found is how the budget was being used is that these efficiency initiatives were sent over from the Governor's Office of Management and Budget and not from CMS. So the Governor was plugging in the numbers of how much was supposed to have been saved, though there was no real rationale for it. And as a result, instead of using line items, the money was swept into a GRF and that's a problem here because I think it circumvents what we're trying to do. So that's... I think we need to maintain the line items here and that's what worried me with the... with the CMS and I'm concerned about giving them more power. I don't consider this a sweep. I think it's an elaborate money laundering scheme on how things can be moved around. So, that's why I'm standing in opposition to this because that's how I see it's done and we have to rein in what I think is an agency that's gone amok."

Bellock: "Thank you. Representative Hannig, I wanted to question you on this, the Child Support Administrative Fund. For the last 7 years since I've been here, we have worked as a coalition to help change the child support system in Illinois. It's like beating your head up against a wall. There's over 260 thousand outstanding accounts for women who need child support in Illinois. All I get every day, the first thing in my office, is calls 'cause my number is on a national website for not helping women in Illinois. We spend the first two hours of every day answering questions from women saying, 'No one in the State of Illinois in Public Aid or any agency will help me.' And now, I see. There's over billions of dollars owed to these women and children. Now I see a sweep of Child Support Administrative Fund of \$1,117,266. How do we explain that to the women that call every day asking for someone to help them?"

Hannig: "I'm sorry, I didn't realize you were asking a question, Representative. Could you repeat your question?"

Bellock: "The question is, there's over 260 thousand accounts of women and children in the State of Illinois that need child support. They call our offices every day saying that no one in the State of Illinois, in Public Aid, Child Support, any other agency will give them any help. There's billions of dollars outstanding that are owed to these women and children. If there's one thing that can help this self sufficiency of women and children in Illinois, it's child support payments. And I take a look this morning at the funds that are being swept and one of them says Child Support Administrative Fund, \$1,117,000. How do we explain that?"

Hannig: "Well, Representative, again, my point is that we will sweep about 35 percent... exactly 35 percent from all of these funds with the safeguard that if a bill is presented to the Comptroller and there's no money in the fund it will be paid out of GRF. So I don't see that it's gonna have any affect or cause anyone who presents a bill to the state not to be paid. So, it should be something that we will not see at all."

Bellock: "I can't understand that because all we hear from the Public Aid people is that they just don't have enough money in administration to help secure these funds and these accounts for the women. So this suggests to me that there is going to be less money."

Hannig: "Well, Representative, may... maybe one of the things we could do is look on the spending side. But I mean, this

is... this is not a spending Bill. You know, we could... we could..."

Bellock: "Isn't it you're taking the money from the Administration of Child Support?"

Hannig: "We are... we are taking 35 percent of that fund and putting it into General Revenue Fund with the understanding that and the belief that there's adequate money in this fund so that all the bills that are presented to this fund will be paid. If I'm wrong, there'll be paid from the General Revenue Fund."

Bellock: "So you're..."

Hannig: "So I don't think anyone's gonna come in and... and have a voucher that we'll have to say we can't pay. So it should not have any affect on... on operations in that respect."

Bellock: "I'm asking you, Representative, to take this fund out of this. Thank you."

common sense things like you're taking money out of some pretty important funds and now you're gonna try to convince me it's okay 'cause we're gonna put it back if we need it later. Only... we can only put it back if we need it later if we have it, right? Is that correct?"

Hannig: "Well, rep... Representative, it would come out of the General Revenue Fund."

Tryon: "Right. Okay, I'm gonna talk about two small funds here. One's called the Community Water Supply Lab Fund. Do you know what that fund is?"

Hannig: "Representative, let me be the first to announce that I don't know what all these funds do. All I know is that we believe that there is surplus money that we can use in these funds but we set up a process last year... it was a bipartisan, process that we set up so that if any of these funds have bills that are presented to them and they don't have the money we pay them out of GRF. So the thought is that all bills that are pre... that are presented to the state that are legitimate will be paid."

Tryon: "Well, here's a problem with that. That's the fund that does the water testing for our cities and our villages throughout the State of Illinois so that we have safe water. The people that pay for that fund is the cities and the villages, so that's their money. All right? That's about 20 percent, 25 percent of the total cost of the program. And I would agree with you that maybe you could do some kind of grand scheme like transferring this money in to use it as a revenue source so we can booster up the

revenue side of the budget so we don't have to get cuts if I knew that it was actually working. But last... last year in that fund and the fund called the Environmental Lab Certification Fund, when it came time to hire people to do the work, they couldn't do it. Now, you're trying to tell me that if they come and they ask you, gee, we need some of that money released so we can hire the employees to do the work, to do the testing of the water of our cities so we know we're drinking safe water, you're telling me the Governor or whoever's gonna say okay?"

Hannig: "Representative, the Governor will... and his people who run these agencies will live within the budgets and the rules that we all established. But what we're doing here is setting up a process where we will have some monies available to us but with some safeguards to ensure that all people who present bills to the fund will be paid."

Tryon: "Would you be surprised if I told you that's not the way it worked last year?"

Hannig: "Representative, I was advised that there were a couple funds that came to the state and did receive GRF funding and... I think about a million dollars worth. And I'm advised that the Prompt Payment Act actually applies to these so that if someone is waiting in line, they collect interest."

Tryon: "Well, it didn't work and that's why I can't support this. And I... I guess my question is... is you're just doing a straight across the board sweep instead of looking at fund balances that may have excess cash positions that you

could use. I think this is financially irresponsible and I'd like to speak to the Bill. You know, coming down here and watching the General Assembly put a budget together has been a real treat because you could not do this on a school board, you could not do this in a county board, you could not do this in a city council. I saw this budget at 10:00 this morning and I'm expected to vote for a \$24 billion budget that taxes the people in my county and around the State of Illinois. I came down here to do the work of the people. I didn't come out here to do the work of the people before May 31. If I have stay 'til December, I'm gonna do the work of the people 'cause I wanna do what's right. This is not what's right. This is what's wrong. This is a bad Bill. This is a Bill that takes funds from the poorest of our poor people. It takes funds from the public that we need to provide things like safe water testing, safe disease prevention, safe monitoring of our communities. I can't support that, nor can I support gettin' this kind of Bill laid on me at the last minute. You know, you're talking about raiding pension funds. You know what? What we do here today is important for the next 40 years. But what we do here today we're gonna have to live to when we go home. This isn't selling in the Rotary Clubs of Illinois, at the churches of Illinois. I called home yesterday, my wife says, 'What's going on in Springfield? Everywhere I go they talking about this today. Are they really gonna take money from the pension funds?' So I think when we get home our constituents are

gonna tell us they don't like this kind of budgeting. They don't like what it..."

Speaker Turner: "Bring your remarks to a close, Representative."

Tryon: "Okay. Well, I'm gonna tell you this, I'd like to yield what time I have left to Representative Parke."

Speaker Turner: "And we've heard from him. The Gentleman from Knox, Representative Moffitt, for what reason do you rise?"

Moffitt: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "Indicates he will."

Moffitt: "Representative, we received a list of fund sweeps earlier today and then when we come on the floor a little bit ago we got a revised list. Is that correct? At least we did. The fund sweeps proposed has been changed."

Hannig: "Yeah. I... I think, in all fairness, Representative, Amendment #3 changed some of those sweeps."

Moffitt: "Okay. Now, I want to make sure I understand correctly. You've indicated that any fund that you're concerned about... and I think all of us should be concerned about all these funds. But you don't need to fear loss of funding because if it needs it, it will be funded. Is that what you have committed to? Is that what you've promised?"

Hannig: "What I'm saying is that any check that's presented to these funds for payment that the Comptroller says legitimate... is legitimate, that they will be paid. They'll be paid out of the fund that's the dedicated fund or, if need be, out of GRF. So I don't think you're gonna have vendors coming back to you or citizens coming back to you

saying that, well, they won't honor my check... or my voucher."

Moffitt: "So even though the fund balance is zero, if more bills come in that were legitimate claims they'd be paid?"

Hannig: "From General Revenue."

Moffitt: "Okay. Now, in the change of funds, the list, I noticed that the earlier list I had included the Mammogram Fund being swept, stolen, taken. The revised one is not in there. Why was that taken out?"

Hannig: "Representative, that was not supposed to be in there when we presented the Bill in committee yesterday. So this just actually catches up to where we... where we actually thought we were when we presented the Bill."

Moffitt: "But if... if there's no fear of losing the funding, why would it matter? You're... you're telling us it would be paid regardless."

Hannig: "I'm sorry, I didn't... I didn't hear the question."

Moffitt: "You're telling us it would be paid. So, I mean, why would it be a problem if it was in there because you're assuring us the payments would be made?"

Hannig: "Well, Representative, we made a judgment just like we did last year on what we... what funds we thought would have some surpluses, that we thought that could operate the entire year without running out of money. So it... it's not every fund in the State of Illinois. Some funds if we took 35 percent they... they would run out of money and we'd be back from taking it... giving it back from GRF. So... so these are the funds that we felt were sufficient. Last year we

STATE OF ILLINOIS
94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

63rd Legislative Day

swept about 260 million and we ended up giving back about 1 million. So, less than one-half of 1 percent actually went back last year and we hope that we can do as well this year."

Moffitt: "Okay, another one that was on the first list was Police Memorial Fund and then the revised was taken out. Can you tell us why that changed?"

Hannig: "I'm sorry again, I couldn't hear the question, Representative."

Moffitt: "The original list included the Police Memorial Fund. The revised list, it's not included. Why that change if these are funds that are gonna be..."

Hannig: "Representative, that... that was never supposed to be on that list. Representative Holbrook asked me about that some time ago, I advised him it wasn't on the list. I don't know how it got on the list yesterday but we found our error and we corrected it. It was just... it was just an honest error, Representative."

Moffitt: "And how 'bout the State Police DUI Fund?"

Hannig: "It... again, I'm not... what's the nature of... you're asking that it was..."

Moffitt: "Yeah, why... it was on the first list, then it's been taken out. And again, I... we've been assured that these funds will... payments will be made so there's no fear, no problem in they're on there."

Hannig: "Well, Representative, the reason we... we didn't include all of the lists of all the what, thousands of funds around the State of Illinois, is because there is a recognition

STATE OF ILLINOIS
94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

63rd Legislative Day

5/31/2005

that some of the funds if we swept 35 percent, would run out of money and that they'd simply then come back to GRF. So, we tried to do a select group of funds that we felt had adequate money and... and that's what this list is. Now, when we drafted the list there was some mistakes. We didn't change our opinion of which... which funds we should... we could sweep or not, we just made some mistakes when we drafted the Bill."

Moffitt: "I assume it's the same on the Violence Prevention Fund. It was on the first list and not on the second."

Hannig: "That's correct, Representative."

Moffitt: "To the Bill. We... we've heard some excellent comments this afternoon during this discussion, far more eloquent than I can present. But I would just submit to all of you, my colleagues on the other side of the aisle, when I'm traveling around my district and different parts of the state I assure you that the people of the State of Illinois don't want a budget to just be a Democrat budget or just a Republican budget. They want it to be a bipartisan budget. That was my objective. The way this is presented and the way it's being... going about, I believe it's gonna be pretty much, if not all, one-sided. We should be working toward a bipartisan budget and sweeping funds, taking money that belongs to other people for other uses is no way to go about it. The only right vote on this in the best interest of the State of Illinois is a 'no' vote. Thank you."

Speaker Turner: "The Lady from Cook, Representative Eileen Lyons, for what reason do you rise?"

Lyons, E.: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Lyons, E.: "Representative, you have been asked over and over again about funds that are being swept and you keep reassuring, as you did in committee yesterday, that any fund that is swept that's going to have an impact that those... those people will be paid out of GRF."

Hannig: "That's correct, Rep..."

Lyons, E.: "Correct?"

Hannig: "That's... that's what I have been saying. You're correct."

Lyons, E.: "So, you're talking... you know, right now we don't pay our bills now out of GRF. We have so many unpaid bills now and you're contending that despite the fact that we have unpaid bills, we're gonna be able to pay off anybody who submits a voucher, it'll come out of GRF, everybody'll be happy."

Hannig: "Well, Representative, there is a provision that would apply to any bills presented to GRF that... that would get into the payment cycle that we would... that the Prompt Payment Act does apply to these. So I think that the Comptroller and the state has an incentive to pay these bills. We... we agree with you. We don't want 'em to linger out here, we want 'em to be paid."

Lyons, E.: "Well, again, in committee we talked about the Bank and Trust Company Fund and the Savings and Residential Finance Fund and the fact that there is an injunction preventing the raiding of that fund, but despite that

injunction you said you think you can... have you filed an appeal to that injunction?"

Hannig: "Representative, it's my understanding that there's some court proceedings that are... that are ongoing based on some language that we passed in the 2005 budget. So we're suggesting as we go forward in the 2006 budget, we believe that we'll prevail on that court case, we may not, but we believe that we'll do and we're including language that allows us to go forward so that we can capture money that would be available for us should we win the case."

Lyons, E.: "Again, my question is have you appealed that injunction? You can't just disagree with an injunction. You either have to appeal it..."

Hannig: "Representative..."

Lyons, E.: "And there are... there are lawyers on your side of the aisle who take an oath of office. They are officers of the court. They are going to be in contempt of court if they vote for this Bill because you're saying that you are going to go ahead despite that injunction, correct?"

Hannig: "Representative, I couldn't hear your question."

Lyons, E.: "You insist you will go ahead with this raid on these three funds despite the injunction because you think you will prevail. You can't..."

Hannig: "Represent..."

Lyons, E.: "...think you're going to prevail. You can't act until you do prevail."

Hannig: "Representative, we heard debate yesterday on medical malpractice where certain people stood up and said, 'You

can't vote for this malpractice Bill, it violates the Constitution.' Well, I don't... I'm not an attorney, I don't know if it violates the Constitution. The courts will litigate it, they'll make a decision. I think the same thing's true with this. The courts will litigate this language from '05 and they'll make a final decision. It could be appealed but we'll come to some conclusion some day and we'll abide by that."

Lyons, E.: "My point is you cannot act until you get that decision and anybody who does act before that decision is in contempt of court. And I don't know how any lawyer on your side of the aisle can vote for this and be in contempt of court. I wanna get back to... to the Child Support Administration Fund. So many of us in COWL and on both sides of the aisle worked to... Speaker Madigan even set up a Child Support Enforcement Committee so that we could get this state on the right path as far as child support is concerned. And yet, again, you're raiding that fund. I don't know how anybody in good conscience can vote for this Bill. You should be ashamed of yourself."

Speaker Turner: "The Gentleman from Cook, Representative Delgado."

Delgado: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Speaker Turner: "Mr. Hannig. Representative Hannig to close."

Hannig: "Thank you, Mr. Speaker and Mem..."

Speaker Turner: "We'll give you as much time as you need."

Hannig: "Thank you, Mr. Speaker and Members of the House. This is the budget implementation for the year 2006. It isn't very much different than the kind of budget implementations that we passed last year and the year before and the year before that. It has some language for sweeps that had been agreed to in the past by the other side of the aisle. It's not agreed to this year by the other side of the aisle but certainly we gave them the list and an opportunity to at least talk with us at some of the early meetings as to what items they thought were appropriate or not. But in any case, it's not very much different from what we've done year in and year out. So, we need to put together a budget this year. This is one part of this plan to adopt a budget. It's mostly technical in nature. Again, it's things that we do on a mostly recurring basis and I'd ask that we pass the Bill."

Speaker Turner: "This is final action, Ladies and Gentlemen. I wanna ask all of the Members to re... realize that a verification has been requested. So every Member should punch his own button, you should be in your seat prepared for the verification. We're trying to move this process

along. The question is, 'Shall the House... shall the House pass Senate Bill 661?' All those in favor should vote 'aye'; all those opposed vote 'no'. The voting is now open. Have all voted who wish? The Clerk shall take the record. On this question... Representative Hannig."

Hannig: "Mr. Speaker, I'd ask that this be put on Postponed Consideration."

Speaker Turner: "Postponed Consideration is granted. On the Order of Second Reading we have Senate Bill 1548. Read the Bill, Mr. Clerk."

Speaker Turner: "The Gentleman from Montgomery, Representative Hannig, on Amendment #2."

Hannig: "Yes, thank you, Mr. Speaker, Members of the House. This is the spending plan for the FY '06 budget year. I'd be happy to answer any questions and explain it more in detail on Third Reading. At this time I just ask to adopt the Amendment."

Clerk Bolin: "Floor Amendment #2 to Senate Bill 1548 was filed at 11:04 a.m. today."

Speaker Turner: "The Gentleman from Black, Representative Vermilion."

Black: "Mr. Speaker, I just hope that everybody in the House heard that revelation from the Clerk of the House. This budget Bill is approximately 1 thousand pages in length and it was filed at 11:04 a.m. and everybody here is expected to vote on a massive budget Bill that staff is working its way through as quickly as they can. And I daresay, most of us on the House chamber do not have a copy of this Bill. We're lucky if we have a very brief staff analysis. This is one heck of a way to run a \$53 billion business. You wouldn't give the board of directors of any business in this or any other state the budget for a fiscal year of that amount of money... you wouldn't give any board of directors a budget Bill at 11:00 in the morning and then call it for a vote at 2:30 in the afternoon. If we can't figure out a better system to do the work of the people and how we spend their money... this isn't state money. It isn't our money. It's taxpayers' money. And we're... we're being

asked to spend 50-plus billion dollars of their money in a Bill that none of us have seen for longer than 3 hours. In fact, most of us don't even have a copy."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Parke: "Representative, what is the total budget for the State of Illinois under this Bill? Mr. Speaker, I am sorry. I can't hear the Gentleman's answer."

Speaker Turner: "Neither can I."

Parke: "Well, can we get some order? You are the Chair, Sir."

Speaker Turner: "Ladies and Gentlemen, can we please have some order in the House? Can we have some order in the House? We could limit the debate if we listen to each other as we speak. I would ask that we bring order to the House."

Parke: "Is it..."

Speaker Turner: "Representative Hannig."

Parke: "Is it that, Representative Hannig, you're having trouble finding out how much money in there because you haven't had a chance to look this over either?"

Hannig: "Representative, we ha... we... we provided your side of the aisle with a draft of the budget last night and we had hearings in the Appropriation Committees this morning at 8:30 and I presented to the Higher Education Committee the budget from that... from that point of view. So no, that's not the problem. I can read you the numbers. Do you wish the numbers for all funds or GRF?"

Hannig: "The appropriation is \$24,378,371,332."

Parke: "Okay. Thank you. To the Amendment. Mr. Speaker, I am pointing out that the Gentleman has to read it off of a... off of the document there because he doesn't know. The reason he doesn't know is that even the Representative who is presenting this legislation today has just gotten it himself. Yet, here we are having to make a decision on Amendment #2 to the budget that we will be voting on shortly as soon as this Amendment is adopted. This is an outrageous way of doing business. This budget will ultimately be about 53, 54 billion dollars and we don't know what's in this document, our staff hasn't had time to look it over. Yet, here we are, the last day under the Democratic Leadership that now we're gonna spend the taxpayers' money. This is outrageous. I cannot believe the people of Illinois will allow you to continue to have control over this chamber. And I hope in the future that we are able to get control so that at least we can respect your side of the aisle and give you a lot more time to review these pieces of legislation to make sure that we're making good votes. Obviously, the last vote that was taken failed. The last Bill that was failed because Members of your side, to their credit, said there was not enough information, not enough time. Ladies and Gentlemen, this Amendment will go on but we will then take this Bill to task. This is a outrage of what we're doing in amount of time for us to look it over."

And I have to tell you, each and every year I read it off a sheet, Ladies and Gentlemen. I do not have this memorized. The GRF amount is \$24,378,371,332. additional \$314 million for K-12. This would increase general state aid by \$200 at the foundation level and hold harmless the poverty level spending at last year's amount. That amounts to \$215,108,400. We would increase the Average Daily Attendance Grant by 10 million. Mandated categoricals would be held at last year's level of 97.1 percent peroration. Early childhood would be increased by 30 million and some after school programs by 12 million. In addition, we would provide for an additional \$250 thousand to reduce home delivered meals waiting list, \$45.9 million for the Community Care Program to increase... to provide a living wage for homemakers. In Human Services we would provide for a 3 percent cost of doing business adjustment for our community mental health providers, our community developmental disability providers, and our community substance abuse providers. I wouldn't have time to read them all. feedback has been incorporated, along with that of the Senate Members, into this document so that I believe that we've improved what already was a good budget that Governor Blagojevich gave to us back in January. So, Ladies and Gentlemen of the House, this is an opportunity to move forward on education funding, to move forward on human services funding, to move forward on issues that are important to many of us, like myself, in downstate Illinois. Hannig: "It's \$5 million, Representative."

Watson: "And how much are we spending on Agri First (sic-AgFirst)?"

Hannig: "It's a total of 800 thousand, Representative."

Watson: "And so we're gonna put 5 million in Cook County Extension Office and we're only gonna spend 800 thousand on Agri First (sic-AgFirst) projects?"

Hannig: "Representa..."

Watson: "Does that... does that seem misplaced to you, Representative?"

Hannig: "Representative, there's also, for example, monies in the budget for things that you and I like over in Jacksonville. There's some people that we were trying to address and people from the Cook County area asked that we add this money in as well. So, I... ya know, I don't think that one part of the state has a monopoly on asking for things in the budget. We have the Sparta Shooting Center. Ya know, that's something that... that definitely is downstate. Most of the Natural Resource's money is all downstate. So, there's... there's, I think, things in this budget for all parts of the state. And I think that's good."

Watson: "I... I understand, Representative, and... and I agree to a point. But if we spend \$5 million for an extension program in Cook County when they have one farm in the entire county and we only spend \$5.5 million on soil and water

conservation district spending, I think there are some misplaced priorities here. I think if you ask Members of the Black Caucus how would they'd rather spend that \$5 million they would probably come up with a better way to do it than Cook County Extension."

Hannig: "Well... but Representative, this is for youth development. And I think it's important for us, particularly in downstate Illinois, to make people all around the State of Illinois understand the importance of agriculture. And... and clearly, most of us who grow up in the downstate area, we see it everyday. But I think it's important that the people in Cook County and the City of Chicago have an opportunity to learn about this as well."

Watson: "Thank you. Mr. Speaker, to the Bill."

Speaker Turner: "To the Bill."

Watson: "You know, I know that we have a new coalition now. Last year we had a coalition of the willing and this year I'm not sure what you would call this coalition. But things have changed. And when people say that this budget is similar to the budget we had last year, there is one big difference. There is one party driving this budget. And at the end of the day when the smoke clears there'll be one party that'll be responsible for it. Forty years from now my daughter... my 6-year-old will be 46 and she will be saddled with your pension debt that you passed yesterday. Now, I realize that this new coalition wants to move State Government to Chicago and I realize that this new coalition wants... believes that the flagship universities in Illinois

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Parke: "Representative, this is the budget Bill. Can you tell us, is this the Bill that is being funded by not paying into the pension system?"

Hannig: "Representative, this is a spending Bill that appropriates fund, General Revenue funds and other funds, to be spent."

Parke: "And this is the funds that come from that... and I... by the way, Mr. Speaker, before I go any further, I would like a verification of Roll Call."

Speaker Turner: "Your request will be honored."

Parke: "Thank you. Is the money to pay for this fund coming from the underfunding of our pension system? Is that the bulk of the money comes from to pay this budget?"

Hannig: "Representative, it's a 50-some billion dollar budget. So money comes from various sources that we collect."

Parke: "So part of it though is..."

tax, followed by the motor fuel tax. Those are your three big hitters."

Parke: "Yes. So the answer is 'yes'. Part of the funding for this budget comes from the underfunding of the state's five pension systems. Now, it is also our understanding, Representative, that the Governor's Office of Management and Budget has stated that memorandums of understandings have been signed stipulating some of the spending associated with the budget. Are these memorandums of understandings available for review?"

Hannig: "Representative, I have not signed any memorandum of understanding."

Parke: "I didn't ask if you did. I said that there are. Can we have access to those memorandums of understandings?"

Hannig: "I would suggest that if you're aware that people have signed those that you should ask for copies of them."

Parke: "Well, the Governor signed them and the staff, right?"

Hannig: "I don't..."

Parke: "I mean, that's who's supposed to be doing this."

Hannig: "I have not signed any and no one has signed any for me. So, all I would suggest if... if they are out, and they may very well be, Representative, you should ask the Governor's Office for a copy."

Parke: "Okay, I think we will. I think that's a good idea. I thought perhaps you might know that. Are these memorandums of understanding have... do they have legal standing if they haven't been made available to the public? Would you know that?"

Hannig: "Certainly, Representative. I understand."

Parke: "Okay. Since over \$2 billion has been raided from the pension funds and excess funds exist to provide Member projects, can you commit that there will be no need for a supplemental for fiscal year '06?"

There may have been one or two, but it's very difficult to get through an entire year without one. And so, it's hard to say. I would hope that we wouldn't do any."

Delgado: "Yeah."

Speaker Turner: "Representative Delgado on Amendment #1."

Delgado: "Yes, Mr. Speaker and Members of the House. Yes, Mr. Speaker and Members of the House. Amendment #1 limits the scope of the Act to agencies created under the Civil Administrative Code and ensures that the bilingual services needed only to be offered in counties where a particular language group constitutes more than 5 percent of the overall population. Such services need only to be offered to one agency office in the county determined by the agency to be in the... in the area of need. And I would ask for your approval."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Okay, thank you. I have a question. How much is this gonna cost to provide these interpreters?"

Parke: "Who's gonna pay for it, Sir?"

filing these Amendments, to streamline this Bill much like it needs to."

Delgado: "Thank you, Representative Parke."

Speaker Turner: "The Lady from Cook, Representative Mulligan, for what reason do you rise?"

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Mulligan: "Representative, do you know that hospitals do this by telephone with interpreters and it's much cheaper? It's a service that they get so some hospitals do that. That way you don't have to hire employees with their attendant cost of benefits and pensions and that you could probably do it in that way for much less expense rather than adding additional employees."

Delgado: "Representative, that... I appreciate your analogy. We do know that some agencies do it already now. And then, once again, since I picked this Bill up on Friday I'm fine tuning it. I'm working with the agencies and since we won't move this until Veto that's what we hope to get, is to be able to distinguish exactly... so if we need any other cleanup language behind it we'll be able to incorporate that because I'm very open to structuring this Bill."

I presume when you deal with this state that has this number of immigrants, large immigrants, that it would be practically impossible to hire one or two employees with all the different dialects and different languages that people speak, even in a court setting or whatever, where I think this other type of way of doing it would be a much more cost effective way."

Delgado: "Yes, Representative. To answer your que... to answer your... your inquiry, if you will. We have put a 5 percent roof, if you will, ceiling, as to that population would have to have 5 percent of their population in that county to be able to have that interpreter. So we see the Polish community, for example, the Latino community, and of course some Asian communities, but it would have to top 5 percent. If it doesn't, they wouldn't require one."

Mulligan: "So what's the dollar amount?"

Delgado: "At this point we do not have that number because, again, I'm fine tuning it. I am not moving this Bill, Representative. What we're doing is structuring it and Floor Amendment #1 would assist me to do that as we move into November."

Mulligan: "Well, I'm very sympathetic to the immigrant community in Illinois, as I've proven time and again."

groups, AARP, CUB. The Amendment is also supported by the CLECS, SBC. And I would ask for a... the Amendment to be adopted."

Speaker Turner: "The Gentleman from DuPage, Representative Meyer, for what reason do you rise?"

Meyer: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House, to the Bill."

Speaker Turner: "To the Bill."

Meyer: "As you'll note, I'm a hyphenated Sponsor on this... this Bill and I do intend to vote for it. But I wanna address some comments to this Body about the process that we went through in reaching an accord on telecommunications rewrite legislation for this year. I believe that we had an opportunity here that we missed. And the reason why I'm saying that is that in telecommunications the technol... as in many other fields, the technology is... is increasing at such a fast rate that 2 years from now we may be looking at systems that are competitive that aren't even thought of today, that are not part of the competitive process today, certainly will not be part of the regulated process that we have today. And for part of our telecommunications in this state to be regulated and part not to be, I put... I believe that puts us at a great disadvantage in terms of investment dollars coming into this state. And it's true that at some point during our life times we're going to see investment dollars start to... to flow into this state to upgrade telecommunications in every aspect. But the problem as I see it is that Wall Street is gonna dictate some of that.

STATE OF ILLINOIS
94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

63rd Legislative Day

5/31/2005

But we're at such an infant stage of upgrading our telecommunications network in this state and around the country that those dollars certainly don't necessarily have to be made in Illinois for Wall Street to be appeased and for Wall Street to say that companies have growth. And for every year that we delay making a determination as to where we're going to set public policy for this state in telecommunications, it's a year lost. We're losing 2 years to compe... to competitors and other states that will have good telecommunications platforms in place where business to compete on. Good... good telecommunications platforms in the state, which will... in place that will give the residents more opportunities to have those services in their homes. And all that will be lost in our state I believe. I believe what we should've done was to hold open hearings combining both the House and Senate together, as we've done in the past, as opposed to polarizing it with one... one Bill coming out of the Senate with a competing Bill coming out of the House and of course... and no concurrence on an accord. So, I... I do believe that we have lost that opportunity in this state. It's something we'll never be able to buy back. And I do stand in support of this because if we don't vote for this, I would caution the Members, then we have complete deregulation in all aspects and I'm not sure that's in the best public policy either at this point. But I... I do... I did wanna share with you my concerns. I hope, I hope that those that have the Leadership of making these decisions will see the light of

94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

day and... and possibly come in with an Amendment later on and maybe pull this back to the table and bargain on this. I certainly don't believe in that the 2-year increment that we have here that this should be left to lie. It should be put to sleep. And I think it's incumbent on all of us in this Body to ask our Leadership to come back and bring us all back to the table. It's extremely intricate or technical in nature. It takes that amount of time for us to fully understand the ramifications of what we're doing, to understand the technology involved, and I think it's... that this committee should continue to meet. And certainly, I would compliment Representative Brosnahan. He... from my standpoint, being the Republican Leadership, he has been very easy to work with on this and I would just ask him if he would join with me in asking the Speaker to keep our committee av... committee active and give us assignments so that we can continue to look at this issue over the next 2 years. Thank you."

Speaker Turner: "The Gentleman from Vermilion, Representative Black, what reason do you rise?"

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Black: "Representative, I just wanna make sure of one question. When this Bill started out it had a... it also had provision that would allow the City of Chicago to increase its 911 fee by legislative action and the public in Chicago wouldn't have anything to do with it. Now, I know it's

obvious. I can read. But I want to make sure for the record that is not in this Bill."

Meyer: "That's correct. That was Amendment #2..."

Black: "Right."

Meyer: "...which was never adopted. Amendment #3 simply has the extension of the sunset date..."

Black: "All right."

Meyer: "...for 2 years. That's it."

Black: "So all we're doing on this Bill is to extend the current telecommunications regulation Bill for 2 years?"

Meyer: "That's correct."

Black: "Okay. Thank you."

Speaker Turner: "The Lady from Cook, Representative Hamos, for what reason do you rise?"

Hamos: "Thank you, Speaker, to the Bill. I would also like to commend the Chairman of the committee and the Minority spokesman, as well as Speaker Madigan and Rob Uhe, for taking us through a fairly extensive set of hearings that taught us a lot about a very interesting and emerging field of telecommunications. I was the Chief Sponsor of the major rewrite in 2001, again, working with a broad coalition and a... and a real strong blue-ribbon committee... not blue ribbon but a committee... bipartisan committee. But what... what we learned this year, of course, is how fast the telecommunications world is changing. Yet, there are four kind of interconnected and sometimes competing interests: the interests, of course, of the big incumbent carriers; the interests of the competitive, sometimes smaller

companies; the interests of consumers who want to make sure that we maintain reasonable rates as well as service quality standards; and the interests of the workers represented by their unions. And I think that the 2-year sunset will allow us to... will allow us to flesh out really what the Federal Government is requiring or giving us latitude to do at the local level while maintaining in place a very strong Illinois law that has become a model for the nation and of... and one of which we can be proud. So, I think this is a very good and important step. I know that we will continue to have the hearings and learn even more about the innovations in the telecommunications industry. I urge an 'aye' vote."

which had an excess number of dollars in it. We thought a straight General Revenue Fund transfer made sense. At this eleventh hour, I think there is agreement that the only way it will work so that the payments may be made during the remainder of the fiscal year is to take the actual cash in the Public Aid Trust Fund so that money can go out to our community providers. I hope you will join me in receding from the House Amendments so our community mental health providers can get what they're owed."

Currie: "That's right. Well, the question was borrowing from the trust fund or borrowing from General Revenue's. And at this moment, the better course would seem to be to borrow from the... from the trust fund."

Mulligan: "All right. So, then would it have to go back to the Senate or would it be done by the time we're done?"

Currie: "That would... that... if we recede from this Amendment, the Bill will go directly to the Governor."

17 million. Yet, this will supposedly cover the shortfall and will go into effect immediately."

Currie: "That's our hope. That's what I'm told."

Mulligan: "And this is not obviously included in any of the other budget Bills."

Currie: "That's my understanding, Representative."

Mulligan: "I'm not particularly pleased with the way we're doing this. I personally... I personally don't care at this point. I would like them to be paid, but I think there are many Members on my side of the aisle that will object to the way we're taking the money. So, I wanna inform them so they know that they may vote however they like. If you're unhappy with the fact that we are not taking the money from the General Revenue Fund where we originally put it or maybe it shouldn't have been then you would vote 'no' on this because we're not doing that. If you don't care as long as the mental health providers get paid 'til the end of the year and we borrow the money, which I can't understand why we're borrowing it since the budget and all the money you're taking is so high and this is just one more way for the Governor to pad himself with lots money for the coming year and probably FY '07, then vote 'yes'. But if you object to that, probably vote 'no'."

And I really thought that that wasn't proper either and kind of wanted to point that out to the Assembly. I do support your legislation. It will take a building that isn't being used and make some very, very good uses for it for the citizens of Chicago. I don't have the date of the appraisals, I do have the money and, in fact, the appraisals that I have, have been dated 2004 with 6.2 million. There was another one in 2004 for 7.5, actually all three were 2004 appraisals. The 2001 appraisal was updated. So, it's three appraisals..."

Black: "All right."

Turner: "...they were all taken in 2004. One is 6.2, one is 7.5 and the other is 7.5."

Black: "It... it just seemed odd to me that the amount of money had not increased, knowing the pressures on land in Chicago. The other question I have, it appears to me that this is a three-way transaction. The University of Illinois sells the land and gets the money. Title of the land is transferred to the Chicago Park District who have indicated that they intend to sell the land to a private developer."

Turner: "No, that's not my understanding, Representative. This is going to be converted to a park that is owned by the park district. It is a park that's much needed in that area and the land... that land is located... and I've already seen drawings for the park. my understanding. And the 2004 appraisals are 7.4, 7.5 million dollars. So, there was a substantial increase between 2001 and 2004."

Turner: "It's my understanding it was going to the University of Illinois. They own the land, but I... one of the previous speakers said that they were informed that it's going to the General Revenue Fund. I almost look at it like taking money from Peter to pay Paul. I mean the General Revenue Fund does in fact fund the University of Illinois, so if it goes there, at some point, the University of Illinois will benefit by virtue of this sale. But it's my understanding that it goes to the University of Illinois."

Meyer: "Well, from what I can see in my analysis, the University of Illinois is willing to sell this land for use as a park and they wanna buy another warehouse that's closer to the campus. Do you know... how... is this just a trade-off of the 7 million going for the park and then another 7, the... the... the other warehouse costing the 7 million? Do you know..."

Turner: "Representative, I'm unaware of what warehouse they intend to buy or what the dollar amount is of that transaction. I'm only familiar with the need for the park which has been requested from... by the city and the residents in that area. But to... to say what the university intends to do, I'm unaware of their future plans."

Meyer: "In looking at the appraisals, maybe you've answered this and I apologize if I didn't catch your answer, but do... the House requires that three certified appraisals must be filed with the clerk before land conveyance may be voted upon. Is that correct?"

Turner: "That's correct, Representative. And those three appraisals have been filed with the clerk. As I mentioned earlier, they were all done in 2004. There was one that came back at 6.2 million. The other came back at 7.45 million and the last one came back 7.45 million, both of those. So, three... two of the three were 7.5 and one was 6.2."

Speaker Hannig: "Representative Molaro."

Molaro: "Well, first of all, there's two parts. One has completely passed the House and the other one passed committee. The first part is there were people who are both deaf and blind that worked for a vendor. CMS took them in and they became state employees about 3 years ago. What they're allowed to do that the year or two that they

worked for this vendor, they pay the employee-employer share plus interest, then they can buy the 2 years that they're exactly what they're doing now for the state they were doing for the vendor so they could buy their 2 years. It's cost neutral to the State of Illinois. The other... the other Amendment, which also passed committee, strictly has to do with the only... the only fund in the State of Illinois that doesn't allow you to remarry after retirement is the City of Chicago Municipal Fund. Like us, if we remarry after retirement, 1 year, our spouse gets the spousal. The City of Chicago Municipal Fund you can't, laborers, yes, police and fire, yes, but not... but not City of Chicago Municipal. All this does... we worked on it. All they'll allow us to do is 10 years. And while we were trying to put this together over the last 2 years, two of those Members who have 10 years after retirement got married, been married for 10 years, two of those fellows died and this allows their widow to pay the widow's spousal benefit, no cost to the city, and they would then get their spousal benefit. Tho... that's all these... this Amendment does."

McCarthy: "Is... is there a requirement as far as how long they have to work for the city?"

Molaro: "Yeah, no. They have to... whatever their retirement is, say they're 30-year employees, all this has to do is after they retire... if they retire and they're not married..."

McCarthy: "Are you're saying if they're 30-year employees?"

Molaro: "No. No. No. No. There's... whatever it takes, just like in every other fund, whatever it would be for your

STATE OF ILLINOIS

spouse to have a spousal benefit. It's just like every other fund. Only in the city fund, if you retire when you're not married and you get remarried, you can be married 50 years, your spouse doesn't get it. Every fund has a 1-year requirement, this is a 10-year requirement."

McCarthy: "And I would assume that if you have a spousal death benefit... the spouse dies, you get the benefit, 2 years later you get remarried."

Molaro: "No."

McCarthy: "Does that new spouse get any benefits?"

Molaro: "No. That has nothing to do with that provision."

McCarthy: "So it's a one-time thing."

Molaro: "It's one-time thing only. It's like every other fund."

McCarthy: "Does this affect all pensions throughout the state or just the city's?"

Molaro: "No, every other... every other pension has 1 year. This municipal fund is a 10-year deal. It's the only thing they would agree with. They should be 1 year, too, like everybody else but they don't wanna go there."

McCarthy: "One year. They have to be married for a year."

Molaro: "One year after. That's what every other one does. This is a 10 year. They have to be remarried 10 years. That's why it only affects two people, nobody usually stays married for 10 years after retirement. And these two women we're talking about are both in their early 80s."

Flider: "Yes."

Speaker Hannig: "The Gentleman moves for the adoption of Floor
Amendment #1. Would you like to explain the Amendment?"

Flider: "Yes. Thank you, Mr. Speaker, Ladies and Gentlemen of
the House. Floor Amendment #1 simply changes the word
'highway' to 'expressway'. And this would enable the road,
which would be named... as proposed under this Resolution, to
be named after the late Penny Severns who served Decatur
very well and is remembered very fondly by her citizens.
And with this Amendment we would allow the portion of the
highway between Decatur and Springfield, that would I-72,
to be named the Se... Senator Penny Severns Memorial

Vermilion County. And so, what I'm proposing is this section be named an expressway. I think it's common that we would name a road in honor of somebody. And I think the same was true of the Senator Demuzio Expressway, which also is on I-55 and I believe also has the name of a famous president."

Poe: "Who's the famous president?"

Flider: "I just can't recall right now."

Poe: "I gue... so... so now we have a highway, an expressway, and an interstate all in one route. Is that what you're telling me?"

information, especially in light of this issue. We know of no objections and I'd be happy to answer any questions on this matter."

Speaker Hannig: "Is there any discussion? Representative Bradley, John Bradley."

Bradley, J.: "Currently... thank you, Mr. Speaker. To the Bill."

Speaker Hannig: "To the Bill."

Bradley, J.: "Currently, in the State of Illinois, when you go in and you file a case you have to designate whether that law case reaches the threshold of above 50 thousand or below 50 thousand, and that would be designated either as an 'L' case or an 'LM' case, an 'L' being above 50 thousand or an 'LM' case being below 50 thousand. But there's no special designation for a medical malpractice case which means that in order to determine which cases were actually in fact medical malpractice cases you have to go to the court house and go through each and every 'L' and 'LM' case. What this would do is ask the Supreme Court to make a specific designation for medical malpractice cases. I believe refer to them as 'MM' cases, thereby making it easier to track these cases, keep an eye on these cases, and have a more accurate and a more easily obtainable record system with regards to those."

Speaker Hannig: "Representative Mulligan."

Mulligan: "I'm sorry... thank you, Mr. Speaker. Will the Sponsor yield?"

Mulligan: "All right, I'm not sure if I understood but in the Supreme Court, even though Supreme Court rules, would it be all courts then that would have to tell us what cases are filed?"

Fritchey: "Regardless of the circuit court, there would be a new designation, an 'MM' designation, for medical malpractice and it would simply offer us more... a more detailed ability to track medical malpractice cases around the state."

Mulligan: "Does a case have to be filed in order for it to be settled out of court?"

Fritchey: "A case does not have to be filed to be settled out of court. I suppose that an individual could notify an adverse party of an intent to file a claim and that could predicate a settlement. I think more often than not you will see at least a filing of a case as in means of initiating either settlement conversations or a case going to trial."

Mulligan: "Last week it was reported on WGN that there was a rash of cases being filed just prior to..."

Fritchey: "Correct."

Mulligan: "...the anticipation of the medical malpractice Bill being heard and passed, as it turned out. Do you have any idea what the number of cases were that were filed in excess of what normal would be around the state?"

Fritchey: "I believe... and I didn't see the television story, but I did read the newspaper article that accompanied it and I believe that they had indicated somewhere in the low

double digits. It had been in... in had been an increase over a comparable period, but we're not talking about hundreds of cases, we're talking about tens of cases."

Mulligan: "All right. So, a case doesn't have to be filed in order for there to be a settlement. Obviously, if you think it's going to be a valid claim or a case... and insurance company, the doctor, and whoever can file... or a lawyer, if you have a lawyer, doesn't have to file a case he can just start talking to them or to the insurance company. But this will keep statistics of the cases that are filed in a different way."

Fritchey: "Can I get... I'm sorry, go... I didn't hear the last part."

Mulligan: "So this will keep statistics in a different way. So the designation in front of the court number would be 'MM'?"

Fritchey: "There would be an 'MM' designation which would allow us to break out the number of medical malpractice cases by frequency, by location, and then by disposition ultimately."

Mulligan: "Sometimes isn't the number designated by the division also or is the division just at the top of the case and the 'MM' would be just for that... under that division?"

Fritchey: "Correct. This would not... this would not replace either a chancery designation or a law designation instead of... 'cause those are all gonna be filed in the same court

as they had been previously. It would simply be an additional designation that would allow this..."

Mulligan: "And... and who would have... how would those statistics be used?"

Fritchey: "Well, the statistics could be used by everybody from the Medical Society and ISMIE in order to allow themselves to have better breakdown on record keeping or by whoever wants to fi... whosever interested in actually knowing the true numbers of medical malpractice cases that may be out there."

Mulligan: "So would the Supreme Court be the repository of the all statistics from all the local courts around, all the municipal courts, everywhere a case is filed?"

Fritchey: "Right... right now, circuit courts maintain their own records. So whatever extent they would be required to compile their records and provide those to the Supreme Court, that... that would be unchanged by this Resolution."

Mulligan: "So that would be issued in a Supreme Court report that the General Assembly would get and other people could get."

Fritchey: "The Su... the Supreme Court would still have the flexibility to implement this as they see fit. The idea would be that at some point we would be able to have compiled data to give us this information."

Do you have funding source for this money?"

Flowers: "Well, you have to remember this, Representative, those are our children and that is their monies. And so, the fact of the matter is we are allowing them to... we can... we have to give it to 'em anyway and it's the mannerism in which we give it to them. For instance, it is our obligation to educate them until they're 21. But here at the age of 16, where they choose to be emancipated and not educated, we can then have them to go to some type of training where they can live independently and on their own. I don't know if you're familiar with the recent Chapin Hall report that talks about how our children are the worst in the nation in regards to how we take care of them once they leave our system. Flowers: "No. No."

Parke: "Well, then where's the money come from?"

Parke: "How do they get the 15? Is it a voucher or...?"

Flowers: "Well, some of them... by virtue of the fact that they... they are SSI eligible but the Federal Government do not allow us to keep more than \$2 thousand in their account, with this we can keep some of their monies, less than \$2 thousand, and give... give it to them when they leave. So really... technically, this is their dollars because of their disability they are eligible and able to receive this money."

Parke: "Well, that's... that's great."

Flowers: "Yes."

Parke: "Everybody keeps saying 'subject to appropriation'. And when we don't have enough money we take it out of the Pension Fund. So subject to appropriation is getting to be more costly for the people of the State of Illinois. Again, I want to go back to... what is the \$15 hundred gonna be used for? I mean, what's to stop one of these youths to simply give 'em the money at 16 and they go out and blow it?"

Flowers: "Well, you know what, Representative, they will... these children will go through a training program. But you must remember this, these are our children. We are..."

There will be some type of understanding, there will be some type of training. Because remember, these children are the abused and misused children of the state."

Flowers: "And so, therefore..."

Parke: "...how do they get the money? Do we put it in an account that vouchered to the school that's gonna give 'em the training?"

Flowers: "Yes."

Parke: "Or are we gonna write a check to 'em for \$15 hundred?"

Flowers: "No. No. No. No. We're... we're gonna..."

Parke: "And at that age, I'm afraid many of them will do that."

Speaker Hannig: "Representative Parke, your time has expired. Could you bring your remarks to a close?"

Parke: "Thank you. To the Bill. I think the Lady's idea has some merit but ya know, we don't have the money and on top of that it's... she's very unclear. She says that it's gonna be put in an account but ultimately the youth, 16 years old, 17 years old, can have direct control over that money. Simply giving it to 'em and they can spend it any way they want, I think that's irresponsible. And I for one will not be supporting the Lady's Bill."

Speaker Hannig: "Representative Flowers to close."

Flowers: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I just want to correct for the previous speaker that a thousand dollars will go into a housing voucher for the children. The rest of the monies will be given in the form of a check for any light or any type of gas or... you know, they... and they would have to provide a budget to the Department of Children and Family Services so we can see where the monies is going. And Mr. Speaker, let me use a portion of my two minutes to tell you why I'm taking the very valuable time of this Body to do this. This is a Bill that could create jobs in central Illinois. It passed the Senate unanimously. All it does is to allow the federal standards for performance of a small institutional steam generating unit for certain greenhouse boilers to be used, the federal standard. That's all it does. Nonhazardous air pollutants and by allowing the federal standards to be used, you could create a plant that is related to the agricultural industry of this state to go into operation and hire people to work in it that live in central Illinois. votes. And then for some reason the Democrat Majority in the House refuses to post the Bill for a hearing in the Executive Committee. You could've discharged this Bill. And this Bill, having received a Constitutional Majority, is hereby declared passed. I just would announce to the Members who have an intention of filing Agreed Resolutions, if you... if you'd like to get them to the well as soon as you can we will try to process them for you as quickly as we can. So, we can do another round of Agreed Resolutions if anyone has them out there. Mr. Clerk, read the Committee Reports."

Clerk Mahoney: "Representative Barbara Flynn Currie, Chairperson from the Committee on Rules, to which the following legislative measures and/or Joint Action Motions were referred, action taken on May 31, 2005, reported the same back with the following recommendation/s: 'approved for floor consideration' is Amendment #2 to Senate Bill 316, Amendment #4 to Senate Bill 1814, and Amendment #1 to Senate Bill 1964; on the Order of Concurrence, a Motion to Concur with Senate Amendment #1 to House Bill 2509."

Speaker Hannig: "On page 7 of the Calendar, under the Order of Senate Bills-Second Reading, is Senate Bill 316. Mr. Clerk, read the Bill. Okay, Mr. Clerk, let's take this out of the record for a moment. Okay, Mr. Clerk, read the Bill, please. Senate Bill 316."

Clerk Mahoney: "Senate Bill 316 has been read a second time, previously. Amendment #1 was approved in committee. Floor Amendment #2, offered by Representative Hoffman, has been approved for consideration."

Speaker Hannig: "Representative Currie."

Currie: "Speaker and Members of the House, as you know, the higher tax rates for the state's riverboats are scheduled to sunsi... sunset at the end, I believe, of next month and this measure would essentially hold the state harmless against those additional dollars without reimposing the higher tax rates against the riverboats. They believe that they will, in fact, do better at lower tax rates and they believe that they can essentially hold us harmless against the money we might otherwise lose. The legislation would provide for a decrease in the head tax for the smaller boats, the boats that don't bring in large numbers of people, but each of the boats would commit to making the state essentially whole, that means that in fiscal 2006 the state would take in approximately as much as we did in fiscal 2005. This is important for purposes of making sure that the state budget will be in balance. I'd be happy to answer your questions."

Speaker Hannig: "I would suggest we'll adopt the Amendment and then debate the Bill. Would that be... would that be okay with everyone? This is on Second Reading. So, the Chair would suggest we adopt the Amendment with a voice vote and then we'll debate the Bill on Third Reading. So all in favor of the Amendment say 'aye'; opposed 'nay'. The 'ayes' have it. And the Amendment is adopted. Any further Amendments?"

Clerk Mahoney: "No further Amendments. No Motions filed."

Clerk Mahoney: "Senate Bill 316, a Bill for an Act concerning revenue. Third Reading of this Senate Bill."

Speaker Hannig: "Representative Currie."

Currie: "Thank you, Speaker. The measure is precisely as I've already explained it. We wanna make sure that the state has enough dollars to meet our responsibilities through the fiscal 2006 budget. We are not reenacting the tax but the riverboats have promised to make us whole in the coming fiscal year and they believe that a lower tax rate will enable them, in fact, to generate not only more profits for them but more tax dollars for us. I'd be happy to answer your questions and I hope you'll vote 'yes' on Senate Bill 316."

Speaker Hannig: "And on that question, the Gentleman from Cook, Representative Parke."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Parke: "Representative, is this the only Bill that we're gonna hear between now and adjournment today on riverboats?"

Currie: "As far as I know, Representative."

Parke: "And this Bill simply... it will lower the tax rate to 50 percent for all the riverboats, is that correct?"

Currie: "That will... that will be the highest... the highest rate rather than 70 percent, which is the current rate. And it'll also..."

Parke: "It'll lower it from 70 to 50 for those that are paying that."

Currie: "That's right. We will return..."

Currie: "For the state. The riverboats have agreed to hold us harmless and we will not extend the higher tax. We will also reduce the head fee for the boats that do not bring in large numbers of patrons."

Parke: "Now, do you know of anybody who's in opposition to this? Is there any..."

Currie: "I... I do not know."

Parke: "Do you know if there's anybody in support of your Bill?"

Currie: "My understanding is that the proposal was acceptable to the riverboat gaming industry."

Parke: "So the gaming industry... as far as you know, the total industry is in support of this legislation?"

Currie: "That's my understanding."

Parke: "And so there's no opponents, no... no riverboats have indicated to you that they are in opposition."

Currie: "I can't speak with absolute certainty, but I am aware of no opposition."

Parke: "Thank you."

Speaker Hannig: "Representative Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. To the Bill."

Speaker Hannig: "To the Bill."

them, and sup... and allegedly they're going to write a check to the state to make up any of the difference if... if there is a difference. Now, I've been told that the boats don't like this particular provision so I don't know if they'll write a check or not. Ya know, it'll probably end up in court like everything else in the budget this year. But it just amazes me we can lower the effective tax rate... although, even... even though the Governor promised 2 years ago he would lower the tax rate. So we give... we give the gaming boats, the politically connected gaming boats, the casino, the riverboat industry in the State of Illinois, some would say a break, some would say it isn't a break. But we can still divert \$2 billion of the Pension Fund. What an amazing situation we find ourselves in. What a wonderful Bill this is."

Speaker Hannig: "Rep... Representative Lang."

Lang: "Thank you. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Currie: "Yes."

Lang: "Representative, this is for 1 year?"

Currie: "This is for 1 year."

Lang: "And then it goes back to the flat 50 percent maximum that it was prior?"

Currie: "Let me remind the Members of this chamber, there is a sunset on the 70 percent tax rate that goes away. This Bill does not lower any tax rate for the riverboats, what it does provide is a 1-year period during which the

riverboats will continue to pay what they would've paid had the tax been extended."

Lang: "And so..."

Currie: "I'm sorry. I'm sorry, it's 2 years. It's a 2-year period."

Lang: "Two years. But in fact, if we were not to enact this Bill we would have less money to spend in this year's budget."

Currie: "We would have somewhere between 90 and 150 million dollars less to spend. But this measure does not lower the tax rate..."

Lang: "Thank you."

Currie: "...because that's already lowered."

Lang: "One other question. This does not change the increments on the way up to 50 percent, does it?"

Currie: "No."

Lang: "All right, thank you. To the Bill, Mr. Speaker."

Speaker Hannig: "To the Bill."

Lang: "I know that to some of the uninitiated it may seem like (a) we're lowering somebody's taxes or (b) it's gonna cost us money in the long run. But those of us who have studied gaming in Illinois, and I think you know I have, would be proud to tell you that the 70 percent tax has cost the State of Illinois money. The 70 percent tax has changed a lot of items on the riverboats which have caused people from Illinois who were spending money on our riverboats and in restaurants and hotels and stores and shopping around the riverboats to go somewhere else. So we've exported 25

percent of our gamers, 25 percent of the purchasing power of those people to Indiana and Wisconsin and Iowa and Missouri who, strangely enough, all of them are up 25 percent during this period of time. And I would tell you that, as a person who has studied this issue and has talked to these folks, they have had huge amounts of construction and plans pending that has been on hold. They've wanted to build dockside facilities, they've wanted to build restaurants and hotels and shopping malls. But they've been unable to build because of the 70 percent tax. What this will do is, first, give the state a hold harmless as if we had a 70 percent tax for the next 2 years, but then it would increase economic development and job creation in the State of Illinois by convincing these riverboats to go ahead with those plans to build those shopping malls and those restaurants and those hotels. And when they do this with this lower head tax they will bring these people back from Indiana and Wisconsin and Iowa and Missouri to spend their hard earned Illinois money right here in the State of Illinois. And that's good for our economy, of course it's good for the riverboats. But if that's all you're concerned with then vote 'no'. This is good for the economy of the State of Illinois. It will improve our economic climate, improve economic growth, improve economic expansion, and create jobs. And if that's not what this General Assembly's about, I can't imagine why we're here. Vote 'yes'."

Currie: "Right."

Schmitz: "Also, in... in the analysis we're trying to figure out if... if a boat's employees went on strike would that be determined as something catastrophic under the formula?"

Currie: "In fact, there is a provision in the Bill that would enable the Gaming Board to make a difference in the hold harmless if there is some act of God, some occurrence that throws things into total turmoil, into a total tizzy."

Schmitz: "So would a strike be considered one of those total turmoils?"

Currie: "The board would have the discretion to determine what would count as a catastrophic action under this... under this language."

Schmitz: "Okay. So..."

Currie: "But my own guess is that they would say, yeah, that makes a difference, a material difference."

Hoffman: "Thank you, Mr. Speaker. I rise in support of Senate Bill 316. What this will do is this will provide 80 to 85 million dollars of money to the State of Illinois that we would've lost if we didn't do this Bill. Are all the gaming interests excited about this? No, they don't wanna pay some of these taxes. But they're okay with it 'cause they understand we have a budget deficit. They're willing to go along with this in exchange for some of the provisions that Representative Lang talked about, which will allow them to be more competitive with other boats in other states. This is a Bill that I believe we need to pass and move forward so that we can provide additional revenue to balance our budget. I ask for an 'aye' vote."

Speaker Hannig: "Representative Sullivan."

Sullivan: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, to the Bill."

Speaker Hannig: "To the Bill."

Sullivan: "The previous speaker that is head of the Gaming Commission... Gaming Board spoke very eloquently about what this Bill does. As written... or as amended, this is a pro-jobs Bill. The industry itself has asked for this language to try and create jobs. So I tell people on my side of the aisle that... that what has been said is correct and I recommend that we do pass this. Thank you very much."

Speaker Hannig: "Representative Verschoore."

Verschoore: "Thank you, Mr. Speaker. I, too, rise in support of this. What Representative Hoffman said earlier about

Speaker Hannig: "Representative McCarthy."

McCarthy: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Hoffman: "Yes, Rock Island is facing stiff competition with Iowa. They pay us \$6 million a year in tax and this would go to the Ryan rates, before we changed the rates. And they would pay 5 million under this so they could be competitive with Iowa."

McCarthy: "So their guarantee would be 5 million, then?"

Hoffman: "Well, their..."

McCarthy: "Like, if we added up all of these guarantees. Do we add something in there for Rock Island?"

Hoffman: "They are not... they are not guaranteed. But I can assure you that the revenue projections are that they will be there at 5 million."

McCarthy: "Well, I think if we took that Rock Island boat and put it in the south suburbs we could probably guarantee at least 50 million right off the bat. But... but for now, I think I'll leave Representative Verschoore's boat alone."

Speaker Hannig: "Representative Molaro."

Molaro: "I'll be real quick here. Representative Black and I have served long enough to remember when someone gave their word, they'd try to keep it. This is a double... double whammy for the state and to tell ya how good of a deal this is for the state. Wall Street likes to look around and see if states keep their word. They like to see if they can count on it. They wanna put in money but they wanna make sure that when they put in money they keep their word. We did it 2 years ago. 50 percent and this Bill does it. But I gotta give the Governor and the four Legislative Leaders credit and the budget director, because they came up with an ingenious way where we can tell Wall Street we're keeping our word, going back to 50 percent so we can do things... remember... remember the Bill, economic development, jobs, all that stuff about gaming. Now, we can do that, keep our word, and yet, also get the money that 70 percent would've improved. So this is a win-win Bill. It's an genius way. We keep our word, go back to 50 percent, get jobs and economic development and also, for the next 2 years, get the money that would fill the budget hole. This is a very big 'yes'. Thank you."

Speaker Hannig: "Representative McGuire."

McGuire: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I speak from experience from Joliet. We have two riverboats in Joliet and have had since day one. This Bill is an economic development Bill. We're not hurting... we're not hurting the boats, we're not hurting anyone. We're trying to help the people who have jobs on the boats. I have 3 of the 4 thousand people in my district that work on the boats. I wanna keep those jobs. Vote 'yes'."

Speaker Hannig: "Representative Black, I... I believe you spoke in debate. Am I incorrect?"

Black: "Well, he... he did. But Mr. Speaker, I'd like to respond because I think he was... he had a fundamental flaw in his premise. Let me just say very quickly, Mr. Speaker..."

Speaker Hannig: "Okay."

Black: "We have a lot of things to do. The state didn't make any promise to the boat owners. The State of Illinois made no promise. The Governor of the state made a promise and it's my understanding that the Governor wanted to keep... not keep his word. He wanted the higher tax rate. So what you're about to do, the Governor gets to cross his fingers and keep his word. The tax rate gets lowered but supposedly we're held harmless. This is a pretty good trick. I... I mean, I have to hand it to whoever came up with this. In other words, the Governor gets the higher tax rate, but on the surface it looks like he's keeping his word. And we all know he didn't wanna lower this. But when we use things like keeping our word, you might want to remember that we gave our word... this General Assembly gave their word in 1995 to fully fund the pension system by 2045, and 10 years into that promise you have decided not to keep it."

Speaker Hannig: "Representative Currie to close."

Clerk Mahoney: "Senate Bill 1964 has been read a second time, previously. No Committee Amendments. Floor Amendment #1, offered by Representative Nekritz, has been approved for consideration."

Speaker Hannig: "Representative Nekritz."

Nekritz: "Thank you, Mr. Speaker, Ladies and Gentlemen. Senate... Floor Amendment 1 removes from this comprehensive tollway reform Bill all the provisions dealing with the Inspector General. And we hope to revisit this issue but there seem to be some issues about how this Inspector General provision that was in our existing Bill relates to the existing ethics laws and the existing Inspector General laws. And so we're removing that from this Bill in order to have an opportunity to review that and bring that back in the future."

Speaker Hannig: "The Lady moves for the adoption of Floor Amendment #1. And on that question, Representative Parke."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

that are in this legislation relate to the existing ethics laws and the existing Inspector General positions. And since we are in the 11th hour we were hoping to have some time to review that and bring that back in the future."

Parke: "That doesn't make sense. I mean, if it's... if it's a good idea to have the Inspector General, why do you wanna take it out? That's... maybe because the Inspector General might find some things that the toll way doesn't want us to find out. So, I... I'm gonna oppose the Lady's Amendment. I think that's a good idea. I think the Inspector General for the toll way is a good idea. And to simply say because it's late in the day begs the issue. I wish she had a better answer to that question."

Speaker Hannig: "Is there any further discussion? Then all in favor say 'aye'; opposed 'nay'. The 'ayes' have it. And the Amendment is adopted. Any further Amendments?"

Clerk Mahoney: "No further Amendments. No Motions filed."

Speaker Hannig: "Third Reading. Mr. Clerk, read the Bill."

Clerk Mahoney: "Senate Bill 1964, a Bill for an Act in relation to transportation. Third Reading of this Senate Bill."

Speaker Hannig: "Representative Nekritz. Representative Nekritz on the Bill. Representative Nekritz, did you wish to call the Bill on Third?"

Nekritz: "Thank you, Mr. Chairman. Thank you, Mr. Speaker. Yes, this is a comprehensive toll way reform legislation, as indicated, that we are taking the Inspector General provisions out. It does not mean that there will not be an Inspector General for the Tollway Authority. They have on

their own appointed one and there is one currently serving in that position right now. This will just make it... remove the mandatory portions of it. And again, we're are hoping to revisit that when we can see how all that relates to the existing Inspector General and ethics provisions. There are a number of other good provisions in this legislation. There are provisions in this legislation about how the toll way can spend its money. It does... it lays out a program and a hierarchy for how the toll way can spend its money, which is a provision... gives oversight that this General Assembly has never had before. It also creates a toll way amnesty program that will bring seven... several mil... several million dollars over the course of the next few months. It expands the ethics guidelines for toll way employees, places restriction on directors of the Toll Highway Authority and their employ... employees and agents regarding receiving financial benefit from their positions or employment with the Tollway Authority. It includes some minority and women-owned business provisions that will guide the Tollway Authority in contracting with minority and women-owned businesses. And it also has a couple of other provisions with regard to the use of photo blocker spray on the license plates of automobiles. The... as many of you are aware, the Tollway Authority keeps track of toll violators by taking a picture of a license plate and this will allow them to have greater enforcement capability. And it also importantly expands their ability to work with other local governments. There was a recent story about

the toll way's proposal to work with the Chicago Skyway to allow the use of I-PASS on the Skyway and also to work with the City of Chicago to allow the use of I-PASS at O'Hare Airport in the parking garage. These are the first steps to put... to allowing Illinois to participate in the nationwide Easy Pass Program and these are very important items that will bring much needed revenue to the Tollway Authority."

Speaker Hannig: "The Gentleman from Cook, Representative Parke."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Parke: "Yes, can you explain on #6, allows the toll way to contract with public and private entities on the collection of tolls?"

Parke: "Number 6 says... oh, you don't have a #6. Okay. It says, 'Allows the toll way to contract with public and private entities on the collection of tolls.' Why is that necessary?"

Nekritz: "Yes, Rep... yes, Representative. Right now the Tollway Authority does not have that authority. This will allow them, as I indicated, to enter into contracts to become part of the nationwide EZ Pass Program. It will allow them to enter into contracts with the Chicago Skyway in order to be able to use the I-PASS on the Skyway and also possibly with other agencies like that. For example, if they... if you wanted to use your I-PASS at the O'Hare Airport parking

garage, right now we can't do that without this authority being gi... being given to the Tollway Authority."

Parke: "Well, do they put these out for bid?"

Nekritz: "Well, Representative, I'm not sure how you would put it out to bid with the Skyway. There's only one Skyway authority."

Parke: "Well, it says here that you're gonna hire a private entity. Is that on a competitive bid basis? Do they put it out and say anybody who wants to put a bid in to be the private entity that collect tolls for the Chicago Skyway can do that? Do they competitively bid that?"

Nekritz: "Does the Sky... does the Skyway do that?"

Parke: "Does it? You say you wanna allow them to hire private entities to do that. I happen think that's probably a good idea, but I wanna make sure that it's not fraught with patronage, that all of a sudden you have a... a friend of somebody that's involved in government that hires their firm. And... and do you have minority set aside in this? Does it have to be competitively bid? I mean, why should we allow the toll way to just hire whoever they want? Since the City of Chicago owns the toll way now, I wanted to know if it's bid."

Nekritz: "Well, Representative, we did bad... bid on the I-PASS Program and we are simp... we are just allowing the expansion of that with another governmental agency. I'm not sure how that would be bid."

with a unit of local government or... or other public or private entity for the collection, enforcement, and administration of tolls, fees, revenues.' Now, the 'or' is if you're gonna privatize it, allow an outside firm to come in, is it competitively bid for that or are we just gonna give it to friends that are involved in the... in the mayor's office?"

Nekritz: "Tha... thank you, Representative. I do understand your question now. The Tollway Authority, ya know, it did competitively bid the... the existing I-PASS program and I'm sure it would... would comply with the procurement... procurement laws that it's subject to and competitively bid those things. I... I was misunderstanding your question in that it was relating to governmental entities. But sure, it would do that."

Nekritz: "In... in that particular provision?"

Parke: "Yeah."

Nekritz: "Well, there are other minority set asides... provisions for minority set asides in this legislation that don't already... that... and this is something new for the Tollway Authority. So, I think that would be a good thing."

Parke: "Well, if you do it I think it's... it's only fair that you have a minority set aside for that. And if you wish to... to do that I think that's something you should do. I still..."

I'm particularly fascinated by two things that this Bill will allow. It... it allows the owner of a vehicle whose motor vehicle was caught on a surveillance camera going through an I-PASS lane or violating the toll to... he's liable for the fine. The owner of the car is liable for the fine, but he will be allowed to petition the court for indemnification. Well, it's time to go to court. I probably am on the toll way three times a year. I'm not gonna have time to go to court and ask for indemnification. What if my son-in-law was driving my car? This isn't due process. If this is reform, God, helps us. And the other one that I like, this will allow the toll way to take your vehicle, hold your vehicle if you owe the toll way any money. You're gonna deprive me of my property... where's my due process? What do I have to do, go to court? I can tell ya right now... and some of you will have these constituent cases as I do. I have a constituent who got notice in the mail that he went through an I-PASS lane and he didn't have the transponder and therefore he owes 'x' amount of dollars, and the picture was included. This person lives in my district.

His VIN number, his restriction certificate, and the car he drove in to my office in that day is a Lincoln town car, brand new. The picture of the vehicle is a Chevrolet Cavalier whose license number is not remotely related to my constituent's. Now, he... we've sent in all the... all the paperwork but we haven't heard one word from the toll way. So what's my constituent gonna do? He isn't gonna pay it. It's not his car, he can prove that. But according to this, they can come down and hold his car because he owes them money. If this is reform... all I can think of is a prominent Chicagoan who years ago said, 'Chicago ain't ready for reform.' Well, I can tell ya, if this Bill passes I can say the toll way ain't ready for reform. If you like due process, if you think you have some basic rights... this is a bad Bill, vote 'no'."

Speaker Hannig: "Representative Lang."

Lang: "Thank you. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Lang: "Representative, I just... I just have one question. I'm not sure whether I'm for or against your Bill but sometimes when I drive through the I-PASS lanes my transponder doesn't beep. I don't think it reads it properly. Is there some risk that if that happens several times someone's gonna get their car confiscated?"

Nekritz: "Representative, it's my understanding that with the I-PASS that if for some reason... this happens sometimes if your credit card runs out, the date... the expiration date passes and it doesn't automatically renew and you don't

know... you don't quite put all that together that that... that that's happened. Sometimes your transponder will not refill and then you have that happen. The Tollway Authority recognizes that those things happen and they are very willing to work with you to make sure that that... that situation gets corrected."

Lang: "Well, I'm not actually talking about a situation where my credit card isn't working or my I-PASS is out of money. There have been times I've driven through the I-PASS lane and it has not connected somehow. What happens in those circumstances or do you at least provide that the department will create some rules to deal with this situation? If it happens to me, it must be happening to other people."

Nekritz: "Representative, I believe there is a process by which that can be taken care of. The Bill creates a rebuttable presumption that the person driving the vi... the vehicle that failed to pay the toll is, in fact, the owner of the vehicle. There are ways to... to seek reimbursement from the person who actually was driving the vehicle. And... and the Bill does provide that the Toll Highway Authority must establish a process by which you could contest the fine, if you were in... if one was so imposed."

Lang: "Well, if you assure me that on my way home tomorrow as I go through the I-PASS lane and it doesn't click in on my I-PASS, I'm not gonna get arrested in the next couple days, I may vote for your Bill."

Nekritz: "On the Internet? I don't believe that to be the case."

Rose: "I was told... and I don't have an I-PASS so I don't know. I was told I could log into my account and find out exactly when I went through each I-PASS and when each deduction was made from my account."

Nekritz: "Representative, I couldn't hear you."

Nekritz: "I think about 10 minutes ago."

Meyer: "Why did we wait until now to take the Inspector General out and then run the Bill right away?"

Nekritz: "Well, Representative, there are some important pieces of this legislation that are critical for the Tollway Authority's budgeting over the summer. They would like to run... they would like to be able to implement the amnesty

program that's contained in this legislation. excuse me, Representative Hannig any questions. Let me just run down a few items that in... in case you haven't had a chance to look at some of the more interesting items in the budget: a million dollar GRF for a grant to the Beverly Arts Center, 450 thousand GRF for the Village of Bellwood for alley improvements, three and a half million dollars for Chicago State University for its Chicagoland Regional College Program, \$1 million for the Chicago Manufacturing Center. The Bill goes on and on and on and on. And when all is said and done, what I fail to understand... there was... there's been a lawsuit filed yesterday on a fund sweep. And we stand here and just simply tell a judge who issued an injunction that we are above the law. We're not going to pay any attention to your injunction. We aren't gonna follow the law. We don't have to do what a court of law tells us. I don't ever remember reading that in the Illinois Constitution. I don't ever remember teaching that to students when I taught American History and Government many, many years ago. You could have fixed it very easily, Representative. One of the Representatives on your side of the aisle had an Amendment that would have taken all of the fund transfers from the financial industry out of the Bill, wouldn't have made any great impact on this, would've been about a \$5 million situation. But at least it would have put us in what most people who consider to be attempting to follow the dictates of a court injunction issued by a judge in March. I won't repeat it, I'll just see if I can paraphrase it, these and other funds covered under this

injunction shall not be transferable until I rule further on the case. So, we... we send a very, very strange message to the people of Illinois. I won't even get into the other details of the... of the... of this issue, about how your financing this. Go through this thing, line after line after line reducing 50 percent of the pension costs, 50 percent of the pension costs, which by the '95 law we were supposed to make. All of those things you know, all of those things aren't gonna make any difference to probably at least 61 of you on that side of the aisle. But a thing I don't understand, the thing I'm gonna have the most difficulty telling my grandchildren and looking people in the eye in the coffee shops in my district in the next week. Who said, by what authority, by what legislative or governmental fiat or constitutional edict that we don't have to follow the law? That a judge's injunction means nothing to the Illinois General Assembly. Is that the way you would treat an injunction in your personal life? Is that you would treat a court order of protection? If you do, I think you're going to find out rather quickly that the courts not only can issue paper documents, but they have the teeth and the means and the wherewithal to back it up. I don't know what the judge will do. I don't know how many lawsuits will be filed. I don't know what the end results of those lawsuits will be. But you really ought to stop and think. What if we lose this first with the judge who issued the injunction? What if the lawsuit filed yesterday when you sweep motorcycle safety funds that are

set aside and paid for by motorcycle riders in order to finance their safety training classes, what if a judge rules that's illegal? What if a judge would happen to rule, because of our action tonight where we are in effect thumbing our nose at the judiciary, that the judge rules all of these funds transfers illegal? You thought last summer and last year's Special Session was 'special'. Wait until we have to come back and deal with that and I hope we don't, but we might. We just might have to do that. I, just for the life of me, don't understand why we wanna take this risk and why we want to avail ourselves of the power of the judiciary. Have you forgotten when we said nobody would get a raise in the State of Illinois including us and nobody would get a cost of living salary increment? And that's... I think we did because we felt we had to in a bad economic year, 2 years ago. What did the judges do? The judges sued us. Took us to court and won the case, saying that we had no right to deny their cost of living raise. It cost us \$14 million. And then we got stuck with most of the legal costs of the lawsuit. Now, if that wasn't a warning shot across your bow, that you don't tweak your nose at the judiciary, then I don't know what is. And yet, you're willing to go down that path again. You're gonna have to answer the question, not me. I am not going to ignore a court injunction. I am not going to take irresponsible action so that for whatever the reason... and the only thing driving this entire process, strip away your spin, strip away all of the beautiful paint, paper and bric

a brac. The only reason you've embarked upon this course... well, there's two or three reasons. But I can't prove two or three of those reasons. But the primary reason... what's driving this and driving us down this road to potentially economic disaster foisted upon us by the courts of the State of Illinois is that your Leadership has decided we are leaving here tonight by 12 midnight. You've sacrificed your principles, you've sacrificed the fiscal future of the State of Illinois for the expediency of leaving here tonight. And what's really funny is that most of you won't go home when we adjourn. You'll go to the end of Session party, dance, drink and make merry till 4:00 in the morning. And then collapse at wherever you live. And if you're lucky, you'll recover enough to go home 24 hours from now. What a bunch of bull."

Speaker Madigan: "Sponsor yields."

Sacia: "Ladies and Gentlemen of this chamber, one of the men... no, the man that I respect more than anyone in this chamber is standing in the Speaker gallery, the Speaker of this House of Representatives, Michael Madigan. I have profound respect for you, Mr. Speaker. And not for one minute do I presume to question you. The concern I have is this Governor has put forth a way of raising the money necessary to pass a budget. I can honestly say... honestly say, I absolutely knew in my heart Speaker Madigan would never buy into this. And again, I... I... I commend you, Sir. You are a

politician par excellence. I know you are more knowledgeable about political issues than I can ever hope to be. All I can say, Ladies and Gentlemen, and I can't even begin to reiterate my comments of earlier today. But what we are doing to our future by passing this budget on the backs of our grandchildren and in February, Steve Brown stated, 'We cannot damn our future generations.' The Governor of this state stated, we cannot rape, that's not his word, that's mine. We cannot take money from our pension fund. It was not proper to do it in February, but it's okay to do it in May. I'm not going to question the legality as Mr. Black said, I'm sure he's far more knowledgeable than I'll ever hope to be. All I can do, Ladies and Gentlemen, is talk to you, the other side of the aisle. Representative Ryg, I'm told that you're a target. Representative Naomi Jakobsson, you're in a very tough district. How do you go home and tell your constituents that you literally raped the pension system? You spin it any way you want to. We have to answer to somebody, Ladies and Gentlemen. This is flat wrong. And we have to vote against this budget. Thank you."

Speaker Madigan: "The question is, 'Shall this Bill pass?' Those in favor signify by voting 'yes'; those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question, there are 63 people voting 'aye'; 52 people voting 'no'. This Bill, having received a Constitutional Majority, is

hereby declared passed. Senate Bill 1548. Mr. Clerk, what is the status of the Bill?"

Clerk Mahoney: "Senate Bill 1548, a Bill for an Act concerning appropriations. Third Reading of this Senate Bill."

Speaker Madigan: "Mr. Hannig."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. I explained this Bill earlier in a previous debate as well. I think some of the important highlights have to do with an increase of \$300 million for education, a 3 percent COLA for the providers in the State of Illinois, the social service providers. I... I mentioned a number of other things and I... I won't repeat them unless you ask questions about them. But this is the '06 budget. I'd ask for its adoption."

Speaker Madigan: "Representative Mulligan for 5 minutes. Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Mulligan: "Representative, there are... few issues in the budget that I'm interested in. In the DHS budget there is a line item... two line items, in fact, both with the same description. It says, 'for grants to units of local government, non-for-profit organizations, community organizations and educational facilities for all costs associated with operational expenses and infrastructure improvements, including but not limited to planning, construction, reconstruction, renovation, equipment, vehicles, and other capital and related expenses. And for

all costs associated with economic development programs, education and training programs, social service programs, and public health and safety programs.' Very broad terms. Twice that's put in there with \$2 million each, no particular description. Is that the pork items in the budget for some of the human service projects? Or is there specific things you're planning on doing with that that you have left to enlighten us with no line items with them?"

Hannig: "Representative, these are lump sums that are... that are put in the budget... that we put in the budget."

Mulligan: "I'm sorry, Sir?"

Hannig: "These are lump sums that are inserted into the budget."

Mulligan: "I can read. I like the definition. I think it ought to be read into the record. So, if somebody wants to give a local organization in their district a grant that may be their nephew or the uncle runs... that person could also purchase a BMW under that... with state funds that would go to the organization or whatever? I mean, I would hope that they would advance and reconcile. But that's a pretty broad statement when human service providers are knocking each other over for dollars. We have been discussing the fact that there are COLAs for three areas of human services: DD, Mental Health, and DASA. And your appearing to make it be that the largess of what's going on with the pension system or whatever are what brought forth the COLAs. Actually, those COLAs come from those providers figuring out a new system of how to do Medicaid funding so

that perhaps they can fund their own COLAS. Wouldn't you agree with that? Certainly, Representative Currie did during the hearing this morning."

Hannig: "Repre... Representative, was... I... I... would you repeat the question?"

Mulligan: "I'm sorry, you need it repeated?"

Hannig: "Yeah, I didn't know if you were making a speech or asking a question?"

Mulligan: "No, I'm asking you. Is... aren't those COLAs put exactly in there because those providers came up with a way to pay for them?"

Hannig: "I don't know that they did come up with a way to pay for them, Representative."

Mulligan: "I think that's so. I think we sent a letter. I think they agreed to do Medicaid funding and now you're trying to propose that that's not where they came from."

Hannig: "I think that this just comes from GRF, Representative. So, I... I think that's the different issue."

Mulligan: "Would you please explain why the DPA budget includes \$2.5 million added onto fund administration for I-SaveRx, which is the federal program that is sponsored by CanaRx, which is the Governor's program. That is not a legal program and yet we're funding that program."

Hannig: "I'm... I'm advised that's for administrative costs."

Mulligan: "But it's not a state program. CanaRx benefits from it. It's the Governor's program. And it is not legal under the Federal Government. Are you not worried that perhaps it will cause a problem with Medicaid funding if we

fund an illegal program to a Department of Public Aid budget line?"

Hannig: "Representative, I'm... I'm advised that the Governor created the program, it makes it a state program. And this is the administrative costs of that program."

Speaker Madigan: "Representative Mulligan, you have 1 minute left."

Mulligan: "Thank you, Mr. Speaker. I think someone will probably cede their time to me. There is many questions on this budget that are very interesting. I'd like to know Representative if most of the cuts were restored that we had discussed with Representative Feigenholtz?"

Hannig: "I think the answer is, yes. But when you say, 'broadly'..."

Mulligan: "All right. I'll find specifically. New Americans initiative, a hundred and fifty thousand..."

Speaker Madigan: "Turn on Representative Mulligan."

Mulligan: "...Thank you. Representative Munson is allowing me to use her time. New Americans initiative, a hundred and fifty thousand dollars?"

Hannig: "Yes, Representative. That's been restored."

Mulligan: "The grants that were given out late this year, will they be continued into the coming year?"

Hannig: "Yes, Representative, that's the plan."

Mulligan: "Nutritional Services to noncitizens, \$257 thousand?"

Hannig: "That's been restored, yes."

Mulligan: "The refugees line item was cut?"

Hannig: "It's been reduced, but they lapsed funding this year, Representative... or will lapse funding."

Mulligan: "The line item was restored for crisis nurseries? And the money was funded?"

Hannig: "Yes. Yes."

Mulligan: "The line item for Great Start was restored?"

Hannig: "Yes. I'm advised that it was."

Mulligan: "Representative, before my time is all gone I wanna ask you, when I had questioned DPA they told me that the payment time for bills... the payment bill cycle for Medicaid bills was 71 days and they expect them to be 76 days by the end of June?"

Hannig: "We... we believe that it... it's 75 days now and it'll be 76 at the end of next year."

Mulligan: "All right. And they would not give me a projected time or a... what the Medicaid... what they projected as the Medicaid payment time after the first of the new fiscal year?"

Hannig: "I... we're advised that the average payment cycle... we believe... in... in..."

Mulligan: "Right."

Hannig: "...FY '06 will be..."

Mulligan: "They would not give me an answer to the payment cycle."

Hannig: "...Seventy-six days is... is..."

\$23 million a day. We do not know what that cycle is gonna be afterwards and yet, you have taken huge, huge sums of money. And we have no reassurance that any problem that was here before in Human Services has been rectified, except where providers figured out how to spend the money themselves. As far as the payment cycle for bills or any assurance that our providers will be paid on time, there is none. You restored line items that were very brief. But yet, you've taken sums... vast sums of money. You have not solved one problem that the state had in human service providers as far as them being paid or what's happening. Yet, you have all sold your souls for this and we have not solved one problem. And into the future the economics of this state will be so poor there will be no way to solve them as we go forward. I think it's very poor that we have not solved any major problems that providers haven't done for themselves with the total amount of money that you're taking out of the pension fund and what you're doing."

Speaker Madigan: "Mr. Winters."

Winters: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Winters: "...Yeah, that's exactly right. Well actually, shortly after we got it we started crunching the numbers. But we came up with a FY '05 total..."

Hannig: "So... so, you did get the budget last night? I just wanna clarify the point that was made earlier in the day."

Winters: "...I believe... well, I... last night or early this morning, one or the other."

Hannig: "Okay. Your turn."

Winters: "The numbers we have is about twenty-four and a half billion in GRF appropriations last year. Those ought to be fairly good numbers and a total FY '05 appropriations, 49 million. If you have anything that are substantially different, let me know. But what I wanna emphasize to the Body is that, again, our best numbers are that under this Bill, 1548, that we are increasing from twenty-four and a half to about... over 27 billion in GRF. If you have different numbers, please inform us. And the total spending of all funds goes from 49 billion to approximately 57. If you have different numbers, I would appreciate because those are bad numbers."

Hannig: "Yeah. Representative, I... I'm advised that the numbers that we have for General Revenue is \$24,378,371,332, total spending GRF."

Winters: "The total for the... under this Bill for GRF is... could you repeat it again?"

Winters: "And that... that is the same accounting... the same funds that were used for last year's 24 billion? As close as you can? Okay. Do you have total funds budget?"

Hannig: "Yes."

Winters: "Budget total?"

Hannig: "With the capital and it's reappropriated. This is not any new capital. That would be... that... well, whatever new capital you get on a pay as you go, but without a capital bill, we're at \$57,926,059,452."

Winters: "Okay. So, you're... you're basically at 57 billion. And the number we had for all funds approped last year was 40... 49, plus change."

Hannig: "And so, so what we show... for last year we show all funds at \$50,296,766,889."

Winters: "Okay. You know what, I'll accept your \$50 billion plus 50 million... 300 million because that illustrates a point. We can't even agree on the numbers and we're trying to pass a state budget. We're off by billions in what our best guess is at this point. Illustrating again, we have not had access to this, we haven't had a chance to look at the line items. But the other major point is we're looking at all funds spending up about \$7 billion. To the Bill, Mr. Speaker. This is the third one of a string of disastrous public policy choices that we have made. Whether it was the funds sweep we did a few minutes ago, the raid on the pension fund of over two and a quarter billion dollars over these 2 years, and now the potential of spending \$7 billion... at least appropriating \$7 billion

STATE OF ILLINOIS
94th GENERAL ASSEMBLY

more than we did last year simply illustrates that this state, this Governor and the Legislative Leaderships, doesn't know how to say 'no'. They just wanna spend. They're taking the money... not through taxes, which at least is honorable enough to tell the voters you're gonna take it out of their pocket. What we're doing is we're stealing it from the investments that they have set aside in past years. Please, consider your vote on this. What we're doing is one of the most horrendous public policy choices that we have made. It's a lousy way to... to fund this State Government. And I urge a 'no' vote. Thank you."

Speaker Madigan: "Mr. Parke."

Parke: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. We are now about to vote on a budget that's balanced on the backs of state employees, teachers, and university employees by simply underfunding their pension program. This state still has a Medicaid bills in the Comptroller's Office and in the Treasury's Office for \$1.8 billion that have not been paid. We have an increased spending at a time, for the last 2 years we've talking about not having enough money to pay the bills of the State of Illinois. Here we go, spending at least another \$800 million... \$800 million. Plus, another 200 million on pork going to the Democratic Legislators and the Democratic Party to get the votes necessary to pass this pension Bill. I mean, this budget Bill, we do not... we have not solved the structural deficit of the State of Illinois. Do not, Ladies and Gentlemen, do not come back next fall asking for

a supplemental budget or more short-term borrowing. You have the opportunity right now to solve it. But no, you're not gonna do that. What you're gonna do is that you're gonna spend on increased spending, rather than pay the needs that are already been talked about in the supplemental budget that still won't be addressed. We're gonna come back in the fall, we're still gonna have that need cause you're gonna blow that money on other programs. And you're gonna want... you're gonna come to us and say, 'Oh, we have to have a supplemental.' The Governor's gonna come to us and say, 'We're gonna have to have a supplemental.' Ladies and Gentlemen, this budget is the wrong way of taking care of the needs of the State of Illinois. This is prime proof that the Democratic Party of the State of Illinois is the tax and spend party that it's always been. The only difference is, you're not taxing and spend; you're underfunding and spending the taxpayers' money in a way that is an embarrassment to the rest of this nation."

Speaker Madigan: "Representative Coulson."

Coulson: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Coulson: "I have a... a couple of questions about some of the line items that have been called to my attention. And specifically, in the Department of Aging, normally, we fund the Meals on Wheels... home delivered meals through a formula to the suburban area agencies on aging. And that line is there and I... and that's fine. But I also found in the

budget on, I guess it's page 168, an additional 250 thousand for that same program. How is that gonna be decided? Where is that gonna go? Is it going to be divided up by the formula? What... why is it in a different spot?"

Hannig: "Okay. So, Representative, I'm advised that the 250 thousand is to reduce the waiting lines that exist. So, in those areas of the state where you have waiting lines, that's where they money will be directed. In other areas where you don't, they'll not see an increase."

Coulson: "So, it won't be going through the formula, it will be basically based on... on waiting lists. But everyone in the state will have access to that?"

Hannig: "It's based on need, Representative. If we put..."

Coulson: "Based on..."

Hannig: "...it in a formula, as you would know, that the money would get spread around."

Coulson: "...Right."

Hannig: "But it could go to areas where there are no waiting lists. So, I... I hope you would agree..."

Coulson: "So, I guess what I'm asking is, if there's a waiting list in my district would they have access to that?"

Hannig: "I... I think that, you know, you would... they would make a comparison of need and you certainly would be under consideration."

Coulson: "So, it would be ranked in someway. Okay. There's also just below that an expense for the Alzheimer's initiative and related programs, that is similarly a

separate line item, a hundred and four thousand, seven hundred. And again, normally the Alzheimers is a lump sum for research. And I'm just wondering what that one is."

Hannig: "I was a... I was advised that they switched to a lump sum on that, I think this is the nature of your question, because of an audit finding by the Auditor General."

Coulson: "So, it's only a hundred and four totally for Alzheimers in the budget?"

Hannig: "We believe so, but let me double check, Representative."

Coulson: "Okay. While you're looking, can I just ask a couple questions about the supplemental? I know we don't have a lot of time."

Hannig: "Yep, just... go ahead."

Coulson: "I know in the beginning of the budget there's supplemental. WIC is covered, we don't have a problem with WIC getting early..."

Hannig: "Right."

Coulson: "...and starting early. Okay. And then the CCP Program for community care providers. There was a concern about it being about \$21 million short. There are some raises that need to be in there. The supplemental, doesn't it include the \$20 million?"

Hannig: "It's... it's a... I'm un... my understanding is the supplemental has the \$20 million."

Hannig: "It was... it was partially restored, Representative."

Coulson: "Partially restored. Do we know the amount or... I..."

Hannig: "I think that we restored 150."

Coulson: "Okay. And there's still in the budget the cuts to the payments to the hospitals and reducing payments to the nursing homes."

Hannig: "I'm not sure which payments to the... like for example the nursing homes you mean."

Coulson: "The... the... the more seriously ill nursing home patients who are going to have an actual cut."

Hannig: "I... well, for example, Representative, on the... on the nursing homes, the administration intends to by administrative rule reduce some of the payments that they pay to the nursing homes. The appropriation reflects that. But in truth, you know, it's a payment cycle issue, as well."

Currently, four out of the nine state universities have received additional funding, one-time funding, for special projects. Two of those state universities received two different projects and a third one received money for three different projects. Why did those universities receive multiple pro... multiple funding projects when the other five universities received no additional funds at all for special projects that they requested?"

Hannig: "Representative, I... I think the reality is that for some of the smaller schools in the state the only place they have to go to find any money is the... is right here in this chamber and the Senate. They have to come and get some GRF. Now, you know, I'm a member of the University of Illinois Alumni Association, they call me I think every month, can you send another a hundred bucks or thousand bucks. They generate money from different ways and they have some opportunities to generate money. But a lot of these smaller schools, they don't really have very many options. And so, they have to come to us and I think we try to be responsive."

Hannig: "Yeah, the... the one at Northern is an... is an item that I think has been run by the university. We've... we've basically acknowledged that it's a good program, but we've never put the money there. So, this'll be the first year we finally... we finally did what we should do and paid for the program. The one at Southern Illinois University, the intern program for Senator Vince Demuzio, we passed the substantive Bill that went through the House in the Senate with 0 'no' votes. And so, we've appropriated for it, Representative. I think it'd be something in the Senator's memory and it's an area that... that he went to school and an area that he loved and certainly it will train some young people in State Government. So, that was one that I personally had an interest in. But I think all of us voted for the Bill."

Myers: "Well, I agree and I wouldn't argue that particular line item. Two more questions on a couple of other funding levels. There's been an \$800 thousand reduction in GRF for the HECA Access and Diversity Grants. At a time when the state universities and the Members of this chamber are increasingly urging the universities to improve and expand their diversity on campus among their students and among their faculty, why are we reducing the line item that would help improve diversity on the campuses?"

Myers: "So, what you're saying is that in this case we're not following the chamber's desire, we're following the Board of Higher Education's preference to... in their addressing the diversity?"

Hannig: "Well, Representative, you're... you're correct in the sense that we do have the final say. But in this case I think the... the view is that they're right and we should do as they say."

Now, I think we all... all of us in this chamber definitely support IMSA. It's a very good quality school and it produces some very good quality graduates that enter into our... our society and workforce eventually and are very productive. But at this point in time, the elementary and secondary education schools in the State of Illinois depend on a network called the Illinois Century Network to provide access to the Internet and to Broadband Internet services. Hannig: "Okay. So..."

Myers: "...to increase the Illinois Virtual High School Program."

Hannig: "So, the income fund is the money that the Math and Science Academy goes out and sort of rounds up on their own. It's private money. Now, I would've been happy to sweep that money, but you know, I was sort of overruled on that one. But in any case, the view was that they raised this money and they ought to keep it and spend it for the purposes of that Math and Science Academy. If we took the money and swept it or spent it on something else, they'd have a hard time raising it in the private sector."

Myers: "Well, when we... when we talk about income funds when we address the state universities we're looking at income funds that the... that the Governor's Office... the Governor's Office of Management and Budget continues to say that those are dollars available so we're gonna reduce the GRF to the state universities. only point is this, is that we... we may be 53 Republicans to many of you over there, but we represent 5.3 million Illinoisans. And when you put stuff in a budget and don't let us have any time to debate it, that is not democracy. Two days ago people on that side of the aisle bragged about a pension holiday plan. Well, my question is that, if that pension holiday plan was so good, how come Members of your own caucus had to get pork projects to get it through? Is this a new way of doing business? Or is this a new and improved way of doing business? I think this state was safer when the... when the Chicago Democrats were not getting along."

Speaker Madigan: "Mr. Poe."

Poe: "Yeah, Mr. Speaker, will the..."

Speaker Madigan: "Turn on Mr. Poe."

Poe: "Will the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Poe: "Representative, probably the most questions and calls I get in my office is from contractors, hospitals, nursing homes, vendors that supply these kind of people, is... they can't get paid on time in Illinois. My question to you, at this time how... how far behind and what is our outstanding balance of unpaid bills?"

Hannig: "Representative, I think the payment cycle is about 75 days right now."

Poe: "Could you give me the... what... what are we out, 2 billion, 2.6 billion, 1.6?"

Hannig: "Bills on hand on June 30th we estimate to be about 1.6 billion."

Poe: "Okay. So, we're getting ready to go into a whole new spending plan for another year. And after the new year starts, is there any plan for short-term borrowing or some method of trying to get caught up on these bills?"

Hannig: "Representative, I mean, I think we're all of the mind that if we can get caught up on them that's a good thing."

Poe: "But I mean is there... is there a... are you intent on this in short-term borrowing or I mean, it's not fair to our vendors out there. The State of Illinois can go out and borrow money for 3, three and a half percent. We got vendors now carrying these people for 75 days. I really think it's quite closer to 90 from the information I'm receiving. But we're putting that burden on vendors. And I think what we're happen here, vendors are gonna start going broke. We're gonna start finding nursing homes that's not gonna be able to keep their doors open 'cause they... they've borrowed about all the money they can. I'm just wondering if there's a plan to get this caught up to maybe 45 days at the most, after we get this new budget instituted."

Hannig: "Representative, I... I... I think in some cases vendors actually say, 'Rather than cut our budget, we'll take a payment cycle increase.' And so, ya know, sometimes like when we did the nursing home thing last year, we increased their... their base by 27 million. Well, they said, 'Oh well, you know you don't really have to pay for that with

real money. You can just increase the payment cycle.' So, sometimes the vendors are in it with us when these things happen. It isn't always just your fault and my fault, the Governor's fault. So..."

Poe: "To the Bill. I just have a great concern as we go through, you know, the integrity of a person is how soon they can pay their bills. And I know that each one of us here if we got up to 90, a hundred and twenty days it would be a headline. And I think sometimes we're not getting enough headlines in the State of Illinois for the fact that we're not paying our bills on time. I really believe that we're gonna have some nursing homes close for the fact that they can't get paid. And I think that as we're getting ready to do a \$54 billion budget that there ought to be a plan in place as soon as the new budget takes effect that we can go ahead and pay our bills on time. Thank you."

Speaker Madigan: "Mr. Hannig to close."

Hannig: "Well, thank you, Mr. Speaker and Members of the House. The Comptroller asked me to clarify for the record that this budget removes any cost of living adjustments for state officials in the Comptroller's budget. So, I just wanna make that statement on the record. And make sure that we all understand what we're talking about as we go forward and vote on this budget. If you look at what this does for education, I think who could... who could be opposed to \$2 hundred increase in the foundation level? That's a pretty good increase in most years and I think particularly good in this year. A hundred percent hold harmless in the

poverty. You know, I hear that all the time. Well, you gotta have a hold harmless, we can't be losing any money. Average daily attendance, we're gonna increase that line by \$10 million. That's real money for our schools. Mandated categoricals, we're gonna keep them at the same level that we had last year, a funding level of 97.1. Early childhood, \$30 million. If you look at the aging budget, some of the things that we constantly hear from the Members in the Appropriation Committee and even those not, you know, can we do some kind of cost of living adjustment for our providers? Well, it's here. It's in this document. It's a 3 percent increase. So, I think there's something in here for each and every one of us to be for and to be proud of. It's a good budget and it's something that it's gonna help the State of Illinois and the people who we represent move forward. So, I'd ask for your 'yes' vote."

Hannig: "Thank you, Mr. Speaker and Members of the House. This is the Budget Implementation Act on education. It provides that some unexpended federal funds should be returned to the Federal Government so that we don't get penalized. It creates a special purpose fund for the state... the Board of Education so that we can receive grants like we did this year for the Bill and Melinda Gates Foundation. It provides for transitional assistance to ensure that no school district will receive less money than they did last year. It also provides that the statutory increase in our foundation level be increased to 5,164. And it provides the hold harmless for the poverty grants. We've already appropriated the money for this in the previous Bill. This is the substantive side that makes that work. That's what the Amendment does. And I'd be happy to answer any questions."

Hannig: "Rep... Representative, there... the budget... the thing that we call the budget consists of, this year three budget implementation Bills which are substantive in nature and drive the spending and the appropriation Bill, the spending Bill. So, this is the budget implementation Bill for education. It sets the foundation, it sets the hold harmless on poverty. But it... but it doesn't actually appropriate any money."

Bassi: "But this tells us where the money goes? Or does the budget... the Bill we just passed tell us where the money goes?"

Hannig: "It... this and the other budget implementation Bills create the statutory authority in a substantive way that in some cases drive money... to direct money... direct money the way we want to in the budget. Now, in some cases we don't need to do that. So, sometimes we just can appropriate for an existing program. Yeah, so... so, the funding level Bill we just passed. This is the budget implementation side of that. We need... we need both of them to work to make our schools... to give our schools the money we just spent... we just passed to spend for them."

Hannig: "I'm sorry, what was the question?"

Bassi: "Where... where does the bulk of that money go?"

Hannig: "Okay. That money all... all of that money will come from and be driven through the general state aid formula."

Bassi: "Does it... but 80 percent of that is... is... is going to Chicago and to downstate, is that correct?"

Hannig: "Representative, it... it's the... what we do is we... we pass an appropriation Bill. It creates an amount of money, we have a formula in place, which this will amend and increase the foundation by \$2 hundred. And then it will drive that money to the respective school based on the formula. So, the two work hand in hand. The spending Bill and the budget implementation."

Bassi: "Okay. I think my problem is, is that the questions that I had were actually on the last Bill that we had."

Eddy: "Representative, one of the things you mentioned during your discussion of the Bill is the transition money?"

Hannig: "Yes, Representative."

Eddy: "And I wanna point out to the Body that you need to be real careful with transition money. Transition money is supposed to guarantee that there is not a school district in the state that receives less funding in FY '06 than they received in FY '05. A year ago we stood on the floor and we talked about transition money for FY '05. And there are school districts in this state that will be receiving less money because that transition money has been prorated. There are many school districts that will receive less money because the transition money was prorated. My understanding, Representative, is that same thing can happen with this implementation plan because there's not a continuing appropriation for the transition money. And we could be here again next year talking about the schools who didn't get as much money as they did the year before."

Hannig: "Representative, first of all, let me also say that in the transitional money we're not guaranteeing school districts things like competitive grants. So, if they competed last year and won a grant, so..."

Eddy: "I understand."

STATE OF ILLINOIS

Hannig: "...there... there are some reasons, legitimate reasons, that they could received less. But for the most part, you know, the idea is that we would appropriate and ensure that all school districts get the same amount of money that they got last year."

Eddy: "Representative, I could take time to read down a list that I just received from the State Board of Education that shows school districts that are gonna be receiving hundreds of thousands of dollars less than they did last year because the... the transition money was prorated. So, that same thing could happen again. My point is there... my question is, is there language for a continuing appropriation of the transition money contained within this 'bimp' language?"

Hannig: "I... I'm sorry, could you repeat the question?"

Eddy: "Is there continuing appropriation language contained within this 'bimp' that would guarantee transitional funding?"

Hannig: "There... there is not, Representative."

Eddy: "Okay. So, we could end up a year from now, like we have today, with school districts who received less money from the state than they did the year before. Now, my understanding is on the poverty grant, that is guaranteed."

Hannig: "I think that we could... we would prorate it... that as well, Representative. I... we take the best guess that the State Board of Education gives us. And, you know, we're guessing for a school that starts next August and continues almost all through next year. If we're wrong, we do have

an opportunity to come back and do a supplemental, but I... but we use our best guess. So..."

Eddy: "I understand what you're saying. The problem is the transition money that... many people are gonna leave here believing that their school district will not get less next year than they did the year before, that is not guaranteed by the implementation language and they could indeed get less money. Another item... and I apologize for saving my questions for the 'bimp' Bill, some of these do... some of these questions do relate the budget. I wanted to just take less time and ask them all at one time. In the budget Bill that passed prior to this... Representative, is the Chicago Pension System funded with any line item in that budget?"

Hannig: "I think that there was an appropriation... continuing appropriation language that drove 9 million."

Eddy: "In addition to the 65 million? So, the total amount is 74 million?"

Hannig: "Yeah, the 65 is something that we've appropriated for a long time. And it's my understanding that that goes for health care costs for that system. That because there..."

Eddy: "Point is, while we are shorting the pension system for downstate teachers and university people to the tune of several hundred million dollars, the City of Chicago Pension System is not... is not being cut any of the appropriation that was in the original budget. So, they will be made whole with the amount."

There are many other issues involved with the budget that... that passed earlier. There is a... as Representative Bassi mentioned, a \$3 million program that Representative Acevedo brought forward that I think is a great program. It's to make sure stu... kids who have vision problems can be taken care of. But the problem is we're only gonna take care of kids with vision problems in the City of Chicago with that plan. Hannig: "I think that's gonna be available to... for grants for schools who are willing to provide some monies of their own, parochial schools who are willing to provide some costs of their own for transportation. So, in other words, it'll be a matching program for parochial schools... for private schools."

Mulligan: "Representative..."

Hannig: "That they negotiate."

Mulligan: "...everybody's getting eager to be out of here, nobody can hear us. I just wanna know if the Department of Public Aid has agreed to negotiate on the \$70 million savings with managed care companies?"

Hannig: "I... I think it's fair to say that they... that we will require them to negotiate. There's... there's no dollar amount in the Bill that says..."

Mulligan: "Well, there was a big..."

Hannig: "...There's no... and there's no plan is what I should say."

Mulligan: "...I though there was a dollar amount in the Bill?"

Mulligan: "Well, I believe it's a good solution to meet the needs of the department and of our providers also in preserved managed care jobs. And continue to provide a high quality cost efficient health care. So, I would hope that that would be. I understand also that there's cleanups for Medicaid, KidCare services to noncitizens to reflect those services are paid out of existing Medicaid lines?"

Hannig: "Yes, that is correct, Representative."

Mulligan: "It's modifying the existing prior approval cap for name ban... name brand pres... Medicaid drugs and lowers the cap from four prescriptions to three prescriptions before prior approval is required?"

Hannig: "Representative, it just will simply delete the language that says 'four prescriptions'. And... and the... the administration will set that by rule and JCAR will review the rule."

Mulligan: "You're also freezing Medicaid nursing home reimbursements rates that affects both geriatric and DD?"

Hannig: "Yeah, this is the base rate. And... and we've done this year in and year out."

Mulligan: "All right. You're also looking at emergency rulemaking authority which allows for immediate implementation of 'bimp' related rules? What does that mean..."

Hannig: "Yeah, that... that's..."

Mulligan: "...for emergency rule authority?"

Hannig: "...Yeah, so this is... the emergency... so, the emergency rule process and we give them this language, it's a standard boiler plate language we use ever year because the budget takes effect July 1. So, here we are almost in June 1 and it doesn't give us enough time to do it through the normal process. But the emergency rules only have a life of a hundred and eighty days. So, they're... they're basically short-term ways to get any rule changes up and running. But they won't... they're not a way to circumvent the project... process."

Mulligan: "You're gonna apply the KidCare premium and copayment to provisions to the FamilyCare Program and add two more tiers of premiums at an additional \$1, 5 month each for fourth and fifth enrolled family members?"

Hannig: "Yeah... that... that codifies the way that we move into the FamilyCare Plan, Representative. And recognizes that the FamilyCare Plan is..."

Mulligan: "Is there anything else that you would consider a highlight? I won't ask you for a lowlight 'cause you probably wouldn't tell me. But a highlight of this project that you can tell us about that might make us walk out of here feel good about something?"

Hannig: "Well, the... the... the 3 percent increases, I think, are something that we should all feel good about in Human Services. You fought long and hard for those kind of things in the past, Representative, I know that. And it's

an opportunity for us to finally do some good in that area."

Mulligan: Representative Hannig, you're doing a good job and you're keeping your voice, something I never do down here. It's usually my pleasure to work with you. I wish it would have been more pleasurable this year. We did agree on a few things that we weren't going to allow to be in 'bimp' Bills, which I think you kind of reneged on. So, I'm disappointed. But other than that, it's usually my pleasure to work with you. Thank you for your answers."

Hannig: "Yes, Representative?"

Delgado: "Thank you. Representative Hannig, on page 22, lines four and nine of Senate Amendment #1... I do have some concern with regards... and you know I'm for the Bill and I am going to be voting on this Bill in the positive. What I need to know, I have some concerns in regards to the continuation of the state's current Medicaid Managed Care Program. By including the language in the budget

implementation Act are we intending to eliminate Medicaid Managed Care Program?"

Hannig: "Representative, there's nothing in the Bill that provides for the elimination of the existing Managed Care Program. But there is a provision that requires the Department of Public Aid to renegotiate the existing contracts to receive a \$70 million in savings. If that is possible, we want them to hit 70 million. An expert consultant group found that the rates currently being paid to mandated care organizations under the current program were excessive in relation to those... to the care being provided. That consultant recommended that the existing program be phased out. Instead, this Bill requires that the existing contract be renegotiated. The Department of Public Aid indicates that there... that there does not need to be any disruption in care under this provision, even if the contracts are changed substantially. All of the existing medical providers are certified to participate in the Medicaid Program so that patients may continue to receive care from those very same providers on a fee-for-service basis, whether or not they're affiliated with the network of a managed care organization. The Department of Public Aid is continuing to evaluate the feasibility and value of contracting with HMO plans and the scope and number of those types of service. Unique funding mechanism for paying for hospital care in Illinois, for example, the intergovernmental transfers, the IDT payment, and the hospital assessment, clearly makes the use of HMO's

more complicated. There is no assurance that the real savings can be achieved and there would be major impact to the state's cash flow management because a prepaid, capitated system requires up-front funding rather the reimbursement methodology... methodology generally applied to all other Medicaid providers. The Bill requires negotiation, but does not require the use of any particular type of program that still has to be determined by the Department of Public Aid and their re... further review of this issue."

Delgado: "Thank you for your response. Mr. Speaker, to the Bill. At this point, I'm emphasizing that I'm listening very closely, even though we have a lot of noise in hear. And I must stay focused on holding all parties to understand that in order to provide primary doctors and a continuum of health care to thousands of pregnant women, the elderly and families who have made the choice for better health care. Because of what we have discussed here today, I will support this language. And again, I reiterate that we cannot use any attempt to eliminate a vital program that will be viewed in direct contradiction to the intent of this legislation. An action, Sir, I cannot support but this Bill does that and I appreciate you having that language there and I thank you for indulging me for this moment. And I would ask for that 'aye' vote on House Bill 1197. Thank you, Mr. Speaker."

Hoffman: "Well, thank you, Mr. Speaker. Thank you, Mr. Speaker. Let me just say I've... I've sat here and listened to the debate. This is the fourth Bill, this would be the final Bill in the budget. We still have other work to do I understand. But this will be the final Bill out of the House for the budget. I sat here and on the first Bill that we talked about... the first... in all the years I've been here, I don't know that I have ever heard a Representative call out other Representatives. The first time I've heard statements like, 'I'll tell you, Representative Ryg.' And, 'I can't believe, Representative Jakobsson, that you can vote for this budget.' I've never heard that before. I have never heard that before. But it happened. Well, how... why... how can they vote for the budget? How can't they vote for this budget? Let me tell you what's in here. Three hundred million new dollars for education. What's in here? Twenty-five thousands kids get to attend pre-school. Full funding for Medicaid. Fifty-six thousand more people will get covered through Kids Care (KidCare). It creates a no... leave no senior behind, so that they can get health care they need. New hospitals assessment. Money for downstate transit, money for the CTA. The pensions funds were raped... you say we're raping the pension funds. The pension funds were raping us. We provide a real reform for pensions. We provide a real reform and we passed 'em and we provided the savings to go to education. Now, I can sit here and I can say, well, well, how could the new Representative from Peoria vote against 300... \$300 million for educating our

children? I'm not gonna say that. I'm not gonna say it cause that would be wrong. So, we sit here... we sit here and we had the State of the State... or the State of the State speech and the budget speech, that was in February. I thought some day, some way we'd get a plan from you. But we got no plan. We had hearings throughout the state. We waited for the plan. Where's your plan? There's no plan. When you gonna come up with your plan? We had appropriation hearings... appropriation hearings after appropriation hearings. Where's your plan? There's no plan. When is the plan coming? Each day when I go to my district office I check the mail. I think, is the plan gonna be here today? But there is no plan. There is no plan. I come to Springfield on Tuesday, maybe they delivered the plan to my Springfield office. There's no plan, no plan in Springfield. Thursday, I drive home, maybe they sent the plan to my house. They must have sent the plan to my house. They thought they were sending it the district office, but at home, there was no plan. Two days ago... two days ago we debated the budget or the pensions. I said, well, we got two days. Are you gonna bring in a plan? Well, today we're sitting here we're four hours from adjournment, there's no plan. Where's the plan? Well, we're waiting. I know what your plan was. We know what your plan was. Your plan was to take us into overtime in June, July, and August. We don't like your plan. We have a plan. Our plan is to fund education. Our plan is to make sure kids get health care. Our plan is to fund

Medicaid. Our plan is to leave no seniors behind. Our plan is to fund downstate transportation. And you know what our plan is about? Tough choices. Tough decisions. And our plan is about governing."

Speaker Madigan: "Mr. Hoffman, we can thank you. We now have three more Republicans that wanna speak. Mr. Bost."

Bost: "Thank you, Mr. Speaker. And I'll be short and brief. But the memory of the last speaker is not very good because I can remember in 1995, when my name was mentioned in this debate from that side of the aisle. Just the same... now, so don't say, 'Oh, this has never happened before.' And the reality is, a plan could be worked on, but a scam has been worked on."

Speaker Madigan: "Mr. Sacia promises to be just as brief as Mr. Bost."

Sacia: "Or more so. If any way I offended Kathy Ryg or Naomi Jakobsson, who I came in with and I consider the dearest of friends, I profusely apologize. I would never insult either one of them for anything. My deepest apology."

Speaker Madigan: "Mr. Parke."

Parke: "Thank you, Mr. Speaker. I'd like to respond to the previous speaker. And remind them that you are in control of the House. We are not. You have purposely cut us out for the last two weeks out of any budget negotiation. Now, you can make light of it all you want, but you have raped the pension plan of this state. You can make fun all you want, but that does not dilute the fact of what you have done. And you'll pay the price over the long run. You can

laugh and you can think it's funny but in fact, it is not. This is very serious of what you have done to the people of this state. Ladies and Gentlemen, again, they'll make fun of it, because they know they're embarrassed, they know what they've done to the people of Illinois and for the future children of our state. It's not very funny. You can chuck and jive all you want, but the fact of the matter is, is that we have done a bad deed to the people of this state."

Speaker Madigan: "Mr. Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. Let's lower the rhetoric. Strange coming from me, isn't it? Ladies and Gentlemen, if this... if this Body could work with Democrats and Republicans, including the Speaker, to pass a very contentious medical malpractice Bill, and that truly was a bipartisan effort, we could have done the same thing on the budget. We're willing to work with you. The Speaker knows that from last year. You all know that from last year. If you wanna take full credit for a budget that's based on nonsustainable revenue, do it. But look at what happened just... just less than 24 hours ago. The Governor's Office of Management and Budget floats a plan that would possibly put \$500 million on the table. Where was that a month ago in the budget negotiations? That's 25 percent of where we needed to be to close the budget gap. We were willing to work with you on some temporary borrowing. Some... some... perhaps a... a smaller pension holiday. We didn't walk away from

anything. You decided not to let us participate. And I just wanna expand one... one thing that Representative Parke said. But before I do, I respect and admire every one of you on that side of the aisle and every one on this side of the aisle. We work together. I truly love some of you on that side of the aisle and when I leave here, that's what I'm gonna miss the most, is the camaraderie that we can generally display working with each other. That... that's... that's a privilege and a pleasure I never take for granted. But let me just add to what Representative Parke said, you not only control the House, you control the Senate and you control every lever and button of State Government. And the last two years we've had overtime Sessions, overtime Veto Sessions. I'm not mad at anybody, I'm not gonna blame anybody. But I am gonna write a letter to the Governor this summer and suggest that he take off his suit coat, leave the hair spray at home, learn... learn to come to Springfield and roll up your sleeves and get involved in the process of governing this state. I can't vote on a press release. I don't have a staff analysis of a press release. And this is not a victory for your side and defeat for ours. There are good things in this budget. There are things that I really like and I'm glad that you, we, us, however you wanna spin it, accomplished. But all I would warn all of us and I think down deep we all know this, it's predicated on a nonsustainable revenue basis. It might get us through another year, it won't get us through two and it certainly won't get us through three.

And we have created a debt that we owe that I have yet to see a solid, disciplined plan that pays back the pension system. So, rather than just yell at each other, let me just take your lead by saying and especially to my good friend from down south, Jay Hoffman. I knew Jay Hoffman when he was a probation officer. I reported to him on a regular basis. No, seriously. This chamber is full of good people. And we often disagree and we often do so sometimes in a... in a disagreeable manner. But I'm gonna tell you something and I... I believe this. When somebody attacks any one of us personally, I think most of us will come to the defense of that Member or that party. I think we all try to do the best we can. It's not an easy job that we're given. So, when we leave here tonight, the future will say what we did was good or bad. We just simply have an honest difference of opinion on how you've chosen to finance fiscal '06. It doesn't make you bad people. It certainly doesn't make us bad people. But if it collapses, I think I can speak for the entire caucus and I'm sure I can speak for our Leader. If something happens, if it collapses, if a lawsuit renders what much of what we did here tonight moot, I can assure you of this, every Republican Member will come back to Springfield when we're called. We'll roll up our sleeves and we will work with you to craft a real, honest budget based on the revenues that we actually have. So, if we're about to leave, have a good summer. We all need some rest, but I love each and every one of you in this chamber."

This evening I'm proud to present Senate Bill 575. 575, as everyone knows, is a measure that will prepare our high school students for higher... for higher education, college, and ultimately the work force. The contents of this... of this Bill requires higher standards for graduations. Currently, in the State of Illinois we have 2 years of math, we have 1 year of science and 3 years of language arts. Under the propose... proposals that we're making today, we are phasing in 3 years of math that is required for freshmen entering high school in the year 2005-06. And algebra and reforms that specify that Algebra I and the course include geometry content will be required for freshman entering the 2006-07 year. Also in the 2006-07 year, we're asking for writing intensive courses will also be added as a graduation requirement. Freshmen entering the year 2007 and 2008 would also need 2 years of

science, rather than the current 1 year. And also, the fourth year of language art will be added for freshmen entering 2008 to 2009. As you have noticed, this is a phase-in requirements. Most district currently do not require all the courses now. Many students take... still take them in to... in to college because the university requirements exceeds the 16 credits that is required for Illinois graduation. Currently, the high school graduate requirements... the current high school graduate requirements were established in 1984 through the 1985 school year and we have not increased these requirements in the State of Illinois for 20 years."

Speaker Madigan: "Mr. Giles, could I interrupt you for one moment? Mr. Turner... At least 13 state... other states have committed to raise their graduation requirements in math. One state requires that 3 years of English in high school, six states required that 4 years of English. Two of these six states require a speech course. Within the additional writing course work and the additional year of language art, Illinois will be in the top tier of the states, if we pass this legislation. One out of... 100 freshmen entering high school in Illinois, sev... approximately 72 will graduate, 43 will... will... immediately enter college, 30 will still be enrolled in college in their sophomore year and only 20 will graduate from college within a traditional 4 years. Ladies and Gentlemen of the House, this legislation will truly have a phenomenal effect on our high school students being able to compete in our society. This piece of legislation has been supported by a number of organization and association. Just to mention a few, the Illinois Business Round Table, the Illinois Board of Higher Education, the Chicago Area Writing Project, ISBE, the Civic Committee of... of the Commercial Club of Chicago, the Illinois... the Association for Career and Technical Education and on and on. But I... but I just wanna cover a couple of issues that I hope you'll work with me on as this... this concept which I'm reluctantly supporting only because of the financial issues. But what about teacher certification issues that involve, for example, tech-prep classes that have been developed so that a third year of an applied mathematics class that could involve technology using spreadsheets is being taught in a school district and currently being allowed as a math credit, but the teacher is not certified as a math teacher. I... I'm not asking that you would guarantee that that somehow would happen and... and that a vocational teaching certificate would allow a math credit, but... but I think we need to work on that issue, because it's not just that instance, it's also horticultural science classes that could count for science. It's... it's classes in English, applied communication classes that... that are part of good tech-prep curriculums. I know you understand or you recognize that issue and... and I... I'm hopeful that you'll work with me for flexibility for school districts as they respond to this ramp up."

Giles: "Representative, thank you, that... that was a very good question and I think we've had some debate on that particular issue. And of course, I will work with you on those initiatives. But also, let me just say with the career and technical courses, in this state, there's been the... the Governor has... has appropriated and has funded these courses at a substantial rate. I believe this particular... I believe last year... I believe, we increased the funding for these measure. When it comes to the actual courses being applied to these standards, I believe that these standards will enhance individuals that going into these careers, by meeting these course requirements, it would enhance their abilities to be able to be successful in those technical careers. But of course, I will work with you on those measures. I will continue to do so."

Eddy: "I appreciate that. Those ag students that sat in committee, I think, felt that we were... we were gonna do something that would help the courses they were... they were there to support, be counted for this initiative. And... and I wanna work with you on finding a way to do that. Funding is the other issue. As you know, in the budget there is nonspecific funding for this. The real expenses for this won't be incurred by school districts for a couple of years because the third year of math which is the first ramp implementation really won't effect students in their freshman year next year. However, I'm hoping again and... and I know the intention is that during the next couple of years as the real phase-in occurs and the need for funds

becomes known and... and calculated, that... that we can work together to find the funding necessary for this ramp in, as well."

Eddy: "My... my understanding is while it's an inexact science to guess how much we're talking about, it could be anywhere to be around 20 million a year, for maybe the 5 years that cover this. And... and if it's certainly worth that, we can find the money for a worthwhile issue like this."

Giles: "I... I think we can, Representative. I think this is such of an important piece of legislation to... to be able to... to make sure that we appropriately fund this measure. I think that's probably one of the main reason in which why we are presenting this measure at this late hour because this was truly worked on quite awhile. I know it is... it is a priority of the Governor, a priority some of the Legislators and some of the Education Association. The main concern, as you stated, was the actual funding. Everyone that I talked to, everyone Legislator that I've talked to believes in the philosophy, believed that we should increase the standards that we should challenge our high school students. They truly believe in that, but they have some very serious reservation about the funding of it. And of course, a measure such as this, it should be funded. The bottom line is at the end of the day when we look at a... a proposal like this, we have to ask ourselves, is this gonna be good for the children? Is it gonna be good for the education? My... I believe the answer to that is 'yes' and... and I believe it's our duty to find the funds to do that. Thank you."

You're gonna raise the requirements for graduation. Where are we gonna get those teachers and where are we gonna get the money to pay for 'em? This is an unfunded mandate. How many of you have stood before your school boards and told them that you're not voting for unfunded mandates. This is a huge unfunded mandate. There is not enough money to pay for this program. It's a very practical idea. But you know, we have an awful high dropout rate in our high schools, especially among our minorities. You're gonna increase the requirements for graduation. But until you get that money and put it with this program, we can't vote for it. Because it's a... it's gonna be passed on to all of our school districts. Right now, our good organization like the School Management Alliance, LENDS SCORE, IEA, and the high school district organizations all want this, but they all must oppose it because of the money. Sir, I think this needs work. I would ask that... that I... that the Members vote against it. If, in fact, they do vote for it and pass it, I hope that it's a priority for you to get that funding and many of our Members will work with you to get it. to the school districts, I cannot support this legislation, Sir."

Speaker Turner: "The Gentleman from Lee, Representative Mitchell, do you rise as a proponent or opponent?"

Mitchell, J.: "I'm a proponent."

Speaker Turner: "Speak to the Bill."

Mitchell, J.: "Thank you. Ladies and Gentlemen of the House, this particular Bill is one that is way, way past due. Now this state, for all of its good qualities, is in the bottom tier of states when it comes to graduation requirements. The cost is spread out over time. There... in fact, there is no cost in this budget. The cost comes down the road. I am confident that Representative Giles, that others in this chamber will make sure that the money is there. But the fact of the matter is we must put in the graduation requirements in a global economy that we know our students are going to need in order to be competitive with not only other states but other countries. Most districts are either there or close to there already. In fact, our state requirements in the School Code are below almost every school district. Now, this may raise 'em above some school districts and it may cost some money, but not nearly as much as we're trying to pretend. It's the right time to do this. We'll get the funding. I have great confidence in that. The thing is we've got to get the graduation requirements up to where we're going to be competitive. Representative Giles, I'll work with you next year and the

Speaker Turner: "We've heard from three proponents, one opponent. Representative Bassi, are you a opponent?"

Bassi: "At the moment, Representative, it's questionable. I have a number of questions, if I may."

Speaker Turner: "You're the last one. Speak."

Bassi: "Thank you. Representative, can you tell us exactly what the increase in requirements will be? Increase in requirements, what will they be? They will be... additional year of math, an additional of science, and an additional year of English. So, that we're bringing up to 4 years of English, 3 years of math, 2 years of science, but we're also adding the requirement that they have to have these very specific writing questions. Is that not correct?"

Giles: "That's correct, Representative."

Bassi: "And do all of the schools currently have the writing assessment program as part of their requirements?"

Giles: "Mr. Speaker, I... I can't... I can't... I'm hearing an echo. Could you repeat that?"

Bassi: "Do the schools have the writing requirement currently in place?"

Giles: "Representative, with the... are you speaking about the language art, are you speaking about the writing requirements?"

Bassi: "I'm talking about the writing requirement that our eloquent Governor is requiring."

Bassi: "And is there..."

Giles: "...of intense writing."

Bassi: "...any funding for that writing requirement from our eloquent Governor?"

Giles: "Representative, as I stated once before, this is a major priority to work on getting the funding..."

Bassi: "And is the funding..."

Giles: "...but however, this particular... this particular issue here with the writing, it doesn't start until the year 2006-2007. So, it's phased-in, so we... we still have time to make sure that this particular writing requirement is funded properly."

Bassi: "And where are we going to find the money to hire the teachers? Are they already trained?"

Giles: "Rep..."

Bassi: "Are the teachers trained for writing... for teaching of writing programs?"

Fritchey: "There's actually is a reason that we're doing this. My district has had a very unfortunate experience with representations that have been made to it for years regarding the Brown Line Expansion Project. Those representations were not correct. We don't know if that was intentionally or inadvertently. Yet, to this day, we still do not have an accurate picture of the financial situation of that... of that project. My constituents, myself, some of my colleagues have been left somewhat dismayed and disappointed by the responses that we got from the CTA. We feel this is an appropriate measure in response to this situation."

Molaro: "Thank you."

Speaker Turner: "The Gentleman from Cook, Representative Joe Lyons."

Lyons, J.: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I wanna commend John for doing this. This is something long overdue. As somebody who's been involved with the Special Transit Committee, Julie Hamos has done a great job of chairing it. We've had meetings on this thing all year. We had 'em previously last year, we were subcommittee of the regular Transportation Committee. I'd be remiss if I didn't thank Representative Turner or Speaker, right now, for allowing me to use his Bill, Majority Leader Currie, Bob Molaro, Representative Molaro, helped us and then our staff. Moffitt: "It was a request, yes, by a developer and by the village. They... they... to proceed with the project they wanted a guarantee or assurances that it was gonna be extended. So, it was their request."

McCarthy: "So, 11 years... their position was that 11 years was not sufficient to whatever the new development they're gonna do?"

Moffitt: "2033 will be the expiration date. Is that what you're saying?"

McCarthy: "No, I... well, ours says 2028, with this extension. And you said it's extending by 12 years, so I subtracted backwards and said 28 minus 12 is 16. So, at the end... it currently... Well, why don't I ask you, when is it currently supposed to expire, if we don't do this?"

Moffitt: "This gives it an additional total life now of 28 more years. We're adding 12 to the 23 that it had."

McCarthy: "Okay. That actually makes it even a little bit worse for my point, because now you're telling me that that the current thing would expire at the end of 2021 and we're gonna make it an additional 12 years. 2021 is 16 years into the future and yet, we're doing it like another 12 beyond that. It seems hard for me to believe something that already has 16 years left on it needs, I mean... Do you have any reason why that... why that... I mean that, it seems like 6... an open ended TIF for 16 more years, it'd be hard to explain why it needed 12 more at this time."

Moffitt: "Representative, we're following the precedents that's been set, it's my understanding, of extending the additional 12 years. The current user of this that's attracted to it is a housing development, a developer, and they asked that... that they have the assurance that it's gonna be extended and that for... for their ability..."

And the idea is that... we passed this last year, this is kind of a severance package. Last year, 5 hundred people took it. It's voluntary... voluntary and totally voluntary. In addition, this Bill allows individuals who are retirees in the State Employees Retirement System, and are not Medicare eligible, and have other types of health care insurance, have other health care insurance could be paid a stipend of \$150 per month if they do not take the state insurance. We would then get the savings from them not taking that health care insurance. Again, this passed unanimously last year. Poe: "Yeah. Representative, ...you explained in committee a few minutes ago, could you tell us how much savings that you think that you'll have in this Bill that will help the state out in having more funding?"

Hoffman: "Yeah. First of all... first of all, there is a... there is a savings into the pension systems future accrued liability to the amount of \$5 million. Then, is... if this year like last year 5 hundred people were to take advantage of this... this option we believe there would be over... there would be substantial savings. In addition... there would be additional savings by allowing individuals to... if they already have health insurance not to have this health insurance, and they would get a stipend. Each health insurance for retirees cost approximately \$10 thousand a year. So, anybody that take this because they have other insurance, and take the stipend we would get that annual savings also."

Poe: "I guess I'd like to ask if here we are two hours before we have to adjourn, and if this was so good last year and it's been so good all year, why... why are we bringing this to the table two hours before we're gonna adjourn? And evidently, it was very important that the Director of the Budget, Filan, was at the meeting. So, I was just wondering why it become so important this... in two hours before we adjourn?"

Hoffman: "I... I can... this has been discussed in all the budgeteers' meetings. It has been... it was put in the

Governor's budget book. We passed it last year. This is just an extension of that. So, I think that individuals knew about this for a long time, since the budget was introduced. We just need to pass, like everything else, the implementation of it. So, this essentially is a Budget Implementation Act that has to be implemented in order to take the savings that's contained in the budget."

Poe: "This estimated \$20 million, have you got any idea what program that's gonna go into?"

Hoffman: "I'm sorry, could... could you..."

Poe: "The \$20 million that you think that you'll save, that way you got \$20 million more available for the budget. Do you have an idea where this is gonna be spent?"

Hoffman: "Well, it's spent as part of the spending plan for the budget. I mean, we don't earmark that \$20 million for education. It's just spent as part of the other... the other spending priorities that we outlined in the past earlier."

Poe: "This..."

Hoffman: "And again, I just wanna... I wanted to say this, this is totally voluntary. It's another option for employees. They don't have to do it. Nobody's telling them they have to do it. They can do it. So, if you're an employee, I think you... you would like this."

Poe: "Okay. Mr. Speaker, to the Bill. Just... just briefly, I guess the concerns I have of representing Springfield and I have a lot of... several constituent calls last year. And I don't think probably a lot of the employees felt this was voluntary. But that's maybe just the some of the ones that

call my office and that's the concerns I have about this Bill. And I would be cautious about voting for it at two hours before adjournment. Thank you."

Speaker Turner: "The Gentleman from Vermilion, Representative Black, for what reason do you rise?"

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "Indicates he will."

Black: "Representative Hoffman, if I... if I understand this, the employee who would choose to cash out their pension benefits then the state would match the pension benefits in a cash payout, right?"

Hoffman: "What you would do, is the employee would... the employee leaves State Government, gets another job. He's given the option, doesn't have to do it, but he can, instead of having the pension can take a cash payment of double his benefits. Which would be the state's portion paid, as well as his, at 6.5 percent compounded. And what that does, it takes him off future liabilities of the pension systems. So, it's a net savings to the pension systems last year of \$5 million. In addition, we... instead of firing people and laying them off we wouldn't hire... we wouldn't fill that position."

Black: "Yeah. Thank you very much. Mr. Speaker, to the Bill. I had state..."

Speaker Turner: "To the Bill."

it they didn't take it, they were gonna get fired. And so, it was an easy out. And don't shake your head at me, Mr. Chief of Staff, I'll be glad to give you the name of the person who this happened to. Now, let me... let me tell ya... let me tell ya what this Bill does. It's the same kind of plan that you ran on the pension borrowing scheme. You cash out, we match your payout. And so, last year the payments totaled 23.4 million. And in this creative accounting system that we use now, it saved \$28 million in future liability. It cost you \$23 million last year. And you didn't get \$28 million in savings. The savings won't be recognized until it's amortized over the 5, 6, 8, 10 years that that employee might have had left to reach the 20-year figure. This is another one of those gimmicks where you save money today, so you say, you spend the money, but you don't recognize all the savings for 4, 5, 8, 10 years out. This is no way to... to throw something out here after 10:00 at night. It's another first cousin to the borrowing of the \$2.4 billion from the pension plan. And I'm gonna tell ya, you say it's voluntary, but there were people last year that were told, 'Ya take it or we'll fire ya.' That's a real good deal. And a wonderful way for the party of the people to treat people. I think if you really pay attention to this thing and you really have any understanding of what this is about, you vote 'no'."

Mulligan: "Thank you, Mr. Speaker. To the Bill. I tend to agree with what Representative Black said. Looking at the status of this Bill and the... and the history of it, this Amendment was put on the Bill today. Something like this is really too bad. You know, we're all getting happy, we're going home for the summer. But believe me, a lot of us aren't forgetting how bad this pension Bill and the system is for this state. We do not forget our fiduciary responsibility for the long haul. If our state goes bankrupt, employees think that their pensions are Constitutionally guaranteed. Nothing is to say in future Legislatures where they would be obligated to pass taxes on the people to cover a bankrupt pension system, that they would not go back to the people for a Constitutional Amendment that would cut those pension benefits. The public has no particular interest in paying our pension system. So remember, the games we played this week, the games we played today, the pensions that you pass, the goofy bills that you put out there, the enough money that they give you to give the Governor for this year and to run for next year will haunt people to come. And although I like many of my colleagues in this place and I work well with them on Human Services, the fact of the matter is, the upshot of this whole process is we have cheated the people of Illinois for years to come. I would urge a 'no' vote, a final 'no' vote on this. And I'd like a verification of the 'yes' votes on this Bill."

Speaker Turner: "Gentleman from Cook, Representative Molaro, for what reason do you rise?"

Molaro: "Thank you. Just... just a question of the Body. I... you know, I'm not gonna debate whether it's a good Bill or not, it's a good Bill and we all know it. But I will say this to the Representatives over on the other side of the aisle, who basically said that there were supervisors that actually told employees, 'You either take this deal or you're fired.' I would suggest you get a hold of those employees and give those names to the Inspector General or give those names to the Governor's Office or what the heck, I'll solicit business, give those names to me and I'll represent them in a lawsuit. So, I wish instead of just coming up and saying there are people who've done this. I wish they would seriously come forward. 'Cause I think that's a violation of their civil rights, it's a violation of their employments rights. And I think the supervisors who told them that and threatened that, those supervisors should lose their jobs and they should be fired. So, if you would give those names to myself, Representative Hoffman, or the Inspector General, I think we can get to the bottom of that. I just don't think it happened. But if it did, we should go after those people. This is a good Bill and I urge an 'aye' vote."

I have not heard the abuses that were talked about, maybe they existed. I have not heard of them. And I think that the people who have taken it, have been happy with it. Second... the third thing is, the savings are not... on the pension system are not built into this budget. The savings are when nonfrontline employees take this, for whatever reason, we're not gonna fill their positions. They're nonfrontline employees. Instead of laying them off, they can do this. Okay. It's up to them. It's their voluntary decision. If they wanna then come back at some point and they want to join State Government again they, like we can, if we take our pension out of here, can buy their time back. It's voluntary. They can do it. The second important portion of the Bill that I think people aren't realizing is, it costs us \$10 thousand a year to pay medical care for state employees. Ten thous... or state employee retirees. Ten thousand dollars a year. Many times we're paying this and that retiree spouse may also have insurance. We're saying that, if we'll pay you... we won't have to pay that \$10 thousand, you can opt in, you can opt out. It's totally voluntary. I ask for an 'aye' vote."

Speaker Turner: "You're welcome."

Feigenholtz: "Senate Bill 1 requires the Department of Lottery to offer a special instant scratch off lottery game titled, 'Ticket For The Cure'. Many of our... us in this chamber and people that we love and we know, their lives have been changed because of breast cancer. This is a... this is a... an initiative that will raise money for research and treatment at the lottery. And I would be glad to answer any questions."

Speaker Turner: "The Gentleman from Cook, Representative Fritchey, for what reason do you rise?"

Fritchey: "Speaker, to the Bill."

Speaker Turner: "To the Bill."

Fritchey: "Ladies and Gentlemen, it... it may come as a surprise to you. I don't... I don't vote for gaming expansion Bills. I'm happy to support this one. My mom is a 20-year breast cancer survivor. This cause is near and dear. We have to take a look sometimes beyond our knee-jerk reactions to what some of these Bills do. Do all of us have causes that we can come here with? Yeah, we do. But I felt compelled to speak on this one. They've made tremendous amounts of progress in the treatment and diagnosis of breast cancer.

Much more is possible with additional funding. This Bill and the money raised won't do it by itself, but it'll go a long way towards helping. So, please think about it. Thank you."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Thank you... thank you, Mr. Speaker. The underlying cause is certainly worthy. However, it is an expansion of gambling. Ya know, we all want to find a cure for breast cancer, there's no doubt about it. But when you expand gaming... when you expand gambling in any form there are people that will lose. This is something that ICAAAP is opposed to. And I respectfully will rise in opposition. In addition, I certainly hope that the Governor doesn't sweep your \$3.7 million, Representative, if in fact this does become law. I rise in opposition to the Lady's Motion."

Speaker Turner: "We'd like to recognize the presence of the Lieutenant Governor Pat Quinn, who's on the floor tonight with us. Pat Quinn. The Lady from Cook, Representative Howard, for what reason do you rise?"

Howard: "To the Bill."

Speaker Turner: "To the Bill."

Howard: "My colleagues, I know you've often heard the expression that the end does not justify the means. Well, in this instance that is not correct. The end in fact does justify the means. We have to... we must do anything that we can to make certain that breast cancer does not continue to

take the lives of women that we know and love. I'm often reminded of our... our late colleague, Penny Severens, who suffered through this and also other members of her family. This is a time that we can take the correct action. That we can identify the funding necessary to make certain that we can minimize this plague. I certainly urge all of my colleagues to please think about what we're trying to do and not about the way that the money is being raised. Thank you."

Speaker Turner: "The Gentleman from Cook, Representative Lang, for what reason do you rise?"

Lang: "Thank you. To speak to the Bill, Mr. Speaker. Frankly, I don't know how anybody in good conscience can vote against this Bill. So vote 'aye'."

Speaker Turner: "The Gentleman from Rock Island, Representative Boland, for what reason do you rise?"

Boland: "I rise in strong support of this Bill. It's extremely important. We know the cause is great. And for those of you who supported the veterans' scratch ticket that we passed earlier, that is over in the State Senate, this is kind of a companion. They will bring in new people into the lottery system and it will be additional money for great causes. Thank you."

Feigenholtz: "Yes."

Mulligan: "And how would the research grants be allocated?"

Feigenholtz: "There's going to be a board established. If you read the Bill, you'll see that they're going to make recommend... make recommendations for grants and research."

Mulligan: "Earlier today we highlighted the fact that the Governor was going to sweep the Mammogram Fund and the money was put back. The Conference of Women Legislators, many of us supported this. But there are a number of us that just generally don't vote for anything that has to do with gambling and ILCAP (sic-ICAAAP) is against this. I think it compromises some of us. Although, we'd like to see the money go to the research, I would rather see the state put it in there and not do that. I certainly would like to support your Bill, I haven't made up my mind. Here we have a creative way of trying to fund something that's near and dear to all of our hearts. The proponents of this Bill are, of course, the American Cancer Society and Why Me, Breast Cancer. We have a lot of colleagues here on both... in both the House and the Senate who have survived, thank God, breast cancer. I know that they inspire me to do things like this. And to continue to come up with creative ways for funding mechanisms to move the ball up the field on breast cancer treatment and research. received the Constitutional Majority, is hereby declared passed. The Gentleman from Vermilion, Representative Black, for what reason do you rise?"

Black: "Mr. Speaker, in all due respect to you and the Members of the Body that are getting tired, I've answered questions for 20 years about where does the money from the lottery go. And so has everybody else that's been in here. It's a question you get asked every time you go someplace. The lottery money was supposed to fund education. Why doesn't it? What did you do with it? Where did you put it? Who stole the money? And that should have debated much longer than it was. It passed out of committee two weeks ago, could have been called at anytime. The fundamental question is, 'Are you changing the concept of the lottery funding that was passed in this chamber in '85 and '86', that says, 'all profits of the lottery go to the Common School Fund?' Now, are we changing that? If we are then you have to change all your brochures in the lottery and you have to change all of the speeches you've given to the civic clubs over the years. Because now, evidently, not all of the money from the lottery will go to education. A very noble and worthwhile, and God knows, cause that I wish we'd find a cure tomorrow, but we do strange things here. You just abrogated and we did it earlier with the Veterans' Bill. The law that Representative Pangle passed in 1985, signed into law in 1986 after the Veto Session, clearly said that all profit of the lottery goes to the Common School Fund. Now you've created a real conundrum for us

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

when we go out and say, 'Well, almost all of it does.' You know we're better off when it gets this late in the Session to name the state bird, the state fossil, the state shoe, the state toilet paper and leave Bills like this for the Veto Session when we're a little more fresh and we can really figure out what the impact of these Bills are. Mr. Speaker, I know you're tired, so am I, but don't cutoff debate when a Bill before the chamber is changing a fundamental law that was passed 20 years ago. And now we have to figure out, well, maybe all the profit of the lottery goes to education, except in a couple of worthwhile causes. You're opening up a door that I don't think you really wanna go through. And you're just adding to the confusion and the cynicism that people have because they have it in their mind that the lottery was gonna fund education and we diverted the money or we stole the money or we did something. Now we have to start explaining it to people all over again."

Speaker Turner: "The Gentleman from Cook, Representative Molaro, for what reason do you rise?"

Molaro: "Thank you. A question of the Chair, Mr. Speaker."

Speaker Turner: "State your question."

Speaker Turner: "The Gentleman from Macon, Representative Flider, for what reason do you rise?"

Flider: "Well... well, Mr. Speaker, with reference to Representative Black's comments. The question I often get when I talk to my constituents is, 'I thought all that money from the lottery was going to education, what happened?' And so, my first question I wondered is if anybody knows what percentage of the education budget lottery funds now represent? But the second thing I wanted to point out is there's a House Bill 3472 that we, as I understand it, is now being debated in the Senate as we speak. And Representative Black, I wasn't sure if you're aware of this Bill, but what it does is it allows for a scratch off for Illinois veterans. And there's a number of cosponsors of that Bill. This is the Bill to create a database to find out what is going on with predatory lending in many of our urban communities. The Senate Amendment made significant changes to the Bill. Instead of the list of zip codes where the pilot study would happen, under this measure, the Department of Financial and Professional Regulation would chose zip codes within the County of Cook. The Bill makes further changes. For example, there will be an annual report about the effectiveness of the program. And in addition, it clarifies that a broker does not need to give information about competitor rates and clarifies that an individual may decide to carry forward with the mortgage under any circumstances. I would appreciate your support for this measure. The problem of individuals being

forced out of their homes and the problem for communities when many individuals are forced out of their homes is real, it is earnest. Happy to answer your questions and appreciate your support for the concurrence Motion."

Speaker Madigan: "The Lady moves to concur in Senate Amendments #1 and 2. And the Chair recognizes Mr. Parke."

Parke: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. To the Bill. Nobody wants people to be taken advantage of. Predatory lending in its term, on the face of it, is something that we don't like and don't want. But in fact, this Bill is much more than that. This is 'big brother' at its worst. This Bill simply says if you're gonna mortgage... go for a mortgage or a refinance and your loan is deemed to be weak, if it's deemed to be weak, they can then send you... mandatory... mandatory that you must go to a credit counselor. There'll be a list of credit counselors. You have to go see 'em. If you don't go see 'em, you can't get a loan. I mean, what is that all about? You're gonna tell people where and when they can't? You're gonna tell 'em whether or not they can take a risk? Maybe they might be pushing a little harder to get a mortgage. But you're gonna take... and because there are some bad people out there doing some bad things, you're gonna lump 'em all in there. Ladies and Gentlemen, I do not understand why we must have this structured the way it is.

STATE OF ILLINOIS
94th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

63rd Legislative Day

5/31/2005

I think you can solve the problem. We're bright enough to take care of that problem. We've done it on the predatory loans. Why can't we do it on these mortgages? If somebody wants to get a mortgage, then they ought to be able to do it. But to tell them that because they are deemed to be weak, doesn't mean they are, it's just whoever's doing the review on that mortgage says, 'Well, this is a weak application... or I don't think they have enough money.' Then they must go to a credit counselor to get it. I mean, what is that? I mean, that is government interfering with a free market system at its worst. Ladies and Gentlemen, the Illinois Mortgage Bankers Association is opposed, Department of Financial and Professional Regulation, Responsible Mortgage Lender Coalition, and the HSBC are all in opposition to this legislation. I would strongly ask to defeat Amendments 1 and 2, put this back in Veto Session and let's solve this problem in a way that doesn't interfere with a free market system."

Speaker Madigan: "Mr. Black."

Black: "Thank you very much, Mr. Speaker. By the way, you look good in the Chair. Will the Sponsor yield?"

Black: "A certain level of foreclosure?"

Currie: "...they are going to chose the geographic area within Cook County wherein the pilot program will happen. And they will use, in making that determination, information about high foreclosure rates on residential home mortgages within the area. So, they will do the pilot in the places where the problem is most severe."

Black: "Okay. Is... is there a percentage rate of foreclosures that will act as a trigger? Or do they have the means to just go wherever they want to?"

Currie: "They will... they will make that determination, but their criteria will be the relative rate of foreclosures in the area they designate."

Black: "All right. But if they wanted to go into a zip code area that had only a 5 percent foreclosure rate, they could go in there? If they so chose?"

Currie: "Except that the... the standard, the criterion that they are supposed to use under the Bill, would not make that a likely outcome."

Black: "Okay. Thank you very much. Mr. Speaker and Ladies and Gentlemen of the House, to the Bill. some place shrouded with no windows, I can see it now. In the basement of some building, cobwebs, people hunched over desks, they don't get anything except a lunch break. They make a determination whether or not I can get a mortgage or refinance my house. Now, what... what qualifications do they have to make that determination? This is the same agency, remember, that we asked to certify lending officials 2 years ago and they haven't gotten it finished yet. I mean, how long do I have to wait? And I'm not... this is a rhetorical question. I don't know if the Majority Leader can answer that question. We don't know how quickly the department can return the papers back to a lender and figure out whether or not I can get my mortgage or whether or not I can refinance my house. Now, I... I think I know what this aimed at. And there... there certainly are people that... that... it's been that way since Charles Dickens. There's always somebody out there to make a quick buck. And I'm not sure whether government will ever stop that. And I'm not sure whether it's our job to protect people from themselves, mandate they go to counseling and let a government bureaucrat decide whether or not they qualify for a mortgage. It just seems somewhat foreign to me. And it's for that reason and that reason alone, that I intend to vote 'no'. And Mr. Speaker and Ladies and Gentlemen of the House, let me just to Members on my side of the aisle who have come up and said, 'We need to do a verification, we need to do a verification.' doorways. There's a staffer with a seating chart. And that staffer asked any Democrat that leaves where they're going, how to get a hold of them and before this Bill is called, I can assure you, and I have great respect for the Speaker, he doesn't do things in the spur of the moment. He plans very carefully. Now, if one of you want to get up and request a verification, I'm gonna fight you on it, because it's a waste of time. Look on that side of the aisle. They're all there. I'll guarantee you they're all there or this Bill wouldn't be called. You vote however you wanna vote, but I see no reason to drag this out by requesting a verification. One thing I've learned from the Speaker, and I've learned many things from the Speaker, he plans very carefully. And he wouldn't call this Bill if he didn't know his people were here to vote for it. I intend to vote 'no'. You all vote your districts or your conscience and let's get on with it."

This is the measure that would create the Illinois Global Partnership to encourage trade and investment globally for the State of Illinois. The Amendment adopted in the Senate does three things. First, it establishes that the chair of the Illinois Arts Council will be a member of the board of directors. Second, it will clarify that the Department of Commerce and Economic Opportunity will continue to oversee the current foreign trade offices and also will retain control of the Bureau of Tourism. And third, it will require the board of directors to adopt a policy making sure there is minority participation and reporting to the General Assembly on the effectiveness of that policy on an annual basis. I'm happy to answer your questions. This is a Bill that will put Illinois on the global map, will be a help to our farmers and our manufacturing communities. And I urge your 'yes' vote."

Speaker Madigan: "Representative Parke."

Parke: "Thank you, Mr. Speaker. Would the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Parke: "Representative, I have talked to you before about this legislation, we had certain concerns. In the budget that was passed earlier today, do we have funding for the international trade offices and for the expansion of international tourism?"

Currie: "Yes. I believe that money went into the Comptroller's budget."

Parke: "Does it stay within DCEO? Does it stay in there? Does that budget stay in there?"

Currie: "Yes."

Parke: "And it is not the intent... the intent of this legislation is to streamline it to make it more competitive, to put it in more of a business mode? Is that correct?"

Currie: "To build upon our success, Representative."

Parke: "And it's not your intention to... to remove personnel or to lay people off or fire them in our state offices around the globe? Is that correct?"

Currie: "Correct."

Parke: "All right. I've had the opportunity to be in the Brussels trade office and in the Taiwan... Hong Kong trade office. The people there are dedicated, they are very long employed. Their knowledge in context cannot be replaced for years. I would encourage all those people that are involved in this that listen to my discussion and my concern to make sure that we protect those employees, to make sure that that expertise is not lost. I will support the Lady's Motion."

Speaker Madigan: "The question is, 'Shall the House concur in Senate Amendment #3 to House Bill 4053?' Those in favor signify by voting 'yes'; those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question, there are 114 people voting 'yes', 0 voting 'no'. The House does concur in Senate Amendment #3 to House Bill 4053. And this

Bill, having received a Constitutional Majority, is hereby declared passed. Ladies and Gentlemen, we're about... prepared to... adjourn. First, Mr. Clerk, read the Adjournment Resolution."

Clerk Mahoney: "Senate Joint Resolution 50,

RESOLVED, BY THE SENATE OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that when the two Houses adjourn on Tuesday, May 31, 2005, the Senate stands adjourned until Wednesday, October 19, 2005, in perfunctory session; and when it adjourns on that day, it stands adjourned until Tuesday, October 25, 2005, at 12:00 noon; and the House of Representatives stands adjourned until Wednesday, October 19, 2005, in perfunctory session; and when it adjourns on that day, it stands adjourned until Tuesday, October 25, 2005, at 12:00 noon."

Speaker Madigan: "You've all heard the Resolution. Those in favor signify by saying 'yes'; those opposed by saying 'no'. The 'ayes' have it. The Resolution is adopted. Just a couple of moments, please. First, let me introduce the chair of the Illinois Arts Council, my wife, Shirley Madigan. Please say hello to my son, Andrew Madigan. Mr. Black."

Black: "When you're done, Mr. Speaker."

Speaker Madigan: "Okay. I would simply like to thank all of you for an outstanding effort, outstanding Session. Certainly, the issues were not easy, they were extremely difficult. Some of us made a very difficult decision,

we're taking some criticism for that, but I'm sure that those of us who did it feel very comfortable about it. And we're prepared to move forward and discharge our duty and our obligation as Members of the House of Representatives. Thank you to all of you. Thank you to the members of my staff, Tim Mapes, John Lowder, Mike Thompson, Rob Uhe. I hope you all have a great, great summer. And I think we all wanna listen to Mr. Black for one more time, right? Mr. Black."

Black: "Mr. Speaker, thank you very much. I think it's been... I know I've been here too long when I see Andrew, who's now a freshman at Northwestern, and when I first came down here he was a baby. Andrew, you've certainly grown up and I wish you the very best in... in your studies at Northwestern. Ladies and Gentlemen of the House, never forget what a privilege it is to serve here. Never forget how difficult it can be to serve here, to be fair to the constituents who elected you, and to be fair to the people of the State of Illinois. And ya know, it's a difficult job. And I've had some bad days here. Oh, I've really had some bad days here. But every morning when I walk in and I look up at that dome, I realize I'm one of only a hundred and eighteen people entrusted to be here. And I look up at that dome and I say, 'Boy, what a phenomenal place to work.' And what phenomenal people to work with on both sides of the aisle. I've had my disagreements with the Speaker in the past, but I have tremendous respect for this man's ability, his character, his intelligence, and he's probably, and

I've seen this firsthand in more than one race I've walked precincts in, probably the greatest political strategist that this state has ever seen or will ever see. I don't think any of us in this chamber are irreplaceable, we find that out every 2 years. There's only one person here I would call irreplaceable and that's probably the Speaker but there are times I wouldn't shed a tear if he were replaced. Let me just summarize by thanking our staff and yours as well. I don't know where we find such people. I really don't. For what we pay you and the hours that you work and the cooperation of the staff working together. To Scott Reimers, our Director of Research. To Lisa Guinan who tries to keep me in order as best I can... as best she can. Since she's been working for Leader Cross his voting record has improved tremendously. To all of our staffers, I don't wanna mention them by name, I don't have a list in front of me and I certainly don't want to overlook any of them. To our policy staff, some of the hardest working young people I have ever met and don't forget for 1 minute when you think how great you are and how indispensable you are to this process, just remember that every time you get in trouble what do you do? Where's staff? Where's staff? Where's the analysis? Where they heck are they? We are blessed to have the quality of staff that we have in this chamber. And I've said this a hundred times, I don't know how we find you, I don't know how we keep you. I hope we haven't abused you too much in this Session. I congratulate staff on both sides of the aisle. To our Chief of Staff,

Bill O'Connor, who served as a Legislator in this chamber, what a pleasurable man to work with and work for. To our Deputy Chief of Staff, Matt O'Shea, again a young man who brings new ideas and energy to the process. To the House Republican Leader, Tom Cross. To all of the Members on the Republican side of the aisle we have certainly had our differences on occasion this year. But I... I really think that we try as best we can to work out these differences, doesn't always work and to do the best we can for the people of Illinois. The fiscal problems that the state face has made our job even more difficult and sometimes more contentious. And when we on our side of the aisle try to deal with some of these fiscal problems, we turn to Kent Gaffney, who's the Director of our Appropriations Staff. Who I don't think has been to bed in two days. Is he here or did he fall asleep? Thank all of you on our side of the aisle for what you've accomplished. I hope you all have a very good summer. I hope you come back refreshed in the Veto Session. And... and just one paid political announcement. I hope this... this summer in our districts we really listen to people, get out and talk, because we all know one inevitable fact of life, we're going to have to face the fiscal crisis that this state has and face it head-on and that's gonna mean some difficult decisions, some difficult votes and some difficult days. Have a very good summer. And never forget the people of Illinois have given you a great privilege to work here. Thank all of you. Have a good summer."

Speaker Madigan: "Chair recognizes Representative Currie."

Currie: "Thank you, Speaker. I have filed a Motion with respect to Senate Bill 1 and I wish to withdraw the Motion."

Speaker Madigan: "The Motion shall be withdrawn. Representative Currie moves that the House stand adjourned until Tuesday, October 25 at 12 noon. Those in favor say 'yes'; those opposed say 'no'. The 'ayes' have it. The House does stand adjourned until Tuesday, October 25 and 12 noon. Have a great summer."
