97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

Speaker Lang: "The House will be in order. Members will be in their chairs. We shall be led in prayer today by Pastor J. Wesley Wilkey who is with the Faith United Methodist Church in Champaign, Illinois. Pastor Wilkey is the guest of Representative Franks... is the guest of Representative Rose. Members and guests are asked to refrain from starting their lap tops, turn off all cell phones and pagers, and rise for the invocation and the Pledge of Allegiance. Pastor Wilkey."

Pastor Wilkey: "Let us pray. All loving God, the God of Lincoln and Douglas, the God of Republicans and Democrats, the God of Independents and Parties of every age and stripe. We are bold to call upon You this day for the benefit of our elected Representatives and their staffs, the employees, and above all, the people of the great State of Illinois. We pray in thanksgiving for all that which You have supplied us even to this hour, for the gift of health, of home, of freedom, of strength, of justice, of mercy. We offer thanks to You for those on whose shoulders we stand, those who offered us a hand up, those who provide support, those who laughed with or shed tears for us. We give thanks to You for those who have been called to lives of public service, who could otherwise have lived out lives privately and without the strain and stress which public service demands of those who would agree to carry its cross. We pray in petition on behalf of those of the needy who have little choice but to rely on the wisdom, mercy, and power of elected government. Help us to catch Your spirit as we work toward offering avenues of education for

the children and promise of a brighter future for those whose resources and station in life are bleak. Set our ears to hear the cry of the needy. Set our ears and eyes to see and hear the pain of the ill. Set our hearts to beat to the rhythm of a world yearning for peace with justice and help us to work with all people of good will, both in this place and beyond, in order that this state might be a shining beacon on the hill of democracy. Bless now those who gather in this place give the gifts of discernment, give the gifts of wisdom, give the gifts of vision. To those who lead here, grant them the gift of cooperation. To those who speak here, grant them insight. To those who decide here, grant them the courage to vote their own conscience, Amen."

Speaker Lang: "We'll be led in the Pledge of Allegiance today by our newest Member, Representative Smith."

Smith - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Lang: "Roll Call for Attendance. Representative Currie."

Currie: "Thank you, Speaker. Let the record reflect that there are no excused absences among House Democrats today."

Speaker Lang: "Representative Bost."

Bost: "Thank you, Mr. Speaker. Let the record reflect that Representatives Beaubien and Mulligan are excused on the Republican side of the aisle today."

Speaker Lang: "Thank you. Mr. Dunkin, Durkin, Farnham, Flowers, Franks, please record yourselves. Mr. Dunkin."

Calendar, under House Bills-First Reading, appears House Bill 1446. Mr. Clerk, please read the Bill."

Clerk Bolin: "House Bill 1446, a Bill for an Act in relation to criminal justice. First Reading of this House Bill."

Speaker Lang: "And that Bill shall be placed on the Order of Second Reading. And on page 37 of the Calendar under the Order of House Resolutions, there appears House Resolution 158. Representative Beiser. Mr. Beiser."

Beiser: "Thank you, Mr. Speaker, Members of the House. House Resolution 158, who is cosponsored by 38 other Members at this point, is a very simple, straightforward Resolution, and it's an outgrowth of House Resolution 110 in which we set forth the revenue estimate that we believed to be accurate and conservative for the fiscal year commencing July 1st. And simply stated House Resolution says, should revenues exceed what we have appropriated in House.. and identified in House Resolution 110, then those excess revenues shall be used to pay the unpaid bills that our vendors that have been waiting for months and months for so many years, time and time again. So, it's a very simple, straightforward Resolution, a furtherance of what we've done budgetwise here in the House on both sides of the aisle. And I would ask for everyone's 'aye' vote."

Speaker Lang: "The Gentleman moves for the adoption of the Resolution. On that question, the Chair recognizes Representative Eddy."

Eddy: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "The Gentleman yields."

STATE OF ILLINOIS

Eddy: "Representative Beiser, the revenue figure that is in this Resolution is the same as in House Resolution 110."

Beiser: "Yes, Sir."

Eddy: "So, that revenue figure includes all revenue that the state might receive if there are additional revenue Bills that pass. For example, there is... there's some type of a gaming Bill that brings revenue into the state, that would be considered additional revenue to the 33.178 billion that this references?"

Beiser: "It's my intention, and I believe House Resolution talks about general fund revenue, and I think it that's... it's that what we're talking about, Roger."

Eddy: "How will the backlog be approached? Is that discussed in this Resolution?"

Beiser: "It is not discussed, but I think the way the Comptroller's Office historically has treated that is oldest bills first unless there's exceptional cases in which they have the discretion."

Eddy: "Is this Resolution just for FY12?"

Beiser: "Yes, Sir."

Eddy: "Okay. So, you don't anticipate an additional amount of revenue to pay back all bills in FY12, but whatever there..."

Beiser: "I'm wanting to just deal with the House Resolution 110 revenues versus what we actually would receive."

Eddy: "So... so, you're not that optimistic that the... you know what the current backlog is at the Comptroller's Office?"

Beiser: "I'm told six billion and plus."

Eddy: "Six billion-plus. Do you have any idea what type of dent we might be able to put in that with this Resolution?"

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

Beiser: "No, I do not. But I'll tell you the... the reason for this, and I think it's shared on both sides of the aisle, is that I think by the fact that we are being conservative in our appropriations, there's a likelihood especially given the fact that two other forecasting bodies have forecasted higher general fund revenues than the House has. I think it's prudent to be conservative and also to plan forward that should we get more revenue than we estimate that it goes towards unpaid bills rather than looking at other ways to spend money before those unpaid bills have been taken care of."

Eddy: "Thank you, Representative. Ladies and Gentlemen of the House, to the Resolution. This is exactly the type of budgeting that we've been promoting for many years. A budgeting approach that takes a realistic view of state revenues that does not depend upon revenue that comes from dedicated funds. It does not come from borrowing. That does not come from a variety of techniques that we've seen over the last eight or nine years that has kind of contributed in great ways to the trouble we see today with these six billion-plus backlog of bills that we have. This approach is to make all the obligated payments that we have, including pension payments, come up with a number that will be distributed among the committees that appropriate funds in the House, and now, if there are additional funds, use those to pay back bills. I think it's an outstanding idea, Representative. This is exactly the kind of thing that we've been talking about on this side of the aisle for seven or eight years now. And I

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

daresay that if we would have adopted this approach several years earlier, we certainly wouldn't be in near the financial crisis shape that we're in today with the backlog of bills. So, thank you. We support this completely on this side of the aisle. We look forward to working with you on this type of a responsible approach to budgeting in the future. Thank you."

Speaker Lang: "Mr. Sullivan."

Sullivan: "Thank you, Mr. Speaker. To the Resolution. In rev... and one, I'd like to commend the Sponsor for bringing this forward. Obviously, this is, as the previous speaker had indicated, the way to do things. One of the things that we talked about in Revenue Committee in discussions with some of the experts is that we are in an economy that when things go bad they're really going bad, and when things start to rebound, and we don't know if that's going to be the case, but revenues generally go beyond our expectation when they're on the upswing. One of the professors from the Illinois... University of Illinois talked about this. So, the question then, the oblivious question in all of our minds is, if we go beyond revenues, what do we do with those? We don't want to spend more money, we want to be able to, 1) pay down bills, 2) maybe put money in the pension systems, and go from there. So, I commend the Sponsor for bringing this forward. This is definitely the way to do things. It's a change of pace for Illinois government over the last decade to actually try to put revenues out there first and come up with how we're going

HOUSE OF REPRESENTATIVES

to pay down our debts. So, I commend the Sponsor and we should all be voting 'yes'. Thanks."

Speaker Lang: "Representative Will Davis."

Davis, W.: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "The Gentleman yields."

Davis, W.: "Representative, do you have any idea how much money is going to be in excess?"

Beiser: "No, I do not."

Davis, W.: "What is the rationale by which the backlog of bills might be paid if there is an excess?"

Beiser: "Like I mentioned previously, historically, the Comptroller's Office, over the years, has paid oldest bills first; however, they do have the discretion should there be an exceptional case. For instance, a facility that serves the disadvantaged may go out of business or may have to curtail their programs, then they do have that ability to take those into consideration."

Davis, W.: "But how do we... I mean... so we're just... it's really just up to the Comptroller to determine which bills would be paid first if there's excess of resources?"

Beiser: "That's part of the responsibilities of the Comptroller's Office."

Davis, W.: "Well, but I mean, even right now working through the Governor's Office and maybe some direct contact with the Comptroller's Office, you could place a phone call and ask them if a voucher has been submitted and there's resources that they might pay a bill currently, which may not fall in any particular order. So, I just want to understand how they would institute such a program, for

97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

lack of a better word, if there is excess resources that become available. How do I know? I mean, there... obviously, there are a number of needs in the state. There are hospitals that need payments. There are community-based organizations that need payments. Who... I mean, are we really leaving it up to the Comptroller to determine what would be paid if there is excess resources?"

Beiser: "And I think... I think we are because I think what we've all experienced, all of us that have been in this Body for the past few years, we've received numerous calls from constituents or programs that have... the state owes money, whether it be schools or programs for the disadvantaged seniors or disadvantaged developmentally disabled. And the protocol that I've been told to follow is, call the Comptroller's Office and see where they're at in the payment cycle. And again, this Resolution does not dictate how those bills... how the Comptroller's Office shall pay those bills. It just says that should we have a pot of money that's in excess of over our rev... revenue estimate, it has to go towards unpaid bills."

Davis, W.: "Well, I think therein lies my point, Representative, is obviously I know there are a number of needs that exist here in the state, but my concern is the manner in which the Comptroller's Office. Assuming that they have complete discretion and authority to do this, how and what manner they would pay bills, and whose bills would they pay first? Would they take into consideration low-income communities, struggling community-based organizations, or would they be more inclined to pay

HOUSE OF REPRESENTATIVES

corporations that have resources even though they're owed money. But are they more inclined to pay... basically pay who... I think you understand what I'm getting at, Representative, and not that I'm disagreeing with the Resolution, but the Resolution really doesn't lay any particular rhyme or reason how those dollars should be expended, and therein lies my problem."

Beiser: "Right."

Davis, W.: "So... so..."

Beiser: "I understand. And Will, I think what... currently, even though we don't have a lump sum or a tremendous amount of money to go towards unpaid bills, unpaid bills are being paid as available monies are there. And we don't dictate nor do we try to dictate how those bills are paid when current monies are there. We're just saying that if that... a pot of money would happen to be in excess of what we've estimated, we're saying it's prudent to go to unpaid bills because those vendors and those programs have been waiting so long for payment. Currently, we don't dictate how they... when they get monies available and this Resolution does not attempt to do that either."

Davis, W.: "Well... well, not to belabor the point, well, then just let me ask..."

Beiser: "Yes."

Davis, W.: "...if not paying an unpaid bill, what would the Comptroller's Office be doing with the resources?"

Beiser: "No, they're paying the bills as they... as the money becomes available, and we're just saying that should this money... this is additional money, then they would have to

HOUSE OF REPRESENTATIVES

pay the unpaid bills first before anything else could be appropriated."

Davis, W.: "Okay, Representative. Thank you very much."

Beiser: "Certainly."

Speaker Lang: "Mr. Beiser to close."

Beiser: "I would simply ask this Body for an 'aye' vote. I think it's the right method to take when we have, if... should we have any excess monies over what we estimate. I think it's time, like we said, we start doing the conservative budget estimates which House Resolution 110 does, and this just furthers that... furthers that cause. And ask for an 'aye' vote."

Speaker Lang: "Members, this will be a recorded Roll Call. Those in favor of the Resolution shall vote 'yes'; those opposed 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Mell. Please take the record, Mr. Clerk. On this question, there are 114 voting 'yes', 0 voting 'no' and 2 voting 'present'. And the Resolution is adopted. Burke: "Thank you, Mr. Speaker, Ladies and Gentlemen. I rise on a point of personal privilege."

Speaker Lang: "State your point."

Burke: "Yesterday, during the debate on the House Bill 1965, I suggested to this Body that the Indiana Legislature had passed a Bill that would exempt casinos, VFWs, and nursing homes. I misspoke, Ladies and Gentlemen. The fact is, the House of Representatives of Indiana had passed that measure, not the full Legislature, so as the media has

Thapedi: "Is that the sole reason?"

Zalewski: "If you'd like another reason, it's my belief that the requested note, the correctional note, won't have any impact on the Bill, won't have any impact on the Department of Corrections, and in fact, may increase the revenue for the Department of Corrections through prosecution of criminal enterprises."

She later became a legal apprentice working in her husband's law office. Although she had the proper certificate of qualification issued by a lower court, the Illinois State Bar denied her access to the bar in 1869. In 1870 she filed a lawsuit that went all the way to the

United States Supreme Court. The justices ruled against her upholding Illinois's right to ban women from the State Bar. When Myra Bradwell was refused admission to the Bar, she never lost her passion for the law, righting an injustice of... or her entrepreneurial spirit. In 1868 she started the Chicago Legal News. In her weekly newspaper she wrote about Illinois state court decisions, session laws and legal reforms. Myra also reported on federal court decisions and legislative news. Her paper was a huge success and became the most widely read legal newspaper in the country. In 1869, Mrs. Bradwell passed the Illinois Bar Exam with honor. Although she never did practice law, she became actively involved in women's suffrage reforms, and actively raised funds to benefit Civil War soldiers, and their families. Speaker Lang: "Representative Chapa LaVia."

Chapa LaVia: "Yes. 1322 (sic-3022) makes several changes to the School Code. It was recommended by ISBE. There is quite a list of things on here. I'm willing to take some questions on it; it's pretty complicated."

Speaker Lang: "Lady moves for the passage of the Bill. And on that question... there being no debate, those in favor of the Bill should vote 'yes'; opposed 'no'. The voting is open. ideas and more jobs in Illinois. Be happy to answer any questions."

Clerk Bolin: "House Bill 1256, a Bill for an Act concerning State Government. Third Reading of this House Bill."

Speaker Lang: "Mr. Colvin."

Colvin: "Thank you, Mr. Speaker. I have for the House to consider House Bill 1256. And it simply amends the Department of Transportation. Law of the Civil Administrative Code, which creates the Diversity in Engineering Program. This is an IDOT initiative that is not exactly a new program. It's been going on for several years and it's funding stream has been through several different sources. This Bill simply deals with... first of all, let me give you a kind of... just a premise a little bit. This Bill is directly aimed at trying to deal with one of the real problems that IDOT in terms of attracting and retaining minority candidates to study both... to both study civil engineering and to make a commitment to work as civil engineers for the Illinois Department of

Transportation. Currently, in this country, it has been very difficult for IDOT and other departments of transportation around this country to attract these candidates due to more lucrative offers elsewhere. In turn, it has created kind of a disparity in terms of employment opportunities at the Department of Transportation, and Illinois is no different. The funding source for these dollars... the funding source for these dollars comes from the Federal Government. Now it's funded out of the Illinois Road Fund. It's funded out of the Illinois Road Fund, but the money comes from the Federal Government and acts pretty much as a pass-through. So as these scholarships are funded, those dollars are replaced by the Federal Government. So, there is no actual loss to road construction dollars. These are federal dollars, and if we simply don't use them, the dollars simply won't be appropriated for this purpose. So, with regard to its funding, it has no fiscal effect on actual road construction funds. We had to... we specifically and very clearly explained this in committee which the Bill moved out of. I'll be happy to answer any questions with regard to the program at this time, Mr. Speaker."

Speaker Lang: "The Gentleman moves for the passage of the Bill, and on that question, the Chair recognizes Representative Pritchard."

Pritchard: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

STATE OF ILLINOIS

Pritchard: "Representative, do you have any information about the diversity of the engineers at the Department of Transportation?"

Colvin: "Not here in front of me, but let me give you a real good general idea of what we're talking about. Here in the State of Illinois, we graduate a very small number of civil engineers who graduate from Illinois schools. Nationwide, the problem is pretty consistent. In Illinois alone, we graduate less than a hundred students and this is all minority students including women, all women of any race, of less than one hundred students. Most of these students get opportunities to work in other fields in civil engineering. In fact, I have a niece right now who is interning in Shanghai, China, as a civil engineer. So to help provide an incentive to attract students to come to work for the Illinois Department of Transportation, this program was crafted that these students would receive a grant of \$7500 for the five-year program that these programs typically are at state colleges and universities to help defray the cost of those engineering degrees with the understanding that they would make some commitment to study, to work as an employee of the Illinois Department of Transportation."

Pritchard: "So, though you don't have percentages, you would say that the percentage of minorities, including women, employed as engineers in the Department of Transportation is less than what their percentage would be of our population. Is that correct?"

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

Colvin: "It would be far less. I have served on the Appropriations Committee for Public Safety for eight years, and where IDOT comes and they lay out many of their programs and initiatives. One of the stark concerns, one of the things that really stand out with respect to diversity in their workforce is among the engineers is something we've been..."

Pritchard: "So the department has identified this though as an important initiative to..."

Colvin: "They have."

Pritchard: "...bring in the more balance their employees."

Colvin: "They have."

Pritchard: "And this would be for a scholarship amounting to how much money?"

Colvin: "Seventy-five hundred dollars per year. Most of the engineering programs that our state colleges and universities, or just at our universities, are typically five-year programs. It would provide a stipend of \$7500 to be applied..."

Pritchard: "And the student..."

Colvin: "...to defray the cost of those degrees."

Pritchard: "...that receives this then would be encumbering themselves to work for the department for the same number of years as they receive a scholarship. Is that correct?"

Colvin: "I'm not certain that it's the same number of years, but there is a requirement that they work for several years at Illinois Department of Transportation."

Pritchard: "So, I thought in committee that that's what was said, that they would work with the department for the same

number of years as they received the scholarship and that way we wouldn't necessarily be losing students that we've encouraged to become engineers to the private sector and to higher paying jobs."

Colvin: "As I look through my notes here, you're right. That's... that's the requirement."

Pritchard: "And... and just to restate again, this is coming out of the Road Fund, but because of this initiative, we would receive additional federal dollars to reimburse the Road Fund?"

Colvin: "That's correct. To... up to the number of scholarships that are actually offered, the Federal Government would reimburse the Road Fund for those dollars expended for these scholarships."

Pritchard: "Thank you."

Speaker Lang: "Mr. Eddy."

Eddy: "Thank you. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Eddy: "Representative, just to be completely clear on the issue as to where the money comes from and what the money could be used for, you said that IDOT is reimbursed from the Federal Government for the scholarship cost. And the way I look at the Bill, we're going from the awarding of one scholarship at \$7500 to awarding 20 scholarships at 7500, so the cost increase is 20 times what we now pay for it. So, does the money that gets reimbursed to IDOT from the Federal Government, could that be used in the Road Fund for other purposes if we weren't using it for scholarships? Is

it being diverted or is this money that can only be used this way and it's additional money?"

Colvin: "Well, that's an excellent question, and I think it's a question that really defines what this Bill does. To answer your questions specifically, no, it cannot. This is a program that was approved by the Federal Government for federal Road Fund dollars. Once it was approved, that any dollars they use to award these scholarships would be reimbursed by the Federal Government into the Road Fund. So, what the effect would be, there would be no construction dollars actually lost as a result of the award of these scholarship opportunities."

Eddy: "So this is additional money..."

Colvin: "This is additional money."

Eddy: "...that comes out of a separate pot that the Federal Government has established for the purposes of providing these scholarships, and it couldn't be used in any other manner anyway. We're getting in line for our share of it. How is... how does the Federal Government determine how much Illinois gets of this money?"

Colvin: "Well, it depends... well, there is a... at some point, they can award up to 20 per year. And assuming that they had individuals in all four classes, up to those five years, it would be a maximum of 100. So, the program in one calendar year, could never cost more than \$750 thousand. They have not ever reached that... that ceiling, but even if they did, it would be 100 percent reimbursable by the Federal Government."

Eddy: "All right. Final question then. If we pass this, is it subject to a specific appropriation for that purpose that would only come from federal funds and not general revenue?"

Colvin: "That is absolutely correct."

Eddy: "Okay. So, this is... this is subject to approp. We'll know later how much we get, but there will be no general revenue in this, only federal funds?"

Colvin: "There is no..."

Eddy: "Okay."

Colvin: "...general revenue fund, not now, not ever in the way the Bill is written, Sir."

Eddy: "Thank you."

Speaker Lang: "Mr. Reis."

Reis: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Reis: "Representative, will these students... will they be given a four-year scholarship or will they have to reapply each year..."

Colvin: "They have to..."

Reis: "...and prove themselves?"

Colvin: "...they have to reapply."

Reis: "Now, that's not in your Bill. And I bring this up because we passed a Bill a couple, three years ago for large animal veterinarians, and I think it went out unanimous, so I thank you for your support on that, but we spelled out in the statute the fact that they did have to reapply each year. We spelled out the fact that there were penalties if the student dropped out of college, say their

Colvin: "I think with the..."

Reis: "...kind of guide the rulemaking process after it leaves the General Assembly, should it become law."

Colvin: "I think what you're suggesting is... would be fair. I would ask for consideration on the Bill today..."

Reis: "Yeah."

Colvin: "...with the understanding that if we put those things in place, I think it would actually help IDOT reach their goal in terms of diversifying that workforce. So, I think your suggestions I think are well received by me, and I'd be willing to work with the Senate Sponsor and IDOT to make sure that we cross those t's and dot those i's as well."

Reis: "One last thing I'd like you to consider, and I think it's that way with most scholarship programs like this, is that it has a sunset date. So, it has to come back to the General Assembly and we can decide for ourselves if it's working good and if it's worthwhile. I think a lot of them last for 10 years, so you might consider that as well."

Colvin: "I couldn't hear the last part. Could you just restate it?"

Reis: "You might consider putting in a sunset date for the program so it has to come back to the General Assembly and we can evaluate if it's working good, if it's a good

program, it needs to be tweaked in any way. I think a lot of the scholarship programs that are already in state statute have a sunset date, so you might consider that in the Senate as well. Thank you."

Colvin: "Yes, Sir."

Speaker Lang: "Mr. Bost."

Bost: "Thank you, Mr. Speaker. To the Bill. I just want to let the people know that those of you that are reading the analysis and noticed the committee vote. The committee vote occurred because there was confusion over the fact of whether this was taking from the Road Fund. It does not take from the Road Fund. It's a pass-through. I think the Sponsor's done a good job explaining that, and I do stand in support of the Gentleman's Bill."

Speaker Lang: "Mr. Colvin to close."

Colvin: "Thank you, Mr. Speaker. I would simply encourage an 'aye' vote."

Clerk Bolin: "House Bill 3499, a Bill for an Act concerning criminal law. Third Reading of this House Bill."

Speaker Lang: "Mr. Harris."

Harris, D.: "Thank you, Mr. Speaker. As you know, when an individual applies for a Firearm Owner's Identification Card in Illinois, there is a waiting period. This Bill would eliminate the waiting period for an individual that has an order of protection pending. Most usually, the order of protection applies to a female. So, the Order of Protection would have to be in place. If that were the case, then the waiting period for the Firearm Owner's Identification Card would be waived."

Speaker Lang: "The Gentleman has moved for the passage the Bill, The Chair recognizes Representative Bost."

Bost: "Inquiry of the Chair."

Speaker Lang: "State your inquiry, Sir."

Speaker Lang: "I'm not sure we have any rules on that, but I don't know if we have a red jacket for the Gentleman today."

Harris, D.: "Well, Mr. Speaker, he is right. I am a retread, so my first Bill jacket would be a very faded red. So, that is the case.."

Speaker Lang: "Mr. Bost for a question."

Bost: "Just... just one question. What... if you remember, what was your first Bill?"

Harris, D.: "Representative, it was so long ago I can't remember."

Bost: "Okay, thanks."

Harris, D.: "All right. If..."

Speaker Lang: "Representative Will Davis."

Davis, W.: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Davis, W.: "So, this Bill eliminates the waiting period for anyone who wishes to purchase a firearm if they have a valid order of protection against someone else, correct?"

Harris, D.: "If they... that is correct. And I want to clarify what I said earlier. It's not just the Firearm Owner's Identification Card, you're right. It is the purchase of a firearm and it is for someone who has an order of protection, a valid order of protection in place."

Davis, W.: "What's... what's the purpose of having a wait period? Why do you have a wait period?"

Harris, D.: "Normally, it is a background check is conducted and just to make sure that..."

Davis, W.: "You want to make sure the person applying to receive a firearm does not have any issues in their background, correct?"

Harris, D.: "That is correct."

Davis, W.: "So, if you eliminate the wait period regardless of an order of protection because that's about, you know, protecting someone, so even if they have an issue in their background, that person could be issued an order of protection, correct?"

Harris, D.: "It is possible. Normally, the order of protection... before you get an order of protection, you usually have some sort of a review is given before that is issued."

Davis, W.: "Well... well, but that's specific to the issue between the two people where the judge determines that an order of protection is indeed warranted, correct?"

Harris, D.: "Correct."

Davis, W.: "So, if you eliminate that time, and the individual applying has an issue in their background, how do you reverse that? How do you... how do you... if that's the purpose of the wait period is to make that determination and you eliminate that wait period..."

Harris, D.: "It is possible that something like that could happen that an individual who was granted an order of protection could have a background like that. Oftentimes, that order of protection usually though covers that, that that person would not be granted an order of protection in a situation like that."

Davis, W.: "So you're saying, and someone who has an order of protection that someone had a background, who knows how long ago, whatever that background was, that that could impact someone's ability to receive an order of protection?"

So, if you had a male or female, and I don't know what type of background necessarily..."

Harris, D.: "I'm sorry. I was just corrected by staff. The background check is done by... when you get your FOID Card. That's when your background check is... is conducted. So, the person would have to have a FOID Card in order to get the firearm to begin with. So, the background check isn't conducted during the waiting period for the purchase of a firearm, it's conducted at the time of the FOID Card issuance."

Davis, W.: "What... so, then please, and I'm not a gun owner, so then what's the purpose of the wait period to begin with?"

Harris, D.: "That's a good question. Maybe we ought to do away with it, entirely."

Davis, W.: "Well, I think that's... in some respects you're trying to do. You know, obviously, just have some concerns which is why I asked the question about what exactly the wait period is for, you know, and I can understand why you would want to eliminate the wait period in that particular circumstance, but I guess, not that I could know or ever know or understand the mind set of an individual who has received an order of protection in terms of what that person has gone through, what have you. In some respects though, I think that wait period might still be not a bad thing to have, maybe shorten the wait period a little bit, but I mean, because again, just like my concerns about conceal and carry where you're introducing the possibility of having a gun or some type of weapon in certain circumstances. I think that's one of those circumstances

HOUSE OF REPRESENTATIVES

that we have to be concerned about because that individual could just simply react and unfortunately, may harm someone, maybe not the person that they have the order of protection against, but I just have some concerns, that's all. That's all."

Harris, D.: "And.. and I follow your.. I follow your logic. Oftentimes, a person who has been granted an order of protection really can be in danger very quickly.."

Davis, W.: "Absolutely."

Harris, G: "...after that order of protection is granted."

Davis, W.: "Absolutely. Thank you very much, Representative."

Speaker Lang: "Mr. Osterman."

Osterman: "Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Osterman: "So, as.. your answers to the previous speaker, and I just want to be clear. This deals with the waiting period but not the background check?"

Harris, D.: "No, I'm.. I initiatively misspoke. The background check takes place at the time of the issuance of the Firearms Owner's Identification Card. An individual has to have a valid Firearm Owner's Identification Card to purchase a firearm. When you purchase a firearm, there is a waiting period. That waiting period would be waived if the individual has a valid order of protection in place."

Osterman: "So, if I go to a gun store that has federally licensed dealer, there's a requirement or if I go to a gun show, there's a requirement of an instant criminal background check. And.. so this would not deal with that?"

Harris, D.: "No... no, this is if you purchase a firearm from a federally licensed firearm dealer."

Osterman: "Okay. So, what are the waiting periods right now for a firearm? What are the waiting periods you're trying to get rid of under the Bill?"

Harris, D.: "It's 72 hours."

Osterman: "Seventy-two hours for..."

Harris, D.: "The purchase of a firearm. The issuance of a Firearm Owner's Identification Card that comes whenever the State Police sends your Firearm Owner's Identification Card."

Osterman: "But isn't it 24 hours for a long gun or shotgun?"

Harris, D.: "Well, I was referring to a handgun, but that's correct."

Osterman: "But this would waive it for both?"

Harris, D.: "Right, that's correct."

Osterman: "Okay. But I guess here's the crux of my question though. The background checks would still be in place, and those background checks, most instances take a matter of minutes."

Harris, D.: "Generally, they're fairly fast, yes."

Osterman: "Okay. There are certain situations though that the State Police needs more time. So, there could be a David Harris that's got a warrant out for his arrest. He goes to buy a firearm and those could take a little bit longer, so what would happen in those situations? So you go into a gun store, you want to buy a firearm, and they proceed to do a background check. That background check because the State Police has to get additional information, takes

97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

longer than the two minutes that it usually takes. What will happen under your legislation?"

Harris, D.: "Well, if there is a valid order of protection in place, there is no waiting period whatsoever. If the valid order of protection is in place, the firearm can be purchased."

Osterman: "So, even if the background check is not completed?"

Harris, D.: "Again, I come back and say the background check would be completed at the time of issuance of the Firearm Owner's Identification Card which must be... which the individual must have before they purchase the firearm."

Osterman: "People get the FOID Card, they go through the background check. FOID Card's valid for, I believe, five years, could be longer, we may have..."

Harris, D.: "Right."

Osterman: "...lengthened that. There are people that in that time period then commit a crime, have an order of protection against them or something else, where they're suppose to relinquish their FOID Card. Many instances are out there where the FOID Card is not recovered, and that individual can still then go and buy a firearm. If they go to a gun store that's a federally licensed dealer, they conduct an instant criminal background check. That background check checks State Police databases and the federal databases, and would red flag someone who should not be buying a gun even if they have the FOID Card. And I've said before, that about 800 people a year have that situation. And what I'm... I guess I'm trying to get at, and this is a valid point and don't think I'm trying to trip

you up, I understand the intention of what you're trying to go at, but there's a gray area in your Bill."

Harris, D.: "If... and if... if the background check gets a hit, in other words it comes up hot, then that person could not purchase a firearm. It's the waiting period that would be waived, not the ability to purchase the firearm. If the background check comes up with a hit."

Osterman: "Okay. I understand what you're trying to do, and in an effort to try to keep the conversation going, I would ask that you would if you want to proceed with this, I'm not going to stop you or slow you down. You're going to look for a Senate Sponsor. What I'd like to do is to have State Police and others talk about this gray area with you and the Senate Sponsor, so that we're not creating a situation where someone runs in with an order of protection, gets a firearm, and in fact, maybe that individual shouldn't have one as well. So, I don't want to create another loophole and I don't think you want to do that as well. So, is that something you're amenable to?"

Harris, D.: "No, and very much so. And the State Police, be happy to work with them if it needs adjustment, I'd certainly be willing to do that."

Osterman: "Did they slip this in opposition or in support or neutral?"

Harris, D.: "They did not. As a matter of fact, the Bill came out of committee with no descending votes, and the do pass Motion was made by a person on your side of the aisle."

Osterman: "Which committee was that?"

Speaker Lang: "Gentleman will yield."

Franks: "Representative, I'm reading the Bill here, and I see right now there are a few exemptions for the waiting list. For instance, the sale of a firearm to a law enforcement officer, and also a mail order sale of a firearm to a nonresident of Illinois under which the firearm is mailed to a point outside the boundaries, and also the sale of a firearm to a nonresident of Illinois while in a firearm showing or a display. Correct? And there's also the last one would be to a dealer. That would be the four exemptions that we have right now to bypass the waiting period. Would you agree?"

Harris, D.: "That is correct. That is correct. This is the fifth exemption."

Franks: "This would be the fifth. Okay. That's... I wanted to make sure. Now, I heard your answers to Mr. Osterman's questions, previously, on the timing of the background check. And I guess... at the timing of... when they do the FOID Card, you're telling me that's when they do the background check to allow someone to get the FOID Card. Correct?"

Harris, D.: "Yes, Sir."

Franks: "Okay. Now, is there a second background check prior to the time that someone would be purchasing a firearm?"

Harris, D.: "Yes."

Franks: "So this Bill would exempt someone under an order of protection from the second background check?"

Harris, D.: "No."

Franks: "When would the second background check be done if there's no waiting period?"

Harris, D.: "The instant background check takes place..."

Franks: "Are... are we able to do that though? Do we have the ability to do an instant background check?"

Harris, D.: "It's... we're doing it now. That's the process and procedure that is in place now."

Franks: "For those four other exemptions?"

Harris, D.: "For everyone is my understanding, for everyone."

Franks: "But isn't there a backlog? 'Cause I know it takes forever to get FOID Cards from the State Police because they just... they don't seem to want to give them, but there seems to be a backlog of the FOID Cards. Are... so, are you telling me that that's no back... there's no backlog on the background checks?"

Harris, D.: "Well, when they... there's no backlog when they do the instant checking. It's either done or it isn't done. It's either completed or it isn't completed."

Franks: "My question is, if we add this exemption, would there still be the ability to do... will you still require that second background check to make sure that that person, since they got the FOID Card, is not a narcotic addict?"

Harris, D.: "Yes, Sir."

Franks: "That that person is not a felon."

Harris, D.: "Yes, Sir."

Harris, D.: "Yes, Sir. That... that... that..."

Franks: "So, we'd still have that procedural safeguard."

Harris, D.: "That second check is performed. That is correct."

Franks: "Thank you. I wanted to make sure that was clear."

Speaker Lang: "Representative Greg Harris."

Harris, G: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "He will yield."

Harris, G: "So, Representative Harris, also reading the legislation here, there are different categories of persons who are not allowed. I'm just trying to understand how this would work in real life. There are a number of categories of persons if you scroll to the top of the existing statute, persons who are not allowed to have a firearm in the State of Illinois including narcotic addicts, people who have been recently in mental institutions, et cetera. Do you see where I'm looking at the top of the statute there?"

Harris, D.: "Whatever the statute is, it... that remains unchanged."

Harris, G: "So, if a person who was in one of those classifications also had an order of protection, would they under this be able to automatically walk in and get a firearm?"

Harris, D.: "No."

Harris, G: "And how would the person selling the firearm know if they had recently been in a mental institution or were a narcotic addict?"

Harris, D.: "Because we have performed... at the time of the sale, they perform an instant background check."

Harris, G: "So that would be covered by the instant background check?"

Harris, D.: "Yes, Sir."

Harris, G: "Then, I'm not... I'm not a lawyer, so I don't know what form orders of protection usually take. Will the gun dealer... will it be upon the gun dealer, the retailers discretion to look at a legal document and determine that this is a valid order of protection or how would this work?"

Harris, D.: "Well, I don't know that the gun dealer has to... has to evaluate it. The individual who is applying for the purchase would have in his or her possession an order of protection which should be valid."

Harris, G: "And again, this is a question we come to in a lot of these things where we're asking lay people, such as myself or a person working in a retail store, to make a legal judgment based on the presentation of the document that someone may have in their possession who will come in and say, you know, my name is Greg Harris and I have an order of protection. How would they know this is legal and valid?"

Harris, D.: "It's... I suppose anyone could submit a... or try to submit any sort of false identification, but a court order of protection is a court document with a... with an official seal and stamp, and would be I think fairly difficult to duplicate."

Harris, G: "I... I understand your answer, I'm just very concerned as we talk about, you know, in the questions of medical marijuana, you know, the possible forgery of a doctor's prescription pad. You know, someone coming in and representing I have a court order. You know, the folks who tend to be the criminals always sort of find a way, and I... I worry about that, that we're asking people who work in a gun store... I certainly understand where you're going with this legislation and respect the intent, but I'm concerned with, are we asking workers in a retail establishment to make legal judgments that they may or may not be qualified to make."

Harris, D.: "My sense is that they are fairly well qualified. They have seen lots of documents, and if you've ever been in a firearms store, they are extremely, extremely cautious about selling firearms to anyone who would not be entitled to one. They thoroughly check identification when it is presented, and I would imagine that that order of protection would get a very thorough review."

Harris, G: "Did you give any thought to any other third party entities of validating or a database that they could check? Are... let me just ask the question. Are there databases that exist, they're accessible to the public, court orders of protection, that they could verify whether a document was, in fact, legitimate?"

Harris, D.: "I don't know. I don't know if there is. I would imagine that the... well, I don't know for a fact if the instant background check taps into those databases. I'm not sure."

Harris, G: "I mean, it would give me a lot of comfort if there was an independent verification that was outside of just a printed document, in this day and age of, you know, hi-tech printers and computers, that someone could check and say, is this a valid order of protection? Then this would seem to make a good deal of sense."

Harris, D.: "I follow what you're saying. Again, they look at those things very closely. They have to make a determination if it's valid. I'm sure if they chose, they could make a quick phone call to find that out because it is an official document from a court of the State of Illinois and they could track it down pretty quickly."

Harris, G: "All right. Thank you for answers, Representative."

Speaker Lang: "Representative Burns."

Burns: "Thank you, Speaker. Does the Sponsor yield?"

Speaker Lang: "Mr. Harris yields."

Burns: "Representative, I just have a question about the order of protection. My understanding is that a person can apply for an order of protection on an emergency basis and that the court will grant the order of protection without a hearing at the request of a victim that the order will be granted and that order is on the books for 30 days. Is that your understanding as well?"

Harris, D.: "Forgive me, I was distracted. Repeat the early part of your question again."

Burns: "Sure, certainly. My understanding is that an order of protection comes in two stages. There's an emergency order of protection and I don't know if that's in the statute or I'm just using the term colloquially, but my understanding

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

is that a person can apply for an order of protection and the court will grant that emergency order that stands for 30 days. Before the end of that 30-day period, there is a hearing where the court determines whether or not there needs to be a longer order of protection granted to the victim, and there's a hearing for that process. So, my question is, is that your understanding of the order of protection law as well?"

Harris, D.: "It is my understanding that the emergency order is granted only if the defendant cannot be brought into court at the time."

Burns: "Okay. Do you have a sense of how many orders of protection are granted on an emergency basis?"

Harris, D.: "I do not."

Burns: "Can you tell us... does your Bill anticipate that someone with an emergency order of protection would be able to secure a firearm without the waiting period?"

Harris, D.: "Well, the Bill right now would not differentiate between an emergency order of protection and a regular order of protection. And if that... if that... you bring up a valid point though. If the emergency order of protection is significantly different from a standing order of protection, then it would warrant... I would think the Bill would warrant an Amendment to reflect that."

Burns: "Okay. That is my understanding and you know, I think it would make sense maybe to take the Bill out of the record to amend the Bill so that you make an distinction between the emergency order of protection and the order of protection that's granted after a evidentiary hearing where

the court makes its determination on the order of protection based on the preponderance of the evidence."

Harris, D.: "I think... and Mr. Speaker, I think the questioner makes a valid point. I'd like to do that. And I would like to take it out for purposes of amending it later."

Speaker Lang: "Sponsor takes the Bill out of the record. The Chair recognizes Representative Sullivan. Mr. Sullivan wishes he... says he does not wish to speak. Members, please pay attention. Most of the Bills on the Calendar are on Short Debate. The Chair is going to try to limit these Bills to Short Debate because we all have any number of Bills we'd like to pass in the next couple of weeks. If anyone wishes to remove a Bill from Short Debate, of course you can, but let's remember the rules of Short Debate. A two minute presentation by the principal Sponsor, two minute presentation by someone in response and a one minute closing. If anyone wants to remove a Bill from Short Debate as we go, we can do that. The next Bill on the Calendar is House Bill 1726, Representative Farnham. This Bill is on Standard Debate. Mr. Farnham. Please read the Bill."

Clerk Bolin: "House Bill 1726, a Bill for an Act concerning public employee benefits."

Speaker Lang: "Mr. Farnham."

date from participating in the General Assembly Retirement System. These new participants shall participate in the State Employees Retirement System. Speaker Lang: "The Gentleman has moved for the passage of the Bill. And on that question, the Chair recognizes Representative Winters."

Winters: "Thank you... Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Winters: "Representative, we discussed this in committee, and I had one question whether or not this deals with any of the future accrued benefits of current Members of the General Assembly or is this only for new Members?"

Farnham: "Only for new Members."

Winters: "So, a current Member who runs and wins another race would continue to accrue additional benefits for... there's no limit. They could stay here another 20 years, continue to rack up additional benefits?"

Farnham: "That is correct."

Winters: "I... as I mentioned in committee, the Winnebago County Board just passed a Resolution that would have the effect of eliminating any pensions for new county board members, but they also, I believe, stopped the current members from having any additional accrual. And I wonder if you would support such a Bill?"

Farnham: "Well, you know, I have the same concerns as you do as far as our existing Members, but this is an attempt to make

progress on this without creating a huge constitutional... you know, the costs associated with that, and this is clearly constitutional."

Winters: "I understand the argument that you're taking a very small bite of the apple at this point and taking what is... again, nobody who would be affected by this at this point knows they would be affected because nobody has put together a campaign or filed papers to run for the office. This is kind of low-hanging fruit, I support it. I think it was an important first step. I hope that we can expand on this, and deal with current Members of the General Assembly as well when that Bill... if it ever makes it out of the committee. Mine did not last week, but I think this is an important issue for this General Assembly to face because the real savings to our pension system is not with this Bill. The real savings is over the next 20 years is for current Members and their additional accrual of benefits. So, I do support the Bill, but hope that we can... I'm trying to highlight the fact that we have to make some very difficult decisions. This is a first step, but I applaud you for it, but I think we need to go much further. Thank you very much."

Speaker Lang: "Mr. Tryon."

Tryon: "Thank you, Mr. Speaker. Will the Sponsor yield."

Speaker Lang: "Sponsor yields."

Tryon: "Representative Farnham, the question I have, was there... when you put this Bill together, did you look at any fiscal impact to the pension system, and what would happen actuarially if there were no new Members paying into this

system over the next 20 years, and what might we see with the pension system if the current funds were to be drained? I mean, was there any that discussion?"

Farnham: "Elimination of GARS for new Members would save \$340 million by 2045."

Tryon: "Okay. But what about... I mean, part of the actuarial calculation of the Members that are currently in GARS is based upon some contribution be made by Members coming into this system as well. So, I mean, that's what I'm talking about. You know, the pension system is suppose to go broke some say at 2018, so it's going to move it to 2015 or is this going to have an impact on when the fund goes insolvent?"

Farnham: "Yeah. And I think the answer is, is between now and 2020, you would lose some money but you would make that back plus after that."

Tryon: "So, you're saying there's no negative impact on the financial integrity of the pension system by eliminating the new Members and putting them into a different system?"

Farnham: "From now until 2020, there would be some fiscal impact, but after that, it would be a positive impact."

Tryon: "So, by doing this, we're not bankrupting the pension system?"

Farnham: "No."

Tryon: "Okay. No further questions."

Speaker Lang: "Mr. Eddy."

Eddy: "Thank you. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Eddy: "Representative, what are the significant differences in benefits between a Tier 2 General Assembly Retirement System current and someone in the future after the effective date of this Bill that would go into SERS on Tier 2?"

Farnham: "On the... on the summary, there are five bullet points which point out the differences between the GARS and the SERS: the vesting, benefit formula, maximum annuities, cost of living adjustment, and maximum pensionable salary growth."

Eddy: "So, in Tier 2, I think, General Assembly Retirement System was switched to a 60 percent max, correct?"

Farnham: "Yes."

Eddy: "So, if you switch to the future, Members to go to SERS, what's the maximum in SERS?"

Farnham: "It would be 75 percent, but it would take 44 years for a Member to reach that point, and the... it would take 35 years to get to 60 percent. And with the benefit formula it would... for the GARS, the formula is 3 percent for each year and with SERS it's 1.67 percent."

Eddy: "So, I think to Representative Tryon's point, the calculation of the liability to the pension systems should be the bottom line here. Is there an increase in the liability to the pension systems, the five systems, by switching these individuals in the future from GARS to SERS because of the difference in the 60 percent max compared to the 75 percent max, even considering the number of years?"

Farnham: "Yeah, that hit to SERS would be very minimal."

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES

32nd Legislative Day

3/30/2011

Eddy: "So the answer is, yes, it's an additional liability to the five systems or this diminishes the liability?"

Farnham: "In the long run it will reduce the liability."

Eddy: "Define long run. You said 2020 earlier, the year 2020. How long will it take for... and over the period of the current schedule of the liability of the system, do we reach it in that time period? What's the long-term?"

Farnham: "After 2020, it becomes a positive to the funds. So, going forward, you would make up any difference that you had between now and 2020, and you would have, you know, a benefit from that."

Eddy: "What's your intention? Why do you want to do this? Because there must be some improvement or do you want to diminish the benefits because, I guess, in one area you're enhancing the benefit to a maximum. What's your purpose?"

Farnham: "Because the GARS benefits are much more generous than the SERS benefits and I think that as public servants that we should be on the same level playing field with the rest of the state employees."

Eddy: "But I think based on Tier 2 they are except for the fact that there's a 75 percent max in SERS and there's a 60 percent max in GARS. So, what other benefits do you think in Tier 2 that you are diminishing that are greater right now in GARS, specifically? "

Farnham: "Diminishing, did you say?"

Eddy: "Well, you said we shouldn't have any benefits that are greater than the ones in the other system, right? Which specific benefits in Tier 2, because we changed that, are now enhanced over SERS?"

Farnham: "Your benefit formula, your COLA are different, years to vest are different. And the 75 percent, who is going to reach that level? It's probably only been one or two that have ever reached that level."

Speaker Lang: "Mr. Eddy, can you bring your remarks to a close, Sir."

Eddy: "Yeah. I just want to make sure we're clear. I think that my confusion might be with the Bill that we passed that would change some of those that, for example, a 3 percent or half a CPI without compounding, but at this point, that hasn't taken place because that Bill isn't completely through the Senate and hasn't been signed. Is that why you're saying that the enhancements are different?"

Farnham: "I know there's a Bill out there that would do that, but it isn't law yet and this would address that."

Eddy: "Thank you, Representative. I think this is a tricky one because there are... or there can be the perception that are enhancements because of the difference. I think you've explained it pretty well though, that that 75 percent takes a number of years, but I think the other Bill that brings all of the Tier 2 in line for GARS, is something that was... that got a lot of support and may be... may be a way to fix this rather than to force those people into that, but I'll listen to anymore debate. Thank you for your answers."

Poe: "Representative, can you... can you just elaborate a little bit on that. You said there's only one or two ever draw the maximum 75 percent. Who was you talking about, Legislators or state employees?"

Farnham: "I'm talking about Legislators. And I don't have any facts to back that up, but 44 years of service."

Poe: "Well, hold on, I guess I represent mostly state employees or if I have more than anybody, and I can tell you that there's a lot of state employees who reached that 75 percent over the last few years. Is... is judges also.. are you doing the same to judges as you are to Legislators?"

Farnham: "No, this does not affect judges."

Poe: "So, then you're creating another discrepancy amongst the pension systems, right?"

Farnham: "What I'm trying to do is address the Legislature and Legislators and getting them more in line with what the rest of the state employee are."

Poe: "So, you're assuming we're going to start getting twenty.. in my district, for example, there's a lot of 20-year-olds go to work for the State of Illinois and work until they're 60-65. So, you're assuming now that we're going to start changing the makeup of this Body and we'll start getting twenty and 21-year olds in?"

Farnham: "I'm not assuming that."

Poe: "What about... is there anything in your Bill that would make it voluntary so that if the Sponsor wanted to be the first one to volunteer for this program, that you could do that?"

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

Farnham: "You know, that is an approach to get around the constitutional issue, and it's something that as Representative Tryon stated or the other Representative that we should look at in the future, but this is an attempt to make a change now to bring us more in line."

Poe: "I think... I think there's a lot of thought went into the Bill that we passed on the Tier 2. First of all, it was 60 percent and one of the major differences was the percentage of cost of living. I think if you want to look... that was a trade-off when they went... and went to that for the cost of living was a trade-off from the 60 percent to 75 percent. Here the ink's not even got dry on a program. We got a lot of new Legislators in here, and we continually try to change things. I don't think anyone in this Body runs for the pension. But once you're here, I think if someone's here 10-15 years, they got to stop and consider, and if they especially give up their other job, they give up selling real estate, they give up being on a fire department, some of those kind of things, this becomes their main focus for their retirement. And I think what happens is these kind of Bills are going to create people wanting to leave the General Assembly earlier, and then I think we lose that institutional knowledge. And I think it's something that you... we really need to consider when we start passing these kind of Bills because I... I really believe the intent is fine, but... and I also believe none runs for office when they first get here. But like I said, after 10 years you give up your job, you're going to start looking around and saying, you know what, we ain't going to

be able to retire on this, we're going to move on, and I think you lose a lot of value that some... some older Members can always come up and tell you some things that's happened. So, I think that we ought to take a look at this before we keep passing Bills and water down those pension systems. Thank you."

Speaker Lang: "Representative McCarthy."

McCarthy: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

McCarthy: "Representative, the... I didn't like opposing your Bill in committee and I don't like opposing it on the floor, but as I said in committee, I mean... and I think Representative Poe spoke about this, last year the changes we made to the General Assembly Retirement System and the Judges' Retirement System were by far the most dramatic as far as reducing benefits to the new Members after January 1 of this year. So, now on this Bill here, SERS has some Members that are under Social Security and they have some Members who are not under Social Security. Does your Bill stipulate whether the new Members of GARS would fall into the SERS with Social Security or the SERS without Social Security?"

Farnham: "It does not spell that out specifically."

McCarthy: "Do you have any intention that maybe you'd share with the Senate Sponsor as to which way you would ask the system to be inclined to go? 'Cause the payment that we would have to put in for these individual Members would be greatly increased if they... we put them in the Social Security system. Not only would there be a matching thing

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

from SERS, but there would also be the 7.65 percent for Social Security. So whether the state would save any money is highly doubtful."

Farnham: "Well, we don't collect Social Security."

McCarthy: "We don't what? Yeah, but this is a new game. This is not 'we': this doesn't affect 'we'."

Farnham: "Right."

McCarthy: "We're talking about the new people..."

Farnham: "New Legislators don't pay..."

McCarthy: "...so, your intent... your intent is that they would be Members of SERS that are also part of Social Security or is your intent the opposite?"

Farnham: "Could you repeat the question, please?"

McCarthy: "I'm saying, SERS has some employees that when they're hired they're told that they're going to be in SERS but also in Social Security. So, we have to make... they have to make the Member contribution to Social Security and the state has to make their matching one. SERS has other Members who are not in Social Security, they make a higher pension payment in that case. So, you're saying that the Members... the new Members of the General Assembly will be in the SERS System, but you don't seem to have an inclination one way or the other whether they'll be in the SERS with Social Security or SERS without Social Security, and there is a big cost difference to the state and it's an immediate cost difference that we can't fool around with by changing actuarial formulas and things."

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

Farnham: "I guess... why would the SERS put them into the Social Security category where we don't pay Social Security as Legislators?"

McCarthy: "We don't, but we're not in SERS. GARS made the decision. GARS is a pension plan that does not participate in Social Security and we have certain rules we have to abide by because of that. There are areas of SERS that abide by those rules and the people do not get Social Security benefits and then there's areas of SERS where people do. So, well, that change can maybe be made in the Senate or something, but that's a very, very, important decision that would affect the contribution that the state has to make and they have no choice in this, they have to make that right away if they go into Social Security. We can't play games with that and say we're going to make less of a contribution that is mandated by Federal Law. So, I have no more questions for the Sponsor, but I just would urge the Body to be very suspect. We did a good job last year going... changing the system so the Judges' Retirement System and the General Assembly Retirement System. I know there's a big thing out there in the public, let's go after them, let's reduce it again. We've had Bills in committee where we're going to completely abolish the General Assembly Retirement System. This Bill did get out 5 to 4, the minimum number of votes needed to go out, but please don't be afraid of voting against the Bill. I think that there's a lot of decisions that haven't been made yet. The questions that Representative Tryon asked... As a Member of the General Assembly Retirement System Board, I know that

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

the board was not approached. I know that the executive director was not approached to answer those questions as to the overall cost. Also, the overall fundamental, you know, existence of the program as we go forward with no one making contributions into the system after a certain point. So, I think that this is, you know, while I think the intentions were good, I think this is too much of step forward. We're working as a comprehensive group. There's Members assigned from every caucus of the General Assembly that have been meeting, myself and Mr. Schmitz has been meeting with Members in the Senate and other groups. We're looking at comprehensive reform. I don't think we need to go forward with something like this. It might feel good and might look good on a brochure, but in the long-term it's not the right answer to solve any of our problems with the pension liability. And if you're talking about the 80 billion pension liability that the state's five systems currently has, this would be like a drop of water in the ocean as far as making any dent in that liability whatsoever. We need to concentrate on what the real target should be: comprehensive reform to all the systems so we can continue their viability into the far future. That's what we need to be working on. I would urge everyone in the chamber to vote 'no' or 'present' on this initiative."

Speaker Lang: "Last speaker will be Representative Nekritz."

Nekritz: "Thank you, Mr. Speaker. Will the Sponsor yield?"

end a system this way under the Government Accounting Standards Board requirements, will we have to pay more into the system in early years because it... it's my understanding from the National Conference of State Legislators that when... under the GASB standard, when a pension system is ended, that the unfunded liability is frontloaded in the payments, and so other states have looked at this and said, well, we don't want to go to a 401(k) or we don't want to end the system because it's going to require us to pay 50, 60, 70 percent more in the early years. Did you get that information?"

Farnham: "We will have to make up more contribution in the early year... between now and 2020."

Nekritz: "So do we know... just for example, in fiscal year 2012 how much more we're going to have to pay in?"

Farnham: "It'll be about \$40 million more between now and 2020."

Nekritz: "And is that... is that coming from the retirement system and their calculations under the GASB standards?"

Farnham: "Tim Blair did a study, actuarial study on this, and that's about the number that they came up with through 2020."

Nekritz: "Okay. I understand that the system has done that, I just am trying to clarify the question I asked in committee and which in committee, you told me you would get that information trying to clarify, are those... is that the number under the GASB standards?"

Farnham: "I have not heard that from Tim Blair yet on that."

Nekritz: "So, Representative, I think you made a commitment in committee that we would get that information so that we would know. I am not opposed to the Bill, but I think that we, as a Body, are entitled to know what our financial obligation and what our fiscal obligation is going to be in fiscal years 2012 and 2013 when we're already having to make significant cuts. Are we going to have to make more cuts because of these additional... because of this additional requirement? And I think that that's something that needs to go into the calculation as to how Members vote. So, I would ask you if we can take the Bill out of the record until we can get that information on what GASB requires us to do."

Farnham: "And in respect, I will pull it."

Nekritz: "Great. I appreciate it. Thank you."

Speaker Lang: "The Gentleman takes the Bill out of the record. Mr. Dunkin, do you still wish to speak, Sir? Gentleman indicates he does not wish to speak. The next Bill on the Calendar is House Bill 3186, Representative Ford. This Bill is on the Order of Short Debate. There will be one speaker on the opposite side. Mr. Clerk, please read the Bill."

Clerk Bolin: "House Bill 3186, a Bill for an Act concerning State Government. Third Reading of this House Bill."

Speaker Lang: "Mr. Ford."

Ford: "Thank you, Mr. Speaker and Members of the House. House Bill 3186 would require the state to set goals or at least a goal that 10 percent of the state contracts in Illinois are awarded to small businesses, and require the state to

offer these small businesses contracts in the State of Illinois. It's only a goal; it's not a requirement. I don't think we could force the state to do anything in this Bill."

Speaker Lang: "Gentleman's moved for the passage of the Bill. And on that question, the Chair recognizes Representative Eddy for two minutes."

Eddy: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Eddy: "Representative, the original version of this Bill was quite different. There was a requirement, is that correct?"

Ford: "There was a requirement that CMS would be responsible."

Eddy: "So, the original version required it and this makes it a goal?"

Ford: "A goal."

Eddy: "So, there's no mandate whatsoever. They will try to do this, but we don't have that mandate. I just wanted to point that out because there was that opposition, you did amend the Bill to remove that, and that's appreciated. And it would be obviously a goal to try and provide those contracts. We thank you for that, and appreciate the answer."

Ford: "Thank you very much."

House Bill 195 in respect to township directors, would provide that a conviction in any court in the State of Illinois or in the U.S. Court for an infamous crime shall constitute a resignation from that office. Currently, felons are barred from holding municipal or village offices and this would just comply and make sure they couldn't hold the township official position. I'd be happy to answer any questions."

Rose: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Rose: "Representative McAuliffe, you're saying.. what is your definition of an infamous crime?"

McAuliffe: "There may be a list: I'm not sure. I thought it was extortion, murder, theft, forgery. I think those are some of them. I'm not sure if I'm missing any others."

Rose: "Well, and I appreciate what you're trying to do here, but one of the guys that I represent is someone that did something stupid when they were a young individual. Twenty years later they, you know, been a model citizen, volunteer fireman, family, you know, they're older and has been separately elected by the people with the people being aware of the past situation, and the people elected them anyway. So, why would we overrule... I mean, if the people want to elect somebody with that information, they can elect someone with that information."

McAuliffe: "I think in the Amendment that we put in, there were some felonies like you're saying maybe a drunk driving offense, that would procure maybe like a shoplifting thing, if it was something like that, that would... the Amendment put it so it wasn't every single felony, but like a felony of a infamous crime again, murder, rape, forgery, extortion, things of that nature."

Rose: "Well, I'm..."

Speaker Lang: "Mr. Rose, Mr. Rose, please bring your comments to a close, Sir."

Rose: "Thank you, Mr. Speaker. Representative, I'm looking at the Amendment and I don't see a definition of infamous crime that says what those are, and... Representative, I would... I would personally appreciate it if we could figure out what that is just to make sure we're not..."

Clerk Mahoney: "House Bill 144, a Bill for an Act concerning public employee benefits. Third Reading."

Speaker Lang: "Mr. Franks."

Franks: "Thank you. I apologize. What this Bill does, is to allow a municipality to dissolve a downstate police pension fund or downstate firefighters' pension fund if an independent auditor certifies that the fund has no liabilities, participants, and beneficiaries. This was brought to me by the Harvard, Illinois Fire Department asking us to do this 'cause there's no way right now for a fire department to be able to dissolve their pension fund. I'd be happy to answer any questions."

Eddy: "Then I understand that and I don't dispute the idea, you have to be able to dissolve those funds for audit purposes, but I'm wondering where the money goes and was this a levy that created the fund..."

Franks: "Yes."

Eddy: "...and why... I mean, is it abated back to the taxpayer or does it go in a general fund?"

Franks: "That's assuming that there are funds. Oftentimes, there's very little, if any. I'm not sure of that answer right now."

Eddy: "Okay. Well, if I could check into that, and if this needs to be tightened up to direct those funds, especially if they were funds that were established by levy, some mechanism to abate those or if they were not, some way the process of putting it into a general fund or however that works out. I'd like to know."

Franks: "I'll work with the Senate Sponsor if necessary on that."

Speaker Lang: "This Bill is on the Order of Short Debate. Representative Gordon."

Gordon, J.: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. This legislation amends the School Code to restructure the Textbook Loan Program. Current law provides that the state board shall provide the loan of secular textbooks free of charge to any public or nonpublic school student. Due to the fiscal conditions of the State of Illinois, the Illinois Textbook Loan Program was not funded in FY9, '10 or '11. This Bill would not force the state to fund this program, it merely reduces the amount of bureaucracy in the event that the state does fund this line item in the future. ISBE ask actually.. just me to give you some background. ISBE does the actual purchasing as well as the vouchering of the funds to vendors after they have received confirmation from the school districts and the schools that they have received all the materials that they have purchased. What this legislation purposes to do is to remove ISBE's involvement with the purchasing of and payments for the textbooks and the related materials. Under this proposal, any future funds for the Illinois Textbook Loan Program would be distributed to the eligible

entities on a per pupil basis for the purchase of textbooks and related materials, very similar to the process for the distribution of the ADA block grant. Districts and schools would then be able to order their materials directly. Restructuring this program will save the State of Illinois money. Currently, the state pays vendors directly. Because payments are usually delayed, the state incurs prompt payment fees from those vendors. By paying the districts directly, the state can avoid the prompt payment fees. The state has incurred over \$1.5 million in the last fiscal year in prompt payment interest penalties. This legislation did pass the House Education Committee unanimously, and I am open to any questions, but I ask for your favorable vote today."

Nybo: "Mr. Speaker, this is a noncontroversial Amendment to the Notary Public Act, and basically what it does is it expands an existing exemption exception to the statute to add a trust company within the meaning of 'financial institution'. But since I'm sure we're all well versed with the specifics of the legislation, I will keep my explanation brief; however, I am open to any questions the Members may have. But I know we are very busy today, so if we want to keep it on Short Debate, I'm more than amenable to doing so."

desire to make what appears to be a very, very nonimportant, almost worthless change to that?"

Nybo: "Representative Eddy, I wouldn't call it nonimportant or worthless."

Eddy: "Well, of course you wouldn't, it's your Bill, but..."

Nybo: "This is an initiative of North Star Trust Company who's one of the companies that would benefit from this exception. It's a provision of the Notary Public Act that requires people conveying property in Cook County to create a notarial record. And what this does is... the Bill allows financial institutions to store the notarial records on the premises of their business as opposed to... if you're not a financial institution, you have to file it with the Cook County Recorder of Deeds. So what this does, it's just expanding the definition of 'financial institution' to include trust companies. So this is a cost-saving measure. It'll make it easier for trust companies to preserve those records on-site on their own premises. And you know, it's not controversial, it's not the most important piece of legislation, but it is something that's helpful and an exception that's warranted."

Eddy: "So, basically what you're trying to do is change the definition of a 'financial institution' to include trust companies. Now, that's for the purposes of notary only?"

Nybo: "It's for the purposes of creating and preserving and storing the notarial record which is set out in statute."

Eddy: "But you're not trying... I don't see anything in the Bill that requires a trust company to have a drive-through window."

Why haven't you gone a little deeper here and tried to change the definition of a 'financial institution' so that a trust company would also have to... just besides notaries, that's nothing. Think about what trust companies could do for us if they were full-fledged financial institutions."

Nybo: "With all due respect, Representative, if you read the Bill and you read the proposal, I don't think there's any confusion created by the proposal."

Eddy: "Pardon me?"

Nybo: "I don't think there's any confusion created by the proposal, Representative."

Eddy: "Well, it doesn't seem to go very far. It seems to me that if we're going to do something substantial and we're going to change the definition of a 'financial institution' to include a trust company, that we would also include that that trust company perform other duties that would also align with what the common definition of a 'financial institution' is."

Nybo: "Representative, if you want to propose that next Session, I'd certainly give it some consideration and support..."

Mayfield: "Excuse me, Representative, does this mean that if snow is piled in front of my driveway, that I cannot then shovel that snow into the street to remove it from my driveway so I can get my car out?"

Jones: "Yes, Representative."

Mayfield: "Where would I put the snow that is blocking my driveway because this is happening to everyone in this room?"

Jones: "Thank you, Representative. You can take that snow and have Members, I can come to your house and help and we'll pile it on the side for you."

Mayfield: "No, I'm serious. Where can I place this snow? It's piled in front of my driveway. We all know the plow trucks go through and they pile these big banks of snow right at the end of your driveway, and you're saying that I cannot push it back out into the street along the curb. Where does that snow go? Because there are no repositories for snow."

Jones: "According to this Bill, Representative, you would have to take that snow and throw it on the side or take that snow and throw it like closer to the sidewalk."

Mayfield: "You just said that I couldn't put it there."

Jones: "You can dump it in the lawn, that's not a petty offense. Because this Bill says if you dump it in the public street it is a petty offense."

Mayfield: "Is there liability should I hurt myself moving this snow 20... you know, snow is heavy, and you're wanting me to pick up all this snow that's been piled in front of my driveway, carry it 10-20 feet to an undesignated location with the risk of harming myself. Is that correct, Representative?"

Jones: "Yes, Representative. And this Bill doesn't come with Excedrin and you can't get, if you hurt your back you can't get aspirin or anything to cure your pain. So, I'm sorry."

Mayfield: "Is lia... what about workers' comp? Is there a form of workers' comp where something that I can apply for as a result of hurting myself because of your Bill?"

Jones: "No, Representative, it's not... you can't apply for workers' comp."

Mayfield: "So, there's just no remedy for me at all. I'm to hurt myself so that there is no snow in the middle of the street. Is that correct?"

That's what you can do right now. By the way, I can't believe you don't have a red jacket on and you think you're going to pass this Bill."

Jones: "Representative..."

I'm not sure that'll do, but there's a lot of red in here today, you might be able to get somebody to help you out, it might be a little tight fit, but there's probably a red jacket in here that would fit you. But get back to this idea that there's snow in my driveway and I am going to remove that back into the street. The guy that put that snow in my driveway was the guy on the street. And now, all I'm doing is returning the favor and you're going to pass a law that says I can't be... I can't return the favor."

Jones: "I'm sorry, Representative, I know the people with long driveways don't like this Bill, but people with short driveways love this Bill. Is that correct? It's the opposite way. I'm sorry, Representative."

Eddy: "Well, but... All right. Let me see. They way the Bill reads now though, it looks like if I take the snow directly from the driveway portion and I put it on the sidewalk for a period of time, even if it's for one second, then it's okay to put the snow back on the street because you only excluded driveways."

Jones: "Technically you're correct, but this Bill..."

Eddy: "It's a loophole."

Jones: "It is a loophole and we'll look at..."

Eddy: "Giant loophole."

Jones: "I voted 'yes' on that Bill."

Eddy: "Okay. So let me ask you this question. What if the truck that plowed the snow into the driveway hit a fur-bearing mammal and that fur-bearing mammal was among the snow that was in my driveway. Am I allowed first to... if I have a permit and it's in fur-bearing mammal season, to then take that fur-bearing mammal and does that affect the disposition of the snow?"

Jones: "Only if you had a FOID Card with the snow plow and the Caterpillar driveway. Yeah, only..."

Eddy: "Well, but I think the Bill yesterday allowed someone other than the driver of the vehicle to actually harvest the fur-bearing manamal... or mammal carcass."

Jones: "Yes."

Eddy: "Is that true?"

Jones: "Yes, that's true."

Eddy: "So, does your Bill do anything to undo the public policy that we passed yesterday? Does it do anything to mess with that because that was important?"

Mathias: "Thank you, Mr. Speaker. So, Mr. Representative... just so I understand, Representative Jones, and I think Representative Eddy has hit on a major flaw in this Bill. So, if... would you... would you be willing to amend your Bill to say that the city can't plow the snow onto... onto our driveways?"

Jones: "No, Representative. I wouldn't... I'd be happy to look at it down the road and try to come up with other ways, but no, I wouldn't want to amend it."

Mathias: "So... so, you think it's fair that we can't push the snow on to the street after the trucks from the city pushed it on to our driveway? We're just giving back their snow."

Jones: "I... you know, Representative, there's a lot of things in life that's not fair and I... I mean, I would love to have support on this Bill."

Mathias: "And could you elaborate, what's the penalty if we do push the snow on to the street?"

Jones: "There's a petty offense which could include a \$50 fine or community service."

the snow from my front lawn on to the street, would that be okay?"

Jones: "Only if you have a FOIA (Sic-FOID) Card and they have a scanner to check to see if you're doing it."

Mathias: "Okay. Well, in my district, according to the Capitol Fax, I shouldn't be dealing with those issues. Anyway, so, you are saying it is okay for me to push snow from my front lawn, which probably holds a lot more snow than my driveway, on to the street?"

Jones: "Yeah, cause it would mean lesser snow that you've taken from the sidewalk and throwing into the street."

Mathias: "Okay. So... and if I get stopped, I will mention that you said it was okay."

Jones: "No, please don't."

Mathias: "And do you play sports? I mean, I noticed you're... isn't there a rule about wearing hats in this chamber? I don't know. I just..."

So, Mr. Jones, let me ask you, what does your Bill do with regard to dibs?"

Jones: "This Bill only applies to public highways, Representative."

Colvin: "Okay. No, what I'm asking you, do you understand what the dibs provision is in a Bill? As my colleague..."

Jones: "Yes."

Colvin: "...Representative Cam... just pointed out, and you're a suburban guy, so you may not understand what dibs is in the City of Chicago. In the City of Chicago, dibs during a snow storm is very important. Dibs on parking is a very, very critical issue. Now I see this Bill also applies to the City of Chicago. and I put my two kitchen chairs out there with a two-by-four, I want to know is there's any provision in your Bill that would prohibit me from having dibs on my parking space?"

Jones: "Well, it doesn't apply unless they're trying to cover up a public parking space, and I do know what dibs are. Dibs..."

Colvin: "Well, you know, in front of my house, that's a... that's a... that's a street, it's... anyone can use it. That parking space, I don't have a deed or a lease to it, but I park there. So, I'm actually taking a piece of city property and I'm putting my kitchen chairs out there or one of those safety cones or a two-by-four or piece of lawn furniture to protect that spot. I want it... I'm simply asking you, does your Bill ensure that my two kitchen chairs would be safe or would I have to go to Aaron's Furniture to replace them every time there's a snow storm?"

Jones: "Yes, because it's only a public highway. So, in reference to like 87th and Stony Island, nobody that lives close to 87th and Stony Island can take it and dump it on Stony Island which is a public highway."

Colvin: "Well, there are people who own homes on Stony Island, I admit there's not a lot, but there are people who have residential properties. And so, are you saying that if they put their kitchen chairs out on Stony Island to protect their parking space that this is going to be an issue?"

Franks: "To the Bill. I know we usually make fun on these, but I'm not going to address the Sponsor. I want to address the Bill because I think this is a matter of public policy that we should not change, and I'm being very serious. I'm going to encourage a 'no' vote here because I think this would really encroach on citizens' rights and property rights. Because what the Sponsor is trying to do is taking away the exemption for one to push snow out of their own residential driveway. It would still allow a sidewalk, but I read the Bill and it only says drive.. initially said driveway or sidewalk and think of the ramifications of how we're going to have much more potentially big brother. Because what they're saying.. what this Bill would now disallow.. this Bill would not allow you to push the snow out of your driveway. You might think it's a joke because it's a first Bill, folks, it isn't. People are going to get fined for this. This is going to be a money generator for counties, townships, municipalities. This is not a thing of public policy that we ought change. What we ought to do is vote 'no' on this and we can have fun on another first Bill, but this is one we ought to take seriously because the ramifications for policy are to great to kid around. Clerk Mahoney: "House Bill 1071, a Bill for an Act concerning education. Third Reading."

Speaker Lang: "Representative Pihos."

Pihos: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. This Bill has to do with the current floor that we have set for the driver's education courses. Every year we approve numerous waivers because our school districts are not able to offer the driver's education courses at the \$50 floor that we have had set for many, many years. Currently, we have 155 school districts out of 480 that are mandated to give driver's education courses to which we give waivers to out to the year 2016, the waivers vary from \$75 to \$500. We have 19 new school districts in the pipeline, bringing it up to 174. So, we're already exempting 37 percent of our districts and giving them permission to have the ability to charge a different amount should they need to do that. And so what this Bill would do is bring the floor more in alignment to what 177... 174, I'm sorry, school districts will be charging or have the ability to charge in the future. There are many reasons why driver's education experiences extraordinary costs. The on the road portion is one teacher to three students so

that's a very low student ratio, and the simulator portion has one teacher to 18 students where the average high school classroom may have as many as 28 to 30 students. So, every year we cause school districts to come back to us to look to seek a waiver to have the ability to charge a more appropriate tuition for these courses. And so, I think it's time to give them that ability and then if they need to charge more than \$250, then they can come back to the General Assembly and seek permission for that. Two things that you should know is, this would be part of a public hearing that a school district would put on their school district agenda to take comments on while they're making a decision whether or not they're going to raise tuition for this particular class... or fees, not tuition for the class, and that anybody that is on free and reduced lunch would receive this class for free, and that's about 45 percent of our students throughout the state. This would not go into effect until the 2012-2013 school year. And I'd be happy to answer any questions."

I bring before you this afternoon House Bill 3050 which represents the negotiations between the Illinois Department of Financial and Professional Regulation and the Illinois Credit Union League. I'd like to thank Dave Sinclair and Steve Olson who worked together to craft this Bill so there's no known opposition. Does five major things. First of all, on when the Executive Order created the Illinois Department of Financial and Professional Regulation, there was some language in there that referred to secretary and director that had to be clarified and this Bill first and foremost did that. Where applicable, the secretary's name or the secretary's title is listed and the director if it revolves in something within one of the independent divisions. Second of all, the... what's referred to as a foreign credit union, a credit union that's based out of a different state and they operate in Illinois, but this clarifies they have to be strict adherence to the Illinois rules and regulations over credit unions. Third thing that it applies to is a... administrative actions may be taken against certain Illinois chartered credit unions

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

that fail to comply with the Act. And basically this clarifies almost like progressive discipline from a warning to a written warning, and if things are clarified, they don't have to go into any type of fines or penalties. If there are any fines or penalties, certainly they'd be structured so smaller mom and pop credit unions certainly won't be subject to the same type of a disciplinary action as a larger credit union with a larger asset class. Fourth, it absolutely makes sure that we are in conformity with federal credit union regulations where applicable here in Illinois. And last but not least, makes sure that credit union board of directors have at least seven members, and if a member does... doesn't no longer participate and you're short a director, it gives a credit union 90 days to replace that one director. So, I'd be happy to answer any questions. There's no known opposition. It's a good Bill. I'd appreciate your support."

Pritchard: "Thank you. Ladies and Gentlemen of the House, in 2007 we created a new process whereby communities and municipalities could expand their development beyond a mile and a half, but where counties had a zoning plan and wanted to maintain control over that development, they could. What we found in the ensuing years is there was a gray area or a question mark about property that may split that mile and half demarcation line. And what this Bill does is clean it up and says that if any portion is beyond a mile and a half, then the whole portion would... that portion would be considered under the county's jurisdiction, and of course, they can agree to let the city develop if they wish."

Speaker Lang: "Gentleman's moved for the passage of the Bill. There being no debate, those in favor vote 'yes'; opposed 'no'. The voting's open. Have all voted who wish? Have all voted who wish? the year instead of just at the annual town meeting. Ask for an 'aye' vote."

Franks: "Thank you. I'm just trying to understand the Bill. We're moving so quickly, I'm just not sure what this Bill does so perhaps Mr. Ramey can explain it."

Ramey: "Currently, to get rid of township property, they have to have a request at the annual town meeting which is once a year in front of the people of the town... township. This would allow them... the township and the highway commissioner to come before the board during their monthly meetings and request that same privilege."

Franks: "So, there'd still be oversight. It just wouldn't hap... it would just be more often. Instead of doing it on an annual basis, it'd be done on a monthly basis?"

Ramey: "That is correct."

Franks: "Now is there some threshold that's being changed?"

Ramey: "You mean in the amount?"

Franks: "Yes."

Ramey: "Not to my knowledge unless you see something that there is."

Franks: "Our summary indicates that it does and I'm not sure if that's your intent. Our summary says that this Bill removes the \$2500 threshold value for property requiring electoral approval."

Ramey: "Oh, correct. Because that was the requirement of the annual town meeting."

Franks: "I'm sorry. It was... oh, was the annual meeting?"

Ramey: "Correct."

Franks: "But it makes the provision applicable only to real property. So, you're saying if you want to sell real property, you still have to have the approval, obviously."

Ramey: "Correct."

Franks: "But what about if it's personal to you. What happens if they want to sell an old truck?"

Ramey: "Well, that's... the threshold was to sell that truck which it would possibly be over the \$2500, it would have to wait 'til the annual town meeting to be able to do that. They could sell anything under \$2500 during the year. So, we removed that threshold so they don't have to wait 'til the annual town meeting and then also do it monthly at their town meeting. Some are once a month, some are twice a month."

Franks: "Than... I appreciate it 'cause I wasn't sure if we were making it less transparent, but it seems to me that this Bill will actually make it more transparent."

Ramey: "Absolutely."

Franks: "Thank you. I appreciate that."

Ramey: "Certainly."

Speaker Lang: "Those in favor of the Bill shall vote 'yes'; opposed 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Kelly Burke. Please take the record. On this question, there are 115 voting 'yes', 1 voting 'no'."

Clerk Mahoney: "House Bill 2089, a Bill for an Act concerning criminal law. Third Reading."

Speaker Lang: "Mr. Rosenthal."

Rosenthal: "Thank you, Mr. Speaker and Members of the House. House Bill 2089 adds MDPV to the list of Schedule I controlled substances. MDPV is a synthetic designer drug commonly sold as bath salts which can be snorted for hallucinogenic inducing high. It's marketed under the names of Ivory Wave, Zoom, and White Lightning. These substances are legal in many states although they have similar effects to cocaine and methamphetamines. This is supported by the Illinois State Police, the Illinois Association of Chiefs of Police, and the Illinois Cent.. Sheriffs Association. And there's no opposition."

Speaker Lang: "Sir, is this your first Bill? I see there's a jacket on your chair behind you. Why don't you put it on. Go ahead, Sir, we'll wait. Goes nicely with your tie. The Gentleman's moved for the passage of his first Bill and no one wants to ask him a question. Surely somebody has a question for the Gentleman. Saved by Mr. Eddy. Mr. Eddy."

Eddy: "I was just stunned. I was absolutely stunned, now I'm even more stunned. I can't believe that we're talking about bath salts. On... is that... is that your intention, Representative, is to bring to this Body a Bill that deals with bath salts?"

Rosenthal: "Only because that's what they are sold as."

Eddy: "Oh, that's what they are sold as. What are they really then? Because this is very nefarious, it seems to be some conspiracy."

Rosenthal: "In reality, they're sold in convenience stores as bath salts, plant food, but a one ounce package, as we heard in committee, is sold for \$60 and it's just below the street value of cocaine."

Eddy: "So, individuals go into convenience stores and purchase this product and it costs up to \$60 and they're sold as bath salts. Then what do they do with them? They don't take a bath, in other words."

Rosenthal: "Obviously, they don't. I think what they.. the intent is, is that they're sold as a synthetic drug, hallucinogenic and they're snorted."

Eddy: "So, is this a relatively new phenomenon? This isn't... is this..."

Rosenthal: "No this is... this drug is K4. K2 is banned effective January 1 of this year. They expected that this would be a follow on which happened quite rapidly."

Eddy: "Representative, who made you aware of this issue?"

Rosenthal: "My initial call, February 10th or 11th came from the sheriff's department in Macop... or Montgomery County. They had eight calls to the hospital. Some kids were pulling the hair out of their arms, some were pulling hair out of their heads, seeing hallucinated little people running around. So, I took the information and got with the Sheriff's Association, we crafted the legislation."

Eddy: "So, nobody who had tried to use these as bath salts were upset and called you?"

Eddy: "No. So, is there a potential that people actually are using this product as bath salts because that's the way they're advertised as well?"

Rosenthal: "If anybody wants to spend that to use as bath salts I don't expect they do."

Eddy: "So, they probably know what they're buying, in other words?"

Rosenthal: "Exactly."

Eddy: "They probably know, it's just under a mask. Now, you said some of the names involved. This seems like a very dangerous drug. Zoom?"

Rosenthal: "That's... that's... that are the names that they use in the store."

Eddy: "And the other thing you mentioned, and if you could repeat, White Lightning."

Rosenthal: "Yes, White Lightning, Ivory Wave or Zoom."

Eddy: "White Lightning. That seems to have had a different connotation in years past, White Lightning. Is this..."

Rosenthal: "Exactly. But this is a powder, so I don't think it's the same."

Eddy: "So you don't have a lot of experience with the White Lightning..."

Rosenthal: "No."

Eddy: "...or anything."

Rosenthal: "No."

Eddy: "Okay. Well, Representative, I'll tell you what. I... you've uncovered a problem here that's obviously serious. It's your first Bill, but I do applaud you for the fact

that you would bring something to this Body's attention that obviously could be very, very dangerous. You have the red jacket on. I think this may have a chance, I'm not sure. We may have to get the jacket tailored before we take the final vote. Thank you."

Speaker Lang: "Mr. Reboletti."

Reboletti: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Reboletti: "Representative, what made you get into carrying narcotics Bills?"

Rosenthal: "Is was the simple fact that the sheriffs from my home county came to me with this issue, but I think it's important for the safety of the state."

Reboletti: "Is this something that you'll be branching out into?"

Rosenthal: "Myself, no?"

Reboletti: "Right. This will be the last narcotics Bill you'll carry?"

Rosenthal: "Only if... the only one I'll carry is if I... the constituents come and we need to fix this problem in the state."

Reboletti: "Well, I can appreciate that, Representative, but you're talking about K2. What is a K2 substance?"

Rosenthal: "It's another synthetic drug and it's, you know, what we'd want to do is eliminate the use of the ingredients that create these synthetics."

Reboletti: "Is there a K3 substance?"

Rosenthal: "Not that I'm aware of. I'm sure there probably is."

Reboletti: "I did actually file the same Bill, Representative, I would hope that in the Senate you'll look at some language regarding the... and I'll share the language with you after you... this Bill fails, but it has to do with taking derivatives from the substance so it'll cover more what we call the derivatives or parts thereof of this substance, otherwise, this is what happens. We come back every year or so, it's good for new Legislators to pass these Bills, but it's more difficult for prosecutors, so I'm sure you'll be amenable to some of that."

Rosenthal: "Yes, Sir. What we've done is, is we are in the process, and we're waiting on the Illinois State Police lab to get back with us, the information has not come and what I would do is add those when it passes over to the Senate to ask them to include it. There's up to 16 additional synthetic drugs that the State of Utah has identified, and if we can include those, it would help us from not having to come back here in the future."

Reboletti: "Did the Italian Caucus have a position on the... on the Bill?"

Rosenthal: "Not that I'm aware of."

Reboletti: "I know we met in the subcommittee, we had discussed it but we were awaiting further documentation. So, I'll have to wait and see if maybe Representative Coladipietro has some insights on this. Thank you."

Bost: "First off, a few serious questions here. I... do you know of the background of this? I mean, I know that this is a synthetic drug. When it came on the market, was it, you know, kind of advertised on the Black Market as that this is what it was? Or who first decided, hey, let's snort the soap? I mean, I'm really trying to figure this out. Was it discovered by accident? Is it..."

Rosenthal: "To be honest, the way it was discovered, in this case, was through calls to the hospital, the police department, the sheriff's department had where they had eight individuals that went to the hospital in Montgomery County, one of which was there for five days. But it's a hallucinogenic drug and I'm sure, since I don't deal on that side of the market, that people that are into that thing, they have a network all their own."

Bost: "Yeah. Okay. One other question. If your dog eats your K4... Is this K4? Right?"

Rosenthal: "Yes."

Bost: "And if your dog eats your K4, does it make it K13?"

Rosenthal: "I think it's hard to tell what it would make it."

Bost: "Just checking."

Speaker Lang: "Representative Stephens."

Stephens: "Thank you, Representative... thank you, Mr. Speaker. Could I ask our staff to move please. Thank you. Thank you. You might... that might be called the line of fire. I... welcome, Representative, welcome. I've been waiting for this day."

Roth: "Well, I don't think anything would happen, but it would prove to them that we're very serious about the solvency of this fund, and hopefully they would take our Bill and go with it."

Franks: "I appreciate that and I agree with what you're trying to do. I'm just concerned that oftentimes we have these mandates in the laws and they're just absolutely ignored. I know we have many boards and commission that have not been appointed or many where the appointments have lapsed. Frankly, I'd like to see many of these boards and commissions be abolished. And perhaps we ought to consider, if these boards haven't met for a year and a half, that they really can't... they're really aren't that important. So perhaps, I don't know if you would consider this, maybe we should abolish this board and perhaps we should have a number of... a committee set up of Legislators to delve into this issue, because I agree with you, it is very serious. I just don't believe that these boards and commissions are actually doing their job."

Roth: "Representative, I tend to agree with you on that. However, I think that this is a really important program, and maybe the 10 people that are currently appointed to this board, maybe... or this committee, maybe they're not the right 10 people, that's the Governor's decision, but I think this is way too important of a committee to not follow through with the recommendation to make it solvent."

the members, he has not appointed the chairman. Is that correct as well?"

McCarthy: "I'm sorry. Would you repeat that please? I did not hear you at all."

Roth: "I do not believe they have picked a chair yet, the name... I just have the names of the people on the board."

McCarthy: "Okay."

Roth: "The chair's not delineated."

McCarthy: "Well, I... I certainly would join you in encouraging the Governor to make that appointment so then that chairman could... now I'm getting the report back that they don't have a meeting because they don't have a chairman to call the meeting even though they've got the 10 members. So hopefully, the Governor's Office will appoint that chairperson and they can go ahead with this program. In our analysis, it says that your report will come back six months after the formation of the committee or something. My question would be, that doesn't prohibit us from doing anything in the interim?"

Roth: "That is... that is accurate."

Speaker Lang: "Representative Eddy, person whose Bill was stolen."

Eddy: "Thank you... thank you, Mr. Speaker. Would the Sponsor yield?"

Speaker Lang: "She certainly will."

Eddy: "Representative, without looking at any notes, without conferring with any staff, I want you to tell me what TRIPS stands for?"

Roth: "Teachers Retirement Insurance Program."

Eddy: "That's pretty good. That's pretty good. That's not too bad. Now, can you tell me the importance of this particular group of people to that program?"

Roth: "It's... the importance the program is to the people that are in it?"

Eddy: "No. What... why are these individuals, these 10 individuals, important to the TRIP Program?"

Roth: "Well, these people are the committee that sets the direction of the TRIP Program in terms of... in my case, I'm asking them to come up with solutions on how to make it solvent 'cause at this point, in 2013, it's projected to be insolvent."

Eddy: "No?"

Roth: "No."

Eddy: "Okay. Well, then why do you have any interest? What's your background?"

Roth: "I am a CPA as well as a former school board president."

Eddy: "And this is important to you because...?"

Roth: "Well, for..."

Eddy: "You're a CPA?"

Roth: "...a couple of reasons. I'm a CPA and I feel that it should be balanced and we should fund something that we've committed ourselves to be funding. And then from a school board perspective, these are the people that educate our children. We need to make sure we have the funds to provide for them later in life."

Eddy: "There's been a couple of comments made regarding the fact that the Governor's appointments in some cases have been tardy. Have you talked to the Governor's Office about this committee?"

Roth: "I have not spoke to the Governor's Office."

Eddy: "So you have decided that you should move forward with the Bill regarding something the Governor's responsible for without having a personal conversation with the Governor?"

I know that several members of the current State Board of Education's terms expired in January and he hasn't had time. Don't you think he's a little busy?"

Roth: "He must be very busy not to make appointments to very important committees."

Eddy: "So, you might consider either taking the Bill out of the record, run it down... you know where the Governor's Office is?"

Roth: "I do."

Eddy: "You do. It's close by."

Roth: "It's real close."

Eddy: "You could run down to the second floor... you think he's here?"

Roth: "I'm doubting it, but maybe."

Eddy: "Maybe. Well, more importantly, you think the first answer you get is the one he'll stick with?"

Roth: "No."

Eddy: "Never mind, you don't have to answer that. Thank you, Representative. Obviously, it's... it's important work and we're very fortunate you brought this Bill to us. And again, thank you for the red... I think it's becoming nice when people actually don't have to be prodded into the proper attire."

Speaker Yarbrough: "And on that... on that Bill, Representative May. The Lady indicates she doesn't wish to speak. Representative Davis for a question."

Davis, M.: "Thank you... thank you, Madam Speaker, honor to address you as such. Representative Sacia, why would you want to reduce it from one year to five... I mean, from five to one?"

Sacia: "It's an excellent question, Representative. Currently, the five-year time frame, money just languishes in banking institutions and financial institutions. After one year, if the money appears to be abandoned, the Treasurer's Office is extremely proactive. Let's say that you still have some money coming from the Chicago school district that you're not aware of. The Treasurer's Office will actually contact you and say, how about it, would you like your money?"

Davis, M.: "Currently, they don't notify people?"

Davis, M.: "And if the person does not respond in one year, what happens?"

As I understand it, and correct me if I'm wrong, as I understand it, the financial institution after one year must notify the Treasurer's Office that this money appears to be abandoned or unclaimed and it gives the Treasurer's Office an opportunity to deal with the funds. But every sincere effort will be made to contact you."

Davis, M.: "Is that..."

Sacia: "Much as is done currently after five years."

Davis, M.: "You know, my understanding is that sometimes... say, if a person has moved around or there have been estate problems, they may not be aware that they have unclaimed property."

Sacia: "I agree with you, Representative; however, if... I think you would agree with me, our memories are fresher after one year than after five years. You know, after five years we may well have forgotten; where after a year you go, oh yeah, that's right. I never picked up my last paycheck, I ought to do that."

Davis, M.: "Well, I mean... sometimes you may not even know. For example, a person's spouse may be deceased and there was some insurance on the job or what have you."

Sacia: "Yes."

Davis, M.: "So this spouse may not have any idea that there's money in the Treasurer's Office based upon, you know, the husband having worked someplace. I'm just concerned that

one year may mean some people don't get what is rightfully theirs. I understand and I appreciate the notice that they'll be notified within one year, but I... I just... I would like to see them still have at least five years in order to claim the unclaimed property."

Sacia: "Well, they certainly do, Representative. The money stays in the Treasurer's Office available to that person and repeated efforts will be made to contact that person. Again, I feel that... and I applaud Treasurer Rutherford for bringing this forward because I think it's a... it's a proactive opportunity to assist citizens, much like you just cited, who are out there. And literally, I had this very thing happen with the recent passing of my father several years ago in Wisconsin, and we learned, like two years after his death, that there was an insurance policy that nobody knew existed. And Wisconsin has a much shorter time frame than Illinois and we were notified and were able to take advantage of that. So I think it's a very good opportunity for the 13 million citizens of this state to have that money availed to them when it does appear that... and again, I think you cited the perfect example when a spouse is deceased and the living spouse has no idea that that money is out there. So I think it's a good opportunity for all of us, Representative."

Davis, M.: "Thank you. And my final question is, what happens when this property is never claimed, let's say it's 10 years. What happens to it, money or..."

Sacia: "Representative, it stays with the Treasurer's Office and they make repeated efforts over the years to contact you or whoever it is that would have the money being.. who would be the legal person to have access to that fund."

Jefferson: "From what I understand, you said they make repeated efforts. Do they send letters out to the individuals or do they contact them by phone, or how do they do that?"

Sacia: "Absolutely, Representative. They publish it in the area newspapers where it would be appropriate. They send communications to the last known address of the person that would have access to the money and it's also on the Treasurer's website."

Jefferson: "And not trying to be facetious, but if you don't read the newspaper and you don't have access to a website, how long does that money stay in the Treasurer's Office before they have the ability to do something with those dollars?"

Sacia: "Representative, it's an excellent question. And I have a representative from the Treasurer's Office with me here assuring me that on infinitum, if you make claims for that money, it's yours if you are the rightful owner."

If 20 years later you determine that a great-grandfather left you money or something and it is in the Treasurer's Office, you still would have access to that money."

Jefferson: "Do they keep those records for 20 years? They keep those records indefinitely? At what point do they..."

Sacia: "The records..."

Jefferson: "...at what point do they dispose of those records?"

Sacia: "They do not dispose of them, Representative. Microfilm and all that thing, you know. It's shared with me that your great-great-grandchildren could come 25, 30, 40 years later and the money would be yours, Sir."

Jefferson: "So we have files that might date back 50, 100 years ago, is that what you telling me?"

Sacia: "I'm telling you that if there is money available from that time frame, Representative, that would be correct."

Jefferson: "Okay. You know, I certainly appreciate the fact that we can expedite that matter from five years to one year to get the money to the individuals, but if that doesn't happen after that, then I'm a little concerned about what happens with those dollars and I just want to make sure that this is not something to expedite the process, where the Treasurer's Office can take advantage of those dollars if something else happens in that respect?"

Speaker Yarbrough: "Representative Riley."

Riley: "Thank you very much, Madam Speaker. House Bill 1215 basically extends the life of the City of Markham TIF District #3 to 2029. One of the things with surrounding TIFs that expire much later, the City of Markham feels that it's at a disadvantage to be able to give incentives to the many business owners and developers who want to come and develop that particular TIF area. Riley: "Yes, I do, Representative Eddy. Matter of fact, you know, on my analysis the 13 taxing districts including the City of Markham have all signed on as proponents. So, you know, they've gone through that betting process and they're all proponents of it."

It would provide for parity between IV infused, oral chemotherapy, and cancer therapy so that they are equally accessible to patients in terms of copayment and other costs. This Bill is extremely narrowly drafted and only applies to private insurance. It does not mandate new coverage but simply requires parity in coverage for similar cancer drugs..."

Speaker Yarbrough: "Can we lower the volume in the chamber, please, so the Lady can present her Bill. Go ahead, Representative Williams."

Williams: "It does not mandate new coverage but simply requires parity in coverage for similar cancer drugs regardless of the means of delivery of such drugs. The Bill requires health insurance companies to keep up with the groundbreaking advances in cancer treatments by structuring their benefit plans to give patients equal access to these therapies. I ask for an 'aye' vote."

Speaker Yarbrough: "Representative Eddy seeking recognition."

Eddy: "Thank you, Madam Speaker. Will the Sponsor yield?"

Speaker Yarbrough: "She indicates she will."

Eddy: "Representative, our analysis indicates there's some opposition to this. Is there a difference in cost between the intravenous and the oral drugs?"

Williams: "You know, the cost issue really varies based upon drugs, but as a rule, IV infused therapies are not necessarily more or less costly than oral chemotherapy treatments. The issue is, regardless of how much the drug cost, insurance companies cover the benefits based on how their plans are structured. For example, IV infused or traditional cancer therapies are often covered under the medical benefit so the patient may only pay a copayment. However, if the new groundbreaking oral treatments are covered in a plan, they're covered on the prescription component, and therefore, the patient may be subject to very high out of patient... out-of-pocket costs, regardless and unrelated to the cost of the actual drugs."

Eddy: "Is this in any way affecting the choice of treatment based on cost?"

Williams: "Absolutely not. The treatment decision is between a patient and the doctor, and that actually goes to the heart of this Bill, that the reason for putting this Bill forward is so that the patient and doctor can determine the best possible treatment regardless of having to take cost into consideration."

Eddy: "Well, I... there's just... there's concerns with I think the possibility of the cost with this. And I know that the National Federation of Independent Businesses have had a great concern because of their... well, their real concern that the cost will increase in what they have to participate or pay for their health insurance for their workers."

Williams: "Well, I think the real issue is how the benefit plans are currently structured. The insurance companies, or some of the insurance companies that may be opposed to the Bill, simply have not structured their benefit plans in a way that keeps up with the amazing advances in technology. For example, a drug provided the IV infused oral chemotherapy may cost \$20 thousand, but to the patient, it may only be a small copay; whereas the oral treatment, if there's an alternative or a better treatment available orally, that may only cost 10 thousand for the patient but they have to pay much higher out-of-pocket cost. So I think it's really a drug... a matter of a case by case review of drug costs rather than based on one being

more expensive than the other. 'Cause it's really just a means of delivery of the drug."

Eddy: "I... I get that."

Williams: "Okay."

Eddy: "I know this is a very complicated issue and it's going to continue garner some attention because we have to make a lot of changes based on other federal requirements that are coming down the pipe. I think there's probably going to be other legislation that also addresses these types of issues for coverage and cost, and sure appreciate what you're trying to do here. I think we're going to see a lot more of this and we got to be careful with what we do to businesses in the state and how we drive those costs up, because as you know, we are in a climate now where those businesses are making a lot of decisions based on cost. So, I appreciate what you're trying to do here. Just... the Body would note that there is some opposition to the Bill. Thank you."

Williams: "Well, and I will point out that the chamber and the manufacturers have indicated that they are neutral on this Bill as well as Blue Cross Blue Shield."

Eddy: "Thank you."

Speaker Yarbrough: "Representative Sullivan seeking recognition."

Sullivan: "Thank you, Madam Speaker. To the Bill. I rise in support of this Bill. Many of you may not know but I am married to a woman that is a nurse practitioner that used to work at Northwestern's Oncology Department and prescribes... used to prescribe these drugs on a regular

HOUSE OF REPRESENTATIVES

basis. Her indication to me is that at many times it is cheaper to prescribe the oral version of this drug than the... than the intravenous, not only from the front-end cost of this but also when you prescribe oral medications, you don't now have to have infusion nurses to stand over these patients over many hours to make sure that things are going well. These are very toxic drugs that are done intravenously and so you have those problems of potential inpatient care that are also going to have to be now factored into the cost that goes on with these. Aside from the basic cost, the toxicity of these drugs between oral medications versus IV medications are tremendous. One of the things that my wife did was write studies on the toxicity to these, and so the quality of the care that these people get is certainly enhanced by taking the oral medications, and that in the end is something we really want to focus on also aside from the cost. So, this is a very good Bill for patient care for costs and for moving things forward because, right now, if you're just limiting it on cost, you're reducing the available drugs that a clinician can use to try and manage all kinds of symptoms for these patients, and that in the end is what we don't want to have is... is have less options for clinicians in regard to cancer treatment. So, I commend the speaker for this Bill. It is something that is overdue and I think when people start to really look at the cost down the line we will see a savings and we certainly, certainly we'll see more... better care for our patients. Thank you."

Riley: "Would the Sponsor yield?"

Yarbrough: "He indicates he will."

Riley: "Representative, you know, there were some concerns about, you know, some of the opponents, but you really have a diverse number of proponents, matter of fact, you know, you have the American Cancer Society, you've got the Simmon Cancer... Cancer Institute of SIU, and then you have some drug companies, and all these companies are really involved in cancer clinical trials. And so you're to be commended and I think that also speaks to the importance of the Bill, the fact that you have so many diverse entities in support of it, wouldn't you say?"

Williams: "Yeah, we do have a large group of support, and I think one issue that we need to make sure we keep in mind is the quality of life issue. In some types of cancer there is an IV infused therapy available, but there may also be an oral therapy option available. This is particularly of interest to people that live downstate are not in close proximity to cancer treatment centers. Some of these patients have to travel up to two, three hours to get cancer treatment. Their spouse has to take off of work, they have to take off of work, if they're able to, sit there and get the chemo for three hours. It's really an amazing groundbreaking area and we're just asking the insurance companies to keep up with it by structuring their plans accordingly."

One of the things about what you're saying, sometimes there's not necessarily an oral analog for a drug, some things... cisplatin, fluorouracil, drugs like that have to be administered by IV, but there are a lot of treatments that are very well tolerated orally. And I just think that this a great Bill. To the Bill, Madam Speaker."

Speaker Yarbrough: "To the Bill."

Riley: "This is a good Bill that she's proposing. And one of the things we always have to take in consideration is the care of the patient, the care of the patient, and I think this Bill speaks to that and it gives people a viable option. And I would hope that you would all join with me in supporting this Bill. Thank you."

dad died when I was in eighth grade of cancer. That's not a whole lot of fun and wasn't a whole lot of fun to watch him go through that. My mom, thankfully, is a two-time survivor. And so the ability to bring new medicines on line to give people hope, to lessen suffering when they're going through treatment is everything. And I'm proud to be your cosponsor, and I thank you for asking me to be on it. So, I look forward to voting for it."

Speaker Yarbrough: "The Lady from DuPage, Representative Bellock."

Bellock: "Thank you very much, Madam Speaker, and I rise to support the Bill also. This is a tough issue for those of us that are always trying to be probusiness, not put other mandates on insurance, but also to provide really good health care to people throughout our state and I think that this Bill aims at doing that. Looking long range, I think 10 years from now, probably most of the people that receive cancer treatment will probably be receiving it orally, if we go forward with what's proposed here today. I think that that serves the purpose in keeping people out of hospital visits, so for cancer patients that's really important not to get other infections when they're going into a hospital. So, I think we need to look at the overall cost of health care and I think this will allow as somebody else mentioned, people... for us that live in the Chicago area, it's easy for... not easy, but it's accessible to go a half an hour to a place to receive treatments. For people who live two hours away from a hospital and have to go sometimes four days a week, that's a very difficult

exceeded by more than 10 percent without the written consent of the consumer or a written price limit of the total cost that cannot be exceeded without the written consent of the consumer. Speaker Yarbrough: "Representative Reis seeking recognition. Out of the record. Representative Bost."

Bost: "Thank you, Madam Speaker. Will the Sponsor yield?"

Speaker Yarbrough: "He indicates he will."

Bost: "Before I actually get to the actual language of the Bill and the concerns and some questions that I have, I noticed a while ago you couldn't present your Bill because you didn't have a computer. You know, we don't want to go down a path of comparing with other Legislators that serve here, but I knew Art Turner, a guy that served here and he didn't need a computer. He could just go right to his Bill and... and start presenting the Bill. And you know, I... now I know also that you are a SIU Alum, is that correct? And you're... your degree... you have a law degree from SIU?"

Turner: "Yes."

Bost: "Yeah, yeah. And with that and... how did you get that without a comp... oh, you had to use a computer, I'm sorry. I'm sorry."

Turner: "We used computers."

Bost: "I do really have some questions about this. What group or organization has... has requested this piece of legislation be brought forward?"

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

Turner: "It was brought to me by the Cook County State's Attorney's Office."

Bost: "Okay. And this... this provides that... can you explain the Bill one more time as far if it doesn't exceed \$100... or if it exceeds \$100, is that correct?"

Turner: "Right. So, it's just putting more control in the consumer's hand. If the price of the work will exceed \$100, then the consumer will receive a written estimate that will detail the price fee and anything that would be different from that, the consumer doesn't have to sign on to it."

Bost: "So it... so it... it is requiring them to put a bid... for the locksmith to bid the job if it's over a \$100. Is that correct?"

Turner: "It just has to be written; it's not necessarily a bid. It's just... it just gives..."

Bost: "But... but it... but it's a binding contract once they give that price is what this is saying. Is that correct?"

Turner: "No, it's... it can't exceed 10 percent without the written consent of the consumer."

Bost: "Without... we can't... okay."

Turner: "Right."

Bost: "Okay. This... I'm just trying to figure this out because... then does the... what was the problem that existed according to the Cook County State's Attorney that is occurring here, and how often does it occur?"

Turner: "Well, there are issues of price gouging almost where the consumer would search... look for the services, the locksmith would come out, tell the consumer one price and

then begin the work and start to finish it and tell the consumer that it would be a lot higher than the initial price that was stated. So, this is an effort to get the consumer and the locksmith on one page right from the beginning, and if it's going to exceed that amount by 10 percent, then it has to have the written consent of the consumer."

Bost: "And Representative, I... it's your first Bill. I'd like to... the concern I have is, as a downstate Member, as I've dealt with locksmith legislation over the years, things that affect locksmiths in your area... I have different locksmiths in my area that don't quite... for instance, years ago they... when we started registering locksmiths, none of my locksmiths knew that they were even pushing for it to be done and it was done by the locksmiths of Chicago. Now, we're going to pass this law and I don't have a pro... I don't think that this is an issue in my district, okay? And I'm serious about this. I don't believe that my locksmiths are taking advantage of people and is this something that... then they're going to be negatively impacted by in my area with this type of legislation."

Turner: "It... it won't have a negative impact on them or their business. It just requires that they give a written estimate if it's going to be over \$100. It's just protection for the consumer in this case."

Bost: "Okay. Have the Locksmiths Association weighed in on this?"

Turner: "I have heard of no opponents to this point."

Bost: "Oh, okay. Thank you very much."

Speaker Yarbrough: "Representative Reboletti, for what reason do you rise?"

Reboletti: "Thank you, Madam Speaker. Will the Sponsor yield?"

Speaker Yarbrough: "He indicates he will."

Reboletti: "Representative, I've talked to some locksmiths in the Village of Addison who had some opposition to your Bill, and I'd have to... he had spoken with his membership and he had said that they were trying to get an e-mail blast out and that they were trying to contact your office. His concern, Representative, is that, what does this Bill do to stop those people who are not licensed locksmiths from doing the same thing that what you're talking about? He believes, and I think what Representative Bost was talking about, is that most of our licensed locksmiths are doing what they're supposed to be doing and not coming to your home and telling your family that it's \$300 to change the locks out, but when they come there it's \$1 thousand after they complete their task. So, his concern was actually, it's the unlicensed locksmiths that are doing this. Do you have any comments about that, Representative?"

Turner: "This doesn't... this Bill doesn't address that, but DFPR can go under unlicensed practicing..."

Reboletti: "And I know that..."

Turner: "...locksmiths."

Reboletti: "...and I know they can do that, but what they've told some of my locksmiths is that they don't have the resources to do that. So, what would happen in a case where I'm

locked out of my car and I call a locksmith, does he have to then give me a written estimate?"

Turner: "If it's over \$100, yes. Most car lockouts, I would assume, would be under \$100."

Reboletti: "Let's assume it's over \$100. Is then he going to have to keep that for two years? What's the reason for keeping it for two years?"

Turner: "Just to have a record of it on file."

Reboletti: "But why two years? Why not three years or why not one year? Is there... was there a reason for that time frame?"

Turner: "I don't know."

Reboletti: "I guess, Representative, was the concerns of some of the folks in the business community that it was just another mandate that... some of the issues are not to licensed locksmiths, and that it's those that are unlicensed that are scheming our senior citizens and those that are vulnerable to these types of scams. They're the ones that are being taken in. And we're just going to add another additional mandate on to those that are following our rules and regulations and that's not going to stop the problem that you're seeking to stop. So, with that, I will be voting 'no' on your Bill, Representative."

Turner: "Thank you."

Speaker Yarbrough: "Representative Lang, seeking recognition? No. The Gentleman declines. Representative Davis, Will Davis, seeking recognition?"

Speaker Yarbrough: "He indicates he will."

Davis, W.: "Representative, the previous speaker felt that the issue that you're really trying to get at you wouldn't get at, but certainly, if they're unlicensed individuals out operating and practicing, you're right, it is very hard to regulate those individuals. I'm sure there are a number of unlicensed plumbers out there, unlicensed handyman, you know, people doing business. But certainly if you pick up the phone book and call someone, you expect... or there is an expectation that that is a licensed individual or you certainly can ask them if they are a licensed individual. So, in respect to dealing with locksmith, how is asking a locksmith to provide a detail receipt any different than asking a plumber or any other type of person in a phone book to provide a detailed receipt of the services?"

Turner: "Not very different at all."

Davis, W.: "Exactly. It's nothing difficult, but these are services that we can ask for and do receive the written estimates for because you know the work is going to exceed a certain amount, so why not want to. I'm addressing... dealing with the Bill with landlords and if they take a fee for an application, we're asking for some type of written receipt that explains how that fee is going to be utilized. So, it's not much different than that and what we ask for, for other professions in terms of providing a written estimate if that fee is going to exceed \$100. So, while the Gentleman indicated that he would vote 'no', Ladies and Gentlemen, this is not much different than what we require from other various professions... professions, individuals

Lang: "What if a handyman who is not a licensed locksmith is doing work at your home and doing these kind of services, are they covered by your Bill?"

Turner: "This Bill pertains to licensed locksmiths."

Speaker Lang: "So a licensed locksmith has to provide this written estimate?"

Turner: "Yes, Sir."

Speaker Lang: "But a unlicensed locksmith does not have to provide this written estimate?"

Lang: "Well, if someone was a unscrupulous locksmith, wouldn't this be an incentive for them not to be licensed, to do the work anyway but then just rip people off without getting the license?"

Turner: "In that case, the department would go after them. I don't think it would encourage it."

Speaker Lang: "So, it's illegal to do locksmith work unless you have a license to be a locksmith?"

Turner: "For hire, it is."

Speaker Lang: "So if my handyman who does a lot of work around my house could be painting, it could be fixing concrete, he does a lot of things around my house. If I ask him to work on my front door lock, is he in violation of the law?"

Turner: "I'd have to look into that for you."

Lang: "Well, we should do that. We should do that. So, let me ask you this question. So if... if it's over \$100 they have to put it in writing. What if they're doing two things that total \$150 and they split it into two orders, each of them 75 each, do they have to provide a written estimate?"

Turner: "It doesn't really speak to that, but why would they split the bill into two?"

Lang: "Sir, this is your first Bill, I get to ask the questions. You can ask all you want, but I'm not answering any questions. I did that on my first Bill and I didn't have a red coat to wear and I notice you're not wearing one. You're not even wearing red. Aren't you in violation of some rule around here? So... and so you didn't have an answer to that question, so I'll just forge ahead. So when the written estimate is given, does this... can a person... do

Turner: "I'd have to look into that."

Lang: "All right. So when the Bill goes over to the Senate, these 10 things you're going to look into, I hope you'll look into them when the Bill is over there. Thank you, Sir."

Turner: "Thank you."

Speaker Yarbrough: "Representative Mayfield."

Mayfield: "Excuse me, Representative. I just had a... I have a couple of questions. Do you feel that you're special because you share the name of a distinguished past Representative?"

Turner: "No, Ma'am."

Mayfield: "Then can you please explain your blatant disregard for tradition and not wearing a red jacket?"

Turner: "Well, I'm told it's not totally tradition, but I didn't... I didn't... I wasn't aware that I was going to have my Bill called today."

Mayfield: "Okay. Are you prepared to remove the Bill from record until you are dressed appropriately to address this Bill?"

Turner: "No, I don't look so good in red."

I think Representative Morthland yeah, it's red; it's that other color. It's the real bright one in front of you. Just... there you go. Ladies and Gentlemen. Looking good, it's looking good now."

Turner: "This could get me in trouble in my neighborhood."

Eddy: "There's a look; that's nice. Representative, do you have your pin? Wow. Do you have your pin?"

Turner: "Yeah, I do."

Eddy: "And the only reason I bring that up is, actually, your father gave me every one of these pins that I have and I think probably it would be good for you to put that pin on that he championed so many years for you. And by the way, did... does... does your father know that you're doing your first Bill today?"

Turner: "I sent him a text message."

Eddy: "Did you? Did he text you back? 'Cause that's the only way I get my kids to talk to me is through text. Is it same..."

Turner: "He might."

Eddy: "All right."

Turner: "He might."

Eddy: "Representative, I want to just make sure that we go down this path on the licensing. Is it required for all locksmiths in the State of Illinois that practice as locksmiths to have a registered license?"

Turner: "If they're... if they're a business operating for hire, yes."

Eddy: "So, in my part of the state, a lot of folks do a lot of different kind of work, and some of them do work on locks and they're not necessarily... that's not their only business. They're not called locksmiths, but they do work on locks and much the same way that Representative Lang discussed maybe a front door or a business door. If they're not licensed but they do that kind of work, is your intention for them to also have to go through the process here, or just licensed?"

Turner: "This Bill pertains to licensed locksmiths."

Eddy: "Okay. So... so for purposes of intent, if someone is working on a lock and they're not a licensed locksmith, this does not pertain to them, correct?"

estimate is over 10 percent variance from the original estimate, then what do you have to do?"

Turner: "They have to receive the written consent of the consumer."

Eddy: "Before you proceed? What if the individual isn't home and they're working on their lock, does the licensed locksmith have to sit in the front yard and wait for them to come back to get the written consent before they fix it because it's 10 percent over?"

Turner: "If's it's going to be 10 percent over, yes."

Eddy: "So they just kind of hang around the yard?"

Turner: "They may have to."

Eddy: "May just have to hang around the yard? What if it's snowing?"

Eddy: "No, I mean if it's snowing, is he allowed then to shovel the driveway and throw the snow out on to the road?"

Turner: "It may be okay now Thaddeus pulled it, so..."

Eddy: "Well, what if he puts it on the sidewalk first and then he throws it on the road, is that okay?"

Turner: "It would probably be all right."

Eddy: "Well. Just so he's all right. One final question. What is the penalty for violating this Act? What happens to the locksmith who... not... not that anyone would ever violate a law that you passed, Representative, but in the unlikely event that that would happen, what, pray tell, would happen to the locksmith?"

Turner: "The Attorney General can or the state's attorney can take legal action at that point. The Act already provides

The Attorney General will come to the person's home where the locksmith is working and she will personally discuss the issue with that person? Now, that's service. Representative, is that in your Bill or is that your intent?"

Speaker Madigan: "Speaker Madigan in the Chair. Ladies and Gentlemen, if I could have your attention. We have a very distinguished guest with us today and I'm going to ask him to offer some brief remarks to all of you. Thirty years ago today, there was an attempted assassination of President Reagan. And you may remember that one of the Secret Service Agents assigned to protect President Reagan was shot with a bullet on that day and survived the attempted killing, and it happened because he threw his body in front of President Reagan. And so, it's really with great pleasure that I introduce you to Mr. Tim McCarthy, the Secret Service Agent who was wounded on that day. Mr. McCarthy."

Tim McCarthy: "Thank you very much, Mr. Speaker, very gracious and kind of you to introduce me here today. And Representative McCarthy, no, we're not related. Kevin just says he's the one that took the bullet for the last 30 years and it keeps getting him elected, so that's good. But I just want to thank you for the opportunity to see you all here today. I'm down here with Illinois Chiefs of Police discussing some of our legislative issues along the way. But again, thank you so much for being here. Good luck in your work in supporting the people of the State of Illinois 'cause I'm one of them and so happy to get back from D.C., albeit 15 years ago, to get back to Illinois and my hometown. Verschoore: "Well, they work well for the contractors and for business."

Reis: "For the union contractors, right?"

Verschoore: "Well, it can work for nonunion contractors too. They can bid on the project."

Reis: "Only if they agree to hire union workers."

Verschoore: "Hire their own workers, that's true."

Reis: "So what are they supposed to do... what are they supposed to tell their own workers... and this has been a crow in our throats for a long time since Blagojevich issued the first Executive Order, is that nonunion contractors, which makes up 80 percent of the contract workers in this state, cannot have a chance to bid on state projects."

Verschoore: "They can bid on them and their members can become members."

Reis: "But they would have to hire union workers, so what is he supposed to tell, he or she, their nonunion workers?"

Verschoore: "They... the nonunion workers can go into that union and sign up. They're getting better pay and better benefits."

Reis: "Ah. Well, more union... more unions. Okay. Ladies and Gentlemen, to the Bill. This is discriminate rev... this is discrimination to all the contractors in this state that pay taxes, whose employees have payroll withheld on their

salaries, that they cannot bid on state projects. They deserve the same credit or the same opportunity as the union contractors to bid on state projects. It's going to bring down cost, it's going to increase competition, it's going to save taxpayers money and will allow the State of Illinois to do more projects with the same amount of limited resources. But this is... this is just wrong. As long as they conform to prevailing wage laws, as long as they conform to apprenticeship and proper training, they should have the same right to bid on state projects. Now they can't even bid on federal projects. And it was brought up in committee this week that, well, it's a safety issue and it's a infrastructure... they're going to... the unions are going to make better projects. Well, if they're building a bridge across Mt. Carmel like they just finished, and Indiana did..."

Speaker Lyons: "Representative Reis, we'll give you another minute to finish your remarks."

Reis: "If the State of Indiana did half the bridge and the State of Illinois did half the bridge, is the half that built on the Indiana going to fall down? Of course not. Do nonunion contractors wake up every day and try to purposely build inferior products? Of course, they don't. The vast majority of contractors in my district and I know Senator Sullivan's district cannot bid on this stuff. And I just think this is wrong to codify this, because if we do have a change in regime, maybe the next Governor may not want this. So, it's bad enough that we have Executive Orders setting this, but I think it's wrong for the

taxpayers and it's wrong for the nonunion contractors to codify this into law. And I would urge a 'no' vote."

Speaker Lyons: "The Gentleman from St. Clair, Representative Tom Holbrook."

Holbrook: "Thank you, Mr. Speaker. I have a question of the Sponsor. Will he yield?"

Speaker Lyons: "He awaits your question, Sir."

Holbrook: "Representative Verschoore, sometimes utility companies must relocate their facilities as a result of public works projects. Does this Bill also require utility companies to establish project labor agreements?"

Verschoore: "No. This Bill only applies directly to contracts of the state; therefore, the Bill does not cover utility relocation facilities and are done at the utility's expenses in support of their own network."

Holbrook: "Thank you."

Verschoore: "Thank you."

Speaker Lyons: "The Gentleman from Morgan, Representative Watson."

Watson: "How have Governor Blagojevich's economic policies worked out for the state?"

Verschoore: "Some of them not so good. But the contractor whether they're nonunion or union has to pay prevailing wage, so the... Mr... the previous speaker said that it would cost more money, it wouldn't cost more money. They have to pay the prevailing wage anyhow and benefits. So, it's not... it's not a situation where they to have pay, it'd be costing more money."

Watson: "So what... what is it actually codifying then that Blagojevich brought to the table that wasn't there before he came?"

Verschoore: "Well, what... the state can use it... like I said earlier, the state can use these when it's beneficial to them if they feel like they can't afford any work stoppages or there's a time limit on the job that needs to be done and/or if it needs to be on budget. Most PLA agreements, I'm not saying all, but the biggest percentage of PLA agreements come in on budget, under time and without any work stoppages. So, that's the benefit."

Watson: "Well, I... I guess, Representative, and I understand the point of these agreements I understand all... My challenge or what I struggle with is, is we still have this huge deficit and we still have a limited amount of resources to try to deliver some type of services and some types of projects throughout the state, and it just... it's a challenge. That's my only challenge. I understand your intent, but I think we have to start looking at things in a different paradigm and that is how do you expand these resources equitably so that we can impact... have the most positive impact possible. Thank you."

Speaker Lyons: "The Gentleman from Winnebago, Representative Jim Sacia."

Sacia: "Thank you, Mr Speaker. Will the Sponsor yield?"

Verschoore: "For the state... for a state?"

Sacia: "Yes, Sir."

Verschoore: "It would be no difference because they're... like I said earlier, they have to pay prevailing wage on the job, so there would be no difference."

Verschoore: "I would not think it would be that high. You might know a bit more than I do on that, but I wouldn't think it'd be that much."

Sacia: "Well, it's very, very significant, Representative, and we have... and several of the speakers previous have alluded to it, but we've reached a point in Illinois where we are literally upside down. We are bankrupt and we have so many small businesses... in fact, Representative Ford, this very day had a Bill to offer small businesses a better opportunity to bid on projects. We are in a financial crisis. By codifying project labor agreements, we really are taking the little guy out of the picture, the nonunion operator simply cannot compete. And you know when we have an administration that strives so much to do this very thing, it really does hinder our small business. It's the type of thing that I would certainly urge a 'no' vote..."

Speaker Lyons: "I'll give you another minute to finish your thoughts, Representative Sacia."

Verschoore: "On any type of projects, and as the two previous speakers were trying to point out, it says that the nonunion would not be able to compete. They absolutely would be able to compete. This is... this is for a state... this is a state... for State Law. This doesn't affect other jobs; it's just on state jobs. And they have to pay prevailing wage and so they'd have to pay the same... the same amount of money. It would not cost anymore."

Phelps: "Okay. Representative, real quick too. Isn't it true it's a business decision when a nonunion contractor doesn't want to bid on a PLA? It's just their business decision, correct?"

Verschoore: "That's right. It's their business decision because they can bid on it if they want to."

Phelps: "Also, many times in these PLA cases, in these jobs, usually it saves money because they're time sensitive and it gets done earlier, so therefore, the municipality or the government can save money on this, correct?"

It has protections in there in the Bill that says 'shall'... or 'may' rather than 'shall' use these agreements. So, it's... and everybody is able to bid on it and they would not... it wouldn't make any difference in cost because whether it's a nonunion or a union company they have to pay the prevailing wage and benefit package. We, on a regular basis, pass pieces of legislation that are subject to appropriation and many of them over years and years and years do not get funded. And basically what this legislation says, after being amended at the request of Representative Lang, it is seven years... after seven years those pieces of legislation are removed from the books. Now, we can then come back and pass them again if that's necessary, but this allows for the books to be cleared up. I think it's a good piece of legislation. I'd be glad to answer any questions."

Speaker Lyons: "You heard the Gentleman's explanation. Are there any questions? The Chair recognizes the Lady from Cook, Representative Monique Davis."

Davis, M.: "...just to summarily decide you're not funded, so we're going take you off the books. I don't think it's the good thing to do."

Bost: "Well, and... and here's why I think it is. They would give the golden opportunity for Legislators, if it's such great legislation, to move it again. They'd be able to get a new press pop on it, they'd be able to move forward with that, but what happens to the people who believe that that legislation is actually going to take effect when we do not fund it, and I'll give you an example of that. The late Terry Deering passed, in 1988 (sic-1998), a piece of legislation that said that if you have a county where the... where a correctional facility is located, your county clerk or circuit clerk receives a stipend of \$10 thousand to offset a lot of the paperwork that goes with having that facility. We have never funded that. That was subject to appropriation; it was never funded. Now, you have many clerks out there that, you know, that could probably depend on this, but the reality is we're not funding it. So, rather than holding it on the books when if you look at the Illinois Stat..."

Speaker Lyons: "We'll give you another minute, Representative, to finish the questions."

Bost: "...what, 10?"

Davis, M.: "To the Bill, Mr. Speaker. This is a big state and if we have 10 that may not be enough. We all know if you've been here a while how difficult it is to get any legislation passed through this Body, from committee to the House Floor, to committee to the Senate, to a Governor's signature, it is not an easy process. Granted, the past seven years or more have been difficult in getting some things funded that we want funded. Some may not have said by... for appropriations only. Let me give you an example what happens sometimes. For example, you have a commission that's authorized by this Body, signed by the Governor, but he doesn't appoint the members. So the members are not appointed, so they cannot do their work. I believe this Gentleman has a good idea. I'm sure the prison that's operating in his district doesn't need any legislation to stop them from doing whatever they may be doing or not doing, but they're getting their money for their prison, and some people had greater ideas who are not getting money for their projects. But I ask this question, who are we to remove it from the books? You know, it took a long time to get some of this legislation passed, and many of these Legislators who put these things on the books, are much greater than I. Now, I don't know if some people think they're smarter than every Legislative Body that has been here and we're going to wipe this out and we're going to wipe that out. I just don't think anybody in here is smarter than perhaps, you know, some of the former Members

of these Bodies who worked hard and diligently to put these things on the books. And I would urge a 'no' vote."

Davis, W.: "Mr. Speaker, will the Sponsor yield?"

Speaker Lyons: "The Sponsor yields."

Bost: "I'm... I'm sorry, could you repeat the question, please?"

Davis, W.: "Are you making a distinction between GRF funding and other funds, maybe federal..."

Bost: "No."

Davis, W.: "...dollars or anything like that?"

Bost: "No. No. Whenever it says 'subject to appropriation', that was... that was the way the language is written, it's searching out, and I believe, if I remember correctly, there are like... our original analysis said how many Bills there were out there... 184 such programs out there right now that have been passed that would fall off the books under this legislation, that have been passed and not... not appropriated."

Davis, W.: "Well, but that's... that's what I'm trying to be clear on, because while subject to appropriation generally refers to state funds, but if you have a fund that has the ability to receive federal and private dollars, does that register on the Comptroller's screen?"

Now, very few... or make... maybe you could tell me the language of one of these Bills that the appropriation... if there is a federal pass-through or a federal program, odds are when we draft that language it's normally..."

Davis, W.: "I'm not suggesting a pass-through or anything like... for instance, in the Capital Bill, that's under debate right now, in there is something called the, I believe, it's called the Illinois Fresh Food Fund..."

Davis, W.: "...where if it's..."

Bost: "...I believe it does. And here's the reason I believe it does because what you've just described is if a program has been... That is a fund, okay. That... that would be... what you're talking about there is already in the appropriation's process, we create a line item."

Bost: "Nah, and let me find that out. Okay, no... they're saying no."

Davis, W.: "They're saying no? So..."

Bost: "Because if it... because if it's federal... if it's federal, we're going to continue to receive the money and that's appropriated. Is that... maybe... maybe I'm not understanding your question."

Davis, W.: "Well, maybe... maybe I'm confused, but I'm just thinking about... maybe I just don't quite understand what 'subject to appropriations' mean in that respect. But I'm just wondering if there is a fund that's created even though it may be subject to appropriation, but if it has the ability to take in additional funds, does it need appropriation authority to actually spend the dollars?"

Bost: "If... if we have a federal program that someone is going give us... if the feds are going to give us money for a specific... particular program, we can draft language to have that placed into... a fund that that can be placed into. I'm trying to..."

Davis, W.: "But if it's different than a fund that you're... that's why I don't... if it has the ability to take in the dollars and you say any fund that is 'subject to appropriation', I'm just wondering does that make a

Davis, W.: "If you tell me it doesn't matter, then it doesn't matter."

Bost: "No, it doesn't matter because the thing is we don't make special... we don't do subject to appropriation if the Federal Government is already giving us those funds."

Davis, W.: "Okay. Thank you."

Bost: "This language just says, if it says 'subject to appropriation', and if a seven-year time period it has not been appropriated, then that particular language is removed from the books."

Bost: "They go away."

Franks: "...and if we ever wanted to reinstate them, we could, but at least this way they would not be able to be played with by any clever Governor who might want to temporarily put things in certain line items then take them out and create a private slush fund."

Bost: "This... this would also be a very positive part of this particular legislation."

Franks: "Well, and... as we have seen in the previous administration when we had some audits in our State Government Administration Committee, we found that the previous administration had created slush funds from taking line items from unused programs, moving it over to another line item and then spending it on no-bid contracts."

Bost: "Correct."

Franks: "In some cases, companies that did not even exist got \$35 million no-bid contracts by sweeping these line items. So, I think we'd be negligent if we did not close these line items that aren't being used, wouldn't you agree?"

I have to believe... in my 17 years here, once something is passed with the title 'subject to appropriation', I've seen very few of them ever be funded, because as I said, and that's not a slap in the face of the Legislators who have passed it, because they passed it with good intent, but once it's passed, they've got their press pop, it's on the books, and unless somebody's really pushing to fund it, it doesn't happen and... and..."

Reboletti: "And I think it does a disservice if you're filing those Bills and there is no money, people think they're going to get money, you could always tell them, well you have six more years to wait, not it's five more years to wait. The reality is when you're broke, you shouldn't be filing Bills that are subject to appropriation anyway because we don't have the revenue to fill that right. That's why I've joined you, Representative, you look lonely up there."

Bost: "Thank you."

Reboletti: "So, thank you."

Speaker Lyons: "Representative Bost to close."

Bost: "Thank you. Ladies and Gentlemen, I think it's been debated pretty clearly. I think it's just an opportunity to clear the books up, be sensible about what we do here. It's a seven-year process. I'd appreciate an 'aye' vote."

Speaker Lyons: "The question is, 'Should House Bill 1157 pass?' All those in favor signify by voting 'yes'; those opposed vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Brady, Gabel, Jackson, May, Stephens, like

to be recorded? Mr. Clerk... Mr. Clerk, take the record. On this Bill, there are 99 Members voting 'yes', 15 Members voting 'no', 0 voting 'present'. This Bill, having received the Constitutional Majority, is hereby declared passed. Representative Kelly Burke, on the Order of Third Readings you have House Bill 1670. Representative Burke, you ready? Mr. Clerk, read the Bill."

Clerk Mahoney: "House Bill 1670, a Bill for an Act concerning government. Third Reading."

Speaker Lyons: "The Lady from Cook, Representative Kelly Burke."

Burke, K.: "...Speaker. House Bill 1670 adds a requirement to the Open Meetings Act, that requires all members of a public body to take the Attorney General's online Open Meetings Act training. And for people who are currently with... currently a member of a public body that's subject to the Open Meetings Act, they'd have a year to do that, and for people who are newly elected or appointed to a public body, they'd have six months from the time they're elected or appointed. I ask for a 'yes' vote on this."

Speaker Lyons: "You've heard the Lady's explanation. Is there any discussion? The Chair recognizes the Gentleman... the Gentleman from Crawford, Representative Roger Eddy."

Eddy: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Burke, K.: "Yes."

Eddy: "Representative Burke, I think as introduced this... had a pretty severe penalty for not training?"

Burke, K.: "Yes."

Eddy: "What was that penalty?"

Burke, K.: "The penalty was that if you failed to do the training and failed to file the certificate with your Statement of Economic Interest, you would be ineligible to run for reelection to the office in which you were currently sitting. But that was amended and it now has no... there's no penalty provision within the Bill."

Eddy: "So, if an individual who's elected to public office now does not receive this training, there is no penalty whatsoever?"

Burke, K.: "That's correct."

Eddy: "So, this is kind of an attempt to get them involved to the point where there is this requirement and then it's their honor to make sure they do it. Do they have to do anything as far as a record of their training?"

Burke, K.: "When you take the... the Attorney General's training online, at the end there's a form you can... you enter your name and your office and then you print it out and you would file it with the Open Meetings Officer within your organization."

Eddy: "With the Open Meetings Officer whoever the board had designated as that officer with that board?"

Burke, K.: "That's correct."

Eddy: "And the Attorney General's Office doesn't have any statutory obligation to track this, to enforce it, nothing?"

Burke, K.: "None."

Eddy: "Okay. And I know there's still opposition to this. I appreciate the fact that you've made it a lot less onerous

and especially with that penalty. I think there's some concern that at some point or another, especially in rural communities, it's difficult, very difficult to get people to even serve on some of these boards, and we get to the point where we require of them this type of training and we may not have enough people interested."

Burke, K.: "Well, the opposition primarily was from, I believe, some of the..."

Speaker Lyons: "We'll give you another minute to finish the discussion. Go ahead, Representative, finish your answer."

Burke, K.: "I believe that the initial opposition was from the county clerks and county assessors. And they were included in the original Bill, but as it's been amended, it only includes members of bodies. If you've taken the training, it takes about a half hour. It's not anything more rigorous than... it would take 45 minutes at top. And when people serve on a public body, they have a responsibility to inform themselves about what is the law that covers them, and I don't think that's a very... I don't think this particular requirement is all that terrible for them."

Eddy: "Well, I appreciate that, but we'll see, because as I said, a half hour, 45 minutes for people who aren't compensated in any way, and sometimes it's difficult to get them to serve on these boards, you may not have a high rate of completion in some areas, but there is no penalty."

Burke, K.: "And I'm sensitive to that..."

Eddy: "Okay."

Burke, K.: "...and also sensitive to people's perhaps lack of access to the Internet and that's why we amended it to include..."

Eddy: "Without penalty."

Burke, K.: "...no penalty."

Eddy: "Okay. Thank you."

Speaker Lyons: "The Gentleman from Cook, Representative Zalewski."

Zalewski: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Burke, K.: "Yes."

Speaker Lyons: "Sponsor yields."

Zalewski: "Representative, is a 'public body' that you're referring to in the Bill is that the same definition that's in the Open Meetings Act?"

Burke, K.: "Yes."

Zalewski: "So, the concern I have with the Bill is that there are a lot of bodies that membership interchanges throughout the course of the year. People quit and then they rejoin or they go to this body and then they go to that body and they may not be aware of the training that they are required to have under the Bill. So, I'm wondering if there was ever any consideration of narrowing the definition of a 'public body' so that people know when they... if there's any length of tenure requirements so that we can be a little more concrete about who has to actually undergo the training?"

Burke, K.: "Well, I think... two things. That... there... each body should have a person designated to be the FOIA person and Open Meeting's person, and that... that person should be

telling these people and you need to do this training. There's also a six-month window that they need to complete it in, so if they're on the board for less than..."

Zalewski: "Okay. I didn't know that."

Burke, K.: "...six months that..."

Zalewski: "It's good to know."

Burke, K.: "And I just do want to stress that there is no penalties..."

Zalewski: "Sure."

Burke, K.: "...to raise awareness and make people understand their obligations."

Zalewski: "The concern is that even if there's no penalty you have a lot on these boards. Sometimes opposition groups can come up and they could use that as a wedge to cause friction in the board. You didn't take the training, he did take the training, so that, you know, it could be... it could become cumbersome and impede the board from doing its work. So, that would be, even those there's no penalty, that would be the concern I would have. But I think this six-month window which I didn't see in the analysis is... is good to know. So, thank you very much."

Speaker Lyons: "The Gentleman from Jasper, Representative Reis."

Reis: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Burke, K.: "Yes, school boards."

Reis: "Township boards?"

Burke, K.: "Township boards? I believe so, yes."

Reis: "Park districts?"

Burke, K.: "Park districts."

Reis: "What's... what's your goal with this by having them take the mandatory training?"

Burke, K.: "I believe that there are occasional lapses on boards when they do not act in compliance with the Open Meetings Act, and I believe most of those are inadvertent, people simply didn't understand that what they were doing was not something that was allowed under the Open Meetings Act. So, the goal is to have transparent government, have people acting within the law, and in the end to eliminate or reduce the instances where there are violations which can lead to legal costs and all sort of difficult things."

Reis: "Well, and that's why I bring up is, are these test results going to be subject to the FOIA Act?"

Burke, K.: "It's... I..."

record that is within your public body and that I would assume is FOIAable. That you've completed the training."

Reis: "And... to the Bill. My time's about running out here. I know you say that there's no penalty to this, but the penalty ultimately would be that that person did not conform to the Bill... the law, and that they could not run again. And in small rural areas with townships, library boards, park district's boards, sometime we beg people to join these... to run for office and serve on these boards, and to me, the ultimate test from the voter, if there's a lapse in this, if there's a continual lapse, is that they just don't elect them again. We got to give the voters credit for having some say in who they elect. And all these tests are great, but at the same time, if it's a deterrent from a liability standpoint, from a FOIA standpoint, from a noncompliance standpoint, that we are eliminating people from running for office, I think it's a real disservice for our small boards."

Speaker Lyons: "Representative Burke to close."

Burke, K.: "Representative, just to answer that quickly, perhaps I didn't make myself clear. That provision is not in the Bill any longer, the Amendment removed that provision. It's merely... there is no penalty, you're free to run..."

Speaker Lyons: "Close, Representative Burke, discussion's over."

Burke, K.: "I urge a 'yes' vote on House Bill 1670."

House Bill 3179 provides that a chronic or a habitual truant shall be defined as a child who's subject to compulsory school attendance and who is absent without valid cause from such attendance for 5 percent or 9 days of the previous 180-day regular attendance. Currently, a child is defined as a truant if they miss 10 percent or 18 days or more of a 180 regular days of attendance without an excuse."

Cavaletto: "I would say that the... It is based on each school district, yes."

Franks: "Yes. And that's... I'm concerned with that because let's assume you have a rural school district and you have a Muslim family that moves in from India or Pakistan, and they have a number of feast days or during the Feast of Ramadan, for instance, they might have to be at the mosque. And the mosque may not be anywhere near the district and that student has to travel, and this is 4 or 5 days due to the fact that they to go for religious reasons. There is no statewide standard that would allow that to be an excused absence. Isn't that correct?"

Cavaletto: "Yes, that would be an excused absence."

Franks: "Not necessarily, there is no statewide standard for that. I can tell you, in my family, my kids have been unexcused when we've gone for Jewish holidays."

Cavaletto: "I know that there's... in the Catholic faith there has been excused absences for kids missing school."

Franks: "But it's not a standard."

Cavaletto: "I said..."

Franks: "And my point... my point is, there is no uniformity with this. So, one school can make it excused and another may not. Wouldn't that... wouldn't you agree to that?"

Cavaletto: "That's very true."

Franks: "Okay. Well, that's the problem."

Cavaletto: "But... but let me say that, again, it would be up to that school if that's a valid cause of not going in."

Franks: "That's the problem though. We need a... we don't want a subjective standard, we want to have a uniform standard. So, if those same kids were at a different school district, those kids would not be deemed excused... unexcused, but those could be excused."

Cavaletto: "Excuse me. All we're doing with this Bill, Representative, is changing the percentage of days absent."

Franks: "I understand, but that's... but I want to get to how we figure out whether they're excused..."

Speaker Lyons: "Give you another minute to continue."

Franks: "I might need more than one minute. Now, right now, they can miss up to 18 days if you have 180 school days and they have 10 percent, then they would not be considered a chronic truant; however, you're trying to cut this in half, and that was where I was going because if there's not a... if

there is a subjective and not a standard. So, for instance, those kids for religious reasons missed, and then assume that they want to go home to Pakistan or India to do some religious things for a wedding, and because they're going to miss 4 days over... or 3 days over Thanksgiving and their flight is late coming back for Thanksgiving, now they've missed 5 days and then they've missed the 4 days or 5 days for the religion, now at 10 days they're a chronic truant."

Cavaletto: "Representative, I want to reiterate. It's a valid cause and I want to be able to go behind this Bill to try to keep the kids in school. Number 1, okay."

Franks: "We all... we all do."

Cavaletto: "Let me finish, please."

Franks: "We all do. Is there any scientific evidence? What do other states do when they determine a chronic truant? Are they at 10 percent..."

Speaker Lyons: "Representative, I gave you an extra minute on that. And Representative Mary Flowers, for what purpose do you seek recognition?"

Flowers: "I would like to yield my time to Representative Franks."

Speaker Lyons: "Representative Franks for two minutes."

Franks: "Thank you, Mary. What do the other states do? And I want to know how you came up with..."

Cavaletto: "It varies; and there're... some are more, some are less."

Cavaletto: "This... this Bill... derived out of my county of judges, superintendents, principals, teachers, parents of the number of days that kids were a chronic truant from school. We... we feel that the purpose of this was to keep those kids in school and to catch them in 18 days would be a little too late. To catch them at 9 days might save a student and keep him in school and therefore graduate. So, that... that was the meaning of this Bill why we reduced it from 10 percent to 5 percent."

Franks: "Well..."

Cavaletto: "Now you bring in these other aspects, I think all schools have their own days of attendance and absents listed. And if your school has a problem with that, then I... if I were you, I would go to that school and make myself known."

Franks: "But that's not you're doing. You're telling us we have to have statewide standard and then deal with every individual school district with your standard."

Cavaletto: "No, Sir."

Franks: "That's exactly what he's doing."

Cavaletto: "It has to... it has to do with we going from 10 percent to 5 percent in days... in chronic truancy."

Franks: "We all want to keep kids in school, but until we have a standard, what we need to do is change the School Code and talk to the State Board of Education, and why don't we have a uniform code so we'll know what's excused and what isn't. I don't want some kid to find out that it wasn't excused and now they're a chronic truant because they went home for some religious thing."

Ladies and Gentlemen, I don't think I'll ever see the day when somebody stands up in the House Floor and tries to defend students being unexcused for school for a number of days over a local school board wanting them to be in school. There are not school districts in this state that arbitrarily set days and cause unexcused absence for students who are on religious holidays. That doesn't happen. And if you have proof that that happens, you come forward with those schools that are discriminating against those individuals for religious holidays. There is a standard in the School Code for unexcused absences. This Gentleman is bringing us a Bill today that says, don't wait

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

'til it's too late to get those kids. We have truants in this state; we have kids that need help. After 9 days of unexcused absences in a school year, this Gentleman says we need to step in and do something with those kids. We don't want them out of school. We want them in school. Unexcused absence is being gone from school without a valid excuse. School districts are different. In some parts of the state they do allow certain days off. In our part of the state there may be a policy that allows them to have a unexcused... or an excused absence for a hunting day with their parents. The point is, that's local control. The Gentleman has brought us a Bill that's intended to save children from chronic truancy and going down the wrong path. All he's doing is taking the existing standard for excused and unexcused and saying if you're excus... unexcused from school after 9 days, they can be... they can be submitted for truancy services and we can go out and find out what the reason is. Those are unexcused absences. It doesn't... it doesn't do anything except us to intervene much sooner with kids who are obviously not in school for reasons other than excused absences and illnesses, and religious holidays or religious vacations or whatever it is that they are locally allowed to do. It's a good Bill. It's a good Bill for kids. I urge an 'aye' vote."

Speaker Lyons: "The Chair recognizes the Gentleman from Lee, Representative Jerry Mitchell."

Mitchell, J.: "Thank you, Mr. Speaker. Ladies and Gentlemen, I want to reiterate what the previous speaker just said, and the Gentleman that had a concern with this Bill, the

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

problem with the argument was that you're arguing two totally different points. Now if you want to have a standard for what chronic truancy is, that's a different Bill. This Bill simply changes the standard that's already there. We're not arguing that. We're saying that we're going to catch truants sooner and give them the help they need so that don't become chronic truants. I don't know how anybody with a logical mind cannot see that this is a good way of making sure, especially, young kids in the elementary school stay in school, and that's where this will have the most emphasis is with the young kids that are still impressionable, still have a chance to turn around that truancy problem that they have. It's an excellent Bill. I also recommend an 'aye' vote. Thank you, Mr. Speaker."

Speaker Lyons: "The Chair recognizes the Gentleman from Cook, Representative Keith Farnham."

Farnham: "I'd like to yield my time to Representative Franks."

Speaker Lyons: "Representative Franks for two minutes."

Franks: "Thank you. I think the question is, we all want to keep kids in school, but the question is, how we count. And now one of the previous speakers that talked about local control and some of the schools would let off someone to go hunting and not count that as an unexcused absence. Well, I can tell you, they're not going to give that off in Chicago, if you go to Chicago Public Schools. They're not going to say you can have the day off to go hunting. So what I'm saying is, if we're going to change the standard, and it might be a good idea to change the standard, but

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

3/30/2011

what we should be doing before we change the standard is know how we count the days the kids are missing. Because I don't want one kid to be declared a chronic truant because he's able to go hunting if he lives in McHenry County, but if he wanted to go hunting and he lived in Chicago, he would be coun... he would not be allowed to do that because he would be considered a chronic truant. I like the idea. This Bill though won't get us there and I think it will cause more confusion. What we ought to do is change the standard. I'd ask the Speaker... or the Sponsor to please move this back to Second, let's get a standard and let's do that, because without a standard our kids are going to be treated differently, and that's not what we want to do. We want to keep our kids in school, but we don't want to punish those kids based on where they live."

Speaker Lyons: "The Chair recognizes the Gentleman from Sangamon, Representative Raymond Poe."

Poe: "Mr. Speaker, I'd like to yield my time to Roger Eddy."

Speaker Lyons: "Representative Eddy."

Eddy: "Yeah, Mr. Speaker, I don't... I think this... we've worn this out, but it's really simple. If anyone wants to bring a Bill forward to change the statute regarding excused and unexcused absences and they want to try to impose a uniform standard on all schools, then file a Bill. File a Bill that does that. If you think every single school district in the state should have absences excused or unexcused based on a certain standard, file the Bill. That's not what this Bill is about. This Bill is about trying to intervene with students who aren't in school, earlier, and

STATE OF ILLINOIS  
97th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

32nd Legislative Day

the Gentleman is saying, after 9 days, let's get in there. Let's get in there and work with these kids. Let's send someone out to find out why they're not in school. What is the unexcused absence about? This is pretty simple. If you have a problem with unexcused and excused absences and statewide standards, file a Bill, that's separate. If you want kids in school that are truant, look what we're doing with our truant alternative grant funding in this state. We don't have the money, we cut services and funding for truant students in this state the last several years. We're trying to reenroll dropouts in this state. Representative Mitchell passed great legislation, and we've got success stories. I was in Chicago last week for an approp hearing and there was a room full of kids who are successful because we intervene and we have these programs. This is a good Bill. This will help.. this will help a lot of kids because we'll get to them sooner. And Representative, I respect the fact that you believe that there should be a statewide standard, I think we can debate that on another Bill, but on this one, if you think we ought to get the kids earlier and we ought to be able to try to keep them in school, vote 'yes'. It's a good Bill."

Speaker Lyons: "Representative Brauer."

Brauer: "Thank you, Mr. Speaker. If I could, this Bill is so simple, I'd like to yield my time to Representative Mitchell and let him explain it."

Mitchell, J.: "Thank you, Mr. Speaker. Again, just one more time. The speaker that... that is concerned about this Bill, that point is well-taken, but it really is not a point in this Bill. His point... he emphasized exactly where we stand when he said that if a student from Chicago took a day off for hunting, it would not be excused, and that's the reason why local council... local control is so important. That's up to the local school district, but that's the other side of the coin. If we're going to count days, the local school district has to understand what it is and the students have to understand what they are. If they do, we don't have a problem with it. There doesn't need to be a standard to that, but that's a different Bill and a different argument. This Bill simply says, we want to change the standard that is and make it better. Now if you like that, vote for the Bill; if you don't want to change the standard that's already there, then vote 'no'. But for me, I think it's a great Bill. I'm voting 'yes'. Representative Colvin, Representative Lilly. Representative  
Colvin, Representative Lilly. Mr. Clerk, take the record.  
On this Bill, there's 108 'yesses', 6 'noes', 1 'present'.  
This Bill, having received the Constitutional Majority, is  
hereby declared passed. Representative Roger Eddy, we're  
going to put you to work on behalf of Representative Cross.  
We have House Bill 197. Read the Bill, Mr. Clerk."

Clerk Mahoney: "House Bill 197, a Bill for an Act concerning  
State Government."

Speaker Lyons: "Representative Roger Eddy."

Eddy: "Thank you, Mr. Speaker. Basically, this Bill, as  
amended, allows for the Illinois Commission on Fiscal  
Responsibility and Reform... the commission will look at  
fiscal issues in the state and issue a report to the  
General Assembly. And I would be happy to try to answer  
any questions about this. I'm happy that we continued  
ahead in this direction toward a more disciplined and  
fiscal approach to budgeting in this state. And again,  
I'll be happy to answer any questions on behalf of Leader  
Cross."

Speaker Lyons: "Representative Jackson, your light was on. Representative Jackson. No, okay. Representative Jack Franks."

Franks: "I was so right on the last one, I figured I'd ask on this one. Now your Amendment, you were at 18 members and you decided to go to 22, correct?"

Eddy: "Pardon me, Representative, I guess I didn't hear the question."

Franks: "Your... in your original Bill, the introduced Bill, you had 18 members and now with your Amendment you've increased it to 22?"

Eddy: "Right."

Franks: "Okay. I just... I had to smile because this is on a commission on fiscal responsibility. Why do we want to have bigger government?"

Eddy: "Well, I think the point is to provide the kind of input that we might need in order to head down the road to some... some additional fiscal responsibility, we added members that might help that commission perform its duties better. I understand what you're saying, but I think the work of this Body was such that those additional members were merited."

Franks: "Thank you."

Speaker Lyons: "The Gentleman from Cook, Representative Lou Lang."

Lang: "Thank you. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Lang: "Is this your first Bill, Sir?"

Eddy: "No, Sir."

Lang: "So, let me... do these Members get paid?"

Eddy: "Representative, my understanding is that the commission does not... there's not compensation. In fact, it states on line 17 and 18 that the members shall serve without compensation."

Lang: "So, they don't even get expenses, gas money, mileage, hotel rooms."

Eddy: "Representative, give me a second here... and..."

Lang: "I'll give you all the time you want, Sir."

Eddy: "I appreciate that. I... Representative, there's nothing in the Bill to indicate that they would be reimbursed any expenses."

Lang: "Well, then I guess we have to assume they wouldn't be. You think you'll find 22 people willing to serve on this commission if they're not even getting paid gas mileage?"

Eddy: "Yeah, I think so. I think because several of them are appointed Members of the House of Representatives that they will, as you would, perform your duties as an appointed elected public official without concern of a small remuneration that would provide our state with the kind of fiscal expertise necessary to head the ship in the right direction."

Lang: "I have no idea what you just said. Would you... would you agree though that if they end up getting paid for expenses the 22-member commission will cost more than an 18-member commission?"

Eddy: "Representative, I think any time you multiply any amount times zero, it's still zero. I don't know, there are some

math experts here. I could have Representative Fortner back me up on the math portion."

Lang: "This would seem to be something Mr. Biss and Mr. Fortner should be debating, correct?"

Eddy: "Possibly, but I really do believe that a law of math that has to do with a multiplier by zero would result in zero dollars."

Lang: "Well, I don't think you answered my question though. If they decide to pay them for mileage, and if they have to rent places to have their meetings, you would agree with me that more people means more expenses, would you not?"

Eddy: "If that were the case; however, the Bill's pretty clear that there isn't any remuneration even for expenses. So..."

Lang: "All right. Well..."

Eddy: "...again, I would just go back to my original answer that whatever number..."

Lang: "So, then why not..."

Eddy: "...you multiply by zero..."

Lang: "So, if it's free for all of these people, why not have a commission of 220 people?"

Eddy: "Well, I think at some point or another, you've reached the point of diminishing return."

Lang: "I see."

Eddy: "And I think we're getting there with your questioning."

Lang: "Well, do you know what that number is? Do you know where that number comes in, Sir?"

Eddy: "No, again, I think the number was established because after the original commission was set up, there was a recognition that additional members might bring additional

expertise to the commission. So, in an effort to make it even better, they added members."

Lang: "Well, I think you've answered all of my questions, not well, but I think you've answered all of my questions."

Eddy: "Thank you."

Speaker Lyons: "The Chair recognizes the Gentleman from Vermilion, Representative Hays. Does not seek recognition. Representative Eddy to close."

Eddy: "Thank you very much. Ladies and Gentlemen of the House, I appreciate the questions, not very much, but I do appreciate the questions by Representative Lang. And I would ask for an 'aye' vote."

Jackson: "Mr. Speaker, I'd like to be recorded as voting 'yes' on 1157."
