1 AMENDMENT TO HOUSE BILL 3493

2 AMENDMENT NO. \_\_\_\_\_. Amend House Bill 3493 by replacing  
3 everything after the enacting clause with the following:

4 "Section 1. Short title. This Act may be cited as the  
5 Prescription Drug Affordability Act.

6 Section 5. The General Assembly finds that:

7 (1) Prescription drugs are an essential part of good health  
8 care and a critical component of our health care system.  
9 Illinoisans spend \$13,000,000,000 each year on prescription  
10 drugs and have a vested interest in ensuring they are  
11 affordable. People living with chronic conditions need  
12 prescription drugs to function and stay healthy. Their quality  
13 of life is dependent on them. Access to prescription drugs can  
14 be the difference between life and death.

15 (2) Illinoisans have faced increasing challenges in  
16 affording the prescription drugs they depend upon to be

1 healthy. The costs of brand name drugs have increased 60% since  
2 2014 and annual cost increases regularly outpace medical  
3 inflation.

4 (3) Affordability challenges have led more and more  
5 Illinoisans to skip doses of prescribed medication and  
6 otherwise ration their medication. An estimated 46,000,000  
7 Americans have skipped or rationed their medications due to  
8 cost, sometimes leading to serious medical complications.

9 (4) The increase in prescription drug costs is the leading  
10 driver of increases in health insurance premiums. High  
11 prescription drug costs raise State costs under Medicaid and  
12 the State Employee Group Insurance Program, raise employer  
13 benefits costs, and are passed onto individuals and families.

14 (5) It is the traditional role of State government to  
15 protect the health, safety, and welfare of its residents.  
16 Illinois has a long history of ensuring services and products  
17 essential to life and health, such as clean water and  
18 electricity, are affordable. The State has a compelling reason  
19 to ensure prescription drug costs balance consumer access and  
20 returns for industry.

21 (6) The current system is causing affordability challenges  
22 for those who depend on insulin. The average cost of insulin  
23 tripled from 2002 to 2013, and one out of every 4 individuals  
24 living with diabetes has had to ration his or her insulin due  
25 to cost. This can lead to serious complications including  
26 kidney failure, heart disease, blindness, amputations, and

1 death.

2 (7) The current system is causing affordability challenges  
3 for those who need prescription drugs to treat multiple  
4 sclerosis (MS). Early and ongoing treatment with a  
5 disease-modifying therapy for MS is the best way to modify the  
6 course of the disease, prevent accumulation of disability, and  
7 protect the brain, yet many people cannot access the  
8 medications they need. It is estimated that 40% of those living  
9 with MS skip doses of medications due to cost. These  
10 medications routinely cost \$80,000 per year or more and have  
11 increased five-fold since they first came to market in the  
12 1990s.

13 (8) The current system is causing affordability challenges  
14 for those who need prescription drugs to treat cancer.  
15 Prescriptions to treat cancer routinely cost more than \$100,000  
16 per year. The incremental increase in cost for a course of  
17 treatment increased from \$30,447 in 2006 to \$161,141 in 2015.  
18 Cancer survivors are 2.7 times more likely to file for  
19 bankruptcy than those who have not been diagnosed with cancer.

20 (9) The current system is causing affordability challenges  
21 for those who need prescription drugs to treat rheumatoid  
22 arthritis. Medications to treat rheumatoid arthritis increased  
23 70% in only 3 years. The initial cost of rheumatoid arthritis  
24 medication was \$10,000 per year when it was first introduced,  
25 but has increased to \$40,000 per year despite several  
26 alternatives coming to market.

1           (10) The State and its residents are facing numerous  
2 affordability challenges across many classes of drugs. The  
3 current system has not produced affordable costs. An Illinois  
4 Prescription Drug Affordability Board that can review multiple  
5 classes of drugs across the supply chain is therefore necessary  
6 to determine how best to deliver prescription drug costs that  
7 are affordable to all Illinoisans.

8           Section 10. Definitions. In this Act:

9           "Biologic" means a drug that is produced or distributed in  
10 accordance with a biologics license application approved under  
11 42 U.S.C. 447.502.

12           "Biosimilar" means a drug that is produced or distributed  
13 in accordance with a biologics license application approved  
14 under 42 U.S.C. 262(k) (3).

15           "Board" means the Prescription Drug Affordability Board.

16           "Brand name drug" means a drug that is produced or  
17 distributed in accordance with an original new drug application  
18 approved under 21 U.S.C. 355(c). "Brand name drug" does not  
19 include an authorized generic drug as defined by 42 CFR  
20 447.502.

21           "Council" means the Prescription Drug Affordability  
22 Stakeholder Council.

23           "Generic drug" means:

24           (1) a retail drug that is marketed or distributed in  
25 accordance with an abbreviated new drug application,

1 approved under 21 U.S.C. 355(j);

2 (2) an authorized generic drug as defined by 42 CFR  
3 447.502; or

4 (3) a drug that entered the market before 1962 that was  
5 not originally marketed under a new drug application.

6 "Manufacturer" means an entity that:

7 (1) engages in the manufacture of a prescription drug  
8 product; or

9 (2) enters into a lease with another manufacturer to  
10 market and distribute a prescription drug product under the  
11 entity's own name; and

12 (3) sets or changes the wholesale acquisition cost of  
13 the prescription drug product it manufactures or markets.

14 "Prescription drug product" means a brand name drug, a  
15 generic drug, a biologic, or a biosimilar.

16 Section 15. Prescription Drug Affordability Board.

17 (a) There is established a Prescription Drug Affordability  
18 Board. The purpose of the Board is to protect State residents,  
19 State and local governments, commercial health plans, health  
20 care providers, pharmacies licensed in the State, and other  
21 stakeholders within the health care system from the high costs  
22 of prescription drug products. The Board is a public body and  
23 is an instrumentality of the State. The Board is an independent  
24 unit of State government. The exercise by the Board of its  
25 authority under this Act is an essential function.

1           (b) The 5 members of the Board and 5 alternates shall be  
2 appointed by the Governor with the advice and consent of the  
3 Senate. The Governor shall select one member to serve as Chair.  
4 If the Senate is not in session when the first appointments are  
5 made, the Governor shall make temporary appointments as in the  
6 case of a vacancy. No Board seat shall remain vacant more than  
7 60 consecutive days.

8           (c) The Board members and alternates must collectively have  
9 expertise in health care economics and clinical medicine. A  
10 member or an alternate member may not be an employee of, a  
11 board member of, or a consultant to a manufacturer or trade  
12 association for manufacturers.

13           (d) Any conflict of interest, including whether the  
14 individual has an association, including a financial or  
15 personal association, that has the potential to bias or has the  
16 appearance of biasing an individual's decision in matters  
17 related to the Board or the conduct of the Board's activities,  
18 shall be considered and disclosed when appointing members and  
19 alternate members to the Board.

20           (e) The term of a member or an alternate member is 5 years.  
21 The terms of the members and alternate members shall be  
22 staggered.

23           (f) The Chair shall hire an executive director, general  
24 counsel, and staff for the Board. Staff of the Board shall  
25 receive a salary as provided in the budget of the Board. A  
26 member of the Board: (i) may receive compensation as a member

1 of the Board; and (ii) is entitled to reimbursement for  
2 expenses.

3 (g) A majority of the members of the Board shall constitute  
4 a quorum for the purposes of conducting the business of the  
5 Board.

6 (h) Subject to the requirements of this subsection (h), the  
7 Board shall meet in open session at least once every 6 weeks to  
8 review prescription drug product information. Information  
9 concerning the location, date, and time of the meeting must be  
10 made publicly available in accordance with the Open Meetings  
11 Act. The Chair may cancel or postpone a meeting if there are no  
12 prescription drug products to review.

13 The Board shall perform the following actions in open  
14 session: (i) deliberations on whether to subject a prescription  
15 drug product to a cost review; (ii) any vote on whether to  
16 impose an upper payment limit on purchases and payor  
17 reimbursements of prescription drug products in the State; and  
18 (iii) any decision by the Board. The Board may otherwise meet  
19 in closed session to discuss proprietary data and information.

20 The Board shall provide public notice of each Board meeting  
21 at least 2 weeks in advance of the meeting. Materials for each  
22 Board meeting shall be made available to the public at least  
23 one week in advance of the meeting. The Board shall provide an  
24 opportunity for public comment at each open meeting of the  
25 Board. The Board may not make any binding decisions unless this  
26 comment period has been provided with a sufficient amount of

1 time. The Board shall provide the public with the opportunity  
2 to provide written comments on pending decisions of the Board.  
3 The Board may allow expert testimony at Board meetings,  
4 including when the Board meets in closed session.

5 Members of the Board shall recuse themselves from decisions  
6 related to a prescription drug product and disclose interests  
7 if the member, or an immediate family member of the member, has  
8 received or could receive any of the following: (i) a direct  
9 financial benefit of any amount deriving from the result or  
10 finding of a study or determination by or for the Board; or  
11 (ii) a financial benefit from any person that owns,  
12 manufactures, or provides prescription drug products,  
13 services, or items to be studied by the Board that in the  
14 aggregate exceeds \$5,000 per year. A disclosure of interests  
15 under this paragraph shall include the type, nature, and  
16 magnitude of the interests of the member or his or her  
17 immediate family member involved. For the purposes of this  
18 paragraph, a financial benefit includes honoraria, fees,  
19 stock, the value of the member's or immediate family member's  
20 stock holdings, and any direct financial benefit deriving from  
21 the finding of a review conducted under this Act.

22 A conflict of interest shall be disclosed in advance of the  
23 first open meeting after the conflict is identified or within 5  
24 days after the conflict is identified. A conflict of interest  
25 shall be disclosed by: (i) the Board when hiring Board staff;  
26 (ii) the appointing authority when appointing members and

1 alternate members to the Board and members to the Council; and  
2 (iii) the Board when a member of the Board is recused in any  
3 final decision resulting from a review of a prescription drug  
4 product. A conflict of interest disclosed under this Section  
5 shall be posted on the website of the Board unless the Chair of  
6 the Board recuses the member from any final decision resulting  
7 from a review of a prescription drug product.

8 Members and alternate members of the Board, Board staff,  
9 and third-party contractors may not accept any gift or donation  
10 of services or property that indicates a potential conflict of  
11 interest or has the appearance of biasing the work of the  
12 Board.

13 Section 20. Powers and duties of the Board.

14 (a) In furtherance of this Act, the Board shall identify  
15 prescription drug products that may create affordability  
16 challenges for residents of the State and conduct an  
17 affordability review for a minimum of 10 such prescription drug  
18 products over the course of a 12-month period. The Board has  
19 the authority to set an upper payment limit for such  
20 prescription drug products.

21 (b) To the extent practicable, the Board shall access  
22 pricing information for prescription drug products by: (i)  
23 entering into a memorandum of understanding with another state  
24 to which manufacturers already report pricing information; and  
25 (ii) accessing other available pricing information.

1           (c) In addition to the powers set forth elsewhere in this  
2 Act, the Board may: (i) adopt rules for the implementation of  
3 this Act; (ii) enter into a contract with a qualified,  
4 independent third party for any service necessary to carry out  
5 the powers and duties of the Board; and (iii) exercise any and  
6 all other powers necessary or desirable to accomplish the  
7 purposes, objectives, and provisions of this Act and to perform  
8 its duties under this Act. Unless permission is granted by the  
9 Board, a third party hired by the Board may not release,  
10 publish, or otherwise use any information to which the third  
11 party has access under its contract.

12           Section 25. Prescription Drug Affordability Stakeholder  
13 Council.

14           (a) The Prescription Drug Affordability Stakeholder  
15 Council is created.

16           (b) The purpose of the Council is to provide stakeholder  
17 input to assist the Board in making decisions as required under  
18 this Act.

19           (c) The Council shall consist of 25 members appointed 5  
20 each by the Governor, the Speaker of the House of  
21 Representatives, the Minority Leader of the House of  
22 Representatives, the President of the Senate, and the Minority  
23 Leader of the Senate, and shall represent the following  
24 entities:

25           (1) two representative of a statewide health care

1 advocacy coalition;

2 (2) one representative of a statewide advocacy  
3 organization for seniors;

4 (3) one representative of a statewide organization for  
5 diverse communities;

6 (4) two representative of a labor union;

7 (5) two health services researchers specializing in  
8 prescription drugs;

9 (6) one representative of doctors;

10 (7) one representative of nurses;

11 (8) one representative of hospitals;

12 (9) one representative of health insurers;

13 (10) one representative of the Governor's Office of  
14 Management and Budget;

15 (11) one clinical researcher;

16 (12) one representative of brand name drug  
17 corporations;

18 (13) one representative of generic drug corporations;

19 (14) one representative of employers;

20 (15) one representative of pharmacy benefit managers;

21 (16) one representative of pharmacists;

22 (17) one representative of pharmacologists; and

23 (18) five members of the public.

24 (d) The members of the Council shall have knowledge of one  
25 or more of the following:

26 (1) the pharmaceutical business model;

- 1 (2) supply chain business models;
- 2 (3) the practice of medicine or clinical training;
- 3 (4) consumer or patient perspectives;
- 4 (5) health care costs, trends, and drivers;
- 5 (6) clinical and health services research; or
- 6 (7) the State's health care marketplace.

7 (e) From among the membership of the Council, the Board  
8 chair shall appoint 2 members to be co-chairs of the Council.

9 (f) The term of a member is 3 years. The initial members of  
10 the Council shall serve staggered terms.

11 (g) A member of the Council may not receive compensation as  
12 a member of the Council, but is entitled to reimbursement for  
13 travel expenses.

14 (h) The Board shall ensure Council membership in accordance  
15 with this Section and may deny appointment if appointees do not  
16 comply. No Council seat shall remain vacant more than 60  
17 consecutive days.

18 Section 30. Drug cost affordability review.

19 (a) The Board shall identify the following prescription  
20 drug products and determine whether each identified  
21 prescription drug product should be subject to a cost review as  
22 described in subsection (e):

23 (1) brand name drugs and biologics that, as adjusted  
24 annually for inflation in accordance with the Consumer  
25 Price Index, have:

1 (A) a launch wholesale acquisition cost of \$30,000  
2 or more for a year or course of treatment; or

3 (B) a wholesale acquisition cost increase of  
4 \$3,000 or more in any 12-month period, or course of  
5 treatment if less than 12 months;

6 (2) biosimilar drugs that have a launch wholesale  
7 acquisition cost that is not at least 15% lower than the  
8 referenced brand biologic at the time the biosimilar is  
9 launched;

10 (3) generic drugs that, as adjusted annually for  
11 inflation in accordance with the Consumer Price Index, have  
12 a wholesale acquisition cost:

13 (A) of \$100 or more for:

14 (i) a 30-day supply lasting a patient for a  
15 period 30 consecutive days based on the  
16 recommended dosage approved for labeling by the  
17 United States Food and Drug Administration;

18 (ii) a supply lasting a patient for fewer than  
19 30 days based on the recommended dosage approved  
20 for labeling by the United States Food and Drug  
21 Administration; or

22 (iii) one unit of the drug if the labeling  
23 approved by the United States Food and Drug  
24 Administration does not recommend a finite dosage;  
25 and

26 (B) that increased by 200% or more during the

1 preceding 12-month period, as determined by the  
2 difference between the resulting wholesale acquisition  
3 cost and the average of the wholesale acquisition cost  
4 reported over the preceding 12 months; and

5 (4) in consultation with the Council, prescription  
6 drug products that may create affordability challenges for  
7 the State healthcare system, including patients.

8 (b) After identifying a prescription drug product as  
9 required under subsection (a), the Board shall determine  
10 whether to conduct a cost review as described in subsection (e)  
11 for each identified prescription drug product by:

12 (1) seeking Council input about the prescription drug  
13 product; and

14 (2) considering the average patient cost share of the  
15 prescription drug product.

16 (c) The information to conduct an affordability review may  
17 include any document and research related to the manufacturer's  
18 selection of the introductory price or price increase of the  
19 prescription drug product, including life cycle management,  
20 net average price in the State, market competition and context,  
21 projected revenue, and the estimated value or  
22 cost-effectiveness of the prescription drug product.

23 (d) A manufacturer shall provide such reports as the Board  
24 deems necessary for the Board to conduct an affordability  
25 review. The Board shall not unreasonably request information  
26 that constitutes proprietary, privileged, or confidential

1 trade secrets under the Freedom of Information Act. Failure of  
2 a manufacturer to provide the Board with the information for an  
3 affordability review does not affect the authority of the Board  
4 to conduct such a review.

5 (e) If the Board conducts a review of the cost and  
6 affordability of a prescription drug product, the review shall  
7 determine whether use of the prescription drug product that is  
8 fully consistent with the labeling approved by the United  
9 States Food and Drug Administration or standard medical  
10 practice has led or will lead to affordability challenges for  
11 the State health care system or high out-of-pocket costs for  
12 patients. To the extent practicable, in determining whether a  
13 prescription drug product has led or will lead to an  
14 affordability challenge, the Board shall consider the  
15 following factors:

16 (1) the wholesale acquisition cost for the  
17 prescription drug product sold in this State;

18 (2) the average monetary price concession, discount,  
19 or rebate the manufacturer provides to health plans in this  
20 State or is expected to provide to health plans in this  
21 State as reported by manufacturers and health plans,  
22 expressed as a percent of the wholesale acquisition cost  
23 for the prescription drug product under review;

24 (3) the total amount of the price concession, discount,  
25 or rebate the manufacturer provides to each pharmacy  
26 benefit manager operating in this State for the

1 prescription drug product under review, as reported by  
2 manufacturers and pharmacy benefit managers, expressed as  
3 a percent of the wholesale acquisition costs;

4 (4) the price at which therapeutic alternatives have  
5 been sold in this State;

6 (5) the average monetary concession, discount, or  
7 rebate the manufacturer provides or is expected to provide  
8 to health plan payors and pharmacy benefit managers in this  
9 State for therapeutic alternatives;

10 (6) the costs to health plans based on patient access  
11 consistent with Federal Food and Drug Administration  
12 labeled indications and recognized standard medical  
13 practice;

14 (7) the impact on patient access resulting from the  
15 cost of the prescription drug product relative to insurance  
16 benefit design;

17 (8) the current or expected dollar value of  
18 drug-specific patient access programs that are supported  
19 by the manufacturer;

20 (9) the relative financial impacts to health, medical,  
21 or social services costs as can be quantified and compared  
22 to baseline effects of existing therapeutic alternatives;

23 (10) the average patient co-pay or other cost-sharing  
24 for the prescription drug product in this State;

25 (11) any information a manufacturer chooses to  
26 provide; and

1           (12) any other factors as determined by the Board in  
2           rules adopted by the Board.

3           (f) If the Board finds that the spending on a prescription  
4           drug product reviewed under this Section has led or will lead  
5           to an affordability challenge, the Board shall establish an  
6           upper payment limit after considering: (i) the cost of  
7           administering the drug; (ii) the cost of delivering the drug to  
8           consumers; and (iii) other relevant administrative costs  
9           related to the drug. The upper payment limit applies to all  
10          purchases and payor reimbursements of the prescription drug  
11          product dispensed or administered to individuals in the State  
12          in person, by mail, or by other means.

13          (g) Any information submitted to the Board in accordance  
14          with this Section shall be subject to public inspection only to  
15          the extent allowed under the Freedom of Information Act.

16          (h) This Section may not be construed to prevent a  
17          manufacturer from marketing a prescription drug product  
18          approved by the United States Food and Drug Administration  
19          while the product is under review by the Board.

20          Section 35. Remedies. The Attorney General shall have  
21          authority to enforce this Act. The Attorney General may pursue  
22          any available remedy under State or federal law to accomplish  
23          the objectives of this Act. Notwithstanding any other provision  
24          of law to the contrary, the Board and its staff shall forward  
25          any complaints regarding alleged violations of this Act or any

1 consumer protection law or other law to the Attorney General  
2 and work cooperatively with the Attorney General. Nothing in  
3 this Section shall be construed to limit the remedies available  
4 under State or federal law that provide greater or equal  
5 protection to consumers.

6 Section 40. Appeal of Board decisions.

7 (a) A person aggrieved by a decision of the Board may  
8 request an appeal of the decision within 30 days after the  
9 finding of the Board.

10 (b) The Board shall hear the appeal and make a final  
11 decision within 60 days of the hearing.

12 (c) Any person aggrieved by a final decision of the Board  
13 may petition for judicial review.

14 Section 45. Prescription Drug Affordability Board Fund.

15 (a) In this Section, "fund" means the Prescription Drug  
16 Affordability Board Fund.

17 (b) The Prescription Drug Affordability Board Fund is  
18 created. The fund shall be used only to provide funding for the  
19 Board and for the purposes authorized under this Act, including  
20 any costs expended by any State agency to implement this Act.

21 (c) Subject to subsection (g), the Board shall be funded by  
22 an assessment on all manufacturers. The Board shall determine  
23 the amount of the assessment required under this subsection  
24 based on each manufacturer's relative share of gross revenue

1 from drug sales.

2 (d) The Board shall pay all moneys collected from the  
3 assessment into the fund.

4 (e) Any investment earnings shall be retained to the credit  
5 of the fund.

6 (f) This Section may not be construed to prohibit the fund  
7 from receiving moneys from any other source.

8 (g) The Board shall be established using general funds,  
9 which shall be repaid to the State with the assessments  
10 required under subsection (c).

11 Section 50. Report.

12 (a) On or before December 31 of each year, the Board shall  
13 submit to the General Assembly a report that includes:

14 (1) price trends for prescription drug products;

15 (2) the number of prescription drug products that were  
16 subject to Board review, including the results of the  
17 review and the number and disposition of appeals and  
18 judicial reviews of Board decisions; and

19 (3) any recommendations the Board may have on further  
20 legislation needed to make prescription drug products more  
21 affordable in this State.

22 (b) On or before June 1, 2021, the Prescription Drug  
23 Affordability Board shall:

24 (1) conduct a study of the operation of the generic  
25 drug market in the United States that includes a review of

1 physician-administered drugs and considers:

2 (A) the prices of generic drugs on a year-over-year  
3 basis;

4 (B) the degree to which generic drug prices affect  
5 yearly insurance premium changes;

6 (C) annual changes in insurance cost-sharing for  
7 generic drugs;

8 (D) the potential for and history of drug  
9 shortages;

10 (E) the degree to which generic drug prices affect  
11 yearly State Medicaid spending; and

12 (F) any other relevant study questions; and

13 (2) report its findings to the General Assembly.

14 Section 55. Term expiration.

15 (a) The terms of the initial members and alternate members  
16 of the Prescription Drug Affordability Board shall expire as  
17 follows:

18 (1) one member and one alternate member in 2023;

19 (2) two members and 2 alternate members in 2024; and

20 (3) two members, including the Chair of the Board, and  
21 2 alternate members in 2025.

22 (b) The terms of the initial members of the Prescription  
23 Drug Affordability Stakeholder Council shall expire as  
24 follows:

25 (1) eight members in 2023;

- 1           (2) eight members in 2024; and  
2           (3) nine members in 2025.

3           Section 60. ERISA plans and Medicare drug plans. This Act  
4 obligates State-sponsored and State-regulated health plans and  
5 health programs to limit drug reimbursements and drug payment  
6 to no more than the Board-established upper payment limit.  
7 Employee Retirement Income Security Act (ERISA) plans and  
8 Medicare Part D plans are not bound by decisions of the Board  
9 and can choose to reimburse more than the upper payment limit.  
10 Providers who dispense and administer drugs in this State to  
11 individuals in this State are bound to bill all payers no more  
12 than the upper payment limit to the patient without regard to  
13 whether or not an ERISA plan or Medicare Part D plan chooses to  
14 reimburse the provider above the upper payment limit.

15           Section 97. Severability. If any provision of this Act or  
16 the application thereof to any person or circumstance is held  
17 invalid for any reason in a court of competent jurisdiction,  
18 the invalidity does not affect other provisions or any other  
19 application of this Act that can be given effect without the  
20 invalid provision or application, and for this purpose the  
21 provisions of this Act are declared severable.

22           Section 900. The State Finance Act is amended by adding  
23 Section 5.930 as follows:

1 (30 ILCS 105/5.930 new)

2 Sec. 5.930. The Prescription Drug Affordability Board  
3 Fund.

4 Section 999. Effective date. This Act takes effect January  
5 1, 2021.".
