12 Sec. 2. Legislative findings. The General Assembly finds
13 that tobacco smoke is harmful and dangerous to human beings and
14 a hazard to public health. Secondhand tobacco smoke causes at
15 least 65,000 deaths each year from heart disease and lung
16 cancer according to the National Cancer Institute. Secondhand
17 tobacco smoke causes sudden infant death syndrome,
18 low-birth-weight in infants, asthma and exacerbation of
19 asthma, bronchitis and pneumonia in children and adults.
20 Secondhand tobacco smoke is the third leading cause of
21 preventable death in the United States. Illinois workers
22 exposed to secondhand tobacco smoke are at increased risk of
23 premature death. An estimated 1,570 Illinois citizens die each

1 year from exposure to secondhand tobacco smoke.
