Every person in the service of another under any contract of hire, express or implied, oral or written, who contracts an occupational disease while working in the State of Illinois, or who contracts an occupational disease while working outside of the State of Illinois but where the contract of hire is made within the State of Illinois, and any person whose employment is principally localized within the State of Illinois, regardless of the place where the disease was contracted or place where the contract of hire was made, including aliens, and minors who, for the purpose of this Act, except Section 3 hereof, shall be considered the same and have the same power to contract, receive payments and give guittances therefor, as adult employees. An employee or his or her dependents under this Act who shall have a cause of action by reason of an occupational disease, disablement or death arising out of and in the course of his or her employment may elect or pursue his or her remedy in the State where the disease was contracted, or in the State where the contract of hire is made, or in the State where the employment is principally localized.
  - (c) "Commission" means the Illinois Workers' Compensation Commission created by the Workers' Compensation Act, approved July 9, 1951, as amended.
  - (d) In this Act the term "Occupational Disease" means a disease arising out of and in the course of the employment or

A disease shall be deemed to arise out of the employment if there is apparent to the rational mind, upon consideration of all the circumstances, a causal connection between the conditions under which the work is performed and the occupational disease. The disease need not to have been foreseen or expected but after its contraction it must appear to have had its origin or aggravation in a risk connected with the employment and to have flowed from that source as a rational consequence.

An employee shall be conclusively deemed to have been exposed to the hazards of an occupational disease when, for any length of time however short, he or she is employed in an occupation or process in which the hazard of the disease exists; provided however, that in a claim of exposure to atomic radiation, the fact of such exposure must be verified by the records of the central registry of radiation exposure maintained by the Department of Public Health or by some other recognized governmental agency maintaining records of such exposures whenever and to the extent that the records are on file with the Department of Public Health or the agency.

This paragraph added by Public Act 93-829 this amendatory Act of the 93rd General Assembly is declarative of existing law and is not a new enactment.

Any condition or impairment of health of an employee employed as a firefighter, emergency medical technician (EMT), or paramedic which results directly or indirectly from any bloodborne pathogen, lung or respiratory disease or condition, heart or vascular disease or condition, hypertension, tuberculosis, or cancer resulting in any disability (temporary, permanent, total, or partial) to the employee shall be rebuttably presumed to arise out of and in the course of the employee's firefighting, EMT, or paramedic employment and, further, shall be rebuttably presumed to be causally connected to the hazards or exposures of the employment. This presumption shall also apply to any hernia or hearing loss suffered by an employee employed as a firefighter, EMT, or paramedic. However, this presumption shall not apply to any employee who has been employed as a firefighter, EMT, or paramedic for less than 5 years at the time he or she files an Application for Adjustment of Claim concerning this condition or impairment with the Illinois Workers' Compensation Commission.
