

95TH GENERAL ASSEMBLY State of Illinois 2007 and 2008 HB5258

by Rep. Mike Fortner

SYNOPSIS AS INTRODUCED:

220 ILCS 50/10

from Ch. 111 2/3, par. 1610

Amends the Illinois Underground Utility Facilities Damage Prevention Act. Provides that after the effective date all new or replaced underground utility lines must be marked with detectable underground warning tape, which is able to be traced by inductive locating. Requires that the marking shall be a minimum of 6 inches and be buried as close to the ground surface as possible, or between 4 and 6 inches deep. Provides that the warning tape shall be American Public Works Association color-coded to match the type of utility line it is protecting.

1 AN ACT concerning regulation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

- Section 5. The Illinois Underground Utility Facilities

 Damage Prevention Act is amended by changing Section 10 as

 follows:
- 7 (220 ILCS 50/10) (from Ch. 111 2/3, par. 1610)
- 8 Sec. 10. Record of notice; marking of facilities.
 - (a) After the effective date of this amendatory Act of the 95th General Assembly, all new or replaced underground utility lines must be marked with detectable underground warning tape that is able to be traced by inductive locating. The marking shall be a minimum of 6 inches and be buried as close to the ground surface as possible, or between 4 and 6 inches deep.

The warning tape shall be American Public Works Association color-coded to match the type of utility line it is protecting.

(b) Upon notice by the person engaged in excavation or demolition, the person owning or operating underground utility facilities or CATS facilities in or near the excavation or demolition area shall cause a written record to be made of the notice and shall mark, within 48 hours of receipt of notice, the approximate locations of such facilities so as to enable the person excavating or demolishing to establish the location

of the underground utility facilities or CATS facilities. 1 2 Owners and operators of underground sewer facilities that are located outside the boundaries of a municipality having a 3 population of at least 1,000,000 inhabitants shall be required 4 5 to respond and mark the approximate location of those sewer facilities when the excavator indicates, in the notice required 6 7 in Section 4, that the excavation or demolition project will exceed a depth of 7 feet. "Depth", in this case, is defined as 8 9 the distance measured vertically from the surface of the ground 10 to the top of the sewer facility. Owners and operators of 11 underground sewer facilities that are located outside the 12 boundaries of a municipality having a population of at least 1,000,000 inhabitants shall be required at all times to locate 13 14 the approximate location of those sewer facilities when: (1) 15 directional boring is the indicated type of excavation work 16 being performed within the notice; (2) the underground sewer 17 facilities owned are non-gravity, pressurized force mains; or (3) the excavation indicated will occur in the immediate 18 19 proximity of known underground sewer facilities that are less 20 than 7 feet deep. Owners or operators of underground sewer facilities that are located outside the boundaries of a 21 22 municipality having a population of at least 1,000,000 23 inhabitants shall not hold an excavator liable for damages that occur to sewer facilities that were not required to be marked 24 25 under this Section, provided that prompt notice of the damage is made to the State-Wide One-Call Notice System and the 26

1 utility owner as required in Section 7.

All persons subject to the requirements of this Act shall plan and conduct their work consistent with reasonable business practices. Conditions may exist making it unreasonable to request that locations be marked within 48 hours. It is unreasonable to request owners and operators of underground utility facilities and CATS facilities to locate all of their facilities in an affected area upon short notice in advance of a large or extensive nonemergency project, or to request extensive locates in excess of a reasonable excavation or demolition work schedule, or to request locates under conditions where a repeat request is likely to be made because of the passage of time or adverse job conditions. Owners and underground utility facilities operators of facilities must reasonably anticipate seasonal fluctuations in the number of locate requests and staff accordingly.

If a person owning or operating underground utility facilities or CATS facilities receives a notice under this Section but does not own or operate any underground utility facilities or CATS facilities within the proposed excavation or demolition area described in the notice, that person, within 48 hours after receipt of the notice, shall so notify the person engaged in excavation or demolition who initiated the notice, unless the person who initiated the notice expressly waives the right to be notified that no facilities are located within the excavation or demolition area. The notification by the owner or

operator of underground utility facilities or CATS facilities to the person engaged in excavation or demolition may be provided in any reasonable manner including, but not limited to, notification in any one of the following ways: face-to-face communication; by phone or phone message; by facsimile; by posting in the excavation or demolition area; or by marking the excavation or demolition area. The owner or operator of those facilities has discharged the owner's or operator's obligation to provide notice under this Section if the owner or operator attempts to provide notice by telephone or by facsimile, if the person has supplied a facsimile number, but is unable to do so because the person engaged in the excavation or demolition does not answer his or her telephone or does not have an answering machine or answering service to receive the telephone call or does not have a facsimile machine in operation to receive the facsimile transmission. If the owner or operator attempts to provide notice by telephone or by facsimile but receives a busy signal, that attempt shall not serve to discharge the owner or operator of the obligation to provide notice under this Section.

A person engaged in excavation or demolition may expressly waive the right to notification from the owner or operator of underground utility facilities or CATS facilities that the owner or operator has no facilities located in the proposed excavation or demolition area. Waiver of notice is only permissible in the case of regular or nonemergency locate

1	requests.	The	waiver	must	be	made	at	the	time	of	the	notice	to

- 2 the State-Wide One-Call Notice System. A waiver made under this
- 3 Section is not admissible as evidence in any criminal or civil
- 4 action that may arise out of, or is in any way related to, the
- 5 excavation or demolition that is the subject of the waiver.
- 6 For the purposes of this Act, underground facility
- 7 operators may utilize a combination of flags, stakes, and paint
- 8 when possible on non-paved surfaces and when dig site and
- 9 seasonal conditions warrant. If the approximate location of an
- 10 underground utility facility or CATS facility is marked with
- 11 stakes or other physical means, the following color coding
- 12 shall be employed:
