18 Prior to the issuance of any request for qualifications or

5 Based Selection Act or Section 25 of this Act.

6 Nothing in this Act shall preclude a public agency,
7 including the Department or the Authority, from submitting a
8 proposal to develop or operate, or to develop and operate, a
9 transportation facility as a transportation project. The
10 transportation agency shall give a proposal submitted by a
11 public agency equal consideration as it gives proposals
12 submitted by private entities, and, for that purpose, treat the
13 public agency as a private entity.

14 All procurement processes shall incorporate requirements
15 and set forth goals for participation by disadvantaged business
16 enterprises as allowed under State and federal law.

17 (b) The transportation agency shall establish a process for
18 prequalification of all potential private entities. The

24 applications, if any, meet the requirements and evaluation

26 prequalified to submit proposals or bids. The transportation

1 agency shall make publicly available on its website during the
2 request for qualifications period information regarding firms
3 that are prequalified by the transportation agency pursuant to
4 Section 20 of the Architectural, Engineering, and Land
5 Surveying Qualifications Based Selection Act to provide
6 architectural, engineering, and land surveying services and
7 shall require the use of such firms for such services.

8 (c) Competitive sealed bidding requirements:

9 (1) All contracts shall be awarded by competitive
10 sealed bidding except as otherwise provided in subsection
11 (d) of this Section and Section 25 of this Act.

12 (2) An invitation for bids shall be issued and shall
13 include a description of the public-private partnership
14 with a private entity for the development, finance, and
15 operation of a transportation facility as a transportation
16 project, and the material contractual terms and conditions
17 applicable to the procurement.

18 (3) Public notice of the invitation for bids shall be
19 published in the State of Illinois Procurement Bulletin at
20 least 21 days before the date set in the invitation for the
21 opening of bids.

22 (4) Bids shall be opened publicly in the presence of
23 one or more witnesses at the time and place designated in
24 the invitation for bids. The name of each bidder, the
25 amount of each bid, and other relevant information as may
26 be specified by rule shall be recorded. After the award of

1 the contract, the winning bid and the record of each
2 unsuccessful bid shall be open to public inspection.

3 (5) Bids shall be unconditionally accepted without
4 alteration or correction, except as authorized in this Act.
5 Bids shall be evaluated based on the requirements set forth
6 in the invitation for bids, which may include criteria to
7 determine acceptability such as inspection, testing,
8 quality, workmanship, delivery, and suitability for a
9 particular purpose. Those criteria that will affect the bid
10 price and be considered in evaluation for award, such as
11 discounts, transportation costs, and total or life cycle
12 costs, shall be objectively measurable. The invitation for
13 bids shall set forth the evaluation criteria to be used.

14 (6) Correction or withdrawal of inadvertently
15 erroneous bids before or after award, or cancellation of
16 awards of contracts based on bid mistakes, shall be
17 permitted in accordance with rules. After bid opening, no
18 changes in bid prices or other provisions of bids
19 prejudicial to the interest of the State or fair
20 competition shall be permitted. All decisions to permit the
21 correction or withdrawal of bids based on bid mistakes
22 shall be supported by written determination made by the
23 transportation agency.

24 (7) The contract shall be awarded with reasonable
25 promptness by written notice to the lowest responsible and
26 responsive bidder whose bid meets the requirements and

1 criteria set forth in the invitation for bids, except when
2 the transportation agency determines it is not in the best
3 interest of the State and by written explanation determines
4 another bidder shall receive the award. The explanation
5 shall appear in the appropriate volume of the State of
6 Illinois Procurement Bulletin. The written explanation
7 must include:

8 (A) a description of the agency's needs;

9 (B) a determination that the anticipated cost will
10 be fair and reasonable;

11 (C) a listing of all responsible and responsive
12 bidders; and

13 (D) the name of the bidder selected, pricing, and
14 the reasons for selecting that bidder.

15 (8) When it is considered impracticable to initially
16 prepare a purchase description to support an award based on
17 price, an invitation for bids may be issued requesting the
18 submission of unpriced offers to be followed by an
19 invitation for bids limited to those bidders whose offers
20 have been qualified under the criteria set forth in the
21 first solicitation.

22 (d) Competitive sealed proposal requirements:

23 (1) When the transportation agency determines in
24 writing that the use of competitive sealed bidding or
25 design-build procurement is either not practicable or not
26 advantageous to the State, a contract may be entered into

1 by competitive sealed proposals.

2 (2) Proposals shall be solicited through a request for
3 proposals.

4 (3) Public notice of the request for proposals shall be
5 published in the State of Illinois Procurement Bulletin at
6 least 21 days before the date set in the invitation for the
7 opening of proposals.

8 (4) Proposals shall be opened publicly in the presence
9 of one or more witnesses at the time and place designated
10 in the request for proposals, but proposals shall be opened
11 in a manner to avoid disclosure of contents to competing
12 offerors during the process of negotiation. A record of
13 proposals shall be prepared and shall be open for public
14 inspection after contract award.

15 (5) The requests for proposals shall state the relative
16 importance of price and other evaluation factors.
17 Proposals shall be submitted in 2 parts: (i) covering items
18 except price; and (ii) covering price. The first part of
19 all proposals shall be evaluated and ranked independently
20 of the second part of all proposals.

21 (6) As provided in the request for proposals and under
22 any applicable rules, discussions may be conducted with
23 responsible offerors who submit proposals determined to be
24 reasonably susceptible of being selected for award for the
25 purpose of clarifying and assuring full understanding of
26 and responsiveness to the solicitation requirements. Those

1 offerors shall be accorded fair and equal treatment with
2 respect to any opportunity for discussion and revision of
3 proposals. Revisions may be permitted after submission and
4 before award for the purpose of obtaining best and final
5 offers. In conducting discussions there shall be no
6 disclosure of any information derived from proposals
7 submitted by competing offerors. If information is
8 disclosed to any offeror, it shall be provided to all
9 competing offerors.

10 (7) Awards shall be made to the responsible offeror
11 whose proposal is determined in writing to be the most
12 advantageous to the State, taking into consideration price
13 and the evaluation factors set forth in the request for
14 proposals. The contract file shall contain the basis on
15 which the award is made.

16 (e) In the case of a proposal or proposals to the
17 Department or the Authority, the transportation agency shall
18 determine, based on its review and evaluation of the proposal
19 or proposals received in response to the request for proposals,
20 which one or more proposals, if any, best serve the public
21 purpose of this Act and satisfy the criteria set forth in the
22 request for proposals and, with respect to such proposal or
23 proposals, shall:

24 (1) submit the proposal or proposals to the Commission
25 on Government Forecasting and Accountability, which,
26 within 20 days of submission by the transportation agency,

1 shall complete a review of the proposal or proposals and
2 report on the value of the proposal or proposals to the
3 State;

4 (2) hold one or more public hearings on the proposal or
5 proposals, publish notice of the hearing or hearings at
6 least 7 days before the hearing, and include the following
7 in the notice: (i) the date, time, and place of the hearing
8 and the address of the transportation agency, (ii) the
9 subject matter of the hearing, (iii) a description of the
10 agreement to be awarded, (iv) the determination made by the
11 transportation agency that such proposal or proposals best
12 serve the public purpose of this Act and satisfy the
13 criteria set forth in the request for proposals, and (v)
14 that the public may be heard on the proposal or proposals
15 during the public hearing; and

16 (3) determine whether or not to recommend to the
17 Governor that the Governor approve the proposal or
18 proposals.

19 The Governor may approve one or more proposals recommended
20 by the Department or the Authority based upon the review,
21 evaluation, and recommendation of the transportation agency,
22 the review and report of the Commission on Government
23 Forecasting and Accountability, the public hearing, and the
24 best interests of the State.

25 (f) In addition to any other rights under this Act, in
26 connection with any procurement under this Act, the following

1 rights are reserved to each transportation agency:

2 (1) to withdraw a request for information, a request
3 for qualifications, or a request for proposals at any time,
4 and to publish a new request for information, request for
5 qualifications, or request for proposals;

6 (2) to not approve a proposal for any reason;

7 (3) to not award a public-private agreement for any
8 reason;

9 (4) to request clarifications to any statement of
10 information, qualifications, or proposal received, to seek
11 one or more revised proposals or one or more best and final
12 offers, or to conduct negotiations with one or more private
13 entities that have submitted proposals;

14 (5) to modify, during the pendency of a procurement,
15 the terms, provisions, and conditions of a request for
16 information, request for qualifications, or request for
17 proposals or the technical specifications or form of a
18 public-private agreement;

19 (6) to interview proposers; and

20 (7) any other rights available to the transportation
21 agency under applicable law and regulations.

22 (g) If a proposal is approved, the transportation agency
23 shall execute the public-private agreement, publish notice of
24 the execution of the public-private agreement on its website
25 and in a newspaper or newspapers of general circulation within
26 the county or counties in which the transportation project is

1 to be located, and publish the entire agreement on its website.
2 Any action to contest the validity of a public-private
3 agreement entered into under this Act must be brought no later
4 than 60 days after the date of publication of the notice of
5 execution of the public-private agreement.

6 (h) For any transportation project with an estimated
7 construction cost of over \$50,000,000, the transportation
8 agency may also require the approved proposer to pay the costs
9 for an independent audit of any and all traffic and cost
10 estimates associated with the approved proposal, as well as a
11 review of all public costs and potential liabilities to which
12 taxpayers could be exposed (including improvements to other
13 transportation facilities that may be needed as a result of the
14 approved proposal, failure by the approved proposer to
15 reimburse the transportation agency for services provided, and
16 potential risk and liability in the event the approved proposer
17 defaults on the public-private agreement or on bonds issued for
18 the project). If required by the transportation agency, this
19 independent audit must be conducted by an independent
20 consultant selected by the transportation agency, and all
21 information from the review must be fully disclosed.

22 (i) The transportation agency may also apply for, execute,
23 or endorse applications submitted by private entities to obtain
24 federal credit assistance for qualifying projects developed or
25 operated pursuant to this Act.

1 Section 25. Design-build procurement.

2 (a) This Section 25 shall apply only to transportation
3 projects for which the Department or the Authority intends to
4 execute a design-build agreement, in which case the Department
5 or the Authority shall abide by the requirements and procedures
6 of this Section 25 in addition to other applicable requirements
7 and procedures set forth in this Act.

8 (b) (1) The transportation agency must issue a notice of
9 intent to receive proposals for the project at least 14 days
10 before issuing the request for the qualifications. The
11 transportation agency must publish the advance notice in a
12 daily newspaper of general circulation in the county where the
13 transportation agency is located. The transportation agency is
14 encouraged to use publication of the notice in related
15 construction industry service publications. A brief
16 description of the proposed procurement must be included in the
17 notice. The transportation agency must provide a copy of the
18 request for qualifications to any party requesting a copy.

19 (2) The request for qualifications shall be prepared for
20 each project and must contain, without limitation, the
21 following information: (i) the name of the transportation
22 agency; (ii) a preliminary schedule for the completion of the
23 contract; (iii) the proposed budget for the project, the source
24 of funds, and the currently available funds at the time the
25 request for proposal is submitted; (iv) prequalification
26 criteria for design-build entities wishing to submit proposals

1 (the transportation agency shall include, at a minimum, its
2 normal prequalification, licensing, registration, and other
3 requirements, but nothing contained herein precludes the use of
4 additional prequalification criteria by the transportation
5 agency); (v) material requirements of the contract, including
6 but not limited to, the proposed terms and conditions, required
7 performance and payment bonds, insurance, and the entity's plan
8 to comply with the utilization goals established by the
9 corporate authorities of the transportation agency for
10 minority and women business enterprises and to comply with
11 Section 2-105 of the Illinois Human Rights Act; (vi) the
12 performance criteria; (vii) the evaluation criteria for each
13 phase of the solicitation; and (viii) the number of entities
14 that will be considered for the request for proposals phase.

15 (3) The transportation agency may include any other
16 relevant information in the request for qualifications that it
17 chooses to supply. The private entity shall be entitled to rely
18 upon the accuracy of this documentation in the development of
19 its statement of qualifications and its proposal.

20 (4) The date that statements of qualifications are due must
21 be at least 21 calendar days after the date of the issuance of
22 the request for qualifications. In the event the cost of the
23 project is estimated to exceed \$12,000,000, then the statement
24 of qualifications due date must be at least 28 calendar days
25 after the date of the issuance of the request for
26 qualifications. The transportation agency shall include in the

1 request for proposals a minimum of 30 days to develop the
2 proposals after the selection of entities from the evaluation
3 of the statements of qualifications is completed.

4 (c)(1) The transportation agency shall develop, with the
5 assistance of a licensed design professional, the request for
6 qualifications and the request for proposals, which shall
7 include scope and performance criteria. The scope and
8 performance criteria must be in sufficient detail and contain
9 adequate information to reasonably apprise the private
10 entities of the transportation agency's overall programmatic
11 needs and goals, including criteria and preliminary design
12 plans, general budget parameters, schedule, and delivery
13 requirements.

14 (2) Each request for qualifications and request for
15 proposals shall also include a description of the level of
16 design to be provided in the proposals. This description must
17 include the scope and type of renderings, drawings, and
18 specifications that, at a minimum, will be required by the
19 transportation agency to be produced by the private entities.

20 (3) The scope and performance criteria shall be prepared by
21 a design professional who is an employee of the transportation
22 agency, or the transportation agency may contract with an
23 independent design professional selected under the
24 Architectural, Engineering, and Land Surveying Qualifications
25 Based Selection Act to provide these services.

26 (4) The design professional that prepares the scope and

1 performance criteria is prohibited from participating in any
2 private entity proposal for the project.

3 (d)(1) The transportation agency must use a two phase
4 procedure for the selection of the successful design-build
5 entity. The request for qualifications phase will evaluate and
6 shortlist the private entities based on qualifications, and the
7 request for proposals will evaluate the technical and cost
8 proposals.

9 (2) The transportation agency shall include in the request
10 for qualifications the evaluating factors to be used in the
11 request for qualifications phase. These factors are in addition
12 to any prequalification requirements of private entities that
13 the transportation agency has set forth. Each request for
14 qualifications shall establish the relative importance
15 assigned to each evaluation factor and subfactor, including any
16 weighting of criteria to be employed by the transportation
17 agency. The transportation agency must maintain a record of the
18 evaluation scoring to be disclosed in event of a protest
19 regarding the solicitation.

20 The transportation agency shall include the following
21 criteria in every request for qualifications phase evaluation
22 of private entities: (i) experience of personnel; (ii)

24 financial capability; (iv) timeliness of past performance; (v)
25 experience with similarly sized projects; (vi) successful
26 reference checks of the firm; (vii) commitment to assign

1 personnel for the duration of the project and qualifications of
2 the entity's consultants; and (viii) ability or past
3 performance in meeting or exhausting good faith efforts to meet
4 the utilization goals for business enterprises established in
5 the Business Enterprise for Minorities, Females, and Persons
6 with Disabilities Act and in complying with Section 2-105 of
7 the Illinois Human Rights Act. No proposal shall be considered
8 that does not include an entity's plan to comply with the
9 requirements established in the minority and women business
10 enterprises and economically disadvantaged firms established
11 by the corporate authorities of the transportation agency and
12 with Section 2-105 of the Illinois Human Rights Act. The
13 transportation agency may include any additional relevant
14 criteria in the request for qualifications phase that it deems
15 necessary for a proper qualification review.

16 Upon completion of the qualifications evaluation, the
17 transportation agency shall create a shortlist of the most
18 highly qualified private entities.

19 The transportation agency shall notify the entities
20 selected for the shortlist in writing. This notification shall
21 commence the period for the preparation of the request for
22 proposals phase technical and cost evaluations. The
23 transportation agency must allow sufficient time for the
24 shortlist entities to prepare their proposals considering the
25 scope and detail requested by the transportation agency.

26 (3) The transportation agency shall include in the request

1 for proposals the evaluating factors to be used in the
2 technical and cost submission components. Each request for
3 proposals shall establish, for both the technical and cost
4 submission components, the relative importance assigned to
5 each evaluation factor and subfactor, including any weighting
6 of criteria to be employed by the transportation agency. The
7 transportation agency must maintain a record of the evaluation
8 scoring to be disclosed in event of a protest regarding the
9 solicitation.

10 The transportation agency shall include the following
11 criteria in every request for proposals phase technical
12 evaluation of private entities: (i) compliance with objectives
13 of the project; (ii) compliance of proposed services to the
14 request for proposal requirements; (iii) quality of products or
15 materials proposed; (iv) quality of design parameters; (v)
16 design concepts; (vi) innovation in meeting the scope and
17 performance criteria; and (vii) constructability of the
18 proposed project. The transportation agency may include any
19 additional relevant technical evaluation factors it deems
20 necessary for proper selection.

21 The transportation agency shall include the following
22 criteria in every request for proposals phase cost evaluation:
23 the total project cost and the time of completion. The
24 transportation agency may include any additional relevant
25 technical evaluation factors it deems necessary for proper
26 selection. The guaranteed maximum project cost criteria

1 weighing factor shall not exceed 30%.

2 The transportation agency shall directly employ or retain a
3 licensed design professional to evaluate the technical and cost
4 submissions to determine if the technical submissions are in
5 accordance with generally accepted industry standards.

6 (e) Statements of qualifications and proposals must be
7 properly identified and sealed. Statements of qualifications
8 and proposals may not be reviewed until after the deadline for
9 submission has passed as set forth in the request for
10 qualifications or the request for proposals. All private
11 entities submitting statements of qualifications or proposals
12 shall be disclosed after the deadline for submission, and all
13 private entities who are selected for request for proposals
14 phase evaluation shall also be disclosed at the time of that
15 determination.

16 Phase II design-build proposals shall include a bid bond in
17 the form and security as designated in the request for
18 proposals. Proposals shall also contain a separate sealed
19 envelope with the cost information within the overall proposal
20 submission. Proposals shall include a list of all design
21 professionals and other entities to which any work identified
22 in Section 30-30 of the Illinois Procurement Code as a
23 subdivision of construction work may be subcontracted during
24 the performance of the contract.

25 Statements of qualifications and proposals must meet all
26 material requirements of the request for qualifications or

1 request for proposals, or else they may be rejected as
2 non-responsive. The transportation agency shall have the right
3 to reject any and all statements of qualifications and
4 proposals.

5 The drawings and specifications of any unsuccessful
6 statement of qualifications or proposal shall remain the
7 property of the private entity.

8 The transportation agency shall review the statements of
9 qualifications and the proposals for compliance with the
10 performance criteria and evaluation factors.

11 Statements of qualifications and proposals may be
12 withdrawn prior to the due date and time for submissions for
13 any cause. After evaluation begins by the transportation
14 agency, clear and convincing evidence of error is required for
15 withdrawal.

16 Section 30. Interim agreements.

17 (a) Prior to or in connection with the negotiation of the
18 public-private agreement, the transportation agency may enter
19 into an interim agreement with the approved proposer. Such
20 interim agreement may:

21 (1) permit the approved proposer to commence
22 activities relating to a proposed project as the
23 transportation agency and the approved proposer shall
24 agree to and for which the approved proposer may be
25 compensated, including, but not limited to, project

1 planning, advance right-of-way acquisition, design and
2 engineering, environmental analysis and mitigation,
3 survey, conducting transportation and revenue studies, and
4 ascertaining the availability of financing for the
5 proposed facility or facilities;

6 (2) establish the process and timing of the exclusive
7 negotiation of a public-private agreement with an approved
8 proposer;

9 (3) require that in the event the transportation agency
10 determines not to proceed with a project after the approved
11 proposer and the transportation agency have executed an
12 interim agreement, and thereby terminates the interim
13 agreement or declines to proceed with negotiation of a
14 public-private agreement with an approved proposer, the
15 transportation agency shall pay to the approved proposer
16 certain fees and costs incurred by the approved proposer;

17 (4) establish the ownership in the State or in the
18 Authority of the concepts and designs in the event of
19 termination of the interim agreement;

20 (5) establish procedures for the selection of
21 professional design firms and subcontractors, which shall
22 include procedures consistent with the Architectural,
23 Engineering, and Land Surveying Qualifications Based
24 Selection Act for the selection of design professional
25 firms and may include, in the discretion of the
26 transportation agency, procedures consistent with the low

1 bid procurement procedures outlined in the Illinois
2 Procurement Code for the selection of construction
3 companies; and

4 (6) contain any other provisions related to any aspect
5 of the transportation project that the parties may deem
6 appropriate.

7 (b) A transportation agency may enter into an interim
8 agreement with multiple approved proposers if the
9 transportation agency determines in writing that it is in the
10 public interest to do so.

11 (c) The approved proposer shall select firms that are
12 prequalified by the transportation agency pursuant to Section
13 20 of the Architectural, Engineering, and Land Surveying
14 Qualifications Based Selection Act to provide architectural,
15 engineering, and land surveying services to undertake
16 activities related to the transportation project.

17 Section 35. Public-private agreements.

18 (a) Unless undertaking actions otherwise permitted in an
19 interim agreement entered into under Section 30 of this Act,
20 before developing, financing, or operating the transportation
21 project, the approved proposer shall enter into a
22 public-private agreement with the transportation agency.
23 Subject to the requirements of this Act, a public-private
24 agreement may provide that the approved proposer, acting on
25 behalf of the transportation agency, is partially or entirely

1 responsible for any combination of developing, financing, or
2 operating the transportation project under terms set forth in
3 the public-private agreement.

4 (b) The public-private agreement may, as determined
5 appropriate by the transportation agency for the particular
6 transportation project, provide for some or all of the
7 following:

8 (1) Construction, financing, and operation of the
9 transportation project under terms set forth in the
10 public-private agreement, in any form as deemed
11 appropriate by the transportation agency, including, but
12 not limited to, a long-term concession and lease, a
13 design-bid-build agreement, a design-build agreement, a
14 design-build-maintain agreement, a
15 design-build-operate-maintain agreement and a
16 design-build-finance-operate-maintain agreement.

17 (2) Delivery of performance and payment bonds or other
18 performance security determined suitable by the
19 transportation agency, including letters of credit, United
20 States bonds and notes, parent guaranties, and cash
21 collateral, in connection with the development, financing,
22 or operation of the transportation project, in the forms
23 and amounts set forth in the public-private agreement or
24 otherwise determined as satisfactory by the transportation
25 agency to protect the transportation agency and payment
26 bond beneficiaries who have a direct contractual

1 relationship with the contractor or a subcontractor of the
2 contractor to supply labor or material. The payment or
3 performance bond or alternative form of performance
4 security is not required for the portion of a
5 public-private agreement that includes only design,
6 planning, or financing services, the performance of
7 preliminary studies, or the acquisition of real property.

8 (3) Review of plans for any development or operation,
9 or both, of the transportation project by the
10 transportation agency.

11 (4) Inspection of any construction of or improvements
12 to the transportation project by the transportation agency
13 or another entity designated by the transportation agency
14 or under the public-private agreement to ensure that the
15 construction or improvements conform to the standards set
16 forth in the public-private agreement or are otherwise
17 acceptable to the transportation agency.

18 (5) Maintenance of:

19 (A) one or more policies of public liability
20 insurance (copies of which shall be filed with the
21 transportation agency accompanied by proofs of
22 coverage); or

23 (B) self-insurance;

24 each in form and amount as set forth in the public-private
25 agreement or otherwise satisfactory to the transportation
26 agency as reasonably sufficient to insure coverage of tort

1 liability to the public and employees and to enable the
2 continued operation of the transportation project.

3 (6) Where operations are included within the
4 contractor's obligations under the public-private
5 agreement, monitoring of the maintenance practices of the
6 contractor by the transportation agency or another entity
7 designated by the transportation agency or under the
8 public-private agreement and the taking of the actions the
9 transportation agency finds appropriate to ensure that the
10 transportation project is properly maintained.

11 (7) Reimbursement to be paid to the transportation
12 agency as set forth in the public-private agreement for
13 services provided by the transportation agency.

14 (8) Filing of appropriate financial statements and
15 reports as set forth in the public-private agreement or as
16 otherwise in a form acceptable to the transportation agency
17 on a periodic basis.

18 (9) Compensation or payments to the contractor.
19 Compensation or payments may include any or a combination
20 of the following:

21 (A) a base fee and additional fee for project
22 savings as the design-builder of a construction
23 project;

24 (B) a development fee, payable on a lump-sum basis,
25 progress payment basis, time and materials basis, or
26 another basis deemed appropriate by the transportation

1 agency;

2 (C) an operations fee, payable on a lump-sum basis,
3 time and material basis, periodic basis, or another
4 basis deemed appropriate by the transportation agency;

5 (D) some or all of the revenues, if any, arising
6 out of operation of the transportation project;

7 (E) a maximum rate of return on investment or
8 return on equity or a combination of the two;

9 (F) in-kind services, materials, property,
10 equipment, or other items;

11 (G) compensation in the event of any termination;

12 (H) availability payments or similar arrangements
13 whereby payments are made to the contractor pursuant to
14 the terms set forth in the public-private agreement or
15 related agreements; or

16 (I) other compensation set forth in the
17 public-private agreement or otherwise deemed
18 appropriate by the transportation agency.

19 (10) Compensation or payments to the transportation
20 agency, if any. Compensation or payments may include any or
21 a combination of the following:

22 (A) a concession or lease payment or other fee,
23 which may be payable upfront or on a periodic basis or
24 on another basis deemed appropriate by the
25 transportation agency;

26 (B) sharing of revenues, if any, from the operation

1 of the transportation project;

2 (C) sharing of project savings from the
3 construction of the transportation project;

4 (D) payment for any services, materials,
5 equipment, personnel, or other items provided by the
6 transportation agency to the contractor under the
7 public-private agreement or in connection with the
8 transportation project; or

9 (E) other compensation set forth in the
10 public-private agreement or otherwise deemed
11 appropriate by the transportation agency.

12 (11) The date and terms of termination of the
13 contractor's authority and duties under the public-private
14 agreement and the circumstances under which the
15 contractor's authority and duties may be terminated prior
16 to that date.

17 (12) Reversion of the transportation project to the
18 transportation agency at the termination or expiration of
19 the public-private agreement.

20 (13) Rights and remedies of the transportation agency
21 in the event that the contractor defaults or otherwise
22 fails to comply with the terms of the public-private
23 agreement.

24 (14) Procedures for the selection of professional
25 design firms and subcontractors, which shall include
26 procedures consistent with the Architectural, Engineering,

1 and Land Surveying Qualifications Based Selection Act for
2 the selection of professional design firms and may include,
3 in the discretion of the transportation agency, procedures
4 consistent with the low bid procurement procedures
5 outlined in the Illinois Procurement Code for the selection
6 of construction companies.

7 (15) Other terms, conditions, and provisions that the
8 transportation agency believes are in the public interest.

9 (c) The transportation agency may fix and revise the
10 amounts of user fees that a contractor may charge and collect
11 for the use of any part of a transportation project in
12 accordance with the public-private agreement. In fixing the
13 amounts, the transportation agency may establish maximum
14 amounts for the user fees and may provide that the maximums and
15 any increases or decreases of those maximums shall be based
16 upon the indices, methodologies, or other factors the
17 transportation agency considers appropriate.

18 (d) A public-private agreement may:

19 (1) authorize the imposition of tolls in any manner
20 determined appropriate by the transportation agency for
21 the transportation project;

22 (2) authorize the contractor to adjust the user fees
23 for the use of the transportation project, so long as the
24 amounts charged and collected by the contractor do not
25 exceed the maximum amounts established by the
26 transportation agency under this Act;

1 (3) provide that any adjustment by the contractor
2 permitted under paragraph (2) of this subsection (d) may be
3 based on the indices, methodologies, or other factors
4 described in the public-private agreement or approved by
5 the transportation agency;

6 (4) authorize the contractor to charge and collect user
7 fees through methods, including, but not limited to,
8 automatic vehicle identification systems, electronic toll
9 collection systems, and, to the extent permitted by law,
10 global positioning system-based, photo-based, or
11 video-based toll collection enforcement, provided that to
12 the maximum extent feasible the contractor will (i) utilize
13 open road tolling methods that allow payment of tolls at
14 highway speeds and (ii) comply with United States
15 Department of Transportation requirements and best
16 practices with respect to tolling methods; and

17 (5) authorize the collection of user fees by a third
18 party.

19 (e) In the public-private agreement, the transportation
20 agency may agree to make grants or loans for the development or
21 operation, or both, of the transportation project from time to
22 time from amounts received from the federal government or any
23 agency or instrumentality of the federal government or from any
24 State or local agency.

25 (f) Upon the termination or expiration of the
26 public-private agreement, including a termination for default,

1 the transportation agency shall have the right to take over the
2 transportation project and to succeed to all of the right,
3 title, and interest in the transportation project, subject to
4 any liens on revenues previously granted by the contractor to
5 any person providing financing for the transportation project.
6 Upon termination or expiration of the public-private agreement
7 relating to a transportation project undertaken by the
8 Department, all real property acquired as a part of the
9 transportation project shall be held in the name of the State
10 of Illinois. Upon termination or expiration of the
11 public-private agreement relating to a transportation project
12 undertaken by the Authority, all real property acquired as a
13 part of the transportation project shall be held in the name of
14 the Authority.

15 (g) If a transportation agency elects to take over a
16 transportation project as provided in subsection (f) of this
17 Section, the transportation agency may do the following:

18 (1) develop, finance, or operate the project,
19 including through a public-private agreement entered into
20 in accordance with this Act; or

21 (2) impose, collect, retain, and use user fees, if any,
22 for the project.

23 (h) If a transportation agency elects to take over a
24 transportation project as provided in subsection (f) of this
25 Section, the transportation agency may use the revenues, if
26 any, for any lawful purpose, including to:

1 (1) make payments to individuals or entities in
2 connection with any financing of the transportation
3 project, including through a public-private agreement
4 entered into in accordance with this Act;

5 (2) permit a contractor to receive some or all of the
6 revenues under a public-private agreement entered into
7 under this Act;

8 (3) pay development costs of the project;

9 (4) pay current operation costs of the project or
10 facilities;

11 (5) pay the contractor for any compensation or payment
12 owing upon termination; and

13 (6) pay for the development, financing, or operation of
14 any other project or projects the transportation agency
15 deems appropriate.

16 (i) The full faith and credit of the State or any political
17 subdivision of the State or the transportation agency is not
18 pledged to secure any financing of the contractor by the
19 election to take over the transportation project. Assumption of
20 development or operation, or both, of the transportation
21 project does not obligate the State or any political
22 subdivision of the State or the transportation agency to pay
23 any obligation of the contractor.

24 (j) The transportation agency may enter into a
25 public-private agreement with multiple approved proposers if
26 the transportation agency determines in writing that it is in

1 the public interest to do so.

2 (k) A public-private agreement shall not include any
3 provision under which the transportation agency agrees to
4 restrict or to provide compensation to the private entity for
5 the construction or operation of a competing transportation
6 facility during the term of the public-private agreement.

7 (l) With respect to a public-private agreement entered into
8 by the Department, the Department shall certify in its State
9 budget request to the Governor each year the amount required by
10 the Department during the next State fiscal year to enable the
11 Department to make any payment obligated to be made by the
12 Department pursuant to that public-private agreement, and the
13 Governor shall include that amount in the State budget
14 submitted to the General Assembly.

15 Section 40. Development and operations standards for
16 transportation projects.

17 (a) The plans and specifications, if any, for each project
18 developed under this Act must comply with:

19 (1) the transportation agency's standards for other
20 projects of a similar nature or as otherwise provided in
21 the public-private agreement;

22 (2) the Professional Engineering Practice Act of 1989,
23 the Structural Engineering Practice Act of 1989, the
24 Illinois Architecture Practice Act of 1989, the
25 requirements of Section 30-22 of the Illinois Procurement

1 Code as they apply to responsible bidders, and the Illinois
2 Professional Land Surveyor Act of 1989; and

3 (3) any other applicable State or federal standards.

4 (b) Each highway project constructed or operated under this
5 Act is considered to be part of:

6 (1) the State highway system for purposes of
7 identification, maintenance standards, and enforcement of
8 traffic laws if the highway project is under the
9 jurisdiction of the Department; or

10 (2) the toll highway system for purposes of
11 identification, maintenance standards, and enforcement of
12 traffic laws if the highway project is under the
13 jurisdiction of the Authority.

14 (c) Any unit of local government or State agency may enter
15 into agreements with the contractor for maintenance or other
16 services under this Act.

17 (d) Any electronic toll collection system used on a toll
18 highway, bridge, or tunnel as part of a transportation project
19 must be compatible with the electronic toll collection system
20 used by the Authority. The Authority is authorized to
21 construct, operate, and maintain any electronic toll
22 collection system used on a toll highway, bridge, or tunnel as
23 part of a transportation project pursuant to an agreement with
24 the transportation agency or the contractor responsible for the
25 transportation project.

1 Section 45. Financial arrangements.

2 (a) The transportation agency may do any combination of
3 applying for, executing, or endorsing applications submitted
4 by private entities to obtain federal, State, or local credit
5 assistance for transportation projects developed, financed, or
6 operated under this Act, including loans, lines of credit, and
7 guarantees.

8 (b) The transportation agency may take any action to obtain
9 federal, State, or local assistance for a transportation
10 project that serves the public purpose of this Act and may
11 enter into any contracts required to receive the federal
12 assistance. The transportation agency may determine that it
13 serves the public purpose of this Act for all or any portion of
14 the costs of a transportation project to be paid, directly or
15 indirectly, from the proceeds of a grant or loan, line of
16 credit, or loan guarantee made by a local, State, or federal
17 government or any agency or instrumentality of a local, State,
18 or federal government. Such assistance may include, but not be
19 limited to, federal credit assistance pursuant to the
20 Transportation Infrastructure Finance and Innovation Act
21 (TIFIA).

22 (c) The transportation agency may agree to make grants or
23 loans for the development, financing, or operation of a
24 transportation project from time to time, from amounts received
25 from the federal, State, or local government or any agency or
26 instrumentality of the federal, State, or local government.

1 (d) Any financing of a transportation project may be in the
2 amounts and upon the terms and conditions that are determined
3 by the parties to the public-private agreement.

4 (e) For the purpose of financing a transportation project,
5 the contractor and the transportation agency may do the
6 following:

7 (1) propose to use any and all revenues that may be
8 available to them;

9 (2) enter into grant agreements;

10 (3) access any other funds available to the
11 transportation agency; and

12 (4) accept grants from the transportation agency or
13 other public or private agency or entity.

14 (f) For the purpose of financing a transportation project,
15 public funds may be used and mixed and aggregated with funds
16 provided by or on behalf of the contractor or other private
17 entities.

18 (g) For the purpose of financing a transportation project,
19 each transportation agency is authorized to do any combination
20 of applying for, executing, or endorsing applications for an
21 allocation of tax-exempt bond financing authorization provided
22 by Section 142(m) of the United States Internal Revenue Code,
23 as well as financing available under any other federal law or
24 program.

25 (h) Any bonds, debt, or other securities or other financing
26 issued for the purposes of this Act shall not be deemed to

1 constitute a debt of the State or any political subdivision of
2 the State or a pledge of the faith and credit of the State or
3 any political subdivision of the State.

4 Section 50. Acquisition of property.

5 (a) The transportation agency may exercise any power of
6 condemnation or eminent domain, including quick-take powers,
7 that it has under law, including, in the case of the
8 Department, all powers for acquisition of property rights
9 granted it in the Illinois Highway Code, for the purpose of
10 acquiring any lands or estates or interests in land for a
11 transportation project to the extent provided in the
12 public-private agreement or otherwise to the extent that the
13 transportation agency finds that the action serves the public
14 purpose of this Act and deems it appropriate in the exercise of
15 its powers under this Act.

16 (b) The transportation agency and a contractor may enter
17 into the leases, licenses, easements, and other grants of
18 property interests that the transportation agency determines
19 necessary to carry out this Act.

20 Section 55. Labor.

21 (a) In order to protect the wages, working conditions, and
22 job opportunities of employees employed by the contractor
23 participating in a public-private agreement related to a
24 transportation project, the contractor and any subcontractor

1 retained to perform such work shall be required to pay to
2 employees an amount not less than the economic equivalent of
3 the standard of wages and benefits enjoyed by the
4 transportation agency's employees who would have otherwise
5 performed that work. The contractor shall certify to the
6 transportation agency the amount of wages and benefits (or
7 their equivalent) as of the time of the public-private
8 agreement, and any changes to those amounts as they may occur
9 during the term of the agreement. All projects at the
10 transportation facility property shall be considered public
11 works for purposes of the Prevailing Wage Act.

12 (b) A public-private agreement related to a transportation
13 project pertaining to the building, altering, repairing,
14 maintaining, improving, or demolishing a transportation
15 facility shall require the contractor and all subcontractors to
16 comply with the requirements of Section 30-22 of the Illinois
17 Procurement Code as they apply to responsible bidders and to
18 present satisfactory evidence of that compliance to the
19 transportation agency, unless the transportation project is
20 federally funded and the application of those requirements
21 would jeopardize the receipt or use of federal funds in support
22 of the transportation project.

23 (c) A public-private agreement related to a transportation
24 project pertaining to a new transportation facility shall
25 require the contractor to enter into a project labor agreement
26 utilized by the Department.

1 Section 60. Law enforcement.

2 (a) All law enforcement officers of the State and of each
3 affected local jurisdiction have the same powers and
4 jurisdiction within the limits of the transportation facility
5 as they have in their respective areas of jurisdiction.

6 (b) Law enforcement officers shall have access to the
7 transportation facility at any time for the purpose of
8 exercising the law enforcement officers' powers and
9 jurisdiction.

10 (c) The traffic and motor vehicle laws of the State of
11 Illinois or, if applicable, any local jurisdiction shall be the
12 same as those applying to conduct on similar projects in the
13 State of Illinois or the local jurisdiction.

14 (d) Punishment for infractions and offenses shall be as
15 prescribed by law for conduct occurring on similar projects in
16 the State of Illinois or the local jurisdiction.

17 Section 65. Term of agreement; reversion of property to
18 transportation agency.

19 (a) The term of a public-private agreement, including all
20 extensions, may not exceed 99 years.

21 (b) The transportation agency shall terminate the
22 contractor's authority and duties under the public-private
23 agreement on the date set forth in the public-private
24 agreement.

1 (c) Upon termination of the public-private agreement, the
2 authority and duties of the contractor under this Act cease,
3 except for those duties and obligations that extend beyond the
4 termination, as set forth in the public-private agreement, and
5 all interests in the transportation facility shall revert to
6 the transportation agency.

7 Section 70. Additional powers of transportation agencies
8 with respect to transportation projects.

9 (a) Each transportation agency may exercise any powers
10 provided under this Act in participation or cooperation with
11 any governmental entity and enter into any contracts to
12 facilitate that participation or cooperation without
13 compliance with any other statute. Each transportation agency
14 shall cooperate with each other and with other governmental
15 entities in carrying out transportation projects under this
16 Act.

17 (b) Each transportation agency may make and enter into all
18 contracts and agreements necessary or incidental to the
19 performance of the transportation agency's duties and the
20 execution of the transportation agency's powers under this Act.
21 Except as otherwise required by law, these contracts or
22 agreements are not subject to any approvals other than the
23 approval of the transportation agency and may be for any term
24 of years and contain any terms that are considered reasonable
25 by the transportation agency.

1 (c) Each transportation agency may pay the costs incurred
2 under a public-private agreement entered into under this Act
3 from any funds available to the transportation agency under

14 the property has been terminated; or

15 (2) the State no longer has an option to purchase or
16 otherwise acquire the property and there is no provision
17 for a reverter of the property to the State within the
18 limitations period for reverters.

2 assessment officer, constitute cause to terminate the
3 exemption, notwithstanding any other provision of this Code.

12 Authority a right to use, control, and possess the property,
13 that portion of the property leased and occupied exclusively by
14 the State or the Authority shall remain exempt under this
15 Section. For the property to remain exempt under this
16 subsection (c), the Authority must retain an option to purchase
17 the property at a future date or, within the limitations period
18 for reverters, the property must revert back to the Authority.

19 If the property has been conveyed as described in this
20 subsection (c), the property is no longer exempt pursuant to
21 this Section as of the date when:

3 Authority shall notify the chief county assessment officer of
4 any transaction under this subsection (c). The chief county
5 assessment officer shall determine initial and continuing
6 compliance with the requirements of this Section for tax
7 exemption. Failure to notify the chief county assessment
8 officer of a transaction under this subsection (c) or to
9 otherwise comply with the requirements of Sections 15-15 and
10 15-20 of this Code shall, in the discretion of the chief county
11 assessment officer, constitute cause to terminate the
12 exemption, notwithstanding any other provision of this Code.

17 parcel of real property in Will County owned by the State of
18 Illinois for the purpose of developing an airport by the

4 31, 2020. It is the duty of the Department of Transportation to
5 file with the Office of the Will County Supervisor of
6 Assessments an affidavit stating the termination date for
7 rental of each such parcel due to airport construction. The

11 interest. In no instance shall a lien attach to the property of
12 the State. In no instance shall the State be required to pay
13 leasehold tax compensation in excess of the Tax Recovery Fund's
14 balance.
