HB1326 Engrossed

1 AN ACT concerning safety.

2 Be it enacted by the People of the State of Illinois, 3 represented in the General Assembly:

Section 5. The Environmental Protection Act is amended by
changing Section 22.38 as follows:

6 (415 ILCS 5/22.38)

Sec. 22.38. Facilities accepting exclusively general construction or demolition debris for transfer, storage, or treatment.

(a) Facilities accepting exclusively general construction 10 or demolition debris for transfer, storage, or treatment shall 11 12 subject to local zoning, ordinance, and land be use requirements. Those facilities shall be located in accordance 13 14 with local zoning requirements or, in the absence of local zoning requirements, shall be located so that no part of the 15 16 facility boundary is closer than 1,320 feet from the nearest 17 property zoned for primarily residential use.

18 (b) An owner or operator of a facility accepting 19 exclusively general construction or demolition debris for 20 transfer, storage, or treatment shall:

(1) Within 48 hours of receipt of the general
 construction or demolition debris at the facility, sort the
 general construction or demolition debris to separate the

HB1326 Engrossed - 2 - LRB097 07066 JDS 47159 b

recyclable general construction or demolition debris and recovered wood that is processed for use as fuel from non-recyclable general construction or demolition debris to be disposed of or discarded.

5 (2) Transport off site for disposal all non-recyclable 6 general construction or demolition debris that is neither 7 recyclable general construction or demolition debris nor 8 recovered wood that is processed for use as fuel in 9 accordance with all applicable federal, State, and local 10 requirements within 72 hours of its receipt at the 11 facility.

12 (3) Limit the percentage of incoming non-recyclable 13 general construction or demolition debris to 25% or less of 14 the total incoming general construction or demolition 15 debris, as calculated on a daily basis, so that 75% or more 16 of the general construction or demolition debris accepted 17 basis consists of recyclable а daily on general construction or demolition debris, recovered wood that is 18 19 processed for use as fuel, or both.

(4) Transport all non-putrescible recyclable general
 construction or demolition debris for recycling or
 disposal within 6 months of its receipt at the facility.

(5) Within 45 days of its receipt at the facility,
 transport (i) all putrescible or combustible recyclable
 general construction or demolition debris (excluding
 recovered wood that is processed for use as fuel) for

HB1326 Engrossed - 3 - LRB097 07066 JDS 47159 b

recycling or disposal and (ii) all recovered wood that is processed for use as fuel to an intermediate processing facility for sizing, to a combustion facility for use as fuel, or to a disposal facility.

5 (6) Employ tagging and recordkeeping procedures to (i) 6 demonstrate compliance with this Section and (ii) identify 7 the source and transporter of material accepted by the 8 facility.

9 (7) Control odor, noise, combustion of materials,
10 disease vectors, dust, and litter.

(8) Control, manage, and dispose of any storm water
runoff and leachate generated at the facility in accordance
with applicable federal, State, and local requirements.

14

(9) Control access to the facility.

15 (10) Comply with all applicable federal, State, or 16 local requirements for the handling, storage, 17 transportation, disposal of asbestos-containing or material or other material accepted at the facility that is 18 not general construction or demolition debris. 19

(11) Prior to August 24, 2009 (the effective date of
Public Act 96-611), submit to the Agency at least 30 days
prior to the initial acceptance of general construction or
demolition debris at the facility, on forms provided by the
Agency, the following information:

(A) the name, address, and telephone number of both
the facility owner and operator;

1 (B) the street address and location of the 2 facility;

3

26

(C) a description of facility operations;

4 (D) a description of the tagging and recordkeeping 5 procedures the facility will employ to (i) demonstrate 6 compliance with this Section and (ii) identify the 7 source and transporter of any material accepted by the 8 facility;

9 (E) the name and location of the disposal sites to 10 be used for the disposal of any general construction or 11 demolition debris received at the facility that must be 12 disposed of;

13 (F) the name and location of an individual,
14 facility, or business to which recyclable materials
15 will be transported;

16 (G) the name and location of intermediate 17 processing facilities or combustion facilities to 18 which recovered wood that is processed for use as fuel 19 will be transported; and

20 (H) other information as specified on the form21 provided by the Agency.

(12) On or after August 24, 2009 (the effective date of
Public Act 96-611), obtain a permit issued by the Agency
prior to the initial acceptance of general construction or
demolition debris at the facility.

When any of the information contained or processes

HB1326 Engrossed - 5 - LRB097 07066 JDS 47159 b

described in the initial notification form submitted to the
 Agency changes, the owner and operator shall submit an
 updated form within 14 days of the change.

(c) For purposes of this Section, the term "recyclable 4 general construction or demolition debris" means general 5 construction or demolition debris that has been rendered 6 7 reusable and is reused or that would otherwise be disposed of 8 or discarded but is collected, separated, or processed and 9 returned to the economic mainstream in the form of raw 10 materials or products. "Recyclable general construction or 11 demolition debris" does not include general construction or 12 demolition debris processed for use as fuel, incinerated, 13 burned, buried, or otherwise used as fill material.

(d) For purposes of this Section, "treatment" means processing designed to alter the physical nature of the general construction or demolition debris, including but not limited to size reduction, crushing, grinding, or homogenization, but does not include processing designed to change the chemical nature of the general construction or demolition debris.

(e) For purposes of this Section, "recovered wood that is processed for use as fuel" means wood that has been salvaged from general construction or demolition debris and processed for use as fuel, as authorized by the applicable state or federal environmental regulatory authority, and supplied only to intermediate processing facilities for sizing, or to combustion facilities for use as fuel, that have obtained all HB1326 Engrossed - 6 - LRB097 07066 JDS 47159 b

1 necessary waste management and air permits for handling and 2 combustion of the fuel.

3 (f) For purposes of this Section, "non-recyclable general 4 construction or demolition debris" does not include "recovered 5 wood that is processed for use as fuel".

6 (g) Recyclable general construction or demolition debris 7 or recovered wood that is processed for use as fuel that is 8 sent for disposal at the end of the applicable retention period 9 shall not be considered as meeting the 75% diversion 10 requirement for purposes of subdivision (b)(3) of this Section.

11 (h) For purposes of the 75% diversion requirement under 12 subdivision (b)(3) of this Section, owners and operators of 13 facilities accepting exclusively general construction or 14 demolition debris for transfer, storage, or treatment may multiply by 2 the amount of accepted asphalt roofing shingles 15 16 that are transferred to a facility for recycling in accordance 17 with a beneficial use determination issued under Section 22.54 of this Act. The owner or operator of the facility accepting 18 19 exclusively general construction or demolition debris for 20 transfer, storage, or treatment must maintain receipts from the 21 shingle recycling facility that document the amounts of asphalt 22 roofing shingles transferred for recycling in accordance with 23 the beneficial use determination. All receipts must be 24 maintained for a minimum of 3 years and must be made available 25 to the Agency for inspection and copying during normal business 26 hours.

3	Section 10. The Illinois Highway Code is amended by adding
4	Sections 4-221 and 4-222 as follows:
5	(605 ILCS 5/4-221 new)
6	Sec. 4-221. Mix designs. To the extent allowed by federal
7	law, the Department specifications shall allow the use of
8	recycled asphalt roofing shingles received from facilities
9	authorized to process asphalt roofing shingles for recycling
10	into asphalt pavement in accordance with (i) permits issued
11	pursuant to Section 39 of the Environmental Protection Act or
12	(ii) beneficial use determinations issued pursuant to Section
13	22.54 of the Environmental Protection Act. In creating the mix
14	designs used for construction and maintenance of State
15	highways, it shall be the goal of the Department, through its
16	specifications, to maximize the percentage of recycled asphalt
17	roofing shingles and binder replacement and to maximize the use
18	of recycled aggregates and other lowest-cost constituents in
19	the mix so long as there is no detrimental impact on life-cycle
20	<u>costs.</u>

21 (605 ILCS 5/4-222 new)
 22 <u>Sec. 4-222. Recycled asphalt roofing shingles; cost</u>
 23 <u>savings; prohibitions on use in asphalt paving.</u>

HB1326 Engrossed - 8 - LRB097 07066 JDS 47159 b

1	(a) It shall be the goal of the Department, with regard to
2	its asphalt paving projects and to the extent possible, to
3	reduce the carbon footprint and reduce average costs by
4	maximizing the percentage use of recycled materials or lowest
5	cost alternative materials and extending the paving season so
6	long as there is no detrimental impact on life-cycle costs. In
7	furtherance of these goals, the Department shall provide to the
8	Chairpersons of the Transportation Committee in each
9	legislative chamber, within 60 days after the completion of
10	each fiscal year, a written report of the activities initiated
11	or abandoned in each district or region within the Department
12	to meet those goals during the previous year. The report shall
13	also include an analysis of the cost savings directly or
14	indirectly attributed to those activities within each district
15	or region. Upon review of the annual report, the Transportation
16	Committees in each chamber may conduct hearings and provide
17	recommendations to the Department regarding the performance of
18	each district or region.
19	(b) No producer of asphalt pavement, operating pursuant to
20	an air permit issued by the Illinois Environmental Protection
21	Agency, shall use recycled asphalt roofing shingles in its
22	pavement product unless the shingles have been processed for
23	recycling into asphalt pavement in accordance with (i) permits
24	issued pursuant to Section 39 of the Environmental Protection
25	Act or (ii) beneficial use determinations issued pursuant to

26 <u>Section 22.54 of the Environmental Protection Act. The</u>

HB1326 Engrossed - 9 - LRB097 07066 JDS 47159 b

- 1 prohibition in this subsection (b) shall apply in addition to
- 2 <u>any other rules, specifications, or other requirements adopted</u>
- 3 by the Department regarding the use of asphalt roofing shingles
- 4 <u>in pavement product.</u>
