(a) The Commission shall have the power to issue bonds or
notes for the purpose of developing, constructing, acquiring, or improving projects, including, without limitation, those established by business entities locating or expanding property within the territorial jurisdiction of the Commission.

(b) Any bonds or notes issued under this Section by the Commission shall be authorized by resolution or ordinance of the Board adopted by the affirmative vote of 5 of the Directors. The action of the Commission authorizing the issuance of the bonds may be effective immediately upon its adoption and shall describe in a general way any project contemplated to be financed by the bonds or notes, set forth the estimated cost of the project, and determine the project's period of usefulness. The authorizing resolution or ordinance shall determine the maturity or maturities of the bonds or notes, the denominations, the rate or rates at which the bonds or notes are to bear interest, and all the other terms and details of the bonds or notes. The bonds or notes may be issued as serial bonds payable in installments or as term bonds with or without sinking fund installments or a combination of the serial bonds and term bonds. All bonds or notes shall mature within the period of estimated usefulness of the project for which the bonds or notes are issued, as determined by the Board, but in any event not more than 50 years from their date of issue. The bonds and notes may bear interest at the rates the resolution or ordinance provides, notwithstanding any other provision of law, and shall be payable at the times determined in the resolution or ordinance. Bonds or notes of the Commission shall be sold in the manner that the Board determines, either at par or at a premium, or at discount.

remarketing arrangements for assuring the ability of owners of
the obligations to sell or to have redeemed the obligations.
The Commission may enter into contracts and may agree to pay
fees to persons providing those arrangements, including from
bond or note proceeds.

(d) The Commission's action authorizing the issuance of
bonds or notes may provide that interest rates may vary
depending on criteria set forth in the resolution or ordinance,
including, but not limited to, variation of interest rates as
may be necessary to cause bonds or notes to be remarketable at
a price equal to their principal amount, and may provide for
appointment of a national banking association, bank trust
company, investment banker, or other financial institution to
serve as a remarketing agent in that connection.
Notwithstanding any other provision of law, the resolution or
ordinance of the Commission authorizing the issuance of its
bonds or notes may provide that alternative interest rates or
provisions will apply when the bonds or notes are held by a
person providing a letter of credit or other credit enhancement
arrangement for those bonds or notes.

(e) The authorization of the issuance of any bonds or notes
under this subsection shall constitute a contract with the
holders of the bonds and notes. The resolution or ordinance may
contain such covenants and restrictions regarding the project
and the contracts, the issuance of additional bonds or notes by
the Commission, the security for the bonds and notes, and any
other matters deemed necessary or advisable by the Board to
assure the payment of the bonds or notes of the Commission.

(f) The resolution or ordinance authorizing the issuance of
bonds or notes by the Commission shall provide for the
application of revenues derived from the operation of the
Commission's projects, revenues received from its members
including revenue from contracts for the use of the
Commission's projects, and revenues from its investment
earnings to the payment of the operating expenses of the
projects; the provision of adequate depreciation, reserve, or
replacement funds for the project, planned projects, and bonds or notes; and the payment of principal, premium, and interest on the bonds or notes of the Commission, including amounts for the purchase of the bonds or notes. The resolution or ordinance may provide that revenues of the Commission so derived and other receipts of the Commission which may be applied to those purposes shall be placed in separate funds and used for those purposes and also may provide that revenues not required for those purposes may be used for any proper purpose of the Commission or may be returned to members. Any notes of the Commission may, in addition, be secured by a pledge of proceeds of bonds to be issued by the Commission, as specified in the resolution or ordinance authorizing the issuance of the notes.

(g) All bonds and notes of the Commission issued under this subsection shall be revenue bonds or notes. The bonds or notes shall have no claim for payment other than from revenues of the Commission derived from the operation of its projects, revenues received from its members, including from contracts for the use of the Commission's projects, bond or note proceeds, other receipts of the Commission, and investment earnings on the foregoing, all as and to the extent as provided in the resolution or ordinance of the Board authorizing the issuance of the bonds or notes. Bonds or notes issued by the Commission under this Section shall not constitute an indebtedness of the Commission or of any member within the meaning of any constitutional or statutory limitation. It shall be plainly stated on each bond and note that it does not constitute an indebtedness of the Commission or of any member within the meaning of any constitutional or statutory limitation.

(h) As long as any bonds or notes of the Commission created under this subsection are outstanding and unpaid, the Commission shall not terminate or dissolve. The Commission shall establish fees and charges for its operations sufficient to provide adequate revenues to meet all of the requirements under its various resolutions authorizing bonds or notes.

(i) A holder of any bond or note issued under this
subsection may, in any civil action, mandamus, or other proceeding, enforce and compel performance of all duties required to be performed by the Commission as set forth in the authorizing resolution or ordinance, or any members of the Commission or other persons contracting with the Commission in connection with any of the Commission's projects, including the imposition of fees and charges, the collection of sufficient revenues, and the proper application of revenues as provided in this subsection.

(j) In addition, the resolution or ordinance authorizing any bonds or notes issued under this subsection may provide for a pledge, assignment, lien, or security interest, for the benefit of the holders of any or all bonds or notes of the Commission, (i) on any and all revenues derived from any contracts for the use of the Commission's projects and investment earnings of the projects, (ii) on any and all revenues received from its members, or (iii) on funds or accounts securing the payment of the bonds or notes as provided in the authorizing resolution. Any such pledge, assignment, lien, or security interest for the benefit of holders of bonds or notes shall be valid and binding from the time the bonds or notes are issued, without any physical delivery or further act, and shall be valid and binding against or before any claims of any other party having any claims of any kind against the Commission irrespective of whether the other parties have notice of the pledge, assignment, lien, or security interest.

(k) A resolution or ordinance of the Board authorizing the issuance of bonds or notes under this subsection may provide for the appointment of a corporate trustee for any or all of the bonds or notes, and, in that event, shall prescribe the rights, duties, and powers of the trustee to be exercised for the benefit of the Commission and the protection of the holders of the bonds or notes. The trustee may be any trust company or state or national bank having the power of a trust company within Illinois. The resolution or ordinance may provide for the trustee to hold in trust, invest, and use amounts in funds
and accounts created by the resolution or ordinance. The resolution or ordinance may also provide for the assignment and direct payment to the trustee of amounts owed by members and other persons to the Commission under contracts for the use of or access to the Commission's projects, for application by the trustee to the purposes for which the revenues are to be used as provided in this subsection and as provided in the authorizing resolution. Upon receipt of the assignment, the member or other person shall make the assigned payments directly to the trustee.

(b) Members of the Commission, and their present and former officers, employees, agents, and independent contractors shall have the same immunities as established by the Local Governmental and Governmental Employees Tort Immunity Act.
