

AN ACT concerning education.

**Be it enacted by the People of the State of Illinois,  
represented in the General Assembly:**

Section 5. The School Code is amended by changing Sections 10-19, 10-29, 18-8.05, and 18-12 and by adding Section 10-20.56 as follows:

(105 ILCS 5/10-19) (from Ch. 122, par. 10-19)

Sec. 10-19. Length of school term - experimental programs. Each school board shall annually prepare a calendar for the school term, specifying the opening and closing dates and providing a minimum term of at least 185 days to insure 176 days of actual pupil attendance, computable under Section 18-8.05, except that for the 1980-1981 school year only 175 days of actual pupil attendance shall be required because of the closing of schools pursuant to Section 24-2 on January 29, 1981 upon the appointment by the President of that day as a day of thanksgiving for the freedom of the Americans who had been held hostage in Iran. Any days allowed by law for teachers' institutes but not used as such or used as parental institutes as provided in Section 10-22.18d shall increase the minimum term by the school days not so used. Except as provided in Section 10-19.1, the board may not extend the school term beyond such closing date unless that extension of term is

necessary to provide the minimum number of computable days. In case of such necessary extension school employees shall be paid for such additional time on the basis of their regular contracts. A school board may specify a closing date earlier than that set on the annual calendar when the schools of the district have provided the minimum number of computable days under this Section. Nothing in this Section prevents the board from employing superintendents of schools, principals and other nonteaching personnel for a period of 12 months, or in the case of superintendents for a period in accordance with Section 10-23.8, or prevents the board from employing other personnel before or after the regular school term with payment of salary proportionate to that received for comparable work during the school term.

A school board may make such changes in its calendar for the school term as may be required by any changes in the legal school holidays prescribed in Section 24-2. A school board may make changes in its calendar for the school term as may be necessary to reflect the utilization of teachers' institute days as parental institute days as provided in Section 10-22.18d.

The calendar for the school term and any changes must be submitted to and approved by the regional superintendent of schools before the calendar or changes may take effect.

With the prior approval of the State Board of Education and subject to review by the State Board of Education every 3

years, any school board may, by resolution of its board and in agreement with affected exclusive collective bargaining agents, establish experimental educational programs, including but not limited to programs for e-learning days as authorized under Section 10-20.56 of this Code, self-directed learning, or outside of formal class periods, which programs when so approved shall be considered to comply with the requirements of this Section as respects numbers of days of actual pupil attendance and with the other requirements of this Act as respects courses of instruction.

(105 ILCS 5/10-20.56 new)

Sec. 10-20.56. E-learning days.

(a) The State Board of Education shall establish and maintain, for implementation in selected school districts during the 2015-2016, 2016-2017, and 2017-2018 school years, a pilot program for use of electronic-learning (e-learning) days, as described in this Section. The State Superintendent of Education shall select up to 3 school districts for this program, at least one of which may be an elementary or unit school district. The use of e-learning days may not begin until the second semester of the 2015-2016 school year, and the pilot program shall conclude with the end of the 2017-2018 school year. On or before June 1, 2019, the State Board shall report its recommendation for expansion, revision, or discontinuation

of the program to the Governor and General Assembly.

(b) The school board of a school district selected by the State Superintendent of Education under subsection (a) of this Section may, by resolution, adopt a research-based program or research-based programs for e-learning days district-wide that shall permit student instruction to be received electronically while students are not physically present in lieu of the district's scheduled emergency days as required by Section 10-19 of this Code. The research-based program or programs may not exceed the minimum number of emergency days in the approved school calendar and must be submitted to the State Superintendent for approval on or before September 1st annually to ensure access for all students. The State Superintendent shall approve programs that ensure that the specific needs of all students are met, including special education students and English learners, and that all mandates are still met using the proposed research-based program. The e-learning program may utilize the Internet, telephones, texts, chat rooms, or other similar means of electronic communication for instruction and interaction between teachers and students that meet the needs of all learners.

(c) Before its adoption by a school board, a school district's initial proposal for an e-learning program or for renewal of such a program must be approved by the State Board of Education and shall follow a public hearing, at a regular or special meeting of the school board, in which the terms of the

proposal must be substantially presented and an opportunity for allowing public comments must be provided. Notice of such public hearing must be provided at least 10 days prior to the hearing by:

(1) publication in a newspaper of general circulation in the school district;

(2) written or electronic notice designed to reach the parents or guardians of all students enrolled in the school district; and

(3) written or electronic notice designed to reach any exclusive collective bargaining representatives of school district employees and all those employees not in a collective bargaining unit.

(d) A proposal for an e-learning program must be timely approved by the State Board of Education if the requirements specified in this Section have been met and if, in the view of the State Board of Education, the proposal contains provisions designed to reasonably and practicably accomplish the following:

(1) to ensure and verify at least 5 clock hours of instruction or school work for each student participating in an e-learning day;

(2) to ensure access from home or other appropriate remote facility for all students participating, including computers, the Internet, and other forms of electronic communication that must be utilized in the proposed

program;

(3) to ensure appropriate learning opportunities for students with special needs;

(4) to monitor and verify each student's electronic participation;

(5) to address the extent to which student participation is within the student's control as to the time, pace, and means of learning;

(6) to provide effective notice to students and their parents or guardians of the use of particular days for e-learning;

(7) to provide staff and students with adequate training for e-learning days' participation;

(8) to ensure an opportunity for any collective bargaining negotiations with representatives of the school district's employees that would be legally required; and

(9) to review and revise the program as implemented to address difficulties confronted.

The State Board of Education's approval of a school district's initial e-learning program and renewal of the e-learning program shall be for a term of 3 years.

(e) The State Board of Education may adopt rules governing its supervision and review of e-learning programs consistent with the provision of this Section. However, in the absence of such rules, school districts may submit proposals for State Board of Education consideration under the authority of this

Section.

(105 ILCS 5/10-29)

Sec. 10-29. Remote educational programs.

(a) For purposes of this Section, "remote educational program" means an educational program delivered to students in the home or other location outside of a school building that meets all of the following criteria:

(1) A student may participate in the program only after the school district, pursuant to adopted school board policy, and a person authorized to enroll the student under Section 10-20.12b of this Code determine that a remote educational program will best serve the student's individual learning needs. The adopted school board policy shall include, but not be limited to, all of the following:

(A) Criteria for determining that a remote educational program will best serve a student's individual learning needs. The criteria must include consideration of, at a minimum, a student's prior attendance, disciplinary record, and academic history.

(B) Any limitations on the number of students or grade levels that may participate in a remote educational program.

(C) A description of the process that the school district will use to approve participation in the remote educational program. The process must include

without limitation a requirement that, for any student who qualifies to receive services pursuant to the federal Individuals with Disabilities Education Improvement Act of 2004, the student's participation in a remote educational program receive prior approval from the student's individualized education program team.

(D) A description of the process the school district will use to develop and approve a written remote educational plan that meets the requirements of subdivision (5) of this subsection (a).

(E) A description of the system the school district will establish to calculate the number of clock hours a student is participating in instruction in accordance with the remote educational program.

(F) A description of the process for renewing a remote educational program at the expiration of its term.

(G) Such other terms and provisions as the school district deems necessary to provide for the establishment and delivery of a remote educational program.

(2) The school district has determined that the remote educational program's curriculum is aligned to State learning standards and that the program offers instruction and educational experiences consistent with those given to

students at the same grade level in the district.

(3) The remote educational program is delivered by instructors that meet the following qualifications:

(A) they are certificated under Article 21 of this Code;

(B) they meet applicable highly qualified criteria under the federal No Child Left Behind Act of 2001; and

(C) they have responsibility for all of the following elements of the program: planning instruction, diagnosing learning needs, prescribing content delivery through class activities, assessing learning, reporting outcomes to administrators and parents and guardians, and evaluating the effects of instruction.

(4) During the period of time from and including the opening date to the closing date of the regular school term of the school district established pursuant to Section 10-19 of this Code, participation in a remote educational program may be claimed for general State aid purposes under Section 18-8.05 of this Code on any calendar day, notwithstanding whether the day is a day of pupil attendance or institute day on the school district's calendar or any other provision of law restricting instruction on that day. If the district holds year-round classes in some buildings, the district shall classify each student's participation in a remote educational program as

either on a year-round or a non-year-round schedule for purposes of claiming general State aid. Outside of the regular school term of the district, the remote educational program may be offered as part of any summer school program authorized by this Code.

(5) Each student participating in a remote educational program must have a written remote educational plan that has been approved by the school district and a person authorized to enroll the student under Section 10-20.12b of this Code. The school district and a person authorized to enroll the student under Section 10-20.12b of this Code must approve any amendment to a remote educational plan. The remote educational plan must include, but is not limited to, all of the following:

(A) Specific achievement goals for the student aligned to State learning standards.

(B) A description of all assessments that will be used to measure student progress, which description shall indicate the assessments that will be administered at an attendance center within the school district.

(C) A description of the progress reports that will be provided to the school district and the person or persons authorized to enroll the student under Section 10-20.12b of this Code.

(D) Expectations, processes, and schedules for

interaction between a teacher and student.

(E) A description of the specific responsibilities of the student's family and the school district with respect to equipment, materials, phone and Internet service, and any other requirements applicable to the home or other location outside of a school building necessary for the delivery of the remote educational program.

(F) If applicable, a description of how the remote educational program will be delivered in a manner consistent with the student's individualized education program required by Section 614(d) of the federal Individuals with Disabilities Education Improvement Act of 2004 or plan to ensure compliance with Section 504 of the federal Rehabilitation Act of 1973.

(G) A description of the procedures and opportunities for participation in academic and extra-curricular activities and programs within the school district.

(H) The identification of a parent, guardian, or other responsible adult who will provide direct supervision of the program. The plan must include an acknowledgment by the parent, guardian, or other responsible adult that he or she may engage only in non-teaching duties not requiring instructional judgment or the evaluation of a student. The plan shall

designate the parent, guardian, or other responsible adult as non-teaching personnel or volunteer personnel under subsection (a) of Section 10-22.34 of this Code.

(I) The identification of a school district administrator who will oversee the remote educational program on behalf of the school district and who may be contacted by the student's parents with respect to any issues or concerns with the program.

(J) The term of the student's participation in the remote educational program, which may not extend for longer than 12 months, unless the term is renewed by the district in accordance with subdivision (7) of this subsection (a).

(K) A description of the specific location or locations in which the program will be delivered. If the remote educational program is to be delivered to a student in any location other than the student's home, the plan must include a written determination by the school district that the location will provide a learning environment appropriate for the delivery of the program. The location or locations in which the program will be delivered shall be deemed a long distance teaching reception area under subsection (a) of Section 10-22.34 of this Code.

(L) Certification by the school district that the plan meets all other requirements of this Section.

(6) Students participating in a remote educational program must be enrolled in a school district attendance center pursuant to the school district's enrollment policy or policies. A student participating in a remote educational program must be tested as part of all assessments administered by the school district pursuant to Section 2-3.64a-5 of this Code at the attendance center in which the student is enrolled and in accordance with the attendance center's assessment policies and schedule. The student must be included within all adequate yearly progress and other accountability determinations for the school district and attendance center under State and federal law.

(7) The term of a student's participation in a remote educational program may not extend for longer than 12 months, unless the term is renewed by the school district. The district may only renew a student's participation in a remote educational program following an evaluation of the student's progress in the program, a determination that the student's continuation in the program will best serve the student's individual learning needs, and an amendment to the student's written remote educational plan addressing any changes for the upcoming term of the program.

For purposes of this Section, a remote educational program does not include instruction delivered to students through an e-learning program approved under Section 10-20.56 of this

Code.

(b) A school district may, by resolution of its school board, establish a remote educational program.

(c) Clock hours of instruction by students in a remote educational program meeting the requirements of this Section may be claimed by the school district and shall be counted as school work for general State aid purposes in accordance with and subject to the limitations of Section 18-8.05 of this Code.

(d) The impact of remote educational programs on wages, hours, and terms and conditions of employment of educational employees within the school district shall be subject to local collective bargaining agreements.

(e) The use of a home or other location outside of a school building for a remote educational program shall not cause the home or other location to be deemed a public school facility.

(f) A remote educational program may be used, but is not required, for instruction delivered to a student in the home or other location outside of a school building that is not claimed for general State aid purposes under Section 18-8.05 of this Code.

(g) School districts that, pursuant to this Section, adopt a policy for a remote educational program must submit to the State Board of Education a copy of the policy and any amendments thereto, as well as data on student participation in a format specified by the State Board of Education. The State Board of Education may perform or contract with an outside

entity to perform an evaluation of remote educational programs in this State.

(h) The State Board of Education may adopt any rules necessary to ensure compliance by remote educational programs with the requirements of this Section and other applicable legal requirements.

(105 ILCS 5/18-8.05)

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts,

in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school"

means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9 and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in

subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert

a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is \$4,225. For the 1999-2000 school year, the Foundation Level of support is \$4,325. For the 2000-2001 school year, the Foundation Level of support is \$4,425. For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is \$4,560. For the 2003-2004 school year, the Foundation Level of support is \$4,810. For the 2004-2005 school year, the Foundation Level of support is \$4,964. For the 2005-2006 school year, the Foundation Level of support is \$5,164. For the 2006-2007 school year, the Foundation Level of support is \$5,334. For the 2007-2008 school year, the Foundation Level of support is \$5,734. For the 2008-2009 school year, the Foundation Level of support is \$5,959.

(3) For the 2009-2010 school year and each school year thereafter, the Foundation Level of support is \$6,119 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be

utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and

from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

For partial elementary unit districts created pursuant to Article 11E of this Code, local property tax revenues per pupil

shall be calculated as the product of the equalized assessed valuation for property within the partial elementary unit district for elementary purposes, as defined in Article 11E of this Code, multiplied by 2.06% and divided by the district's Average Daily Attendance figure, plus the product of the equalized assessed valuation for property within the partial elementary unit district for high school purposes, as defined in Article 11E of this Code, multiplied by 0.94% and divided by the district's Average Daily Attendance figure.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year one year before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the

Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of \$218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school

district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round

classes, days of attendance in July and August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May. The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To calculate the Average Daily Attendance for the district, the average daily attendance for the year-round buildings shall be multiplied by the days in session for the non-year-round buildings for each month and added to the monthly attendance of the non-year-round buildings.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12. Days of attendance by pupils through verified participation in an e-learning program approved by the State Board of Education under Section 10-20.56 of the Code shall be

considered as full days of attendance for purposes of this Section.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of  $1/6$  day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) (Blank).

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is

utilized for an in-service training program for teachers, up to a maximum of 5 days per school year, provided a district conducts an in-service training program for teachers in accordance with Section 10-22.39 of this Code; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day required for a legal school calendar pursuant to Section 10-19 of this Code; (1.5) when, of the 5 days allowed under item (1), a maximum of 4 days are used for parent-teacher conferences, or, in lieu of 4 such days, 2 full days are used, in which case each such day may be counted as a calendar day required under Section 10-19 of this Code, provided that the full-day, parent-teacher conference consists of (i) a minimum of 5 clock hours of parent-teacher conferences, (ii) both a minimum of 2 clock hours of parent-teacher conferences held in the evening following a full day of student attendance, as specified in subsection (F)(1)(c), and a minimum of 3 clock hours of parent-teacher conferences held on the day immediately following evening parent-teacher conferences, or (iii) multiple parent-teacher conferences held in the evenings following full days of student attendance, as specified in subsection (F)(1)(c), in which the time used for the parent-teacher conferences is equivalent to a minimum of 5 clock hours; and (2) when days in addition to those provided in items (1) and (1.5) are scheduled by a school

pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted

as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second

year of kindergarten as determined under the rules and regulations of the State Board of Education.

(i) On the days when the assessment that includes a college and career ready determination is administered under subsection (c) of Section 2-3.64a-5 of this Code, the day of attendance for a pupil whose school day must be shortened to accommodate required testing procedures may be less than 5 clock hours and shall be counted towards the 176 days of actual pupil attendance required under Section 10-19 of this Code, provided that a sufficient number of minutes of school work in excess of 5 clock hours are first completed on other school days to compensate for the loss of school work on the examination days.

(j) Pupils enrolled in a remote educational program established under Section 10-29 of this Code may be counted on the basis of one-fifth day of attendance for every clock hour of instruction attended in the remote educational program, provided that, in any month, the school district may not claim for a student enrolled in a remote educational program more days of attendance than the maximum number of days of attendance the district can claim

(i) for students enrolled in a building holding year-round classes if the student is classified as participating in the remote educational program on a year-round schedule or  
(ii) for students enrolled in a building not holding year-round classes if the student is not classified as

participating in the remote educational program on a year-round schedule.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

The Department of Revenue shall add to the equalized assessed value of all taxable property of each school district situated entirely or partially within a county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code (a) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 or 15-177 of the Property Tax Code for real property situated in that school district exceeds the total amount that would have been allowed in that school district if the maximum reduction under Section 15-176 was (i) \$4,500 in Cook County or \$3,500 in all other counties in tax year 2003 or (ii) \$5,000 in all counties in tax year 2004 and thereafter and (b) an amount

equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of \$30,000 or less. The county clerk of any county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each school district all homestead exemption amounts under Section 15-176 or 15-177 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of \$30,000 or less. It is the intent of this paragraph that if the general homestead exemption for a parcel of property is determined under Section 15-176 or 15-177 of the Property Tax Code rather than Section 15-175, then the calculation of Available Local Resources shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section 15-176 or 15-177 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this paragraph that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than \$30,000, then the calculation of Available Local Resources shall not be affected by the difference, if any, because of those additional exemptions.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be

used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G) (3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G) (3).

For purposes of this subsection (G) (3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to

the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. Except as otherwise provided in this paragraph for a school district that has approved or does approve an increase in its limiting rate, for the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D). For the 2009-2010 school year and each school year thereafter, if a school district has approved or does approve an increase in its limiting rate, pursuant to Section 18-190 of the Property Tax Code, affecting the Base Tax Year, the Extension Limitation Equalized Assessed Valuation of the school district, as calculated by the State Board of Education, shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid times an amount equal to

one plus the percentage increase, if any, in the Consumer Price Index for all Urban Consumers for all items published by the United States Department of Labor for the 12-month calendar year preceding the Base Tax Year, plus the Equalized Assessed Valuation of new property, annexed property, and recovered tax increment value and minus the Equalized Assessed Valuation of disconnected property. New property and recovered tax increment value shall have the meanings set forth in the Property Tax Extension Limitation Law.

Partial elementary unit districts created in accordance with Article 11E of this Code shall not be eligible for the adjustment in this subsection (G)(3) until the fifth year following the effective date of the reorganization.

(3.5) For the 2010-2011 school year and each school year thereafter, if a school district's boundaries span multiple counties, then the Department of Revenue shall send to the State Board of Education, for the purpose of calculating general State aid, the limiting rate and individual rates by purpose for the county that contains the majority of the school district's Equalized Assessed Valuation.

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized

Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed \$14,000,000. Claims shall be prorated if they exceed \$14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district. Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary

school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by Public Act 92-28 is entitled to a recomputation of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(1.10) This paragraph (1.10) applies to the 2003-2004 school year and each school year thereafter. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall, for each fiscal year, be the low-income eligible pupil count as of July 1 of the immediately preceding fiscal year (as

determined by the Department of Human Services based on the number of pupils who are eligible for at least one of the following low income programs: Medicaid, the Children's Health Insurance Program, TANF, or Food Stamps, excluding pupils who are eligible for services provided by the Department of Children and Family Services, averaged over the 2 immediately preceding fiscal years for fiscal year 2004 and over the 3 immediately preceding fiscal years for each fiscal year thereafter) divided by the Average Daily Attendance of the school district.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:

(a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be \$800 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be \$1,100 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for the 1998-99 school year shall be \$1,500 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income

Concentration Level of 60% or more, the grant for the 1998-99 school year shall be \$1,900 multiplied by the low income eligible pupil count.

(e) For the 1999-2000 school year, the per pupil amount specified in subparagraphs (b), (c), and (d) immediately above shall be increased to \$1,243, \$1,600, and \$2,000, respectively.

(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be \$1,273, \$1,640, and \$2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 school year:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be \$355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant for each school year shall be \$675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be \$1,330 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be \$1,362 multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be \$1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be \$2,080 multiplied by the low income eligible pupil count.

(2.10) Except as otherwise provided, supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2003-2004 school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of 15% or less, the grant for each school year shall be \$355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level greater than 15%, the grant for each school year shall be \$294.25 added to the product of \$2,700 and the square of the Low Income Concentration Level, all multiplied by the low income eligible pupil count.

For the 2003-2004 school year and each school year

thereafter through the 2008-2009 school year only, the grant shall be no less than the grant for the 2002-2003 school year. For the 2009-2010 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.66. For the 2010-2011 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.33. Notwithstanding the provisions of this paragraph to the contrary, if for any school year supplemental general State aid grants are prorated as provided in paragraph (1) of this subsection (H), then the grants under this paragraph shall be prorated.

For the 2003-2004 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.25 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2004-2005 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.50 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2005-2006 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.75 multiplied by the difference between the grant amount

calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than \$261,000,000 in accordance with the following requirements:

(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental

and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or

improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H) (4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the

State aid funds affected by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the

following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H) (4) to any district that has not submitted a plan that has been approved by the State Board of Education.

(I) (Blank).

(J) (Blank).

(K) Grants to Laboratory and Alternative Schools.

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State

Board under this subsection (K) may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual

State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

(2) (Blank).

(3) Summer school. Summer school payments shall be made as provided in Section 18-4.3.

(M) Education Funding Advisory Board.

The Education Funding Advisory Board, hereinafter in this subsection (M) referred to as the "Board", is hereby created. The Board shall consist of 5 members who are appointed by the Governor, by and with the advice and consent of the Senate. The members appointed shall include representatives of education, business, and the general public. One of the members so appointed shall be designated by the Governor at the time the appointment is made as the chairperson of the Board. The initial members of the Board may be appointed any time after the effective date of this amendatory Act of 1997. The regular term of each member of the Board shall be for 4 years from the third Monday of January of the year in which the term of the member's appointment is to commence, except that of the 5 initial members appointed to serve on the Board, the member who is appointed as the chairperson shall serve for a term that commences on the date of his or her appointment and expires on the third Monday of January, 2002, and the remaining 4 members, by lots drawn at the first meeting of the Board that is held after all 5 members are appointed, shall determine 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2001, and 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2000. All members appointed to serve on the Board shall serve until their respective successors are appointed and confirmed. Vacancies

shall be filled in the same manner as original appointments. If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The State Board of Education shall provide such staff assistance to the Education Funding Advisory Board as is reasonably required for the proper performance by the Board of its responsibilities.

For school years after the 2000-2001 school year, the Education Funding Advisory Board, in consultation with the State Board of Education, shall make recommendations as provided in this subsection (M) to the General Assembly for the foundation level under subdivision (B)(3) of this Section and

for the supplemental general State aid grant level under subsection (H) of this Section for districts with high concentrations of children from poverty. The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

(N) (Blank).

(O) References.

(1) References in other laws to the various subdivisions of Section 18-8 as that Section existed before its repeal and replacement by this Section 18-8.05 shall be deemed to refer to the corresponding provisions of this Section 18-8.05, to the extent that those references remain applicable.

(2) References in other laws to State Chapter 1 funds shall be deemed to refer to the supplemental general State aid provided under subsection (H) of this Section.

(P) Public Act 93-838 and Public Act 93-808 make inconsistent changes to this Section. Under Section 6 of the Statute on Statutes there is an irreconcilable conflict between Public Act 93-808 and Public Act 93-838. Public Act 93-838, being the last

acted upon, is controlling. The text of Public Act 93-838 is the law regardless of the text of Public Act 93-808.

(Q) State Fiscal Year 2015 Payments.

For payments made for State fiscal year 2015, the State Board of Education shall, for each school district, calculate that district's pro-rata share of a minimum sum of \$13,600,000 or additional amounts as needed from the total net General State Aid funding as calculated under this Section that shall be deemed attributable to the provision of special educational facilities and services, as defined in Section 14-1.08 of this Code, in a manner that ensures compliance with maintenance of State financial support requirements under the federal Individuals with Disabilities Education Act. Each school district must use such funds only for the provision of special educational facilities and services, as defined in Section 14-1.08 of this Code, and must comply with any expenditure verification procedures adopted by the State Board of Education.

(105 ILCS 5/18-12) (from Ch. 122, par. 18-12)

Sec. 18-12. Dates for filing State aid claims. The school board of each school district shall require teachers, principals, or superintendents to furnish from records kept by them such data as it needs in preparing and certifying to the

regional superintendent its school district report of claims provided in Sections 18-8.05 through 18-9 as required by the State Superintendent of Education. The district claim shall be based on the latest available equalized assessed valuation and tax rates, as provided in Section 18-8.05 and shall use the average daily attendance as determined by the method outlined in Section 18-8.05 and shall be certified and filed with the regional superintendent by June 21 for districts with an official school calendar end date before June 15 or within 2 weeks following the official school calendar end date for districts with a school year end date of June 15 or later. The regional superintendent shall certify and file with the State Superintendent of Education district State aid claims by July 1 for districts with an official school calendar end date before June 15 or no later than July 15 for districts with an official school calendar end date of June 15 or later. Failure to so file by these deadlines constitutes a forfeiture of the right to receive payment by the State until such claim is filed and vouchered for payment. The regional superintendent of schools shall certify the county report of claims by July 15; and the State Superintendent of Education shall voucher for payment those claims to the State Comptroller as provided in Section 18-11.

Except as otherwise provided in this Section, if any school district fails to provide the minimum school term specified in Section 10-19, the State aid claim for that year shall be

reduced by the State Superintendent of Education in an amount equivalent to  $1/176$  or .56818% for each day less than the number of days required by this Code.

If the State Superintendent of Education determines that the failure to provide the minimum school term was occasioned by an act or acts of God, or was occasioned by conditions beyond the control of the school district which posed a hazardous threat to the health and safety of pupils, the State aid claim need not be reduced.

If a school district is precluded from providing the minimum hours of instruction required for a full day of attendance due to an adverse weather condition or a condition beyond the control of the school district that poses a hazardous threat to the health and safety of students, then the partial day of attendance may be counted if (i) the school district has provided at least one hour of instruction prior to the closure of the school district, (ii) a school building has provided at least one hour of instruction prior to the closure of the school building, or (iii) the normal start time of the school district is delayed.

If, prior to providing any instruction, a school district must close one or more but not all school buildings after consultation with a local emergency response agency or due to a condition beyond the control of the school district, then the school district may claim attendance for up to 2 school days based on the average attendance of the 3 school days

immediately preceding the closure of the affected school building or, if approved by the State Board of Education, utilize the provisions of an e-learning program for the affected school building as prescribed in Section 10-20.56 of this Code. The partial or no day of attendance described in this Section and the reasons therefore shall be certified within a month of the closing or delayed start by the school district superintendent to the regional superintendent of schools for forwarding to the State Superintendent of Education for approval.

Other than the utilization of any e-learning days as prescribed in Section 10-20.56 of this Code, no ~~no~~ exception to the requirement of providing a minimum school term may be approved by the State Superintendent of Education pursuant to this Section unless a school district has first used all emergency days provided for in its regular calendar.

If the State Superintendent of Education declares that an energy shortage exists during any part of the school year for the State or a designated portion of the State, a district may operate the school attendance centers within the district 4 days of the week during the time of the shortage by extending each existing school day by one clock hour of school work, and the State aid claim shall not be reduced, nor shall the employees of that district suffer any reduction in salary or benefits as a result thereof. A district may operate all attendance centers on this revised schedule, or may apply the

schedule to selected attendance centers, taking into consideration such factors as pupil transportation schedules and patterns and sources of energy for individual attendance centers.

Electronically submitted State aid claims shall be submitted by duly authorized district or regional individuals over a secure network that is password protected. The electronic submission of a State aid claim must be accompanied with an affirmation that all of the provisions of Sections 18-8.05 through 18-9, 10-22.5, and 24-4 of this Code are met in all respects.
