DEPARTMENT OF VETERANS' AFFAIRS

P.O. BOX 19432, 833 S. SPRING STREET, SPRINGFIELD, ILLINOIS 62794-9432
TELEPHONE: 217/782-6641 * FAX: 217/524-0344 * TDD: 217/524-4645

BRUCE RAUNER
GOVERNOR

STEPHEN CURDA
DIRECTOR

December 31, 2018

Personnel Concerned:

The Department of Veterans' Affairs Act (20 ILCS 2805/2.13), directs the Illinois Department of Veterans' Affairs (IDVA) to report the following information to the General Assembly electronically as provided under Section 3.1 of the General Assembly Organization Act:

- The number and nature of complaints made by residents;
- Information on any epidemic reported at a Veterans Home;
- The number of cases and information on the cases,
- The action taken by the Veterans Home to eradicate the spread of communicable disease.

Enclosed with this document are attachments which provide the requested information for the Illinois State Veterans Homes for the reporting period of July 1, 2018 through December 31, 2018.

- Attachments #1-4 are tables showing the major complaints raised by residents.
- Attachments #5-8 provide a breakdown of "communicable" diseases identified, and the action taken to provide the "spread" of said "communicable disease".

The attached "Residents Grievance Logs" contains residence complaints received on official grievance forms or major complaints which could not be immediately addressed at the resident advisory council and requires follow up by management staff at the Veterans' Home.

The attached "Antibiotic Usage Summary" contains the numbers of communicable diseases by month that required treatment with an antibiotic. Note that the list does not contain information on the following:

- Common Cold
- Influenza (unless the cases meet the Illinois Department of Public Health reporting requirements)
- Urinary Tract Infections (not considered communicable)
- Shingles (Per CDC guidelines, not considered a communicable disease)

The Department continues to provide the highest level of service to the maximum number of eligible veterans possible while still working within budgetary constraints.

Sincerely,

A handwritten signature in cursive script, appearing to read "Stephen Curda".

Stephen Curda, Ph.D.

**Illinois Veterans Home – Anna (IVHA)
Antibiotic Usage Summary
June – December 2018**

EPIDEMICS:

During this six-month span, the IVHA has had no illness epidemics that required reporting to local health departments or the Illinois Department of Public Health.

COMMUNICABLE DISEASES:

The following list contains the numbers of communicable diseases by month that required treatment with an antibiotic. Note that the list does not contain information on the following:

- Common Cold
- Influenza (unless the cases meet the Illinois Department of Public Health reporting requirements)
- Urinary Tract Infections (not considered communicable)
- Shingles (Per CDC guidelines, not considered a communicable disease)

July:

2 Pneumonia's / 2 ESBL's (urine) / 4 URI

August:

2 Skin Infections (Cellulitis) / 2 MRSA's (both wounds)

September:

None

October:

4 Pneumonia's / 2 Skin Infections (Cellulitis)

November:

None

December:

2 Conjunctivitis / 2 Lower Respiratory Infections

RESPONSE:

The following steps are taken in IDVA homes for non-epidemic communicable diseases:

- Treat the resident as needed; ensure antibiotic stewardship protocols are followed
- Identify and Isolate the case(s) in question
- Map the disease location(s) to determine if the disease is spreading
- If the disease appears to be spreading, determine if it is due to cross-contamination or cohabitation.
- Provide additional staff training on infection control prevention and response, if appropriate.
- Housekeeping department briefed to implement cleaning enhancements, if appropriate.

**Illinois Veterans Home – LaSalle (IVHL)
Antibiotic Usage Summary
June – December 2018**
