Fiscal Note (Financial & Professional Regulation)

The Department of Financial and Professional Regulation anticipates HB 5211 will have minimal impact on operations. Although HB 5211 will result in a decline of approximately $136,000 per annum in revenue for the second and third years of the 3-year license term, the reduction in revenue will be offset by reductions in costs associated with annual license renewals. HB 5211 will have limited fiscal implications which can absorbed through existing operations.

New Act

Creates the Design-Build for Public Schools Act. Defines terms. Provides that a school district shall, for each public project, make a written determination as to whether it is in the best interests of the school district to enter into a design-build contract for that project. Specifies factors to be considered in making the determination. Provides that if a school district elects to use a design-build delivery method under the Act, it must issue a notice of intent to receive proposals for a project no less than 14 days before issuing the request for proposals. Specifies requirements for the request for proposals. Requires a school district that elects to use the design-build delivery method to establish a committee to evaluate and select the design-build entity, which shall consist of no less than 5 members but no more than 7 members and shall include no less than one licensed design professional. Requires a school district to use a 2-phase procedure for the selection of a design-build entity; specifies the criteria for each phase. Provides that a school district may award the contract to the highest overall ranked entity. Repeals the Act on July 1, 2023. Effective immediately.

House Floor Amendment No. 2

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Makes changes to the legislative intent provision. Defines "design-build entity". Provides that a request for proposals must include the design-build entity's plan to comply with the utilization goals established by the corporate authorities of the school district for minority-owned and women-owned business enterprises and to comply with a provision in the Illinois Human Rights Act; makes conforming changes. Provides that a school district may not consider any design-build entity for evaluation or award if the entity has any pecuniary interests in the project or has other relationships or circumstances that create the appearance of impropriety. Provides that, after a proposal has been submitted in accordance with the Act, a design-build entity may not replace, remove, or otherwise modify any design professional firm identified as a member of the design-build team unless certain criteria are met. Provides that the design-build entity, regional superintendent of schools, and State Board of Education shall annually submit a detailed report to the General Assembly on the status of projects procured under the Act. Provides that all projects procured under the Act using the design-build delivery method must comply with a provision in the School Code governing school buildings and shall be subject to review and approval by the State Board of Education. Makes other changes. Effective immediately.

House Floor Amendment No. 3

With respect to legislative intent, provides that all projects using the delivery system under the Act shall comply with the school building code provisions of the School Code and shall be subject to review and approval by the State Board of Education. Provides that price may not be used as a factor in the evaluation of Phase I proposals in the definition of "evaluation criteria". the contrary, beginning in fiscal year 2019, the specified threshold for working families must be no less than 185% of the then-current
federal poverty level for each family size. Effective immediately.

Fiscal Note (Dept. of Human Services)

There is no fiscal impact to the Department of Human Services. Effective October 1st 2017, the FPL was increased to
185% for eligibility in the Child Care Assistance Program (CCAP). The Department's opposition is because the legislation
sets in statute the income level at the 185% threshold for low-income working families applying for CCAP. By
establishing it in law, it restricts the State from decreasing the FPL for eligibility. The FPL is currently set in rule, and rules
allow the necessary flexibility to raise and/or lower the FPL in order to be fiscally responsible and comply with any
changes in federal law that may impact the Child Care Program.

Provides that the fee for such permit shall be $500 to be distributed into the State Construction Account Fund. Effective July 1, 2019.

House Floor Amendment No. 1

Replaces everything after the enacting clause with the provisions of the introduced bill, and makes the following changes: (1) provides that the Department and local authorities may issue a special permit authorizing the applicant to move loads of agricultural commodities if: (i) the vehicle's axle weight and gross weight do not exceed 10% above the maximum limits allowed; and (ii) the vehicle's gross weight does not exceed the vehicles registered gross weight by 10% (rather than on a 2-axle single vehicle registered by the Secretary of State with the axle loads not to exceed 45%, on a 3-axle or 4-axle vehicle registered by the Secretary of State not to exceed 30%, and on a 5-axle vehicle registered by the Secretary of State not to exceed 20% above the gross weights allowed); (2) provides that all other restrictions to permits apply; (3) provides that permits issued under the new provisions are valid only on federal and State highways under the jurisdiction of the Department other than interstate highways; (4) provides that a local authority may waive special permit requirements for highways under its jurisdiction for any vehicle issued a permit under the new provisions; and (5) provides that a combination of permits shall not exceed a total fee of $1,000. Effective July 1, 2019.

Fiscal Note, House Floor Amendment No. 1 (Dept. of Transportation)

The Illinois Department of Transportation would potentially receive additional revenue for the State Construction Account Fund from the issuance of overweight permits for agricultural commodities. Since the bill is not clear on the length of term for the permit, we assumed it was a one-time permit fee of $500. Additionally, since this is not something that we have permitted in the past we have no definitive way to estimate the number of permits that might be requested. However, last year was the first year that we had Emergency Harvest Permits and we issued 1,800 of those. If we assume that number as the basis for this new overweight permit, at $500 each, this would bring in additional $900,000 for the State Construction Account Fund. The damage to the highway system from the overweight loads of agricultural commodities would exceed the revenue generated by the new permit.

Recommends changes to the Chicago Teacher Article of the Illinois Pension Code. Specifies that for State fiscal year 2018, the State shall contribute $221,300,000 to the Chicago Teachers' Pension Fund. Beginning in State fiscal year 2019, provides that the State shall contribute an amount, to be determined by the Fund, equal to the employer normal cost for that fiscal year for all teachers hired before either (i) the implementation date of certain alternative benefits for members of the Downstate Teacher Article or (ii) the resolution or ordinance date for certain alternative benefits under the Chicago Teacher Article, whichever is earlier, plus the amount allowed under a specified provision to defray health insurance costs for all employees. Provides that the amount shall be reduced by the employer normal cost of the increase in benefits associated with the portion of salary in excess of the amount of the salary set for the Governor. Terminates an additional State contribution to the Fund equal to 0.544% of the Fund's total teacher payroll. Adds provisions concerning certification of the amount of the contribution and the submission of vouchers for the payment of State contributions to the Fund. Recommends changes to the State Pension Funds Continuing Appropriation Act to add a continuing appropriation for those State contributions to the Fund. Recommends changes to the School Code. In provisions concerning maximum reimbursement per credit hour for adult basic education, removes the consumer price index multiplier. Removes references to "Base Tax Year's Extension", "ECI", "Extension Limitation Ratio", "Minimum Funding Level", "Preceding Tax Year", "Preceding Tax Year's Extension", and "PTELL EAV". In the definition of "employee benefits", removes the inclusion of costs associated with statutorily required payment of pension normal costs. In the definition of "Organizational Unit CWI", sets forth a maximum Organizational Unit CWI of 1.04. In the calculation of employee benefit investments, removes provisions concerning the certification and calculation of employer normal cost of teacher pensions for all school districts. Requires the State Superintendent of Education to calculate certain average salaries once (rather than annually). Removes a limitation that certain salary calculations shall only be applied in the first year of implementation of Evidence-Based Funding; removes calculation provisions for subsequent years. Removes provisions for the calculation of the Chicago school district's Adjusted Local Capacity Target. Removes provisions exempting portions of an Organizational Unit within a redevelopment project area from calculations of the Unit's EAV; removes corresponding changes in other Acts. Removes provisions that included specified block grants in the calculation of the Chicago school district's Base Funding Minimum. Limits provisions specifying that the Base Funding Minimum for Organizational Units shall be the sum of the amount of Evidence-Based Funding for the prior school year and the Base Funding Minimum for the prior school year to the 2018-2019 and 2019-2020 school years. Provides that beginning with the 2020-2021 school year, the Base Funding Minimum shall be the sum of the Evidence-Based Funding for the prior school year and the Base Funding Minimum for the prior school year divided by the Organizational Unit's ASE for the prior school year multiplied by the Organizational Unit's ASE for the current school year. Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill, but with changes that include the following. Further amends the Illinois Pension Code. In the General Assembly Article, provides that a Tier 1 employee must make the election before March 31, 2018 (instead of March 1, 2018). In the General Assembly, State Universities, Downstate Teachers, and Chicago Teachers Articles, makes changes to provisions concerning a Tier 1 employee’s acceptance of a future increase in income and specifies that the election to have automatic annual increases reduced also applies to survivors annuities. Changes the definition of "future increase in income" to reference increases to a Tier 1 employee’s base pay (instead of an increase in income in any form) and adds a definition of "base pay". In the General Assembly, State Employee, State Universities, and Downstate Teachers Articles, makes changes to the funding formulas. In the Chicago Teacher Article, provides that the State Comptroller (instead of the Fund) will make the consideration payments and amends the State Pension Funds Continuing Appropriation Act to provide a continuing appropriation for those consideration payments. In the State Universities and Downstate Teacher Articles, requires an additional contribution from employers for employees that earn more than $140,000 (instead of more than the salary set for the Governor) in a school year. In the State Employee, State Universities, and Downstate Teachers Articles, no later than January 1, 2018 and each year thereafter, requires those Systems to calculate the net present value of the pension benefits for certain inactive members and to offer those members the opportunity to elect to receive an accelerated pension benefit payment equal to 70% of the net present value of his or her pension benefits in lieu of receiving any pension benefit. Provides that if a person elects to receive an accelerated pension benefit payment, his or her credits and creditable service under that Article shall be terminated upon receipt of the accelerated pension benefit payment; except that the terminated service credit shall be used for the purposes of determining participation and benefits under the State Employees Group Insurance Act of 1971. Makes conforming changes in the State Employees Group Insurance Act of 1971. Makes other changes. Effective immediately, but does not take effect at all unless Senate Bills 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, and 13 of the 100th General Assembly become law.

Pension Note (Government Forecasting & Accountability)

SB 14 makes several changes to city contribution rates for the Municipal Employees' Annuity and Benefit Fund and Laborers' Annuity and Benefit Fund. Such changes include defined maximums for tax levies on the city's taxable property for years 2018 through 2022, and a new method for calculating maximums for years following 2022. The bill also offers increased employee contribution rates to Tier 2 employees who opt for reduced retirement ages. This bill also introduces an annuity for Tier 3 members, and all new city officers who are members of the Municipal Employees' Annuity and Benefit Fund will not be eligible for alternative annuity or alternative disability benefits. There are several factors in this bill that will likely make a significant fiscal impact on both the Municipal Employees' and Laborers' Fund. At this time, no actuarial cost study has been made available to CGFA, thus the long-term fiscal impact cannot be determined. An updated impact note will be issued when an actuarial cost study has been obtained from the affected pension funds.

Fiscal Note (Government Forecasting & Accountability)

SB 14 will not have a fiscal impact on the Commission on Government Forecasting and Accountability.

Correctional Note (Dept of Corrections)

SB 14 has no fiscal or population impact on the Department of Corrections

State Debt Impact Note (Government Forecasting & Accountability)

SB 14 would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

Judicial Note (Admin Office of the Illinois Courts)
SB 00014 (CONTINUED)

This legislation would neither increase nor decrease the number of judges needed in the State.

Housing Affordability Impact Note (Housing Development Authority)
This bill will have no effect on the cost of constructing, purchasing, owning, or selling a single-family residence.

Balanced Budget Note (Office of Management and Budget)
The Balanced Budget Note Act does not apply to this bill as it is not a supplemental appropriation that increases or decreases appropriations. Under the Act, a balanced budget note must be prepared only for bills that change a general funds appropriation for the fiscal year in which the new bill is enacted.

Home Rule Note (Dept. of Commerce & Economic Opportunity)
This bill does not pre-empt home rule authority.

State Mandates Fiscal Note (Dept. of Commerce & Economic Opportunity)
This bill does not create a State mandate.

Using the average base pay of a Corrections Nurse I, the fiscal impact to IDOC would be $2,204,800. In addition, the cost $1,832,960 for group insurance and retirement would be added to the overall State budget. All things considered the fiscal impact to the State of Illinois for SB 19 would be $4,037,760 in its first year of enactment and at minimum would cost the State $40,377,600 over the next 10 years.

Correctional Note (Dept of Corrections)
Senate Bill 19 will have no correctional impact on the Department of Corrections. However, as written SB19 would require the Department of Corrections to hire an additional 32 INA staff. Using the average base pay of a Corrections Nurse I, the fiscal impact to IDOC would be $2,204,800. In addition, the cost $1,832,960 for group insurance and retirement would be added to the overall State budget. All things considered the fiscal impact to the State of Illinois for SB19 would be $4,037,760 in its first year of enactment and at minimum would cost the State $40,377,600 over the next 10 years.

Provides for various circumstances when an expedited certification form must be completed by the certifying agency or official. Provides that a certifying official or agency receiving requests for completion of certification forms shall not disclose the immigration status of a victim or person requesting the certification form, except to comply with federal law or State law, legal process, or if authorized, by the victim or person requesting the certification form. Makes other changes.

Judicial Note (Admin Office of the Illinois Courts)
This bill would neither increase nor decrease the number of judges needed in the State of Illinois.

House Floor Amendment No. 1
Modifies the definition of "certifying agency". Provides that no provision in the Act limits the manner in which a certifying officer or certifying agency may describe whether the person has cooperated or been helpful to the agency or provide any additional information the certifying officer or certifying agency believes might be relevant to a federal immigration officer's adjudication of a U or T visa application.

Fiscal Note, House Floor Amendment No. 1 (Illinois State Police)
Senate Bill 34 (H-AM 1) creates the VOICES Act and requires law enforcement agencies to respond to federal U and T visa certification forms within either 90 or 21 business days. This legislation would require the Illinois State Police to establish at least two additional attorney positions as well one support staff, at an additional approximate cost of $425,000 when benefits are included. With a new cause of action being created in statute, there is the potential for additional litigation against the Illinois State Police.

Replaces everything after the enacting clause. Reinserts the provisions of House Amendment No. 1, but with the following
changes: Requires the Department of Labor to create an electronic database for payrolls no later than April 1, 2020 (rather than April
1, 2019). Requires the Department to investigate and ascertain the prevailing rate of wages for each county in the State and to publish
the prevailing wage schedule ascertained on its official website no later than July 15 of each year. In a provision that permits any
affected person to file an objection to the Department's published prevailing wage schedule, provides that a person filing an objection
alleging that the actual percentage of laborers, workers, or mechanics that receive a collectively bargained rate of wage is below the
required 30% has the burden of establishing such and must support the allegation with competent evidence. Repeals a provision that
requires the Department and public bodies to comply with certain notice requirements if they are unable to ascertain the prevailing rate
of wage of any class of work required to be performed under a proposed contract. Makes other changes.

Senate Floor Amendment No. 2
SB 00309 (CONTINUED)

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill as amended by Senate Amendment No. 1 with the following changes: Provides that for hospitals, alternative health care models, Community Living Facilities, long-term care facilities, MC/DD facilities, ID/DD facilities, specialized mental health rehabilitation facilities, and community-integrated living arrangements, reasonable efforts must be made to have activated at all times (rather than providing that closed captioning must be activated at all times) the closed captioning feature on a television in a common area (rather than waiting room) provided for use by the general public or in a patient, resident, or consumer's room or to enable the closed captioning feature when requested to do so by a member of the general public or a patient if the television includes a closed captioning feature. Provides that it is not a violation if a staff member deactivates a closed captioning feature unless the deactivation was done so knowingly or intentionally. Removes language requiring that reasonable efforts be made to prevent members of the general public and individuals using or requesting services from independently deactivating a closed captioning feature. Provides that it is not a violation if the closed captioning feature is deactivated by a member of the general public; a patient, resident, or consumer; or member of the staff if done so at a patient, resident, or consumer's request. Removes language providing that it is not a violation if the closed captioning feature is deactivated so long as the closed captioning is reactivated as soon as is practicable by a staff member upon knowledge of the deactivation. Requires that, if there is not a television with a closed captioning feature available, then it must be ensured that all televisions obtained for common areas and patient rooms after the effective date of the amendatory Act include a closed captioning feature (rather than then a sufficient number of televisions that include a captioning feature must be obtained as soon as is practicable). Provides that nothing in the provisions of the Community Living Facilities Licensing Act, Nursing Home Care Act, MC/DD Act, ID/DD Community Care Act, and Community-Integrated Living Arrangements Licensure and Certification Act concerning closed captioning shall apply to televisions that are privately owned by a resident or third party and not owned by the Community Living Facility, long-term care facility, MC/DD facility, ID/DD facility, or community-integrated living arrangement. Removes movie screens from the definition of “closed captioning”. Makes other changes.

Replaces everything after the enacting clause. Amends the Illinois Income Tax Act. Creates an income tax credit in the amount of $750 for each taxpayer located in a county in Illinois that was declared a major disaster area in July of 2017 who (i) is the owner of homestead property, or a small business, or both, and (ii) has reported the property damage to the appropriate governing authority working in conjunction with the Illinois Emergency Management Agency or the Federal Emergency Management Agency, or has applied for disaster relief with the Federal Emergency Management Agency for that property as a result of that natural disaster. Contains provisions concerning reimbursement of licensed distributors for costs associated with the initial purchase of a tax stamping machine, and provides a tax collection discount for licensed distributors.  
Fiscal Note (Dept. of Revenue)  
The fiscal impact for SB 850 is as follows: (1) Cost of the 5.5% distributor reimbursement for new stamping machines (A) Total number of licensed distributors in IL = 96; (B) Estimated cost of a digital stamping machine = $125,000 to $150,000; (C) Statewide cost if each distributor purchased one new digital stamping machine = $12 million to $14.4 million; (D) Portion of Statewide costs eligible for reimbursement by the Department of Revenue = $660,000 to $792,000; (E) Department of Revenue reimbursement cost factoring the Statewide cap on reimbursement = $60,000. (2) Cost of the 0.5% distributor discount for technology and equipment = Without a Statewide or per distributor cap on the total amount of reimbursement possible there is no way to estimate the total cost of the discount the State may have to bare. (3) Additional revenue due to the 90% requirement for an affixed stamp - This change has no direct impact on the revenue generated by the cigarette tax. (4) Additional revenue due to the implementation of a digital tax stamp - Digital tax stamps are unlikely to produce additional cigarette tax revenue.

Provides that the use in an instrument of terms such as "child", "children", "grandchild", "grandchildren", "descendants", and "issue", whether or not modified by phrases such as "biological", "genetic", "born to", or "of the body" shall not alone constitute clear and convincing evidence of an intent to include posthumous children not in utero at the decedent's death. Land Conveyance Appraisal Note (Dept. of Natural Resources)
The value of the property before encumbering is $35,750 and the value after encumbrance is $5,750. The value of the easement is approximately $30,000 or roughly $2,600 per acre. This would represent a loss in value of property of approximately 84% which would be similar to what the Department of Natural Resources has seen in other areas of the State due to WRP type easements.

Makes similar changes to provisions regarding DuPage and Peoria counties.
Senate Floor Amendment No. 4

Fiscal Note (Dept. of Central Management Services)  
The Department of Central Management Services cannot quantify a financial impact to the Agency at this time. However, after reviewing a sample of the FY16 contractual wage data from CMS’ State Use Vendors, the data preliminarily suggests that there could be a significant increase in vendor labor costs, potentially up to a $5.5 million annual increase. When vendor prices increase, this is typically passed along to the customers, in this case the State of Illinois.

New Act

55 ILCS 5/5-12001.2

Creates the Small Wireless Facilities Deployment Act. Provides for legislative intent for the Act and definitions. Provides that an authority (a unit of local government with control over rights-of-way) may not prohibit, regulate, or charge for the collocation of small wireless facilities (the installation, mounting, maintaining, modifying, operating, or replacement of small wireless facilities on or adjacent to a wireless support structure or utility pole). Provides that small wireless facilities shall be classified as permitted uses and not subject to zoning review and approval under specified circumstances. Provides requirements for applications, fees, application review, and issuance of permits for collocation of small wireless facilities. Provides that an authority may not require applications for routine maintenance or replacement of wireless facilities with wireless facilities that are substantially similar, of the same size, or smaller. Requires authorities to allow the collocation of small wireless facilities on authority utility poles under specified circumstances. Prohibits authorities from regulating the design, engineering, construction, installation, or operation of any small wireless facility in specified circumstances. Provides that a circuit court has jurisdiction to resolve all disputes arising under the Act. Prohibits an authority from requiring a wireless provider to indemnify the authority or its officers or employees and from naming the authority on a wireless provider's insurance policy. Limits home rule powers. Amends the Counties Code making conforming changes.

Senate Floor Amendment No. 3

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes:
Provides that the Act does not apply to a municipality with a population of 1,000,000 or more or to electric or gas public utilities or those utilities' wireless facilities if the facilities are being used, developed, and maintained for use in providing delivery services and Smart Grid functionality or application to retail customers. Modifies several definitions and adds a definition for "micro wireless facility". Provides that small wireless facilities shall be classified as permitted uses and not subject to zoning review or approval if they are collocated outside rights-of-way in property not zoned primarily for residential use (rather than exclusively for single family residential use). Provides that an authority may reserve space on an authority's utility poles for future public safety uses or electric utility uses under specified conditions. Provides that an authority may require a wireless provider to provide on an application specific structural integrity and make-ready analysis, the location where a small wireless facility or utility pole would be installed, photographs of the location and its immediate surroundings, specifications and drawings for each proposed small wireless facility, a proposed schedule for the installation and completion of each small wireless facility, and certification that the collocation is in compliance with specified regulations. Inserts new provisions concerning requirements and standards for small wireless facilities including: collocation on new or existing utility poles or alternate structures (both public and private); height and spacing of small wireless facilities; interference with frequencies used by the authority's public safety communications or other electrical or transmissions systems; compliance with local code and zoning provisions; installation in rights-of-way; replacement of authority utility poles; maintenance of existing and removal of abandoned small wireless facilities; and insurance. Modifies provisions regarding rates for collocation on an authority utility pole and submission, fees, supporting documentation, processing, tolling, approval, and denial of applications. Provides for the combination of multiple requests to collocate small wireless facilities on the same application. Provides that collocation for which a permit is granted shall be completed within 180 days (rather than one year) after issuance of the permit. Provides that permits for operation of the facilities shall be a duration of not less than 10 years and must be renewed for equivalent durations. Adds provisions concerning installation of small wireless facilities on property controlled by a park district, forest preserve district, or conservation district. Changes provisions concerning indemnification. Provides that an authority may require a wireless provider to carry, at the wireless provider's cost and expense, specified insurance. Provides for repeal of the Act on June 1, 2020. Makes other changes.

Senate Floor Amendment No. 4

Removes language providing that any permits for work within rights-of-way shall be subject to the requirements in provisions of the Small Wireless Facilities Deployment Act concerning regulation of small wireless facilities. Provides that nothing set forth in the Small Wireless Facilities Deployment Act shall be construed to relieve any person from specified requirements, other than small wireless facilities subject to the Act. In provisions of the Small Wireless Facilities Deployment Act concerning insurance, adds an exception for a wireless provider with an existing franchise to occupy and operate in a right-of-way. Makes other changes.

This bill would neither increase nor decrease the number of judges needed in the State.

This legislation has no fiscal impact to the Department of Central Management Services. CMS does recommend that a fiscal note be prepared by the Department of Innovation and Technology (DoIT).

Housing Affordability Impact Note (Housing Development Authority)

Provides that small wireless facilities shall be subject to administrative review except regarding height exceptions or variance. Provides that small wireless facilities are not subject to zoning review or approval outside rights-of-way in property zoned exclusively for commercial or industrial use (rather than outside rights-of-way in property not zoned primarily for residential use). Provides that an authority may require a wireless provider to: provide equipment type and model numbers for the antennas and all other wireless equipment associated with the small wireless facility; provide a written certification describing the property rights, technical limits, or material cost reasons an alternate location proposed by an authority does not satisfy specified placement criteria; comply with specified written design standards; and comply with reasonable, technically feasible, and non-discriminatory design or concealment measures in a historic district or on a historic landmark. Provides for procedures in the event that a wireless provider’s wireless facilities cause unacceptable interference to a public safety agency’s safety communications. Provides that applications that include installation of a new utility pole to collocate a small wireless facility shall be deemed approved if the authority fails to approve or deny the application within 120 days under specified circumstances. Provides that the 180 days allowed to complete collocation after the issuance of a permit may be extended under specified circumstances. Replaces language concerning application fees by specifying that an authority may charge an application fee of $350 to $1,000. Provides fees may be waived for replacement of wireless facilities with wireless facilities that are substantially similar, the same size, or smaller if the wireless provider provides notice with specifications of the replaced equipment. Provides that an authority may not charge annual recurring rates for collocation on authority utility poles located outside rights-of-way. Provides that an authority or person controlling a utility pole make available rates, fees, and terms in compliance with the Act within 2 months (rather than 6 months) after the effective date of the Act. Provides that wireless providers that have existing agreements with an authority may opt to use the rates, fees, and terms as provided in the Act (rather than in the existing agreement) in specified circumstances. Specifies enforcement mechanisms to remove abandoned small wireless facilities. Changes the date the Act is repealed to June 1, 2021 (rather than June 1, 2020). Makes other changes.
