COMMUNICATION

ILLINOIS STATE SENATE
DON HARMON
SENATOR
39TH DISTRICT

May 31, 2007

The Honorable Deborah Shipley
Secretary of the Senate
Room 403 Capitol Building
Springfield, IL 62704

Dear Madame Secretary:

I introduced Senate Bill 336 to the 95th General Assembly on February 7, 2007, dealing generally with procurement of contracts for bond insurance. Today, the House of Representatives amended the bill to limit its application to contracts for bond insurance awarded by the Illinois Housing Development Authority (IHDA).

The law firm that employs me, Burke, Burns & Pinelli, Ltd., represents IHDA on various bond transactions. While I do not believe that my continued sponsorship of Senate Bill 336, as amended, poses a conflict of interest, I write to disclose the situation for the public record.

Sincerely,

[June 1, 2007]

s/Don Harmon

Sec. 7-8. The State central committee shall be composed of one or two members from each congressional district in the State and shall be elected as follows:

State Central Committee

(a) Within 30 days after the effective date of this amendatory Act of the ~~95th General Assembly 1983~~ the State central committee of each political party shall certify to the State Board of Elections which of the following alternatives it wishes to apply to the State central committee of that party.

Alternative A. At the primary held in 2010, and at the primary held every 4 years thereafter, each primary elector may vote for one candidate of his party for member of the State central committee for the congressional district in which he resides. The State central committee of the political party under Alternative A shall be composed of members elected from the several congressional districts of the State, or appointed to fill a vacancy, as herein provided, and of no other person or persons whomever. The members of the State central committee shall, within 30 days after their election, meet in the city of Springfield and organize by electing from among their own number a chairman, and may at such time elect such officers from among their own number (or otherwise), as they may deem necessary or expedient. The outgoing chairman of the State central committee of the party shall, within 10 days before the meeting, notify each member of the State central committee elected at the primary of the time

[June 1, 2007]

and place of such meeting. In the organization and proceedings of the State central committee, each State central committeeman shall have one vote for each ballot voted in his congressional district by the primary electors of his party at the primary at which he was elected. Whenever a vacancy occurs in the State central committee of the political party, the vacancy may be filled by appointment by the congressional committee of the political party in the congressional district from which the appointee's predecessor was elected, and the member so selected to fill the vacancy shall be a resident of that congressional district. At the primary held on the third Tuesday in March 1970, and at the primary held every 4 years thereafter, each primary elector may vote for one candidate of his party for member of the State central committee for the congressional district in which he resides. The candidate receiving the highest number of votes shall be declared elected State central committeeman from the district. A political party may, in lieu of the foregoing, by a majority vote of delegates at any State convention of such party, determine to thereafter elect the State central committeemen in the manner following:

~~At the county convention held by such political party State central committeemen shall be elected in the same manner as provided in this Article for the election of officers of the county central committee, and such election shall follow the election of officers of the county central committee. Each elected ward, township or precinct committeeman shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party. In the case of a county lying partially within one congressional district and partially within another congressional district, each ward, township or precinct committeeman shall vote only with respect to the congressional district in which his ward, township, part of a township or precinct is located. In the case of a congressional district which encompasses more than one county, each ward, township or precinct committeeman residing within the congressional district shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party for one candidate of his party for member of the State central committee for the congressional district in which he resides and the Chairman of the county central committee shall report the results of the election to the State Board of Elections. The State Board of Elections shall certify the candidate receiving the highest number of votes elected State central committeeman for that congressional district.~~

~~The State central committee shall adopt rules to provide for and govern the procedures to be followed in the election of members of the State central committee.~~

~~After the effective date of this amendatory Act of the 91st General Assembly, whenever a vacancy occurs in the office of Chairman of a State central committee, or at the end of the term of office of Chairman, the State central committee of each political party that has selected Alternative A shall elect a Chairman who shall not be required to be a member of the State Central Committee. The Chairman shall be a registered voter in this State and of the same political party as the State central committee.~~

Alternative B. Each congressional committee shall, within 30 days after the adoption of this alternative, appoint a person of the sex opposite that of the incumbent member for that congressional district to serve as an additional member of the State central committee until his or her successor is elected at the general primary election in 1986. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section. In each congressional district at the general primary election held in 1986 and every 4 years thereafter, the male candidate receiving the highest number of votes of the party's male candidates for State central committeeman, and the female candidate receiving the highest number of votes of the party's female candidates for State central committeewoman, shall be declared elected State central committeeman and State central committeewoman from the district. At the general primary election held in 1986 and every 4 years thereafter, if all a party's candidates for State central committeemen or State central committeewomen from a congressional district are of the same sex, the candidate receiving the highest number of votes shall be declared elected a State central committeeman or State central committeewoman from the district, and, because of a failure to elect one male and one female to the committee, a vacancy shall be declared to exist in the office of the second member of the State central committee from the district. This vacancy shall be filled by appointment by the congressional committee of the political party, and the person appointed to fill the vacancy shall be a resident of the congressional district and of the sex opposite that of the committeeman or committeewoman elected at the general primary election. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section.

The Chairman of a State central committee composed as provided in this Alternative B must be selected from the committee's members.

~~The Except as provided for in Alternative A with respect to the selection of the Chairman of the State central committee, under both of the foregoing alternatives, the State central committee of the each~~

The members of the State central committee shall, within 41 days after each quadrennial election of the full committee, meet in the city of Springfield and organize by electing a chairman, and may at such time elect such officers from among their own number (or otherwise), as they may deem necessary or expedient. The outgoing chairman of the State central committee of the party shall, 10 days before the meeting, notify each member of the State central committee elected at the primary of the time and place of such meeting. In the organization and proceedings of the State central committee, each State central committeeman and State central committeewoman shall have one vote for each ballot voted in his or her congressional district by the primary electors of his or her party at the primary election immediately preceding the meeting of the State central committee. Whenever a vacancy occurs in the State central committee of ~~the~~ ~~any~~ political party, the vacancy shall be filled by appointment of the chairmen of the county central committees of the political party of the counties located within the congressional district in which the vacancy occurs and, if applicable, the ward and township committeemen of the political party in counties of 2,000,000 or more inhabitants located within the congressional district. If the congressional district in which the vacancy occurs lies wholly within a county of 2,000,000 or more inhabitants, the ward and township committeemen of the political party in that congressional district shall vote to fill the vacancy. In voting to fill the vacancy, each chairman of a county central committee and each ward and township committeeman in counties of 2,000,000 or more inhabitants shall have one vote for each ballot voted in each precinct of the congressional district in which the vacancy exists of his or her county, township, or ward cast by the primary electors of his or her party at the primary election immediately preceding the meeting to fill the vacancy in the State central committee. The person appointed to fill the vacancy shall be a resident of the congressional district in which the vacancy occurs, shall be a qualified voter, and, ~~in a committee composed as provided in Alternative B,~~ shall be of the same sex as his or her predecessor. A political party under Alternative A may, by a majority vote of the delegates at their ~~of any~~ State convention of such party, select a different Alternative under this subsection than selected by the State central committee ~~determine to return to the election of State central committeeman and State central committeewoman by the vote of primary electors.~~ Any action taken by a political party at a State convention in accordance with this Section shall be reported to the State Board of Elections by the chairman and secretary of such convention within 10 days after such action.

Powers

(i) Each committee and its officers shall have the powers usually exercised by such committees and by the officers thereof, not inconsistent with the provisions of this Article. The several committees herein provided for shall not have power to delegate any of their powers, or functions to any other person, officer or committee, but this shall not be construed to prevent a committee from appointing from its own membership proper and necessary subcommittees.

(j) The State central committee of a political party which elects its members by Alternative B under paragraph (a) of this Section shall adopt a plan to give effect to the delegate selection rules of the national political party and file a copy of such plan with the State Board of Elections when approved by a national political party.

(k) For the purpose of the designation of a proxy by a Congressional Committee to vote in place of an absent State central committeeman or committeewoman at meetings of the State central committee of a political party which elects its members by Alternative B under paragraph (a) of this Section, the proxy shall be appointed by the vote of the ward and township committeemen, if any, of the wards and townships which lie entirely or partially within the Congressional District from which the absent State central committeeman or committeewoman was elected and the vote of the chairmen of the county central committees of those counties which lie entirely or partially within that Congressional District and in which there are no ward or township committeemen. When voting for such proxy the county chairman, ward committeeman or township committeeman, as the case may be shall have one vote for each ballot voted in his county, ward or township, or portion thereof within the Congressional District, by the primary electors of his party at the primary at which he was elected. However, the absent State

central committeeman or committeewoman may designate a proxy when permitted by the rules of a political party which elects its members by Alternative B under paragraph (a) of this Section.

Notwithstanding any law to the contrary, a person is ineligible to hold the position of committeeperson in any committee established pursuant to this Section if he or she is statutorily ineligible to vote in a general election because of conviction of a felony. When a committeeperson is convicted of a felony, the position occupied by that committeeperson shall automatically become vacant. Sec. 7-13.1. Certification of Candidates-Consolidated primary. Not less than 61 days before the date of the consolidated primary, each local election official of each political subdivision required to nominate candidates for the respective offices by primary shall certify to each election authority whose duty it is to prepare the official ballot for the consolidated primary in such political subdivision the names of all candidates in whose behalf nomination papers have been filed in the office of such local election official and direct the election authority to place upon the official ballot for the consolidated primary election the names of such candidates in the same manner and in the same order as shown upon the certification. However, subject to appeal, the names of candidates whose nomination papers have been held invalid by the appropriate electoral board provided in Section 10-9 of this Code shall not be so certified. The certification shall be modified as necessary to comply with the requirements of any other statute or any ordinance adopted pursuant to Article VII of the Constitution prescribing specific provisions for nonpartisan elections, including without limitation Articles 3, 4 and 5 of "The Municipal Code".

The names of candidates shall be listed on the certification for the respective offices in the order in which the candidates have filed their nomination papers, or as determined by lot, or as otherwise specified by statute.

In every instance where applicable, the following shall also be indicated in the certification:

(1) Where there is to be more than one candidate elected to an office from a political subdivision or district;

(2) Where a voter has the right to vote for more than one candidate for an office;

(3) The terms of the office to be on the ballot, when a vacancy is to be filled for less than a full term, or when offices of a particular subdivision to be on the ballot at the same election are to be filled for different terms; ~~and~~

(4) The territory in which a candidate is required by law to reside, when such residency requirement is not identical to the territory of the political subdivision from which the candidate is to be elected or nominated; -

(5) Where a candidate's nominating papers or petitions have been objected to and the objection has been sustained by the electoral board established in Section 10-10, the words "OBJECTION SUSTAINED" shall be placed under the title of the office being sought by the candidate and the name of the aggrieved candidate shall not appear; and

(6) Where a candidate's nominating papers or petitions have been objected to and the decision of the electoral board established in Section 10-10 is either unknown or known to be in judicial review, the words "OBJECTION PENDING" shall be placed under the title of the office being sought by the candidate and next to the name of the candidate.

The local election official shall issue an amended certification whenever it is discovered that the original certification is in error.

Sec. 7-41. (a) All officers upon whom is imposed by law the duty of designating and providing polling places for general elections, shall provide in each such polling place so designated and provided, a sufficient number of booths for such primary election, which booths shall be provided with shelves, such supplies and pencils as will enable the voter to prepare his ballot for voting and in which voters may prepare their ballots screened from all observation as to the manner in which they do so. Such booths shall be within plain view of the election officers and both they and the ballot boxes shall be within plain view of those within the proximity of the voting booths. No person other than election officers and the challengers allowed by law and those admitted for the purpose of voting, as hereinafter provided, shall be permitted within the proximity of the voting booths, except by authority of the primary officers to keep order and enforce the law.

(b) The number of such voting booths shall not be less than one to every seventy-five voters or fraction thereof, who voted at the last preceding election in the precinct or election district.

(c) No person shall do any electioneering or soliciting of votes on primary day within any polling

place or within one hundred feet of any polling place, or, at the option of a church or private school, on any of the property of that church or private school that is a polling place. Election officers shall place 2 or more cones, small United States national flags, or some other marker a distance of 100 horizontal feet from each entrance to the room used by voters to engage in voting, which shall be known as the polling room. If the polling room is located within a building that is a private business, a public or private school, or a church or other organization founded for the purpose of religious worship and the distance of 100 horizontal feet ends within the interior of the building, then the markers shall be placed outside of the building at each entrance used by voters to enter that building on the grounds adjacent to the thoroughfare or walkway. If the polling room is located within a public or private building with 2 or more floors and the polling room is located on the ground floor, then the markers shall be placed 100 horizontal feet from each entrance to the polling room used by voters to engage in voting. If the polling room is located in a public or private building with 2 or more floors and the polling room is located on a floor above or below the ground floor, then the markers shall be placed a distance of 100 feet from the nearest elevator or staircase used by voters on the ground floor to access the floor where the polling room is located. The area within where the markers are placed shall be known as a campaign free zone, and electioneering is prohibited pursuant to this subsection. Notwithstanding any other provision of this Section, a church or private school may choose to apply the campaign free zone to its entire property, and, if so, the markers shall be placed near the boundaries on the grounds adjacent to the thoroughfares or walkways leading to the entrances used by the voters. At or near the door of each polling place, the election judges shall place signage indicating the proper entrance to the polling place. In addition, the election judges shall ensure that a sign identifying the location of the polling place is placed on a nearby public roadway. The State Board of Elections shall establish guidelines for the placement of polling place signage by rule.

The area on polling place property beyond the campaign free zone, whether publicly or privately owned, is a public forum for the time that the polls are open on an election day. At the request of election officers any publicly owned building must be made available for use as a polling place. A person shall have the right to congregate and engage in electioneering on any polling place property while the polls are open beyond the campaign free zone, including but not limited to, the placement of temporary signs. This subsection shall be construed liberally in favor of persons engaging in electioneering on all polling place property beyond the campaign free zone for the time that the polls are open on an election day.

(d) The regulation of electioneering on polling place property on an election day, including but not limited to the placement of temporary signs, is an exclusive power and function of the State. A home rule unit may not regulate electioneering and any ordinance or local law contrary to subsection (c) is declared void. This is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

Nominations of independent candidates for public office within any district or political subdivision less than the State, may be made by nomination papers signed in the aggregate for each candidate by qualified voters of such district, or political subdivision, equaling not less than 5%, nor more than 8% (or 50 more than the minimum, whichever is greater) of the number of persons, who voted at the next preceding regular election in such district or political subdivision in which such district or political subdivision voted as a unit for the election of officers to serve its respective territorial area, ~~except that independent candidates for the General Assembly shall require not less than 10%, nor more than 16% of the number of persons who voted at the next preceding general election in such district or political subdivision in which such district or political subdivision voted as a unit for the election of officers to serve its respective territorial area.~~ However, whenever the minimum signature requirement for an independent candidate petition for a district or political subdivision office shall exceed the minimum number of signatures for an independent candidate petition for an office to be filled by the voters of the State at large at the next preceding State-wide general election, such State-wide petition signature requirement shall be the minimum for an independent candidate petition for such district or political subdivision office. Each voter signing a nomination paper shall add to his signature his place of residence, and each voter may subscribe to one nomination for such office to be filled, and no more: Provided that the name of any candidate whose name may appear in any other place upon the ballot shall not be so added by petition for the same office.

In the case of the offices of Governor and Lieutenant Governor a joint petition including one candidate for each of those offices must be filed.

The compensation of judges of all primaries and all elections not under the jurisdiction of the county clerk, except judges supervising absentee balloting as provided in Section 19-12.2 of this Act, in counties having a population of 2,000,000 or more shall be not less than \$60 per day. The compensation of judges of all primaries and all elections under the jurisdiction of the county clerk, except judges supervising absentee balloting as provided in Section 19-12.2 of this Act, in counties having a population of 2,000,000 or more shall be not less than \$60 per day. The compensation of judges of all primaries and all elections, except judges supervising absentee ballots as provided in Section 19-12.2 of this Act, in counties having a population of at least 600,000 but less than 2,000,000 inhabitants shall be not less than \$45 per day as fixed by the county board of election commissioners of each such county. In addition to their per day compensation and notwithstanding the limitations thereon stated herein, the judges of election, in all counties with a population of less than 600,000, shall be paid \$3 each for each 100 voters or portion thereof, in excess of 200 voters voting for candidates in the election district or precinct wherein the judge is serving, whether a primary or an election is being held. However, no such extra compensation shall be paid to the judges of election in any precinct in which no paper ballots are counted by such judges of election. The 2 judges of election in counties having a population of less than 600,000 who deliver the returns to the county clerk shall each be allowed and paid a sum to be determined by the election authority for such services and an additional sum per mile to be determined by the election authority for every mile necessarily travelled in going to and returning from the office or place to which they deliver the returns. The compensation for mileage shall be consistent with current rates paid for mileage to employees of the county.

However, all judges who have been certified by the County Clerk or Board of Election Commissioners as having satisfactorily completed, within the 2 years preceding the day of election, the training course for judges of election, as provided in Sections 13-2.1, 13-2.2 and 14-4.1 of this Act, shall receive additional compensation of not less than \$10 per day in counties having a population of less than 600,000 inhabitants, the additional compensation of not less than \$10 per day in counties having a population of at least 600,000 but less than 2,000,000 inhabitants as fixed by the county board of election commissioners of each such county, and additional compensation of not less than \$20 per day in counties having a population of 2,000,000 or more for primaries and elections not under the jurisdiction of the county clerk, and additional compensation of not less than \$20 per day in counties having a population of 2,000,000 or more for primaries and elections under the jurisdiction of the county clerk.

In precincts in which there are tally judges, the compensation of the tally judges shall be 2/3 of that of the judges of election and each holdover judge shall be paid the compensation of a judge of election plus that of a tally judge.

Beginning on the effective date of this amendatory Act of 1998, the portion of an election judge's daily compensation reimbursed by the State Board of Elections is increased by \$15. The increase provided by this amendatory Act of 1998 must be used to increase each judge's compensation and may not be used by the county to reduce its portion of a judge's compensation.

Beginning on the effective date of this amendatory Act of the 95th General Assembly, the portion of an election judge's daily compensation reimbursement by the State Board of Elections is increased by an additional \$20. Students appointed as election judges under this subsection shall not be counted as absent from school on the day they serve as judges.

(d) The board of election commissioners may select 2 additional judges of election, one from each of the major political parties, for each 200 voters in excess of 600 in any precinct having more than 600 voters as authorized by Section 11--3. (10 ILCS 5/16-3) (from Ch. 46, par. 16-3)

(Text of Section before amendment by P.A. 94-1090)

Sec. 16-3. (a) The names of all candidates to be voted for in each election district or precinct shall be printed on one ballot, except as is provided in Sections 16-6.1 and 21-1.01 of this Act and except as otherwise provided in this Act with respect to the odd year regular elections and the emergency referenda; all nominations of any political party being placed under the party appellation or title of such party as designated in the certificates of nomination or petitions. The names of all independent candidates shall be printed upon the ballot in a column or columns under the heading "independent" arranged under the names or titles of the respective offices for which such independent candidates shall have been nominated and so far as practicable, the name or names of any independent candidate or candidates for any office shall be printed upon the ballot opposite the name or names of any candidate or candidates for the same office contained in any party column or columns upon said ballot. The ballot shall contain no other names, except that in cases of electors for President and Vice-President of the United States, the names of the candidates for President and Vice-President may be added to the party designation and words calculated to aid the voter in his choice of candidates may be added, such as "Vote for one," "Vote for three." When an electronic voting system is used which utilizes a ballot label booklet, the candidates and questions shall appear on the pages of such booklet in the order provided by this Code; and, in any case where candidates for an office appear on a page which does not contain the name of any candidate for another office, and where less than 50% of the page is utilized, the name of no candidate shall be printed on the lowest 25% of such page. On the back or outside of the ballot, so as to appear when folded, shall be printed the words "Official Ballot", followed by the designation of the polling place for which the ballot is prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The ballots shall be of plain white paper, through which the printing or writing cannot be read. However, ballots for use at the nonpartisan and consolidated elections may be printed on different color paper, except blue paper, whenever necessary or desirable to facilitate distinguishing between ballots for different political subdivisions. In the case of nonpartisan elections for officers of a political subdivision, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution providing the form of government therefor requires otherwise, the column listing such nonpartisan candidates shall be printed with no appellation or circle at its head. The party appellation or title, or the word "independent" at the head of any column provided for independent candidates, shall be printed in letters not less than one-fourth of an inch in height and a circle one-half inch in diameter shall be printed at the beginning of the line in which such appellation or title is printed, provided, however, that no such circle shall be printed at the head of any column or columns provided for such independent candidates. The names of candidates shall be printed in letters not less than one-eighth nor more than one-fourth of an inch in height, and at the beginning of each line in which a name of a candidate is printed a square shall be printed, the sides of which shall be not less than one-fourth of an inch in length. However, the names of the candidates for Governor and Lieutenant Governor on the same ticket shall be printed within a bracket and a single square shall be printed in front of the bracket. The list of candidates of the several parties and any such list of independent candidates shall be placed in separate columns on the ballot in such order as the election authorities charged with the printing of the ballots shall decide; provided, that the names of the candidates of the several political parties, certified by the State Board of Elections to the several county clerks shall be printed by the county clerk of the proper county on the official ballot in the order certified by the State Board of Elections. Any county clerk refusing, neglecting or failing to print on the official ballot the names of candidates of the several political parties in the order certified by the State Board of Elections, and any county clerk who prints or causes to be printed upon the official ballot the name of a candidate, for an office to be filled by the Electors of the entire State, whose name has not been duly certified to him upon a certificate signed by the State Board of Elections shall be guilty of a Class C misdemeanor.

(b) When an electronic voting system is used which utilizes a ballot card, on the inside flap of each ballot card envelope there shall be printed a form for write-in voting which shall be substantially as follows:

WRITE-IN VOTES

(See card of instructions for specific information. Duplicate form below by hand for additional write-in votes.)

Title of Office

() _____

Name of Candidate

The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates

[June 1, 2007]

who may file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of the candidate, up to the number of candidates for which a voter may vote.

(c) When an electronic voting system is used which uses a ballot sheet, the instructions to voters on the ballot sheet shall refer the voter to the card of instructions for specific information on write-in voting. Below each office appearing on such ballot sheet there shall be a provision for the casting of a write-in vote. The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates who may file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of the candidate, up to the number of candidates for which a voter may vote.

(d) When such electronic system is used, there shall be printed on the back of each ballot card, each ballot card envelope, and the first page of the ballot label when a ballot label is used, the words "Official Ballot," followed by the number of the precinct or other precinct identification, which may be stamped, in lieu thereof and, as applicable, the number and name of the township, ward or other election district for which the ballot card, ballot card envelope, and ballot label are prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The back of the ballot card shall also include a method of identifying the ballot configuration such as a listing of the political subdivisions and districts for which votes may be cast on that ballot, or a number code identifying the ballot configuration or color coded ballots, except that where there is only one ballot configuration in a precinct, the precinct identification, and any applicable ward identification, shall be sufficient. Ballot card envelopes used in punch card systems shall be of paper through which no writing or punches may be discerned and shall be of sufficient length to enclose all voting positions. However, the election authority may provide ballot card envelopes on which no precinct number or township, ward or other election district designation, or election date are preprinted, if space and a preprinted form are provided below the space provided for the names of write-in candidates where such information may be entered by the judges of election. Whenever an election authority utilizes ballot card envelopes on which the election date and precinct is not preprinted, a judge of election shall mark such information for the particular precinct and election on the envelope in ink before tallying and counting any write-in vote written thereon. If some method of insuring ballot secrecy other than an envelope is used, such information must be provided on the ballot itself.

(e) In the designation of the name of a candidate on the ballot, the candidate's given name or names, initial or initials, a nickname by which the candidate is commonly known, or a combination thereof, may be used in addition to the candidate's surname. No other designation such as a political slogan, title, or degree or nickname suggesting or implying possession of a title, degree or professional status, or similar information may be used in connection with the candidate's surname, except that the title "Mrs." may be used in the case of a married woman. For purposes of this Section, a "political slogan" is defined as any word or words expressing or connoting a position, opinion, or belief that the candidate may espouse, including but not limited to, any word or words conveying any meaning other than that of the personal identity of the candidate. A candidate may not use a political slogan as part of his or her name on the ballot, notwithstanding that the political slogan may be part of the candidate's name.

(f) The State Board of Elections, a local election official, or an election authority shall remove any candidate's name designation from a ballot that is inconsistent with subsection (e) of this Section. In addition, the State Board of Elections, a local election official, or an election authority shall not certify to any election authority any candidate name designation that is inconsistent with subsection (e) of this Section.

(g) If the State Board of Elections, a local election official, or an election authority removes a candidate's name designation from a ballot under subsection (f) of this Section, then the aggrieved candidate may seek appropriate relief in circuit court.

Where voting machines or electronic voting systems are used, the provisions of this Section may be modified as required or authorized by Article 24 or Article 24A, whichever is applicable.

Nothing in this Section shall prohibit election authorities from using or reusing ballot card envelopes which were printed before the effective date of this amendatory Act of 1985.

The names of candidates shall be printed in letters not less than one-eighth nor more than one-fourth of an inch in height, and at the beginning of each line in which a name of a candidate is printed a square shall be printed, the sides of which shall be not less than one-fourth of an inch in length. Any county clerk refusing, neglecting or failing to print on the official ballot the names of candidates of the several political parties in the order certified by the State Board of Elections, and any county clerk who prints or causes to be printed upon the official ballot the name of a candidate, for an office to be filled by the Electors of the entire State, whose name has not been duly certified to him upon a certificate signed by the State Board of Elections shall be guilty of a Class C misdemeanor.

(b) When an electronic voting system is used which utilizes a ballot card, on the inside flap of each ballot card envelope there shall be printed a form for write-in voting which shall be substantially as follows:

(c) When an electronic voting system is used which uses a ballot sheet, the instructions to voters on the ballot sheet shall refer the voter to the card of instructions for specific information on write-in voting. Below each office appearing on such ballot sheet there shall be a provision for the casting of a write-in vote. The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates who may file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of the candidate, up to the number of candidates for which a voter may vote. (d) When such electronic system is used, there shall be printed on the back of each ballot card, each ballot card envelope, and the first page of the ballot label when a ballot label is used, the words "Official Ballot," followed by the number of the precinct or other precinct identification, which may be stamped, in lieu thereof and, as applicable, the number and name of the township, ward or other election district for which the ballot card, ballot card envelope, and ballot label are prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The back of the ballot card shall also include a method of identifying the ballot configuration such as a listing of the political subdivisions and districts for which votes may be cast on that ballot, or a number code identifying the ballot configuration or color coded ballots, except that where there is only one ballot configuration in a precinct, the precinct identification, and any applicable ward identification, shall be sufficient. Ballot card envelopes used in punch card systems shall be of paper through which no writing or punches may be discerned and shall be of sufficient length to enclose all voting positions. Whenever an election authority utilizes ballot card envelopes on which the election date and precinct is not preprinted, a judge of election shall mark such information for the particular precinct and election on the envelope in ink before tallying and counting any write-in vote written thereon. If some method of insuring ballot secrecy other than an envelope is used, such information must be provided on the ballot itself.

(e) In the designation of the name of a candidate on the ballot, the candidate's given name or names, initial or initials, a nickname by which the candidate is commonly known, or a combination thereof, may be used in addition to the candidate's surname. If a candidate has changed his or her name, whether by a statutory or common law procedure in Illinois or any other jurisdiction, within 3 years before the last day for filing the petition for nomination, nomination papers, or certificate of nomination for that office, whichever is applicable, then (i) the candidate's name on the ballot must be followed by "formerly known as (list all prior names during the 3-year period) until name changed on (list date of each such name change)" and (ii) the petition, papers, or certificate must be accompanied by the candidate's affidavit stating the candidate's previous names during the period specified in (i) and the date or dates each of those names was changed; failure to meet these requirements shall be grounds for denying certification of the candidate's name for the ballot or removing the candidate's name from the ballot, as appropriate, but these requirements do not apply to name changes resulting from adoption to assume an adoptive parent's or parents' surname, marriage to assume a spouse's surname, or dissolution of marriage or declaration of invalidity of marriage to assume a former surname. No other designation such as a political slogan, title, or degree or nickname suggesting or implying possession of a title, degree or professional status, or similar information may be used in connection with the candidate's surname. For purposes of this Section, a "political slogan" is defined as any word or words expressing or connoting a position, opinion, or belief that the candidate may espouse, including but not limited to, any word or words conveying any meaning other than that of the personal identity of the candidate. A candidate may not use a political slogan as part of his or her name on the ballot, notwithstanding that the political slogan may be part of the candidate's name.

(f) The State Board of Elections, a local election official, or an election authority shall remove any

candidate's name designation from a ballot that is inconsistent with subsection (e) of this Section. In addition, the State Board of Elections, a local election official, or an election authority shall not certify to any election authority any candidate name designation that is inconsistent with subsection (e) of this Section.

(g) If the State Board of Elections, a local election official, or an election authority removes a candidate's name designation from a ballot under subsection (f) of this Section, then the aggrieved candidate may seek appropriate relief in circuit court.

Where voting machines or electronic voting systems are used, the provisions of this Section may be modified as required or authorized by Article 24 or Article 24A, whichever is applicable.

Sec. 16-10. The judges of election shall cause not less than one of such cards to be posted in each voting booth provided for the preparation of ballots, and not less than four of such cards to be posted in and about the polling places upon the day of election. In every county of not more than 500,000 inhabitants, each election authority shall cause to be published, prior to the day of any election, in at least two newspapers, if there be so many published in such county, a list of all the nominations made as in this Act provided and to be voted for at such election, as near as may be, in the form in which they shall appear upon the general ballot; provided that this requirement shall not apply with respect to any consolidated primary for which the local election official is required to make the publication under Section 7-21.

(Source: P.A. 80-1469.)

(10 ILCS 5/17-11) (from Ch. 46, par. 17-11)

Sec. 17-11. On receipt of his ballot the voter shall forthwith, and without leaving the inclosed space, retire alone, or accompanied by children as provided in Section 17-8, to one of the voting booths so provided and shall prepare his ballot by making in the appropriate margin or place a cross (X) opposite the name of the candidate of his choice for each office to be filled, or by writing in the name of the candidate of his choice in a blank space on said ticket, making a cross (X) opposite thereto; and in case of a question submitted to the vote of the people, by making in the appropriate margin or place a cross (X) against the answer he desires to give. A cross (X) in the square in front of the bracket enclosing the names of a team of candidates for Governor and Lieutenant Governor counts as one vote for each of such candidates. Before leaving the voting booth the voter shall fold his ballot in such manner as to conceal the marks thereon. He shall then vote forthwith in the manner herein provided, except that the number corresponding to the number of the voter on the poll books shall not be indorsed on the back of his ballot. He shall mark and deliver his ballot without undue delay, and shall quit said inclosed space as soon as he has voted; except that immediately after voting, the voter shall be instructed whether the voting equipment, if used, accepted or rejected the ballot or identified the ballot as under-voted for a statewide constitutional office. A voter whose ballot is identified as under-voted may return to the voting booth and complete the voting of that ballot. A voter whose ballot is not accepted by the voting equipment may, upon surrendering the ballot, request and vote another ballot. The voter's surrendered ballot shall be initialed by the election judge and handled as provided in the appropriate Article governing that voting equipment.

No voter shall be allowed to occupy a voting booth already occupied by another, nor remain within said inclosed space more than ten minutes, nor to occupy a voting booth more than five minutes in case all of said voting booths are in use and other voters waiting to occupy the same. No voter not an election officer, shall, after having voted, be allowed to re-enter said inclosed space during said election. No person shall take or remove any ballot from the polling place before the close of the poll. No voter shall vote or offer to vote any ballot except such as he has received from the judges of election in charge of the ballots. Any voter who shall, by accident or mistake, spoil his ballot, may, on returning said spoiled ballot, receive another in place thereof only after the word "spoiled" has been written in ink diagonally across the entire face of the ballot returned by the voter.

Where voting machines or electronic voting systems are used, the provisions of this section may be modified as required or authorized by Article 24, ~~or Article 24A, 24B, or 24C,~~ whichever is applicable, except that the requirements of this Section that (i) the voter must be notified of the voting equipment's acceptance or rejection of the voter's ballot or identification of an under-vote for a statewide constitutional office and (ii) the voter shall have the opportunity to correct an under-vote or surrender the ballot that was not accepted and vote another ballot shall not be modified.

Forms for the declaration of intent to be a write-in candidate shall be supplied by the election authorities. Such declaration shall specify the office for which the person seeks election as a write-in candidate.

(2) Each candidate shall be entitled to appoint two pollwatchers per precinct. For all elections, the pollwatchers must be registered to vote in Illinois.

(3) Each organization of citizens within the county or political subdivision, which has among its purposes or interests the investigation or prosecution of election frauds, and which shall have registered its name and address and the name and addresses of its principal officers with the proper election authority at least 40 days before the election, shall be entitled to appoint one pollwatcher per precinct. For all elections, the pollwatcher must be registered to vote in Illinois.

(4) In any general election held to elect candidates for the offices of a municipality of less than 3,000,000 population that is situated in 2 or more counties, a pollwatcher who is a resident of Illinois shall be eligible to serve as a pollwatcher in any poll located within such municipality, provided that such pollwatcher otherwise complies with the respective requirements of subsections (1) through (3) of this Section and is a registered voter in Illinois.

(5) Each organized group of proponents or opponents of a ballot proposition, which shall have registered the name and address of its organization or committee and the name and address of its chairman with the proper election authority at least 40 days before the election, shall be entitled to appoint one pollwatcher per precinct. The pollwatcher must be registered to vote in Illinois.

All pollwatchers shall be required to have proper credentials. Such credentials shall be printed in sufficient quantities, shall be issued by and under the facsimile signature(s) of the election authority and shall be available for distribution at least 2 weeks prior to the election. Such credentials shall be authorized by the real or facsimile signature of the State or local party official or the candidate or the presiding officer of the civic organization or the chairman of the proponent or opponent group, as the case may be. The election authority may not require any such party official or the candidate or the presiding officer of the civic organization or the chairman of the proponent or opponent group to submit the names or other information concerning pollwatchers before making credentials available to such persons or organizations.

Pollwatcher credentials shall be in substantially the following form:

Pollwatchers must present their credentials to the Judges of Election upon entering the polling place. Pollwatcher credentials properly executed and signed shall be proof of the qualifications of the pollwatcher authorized thereby. Such credentials are retained by the Judges and returned to the Election Authority at the end of the day of election with the other election materials. Once a pollwatcher has surrendered a valid credential, he may leave and reenter the polling place provided that such continuing action does not disrupt the conduct of the election. Pollwatchers may be substituted during the course of the day, but established political parties, candidates and qualified civic organizations can have only as many pollwatchers at any given time as are authorized in this Article. A substitute must present his signed credential to the judges of election upon entering the polling place. Election authorities must provide a sufficient number of credentials to allow for substitution of pollwatchers. After the polls have closed pollwatchers shall be allowed to remain until the canvass of votes is completed; but may leave and reenter only in cases of necessity, provided that such action is not so continuous as to disrupt the canvass of votes.

Candidates seeking office in a district or municipality encompassing 2 or more counties shall be admitted to any and all polling places throughout such district or municipality without regard to the counties in which such candidates are registered to vote. Actions of such candidates shall be governed in each polling place by the same privileges and limitations that apply to pollwatchers as provided in this Section. Any such candidate who engages in an activity in a polling place which could reasonably be construed by a majority of the judges of election as campaign activity shall be removed forthwith from such polling place.

Candidates seeking office in a district or municipality encompassing 2 or more counties who desire to be admitted to polling places on election day in such district or municipality shall be required to have proper credentials. Such credentials shall be printed in sufficient quantities, shall be issued by and under the facsimile signature of the election authority of the election jurisdiction where the polling place in which the candidate seeks admittance is located, and shall be available for distribution at least 2 weeks prior to the election. Pollwatchers shall be permitted to observe all proceedings and view all reasonably requested records relating to the conduct of the election, provided the secrecy of the ballot is not impinged, and to station

themselves in a position in the voting room as will enable them to observe the judges making the signature comparison between the voter application and the voter registration record card; provided, however, that such pollwatchers shall not be permitted to station themselves in such close proximity to the judges of election so as to interfere with the orderly conduct of the election and shall not, in any event, be permitted to handle election materials. Pollwatchers may challenge for cause the voting qualifications of a person offering to vote and may call to the attention of the judges of election any incorrect procedure or apparent violations of this Code.

If a majority of the judges of election determine that the polling place has become too overcrowded with pollwatchers so as to interfere with the orderly conduct of the election, the judges shall, by lot, limit such pollwatchers to a reasonable number, except that each established or new political party shall be permitted to have at least one pollwatcher present.

Representatives of an election authority, with regard to an election under its jurisdiction, the State Board of Elections, and law enforcement agencies, including but not limited to a United States Attorney, a State's attorney, the Attorney General, and a State, county, or local police department, in the performance of their official election duties, shall be permitted at all times to enter and remain in the polling place. Upon entering the polling place, such representatives shall display their official credentials or other identification to the judges of election.

Uniformed police officers assigned to polling place duty shall follow all lawful instructions of the judges of election.

The provisions of this Section shall also apply to supervised casting of absentee ballots as provided in Section 19-12.2 of this Act.

(10 ILCS 5/17-29) (from Ch. 46, par. 17-29)

Sec. 17-29. (a) No judge of election, pollwatcher, or other person shall, at any primary or election, do any electioneering or soliciting of votes or engage in any political discussion within any polling place, within 100 feet of any polling place, or, at the option of a church or private school, on any of the property of that church or private school that is a polling place; no person shall interrupt, hinder or oppose any voter while approaching within those areas for the purpose of voting. Judges of election shall enforce the provisions of this Section.

(b) Election officers shall place 2 or more cones, small United States national flags, or some other marker a distance of 100 horizontal feet from each entrance to the room used by voters to engage in voting, which shall be known as the polling room. If the polling room is located within a building that is a private business, a public or private school, or a church or other organization founded for the purpose of religious worship and the distance of 100 horizontal feet ends within the interior of the building, then the markers shall be placed outside of the building at each entrance used by voters to enter that building on the grounds adjacent to the thoroughfare or walkway. If the polling room is located within a public or private building with 2 or more floors and the polling room is located on the ground floor, then the markers shall be placed 100 horizontal feet from each entrance to the polling room used by voters to engage in voting. If the polling room is located in a public or private building with 2 or more floors and the polling room is located on a floor above or below the ground floor, then the markers shall be placed a distance of 100 feet from the nearest elevator or staircase used by voters on the ground floor to access the floor where the polling room is located. The area within where the markers are placed shall be known as a campaign free zone, and electioneering is prohibited pursuant to this subsection. Notwithstanding any other provision of this Section, a church or private school may choose to apply the campaign free zone to its entire property, and, if so, the markers shall be placed near the boundaries on the grounds adjacent to the thoroughfares or walkways leading to the entrances used by the voters.

The area on polling place property beyond the campaign free zone, whether publicly or privately owned, is a public forum for the time that the polls are open on an election day. At the request of election officers any publicly owned building must be made available for use as a polling place. A person shall have the right to congregate and engage in electioneering on any polling place property while the polls are open beyond the campaign free zone, including but not limited to, the placement of temporary signs. This subsection shall be construed liberally in favor of persons engaging in electioneering on all polling place property beyond the campaign free zone for the time that the polls are open on an election day. At or near the door of each polling place, the election judges shall place signage indicating the proper entrance to the polling place. In addition, the election judges shall ensure that a sign identifying the location of the polling place is placed on a nearby public roadway. The State Board of Elections shall establish guidelines for the placement of polling place signage by rule.

(c) The regulation of electioneering on polling place property on an election day, including but not limited to the placement of temporary signs, is an exclusive power and function of the State. A home

rule unit may not regulate electioneering and any ordinance or local law contrary to subsection (c) is declared void. This is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

(10 ILCS 5/18-5) (from Ch. 46, par. 18-5)

Sec. 18-5. Any person desiring to vote and whose name is found upon the register of voters by the person having charge thereof, shall then be questioned by one of the judges as to his nativity, his term of residence at present address, precinct, State and United States, his age, whether naturalized and if so the date of naturalization papers and court from which secured, and he shall be asked to state his residence when last previously registered and the date of the election for which he then registered. The judges of elections shall check each application for ballot against the list of voters registered in that precinct to whom grace period, absentee, and early ballots have been issued for that election, which shall be provided by the election authority and which list shall be available for inspection by pollwatchers. A voter applying to vote in the precinct on election day whose name appears on the list as having been issued a grace period, absentee, or early ballot shall not be permitted to vote in the precinct, except that a voter to whom an absentee ballot was issued may vote in the precinct if the voter submits to the election judges that absentee ballot for cancellation. If the voter is unable to submit the absentee ballot, it shall be sufficient for the voter to submit to the election judges (i) a portion of the absentee ballot if the absentee ballot was torn or mutilated or (ii) an affidavit executed before the election judges specifying that (A) the voter never received an absentee ballot or (B) the voter completed and returned an absentee ballot and was informed that the election authority did not receive that absentee ballot. If such person so registered shall be challenged as disqualified, the party challenging shall assign his reasons therefor, and thereupon one of the judges shall administer to him an oath to answer questions, and if he shall take the oath he shall then be questioned by the judge or judges touching such cause of challenge, and touching any other cause of disqualification. And he may also be questioned by the person challenging him in regard to his qualifications and identity. But if a majority of the judges are of the opinion that he is the person so registered and a qualified voter, his vote shall then be received accordingly. But if his vote be rejected by such judges, such person may afterward produce and deliver an affidavit to such judges, subscribed and sworn to by him before one of the judges, in which it shall be stated how long he has resided in such precinct, and state; that he is a citizen of the United States, and is a duly qualified voter in such precinct, and that he is the identical person so registered. In addition to such an affidavit, the person so challenged shall provide to the judges of election proof of residence by producing 2 forms of identification showing the person's current residence address, provided that such identification to the person at his current residence address and postmarked not earlier than 30 days prior to the date of the election, or the person shall procure a witness personally known to the judges of election, and resident in the precinct (or district), or who shall be proved by some legal voter of such precinct or district, known to the judges to be such, who shall take the oath following, viz:

I do solemnly swear (or affirm) that I am a resident of this election precinct (or district), and entitled to vote at this election, and that I have been a resident of this State for 30 days last past, and am well acquainted with the person whose vote is now offered; that he is an actual and bona fide resident of this election precinct (or district), and has resided herein 30 days, and as I verily believe, in this State, 30 days next preceding this election.

The oath in each case may be administered by one of the judges of election, or by any officer, resident in the precinct or district, authorized by law to administer oaths. Also supported by an affidavit by a registered voter residing in such precinct, stating his own residence, and that he knows such person; and that he does reside at the place mentioned and has resided in such precinct and state for the length of time as stated by such person, which shall be subscribed and sworn to in the same way. Whereupon the vote of such person shall be received, and entered as other votes. But such judges, having charge of such registers, shall state in their respective books the facts in such case, and the affidavits, so delivered to the judges, shall be preserved and returned to the office of the commissioners of election. Blank affidavits of the character aforesaid shall be sent out to the judges of all the precincts, and the judges of election shall furnish the same on demand and administer the oaths without criticism. Such oaths, if administered by any other officer than such judge of election, shall not be received. Whenever a proposal for a constitutional amendment or for the calling of a constitutional convention is to be voted upon at the election, the separate blue ballot or ballots pertaining thereto shall be placed on top of the other ballots to be voted at the election in such manner that the legend appearing on the back thereof, as prescribed in Section 16-6 of this Act, shall be plainly visible to the voter, and in this fashion the ballots shall be handed to the voter by the judge.

Immediately after voting, the voter shall be instructed whether the voting equipment, if used, accepted

[June 1, 2007]

or rejected the ballot or identified the ballot as under-voted. A voter whose ballot is identified as under-voted for a statewide constitutional office may return to the voting booth and complete the voting of that ballot. A voter whose ballot is not accepted by the voting equipment may, upon surrendering the ballot, request and vote another ballot. The voter's surrendered ballot shall be initiated by the election judge and handled as provided in the appropriate Article governing that voting equipment.

The voter shall, upon quitting the voting booth, deliver to one of the judges of election all of the ballots, properly folded, which he received. The judge of election to whom the voter delivers his ballots shall not accept the same unless all of the ballots given to the voter are returned by him. If a voter delivers less than all of the ballots given to him, the judge to whom the same are offered shall advise him in a voice clearly audible to the other judges of election that the voter must return the remainder of the ballots. The statement of the judge to the voter shall clearly express the fact that the voter is not required to vote such remaining ballots but that whether or not he votes them he must fold and deliver them to the judge. In making such statement the judge of election shall not indicate by word, gesture or intonation of voice that the unreturned ballots shall be voted in any particular manner. No new voter shall be permitted to enter the voting booth of a voter who has failed to deliver the total number of ballots received by him until such voter has returned to the voting booth pursuant to the judge's request and again quit the booth with all of the ballots required to be returned by him. Upon receipt of all such ballots the judges of election shall enter the name of the voter, and his number, as above provided in this Section, and the judge to whom the ballots are delivered shall immediately put the ballots into the ballot box. If any voter who has failed to deliver all the ballots received by him refuses to return to the voting booth after being advised by the judge of election as herein provided, the judge shall inform the other judges of such refusal, and thereupon the ballot or ballots returned to the judge shall be deposited in the ballot box, the voter shall be permitted to depart from the polling place, and a new voter shall be permitted to enter the voting booth.

The judge of election who receives the ballot or ballots from the voter shall announce the residence and name of such voter in a loud voice. The judge shall put the ballot or ballots received from the voter into the ballot box in the presence of the voter and the judges of election, and in plain view of the public. The judges having charge of such registers shall then, in a column prepared thereon, in the same line of, the name of the voter, mark "Voted" or the letter "V".

No judge of election shall accept from any voter less than the full number of ballots received by such voter without first advising the voter in the manner above provided of the necessity of returning all of the ballots, nor shall any such judge advise such voter in a manner contrary to that which is herein permitted, or in any other manner violate the provisions of this Section; provided, that the acceptance by a judge of election of less than the full number of ballots delivered to a voter who refuses to return to the voting booth after being properly advised by such judge shall not be a violation of this Section.

However, whenever an objection to a candidate's nominating papers or petitions is sustained under Section 10-10 after the 61st day before the election, then write-in votes shall be counted for that candidate if he or she has filed a notarized declaration of intent to be a write-in candidate for that office with the proper election authority or authorities not later than 7 days prior to the election.

Forms for the declaration of intent to be a write-in candidate shall be supplied by the election authorities. Such declaration shall specify the office for which the person seeks election as a write-in candidate.

The election authority or authorities shall deliver a list of all persons who have filed such declarations to the election judges in the appropriate precincts prior to the election.

A candidate for whom a nomination paper has been filed as a partisan candidate at a primary election, and who is defeated for his or her nomination at the primary election, is ineligible to file a declaration of intent to be a write-in candidate for election in that general or consolidated election.

A candidate seeking election to an office for which candidates of political parties are nominated by caucus who is a participant in the caucus and who is defeated for his or her nomination at such caucus is ineligible to file a declaration of intent to be a write-in candidate for election in that general or consolidated election.

Sec. 18-40. ~~Voting Precinct tabulation optical scan technology voting~~ equipment.

(a) If the election authority has adopted the use of Precinct Tabulation Optical Scan Technology voting equipment pursuant to Article 24B of this Code, and the provisions of the Article are in conflict with the provisions of this Article 18, the provisions of Article 24B shall govern the procedures followed by the election authority, its judges of elections, and all employees and agents. (10 ILCS 5/19-8) (from Ch. 46, par. 19-8)

Sec. 19-8. Time and place of counting ballots.

(a) (Blank.)

(b) Each absent voter's ballot returned to an election authority, by any means authorized by this Article, and received by that election authority before the closing of the polls on election day shall be endorsed by the receiving election authority with the day and hour of receipt and shall be counted in the central ballot counting location of the election authority on the day of the election after 7:00 p.m., except as provided in subsections (g) and (g-5).

(c) Each absent voter's ballot that is mailed to an election authority and postmarked by the midnight preceding the opening of the polls on election day, but that is received by the election authority after the polls close on election day and before the close of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the period for counting provisional ballots.

Each absent voter's ballot that is mailed to an election authority absent a postmark, but that is received by the election authority after the polls close on election day and before the close of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt, opened to inspect the date inserted on the certification, and, if the certification date is a date preceding the election day and the ballot is otherwise found to be valid under the requirements of this Section, counted at the central ballot counting location of the election authority during the period for counting provisional ballots. Absent a date on the certification, the ballot shall not be counted.

(d) Special write-in absentee voter's blank ballots returned to an election authority, by any means authorized by this Article, and received by the election authority at any time before the closing of the polls on election day shall be endorsed by the receiving election authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the same period provided for counting absent voters' ballots under subsections (b), (g), and (g-5). Special write-in absentee voter's blank ballots that are mailed to an election authority and postmarked by the midnight preceding the opening of the polls on election day, but that are received by the election authority after the polls close on election day and before the closing of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the same periods provided for counting absent voters' ballots under subsection (c).

(e) Except as otherwise provided in this Section, absent voters' ballots and special write-in absentee voter's blank ballots received by the election authority after the closing of the polls on an election day shall be endorsed by the election authority receiving them with the day and hour of receipt and shall be safely kept unopened by the election authority for the period of time required for the preservation of ballots used at the election, and shall then, without being opened, be destroyed in like manner as the used ballots of that election.

(f) Counting required under this Section to begin on election day after the closing of the polls shall

commence no later than 8:00 p.m. and shall be conducted by a panel or panels of election judges appointed in the manner provided by law. The counting shall continue until all absent voters' ballots and special write-in absentee voter's blank ballots required to be counted on election day have been counted.

(g) The procedures set forth in Articles 17 and 18 of this Code shall apply to all ballots counted under this Section. In addition, within 2 days after an absentee ballot, other than an in-person absentee ballot, is received, but in all cases before the close of the period for counting provisional ballots, the election judge or official shall compare the voter's signature on the certification envelope of that absentee ballot with the signature of the voter on file in the office of the election authority. If the election judge or official determines that the 2 signatures match, and that the absentee voter is otherwise qualified to cast an absentee ballot, the election authority shall cast and count the ballot on election day or the day the ballot is determined to be valid, whichever is later, adding the results to the precinct in which the voter is registered. If the election judge or official determines that the signatures do not match, or that the absentee voter is not qualified to cast an absentee ballot, then without opening the certification envelope, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

In addition to the voter's signatures not matching, an absentee ballot may be rejected by the election judge or official:

- (1) if the ballot envelope is open or has been opened and resealed;
- (2) if the voter has already cast an early or grace period ballot;
- (3) if the voter voted in person on election day or the voter is not a duly registered voter in the precinct; or
- (4) on any other basis set forth in this Code.

If the election judge or official determines that any of these reasons apply, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

(g-5) If an absentee ballot, other than an in-person absentee ballot, is rejected by the election judge or official for any reason, the election authority shall, within 2 days after the rejection but in all cases before the close of the period for counting provisional ballots, notify the absentee voter that his or her ballot was rejected. The notice shall inform the voter of the reason or reasons the ballot was rejected and shall state that the voter may appear before the election authority, on or before the 14th day after the election, to show cause as to why the ballot should not be rejected. The voter may present evidence to the election authority supporting his or her contention that the ballot should be counted. The election authority shall appoint a panel of 3 election judges to review the contested ballot, application, and certification envelope, as well as any evidence submitted by the absentee voter. No more than 2 election judges on the reviewing panel shall be of the same political party. The reviewing panel of election judges shall make a final determination as to the validity of the contested absentee ballot. The judges' determination shall not be reviewable either administratively or judicially.

An absentee ballot subject to this subsection that is determined to be valid shall be counted before the close of the period for counting provisional ballots.

(g-10) All absentee ballots determined to be valid shall be added to the vote totals for the precincts for which they were cast in the order in which the ballots were opened.

(h) Each political party, candidate, and qualified civic organization shall be entitled to have present one pollwatcher for each panel of election judges therein assigned.

(a) An election authority may establish permanent polling places for early voting by personal appearance at locations throughout the election authority's jurisdiction, including but not limited to a municipal clerk's office, a township clerk's office, a road district clerk's office, or a county or local public agency office. Except as otherwise provided in subsection (b), any person entitled to vote early by personal appearance may do so at any polling place established for early voting.

(b) If it is impractical for the election authority to provide at each polling place for early voting a ballot in every form required in the election authority's jurisdiction, the election authority may:

- (1) provide appropriate forms of ballots to the office of the municipal clerk in a municipality not having a board of election commissioners; the township clerk; or in counties not under township organization, the road district clerk; and
- (2) limit voting at that polling place to registered voters in that municipality, ward or group of wards, township, or road district.

If the early voting polling place does not have the correct ballot form for a person seeking to vote

early, the election judge or election official conducting early voting at that polling place shall inform the person of that fact, give the person the appropriate telephone number of the election authority in order to locate an early voting polling place with the correct ballot form for use in that person's assigned precinct, and instruct the person to go to the proper early voting polling place to vote early.

(c) During each general primary and general election, each election authority in a county with a population over 250,000 shall establish at least one polling place for early voting by personal appearance under Sections 19A-15 and 19A-20 at a location within each of the 3 largest municipalities within its jurisdiction. If any of the 3 largest municipalities is over 75,000, the election authority shall establish at least 2 polling places within the municipality. All population figures shall be determined by the federal census.

During each general primary and general election, each board of election commissioners established under Article 6 of this Code in any city, village, or incorporated town with a population over 100,000 shall establish at least 2 polling places for early voting by personal appearance under Sections 19A-15 and 19A-20. All population figures shall be determined by the federal census.

(10 ILCS 5/19A-35)

Sec. 19A-35. Procedure for voting.

(a) Not more than 23 days before the start of the election, the county clerk shall make available to the election official conducting early voting by personal appearance a sufficient number of early ballots, envelopes, and printed voting instruction slips for the use of early voters. The election official shall receipt for all ballots received and shall return unused or spoiled ballots at the close of the early voting period to the county clerk and must strictly account for all ballots received. The ballots delivered to the election official must include early ballots for each precinct in the election authority's jurisdiction and must include separate ballots for each political subdivision conducting an election of officers or a referendum at that election.

(b) In conducting early voting under this Article, the election judge or official is required to verify the signature of the early voter by comparison with the signature on the official registration card, and the judge or official must verify (i) the identity of the applicant, (ii) that the applicant is a registered voter, (iii) the precinct in which the applicant is registered, and (iv) the proper ballots of the political subdivision in which the applicant resides and is entitled to vote before providing an early ballot to the applicant. ~~If the identity of the applicant cannot be verified, the~~ The applicant's identity must be verified by the applicant's presentation of an Illinois driver's license, a non-driver identification card issued by the Illinois Secretary of State, or another government-issued identification document containing the applicant's photograph. The election judge or official must verify the applicant's registration from the most recent poll list provided by the election authority, and if the applicant is not listed on that poll list, by telephoning the office of the election authority.

(b-5) A person requesting an early voting ballot to whom an absentee ballot was issued may vote early if the person submits that absentee ballot to the judges of election or official conducting early voting for cancellation. If the voter is unable to submit the absentee ballot, it shall be sufficient for the voter to submit to the judges or official (i) a portion of the absentee ballot if the absentee ballot was torn or mutilated or (ii) an affidavit executed before the judges or official specifying that (A) the voter never received an absentee ballot or (B) the voter completed and returned an absentee ballot and was informed that the election authority did not receive that absentee ballot.

(b-10) Within one day after a voter casts an early voting ballot, the election authority shall transmit the voter's name, street address, and precinct, ward, township, and district numbers, as the case may be, to the State Board of Elections, which shall maintain those names and that information in an electronic format on its website, arranged by county and accessible to State and local political committees.

~~(b-15) This subsection applies to early voting polling places using optical scan technology voting equipment subject to Article 24B. Immediately after voting an early ballot, the voter shall be instructed whether the voting equipment accepted or rejected the ballot or identified that ballot as under-voted for a statewide constitutional office. A voter whose ballot is identified as under-voted may return to the voting booth and complete the voting of that ballot. A voter whose early voting ballot is not accepted by the voting equipment may, upon surrendering the ballot, request and vote another early voting ballot. The voter's surrendered ballot that was not accepted shall be initialed by the election judge or official conducting the early voting and handled as provided in the appropriate Article governing the voting equipment used 24B.~~

(c) The sealed early ballots in their carrier envelope shall be delivered by the election authority to the central ballot counting location before the close of the polls on the day of the election.

(10 ILCS 5/19A-50)

Sec. 19A-50. Receipt of ballots. Upon receipt of the voter's ballot, the election judge or official shall enclose the unopened ballot in a large or carrier envelope that shall be securely sealed and endorsed with the name and official title of the election judge or official and the words, "This envelope contains a ballot and must be opened on election day", together with the number and description of the precinct in which the ballot is to be voted, and the election authority shall safely keep the envelope in its office until delivered to the central ballot counting location.

The election authority shall not tabulate any ballots cast under this Article until after the polls close on election day. The election authority may process the ballots prior to the closing of the polls on election day. The ballots determined to be valid shall be added to the vote totals for the precincts for which they were cast in the order in which the ballots were opened.

(10 ILCS 5/20-8) (from Ch. 46, par. 20-8)

Sec. 20-8. Time and place of counting ballots.

(a) (Blank.)

(b) Each absent voter's ballot returned to an election authority, by any means authorized by this Article, and received by that election authority before the closing of the polls on election day shall be endorsed by the receiving election authority with the day and hour of receipt and shall be counted in the central ballot counting location of the election authority on the day of the election after 7:00 p.m., except as provided in subsections (g) and (g-5).

(c) Each absent voter's ballot that is mailed to an election authority and postmarked by the midnight preceding the opening of the polls on election day, but that is received by the election authority after the polls close on election day and before the close of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the period for counting provisional ballots.

Each absent voter's ballot that is mailed to an election authority absent a postmark, but that is received by the election authority after the polls close on election day and before the close of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt, opened to inspect the date inserted on the certification, and, if the certification date is a date preceding the election day and the ballot is otherwise found to be valid under the requirements of this Section, counted at the central ballot counting location of the election authority during the period for counting provisional ballots. Absent a date on the certification, the ballot shall not be counted.

(d) Special write-in absentee voter's blank ballots returned to an election authority, by any means authorized by this Article, and received by the election authority at any time before the closing of the polls on election day shall be endorsed by the receiving election authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the same period provided for counting absent voters' ballots under subsections (b), (g), and (g-5). Special write-in absentee voter's blank ballot that are mailed to an election authority and postmarked by midnight preceding the opening of the polls on election day, but that are received by the election authority after the polls close on election day and before the closing of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the same periods provided for counting absent voters' ballots under subsection (c).

(e) Except as otherwise provided in this Section, absent voters' ballots and special write-in absentee voter's blank ballots received by the election authority after the closing of the polls on the day of election shall be endorsed by the person receiving the ballots with the day and hour of receipt and shall be safely kept unopened by the election authority for the period of time required for the preservation of ballots used at the election, and shall then, without being opened, be destroyed in like manner as the used ballots of that election.

(f) Counting required under this Section to begin on election day after the closing of the polls shall commence no later than 8:00 p.m. and shall be conducted by a panel or panels of election judges appointed in the manner provided by law. The counting shall continue until all absent voters' ballots and special write-in absentee voter's blank ballots required to be counted on election day have been counted.

(g) The procedures set forth in Articles 17 and 18 of this Code shall apply to all ballots counted under this Section. In addition, within 2 days after a ballot subject to this Article is received, but in all cases before the close of the period for counting provisional ballots, the election judge or official shall compare the voter's signature on the certification envelope of that ballot with the signature of the voter

[June 1, 2007]

on file in the office of the election authority. If the election judge or official determines that the 2 signatures match, and that the voter is otherwise qualified to cast a ballot under this Article, the election authority shall cast and count the ballot on election day or the day the ballot is determined to be valid, whichever is later, adding the results to the precinct in which the voter is registered. If the election judge or official determines that the signatures do not match, or that the voter is not qualified to cast a ballot under this Article, then without opening the certification envelope, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

In addition to the voter's signatures not matching, a ballot subject to this Article may be rejected by the election judge or official:

- (1) if the ballot envelope is open or has been opened and resealed;
- (2) if the voter has already cast an early or grace period ballot;
- (3) if the voter voted in person on election day or the voter is not a duly registered voter in the precinct; or
- (4) on any other basis set forth in this Code.

If the election judge or official determines that any of these reasons apply, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

(g-5) If a ballot subject to this Article is rejected by the election judge or official for any reason, the election authority shall, within 2 days after the rejection but in all cases before the close of the period for counting provisional ballots, notify the voter that his or her ballot was rejected. The notice shall inform the voter of the reason or reasons the ballot was rejected and shall state that the voter may appear before the election authority, on or before the 14th day after the election, to show cause as to why the ballot should not be rejected. The voter may present evidence to the election authority supporting his or her contention that the ballot should be counted. The election authority shall appoint a panel of 3 election judges to review the contested ballot, application, and certification envelope, as well as any evidence submitted by the absentee voter. No more than 2 election judges on the reviewing panel shall be of the same political party. The reviewing panel of election judges shall make a final determination as to the validity of the contested ballot. The judges' determination shall not be reviewable either administratively or judicially.

A ballot subject to this subsection that is determined to be valid shall be counted before the close of the period for counting provisional ballots.

(g-10) All ballots determined to be valid shall be added to the vote totals for the precincts for which they were cast in the order in which the ballots were opened.

(h) Each political party, candidate, and qualified civic organization shall be entitled to have present one pollwatcher for each panel of election judges therein assigned.

(10 ILCS 5/24-1) (from Ch. 46, par. 24-1)

Sec. 24-1. The election authority in all jurisdictions when voting machines are used shall, except as otherwise provided in this Code, provide a voting machine or voting machines for any or all of the election precincts or election districts, as the case may be, for which the election authority is by law charged with the duty of conducting an election or elections. A voting machine or machines sufficient in number to provide a machine for each 400 voters or fraction thereof shall be supplied for use at all elections. However, no such voting machine shall be used, purchased, or adopted, and no person or entity may have a written contract, including a contract contingent upon certification of the voting machines, to sell, lease, or loan voting machines to an election authority, until the board of voting machine commissioners hereinafter provided for, or a majority thereof, shall have made and filed a report certifying that they have examined such machine; that it affords each elector an opportunity to vote in absolute secrecy; that it enables each elector to vote a ticket selected in part from the nominees of one party, and in part from the nominees of any or all other parties, and in part from independent nominees printed in the columns of candidates for public office, and in part of persons not in nomination by any party or upon any independent ticket; that it enables each elector to vote a written or printed ballot of his own selection, for any person for any office for whom he may desire to vote; that it enables each elector to vote for all candidates for whom he is entitled to vote, and prevents him from voting for any candidate for any office more than once, unless he is lawfully entitled to cast more than one vote for one candidate, and in that event permits him to cast only as many votes for that candidate as he is by law entitled, and no more; that it prevents the elector from voting for more than one person for the same office, unless he is lawfully entitled to vote for more than one person therefor, and in that event permits him to vote for as many persons for that office as he is by law entitled, and no more; that it identifies when an elector has not voted for all statewide constitutional offices; and that such machine will register

correctly by means of exact counters every vote cast for the regular tickets thereon; and has the capacity to contain the tickets of at least 5 political parties with the names of all the candidates thereon, together with all propositions in the form provided by law, where such form is prescribed, and where no such provision is made for the form thereof, then in brief form, not to exceed 75 words; that all votes cast on the machine on a regular ballot or ballots shall be registered; that voters may, by means of irregular ballots or otherwise vote for any person for any office, although such person may not have been nominated by any party and his name may not appear on such machine; that when a vote is cast for any person for any such office, when his name does not appear on the machine, the elector cannot vote for any other name on the machine for the same office; that each elector can, understandingly and within the period of 4 minutes cast his vote for all candidates of his choice; that the machine is so constructed that the candidates for presidential electors of any party can be voted for only by voting for the ballot label containing a bracket within which are the names of the candidates for President and Vice-President of the party or group; that the machine is provided with a lock or locks by the use of which any movement of the voting or registering mechanism is absolutely prevented so that it cannot be tampered with or manipulated for any purpose; that the machine is susceptible of being closed during the progress of the voting so that no person can see or know the number of votes registered for any candidate; that each elector is permitted to vote for or against any question, proposition or amendment upon which he is entitled to vote, and is prevented from voting for or against any question, proposition or amendment upon which he is not entitled to vote; that the machine is capable of adjustment by the election authority, so as to permit the elector, at a party primary election, to vote only for the candidates seeking nomination by the political party in which primary he is entitled to vote: Provided, also that no such machine or machines shall be purchased, unless the party or parties making the sale shall guarantee in writing to keep the machine or machines in good working order for 5 years without additional cost and shall give a sufficient bond conditioned to that effect.

(10 ILCS 5/24A-6) (from Ch. 46, par. 24A-6)

Sec. 24A-6. The ballot information, whether placed on the ballot or on the marking device, shall, as far as practicable, be in the order of arrangement provided for paper ballots, except that such information may be in vertical or horizontal rows, or in a number of separate pages. Ballots for all questions or propositions to be voted on must be provided in the same manner and must be arranged on or in the marking device or on the ballot sheet in the places provided for such purposes.

When an electronic voting system utilizes a ballot label booklet and ballot card, ballots for candidates, ballots calling for a constitutional convention, constitutional amendment ballots, judicial retention ballots, public measures, and all propositions to be voted upon may be placed on the electronic voting device by providing in the ballot booklet separate ballot label pages or series of pages distinguished by differing colors as provided below. When an electronic voting system utilizes a ballot sheet, ballots calling for a constitutional convention, constitutional amendment ballots and judicial retention ballots shall be placed on the ballot sheet by providing a separate portion of the ballot sheet for each such kind of ballot which shall be printed in ink of a color distinct from the color of ink used in printing any other portion of the ballot sheet. Ballots for candidates, public measures and all other propositions to be voted upon shall be placed on the ballot sheet by providing a separate portion of the ballot sheet for each such kind of ballot. Whenever a person has submitted a declaration of intent to be a write-in candidate as required in Sections 17-16.1 and 18-9.1, Below the name of the last candidate listed for an office shall be printed a line on which the name of a candidate may be written by the voter shall be printed below the name of the last candidate nominated for such office, and immediately to the left of such line an area shall be provided for marking a vote for such write-in candidate. The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates who may file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of the candidate, up to the number of candidates for which a voter may vote. More than one amendment to the constitution may be placed on the same ballot page or series of pages or on the same portion of the ballot sheet, as the case may be. Ballot label pages for constitutional conventions or constitutional amendments shall be on paper of blue color and shall precede all other ballot label pages in the ballot label booklet. More than one public measure or proposition may be placed on the same ballot label page or series of pages or on the same portion of the ballot sheet, as the case may be. More than one proposition for retention of judges in office may be placed on the same ballot label page or series of pages or on the same portion of the ballot sheet, as the case may be. Ballot label pages for candidates shall be on paper of white color, except that in primary elections the ballot label page or pages for the candidates of each respective political party shall be of the color designated by the

election official in charge of the election for that political party's candidates; provided that the ballot label pages or pages for candidates for use at the nonpartisan and consolidated elections may be on paper of different colors, except blue, whenever necessary or desirable to facilitate distinguishing between the pages for different political subdivisions. On each page of the candidate booklet, where the election is made to list ballot information vertically, the party affiliation of each candidate or the word "independent" shall appear immediately to the left of the candidate's name, and the name of candidates for the same office shall be listed vertically under the title of that office. In the case of nonpartisan elections for officers of political subdivisions, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution requires otherwise, the listing of such nonpartisan candidates shall not include any party or "independent" designation. Ballot label pages for judicial retention ballots shall be on paper of green color, and ballot label pages for all public measures and other propositions shall be on paper of some other distinct and different color. In primary elections, a separate ballot label booklet, marking device and voting booth shall be used for each political party holding a primary, with the ballot label booklet arranged to include ballot label pages of the candidates of the party and public measures and other propositions to be voted upon on the day of the primary election. One ballot card may be used for recording the voter's vote or choice on all such ballots, proposals, public measures or propositions, and such ballot card shall be arranged so as to record the voter's vote or choice in a separate column or columns for each such kind of ballot, proposal, public measure or proposition.

If the ballot label booklet includes both candidates for office and public measures or propositions to be voted on, the election official in charge of the election shall divide the pages by protruding tabs identifying the division of the pages, and printing on such tabs "Candidates" and "Propositions".

The ballot card and all of its columns and the ballot card envelope shall be of the color prescribed for candidate's ballots at the general or primary election, whichever is being held. At an election where no candidates are being nominated or elected, the ballot card, its columns, and the ballot card envelope shall be of a color designated by the election official in charge of the election.

The ballot cards, ballot card envelopes and ballot sheets may, at the discretion of the election authority, be printed on white paper and then striped with the appropriate colors.

When ballot sheets are used, the various portions thereof shall be arranged to conform to the foregoing format.

Absentee ballots may consist of ballot cards, envelopes, paper ballots or ballot sheets voted in person in the office of the election official in charge of the election or voted by mail. Where a ballot card is used for voting by mail it must be accompanied by a punching tool or other appropriate marking device, voter instructions and a specimen ballot showing the proper positions to vote on the ballot card or ballot sheet for each party, candidate, proposal, public measure or proposition, and in the case of a ballot card must be mounted on a suitable material to receive the punched out chip.

Any voter who spoils his ballot or makes an error may return the ballot to the judges of election and secure another. However, the protruding identifying tab for proposals for a constitutional convention or constitutional amendments shall have printed thereon "Constitutional Ballot", and the ballot label page or pages for such proposals shall precede the ballot label pages for candidates in the ballot label booklet. (Source: P.A. 89-700, eff. 1-17-97.)

(10 ILCS 5/24A-10.1) (from Ch. 46, par. 24A-10.1)

Sec. 24A-10.1. In an election jurisdiction where in-precinct counting equipment is utilized, the following procedures for counting and tallying the ballots shall apply:

Immediately after the closing of the polls, the precinct judges of election shall open the ballot box and count the number of ballots therein to determine if such number agrees with the number of voters voting as shown by the applications for ballot or, if the same do not agree, the judges of election shall make such ballots agree with the applications for ballot in the manner provided by Section 17-18 of this Act. The judges of election shall then examine all ballot cards and ballot card envelopes which are in the ballot box to determine whether the ballot cards and ballot card envelopes contain the initials of a precinct judge of election. If any ballot card or ballot card envelope is not initialed, it shall be marked on the back "Defective", initialed as to such label by all judges immediately under the word "Defective" and not counted. The judges of election shall place an initialed blank official ballot card in the place of the defective ballot card, so that the count of the ballot cards to be counted on the automatic tabulating equipment will be the same, and each "Defective Ballot" card and "Replacement" card shall contain the same serial number which shall be placed thereon by the judges of election, commencing with number 1 and continuing consecutively for the ballots of that kind in that precinct. The original "Defective" card shall be placed in the "Defective Ballot Envelope" provided for that purpose.

When an electronic voting system is used which utilizes a ballot card, before separating the remaining ballot cards from their respective covering envelopes, the judges of election shall examine the ballot card

envelopes for write-in votes. When the voter has cast a write-in vote, the judges of election shall compare the write-in vote with the votes on the ballot card to determine whether such write-in results in an overvote for any office. In case of an overvote for any office, the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot card except for the office which is overvoted, by using the ballot label booklet of the precinct and one of the marking devices of the precinct so as to transfer all votes of the voter, except for the office overvoted, to a duplicate card. The original ballot card and envelope upon which there is an overvote shall be clearly labeled "Overvoted Ballot", and each such "Overvoted Ballot" as well as its "Replacement" shall contain the same serial number which shall be placed thereon by the judges of election, commencing with number 1 and continuing consecutively for the ballots of that kind in that precinct. The "Overvoted Ballot" card and ballot envelope shall be placed in an envelope provided for that purpose labeled "Duplicate Ballot" envelope, and the judges of election shall initial the "Replacement" ballot cards and shall place them with the other ballot cards to be counted on the automatic tabulating equipment. Envelopes containing write-in votes marked in the place designated therefor and containing the initials of a precinct judge of election and not resulting in an overvote and otherwise complying with the election laws as to marking shall be counted and tallied and their votes recorded on a tally sheet provided by the election authority.

The ballot cards and ballot card envelopes shall be separated in preparation for counting by the automatic tabulating equipment provided for that purpose by the election authority.

Before the ballots are entered into the automatic tabulating equipment, a precinct identification card provided by the election authority shall be entered into the device to ensure that the totals are all zeroes in the count column on the printing unit. A precinct judge of election shall then count the ballots by entering each ballot card into the automatic tabulating equipment, and if any ballot or ballot card is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot card by using the ballot label booklet of the precinct and one of the marking devices of the precinct. The original ballot or ballot card and envelope shall be clearly labeled "Damaged Ballot" and the ballot or ballot card so produced shall be clearly labeled "Duplicate Damaged Ballot", and each shall contain the same serial number which shall be placed thereon by the judges of election, commencing with number 1 and continuing consecutively for the ballots of that kind in the precinct. The judges of election shall initial the "Duplicate Damaged Ballot" ballot or ballot cards and shall enter the duplicate damaged cards into the automatic tabulating equipment. The "Damaged Ballot" cards shall be placed in the "Duplicated Ballots" envelope; after all ballot cards have been successfully read, the judges of election shall check to make certain that the last number printed by the printing unit is the same as the number of voters making application for ballot in that precinct. The number shall be listed on the "Statement of Ballots" form provided by the election authority.

The totals for all candidates and propositions shall be tabulated. One copy of an "In-Precinct Totals Report" shall be generated by the automatic tabulating equipment for return to the election authority. One copy of an "In-Precinct Totals Report" shall be generated and posted in a conspicuous place inside the polling place, provided that any authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots is present.

~~The totals for all candidates and propositions shall be tabulated; 4 sets shall be attached to the 4 sets of "Certificate of Results" provided by the election authority; one set shall be posted in a conspicuous place inside the polling place; and every effort shall be made by the judges of election to provide a set for each authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots; but in no case shall the number of sets to be made available to pollwatchers be fewer than 4, chosen by lot by the judges of election. In addition, sufficient time shall be provided by the judges of election to the pollwatchers to allow them to copy information from the set which has been posted.~~

The judges of election shall count all unused ballot cards and enter the number on the "Statement of Ballots". All "Spoiled", "Defective" and "Duplicated" ballot cards shall be counted and the number entered on the "Statement of Ballots".

The precinct judges of election shall select a bi-partisan team of 2 judges, who shall immediately return the ballots in a sealed container, along with all other election materials as instructed by the election authority; provided, however, that such container must first be sealed by the election judges with filament tape provided for such purpose which shall be wrapped around the container lengthwise and crosswise, at least twice each way, in such manner that the ballots cannot be removed from such container without breaking the seal and filament tape and disturbing any signatures affixed by the

election judges to the container. The election authority shall keep the office of the election authority, or any receiving stations designated by such authority, open for at least 12 consecutive hours after the polls close or until the ballots from all precincts with in-precinct counting equipment within the jurisdiction of the election authority have been returned to the election authority. Ballots returned to the office of the election authority which are not signed and sealed as required by law shall not be accepted by the election authority until the judges returning the same make and sign the necessary corrections. Upon acceptance of the ballots by the election authority, the judges returning the same shall take a receipt signed by the election authority and stamped with the time and date of such return. The election judges whose duty it is to return any ballots as herein provided shall, in the event such ballots cannot be found when needed, on proper request, produce the receipt which they are to take as above provided.

(10 ILCS 5/24A-15) (from Ch. 46, par. 24A-15)

Sec. 24A-15. The precinct return printed by the automatic tabulating equipment shall include the number of ballots cast and votes cast for each candidate and proposition and shall constitute the official return of each precinct. In addition to the precinct return, the election authority shall provide the number of applications for ballots in each precinct, the write-in votes, the total number of ballots counted in each precinct for each political subdivision and district and the number of registered voters in each precinct. However, the election authority shall check the totals shown by the precinct return and, if there is an obvious discrepancy with respect to the total number of votes cast in any precinct, shall have the ballots for such precinct retabulated to correct the return. The procedures for retabulation shall apply prior to and after the proclamation is completed; however, after the proclamation of results, the election authority must obtain a court order to unseal voted ballots except for election contests and discovery recounts. In those election jurisdictions that utilize in-precinct counting equipment, the certificate of results, which has been prepared by the judges of election ~~in the polling place~~ after the ballots have been tabulated, shall be the document used for the canvass of votes for such precinct. Whenever a discrepancy exists during the canvass of votes between the unofficial results and the certificate of results, or whenever a discrepancy exists during the canvass of votes between the certificate of results and the set of totals which has been affixed to such certificate of results, the ballots for such precinct shall be retabulated to correct the return. As an additional part of this check prior to the proclamation, in those jurisdictions where in-precinct counting equipment is utilized, the election authority shall retabulate the total number of votes cast in 5% of the precincts within the election jurisdiction. The precincts to be retabulated shall be selected after election day on a random basis by the State Board of Elections, so that every precinct in the election jurisdiction has an equal mathematical chance of being selected. The State Board of Elections shall design a standard and scientific random method of selecting the precincts which are to be retabulated. The State central committee chairman of each established political party shall be given prior written notice of the time and place of such random selection procedure and may be represented at such procedure. Such retabulation shall consist of counting the ballot cards which were originally counted and shall not involve any determination as to which ballot cards were, in fact, properly counted. The ballots from the precincts selected for such retabulation shall remain at all times under the custody and control of the election authority and shall be transported and retabulated by the designated staff of the election authority.

As part of such retabulation, the election authority shall test the computer program in the selected precincts. Such test shall be conducted by processing a preaudited group of ballots so punched so as to record a predetermined number of valid votes for each candidate and on each public question, and shall include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the equipment to reject such votes. If any error is detected, the cause therefor shall be ascertained and corrected and an errorless count shall be made prior to the official canvass and proclamation of election results.

The State Board of Elections, the State's Attorney and other appropriate law enforcement agencies, the county chairman of each established political party and qualified civic organizations shall be given prior written notice of the time and place of such retabulation and may be represented at such retabulation.

The results of this retabulation shall be treated in the same manner and have the same effect as the results of the discovery procedures set forth in Section 22-9.1 of this Act. Upon completion of the retabulation, the election authority shall print a comparison of the results of the retabulation with the original precinct return printed by the automatic tabulating equipment. Such comparison shall be done for each precinct and for each office voted upon within that precinct, and the comparisons shall be open to the public.

Sec. 24A-16. The State Board of Elections shall approve all voting systems provided by this Article. No voting system shall be approved unless it fulfills the following requirements:

- (1) It enables a voter to vote in absolute secrecy;
- (2) (Blank);
- (3) It enables a voter to vote a ticket selected in part from the nominees of one party, and in part from the nominees of any or all parties, and in part from independent candidates and in part of candidates whose names are written in by the voter;
- (4) It enables a voter to vote a written or printed ticket of his own selection for any person for any office for whom he may desire to vote;
- (5) It will reject all votes for an office or upon a proposition when the voter has cast more votes for such office or upon such proposition than he is entitled to cast;
- (5.5) It will identify when a voter has not voted for all statewide constitutional offices;
- (6) It will accommodate all propositions to be submitted to the voters in the form provided by law or, where no such form is provided, then in brief form, not to exceed 75 words.

The State Board of Elections shall not approve any voting equipment or system that includes an external Infrared Data Association (IrDA) communications port.

The State Board of Elections is authorized to withdraw its approval of a voting system if the system fails to fulfill the above requirements.

The vendor, person, or other private entity shall be solely responsible for the production and cost of: all application fees; all ballots; additional temporary workers; and other equipment or facilities needed and used in the testing of the vendor's, person's, or other private entity's respective equipment and software.

Any voting system vendor, person, or other private entity seeking the State Board of Elections' approval of a voting system shall, as part of the approval application, submit to the State Board a non-refundable fee. The State Board of Elections by rule shall establish an appropriate fee structure, taking into account the type of voting system approval that is requested (such as approval of a new system, a modification of an existing system, the size of the modification, etc.). No voting system or modification of a voting system shall be approved unless the fee is paid.

No vendor, person, or other entity may sell, lease, or loan, or have a written contract, including a contract contingent upon State Board approval of the voting system or voting system component, to sell, lease, or loan, a voting system or voting system component to any election jurisdiction unless the voting system or voting system component is first approved by the State Board of Elections pursuant to this Section.

Sec. 24B-6. Ballot Information; Arrangement; Electronic Precinct Tabulation Optical Scan Technology Voting System; Absentee Ballots; Spoiled Ballots. The ballot information, shall, as far as practicable, be in the order of arrangement provided for paper ballots, except that the information may be in vertical or horizontal rows, or on a number of separate pages or displays on the marking device. Ballots for all questions or propositions to be voted on should be provided in a similar manner and must be arranged on the ballot sheet or marking device in the places provided for such purposes. Ballots shall be of white paper unless provided otherwise by administrative rule of the State Board of Elections or otherwise specified.

All propositions, including but not limited to propositions calling for a constitutional convention, constitutional amendment, judicial retention, and public measures to be voted upon shall be placed on separate portions of the ballot sheet or marking device by utilizing borders or grey screens. Candidates shall be listed on a separate portion of the ballot sheet or marking device by utilizing borders or grey screens. Whenever a person has submitted a declaration of intent to be a write-in candidate as required in Sections 17-16.1 and 18-9.1, Below the name of the last candidate listed for an office shall be printed or displayed a line or lines on which the voter may select a write-in candidate shall be printed below the name of the last candidate nominated for such office. Such line or lines shall be proximate to an area provided for marking votes for the write-in candidate or candidates. The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates who may file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of that candidate, up to the number of candidates for which a voter may vote. More than one amendment to the constitution may be placed on the same portion of the ballot sheet or marking device. Constitutional convention or constitutional amendment propositions shall be printed or displayed on a separate portion of the ballot sheet or marking device and designated by borders or

grey screens, unless otherwise provided by administrative rule of the State Board of Elections. More than one public measure or proposition may be placed on the same portion of the ballot sheet or marking device. More than one proposition for retention of judges in office may be placed on the same portion of the ballot sheet or marking device. Names of candidates shall be printed in black. The party affiliation of each candidate or the word "independent" shall appear near or under the candidate's name, and the names of candidates for the same office shall be listed vertically under the title of that office, on separate pages of the marking device, or as otherwise approved by the State Board of Elections. In the case of nonpartisan elections for officers of political subdivisions, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution requires otherwise, the listing of nonpartisan candidates shall not include any party or "independent" designation. Judicial retention questions and ballot questions for all public measures and other propositions shall be designated by borders or grey screens on the ballot or marking device. In primary elections, a separate ballot, or displays on the marking device, shall be used for each political party holding a primary, with the ballot or marking device arranged to include names of the candidates of the party and public measures and other propositions to be voted upon on the day of the primary election.

If the ballot includes both candidates for office and public measures or propositions to be voted on, the election official in charge of the election shall divide the ballot or displays on the marking device in sections for "Candidates" and "Propositions", or separate ballots may be used.

Absentee ballots may consist of envelopes, paper ballots or ballot sheets voted in person in the office of the election official in charge of the election or voted by mail. Where a Precinct Tabulation Optical Scan Technology ballot is used for voting by mail it must be accompanied by voter instructions.

Any voter who spoils his or her ballot, makes an error, or has a ballot returned by the automatic tabulating equipment may return the ballot to the judges of election and get another ballot.

(10 ILCS 5/24B-10.1)

Sec. 24B-10.1. In-Precinct Counting Equipment; Procedures for Counting and Tallying Ballots. In an election jurisdiction where Precinct Tabulation Optical Scan Technology counting equipment is used, the following procedures for counting and tallying the ballots shall apply:

Before the opening of the polls, and before the ballots are entered into the automatic tabulating equipment, the judges of election shall be sure that the totals are all zeros in the counting column. Ballots may then be counted by entering or scanning each ballot into the automatic tabulating equipment. Throughout the election day and before the closing of the polls, no person may check any vote totals for any candidate or proposition on the automatic tabulating equipment. Such automatic tabulating equipment shall be programmed so that no person may reset the equipment for refeeding of ballots unless provided a code from an authorized representative of the election authority. At the option of the election authority, the ballots may be fed into the Precinct Tabulation Optical Scan Technology equipment by the voters under the direct supervision of the judges of elections.

Immediately after the closing of the polls, the precinct judges of election shall open the ballot box and count the number of ballots to determine if the number agrees with the number of voters voting as shown on the Precinct Tabulation Optical Scan Technology equipment and by the applications for ballot or, if the same do not agree, the judges of election shall make the ballots agree with the applications for ballot in the manner provided by Section 17-18 of this Code. The judges of election shall then examine all ballots which are in the ballot box to determine whether the ballots contain the initials of a precinct judge of election. If any ballot is not initialed, it shall be marked on the back "Defective", initialed as to such label by all judges immediately under the word "Defective" and not counted. The judges of election shall place an initialed blank official ballot in the place of the defective ballot, so that the count of the ballots to be counted on the automatic tabulating equipment will be the same, and each "Defective Ballot" and "Replacement" ballot shall contain the same serial number which shall be placed thereon by the judges of election, beginning with number 1 and continuing consecutively for the ballots of that kind in that precinct. The original "Defective" ballot shall be placed in the "Defective Ballot Envelope" provided for that purpose.

If the judges of election have removed a ballot pursuant to Section 17-18, have labeled "Defective" a ballot which is not initialed, or have otherwise determined under this Code to not count a ballot originally deposited into a ballot box, the judges of election shall be sure that the totals on the automatic tabulating equipment are reset to all zeros in the counting column. Thereafter the judges of election shall enter or otherwise scan each ballot to be counted in the automatic tabulating equipment. Resetting the automatic tabulating equipment to all zeros and re-entering of ballots to be counted may occur at the precinct polling place, the office of the election authority, or any receiving station designated by the election authority. The election authority shall designate the place for resetting and re-entering or

re-scanning.

When a Precinct Tabulation Optical Scan Technology electronic voting system is used which uses a paper ballot, the judges of election shall examine the ballot for write-in votes. When the voter has cast a write-in vote, the judges of election shall compare the write-in vote with the votes on the ballot to determine whether the write-in results in an overvote for any office, unless the Precinct Tabulation Optical Scan Technology equipment has already done so. In case of an overvote for any office, the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot except for the office which is overvoted, by using the ballot of the precinct and one of the marking devices, or equivalent ballot, of the precinct so as to transfer all votes of the voter, except for the office overvoted, to a duplicate ballot. The original ballot upon which there is an overvote shall be clearly labeled "Overvoted Ballot", and each such "Overvoted Ballot" as well as its "Replacement" shall contain the same serial number which shall be placed thereon by the judges of election, beginning with number 1 and continuing consecutively for the ballots of that kind in that precinct. The "Overvoted Ballot" shall be placed in an envelope provided for that purpose labeled "Duplicate Ballot" envelope, and the judges of election shall initial the "Replacement" ballots and shall place them with the other ballots to be counted on the automatic tabulating equipment.

If any ballot is damaged or defective, or if any ballot contains a Voting Defect, so that it cannot properly be counted by the automatic tabulating equipment, the voter or the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot by using the ballot of the precinct and one of the marking devices of the precinct, or equivalent. If a damaged ballot, the original ballot shall be clearly labeled "Damaged Ballot" and the ballot so produced shall be clearly labeled "Damaged Ballot" and the ballot so produced shall be clearly labeled "Duplicate Damaged Ballot", and each shall contain the same serial number which shall be placed by the judges of election, beginning with number 1 and continuing consecutively for the ballots of that kind in the precinct. The judges of election shall initial the "Duplicate Damaged Ballot" ballot and shall enter or otherwise scan the duplicate damaged ballot into the automatic tabulating equipment. The "Damaged Ballots" shall be placed in the "Duplicated Ballots" envelope; after all ballots have been successfully read, the judges of election shall check to make certain that the Precinct Tabulation Optical Scan Technology equipment readout agrees with the number of voters making application for ballot in that precinct. The number shall be listed on the "Statement of Ballots" form provided by the election authority.

The totals for all candidates and propositions shall be tabulated. One copy of an "In-Precinct Totals Report" shall be generated by the automatic tabulating equipment for return to the election authority. One copy of an "In-Precinct Totals Report" shall be generated and posted in a conspicuous place inside the polling place, provided that any authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots is present. The totals for all candidates and propositions shall be tabulated; and 4 copies of a "Certificate of Results" shall be generated by the automatic tabulating equipment; one copy shall be posted in a conspicuous place inside the polling place; and every effort shall be made by the judges of election to provide a copy for each authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots; but in no case shall the number of copies to be made available to pollwatchers be fewer than 4, chosen by lot by the judges of election. In addition, sufficient time shall be provided by the judges of election to the pollwatchers to allow them to copy information from the copy which has been posted.

The judges of election shall count all unused ballots and enter the number on the "Statement of Ballots". All "Spoiled", "Defective" and "Duplicated" ballots shall be counted and the number entered on the "Statement of Ballots".

The precinct judges of election shall select a bi-partisan team of 2 judges, who shall immediately return the ballots in a sealed container, along with all other election materials as instructed by the election authority; provided, however, that such container must first be sealed by the election judges with filament tape or other approved sealing devices provided for the purpose which shall be wrapped around the container lengthwise and crosswise, at least twice each way, in a manner that the ballots cannot be removed from the container without breaking the seal and filament tape and disturbing any signatures affixed by the election judges to the container, or which other approved sealing devices are affixed in a manner approved by the election authority. The election authority shall keep the office of the election authority or any receiving stations designated by the authority, open for at least 12 consecutive hours after the polls close or until the ballots from all precincts with in-precinct counting equipment within the jurisdiction of the election authority have been returned to the election authority. Ballots returned to the office of the election authority which are not signed and sealed as required by law shall

not be accepted by the election authority until the judges returning the ballots make and sign the necessary corrections. Upon acceptance of the ballots by the election authority, the judges returning the ballots shall take a receipt signed by the election authority and stamped with the time and date of the return. The election judges whose duty it is to return any ballots as provided shall, in the event the ballots cannot be found when needed, on proper request, produce the receipt which they are to take as above provided. The precinct judges of election shall also deliver the Precinct Tabulation Optical Scan Technology equipment to the election authority.

(10 ILCS 5/24B-15)

Sec. 24B-15. Official Return of Precinct; Check of Totals; Retabulation. The precinct return printed by the automatic Precinct Tabulation Optical Scan Technology tabulating equipment shall include the number of ballots cast and votes cast for each candidate and proposition and shall constitute the official return of each precinct. In addition to the precinct return, the election authority shall provide the number of applications for ballots in each precinct, the write-in votes, the total number of ballots counted in each precinct for each political subdivision and district and the number of registered voters in each precinct. However, the election authority shall check the totals shown by the precinct return and, if there is an obvious discrepancy regarding the total number of votes cast in any precinct, shall have the ballots for that precinct retabulated to correct the return. The procedures for retabulation shall apply prior to and after the proclamation is completed; however, after the proclamation of results, the election authority must obtain a court order to unseal voted ballots except for election contests and discovery recounts. In those election jurisdictions that use in-precinct counting equipment, the certificate of results, which has been prepared by the judges of election ~~in the polling place~~ after the ballots have been tabulated, shall be the document used for the canvass of votes for such precinct. Whenever a discrepancy exists during the canvass of votes between the unofficial results and the certificate of results, or whenever a discrepancy exists during the canvass of votes between the certificate of results and the set of totals which has been affixed to the certificate of results, the ballots for that precinct shall be retabulated to correct the return. As an additional part of this check prior to the proclamation, in those jurisdictions where in-precinct counting equipment is used, the election authority shall retabulate the total number of votes cast in 5% of the precincts within the election jurisdiction. The precincts to be retabulated shall be selected after election day on a random basis by the State Board of Elections, so that every precinct in the election jurisdiction has an equal mathematical chance of being selected. The State Board of Elections shall design a standard and scientific random method of selecting the precincts which are to be retabulated. The State central committee chairman of each established political party shall be given prior written notice of the time and place of the random selection procedure and may be represented at the procedure. The retabulation shall consist of counting the ballots which were originally counted and shall not involve any determination of which ballots were, in fact, properly counted. The ballots from the precincts selected for the retabulation shall remain at all times under the custody and control of the election authority and shall be transported and retabulated by the designated staff of the election authority.

As part of the retabulation, the election authority shall test the computer program in the selected precincts. The test shall be conducted by processing a preaudited group of ballots marked to record a predetermined number of valid votes for each candidate and on each public question, and shall include for each office one or more ballots which have votes in excess of the number allowed by law to test the ability of the equipment and the marking device to reject such votes. If any error is detected, the cause shall be determined and corrected, and an errorless count shall be made prior to the official canvass and proclamation of election results.

The State Board of Elections, the State's Attorney and other appropriate law enforcement agencies, the county chairman of each established political party and qualified civic organizations shall be given prior written notice of the time and place of the retabulation and may be represented at the retabulation.

The results of this retabulation shall be treated in the same manner and have the same effect as the results of the discovery procedures set forth in Section 22-9.1 of this Code. Upon completion of the retabulation, the election authority shall print a comparison of the results of the retabulation with the original precinct return printed by the automatic tabulating equipment. The comparison shall be done for each precinct and for each office voted upon within that precinct, and the comparisons shall be open to the public. Upon completion of the retabulation, the returns shall be open to the public.

Sec. 24B-16. Approval of Precinct Tabulation Optical Scan Technology Voting Systems; Requisites. The State Board of Elections shall approve all Precinct Tabulation Optical Scan Technology voting systems provided by this Article.

[June 1, 2007]

No Precinct Tabulation Optical Scan Technology voting system shall be approved unless it fulfills the following requirements:

- (a) It enables a voter to vote in absolute secrecy;
- (b) (Blank);
- (c) It enables a voter to vote a ticket selected in part from the nominees of one party, and in part from the nominees of any or all parties, and in part from independent candidates, and in part of candidates whose names are written in by the voter;
- (d) It enables a voter to vote a written or printed ticket of his or her own selection for any person for any office for whom he or she may desire to vote;
- (e) It will reject all votes for an office or upon a proposition when the voter has cast more votes for the office or upon the proposition than he or she is entitled to cast; ~~and~~
- (e-5) It will identify when a voter has not voted for all statewide constitutional offices; and
- (f) It will accommodate all propositions to be submitted to the voters in the form provided by law or, where no form is provided, then in brief form, not to exceed 75 words.

The State Board of Elections shall not approve any voting equipment or system that includes an external Infrared Data Association (IrDA) communications port.

The State Board of Elections is authorized to withdraw its approval of a Precinct Tabulation Optical Scan Technology voting system if the system fails to fulfill the above requirements.

The vendor, person, or other private entity shall be solely responsible for the production and cost of: all application fees; all ballots; additional temporary workers; and other equipment or facilities needed and used in the testing of the vendor's, person's, or other private entity's respective equipment and software.

Any voting system vendor, person, or other private entity seeking the State Board of Elections' approval of a voting system shall, as part of the approval application, submit to the State Board a non-refundable fee. The State Board of Elections by rule shall establish an appropriate fee structure, taking into account the type of voting system approval that is requested (such as approval of a new system, a modification of an existing system, the size of the modification, etc.). No voting system or modification of a voting system shall be approved unless the fee is paid.

No vendor, person, or other entity may sell, lease, or loan, or have a written contract, including a contract contingent upon State Board approval of the voting system or voting system component, to sell, lease, or loan, a voting system or Precinct Tabulation Optical Scan Technology voting system component to any election jurisdiction unless the voting system or voting system component is first approved by the State Board of Elections pursuant to this Section.

Sec. 24B-20. Voting Defect Identification Capabilities. (Source: P.A. 89-394, eff. 1-1-97.)

(10 ILCS 5/24C-11)

Sec. 24C-11. Functional requirements.

A Direct Recording Electronic Voting System shall, in addition to satisfying the other requirements of this Article, fulfill the following functional requirements:

(a) Provide a voter in a primary election with the means of casting a ballot containing votes for any and all candidates of the party or parties of his or her choice, and for any and all non-partisan candidates and public questions and preclude the voter from voting for any candidate of any other political party except when legally permitted. In a general election, the system shall provide the voter with means of selecting the appropriate number of candidates for any office, and of voting on any public question on the ballot to which he or she is entitled to vote.

(b) If a voter is not entitled to vote for particular candidates or public questions appearing on the ballot, the system shall prevent the selection of the prohibited votes.

(c) Once the proper ballot has been selected, the system devices shall provide a means of enabling the recording of votes and the casting of said ballot.

(d) System voting devices shall provide voting choices that are clear to the voter and labels indicating the names of every candidate and the text of every public question on the voter's ballot. Each label shall identify the selection button or switch, or the active area of the ballot associated with it. The system shall be able to incorporate minimal, easy-to-follow on-screen instruction for the voter on how to cast a ballot.

(e) Voting devices shall (i) enable the voter to vote for any and all candidates and public questions appearing on the ballot for which the voter is lawfully entitled to vote, in any legal number and

combination; (ii) detect and reject all votes for an office or upon a public question when the voter has cast more votes for the office or upon the public question than the voter is entitled to cast; (iii) notify the voter if the voter's choices as recorded on the ballot for an office or public question are fewer than or exceed the number that the voter is entitled to vote for on that office or public question and the effect of casting more or fewer votes than legally permitted; (iv) notify the voter if the voter has failed to completely cast a vote for an office or public question appearing on the ballot; and (v) permit the voter, in a private and independent manner, to verify the votes selected by the voter, to change the ballot or to correct any error on the ballot before the ballot is completely cast and counted. A means shall be provided to indicate each selection after it has been made or canceled.

(f) System voting devices shall provide a means for the voter to signify that the selection of candidates and public questions has been completed. Upon activation, the system shall record an image of the completed ballot, increment the proper ballot position registers, and shall signify to the voter that the ballot has been cast. The system shall then prevent any further attempt to vote until it has been reset or re-enabled by a judge of election.

(g) Each system voting device shall be equipped with a public counter that can be set to zero prior to the opening of the polling place, and that records the number of ballots cast at a particular election. The counter shall be incremented only by the casting of a ballot. The counter shall be designed to prevent disabling or resetting by other than authorized persons after the polls close. The counter shall be visible to all judges of election so long as the device is installed at the polling place.

(h) Each system voting device shall be equipped with a protective counter that records all of the testing and election ballots cast since the unit was built. This counter shall be designed so that its reading cannot be changed by any cause other than the casting of a ballot. The protective counter shall be incapable of ever being reset and it shall be visible at all times when the device is configured for testing, maintenance, or election use.

(i) All system devices shall provide a means of preventing further voting once the polling place has closed and after all eligible voters have voted. Such means of control shall incorporate a visible indication of system status. Each device shall prevent any unauthorized use, prevent tampering with ballot labels and preclude its re-opening once the poll closing has been completed for that election.

(j) The system shall produce a printed summary report of the votes cast upon each voting device. Until the proper sequence of events associated with closing the polling place has been completed, the system shall not allow the printing of a report or the extraction of data. The printed report shall also contain all system audit information to be required by the election authority. Data shall not be altered or otherwise destroyed by report generation and the system shall ensure the integrity and security of data for a period of at least 6 months after the polls close.

(k) If more than one voting device is used in a polling place, the system shall provide a means to manually or electronically consolidate the data from all such units into a single report even if different voting systems are used to record absentee ballots. The system shall also be capable of merging the vote tabulation results produced by other vote tabulation systems, if necessary.

(l) System functions shall be implemented such that unauthorized access to them is prevented and the execution of authorized functions in an improper sequence is precluded. System functions shall be executable only in the intended manner and order, and only under the intended conditions. If the preconditions to a system function have not been met, the function shall be precluded from executing by the system's control logic.

(m) All system voting devices shall incorporate at least 3 memories in the machine itself and in its programmable memory devices.

(n) The system shall include capabilities of recording and reporting the date and time of normal and abnormal events and of maintaining a permanent record of audit information that cannot be turned off. Provisions shall be made to detect and record significant events (e.g., casting a ballot, error conditions that cannot be disposed of by the system itself, time-dependent or programmed events that occur without the intervention of the voter or a judge of election).

(o) The system and each system voting device must be capable of creating, printing and maintaining a permanent paper record and an electronic image of each ballot that is cast such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the election authority.

(p) The system shall include built-in test, measurement and diagnostic software and hardware for detecting and reporting the system's status and degree of operability.

[June 1, 2007]

(q) The system shall contain provisions for maintaining the integrity of memory voting and audit data during an election and for a period of at least 6 months thereafter and shall provide the means for creating an audit trail.

(r) The system shall be fully accessible so as to permit blind or visually impaired voters as well as physically disabled voters to exercise their right to vote in private and without assistance.

(s) The system shall provide alternative language accessibility if required pursuant to Section 203 of the Voting Rights Act of 1965.

(t) Each voting device shall enable a voter to vote for a person whose name does not appear on the ballot.

(u) The system shall record and count accurately each vote properly cast for or against any candidate and for or against any public question, including the names of all candidates whose names are written in by the voters.

(v) The system shall allow for accepting provisional ballots and for separating such provisional ballots from precinct totals until authorized by the election authority.

(w) The system shall provide an effective audit trail as defined in Section 24C-2 in this Code.

(x) The system shall be suitably designed for the purpose used, be durably constructed, and be designed for safety, accuracy and efficiency.

(y) The system shall comply with all provisions of federal, State and local election laws and regulations and any future modifications to those laws and regulations.

(10 ILCS 5/24C-12)

Sec. 24C-12. Procedures for Counting and Tallying of Ballots. In an election jurisdiction where a Direct Recording Electronic Voting System is used, the following procedures for counting and tallying the ballots shall apply:

Before the opening of the polls, the judges of elections shall assemble the voting equipment and devices and turn the equipment on. The judges shall, if necessary, take steps to activate the voting devices and counting equipment by inserting into the equipment and voting devices appropriate data cards containing passwords and data codes that will select the proper ballot formats selected for that polling place and that will prevent inadvertent or unauthorized activation of the poll-opening function. Before voting begins and before ballots are entered into the voting devices, the judges of election shall cause to be printed a record of the following: the election's identification data, the device's unit identification, the ballot's format identification, the contents of each active candidate register by office and of each active public question register showing that they contain all zero votes, all ballot fields that can be used to invoke special voting options, and other information needed to ensure the readiness of the equipment and to accommodate administrative reporting requirements. The judges must also check to be sure that the totals are all zeros in the counting columns and in the public counter affixed to the voting devices.

After the judges have determined that a person is qualified to vote, a voting device with the proper ballot to which the voter is entitled shall be enabled to be used by the voter. The ballot may then be cast by the voter by marking by appropriate means the designated area of the ballot for the casting of a vote for any candidate or for or against any public question. The voter shall be able to vote for any and all candidates and public measures appearing on the ballot in any legal number and combination and the voter shall be able to delete, change or correct his or her selections before the ballot is cast. The voter shall be able to select candidates whose names do not appear upon the ballot for any office by entering electronically as many names of candidates as the voter is entitled to select for each office.

Upon completing his or her selection of candidates or public questions, the voter shall signify that voting has been completed by activating the appropriate button, switch or active area of the ballot screen associated with end of voting. Upon activation, the voting system shall record an image of the completed ballot, increment the proper ballot position registers, and shall signify to the voter that the ballot has been cast. Upon activation, the voting system shall also print a permanent paper record of each ballot cast as defined in Section 24C-2 of this Code. This permanent paper record shall (i) be printed in a clear, readily readable format that can be easily reviewed by the voter for completeness and accuracy and (ii) either be self-contained within the voting device or be deposited by the voter into a secure ballot box. No permanent paper record shall be removed from the polling place except by election officials as authorized by this Article. All permanent paper records shall be preserved and secured by election officials in the same manner as paper ballots and shall be available as an official record for any recount, redundant count, or verification or retabulation of the vote count conducted with respect to any election in which the voting system is used. The voter shall exit the voting station and the voting system shall prevent any further attempt to vote until it has been properly re-activated. If a voting device has been

enabled for voting but the voter leaves the polling place without casting a ballot, 2 judges of election, one from each of the 2 major political parties, shall spoil the ballot.

Throughout the election day and before the closing of the polls, no person may check any vote totals for any candidate or public question on the voting or counting equipment. Such equipment shall be programmed so that no person may reset the equipment for reentry of ballots unless provided the proper code from an authorized representative of the election authority.

The precinct judges of election shall check the public register to determine whether the number of ballots counted by the voting equipment agrees with the number of voters voting as shown by the applications for ballot. If the same do not agree, the judges of election shall immediately contact the offices of the election authority in charge of the election for further instructions. If the number of ballots counted by the voting equipment agrees with the number of voters voting as shown by the application for ballot, the number shall be listed on the "Statement of Ballots" form provided by the election authority.

The totals for all candidates and propositions shall be tabulated. One copy of an "In-Precinct Totals Report" shall be generated by the automatic tabulating equipment for return to the election authority. One copy of an "In-Precinct Totals Report" shall be generated and posted in a conspicuous place inside the polling place, provided that any authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots is present. Except as otherwise provided in this Section, the totals for all candidates and propositions shall be tabulated; and 4 copies of a "Certificate of Results" shall be printed by the automatic tabulating equipment; one copy shall be posted in a conspicuous place inside the polling place; and every effort shall be made by the judges of election to provide a copy for each authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots; but in no case shall the number of copies to be made available to pollwatchers be fewer than 4, chosen by lot by the judges of election. In addition, sufficient time shall be provided by the judges of election to the pollwatchers to allow them to copy information from the copy which has been posted.

Until December 31, 2007, in elections at which fractional cumulative votes are cast for candidates, the tabulation of those fractional cumulative votes may be made by the election authority at its central office location, and 4 copies of a "Certificate of Results" shall be printed by the automatic tabulation equipment and shall be posted in 4 conspicuous places at the central office location where those fractional cumulative votes have been tabulated.

If instructed by the election authority, the judges of election shall cause the tabulated returns to be transmitted electronically to the offices of the election authority via modem or other electronic medium.

The precinct judges of election shall select a bi-partisan team of 2 judges, who shall immediately return the ballots in a sealed container, along with all other election materials and equipment as instructed by the election authority; provided, however, that such container must first be sealed by the election judges with filament tape or other approved sealing devices provided for the purpose in a manner that the ballots cannot be removed from the container without breaking the seal or filament tape and disturbing any signatures affixed by the election judges to the container. The election authority shall keep the office of the election authority, or any receiving stations designated by the authority, open for at least 12 consecutive hours after the polls close or until the ballots and election material and equipment from all precincts within the jurisdiction of the election authority have been returned to the election authority. Ballots and election materials and equipment returned to the office of the election authority which are not signed and sealed as required by law shall not be accepted by the election authority until the judges returning the ballots make and sign the necessary corrections. Upon acceptance of the ballots and election materials and equipment by the election authority, the judges returning the ballots shall take a receipt signed by the election authority and stamped with the time and date of the return. The election judges whose duty it is to return any ballots and election materials and equipment as provided shall, in the event the ballots, materials or equipment cannot be found when needed, on proper request, produce the receipt which they are to take as above provided.

Sec. 24C-15. Official Return of Precinct; Check of Totals; Audit. The precinct return printed by the Direct Recording Electronic Voting System tabulating equipment shall include the number of ballots cast and votes cast for each candidate and public question and shall constitute the official return of each precinct. In addition to the precinct return, the election authority shall provide the number of applications for ballots in each precinct, the total number of ballots and absentee ballots counted in each precinct for each political subdivision and district and the number of registered voters in each precinct. However, the election authority shall check the totals shown by the precinct return and, if there is an obvious

[June 1, 2007]

discrepancy regarding the total number of votes cast in any precinct, shall have the ballots for that precinct audited to correct the return. The procedures for this audit shall apply prior to and after the proclamation is completed; however, after the proclamation of results, the election authority must obtain a court order to unseal voted ballots or voting devices except for election contests and discovery recounts. The certificate of results, which has been prepared and signed by the judges of election ~~in the polling place~~ after the ballots have been tabulated, shall be the document used for the canvass of votes for such precinct. Whenever a discrepancy exists during the canvass of votes between the unofficial results and the certificate of results, or whenever a discrepancy exists during the canvass of votes between the certificate of results and the set of totals reflected on the certificate of results, the ballots for that precinct shall be audited to correct the return.

Prior to the proclamation, the election authority shall test the voting devices and equipment in 5% of the precincts within the election jurisdiction. The precincts to be tested shall be selected after election day on a random basis by the State Board of Elections, so that every precinct in the election jurisdiction has an equal mathematical chance of being selected. The State Board of Elections shall design a standard and scientific random method of selecting the precincts that are to be tested. The State central committee chairman of each established political party shall be given prior written notice of the time and place of the random selection procedure and may be represented at the procedure.

The test shall be conducted by counting the votes marked on the permanent paper record of each ballot cast in the tested precinct printed by the voting system at the time that each ballot was cast and comparing the results of this count with the results shown by the certificate of results prepared by the Direct Recording Electronic Voting System in the test precinct. The election authority shall test count these votes either by hand or by using an automatic tabulating device other than a Direct Recording Electronic voting device that has been approved by the State Board of Elections for that purpose and tested before use to ensure accuracy. The election authority shall print the results of each test count. If any error is detected, the cause shall be determined and corrected, and an errorless count shall be made prior to the official canvass and proclamation of election results. If an errorless count cannot be conducted and there continues to be difference in vote results between the certificate of results produced by the Direct Recording Electronic Voting System and the count of the permanent paper records or if an error was detected and corrected, the election authority shall immediately prepare and forward to the appropriate canvassing board a written report explaining the results of the test and any errors encountered and the report shall be made available for public inspection.

The State Board of Elections, the State's Attorney and other appropriate law enforcement agencies, the county chairman of each established political party and qualified civic organizations shall be given prior written notice of the time and place of the test and may be represented at the test.

The results of this post-election test shall be treated in the same manner and have the same effect as the results of the discovery procedures set forth in Section 22-9.1 of this Code.

(10 ILCS 5/24C-16)

Sec. 24C-16. Approval of Direct Recording Electronic Voting Systems; Requisites. The State Board of Elections shall approve all Direct Recording Electronic Voting Systems that fulfill the functional requirements provided by Section 24C-11 of this Code, the mandatory requirements of the federal voting system standards pertaining to Direct Recording Electronic Voting Systems promulgated by the Federal Election Commission or the Election Assistance Commission, the testing requirements of an approved independent testing authority and the rules of the State Board of Elections.

The State Board of Elections shall not approve any Direct Recording Electronic Voting System that includes an external Infrared Data Association (IrDA) communications port.

The State Board of Elections is authorized to withdraw its approval of a Direct Recording Electronic Voting System if the System, once approved, fails to fulfill the above requirements.

The vendor, person, or other private entity shall be solely responsible for the production and cost of: all application fees; all ballots; additional temporary workers; and other equipment or facilities needed and used in the testing of the vendor's, person's, or other private entity's respective equipment and software.

Any voting system vendor, person, or other private entity seeking the State Board of Elections' approval of a voting system shall, as part of the approval application, submit to the State Board a non-refundable fee. The State Board of Elections by rule shall establish an appropriate fee structure, taking into account the type of voting system approval that is requested (such as approval of a new system, a modification of an existing system, the size of the modification, etc.). No voting system or modification of a voting system shall be approved unless the fee is paid.

No vendor, person, or other entity may sell, lease, or loan, or have a written contract, including a

contract contingent upon State Board approval of the voting system or voting system component, to sell, lease, or loan, a Direct Recording Electronic Voting System or system component to any election jurisdiction unless the system or system component is first approved by the State Board of Elections pursuant to this Section.

(b) In a municipality with more than 1,000,000 inhabitants, when a question of public policy exclusively concerning a contiguous territory included entirely within but not coextensive with the municipality is initiated by resolution or ordinance of the corporate authorities of the municipality, or by a petition which may be signed by registered voters who reside in any part of any precinct all or part of which includes all or part of the territory and who equal in number at least 8% of the total votes cast for candidates for Governor in the preceding gubernatorial election by the total number of registered voters of the precinct or precincts the registered voters of which are eligible to sign the petition, it shall be the duty of the election authority having jurisdiction over such municipality to submit such question to the electors throughout each precinct all or part of which includes all or part of the territory at the regular election specified in the resolution, ordinance or petition initiating the public question. A petition initiating a public question described in this subsection shall be filed with the election authority having jurisdiction over the municipality. A resolution, ordinance or petition initiating a public question described in this subsection shall specify the election at which the question is to be submitted.

(c) Local questions of public policy authorized by this Section and statewide questions of public policy authorized by Section 28-9 shall be advisory public questions, and no legal effects shall result from the adoption or rejection of such propositions.

Section 15. The Illinois Municipal Code is amended by changing Sections 3.1-20-45, 3.1-25-40, 5-2-18.5, and 5-2-19 as follows:

(65 ILCS 5/3.1-20-45)

Sec. 3.1-20-45. Nonpartisan primary elections; uncontested office. A city incorporated under this Code that elects municipal officers at nonpartisan primary and general elections shall conduct the elections as provided in the Election Code, except that no office for which nomination is uncontested shall be included on the primary ballot and no primary shall be held for that office. For the purposes of this Section, an office is uncontested when not more than ~~4~~ two persons to be nominated for each office have timely filed valid nominating papers seeking nomination for the election to that office.

Notwithstanding the preceding paragraph, when a person (i) who has not timely filed valid nomination papers and (ii) who intends to become a write-in candidate for nomination for any office for which nomination is uncontested files a written statement or notice of that intent with the proper election official with whom the nomination papers for that office are filed, if the write-in candidate becomes the fifth candidate filed, a primary ballot must be prepared and a primary must be held for the office. The statement or notice must be filed on or before the 61st day before the consolidated primary election. The statement must contain (i) the name and address of the person intending to become a write-in candidate, (ii) a statement that the person intends to become a write-in candidate, and (iii) the office the person is seeking as a write-in candidate. An election authority has no duty to conduct a primary election or prepare a primary ballot unless a statement meeting the requirements of this paragraph is filed in a timely manner.

(65 ILCS 5/3.1-25-40) (from Ch. 24, par. 3.1-25-40)

Sec. 3.1-25-40. Ballots.

(a) If the office of president is to be filled, only the names of the ~~4~~ 2 candidates receiving the highest number of votes for president shall be placed on the ballot for president at the next succeeding general

The names of candidates in a number equal to 4 ~~2~~ times the number of trustee positions to be filled receiving the highest number of votes for trustee, or the names of all candidates if less than 4 ~~2~~ times the number of trustee positions to be filled, shall be placed on the ballot for that office at the municipal election.

(b) An elector, however, at either a primary election or a general municipal election held under Sections 3.1-25-20 through 3.1-25-55, may write in the names of the candidates of that elector's choice in accordance with the general election law. If, however, the name of only one candidate for a particular office appeared on the primary ballot, the name of the person having the largest number of write-in votes shall not be placed upon the ballot at the general municipal election unless the number of votes received in the primary election by that person was at least 10% of the number of votes received by the candidate for the same office whose name appeared on the primary ballot.

(c) If a nominee at a general primary election dies or withdraws before the general municipal election, there shall be placed on the ballot the name of the candidate receiving the next highest number of votes, and so on in case of the death or withdrawal of more than one nominee.

(d) If in the application of this Section there occurs the condition provided for in Section 3.1-25-45, there shall be placed on the ballot the name of the candidate who was not chosen by lot under that Section where one of 2 tied candidates had been placed on the ballot before the death or withdrawal occurred. If, however, in the application of this Section, the candidate with the next highest number of votes cannot be determined because of a tie among 2 or more candidates, the successor nominee whose name shall be placed on the ballot shall be determined by lot as provided in Section 3.1-25-45.

To achieve this result: wherever the term "mayor or commissioners" appears in Sections 4-3-7 through 4-3-18, it shall be construed to include the words "or clerk or treasurer". Senator Link offered the following amendment and moved its adoption:

AMENDMENT NO. 3 TO HOUSE BILL 1752

AMENDMENT NO. 3. Amend House Bill 1752, AS AMENDED, with reference to page and line numbers of Senate Amendment No. 1, by replacing line 1 on page 10 through line 7 on page 26 with the following:

"(10 ILCS 5/7-8) (from Ch. 46, par. 7-8)

Sec. 7-8. The State central committee shall be composed of one or two members from each congressional district in the State and shall be elected as follows:

State Central Committee

(a) Within 30 days after the effective date of this amendatory Act of 1983 the State central committee of each political party shall certify to the State Board of Elections which of the following alternatives it wishes to apply to the State central committee of that party.

Alternative A. At the primary held on the third Tuesday in March 1970, and at the primary held every 4 years thereafter, each primary elector may vote for one candidate of his party for member of the State

[June 1, 2007]

central committee for the congressional district in which he resides. The candidate receiving the highest number of votes shall be declared elected State central committeeman from the district. A political party may, in lieu of the foregoing, by a majority vote of delegates at any State convention of such party, determine to thereafter elect the State central committeemen in the manner following:

At the county convention held by such political party State central committeemen shall be elected in the same manner as provided in this Article for the election of officers of the county central committee, and such election shall follow the election of officers of the county central committee. Each elected ward, township or precinct committeeman shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party. In the case of a county lying partially within one congressional district and partially within another congressional district, each ward, township or precinct committeeman shall vote only with respect to the congressional district in which his ward, township, part of a township or precinct is located. In the case of a congressional district which encompasses more than one county, each ward, township or precinct committeeman residing within the congressional district shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party for one candidate of his party for member of the State central committee for the congressional district in which he resides and the Chairman of the county central committee shall report the results of the election to the State Board of Elections. The State Board of Elections shall certify the candidate receiving the highest number of votes elected State central committeeman for that congressional district.

The State central committee shall adopt rules to provide for and govern the procedures to be followed in the election of members of the State central committee.

After the effective date of this amendatory Act of the 91st General Assembly, whenever a vacancy occurs in the office of Chairman of a State central committee, or at the end of the term of office of Chairman, the State central committee of each political party that has selected Alternative A shall elect a Chairman who shall not be required to be a member of the State Central Committee. The Chairman shall be a registered voter in this State and of the same political party as the State central committee.

Alternative B. Each congressional committee shall, within 30 days after the adoption of this alternative, appoint a person of the sex opposite that of the incumbent member for that congressional district to serve as an additional member of the State central committee until his or her successor is elected at the general primary election in 1986. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section. In each congressional district at the general primary election held in 1986 and every 4 years thereafter, the male candidate receiving the highest number of votes of the party's male candidates for State central committeeman, and the female candidate receiving the highest number of votes of the party's female candidates for State central committeewoman, shall be declared elected State central committeeman and State central committeewoman from the district. At the general primary election held in 1986 and every 4 years thereafter, if all a party's candidates for State central committeemen or State central committeewomen from a congressional district are of the same sex, the candidate receiving the highest number of votes shall be declared elected a State central committeeman or State central committeewoman from the district, and, because of a failure to elect one male and one female to the committee, a vacancy shall be declared to exist in the office of the second member of the State central committee from the district. This vacancy shall be filled by appointment by the congressional committee of the political party, and the person appointed to fill the vacancy shall be a resident of the congressional district and of the sex opposite that of the committeeman or committeewoman elected at the general primary election. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section.

The Chairman of a State central committee composed as provided in this Alternative B must be selected from the committee's members.

Except as provided for in Alternative A with respect to the selection of the Chairman of the State central committee, under both of the foregoing alternatives, the State central committee of each political party shall be composed of members elected or appointed from the several congressional districts of the State, and of no other person or persons whomsoever. The members of the State central committee shall, within 41 days after each quadrennial election of the full committee, meet in the city of Springfield and organize by electing a chairman, and may at such time elect such officers from among their own number (or otherwise), as they may deem necessary or expedient. The outgoing chairman of the State central committee of the party shall, 10 days before the meeting, notify each member of the State central committee elected at the primary of the time and place of such meeting. In the organization and proceedings of the State central committee, each State central committeeman and State central

committeewoman shall have one vote for each ballot voted in his or her congressional district by the primary electors of his or her party at the primary election immediately preceding the meeting of the State central committee. Whenever a vacancy occurs in the State central committee of any political party, the vacancy shall be filled by appointment of the chairmen of the county central committees of the political party of the counties located within the congressional district in which the vacancy occurs and, if applicable, the ward and township committeemen of the political party in counties of 2,000,000 or more inhabitants located within the congressional district. If the congressional district in which the vacancy occurs lies wholly within a county of 2,000,000 or more inhabitants, the ward and township committeemen of the political party in that congressional district shall vote to fill the vacancy. In voting to fill the vacancy, each chairman of a county central committee and each ward and township committeeman in counties of 2,000,000 or more inhabitants shall have one vote for each ballot voted in each precinct of the congressional district in which the vacancy exists of his or her county, township, or ward cast by the primary electors of his or her party at the primary election immediately preceding the meeting to fill the vacancy in the State central committee. The person appointed to fill the vacancy shall be a resident of the congressional district in which the vacancy occurs, shall be a qualified voter, and, in a committee composed as provided in Alternative B, shall be of the same sex as his or her predecessor. A political party may, by a majority vote of the delegates of any State convention of such party, determine to return to the election of State central committeeman and State central committeewoman by the vote of primary electors. Any action taken by a political party at a State convention in accordance with this Section shall be reported to the State Board of Elections by the chairman and secretary of such convention within 10 days after such action.

Ward, Township and Precinct Committeemen

(b) At the primary held on the third Tuesday in March, 1972, and every 4 years thereafter, each primary elector in cities having a population of 200,000 or over may vote for one candidate of his party in his ward for ward committeeman. Each candidate for precinct committeeman must be a bona fide resident of the precinct where he seeks to be elected precinct committeeman. All precinct committeemen elected under the provisions of this Article shall continue as such committeemen until the date of the primary to be held in the second year after their election. Except as otherwise provided in this Section for certain State central committeemen who have 2 year terms, all State central committeemen, township committeemen and ward committeemen shall continue as such committeemen until the date of primary to be held in the fourth year after their election. However, a vacancy exists in the office of precinct committeeman when a precinct committeeman ceases to reside in the precinct in which he was elected and such precinct committeeman shall thereafter neither have nor exercise any rights, powers or duties as committeeman in that precinct, even if a successor has not been elected or appointed.

(c) The Multi-Township Central Committee shall consist of the precinct committeemen of such party, in the multi-township assessing district formed pursuant to Section 2-10 of the Property Tax Code and shall be organized for the purposes set forth in Section 45-25 of the Township Code.
