PRESENTATION OF RESOLUTIONS

Senator Philip offered the following Senate Resolution, which was referred to the Committee on Rules:

SENATE RESOLUTION NO. 337

WHEREAS, The yellow perch population in Lake Michigan decreased in recent years because the non-native zebra mussel, in its prolific invasion of the waters, consumes the nutritious organisms needed by the young perch; and

WHEREAS, In an effort to protect the yellow perch population, the Department of Natural Resources by rule has permitted only sport fishermen to take that species from Lake Michigan; and

WHEREAS, While this restriction has improved and stabilized the yellow perch population, commercial fisheries and processors have suffered great economic consequences; and

WHEREAS, Penalizing commercial fishermen for a situation that was caused not by their own harvesting practices but by the presence of the zebra mussel unfairly places the interests of the commercial fishermen behind those of sport fishermen; and

WHEREAS, Allowing commercial fishermen to harvest yellow perch during the pre-spawning months of March and April would ease the financial hardship imposed upon them, with little detriment to the Department's goal of population protection; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIRST GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we strongly urge the Department of Natural Resources by rule to alter the restriction upon the taking of yellow perch from Lake Michigan to permit commercial fishermen to take yellow perch during March and April in order to lessen the economic burden the present limit has placed upon these Illinois businesses; and be it further

RESOLVED, That a copy of this resolution be presented to the Director of Natural Resources.
