For the purpose of the minimum annuity provided in this Section \$1,500 is considered the minimum annual salary for any year; and the maximum annual salary for the computation of such annuity is \$4,800 for any year before 1953, \$6000 for the years 1953 to 1956, inclusive, and the actual annual salary, as salary is defined in this

[June 2, 2002]

Article, for any year thereafter.

To preserve rights existing on December 31, 1959, for participants and contributors on that date to the fund created by the Court and Law Department Employees' Annuity Act, who became participants in the fund provided for on January 1, 1960, the maximum annual salary to be considered for such persons for the years 1955 and 1956 is \$7,500.

(c) For an employee receiving disability benefit, his salary for annuity purposes under paragraphs (a) and (b) of this Section, for all periods of disability benefit subsequent to the year 1956, is the amount on which his disability benefit was based.

(d) An employee with 20 or more years of service, whose entire disability benefit credit period expires before attainment of age 55 while still disabled for service, is entitled upon withdrawal to the larger of (1) the minimum annuity provided above, assuming he is then age 55, and reducing such annuity to its actuarial equivalent as of his attained age on such date or (2) the annuity provided from his age and service and prior service annuity credits.

(e) The minimum annuity provisions do not apply to any former municipal employee receiving an annuity from the fund who re-enters service as a municipal employee, unless he renders at least 3 years of additional service after the date of re-entry.

(f) An employee in service on July 1, 1947, or who became a contributor after July 1, 1947 and before attainment of age 70, who withdraws after age 65, with less than 20 years of service for whom the annuity has been fixed under this Article shall, instead of the annuity so fixed, receive an annuity as follows:

Such amount as he could have received had the accumulated amounts for annuity been improved with interest at the effective rate to the date of his withdrawal, or to attainment of age 70, whichever is earlier, and had the city contributed to such earlier date for age and service annuity the amount that it would have contributed had he been under age 65, after the date his annuity was fixed in accordance with this Article, and assuming his annuity were computed from such accumulations as of his age on such earlier date. The annuity so computed shall not exceed the annuity which would be payable under the other provisions of this Section if the employee was credited with 20 years of service and would qualify for annuity thereunder.

(g) Instead of the annuity provided in this Article, an employee having attained age 65 with at least 15 years of service who withdraws from service on or after July 1, 1971 and whose annuity computed under other provisions of this Article is less than the amount provided under this paragraph, is entitled to a minimum annuity for life equal to 1% of the highest average annual salary, as salary is defined and limited in this Section for any 4 consecutive years within the last 10 years of service for each year of service, plus the sum of \$25 for each year of service. The annuity shall not exceed 60% of such highest average annual salary.

(g-1) Instead of any other retirement annuity provided in this Article, an employee who has at least 10 years of service and withdraws from service on or after January 1, 1999 may elect to receive a retirement annuity for life, beginning no earlier than upon attainment of age 60, equal to 2.2% if withdrawal is before January 1, 2002, or 2.4% if withdrawal is on or after January 1, 2002, of final average salary for each year of service, subject to a maximum of 75% of final average salary if withdrawal is before January 1, 2002, or 80% if withdrawal is on or after January 1, 2002. For the purpose of calculating this annuity, "final average salary" means the highest average annual salary for any 4 consecutive years in the last 10 years of service.

[June 2, 2002]

(h) The minimum annuities provided under this Section shall be paid in equal monthly installments.

(i) The amendatory provisions of part (b) and (g) of this Section shall be effective July 1, 1971 and apply in the case of every qualifying employee withdrawing on or after July 1, 1971.

(j) The amendatory provisions of this amendatory Act of 1985 (P.A. 84-23) relating to the discount of annuity because of retirement prior to attainment of age 60, and to the retirement formula, for those born before January 1, 1936, shall apply only to qualifying employees withdrawing on or after July 18, 1985.

(j-1) The changes made to this Section by this amendatory Act of the 92nd General Assembly (increasing the retirement formula to 2.4% per year of service and increasing the maximum to 80%) apply to persons who withdraw from service on or after January 1, 2002, regardless of whether that withdrawal takes place before the effective date of this amendatory Act. In the case of a person who withdraws from service on or after January 1, 2002 but begins to receive a retirement annuity before the effective date of this amendatory Act, the annuity shall be recalculated, with the increase resulting from this amendatory Act accruing from the date the retirement annuity began.

(k) Beginning on January 1, 1999, the minimum amount of employee's annuity shall be \$850 per month for life for the following classes of employees, without regard to the fact that withdrawal occurred prior to the effective date of this amendatory Act of 1998:

(1) any employee annuitant alive and receiving a life annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(2) any employee annuitant alive and receiving a term annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(3) any employee annuitant alive and receiving a reciprocal annuity on the effective date of this amendatory Act of 1998, whose service in this fund is at least 5 years;

(4) any employee annuitant withdrawing after age 60 on or after the effective date of this amendatory Act of 1998, with at least 10 years of service in this fund.

The increases granted under items (1), (2) and (3) of this subsection (k) shall not be limited by any other Section of this Act. (Source: P.A. 90-32, eff. 6-27-97; 90-511, eff. 8-22-97; 90-766, eff. 8-14-98.)

(40 ILCS 5/11-134) (from Ch. 108 1/2, par. 11-134)

Sec. 11-134. Minimum annuities.

(a) An employee whose withdrawal occurs after July 1, 1957 at age 60 or over, with 20 or more years of service, (as service is defined or computed in Section 11-216), for whom the age and service and prior service annuity combined is less than the amount stated in this Section, shall, from and after the date of withdrawal, in lieu of all annuities otherwise provided in this Article, be entitled to receive an annuity for life of an amount equal to 1 2/3% for each year of service, of the highest average annual salary for any 5 consecutive years within the last 10 years of service immediately preceding the date of withdrawal; provided, that in the case of any employee who withdraws on or after July 1, 1971, such employee age 60 or over with 20 or more years of service, shall be entitled to instead receive an annuity for life equal to 1.67% for each of the first 10 years of service; 1.90% for each of the next 10 years of service; 2.10% for each year of service in excess of 20 but not exceeding 30; and 2.30% for each year of service in excess of 30, based on the highest average annual salary for any 4 consecutive

[June 2, 2002]

years within the last 10 years of service immediately preceding the date of withdrawal.

An employee who withdraws after July 1, 1957 and before January 1, 1988, with 20 or more years of service, before age 60, shall be entitled to an annuity, to begin not earlier than age 55, if under such age at withdrawal, as computed in the last preceding paragraph, reduced 0.25% if the employee was born before January 1, 1936, or 0.5% if the employee was born on or after January 1, 1936, for each full month or fractional part thereof that his attained age when such annuity is to begin is less than 60.

Any employee born before January 1, 1936 who withdraws with 20 or more years of service, and any employee with 20 or more years of service who withdraws on or after January 1, 1988, may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 1.80% for each of the first 10 years of service, 2.00% for each of the next 10 years of service, 2.20% for each year of service in excess of 20, but not exceeding 30, and 2.40% for each year of service in excess of 30, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attained age of 55 years, if under such age at withdrawal, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60; except that an employee retiring on or after January 1, 1988, at age 55 or over but less than age 60, having at least 35 years of service, or an employee retiring on or after July 1, 1990, at age 55 or over but less than age 60, having at least 30 years of service, or an employee retiring on or after the effective date of this amendatory Act of 1997, at age 55 or over but less than age 60, having at least 25 years of service, shall not be subject to the reduction in retirement annuity because of retirement below age 60.

However, in the case of an employee who retired on or after January 1, 1985 but before January 1, 1988, at age 55 or older and with at least 35 years of service, and who was subject under this subsection (a) to the reduction in retirement annuity because of retirement below age 60, that reduction shall cease to be effective January 1, 1991, and the retirement annuity shall be recalculated accordingly.

Any employee who withdraws on or after July 1, 1990, with 20 or more years of service, may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 2.20% for each year of service if withdrawal is before January 1, 2002, or 2.40% for each year of service if withdrawal is on or after January 1, 2002, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attained age of 55 years, if under such age at withdrawal, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60; except that an employee retiring at age 55 or over but less than age 60, having at least 30 years of service, shall not be subject to the reduction in retirement annuity because of retirement below age 60.

Any employee who withdraws on or after the effective date of this amendatory Act of 1997 with 20 or more years of service may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 2.20%, for each year of service if withdrawal is before January 1, 2002, or 2.40% for each year of service if withdrawal is on or after January 1, 2002, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to

[June 2, 2002]

begin not earlier than upon attainment of age 55 (age 50 if the employee has at least 30 years of service), reduced 0.25% for each full month or remaining fractional part thereof that the employee's attained age when annuity is to begin is less than 60; except that an employee retiring at age 50 or over with at least 30 years of service or at age 55 or over with at least 25 years of service shall not be subject to the reduction in retirement annuity because of retirement below age 60.

The maximum annuity payable under this paragraph (a) of this Section shall not exceed 70% of highest average annual salary in the case of an employee who withdraws prior to July 1, 1971, 75% if withdrawal takes place on or after July 1, 1971 and prior to January 1, 2002, or 80% if withdrawal is on or after January 1, 2002. For the purpose of the minimum annuity provided in said paragraphs \$1,500 shall be considered the minimum annual salary for any year; and the maximum annual salary to be considered for the computation of such annuity shall be \$4,800 for any year prior to 1953, \$6,000 for the years 1953 to 1956, inclusive, and the actual annual salary, as salary is defined in this Article, for any year thereafter.

(b) For an employee receiving disability benefit, his salary for annuity purposes under this Section shall, for all periods of disability benefit subsequent to the year 1956, be the amount on which his disability benefit was based.

(c) An employee with 20 or more years of service, whose entire disability benefit credit period expires prior to attainment of age 55 while still disabled for service, shall be entitled upon withdrawal to the larger of (1) the minimum annuity provided above assuming that he is then age 55, and reducing such annuity to its actuarial equivalent at his attained age on such date, or (2) the annuity provided from his age and service and prior service annuity credits.

(d) The minimum annuity provisions as aforesaid shall not apply to any former employee receiving an annuity from the fund, and who re-enters service as an employee, unless he renders at least 3 years of additional service after the date of re-entry.

(e) An employee in service on July 1, 1947, or who became a contributor after July 1, 1947 and prior to July 1, 1950, or who shall become a contributor to the fund after July 1, 1950 prior to attainment of age 70, who withdraws after age 65 with less than 20 years of service, for whom the annuity has been fixed under the foregoing Sections of this Article shall, in lieu of the annuity so fixed, receive an annuity as follows:

Such amount as he could have received had the accumulated amounts for annuity been improved with interest at the effective rate to the date of his withdrawal, or to attainment of age 70, whichever is earlier, and had the city contributed to such earlier date for age and service annuity the amount that would have been contributed had he been under age 65, after the date his annuity was fixed in accordance with this Article, and assuming his annuity were computed from such accumulations as of his age on such earlier date. The annuity so computed shall not exceed the annuity which would be payable under the other provisions of this Section if the employee was credited with 20 years of service and would qualify for annuity thereunder.

(f) In lieu of the annuity provided in this or in any other Section of this Article, an employee having attained age 65 with at least 15 years of service who withdraws from service on or after July 1, 1971 and whose annuity computed under other provisions of this Article is less than the amount provided under this paragraph shall be entitled to receive a minimum annual annuity for life equal to 1%

[June 2, 2002]

of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding retirement for each year of his service plus the sum of \$25 for each year of service. Such annual annuity shall not exceed the maximum percentages stated under paragraph (a) of this Section of such highest average annual salary.

(f-1) Instead of any other retirement annuity provided in this Article, an employee who has at least 10 years of service and withdraws from service on or after January 1, 1999 may elect to receive a retirement annuity for life, beginning no earlier than upon attainment of age 60, equal to 2.2% if withdrawal is before January 1, 2002, or 2.4% for each year of service if withdrawal is on or after January 1, 2002, of final average salary for each year of service, subject to a maximum of 75% of final average salary if withdrawal is before January 1, 2002, or 80% if withdrawal is on or after January 1, 2002. For the purpose of calculating this annuity, "final average salary" means the highest average annual salary for any 4 consecutive years in the last 10 years of service.

(g) Any annuity payable under the preceding subsections of this Section 11-134 shall be paid in equal monthly installments.

(h) The amendatory provisions of part (a) and (f) of this Section shall be effective July 1, 1971 and apply in the case of every qualifying employee withdrawing on or after July 1, 1971.

(h-1) The changes made to this Section by this amendatory Act of the 92nd General Assembly (increasing the retirement formula to 2.4% per year of service and increasing the maximum to 80%) apply to persons who withdraw from service on or after January 1, 2002, regardless of whether that withdrawal takes place before the effective date of this amendatory Act. In the case of a person who withdraws from service on or after January 1, 2002 but begins to receive a retirement annuity before the effective date of this amendatory Act, the annuity shall be recalculated, with the increase resulting from this amendatory Act accruing from the date the retirement annuity began.

(i) The amendatory provisions of this amendatory Act of 1985 relating to the discount of annuity because of retirement prior to attainment of age 60 and increasing the retirement formula for those born before January 1, 1936, shall apply only to qualifying employees withdrawing on or after August 16, 1985.

(j) Beginning on January 1, 1999, the minimum amount of employee's annuity shall be \$850 per month for life for the following classes of employees, without regard to the fact that withdrawal occurred prior to the effective date of this amendatory Act of 1998:

(1) any employee annuitant alive and receiving a life annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(2) any employee annuitant alive and receiving a term annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(3) any employee annuitant alive and receiving a reciprocal annuity on the effective date of this amendatory Act of 1998, whose service in this fund is at least 5 years;

(4) any employee annuitant withdrawing after age 60 on or after the effective date of this amendatory Act of 1998, with at least 10 years of service in this fund.

The increases granted under items (1), (2) and (3) of this subsection (j) shall not be limited by any other Section of this Act. (Source: P.A. 90-32, eff. 6-27-97; 90-511, eff. 8-22-97; 90-766, eff. 8-14-98.)

Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%. Beginning January, 1984, such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article. An employee who retires on annuity after December 31, 1963 and before January 1, 1987, but prior to age 60, shall receive such increases beginning with January of the year immediately following the year in which he attains the age of 60 years.

An employee who retires from service on or after January 1, 1987 shall, upon the first annuity payment date following the first anniversary of the date of retirement, or upon the first annuity payment date following attainment of age 60, whichever occurs later, have his then fixed and payable monthly annuity increased by 3%, and such annuity shall be increased by an additional 3% of the original fixed annuity on the same date each year thereafter. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

(a-5) Notwithstanding the provisions of subsection (a), upon the first annuity payment date following (1) the third anniversary of retirement, (2) the attainment of age 53, or (3) January 1, 2002, whichever occurs latest, the monthly annuity of an employee who retires on annuity prior to the attainment of age 60 and has not received an increase under subsection (a) shall be increased by 3%, and the annuity shall be increased by an additional 3% of the current payable monthly annuity, including any increases previously granted under this Article, on the same date each year thereafter. The increases provided under this subsection are in lieu of the increases provided in subsection (a).

(b) Subsections (a) and (a-5) are ~~The foregoing provision is~~ not applicable to an employee retiring and receiving a term annuity, as defined in this Article, nor to any otherwise qualified employee who retires before he shall have made employee contributions (at the 1/2 of 1% rate as hereinafter provided) for the purposes of this additional annuity for not less than the equivalent of one full year. Such employee, however, shall make arrangement to pay to the fund a balance of such 1/2 of 1% contributions, based on his final salary, as will bring such 1/2 of 1% contributions, computed without interest, to the equivalent of or completion of one year's contributions.

Beginning with the month of January, 1964, each employee shall contribute by means of salary deductions 1/2 of 1% of each salary payment, concurrently with and in addition to the employee contributions otherwise made for annuity purposes.

Each such additional employee contribution shall be credited to an account in the prior service annuity reserve, to be used, together with city contributions, to defray the cost of the specified annuity increments. Any balance as of the beginning of each calendar year existing in such account shall be credited with interest at the rate of 3% per annum.

[June 2, 2002]

Such employee contributions shall not be subject to refund, except to an employee who resigns or is discharged and applies for refund under this Article, and also in cases where a term annuity becomes payable.

In such cases the employee contributions shall be refunded him, without interest, and charged to the aforementioned account in the prior service annuity reserve.

Mr. President -- I am directed to inform the Senate that the House of Representatives has adopted the following conference committee report:

First Conference Committee Report to SENATE BILL NO. 1983

Adopted by the House, June 2, 2002, by a three-fifths vote.

ANTHONY D. ROSSI, Clerk of the House

92ND GENERAL ASSEMBLY
 FIRST CONFERENCE COMMITTEE REPORT
 ON SENATE BILL 1983

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendments Nos. 1 and 2 to Senate Bill 1983, recommend the following:

(1) that the Senate concur in House Amendments Nos. 1 and 2; and
 (2) that Senate Bill 1983, AS AMENDED, be further amended as follows:

[June 2, 2002]

in Section 5, in the introductory clause, by replacing "and 14C-4" with "14C-4, and 18-8.05"; and in Section 5, immediately below the end of Sec. 14C-4, by inserting the following:

"(105 ILCS 5/18-8.05)

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9, 18-10, and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating

Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is \$4,225. For the 1999-2000 school year, the Foundation Level of support is \$4,325. For the 2000-2001 school year, the Foundation Level of support is \$4,425.

(3) For the 2001-2002 school year and each school year thereafter, the Foundation Level of support is \$4,560 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per

[June 2, 2002]

pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year 2 years before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation

Level, the general State aid for the school district shall be calculated as the product of \$218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year, except that any days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on the opening and closing of the school term, and upon the first day of pupil attendance, if preceded by a day or days utilized as an institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has

[June 2, 2002]

been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school

[June 2, 2002]

districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the

[June 2, 2002]

equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed \$14,000,000. Claims shall be prorated if they exceed \$14,000,000.

(H) Supplemental General State Aid.

[June 2, 2002]

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district. Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section. For purposes of this subsection, the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 this-amendatory-Act-of-the-92nd General-Assembly shall apply to supplemental general State aid grants paid in fiscal year 1999 and in each fiscal year thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by Public Act 92-28 this-amendatory-Act-of-the-92nd General-Assembly is entitled to a recomputation of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:

(a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be \$800 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be \$1,100 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for the 1998-99 school year shall be \$1,500 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of 60% or more, the grant for the 1998-99 school year shall be \$1,900 multiplied by the low income eligible pupil count.

(e) For the 1999-2000 school year, the per pupil amount specified in subparagraphs (b), (c), and (d) immediately above shall be increased to \$1,243, \$1,600, and \$2,000, respectively.

[June 2, 2002]

(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be \$1,273, \$1,640, and \$2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 ~~2001-2002~~ school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be \$355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant for each school year shall be \$675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be \$1,330 ~~\$1,190~~ multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be \$1,362 ~~\$1,333~~ multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be \$1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be \$2,080 multiplied by the low income eligible pupil count.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than \$261,000,000 in accordance with the following requirements:

(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general

State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the

[June 2, 2002]

remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

(I) General State Aid for Newly Configured School Districts.

(1) For a new school district formed by combining property included totally within 2 or more previously existing school districts, for its first year of existence the general State aid and supplemental general State aid calculated under this Section shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district which annexes all of the territory of one or more entire other school districts, for the first year during which the change of boundaries attributable to such annexation becomes effective for all purposes as determined under Section 7-9 or 7A-8, the general State aid and supplemental general State aid calculated under this Section shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon such annexation.

(3) For 2 or more school districts which annex all of the territory of one or more entire other school districts, and for 2 or more community unit districts which result upon the division (pursuant to petition under Section 11A-2) of one or more other unit school districts into 2 or more parts and which together include all of the parts into which such other unit school district or districts are so divided, for the first year during which the change of boundaries attributable to such annexation or division becomes effective for all purposes as determined under Section 7-9 or 11A-10, as the case may be, the general State aid and supplemental general State aid calculated under this Section shall be computed for each annexing or resulting district as constituted after the annexation or division and for each annexing and annexed district, or for each resulting and divided district, as constituted prior to the annexation or division; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing or resulting districts as constituted after the annexation or division is less than the aggregate of the general State aid and supplemental general State aid as so computed for the annexing and annexed districts, or for the resulting and divided districts, as constituted prior to the annexation or division, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing or resulting districts, as constituted upon such annexation or division, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing or resulting districts in the same ratio as the pupil

[June 2, 2002]

enrollment from that portion of the annexed or divided district or districts which is annexed to or included in each such annexing or resulting district bears to the total pupil enrollment from the entire annexed or divided district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation or division becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing or resulting districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data which shall be certified to the State Board of Education, on forms which it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts, or resulting and divided districts are located.

(3.5) Claims for financial assistance under this subsection (I) shall not be recomputed except as expressly provided under this Section.

(4) Any supplementary payment made under this subsection (I) shall be treated as separate from all other payments made pursuant to this Section.

(J) Supplementary Grants in Aid.

(1) Notwithstanding any other provisions of this Section, the amount of the aggregate general State aid in combination with supplemental general State aid under this Section for which each school district is eligible shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-98 school year, pursuant to the provisions of that Section as it was then in effect. If a school district qualifies to receive a supplementary payment made under this subsection (J), the amount of the aggregate general State aid in combination with supplemental general State aid under this Section which that district is eligible to receive for each school year shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-1998 school year, pursuant to the provisions of that Section as it was then in effect.

(2) If, as provided in paragraph (1) of this subsection (J), a school district is to receive aggregate general State aid in combination with supplemental general State aid under this Section for the 1998-99 school year and any subsequent school year that in any such school year is less than the amount of the aggregate general State aid entitlement that the district received for the 1997-98 school year, the school district shall also receive, from a separate appropriation made for purposes of this subsection (J), a supplementary payment that is equal to the amount of the difference in the aggregate State aid figures as described in paragraph (1).

(3) (Blank).

(K) Grants to Laboratory and Alternative Schools.

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State Board under this subsection (K) may not increase the number of students enrolled

[June 2, 2002]

in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

(2) (Blank).

(3) Summer school. Summer school payments shall be made as provided in Section 18-4.3.

(M) Education Funding Advisory Board.

The Education Funding Advisory Board, hereinafter in this subsection (M) referred to as the "Board", is hereby created. The Board shall consist of 5 members who are appointed by the Governor, by and with the advice and consent of the Senate. The members appointed shall include representatives of education, business, and the general public. One of the members so appointed shall be designated by the Governor at the time the appointment is made as the chairperson of the Board. The initial members of the Board may be appointed any time after the effective date of this amendatory Act of 1997. The regular term of each member of the Board shall be for 4 years from the third Monday of January of the year in which the term of the member's appointment is to commence, except that of the 5 initial members appointed to serve on the Board, the member who is appointed as the chairperson shall serve for a term that commences on the date of his or her appointment and expires on the third Monday of

[June 2, 2002]

January, 2002, and the remaining 4 members, by lots drawn at the first meeting of the Board that is held after all 5 members are appointed, shall determine 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2001, and 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2000. All members appointed to serve on the Board shall serve until their respective successors are appointed and confirmed. Vacancies shall be filled in the same manner as original appointments. If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The State Board of Education shall provide such staff assistance to the Education Funding Advisory Board as is reasonably required for the proper performance by the Board of its responsibilities.

For school years after the 2000-2001 school year, the Education Funding Advisory Board, in consultation with the State Board of Education, shall make recommendations as provided in this subsection (M) to the General Assembly for the foundation level under subdivision (B)(3) of this Section and for the supplemental general State aid grant level under subsection (H) of this Section for districts with high concentrations of children from poverty. The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

(N) (Blank).

(O) References.

(1) References in other laws to the various subdivisions of Section 18-8 as that Section existed before its repeal and replacement by this Section 18-8.05 shall be deemed to refer to the corresponding provisions of this Section 18-8.05, to the extent that those references remain applicable.

(2) References in other laws to State Chapter 1 funds shall be deemed to refer to the supplemental general State aid provided under subsection (H) of this Section.

HOUSE BILL RECALLED

On motion of Senator Philip, House Bill No. 4605 was recalled from the order of third reading to the order of second reading.

Senator Weaver offered the following amendment and moved its adoption:

AMENDMENT NO. 1

AMENDMENT NO. 1. Amend House Bill 4605 by replacing everything after the enacting clause with the following:

"Section 3. The Illinois Horse Racing Act of 1975 is amended by adding Section 34.2 as follows:

(230 ILCS 5/34.2 new)

Sec. 34.2. Racetrack consolidation.

(a) Findings. The General Assembly finds that encouraging organization licensees to consolidate will be beneficial to the horse racing industry. The General Assembly declares it to be the public policy of this State to enhance the viability of the horse racing industry by encouraging organization licensees to consolidate and not be penalized or lose any rights, benefits, or powers by reason of such consolidation.

(b) Consolidation. Notwithstanding any provision of this Act to the contrary, if 2 or more existing organization licensees consolidate into a single organization licensee or otherwise form a joint venture, corporation, limited liability company, or similar consolidated enterprise (consolidated organization licensee) whereby the consolidated organization licensee makes application or joint application, as the case may be, as a single organization licensee, or such existing licensees, after consolidation, make separate applications in the names of such pre-existing licensees, the newly

[June 2, 2002]

consolidated organization licensee or each such separate pre-existing licensee shall thereafter retain and be entitled to all of the rights, benefits, and powers under this Act that would have otherwise accrued to each such individual pre-consolidation organization licensee but for such consolidation, regardless of whether all or a portion of the facilities of a pre-consolidation licensee are sold, transferred, or otherwise cease to be utilized by the newly consolidated organization licensee or either of the pre-existing licensees. Such multiple rights, benefits, and powers shall include, but not be limited to:

(1) the authority to make application for and receive, within the discretion of the Board, racing dates, including host track days, in the same manner as the individual pre-consolidation organization licensees and the racetracks from which the organization licensees derive their licenses;

(2) the right to retain the existing inter-track wagering licenses and inter-track wagering location licenses of the individual pre-consolidation organization licensees and the racetracks from which the organization licensees derive their licenses, and the authority to make application for future inter-track wagering licenses and inter-track wagering location licenses in the same manner as each individual pre-consolidation organization licensee and the racetracks from which each pre-consolidation organization licensee derives its license, had or has in its own right;

(3) the right to receive the benefits under paragraph (13) of subsection (g) of Section 26 and Section 54 of this Act in the same manner as the individual pre-consolidation organization licensees and the racetracks from which the organization licensees derive their licenses each had or has in its own right;
and

(4) all existing and future rights, benefits, and powers that the individual pre-consolidation organization licensees and the racetracks from which the organization licensees derive their licenses would have had or received but for the consolidation.

The newly consolidated organization licensee shall be subject to such taxation and fees as other similarly situated organization licensees.

(c) Pari-mutuel tax credit. If 2 or more organization licensees and the racetracks from which the organization licensees derive their licenses consolidate pursuant to this Section, the consolidated organization licensee or separate pre-consolidation licensees shall have 6 months to decide whether it or they will continue to receive the entire pari-mutuel tax credit under Section 32.1 that the organization licensees and the racetracks from which the organization licensees derive their licenses would have been entitled to if they had not consolidated. Once made, this decision is irrevocable.

To retain the entire pari-mutuel tax credit, the consolidated organization licensee and the racetracks from which the consolidated organization licensee derives its licenses or separate pre-existing licensees must conduct activities authorized under this Act at some or all of the facilities that were operated by the organization licensees prior to the consolidation.

If a consolidated organization licensee or separate pre-existing licensee that elects to retain the entire pari-mutuel tax credit does not conduct any activity authorized under this Act at any of the facilities that belonged to one of the organization licensees that consolidated under this Section in a calendar year, the consolidated organization licensee or separate pre-existing licensee shall not receive the pari-mutuel tax credit for those facilities at which no

operations authorized by this Act are conducted in that calendar year nor in any year thereafter.

Notwithstanding any provision in subsection (b) to the contrary, if 2 or more organization licensees consolidate pursuant to this Section and do not use any portion of the facilities of a pre-consolidation organization licensee, the consolidated organization licensee shall receive the pari-mutuel tax credit for the facilities of that pre-consolidation organization licensee only until December 31st of the second full calendar year following consolidation as to tax bills payable during such years.

The motion prevailed and the amendment was adopted and ordered printed.

And House Bill No. 4605, as amended, was returned to the order of third reading.

Mr. President

The motion prevailed.

And the Senate adopted the Report of the First Conference Committee on House Bill No. 1006, by a three-fifths vote.

Ordered that the Secretary inform the House of Representatives thereof.

Senator Cronin, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on House Amendment No. 1 to Senate Bill No. 314, submitted the following Report of the First Conference Committee and moved its adoption:

92ND GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON SENATE BILL 314

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 314, recommend the following:

- (1) That the House recede from House Amendment No. 1; and
- (2) That Senate Bill 314 be amended as follows:

by replacing the title with the following:

"AN ACT in relation to public employee benefits."; and

by replacing everything after the enacting clause with the following:
"Section 5. The Illinois Pension Code is amended by changing Sections 8-137, 8-138, 11-134, and 11-134.1 as follows:

(40 ILCS 5/8-137) (from Ch. 108 1/2, par. 8-137)

Sec. 8-137. Automatic increase in annuity.

(a) An employee who retired or retires from service after December 31, 1959 and before January 1, 1987, having attained age 60 or more, shall, in January of the year after the year in which the first anniversary of retirement occurs, have the amount of his then fixed and payable monthly annuity increased by 1 1/2%, and such first fixed annuity as granted at retirement increased by a further 1 1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%, and beginning with January of the year 1984 such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article. An employee who retires on annuity after December 31, 1959 and before January 1, 1987, but before age 60, shall receive such increases beginning in January of the year after the year in which he attains age 60.

An employee who retires from service on or after January 1, 1987 shall, upon the first annuity payment date following the first anniversary of the date of retirement, or upon the first annuity payment date following attainment of age 60, whichever occurs later, have his then fixed and payable monthly annuity increased by 3%, and such annuity shall be increased by an additional 3% of the original fixed annuity on the same date each year thereafter. Beginning in January of 1999, such increases shall be at the rate of 3% of the

[June 2, 2002]

currently payable monthly annuity, including any increases previously granted under this Article.

(a-5) Notwithstanding the provisions of subsection (a), upon the first annuity payment date following (1) the third anniversary of retirement, (2) the attainment of age 53, or (3) January 1, 2002, whichever occurs latest, the monthly annuity of an employee who retires on annuity prior to the attainment of age 60 and has not received an increase under subsection (a) shall be increased by 3%, and the annuity shall be increased by an additional 3% of the current payable monthly annuity, including any increases previously granted under this Article, on the same date each year thereafter. The increases provided under this subsection are in lieu of the increases provided in subsection (a).

~~(b) Subsections (a) and (a-5) are~~ The foregoing provision is not applicable to an employee retiring and receiving a term annuity, as herein defined, nor to any otherwise qualified employee who retires before he makes employee contributions (at the 1/2 of 1% rate as provided in this Act) for this additional annuity for not less than the equivalent of one full year. Such employee, however, shall make arrangement to pay to the fund a balance of such 1/2 of 1% contributions, based on his final salary, as will bring such 1/2 of 1% contributions, computed without interest, to the equivalent of or completion of one year's contributions.

Beginning with January, 1960, each employee shall contribute by means of salary deductions 1/2 of 1% of each salary payment, concurrently with and in addition to the employee contributions otherwise made for annuity purposes.

Each such additional contribution shall be credited to an account in the prior service annuity reserve, to be used, together with city contributions, to defray the cost of the specified annuity increments. Any balance in such account at the beginning of each calendar year shall be credited with interest at the rate of 3% per annum.

Such additional employee contributions are not refundable, except to an employee who withdraws and applies for refund under this Article, and in cases where a term annuity becomes payable. In such cases his contributions shall be refunded, without interest, and charged to such account in the prior service annuity reserve. (Source: P.A. 90-766, eff. 8-14-98.)

(40 ILCS 5/8-138) (from Ch. 108 1/2, par. 8-138)

Sec. 8-138. Minimum annuities - Additional provisions.

(a) An employee who withdraws after age 65 or more with at least 20 years of service, for whom the amount of age and service and prior service annuity combined is less than the amount stated in this Section, shall from the date of withdrawal, instead of all annuities otherwise provided, be entitled to receive an annuity for life of \$150 a year, plus 1 1/2% for each year of service, to and including 20 years, and 1 2/3% for each year of service over 20 years, of his highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal.

An employee who withdraws after 20 or more years of service, before age 65, shall be entitled to such annuity, to begin not earlier than upon attained age of 55 years if under such age at withdrawal, reduced by 2% for each full year or fractional part thereof that his attained age is less than 65, plus an additional 2% reduction for each full year or fractional part thereof that his attained age when annuity is to begin is less than 60 so that the total reduction at age 55 shall be 30%.

(b) An employee who withdraws after July 1, 1957, at age 60 or

[June 2, 2002]

over, with 20 or more years of service, for whom the age and service and prior service annuity combined, is less than the amount stated in this paragraph, shall, from the date of withdrawal, instead of such annuities, be entitled to receive an annuity for life equal to 1 2/3% for each year of service, of the highest average annual salary for any 5 consecutive years within the last 10 years of service immediately preceding the date of withdrawal; provided, that in the case of any employee who withdraws on or after July 1, 1971, such employee age 60 or over with 20 or more years of service, shall receive an annuity for life equal to 1.67% for each of the first 10 years of service; 1.90% for each of the next 10 years of service; 2.10% for each year of service in excess of 20 but not exceeding 30; and 2.30% for each year of service in excess of 30, based on the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal.

An employee who withdraws after July 1, 1957 and before January 1, 1988, with 20 or more years of service, before age 60 years is entitled to annuity, to begin not earlier than upon attained age of 55 years, if under such age at withdrawal, as computed in the last preceding paragraph, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60 if the employee was born before January 1, 1936, or 0.5% for each such month if the employee was born on or after January 1, 1936.

Any employee born before January 1, 1936, who withdraws with 20 or more years of service, and any employee with 20 or more years of service who withdraws on or after January 1, 1988, may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 1.80% for each of the first 10 years of service, 2.00% for each of the next 10 years of service, 2.20% for each year of service in excess of 20 but not exceeding 30, and 2.40% for each year of service in excess of 30, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attained age of 55 years, if under such age at withdrawal, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60; except that an employee retiring on or after January 1, 1988, at age 55 or over but less than age 60, having at least 35 years of service, or an employee retiring on or after July 1, 1990, at age 55 or over but less than age 60, having at least 30 years of service, or an employee retiring on or after the effective date of this amendatory Act of 1997, at age 55 or over but less than age 60, having at least 25 years of service, shall not be subject to the reduction in retirement annuity because of retirement below age 60.

However, in the case of an employee who retired on or after January 1, 1985 but before January 1, 1988, at age 55 or older and with at least 35 years of service, and who was subject under this subsection (b) to the reduction in retirement annuity because of retirement below age 60, that reduction shall cease to be effective January 1, 1991, and the retirement annuity shall be recalculated accordingly.

Any employee who withdraws on or after July 1, 1990, with 20 or more years of service, may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 2.20% for each year of service if withdrawal is before January 1, 2002, or 2.40% for each year of service if withdrawal is on or after January 1, 2002, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon

[June 2, 2002]

attained age of 55 years, if under such age at withdrawal, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60; except that an employee retiring at age 55 or over but less than age 60, having at least 30 years of service, shall not be subject to the reduction in retirement annuity because of retirement below age 60.

Any employee who withdraws on or after the effective date of this amendatory Act of 1997 with 20 or more years of service may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 2.20% for each year of service, if withdrawal is before January 1, 2002, or 2.40% for each year of service if withdrawal is on or after January 1, 2002, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attainment of age 55 (age 50 if the employee has at least 30 years of service), reduced 0.25% for each full month or remaining fractional part thereof that the employee's attained age when annuity is to begin is less than 60; except that an employee retiring at age 50 or over with at least 30 years of service or at age 55 or over with at least 25 years of service shall not be subject to the reduction in retirement annuity because of retirement below age 60.

The maximum annuity payable under part (a) and (b) of this Section shall not exceed 70% of highest average annual salary in the case of an employee who withdraws prior to July 1, 1971, and 75% if withdrawal takes place on or after July 1, 1971 and prior to January 1, 2002, or 80% if withdrawal takes place on or after January 1, 2002. For the purpose of the minimum annuity provided in this Section \$1,500 is considered the minimum annual salary for any year; and the maximum annual salary for the computation of such annuity is \$4,800 for any year before 1953, \$6000 for the years 1953 to 1956, inclusive, and the actual annual salary, as salary is defined in this Article, for any year thereafter.

To preserve rights existing on December 31, 1959, for participants and contributors on that date to the fund created by the Court and Law Department Employees' Annuity Act, who became participants in the fund provided for on January 1, 1960, the maximum annual salary to be considered for such persons for the years 1955 and 1956 is \$7,500.

(c) For an employee receiving disability benefit, his salary for annuity purposes under paragraphs (a) and (b) of this Section, for all periods of disability benefit subsequent to the year 1956, is the amount on which his disability benefit was based.

(d) An employee with 20 or more years of service, whose entire disability benefit credit period expires before attainment of age 55 while still disabled for service, is entitled upon withdrawal to the larger of (1) the minimum annuity provided above, assuming he is then age 55, and reducing such annuity to its actuarial equivalent as of his attained age on such date or (2) the annuity provided from his age and service and prior service annuity credits.

(e) The minimum annuity provisions do not apply to any former municipal employee receiving an annuity from the fund who re-enters service as a municipal employee, unless he renders at least 3 years of additional service after the date of re-entry.

(f) An employee in service on July 1, 1947, or who became a contributor after July 1, 1947 and before attainment of age 70, who withdraws after age 65, with less than 20 years of service for whom the annuity has been fixed under this Article shall, instead of the annuity so fixed, receive an annuity as follows:

Such amount as he could have received had the accumulated amounts

[June 2, 2002]

for annuity been improved with interest at the effective rate to the date of his withdrawal, or to attainment of age 70, whichever is earlier, and had the city contributed to such earlier date for age and service annuity the amount that it would have contributed had he been under age 65, after the date his annuity was fixed in accordance with this Article, and assuming his annuity were computed from such accumulations as of his age on such earlier date. The annuity so computed shall not exceed the annuity which would be payable under the other provisions of this Section if the employee was credited with 20 years of service and would qualify for annuity thereunder.

(g) Instead of the annuity provided in this Article, an employee having attained age 65 with at least 15 years of service who withdraws from service on or after July 1, 1971 and whose annuity computed under other provisions of this Article is less than the amount provided under this paragraph, is entitled to a minimum annuity for life equal to 1% of the highest average annual salary, as salary is defined and limited in this Section for any 4 consecutive years within the last 10 years of service for each year of service, plus the sum of \$25 for each year of service. The annuity shall not exceed 60% of such highest average annual salary.

(g-1) Instead of any other retirement annuity provided in this Article, an employee who has at least 10 years of service and withdraws from service on or after January 1, 1999 may elect to receive a retirement annuity for life, beginning no earlier than upon attainment of age 60, equal to 2.2% if withdrawal is before January 1, 2002, or 2.4% if withdrawal is on or after January 1, 2002, of final average salary for each year of service, subject to a maximum of 75% of final average salary if withdrawal is before January 1, 2002, or 80% if withdrawal is on or after January 1, 2002. For the purpose of calculating this annuity, "final average salary" means the highest average annual salary for any 4 consecutive years in the last 10 years of service.

(h) The minimum annuities provided under this Section shall be paid in equal monthly installments.

(i) The amendatory provisions of part (b) and (g) of this Section shall be effective July 1, 1971 and apply in the case of every qualifying employee withdrawing on or after July 1, 1971.

(j) The amendatory provisions of this amendatory Act of 1985 (P.A. 84-23) relating to the discount of annuity because of retirement prior to attainment of age 60, and to the retirement formula, for those born before January 1, 1936, shall apply only to qualifying employees withdrawing on or after July 18, 1985.

(j-1) The changes made to this Section by this amendatory Act of the 92nd General Assembly (increasing the retirement formula to 2.4% per year of service and increasing the maximum to 80%) apply to persons who withdraw from service on or after January 1, 2002, regardless of whether that withdrawal takes place before the effective date of this amendatory Act. In the case of a person who withdraws from service on or after January 1, 2002 but begins to receive a retirement annuity before the effective date of this amendatory Act, the annuity shall be recalculated, with the increase resulting from this amendatory Act accruing from the date the retirement annuity began.

(k) Beginning on January 1, 1999, the minimum amount of employee's annuity shall be \$850 per month for life for the following classes of employees, without regard to the fact that withdrawal occurred prior to the effective date of this amendatory Act of 1998:

- (1) any employee annuitant alive and receiving a life annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

[June 2, 2002]

(2) any employee annuitant alive and receiving a term annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(3) any employee annuitant alive and receiving a reciprocal annuity on the effective date of this amendatory Act of 1998, whose service in this fund is at least 5 years;

(4) any employee annuitant withdrawing after age 60 on or after the effective date of this amendatory Act of 1998, with at least 10 years of service in this fund.

The increases granted under items (1), (2) and (3) of this subsection (k) shall not be limited by any other Section of this Act. (Source: P.A. 90-32, eff. 6-27-97; 90-511, eff. 8-22-97; 90-766, eff. 8-14-98.)

(40 ILCS 5/11-134) (from Ch. 108 1/2, par. 11-134)

Sec. 11-134. Minimum annuities.

(a) An employee whose withdrawal occurs after July 1, 1957 at age 60 or over, with 20 or more years of service, (as service is defined or computed in Section 11-216), for whom the age and service and prior service annuity combined is less than the amount stated in this Section, shall, from and after the date of withdrawal, in lieu of all annuities otherwise provided in this Article, be entitled to receive an annuity for life of an amount equal to 1 2/3% for each year of service, of the highest average annual salary for any 5 consecutive years within the last 10 years of service immediately preceding the date of withdrawal; provided, that in the case of any employee who withdraws on or after July 1, 1971, such employee age 60 or over with 20 or more years of service, shall be entitled to instead receive an annuity for life equal to 1.67% for each of the first 10 years of service; 1.90% for each of the next 10 years of service; 2.10% for each year of service in excess of 20 but not exceeding 30; and 2.30% for each year of service in excess of 30, based on the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal.

An employee who withdraws after July 1, 1957 and before January 1, 1988, with 20 or more years of service, before age 60, shall be entitled to an annuity, to begin not earlier than age 55, if under such age at withdrawal, as computed in the last preceding paragraph, reduced 0.25% if the employee was born before January 1, 1936, or 0.5% if the employee was born on or after January 1, 1936, for each full month or fractional part thereof that his attained age when such annuity is to begin is less than 60.

Any employee born before January 1, 1936 who withdraws with 20 or more years of service, and any employee with 20 or more years of service who withdraws on or after January 1, 1988, may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 1.80% for each of the first 10 years of service, 2.00% for each of the next 10 years of service, 2.20% for each year of service in excess of 20, but not exceeding 30, and 2.40% for each year of service in excess of 30, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attained age of 55 years, if under such age at withdrawal, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60; except that an employee retiring on or after January 1, 1988, at age 55 or over but less than age 60, having at least 35 years of service, or an employee retiring on or after July 1, 1990, at age 55 or over but less than age 60, having at least 30 years of service, or an employee retiring on or after the effective date of

[June 2, 2002]

this amendatory Act of 1997, at age 55 or over but less than age 60, having at least 25 years of service, shall not be subject to the reduction in retirement annuity because of retirement below age 60.

However, in the case of an employee who retired on or after January 1, 1985 but before January 1, 1988, at age 55 or older and with at least 35 years of service, and who was subject under this subsection (a) to the reduction in retirement annuity because of retirement below age 60, that reduction shall cease to be effective January 1, 1991, and the retirement annuity shall be recalculated accordingly.

Any employee who withdraws on or after July 1, 1990, with 20 or more years of service, may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 2.20% for each year of service if withdrawal is before January 1, 2002, or 2.40% for each year of service if withdrawal is on or after January 1, 2002, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attained age of 55 years, if under such age at withdrawal, reduced 0.25% for each full month or fractional part thereof that his attained age when annuity is to begin is less than 60; except that an employee retiring at age 55 or over but less than age 60, having at least 30 years of service, shall not be subject to the reduction in retirement annuity because of retirement below age 60.

Any employee who withdraws on or after the effective date of this amendatory Act of 1997 with 20 or more years of service may elect to receive, in lieu of any other employee annuity provided in this Section, an annuity for life equal to 2.20%, for each year of service if withdrawal is before January 1, 2002, or 2.40% for each year of service if withdrawal is on or after January 1, 2002, of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal, to begin not earlier than upon attainment of age 55 (age 50 if the employee has at least 30 years of service), reduced 0.25% for each full month or remaining fractional part thereof that the employee's attained age when annuity is to begin is less than 60; except that an employee retiring at age 50 or over with at least 30 years of service or at age 55 or over with at least 25 years of service shall not be subject to the reduction in retirement annuity because of retirement below age 60.

The maximum annuity payable under this paragraph (a) of this Section shall not exceed 70% of highest average annual salary in the case of an employee who withdraws prior to July 1, 1971, 75% if withdrawal takes place on or after July 1, 1971 and prior to January 1, 2002, or 80% if withdrawal is on or after January 1, 2002. For the purpose of the minimum annuity provided in said paragraphs \$1,500 shall be considered the minimum annual salary for any year; and the maximum annual salary to be considered for the computation of such annuity shall be \$4,800 for any year prior to 1953, \$6,000 for the years 1953 to 1956, inclusive, and the actual annual salary, as salary is defined in this Article, for any year thereafter.

(b) For an employee receiving disability benefit, his salary for annuity purposes under this Section shall, for all periods of disability benefit subsequent to the year 1956, be the amount on which his disability benefit was based.

(c) An employee with 20 or more years of service, whose entire disability benefit credit period expires prior to attainment of age 55 while still disabled for service, shall be entitled upon withdrawal to the larger of (1) the minimum annuity provided above assuming that he is then age 55, and reducing such annuity to its

[June 2, 2002]

actuarial equivalent at his attained age on such date, or (2) the annuity provided from his age and service and prior service annuity credits.

(d) The minimum annuity provisions as aforesaid shall not apply to any former employee receiving an annuity from the fund, and who re-enters service as an employee, unless he renders at least 3 years of additional service after the date of re-entry.

(e) An employee in service on July 1, 1947, or who became a contributor after July 1, 1947 and prior to July 1, 1950, or who shall become a contributor to the fund after July 1, 1950 prior to attainment of age 70, who withdraws after age 65 with less than 20 years of service, for whom the annuity has been fixed under the foregoing Sections of this Article shall, in lieu of the annuity so fixed, receive an annuity as follows:

Such amount as he could have received had the accumulated amounts for annuity been improved with interest at the effective rate to the date of his withdrawal, or to attainment of age 70, whichever is earlier, and had the city contributed to such earlier date for age and service annuity the amount that would have been contributed had he been under age 65, after the date his annuity was fixed in accordance with this Article, and assuming his annuity were computed from such accumulations as of his age on such earlier date. The annuity so computed shall not exceed the annuity which would be payable under the other provisions of this Section if the employee was credited with 20 years of service and would qualify for annuity thereunder.

(f) In lieu of the annuity provided in this or in any other Section of this Article, an employee having attained age 65 with at least 15 years of service who withdraws from service on or after July 1, 1971 and whose annuity computed under other provisions of this Article is less than the amount provided under this paragraph shall be entitled to receive a minimum annual annuity for life equal to 1% of the highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding retirement for each year of his service plus the sum of \$25 for each year of service. Such annual annuity shall not exceed the maximum percentages stated under paragraph (a) of this Section of such highest average annual salary.

(f-1) Instead of any other retirement annuity provided in this Article, an employee who has at least 10 years of service and withdraws from service on or after January 1, 1999 may elect to receive a retirement annuity for life, beginning no earlier than upon attainment of age 60, equal to 2.2% if withdrawal is before January 1, 2002, or 2.4% for each year of service if withdrawal is on or after January 1, 2002, of final average salary for each year of service, subject to a maximum of 75% of final average salary if withdrawal is before January 1, 2002, or 80% if withdrawal is on or after January 1, 2002. For the purpose of calculating this annuity, "final average salary" means the highest average annual salary for any 4 consecutive years in the last 10 years of service.

(g) Any annuity payable under the preceding subsections of this Section 11-134 shall be paid in equal monthly installments.

(h) The amendatory provisions of part (a) and (f) of this Section shall be effective July 1, 1971 and apply in the case of every qualifying employee withdrawing on or after July 1, 1971.

(h-1) The changes made to this Section by this amendatory Act of the 92nd General Assembly (increasing the retirement formula to 2.4% per year of service and increasing the maximum to 80%) apply to persons who withdraw from service on or after January 1, 2002, regardless of whether that withdrawal takes place before the

[June 2, 2002]

effective date of this amendatory Act. In the case of a person who withdraws from service on or after January 1, 2002 but begins to receive a retirement annuity before the effective date of this amendatory Act, the annuity shall be recalculated, with the increase resulting from this amendatory Act accruing from the date the retirement annuity began.

(i) The amendatory provisions of this amendatory Act of 1985 relating to the discount of annuity because of retirement prior to attainment of age 60 and increasing the retirement formula for those born before January 1, 1936, shall apply only to qualifying employees withdrawing on or after August 16, 1985.

(j) Beginning on January 1, 1999, the minimum amount of employee's annuity shall be \$850 per month for life for the following classes of employees, without regard to the fact that withdrawal occurred prior to the effective date of this amendatory Act of 1998:

(1) any employee annuitant alive and receiving a life annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(2) any employee annuitant alive and receiving a term annuity on the effective date of this amendatory Act of 1998, except a reciprocal annuity;

(3) any employee annuitant alive and receiving a reciprocal annuity on the effective date of this amendatory Act of 1998, whose service in this fund is at least 5 years;

(4) any employee annuitant withdrawing after age 60 on or after the effective date of this amendatory Act of 1998, with at least 10 years of service in this fund.

The increases granted under items (1), (2) and (3) of this subsection (j) shall not be limited by any other Section of this Act. (Source: P.A. 90-32, eff. 6-27-97; 90-511, eff. 8-22-97; 90-766, eff. 8-14-98.)

(40 ILCS 5/11-134.1) (from Ch. 108 1/2, par. 11-134.1)

Sec. 11-134.1. Automatic increase in annuity.

(a) An employee who retired or retires from service after December 31, 1963, and before January 1, 1987, having attained age 60 or more, shall, in the month of January of the year following the year in which the first anniversary of retirement occurs, have the amount of his then fixed and payable monthly annuity increased by 1 1/2%, and such first fixed annuity as granted at retirement increased by a further 1 1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%. Beginning January, 1984, such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article. An employee who retires on annuity after December 31, 1963 and before January 1, 1987, but prior to age 60, shall receive such increases beginning with January of the year immediately following the year in which he attains the age of 60 years.

An employee who retires from service on or after January 1, 1987 shall, upon the first annuity payment date following the first anniversary of the date of retirement, or upon the first annuity payment date following attainment of age 60, whichever occurs later, have his then fixed and payable monthly annuity increased by 3%, and such annuity shall be increased by an additional 3% of the original fixed annuity on the same date each year thereafter. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

[June 2, 2002]

(a-5) Notwithstanding the provisions of subsection (a), upon the first annuity payment date following (1) the third anniversary of retirement, (2) the attainment of age 53, or (3) January 1, 2002, whichever occurs latest, the monthly annuity of an employee who retires on annuity prior to the attainment of age 60 and has not received an increase under subsection (a) shall be increased by 3%, and the annuity shall be increased by an additional 3% of the current payable monthly annuity, including any increases previously granted under this Article, on the same date each year thereafter. The increases provided under this subsection are in lieu of the increases provided in subsection (a).

(b) ~~Subsections (a) and (a-5) are~~ ~~The foregoing provision is~~ not applicable to an employee retiring and receiving a term annuity, as defined in this Article, nor to any otherwise qualified employee who retires before he shall have made employee contributions (at the 1/2 of 1% rate as hereinafter provided) for the purposes of this additional annuity for not less than the equivalent of one full year. Such employee, however, shall make arrangement to pay to the fund a balance of such 1/2 of 1% contributions, based on his final salary, as will bring such 1/2 of 1% contributions, computed without interest, to the equivalent of or completion of one year's contributions.

Beginning with the month of January, 1964, each employee shall contribute by means of salary deductions 1/2 of 1% of each salary payment, concurrently with and in addition to the employee contributions otherwise made for annuity purposes.

Each such additional employee contribution shall be credited to an account in the prior service annuity reserve, to be used, together with city contributions, to defray the cost of the specified annuity increments. Any balance as of the beginning of each calendar year existing in such account shall be credited with interest at the rate of 3% per annum.

Such employee contributions shall not be subject to refund, except to an employee who resigns or is discharged and applies for refund under this Article, and also in cases where a term annuity becomes payable.

In such cases the employee contributions shall be refunded him, without interest, and charged to the aforementioned account in the prior service annuity reserve.

Sec. 21. Alternate Fuel Infrastructure Advisory Board. The Governor shall appoint an Alternate Fuel Infrastructure Advisory Board. The Advisory Board shall be chaired by the Director of the Department of Commerce and Community Affairs, who may be represented at all meetings by a designee. Other members appointed by the Governor shall consist of one representative from the ethanol industry, one representative from the natural gas industry, one representative from the auto manufacturing industry, one representative from the liquid petroleum gas industry, one representative from the Agency, one representative from the heavy duty engine manufacturing industry, one representative from Illinois private fleet operators, and one representative of local government from the Chicago nonattainment area.

The Advisory Board shall (1) prepare and recommend to the Department of Commerce and Community Affairs a program implementing Section 31 of this Act; (2) determine criteria and procedures to be followed in awarding grants and review applications for grants under the Alternate Fuel Infrastructure Program; and (3) make recommendations to the Department of Commerce and Community Affairs as to the award of grants under the Alternate Fuel Infrastructure Program.

(415 ILCS 120/30)

Sec. 30. Rebate program. Beginning January 1, 1997, each owner of an alternate fuel vehicle shall be eligible to apply for a rebate. The Agency shall cause rebates to be issued under the provisions of this Act. The Alternate Fuels Advisory Board shall develop and recommend to the Agency rules that provide incentives or other measures to ensure that small fleet operators and owners participate in, and benefit from, the rebate program. Such rules shall define and identify small fleet operators and owners in the covered area and make provisions for the establishment of criteria to ensure that funds from the Alternate Fuels Fund specified in this Act are made readily available to these entities. The Advisory Board shall, in the development of its rebate application review criteria, make provisions for preference to be given to applications proposing a partnership between the fleet operator or owner and a fueling service station to make alternate fuels available to the public. An owner may apply for only one of 3 types of rebates with regard to an

[June 2, 2002]

individual alternate fuel vehicle: (i) a conversion cost rebate, (ii) an OEM differential cost rebate, or (iii) a fuel cost differential rebate. Only one rebate may be issued with regard to a particular alternate fuel vehicle during the life of that vehicle. A rebate shall not exceed \$4,000 per vehicle. Over the life of this rebate program, an owner of an alternate fuel vehicle may not receive rebates for more than 150 vehicles per location or for 300 vehicles in total.

(a) A conversion cost rebate may be issued to an owner or his or her designee in order to reduce the cost of converting of a conventional vehicle to an alternate fuel vehicle. Conversion of a conventional vehicle to alternate fuel capability must take place in Illinois for the owner to be eligible for the conversion cost rebate. Amounts spent by applicants within a calendar year may be claimed on a rebate application submitted during that calendar year. Approved conversion cost rebates applied for during calendar years 1997, 1998, 1999, 2000, 2001, and 2002, 2003, and 2004 shall be 80% of all approved conversion costs claimed and documented. Approval of conversion cost rebates may continue after calendar year 2004, if funds are still available. An applicant may include on an application submitted in 1997 all amounts spent within that calendar year on the conversion, even if the expenditure occurred before promulgation of the Agency rules.

(b) An OEM differential cost rebate may be issued to an owner or his or her designee in order to reduce the cost differential between a conventional vehicle or engine and the same vehicle or engine, produced by an original equipment manufacturer, that has the capability to use alternate fuels.

A new OEM vehicle or engine must be purchased in Illinois and must either be an alternate fuel vehicle or used in an alternate fuel vehicle, respectively, for the owner to be eligible for an OEM differential cost rebate. Amounts spent by applicants within a calendar year may be claimed on a rebate application submitted during that calendar year.

Approved OEM differential cost rebates applied for during calendar years 1997, 1998, 1999, 2000, 2001, and 2002, 2003, and 2004 shall be 80% of all approved cost differential claimed and documented. Approval of OEM differential cost rebates may continue after calendar year 2004, if funds are still available. An applicant may include on an application submitted in 1997 all amounts spent within that calendar year on OEM equipment, even if the expenditure occurred before promulgation of the Agency rules.

(c) A fuel cost differential rebate may be issued to an owner or his or her designee in order to reduce the cost differential between conventional fuels and domestic renewable fuels purchased to operate an alternate fuel vehicle that runs on domestic renewable fuel. The fuel cost differential shall be based on a 3-year life cycle cost analysis developed by the Agency by rulemaking. The rebate shall apply to and be payable during a consecutive 3-year period commencing on the date the application is approved by the Agency. Approved fuel cost differential rebates may be applied for during calendar years 1997, 1998, 1999, 2000, and 2001, and 2002 and approved rebates shall be 80% of the cost differential for a consecutive 3-year period. Approval of fuel cost differential rebates may continue after calendar year 2002 if funds are still available. Twenty-five percent of the amount appropriated under Section 40 to be used to fund the programs authorized by this Section during calendar year 1998 shall be designated to fund fuel cost differential rebates. If the total dollar amount of approved fuel cost differential rebate applications as of October 1, 1998 is less than the amount designated for that

[June 2, 2002]

calendar year, the balance of designated funds shall be immediately available to fund any rebate authorized by this Section and approved in the calendar year. An applicant may include on an application submitted in 1997 all amounts spent within that calendar year on fuel cost differential, even if the expenditure occurred before the promulgation of the Agency rules.

Twenty-five percent of the amount appropriated under Section 40 to be used to fund the programs authorized by this Section during calendar year 1999 shall be designated to fund fuel cost differential rebates. If the total dollar amount of approved fuel cost differential rebate applications as of July 1, 1999 is less than the amount designated for that calendar year, the balance of designated funds shall be immediately available to fund any rebate authorized by this Section and approved in the calendar year.

Twenty-five percent of the amount appropriated under Section 40 to be used to fund programs authorized by this Section during calendar year 2000 shall be designated to fund fuel cost differential rebates. If the total dollar amount of approved fuel cost differential rebate applications as of July 1, 2000 is less than the amount designated for that calendar year, the balance of designated funds shall be immediately available to fund any rebate authorized by this Section and approved in the calendar year.

Twenty-five percent of the amount that is appropriated under Section 40 to be used to fund programs authorized by this Section during calendar year 2001 shall be designated to fund fuel cost differential rebates. If the total dollar amount of approved fuel cost differential rebate applications as of July 1, 2001 is less than the amount designated for that calendar year, the balance of designated funds shall be immediately available to fund any rebate authorized by this Section and approved in the calendar year.

An approved fuel cost differential rebate shall be paid to an owner in 3 annual installments on or about the anniversary date of the approval of the application. Owners receiving a fuel cost differential rebate shall be required to demonstrate, through recordkeeping, the use of domestic renewable fuels during the 3-year period commencing on the date the application is approved by the Agency. If the alternate fuel vehicle ceases to be registered to the original applicant owner, a prorated installment shall be paid to that owner or the owner's designee and the remainder of the rebate shall be canceled.

(d) Vehicles owned by the federal government or vehicles registered in a state outside Illinois are not eligible for rebates. (Source: P.A. 89-410; 90-726, eff. 8-7-98.)

(415 ILCS 120/31 new)

Sec. 31. Alternate Fuel Infrastructure Program. The Department of Commerce and Community Affairs shall establish a grant program to provide funding for the building of E85 blend, propane, and compressed natural gas (CNG) fueling facilities, including private on-site fueling facilities, to be built within the covered area or in Illinois metropolitan areas over 100,000 in population. The Department of Commerce and Community Affairs shall be responsible for reviewing the proposals and awarding the grants. Under the grant program, applicants may apply for up to 80% of the total cost of the project. At least 20% of the total cost of the project must be provided by the applicant in cash or material.

(415 ILCS 120/32 new)

Sec. 32. Clean Fuel Education Program. The Department of Commerce and Community Affairs, in cooperation with the Agency and Chicago Area Clean Cities, shall administer the Clean Fuel Education Program, the purpose of which is to educate fleet administrators and

Section 10. The Downstate Forest Preserve District Act is amended by changing Section 3c as follows:

(70 ILCS 805/3c)

Sec. 3c. Elected board of commissioners in certain counties. If the boundaries of a district are co-extensive with the boundaries of a county having a population of more than 800,000 but less than 3,000,000, all commissioners of the forest preserve district shall be elected from the same districts as members of the county board beginning with the general election held in 2002 and each succeeding general election. A request for a hearing must be made to the Board in writing within 5 days after service of notice of the action of the Board. Notice of the action of the Board shall be served either by personal delivery or by certified mail, postage prepaid, to the aggrieved party. Notice served by certified mail shall be deemed complete on the business day following the date of such mailing. The Board shall conduct all requested hearings promptly and in reasonable order;

(2) To conduct all hearings pertaining to civil violations of this Act or rules and regulations promulgated hereunder;

(3) To promulgate such rules and regulations as in its

judgment may be necessary to protect or enhance the credibility and integrity of gambling operations authorized by this Act and the regulatory process hereunder;

(4) To provide for the establishment and collection of all license and registration fees and taxes imposed by this Act and the rules and regulations issued pursuant hereto. All such fees and taxes shall be deposited into the State Gaming Fund;

(5) To provide for the levy and collection of penalties and fines for the violation of provisions of this Act and the rules and regulations promulgated hereunder. All such fines and penalties shall be deposited into the Education Assistance Fund, created by Public Act 86-0018, of the State of Illinois;

(6) To be present through its inspectors and agents any time gambling operations are conducted on any riverboat for the purpose of certifying the revenue thereof, receiving complaints from the public, and conducting such other investigations into the conduct of the gambling games and the maintenance of the equipment as from time to time the Board may deem necessary and proper;

(7) To review and rule upon any complaint by a licensee regarding any investigative procedures of the State which are unnecessarily disruptive of gambling operations. The need to inspect and investigate shall be presumed at all times. The disruption of a licensee's operations shall be proved by clear and convincing evidence, and establish that: (A) the procedures had no reasonable law enforcement purposes, and (B) the procedures were so disruptive as to unreasonably inhibit gambling operations;

(8) To hold at least one meeting each quarter of the fiscal year. In addition, special meetings may be called by the Chairman or any 2 Board members upon 72 hours written notice to each member. All Board meetings shall be subject to the Open Meetings Act. The Board shall keep a complete and accurate record of all its meetings. A majority of the members of the Board shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power which this Act requires the Board members to transact, perform or exercise en banc, except that, upon order of the Board, one of the Board members or an administrative law judge designated by the Board may conduct any hearing provided for under this Act or by Board rule and may recommend findings and decisions to the Board. The Board member or administrative law judge conducting such hearing shall have all powers and rights granted to the Board in this Act. The record made at the time of the hearing shall be reviewed by the Board, or a majority thereof, and the findings and decision of the majority of the Board shall constitute the order of the Board in such case;

(9) To maintain records which are separate and distinct from the records of any other State board or commission. Such records shall be available for public inspection and shall accurately reflect all Board proceedings;

(10) To file a written annual report with the Governor on or before March 1 each year and such additional reports as the Governor may request. The annual report shall include a statement

(3) To promulgate rules and regulations for the purpose of administering the provisions of this Act and to prescribe rules, regulations and conditions under which all riverboat gambling in the State shall be conducted. Such rules and regulations are to provide for the prevention of practices detrimental to the public interest and for the best interests of riverboat gambling, including rules and regulations regarding the inspection of such riverboats and the review of any permits or licenses necessary to operate a riverboat under any laws or regulations applicable to riverboats, and to impose penalties for violations thereof.

(4) To enter the office, riverboats, facilities, or other places of business of a licensee, where evidence of the compliance or noncompliance with the provisions of this Act is likely to be found.

(5) To investigate alleged violations of this Act or the rules of the Board and to take appropriate disciplinary action against a licensee or a holder of an occupational license for a violation, or institute appropriate legal action for enforcement, or both.

(6) To adopt standards for the licensing of all persons under this Act, as well as for electronic or mechanical gambling games, and to establish fees for such licenses.

(7) To adopt appropriate standards for all riverboats and facilities.

(8) To require that the records, including financial or other statements of any licensee under this Act, shall be kept in such manner as prescribed by the Board and that any such licensee involved in the ownership or management of gambling operations submit to the Board an annual balance sheet and profit and loss statement, list of the stockholders or other persons having a 1% or greater beneficial interest in the gambling activities of each licensee, and any other information the Board deems necessary in order to effectively administer this Act and all rules, regulations, orders and final decisions promulgated under this Act.

(9) To conduct hearings, issue subpoenas for the attendance of witnesses and subpoenas duces tecum for the production of books, records and other pertinent documents in accordance with the Illinois Administrative Procedure Act, and to administer oaths and affirmations to the witnesses, when, in the judgment of the Board, it is necessary to administer or enforce this Act or

the Board rules.

(10) To prescribe a form to be used by any licensee involved in the ownership or management of gambling operations as an application for employment for their employees.

(11) To revoke or suspend licenses, as the Board may see fit and in compliance with applicable laws of the State regarding administrative procedures, and to review applications for the renewal of licenses. The Board may suspend an owners license, without notice or hearing upon a determination that the safety or health of patrons or employees is jeopardized by continuing a riverboat's operation. The suspension may remain in effect until the Board determines that the cause for suspension has been abated. The Board may revoke the owners license upon a determination that the owner has not made satisfactory progress toward abating the hazard.

(12) To eject or exclude or authorize the ejection or exclusion of, any person from riverboat gambling facilities where such person is in violation of this Act, rules and regulations thereunder, or final orders of the Board, or where such person's conduct or reputation is such that his presence within the riverboat gambling facilities may, in the opinion of the Board, call into question the honesty and integrity of the gambling operations or interfere with orderly conduct thereof; provided that the propriety of such ejection or exclusion is subject to subsequent hearing by the Board.

(13) To require all licensees of gambling operations to utilize a cashless wagering system whereby all players' money is converted to tokens, electronic cards, or chips which shall be used only for wagering in the gambling establishment.

(14) (Blank).

(15) To suspend, revoke or restrict licenses, to require the removal of a licensee or an employee of a licensee for a violation of this Act or a Board rule or for engaging in a fraudulent practice, and to impose civil penalties of up to \$5,000 against individuals and up to \$10,000 or an amount equal to the daily gross receipts, whichever is larger, against licensees for each violation of any provision of the Act, any rules adopted by the Board, any order of the Board or any other action which, in the Board's discretion, is a detriment or impediment to riverboat gambling operations.

(16) To hire employees to gather information, conduct investigations and carry out any other tasks contemplated under this Act.

(17) To establish minimum levels of insurance to be maintained by licensees.

(18) To authorize a licensee to sell or serve alcoholic liquors, wine or beer as defined in the Liquor Control Act of 1934 on board a riverboat and to have exclusive authority to establish the hours for sale and consumption of alcoholic liquor on board a riverboat, notwithstanding any provision of the Liquor Control Act of 1934 or any local ordinance, and regardless of whether the riverboat makes excursions. The establishment of the hours for sale and consumption of alcoholic liquor on board a riverboat is an exclusive power and function of the State. A home rule unit may not establish the hours for sale and consumption of alcoholic liquor on board a riverboat. This amendatory Act of 1991 is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

(19) After consultation with the U.S. Army Corps of

[June 2, 2002]

Engineers, to establish binding emergency orders upon the concurrence of a majority of the members of the Board regarding the navigability of water, relative to excursions, in the event of extreme weather conditions, acts of God or other extreme circumstances.

(20) To delegate the execution of any of its powers under this Act for the purpose of administering and enforcing this Act and its rules and regulations hereunder.

(21) To take any other action as may be reasonable or appropriate to enforce this Act and rules and regulations hereunder.

(d) The Board may seek and shall receive the cooperation of the Department of State Police in conducting background investigations of applicants and in fulfilling its responsibilities under this Section. Costs incurred by the Department of State Police as a result of such cooperation shall be paid by the Board in conformance with the requirements of Section 2605-400 of the Department of State Police Law (20 ILCS 2605/2605-400).

(d) Each applicant shall submit with his application, on forms provided by the Board, 2 sets of his fingerprints.

(e) The Board shall may issue up-to 10 licenses authorizing the holders of such licenses to own riverboats. If an owners license is revoked or is not renewed or is forfeited, notwithstanding any administrative or judicial appeal thereof, the owners license shall be transferred to the Board, which shall offer it for competitive bidding as provided in subsection (e-5).

(e-5) If fewer than the authorized number of owners licenses are issued, then upon receipt of one or more license applications from suitable license applicants, the Board shall make the unused licenses subject to competitive bidding as provided in this subsection (e-5). A license issued pursuant to this subsection (e-5) shall be subject to all applicable conditions of this Act and the following additional conditions:

(1) Applications for an owners license shall be filed within 45 days of the effective date of this amendatory Act or within 45 days after the license is revoked or nonrenewed, whichever is later. The Board shall make owners license applications available no later than the effective date of this amendatory Act of the 92nd General Assembly.

(2) During the 45-day filing period for license applications, the Board shall retain the services of an investment banking firm for the purpose of conducting a competitive bidding process pursuant to which the applicants bid against each other on price and licensee suitability.

(3) The Board-selected investment banking firm shall conduct the competitive bidding process within 45 days of its retention and shall select a winning bid within 45 days from the expiration of the 45-day bidding period.

(4) Applications submitted to the Board-selected investment banking firm from applicants submitting a complete application shall contain:

(i) A minimum bid amount of \$500,000,000, exclusive of applicable investment banking firm fees as determined by the Board and the investment banking firm, wholly payable to the State upon a determination by the Board that the bid is the winning bid. [June 2, 2002]

(ii) A plan to attain Board approved 20% minority person and female qualified ownership, at least 16% and 4% respectively, within the time period specified by the Board, but not to exceed 12 months from the date the licensee begins conducting riverboat gambling operations. The 12-month period shall be extended by the amount of time necessary to conduct a background investigation pursuant to Section 6. For the purposes of this Section, the terms "female" and "minority person" have the meanings provided in Section 2 of the Business Enterprise for Minorities, Females, and Persons with Disabilities Act.

(iii) A specified location and a legally executed development agreement with the appropriate unit of local government for the riverboat gambling operation upon which the bid is based.

Bids submitted to the Board-selected investment banking firm shall be evaluated by the investment banking firm, which shall consider the following criteria:

(i) The beneficial economic impact on the surrounding areas and communities, including but not limited to, the number of jobs that would be created by the riverboat gambling operation at the specific location and the number of out-of-state patrons and revenues the riverboat gambling operation at the specified location would generate.

(ii) The amount of future taxes the riverboat gambling operation at the specified location would generate and the existence of any agreement allowing the sharing of tax revenue between the selected location for the riverboat gambling operation and other communities.

(iii) The availability of existing hotel and restaurant facilities at the specified location to maximize the beneficial economic impact of the riverboat gambling operation.

(iv) The earliest date that the riverboat gambling operation would be operational so as to maximize the beneficial economic impact of the riverboat gambling operation to the surrounding areas and the State.

Upon selection of a winning bid by the Board-selected investment banking firm, the Board shall evaluate the winning bid within 45 days for licensee suitability in accordance with existing statutory criteria and the criteria delineated in this subsection (e-5). The Board shall conduct a public hearing and state its specific basis for licensee suitability and that the licensee meets the criteria under subsection (e-5).

(e-10) In the application for an owners license, the applicant shall state the dock at which the riverboat is based and the water on which the riverboat will be located. The Board shall issue 5 licenses to become effective not earlier than January 1, 1991. Three of such licenses shall authorize riverboat gambling on the Mississippi River, or in a municipality that (1) borders on the Mississippi River or is within 5 miles of the city limits of a municipality that borders on the Mississippi River and (2), on the effective date of this amendatory Act of the 92nd General Assembly, has a riverboat conducting riverboat gambling operations pursuant to a license issued under this Act; one of which shall authorize riverboat gambling from a home dock in the city of East St. Louis. may issue 4 additional licenses to become effective not earlier than March 1, 1992. In determining the water upon which riverboats will operate, the Board shall consider the economic benefit which riverboat gambling confers on the State, and shall seek to assure that all regions of the State share in the economic benefits of riverboat gambling.

In granting all licenses, the Board may give favorable consideration to economically depressed areas of the State, to applicants presenting plans which provide for significant economic development over a large geographic area, and to applicants who currently operate non-gambling riverboats in Illinois. The Board shall review all applications for owners licenses, and shall inform each applicant of the Board's decision.

(e-15) The Board may revoke the owners license of a licensee which fails to begin conducting gambling within 15 months of receipt of the Board's approval of the application if the Board determines that license revocation is in the best interests of the State.

(f) ~~The first 10~~ Owners licenses issued under this Act shall permit the holder to own up to 2 riverboats and equipment thereon for a period of 3 years after the effective date of the license. Holders of ~~the first 10~~ owners licenses must pay the annual license fee for each of the 3 years during which they are authorized to own riverboats.

(g) ~~Upon the termination, expiration, or revocation of a license, it is each of the first 10 licenses, which shall be issued for a 3-year period, all licenses are renewable annually upon payment of the fee and a determination by the Board that the licensee continues to meet all of the requirements of this Act and the Board's rules. However, For licenses renewed on or after May 1, 1998, renewal shall be for a period of 4 years, unless the Board sets a shorter period.~~

(h) An owners license shall entitle the licensee to own up to 2 riverboats. A licensee shall limit the number of gambling participants to 1,200 for any such owners license. A licensee may operate both of its riverboats concurrently, provided that the total number of gambling participants on both riverboats does not exceed 1,200. Riverboats licensed to operate on the Mississippi River and the Illinois River south of Marshall County shall have an authorized capacity of at least 500 persons. Any other riverboat licensed under this Act shall have an authorized capacity of at least 400 persons.

(i) A licensed owner is authorized to apply to the Board for and, if approved therefor, to receive all licenses from the Board necessary for the operation of a riverboat, including a liquor license, a license to prepare and serve food for human consumption, and other necessary licenses. All use, occupation and excise taxes which apply to the sale of food and beverages in this State and all taxes imposed on the sale or use of tangible personal property apply to such sales aboard the riverboat.

(j) The Board may issue a license authorizing a riverboat to dock in a municipality or approve a relocation under Section 11.2 only if, prior to the issuance of the license or approval, the governing body of the municipality in which the riverboat will dock has by a majority vote approved the docking of riverboats in the municipality. The Board may issue a license authorizing a riverboat to dock in areas of a county outside any municipality or approve a relocation under Section 11.2 only if, prior to the issuance of the license or approval, the governing body of the county has by a majority vote approved of the docking of riverboats within such areas.

CONSIDERATION OF CONFERENCE COMMITTEE REPORT

Senator Cronin, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on House Amendments numbered 1 and 2 to Senate Bill No. 1983, submitted the following Report of the First Conference Committee and moved its adoption:

92ND GENERAL ASSEMBLY CONFERENCE COMMITTEE REPORT ON SENATE BILL 1983

To the President of the Senate and the Speaker of the House of Representatives:

[June 2, 2002]

We, the conference committee appointed to consider the differences between the houses in relation to House Amendments Nos. 1 and 2 to Senate Bill 1983, recommend the following:

(1) that the Senate concur in House Amendments Nos. 1 and 2; and
 (2) that Senate Bill 1983, AS AMENDED, be further amended as follows:
 in Section 5, in the introductory clause, by replacing "and 14C-4" with "14C-4, and 18-8.05"; and
 in Section 5, immediately below the end of Sec. 14C-4, by inserting the following:

"(105 ILCS 5/18-8.05)

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9, 18-10, and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district

[June 2, 2002]

shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is \$4,225. For the 1999-2000 school year, the Foundation Level of support is \$4,325. For the 2000-2001 school year, the Foundation Level of support is \$4,425.

(3) For the 2001-2002 school year and each school year thereafter, the Foundation Level of support is \$4,560 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is

[June 2, 2002]

being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year 2 years before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05

[June 2, 2002]

times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of \$218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year, except that any days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on the opening and closing of the school term, and upon the first day of pupil attendance, if preceded by a day or days utilized as an institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use

daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

[June 2, 2002]

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

[June 2, 2002]

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of

[June 2, 2002]

subsection (E), (H), and (J) of this Section is less than the amount of general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed \$14,000,000. Claims shall be prorated if they exceed \$14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district. Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section. For purposes of this subsection, the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by ~~Public Act 92-28 this-amendatory-Act-of-the-92nd General-Assembly~~ shall apply to supplemental general State aid grants paid in fiscal year 1999 and in each fiscal year thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by ~~Public Act 92-28 this-amendatory-Act-of-the-92nd-General-Assembly~~ is entitled to a recomputation of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:

(a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be \$800 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be \$1,100 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for the

1998-99 school year shall be \$1,500 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of 60% or more, the grant for the 1998-99 school year shall be \$1,900 multiplied by the low income eligible pupil count.

(e) For the 1999-2000 school year, the per pupil amount specified in subparagraphs (b), (c), and (d) immediately above shall be increased to \$1,243, \$1,600, and \$2,000, respectively.

(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be \$1,273, \$1,640, and \$2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 ~~2001-2002~~ school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be \$355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant for each school year shall be \$675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be \$1,330 ~~\$1,190~~ multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be \$1,362 ~~\$1,333~~ multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be \$1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be \$2,080 multiplied by the low income eligible pupil count.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than \$261,000,000 in accordance with the following requirements:

(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by

[June 2, 2002]

adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report

of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

(I) General State Aid for Newly Configured School Districts.

(1) For a new school district formed by combining property included totally within 2 or more previously existing school districts, for its first year of existence the general State aid and supplemental general State aid calculated under this Section shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district which annexes all of the territory of one or more entire other school districts, for the first year during which the change of boundaries attributable to such annexation becomes effective for all purposes as determined under Section 7-9 or 7A-8, the general State aid and supplemental general State aid calculated under this Section shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon such annexation.

(3) For 2 or more school districts which annex all of the territory of one or more entire other school districts, and for 2 or more community unit districts which result upon the division (pursuant to petition under Section 11A-2) of one or more other unit school districts into 2 or more parts and which together include all of the parts into which such other unit school district or districts are so divided, for the first year during which the change of boundaries attributable to such annexation or division becomes effective for all purposes as determined under Section 7-9 or 11A-10, as the case may be, the general State aid and supplemental general State aid calculated under this Section shall be computed for each annexing or resulting district as constituted after the annexation or division and for each annexing and annexed district, or for each resulting and divided district, as constituted prior to the annexation or division; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing or resulting districts as constituted after the annexation or division is less than the aggregate of the general State aid and supplemental

[June 2, 2002]

general State aid as so computed for the annexing and annexed districts, or for the resulting and divided districts, as constituted prior to the annexation or division, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing or resulting districts, as constituted upon such annexation or division, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing or resulting districts in the same ratio as the pupil enrollment from that portion of the annexed or divided district or districts which is annexed to or included in each such annexing or resulting district bears to the total pupil enrollment from the entire annexed or divided district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation or division becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing or resulting districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data which shall be certified to the State Board of Education, on forms which it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts, or resulting and divided districts are located.

(3.5) Claims for financial assistance under this subsection (I) shall not be recomputed except as expressly provided under this Section.

(4) Any supplementary payment made under this subsection (I) shall be treated as separate from all other payments made pursuant to this Section.

(J) Supplementary Grants in Aid.

(1) Notwithstanding any other provisions of this Section, the amount of the aggregate general State aid in combination with supplemental general State aid under this Section for which each school district is eligible shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-98 school year, pursuant to the provisions of that Section as it was then in effect. If a school district qualifies to receive a supplementary payment made under this subsection (J), the amount of the aggregate general State aid in combination with supplemental general State aid under this Section which that district is eligible to receive for each school year shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-1998 school year, pursuant to the provisions of that Section as it was then in effect.

(2) If, as provided in paragraph (1) of this subsection (J), a school district is to receive aggregate general State aid in combination with supplemental general State aid under this Section for the 1998-99 school year and any subsequent school year that in any such school year is less than the amount of the aggregate general State aid entitlement that the district received for the 1997-98 school year, the school district shall also receive, from a separate appropriation made for purposes of this subsection (J), a supplementary payment that is equal to the amount of the difference in the aggregate State aid figures as described in paragraph (1).

(3) (Blank).

(K) Grants to Laboratory and Alternative Schools.

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this

[June 2, 2002]

Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State Board under this subsection (K) may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(10 ILCS 5/25-11) (from Ch. 46, par. 25-11)

Sec. 25-11. When a vacancy occurs in any elective county office, or in a county of less than 3,000,000 population in the office of clerk of the circuit court, in a county which is not a home rule unit, the county board or board of county commissioners shall declare that such vacancy exists and notification thereof shall be given to the county central committee or the appropriate county board or board of county commissioners district committee of each established political party within 3 days of the occurrence of the vacancy. The vacancy shall be filled within 60 days by appointment of the chairman of the county board or board of county commissioners with the advice and consent of the county board or board of county commissioners. In counties in which the forest preserve district president is not also a member of the county board, vacancies in the office of forest preserve district president shall be filled within 60 days by the forest preserve district board of commissioners by appointing one of the commissioners to serve as president. The appointee shall be a member of the same political party as the person he succeeds was at the time of his election and shall be otherwise eligible to serve. The appointee shall serve the remainder of the unexpired term. However, if more than 28 months remain in the term, the appointment shall be until the next general election at which time the vacated office shall be filled by election for the remainder of the term. [June 2, 2002]

general election. One commissioner shall be elected from each district. At their first meeting after their election in 2002 and following each subsequent decennial reapportionment of the county under Division 2-3 of the Counties Code, the elected commissioners shall publicly by lot divide themselves into 2 groups, as equal in size as possible. Commissioners from the first group shall serve for terms of 2, 4, and 4 years; and commissioners from the second group shall serve terms of 4, 4, and 2 years. ~~Commissioners elected under this Section shall take office at the first meeting of commissioners following an election of commissioners.~~ Beginning with the general election in 2002, the president of the board of commissioners of the forest preserve district shall be elected by the voters of the county, rather than by the commissioners. The president shall be a resident of the county and shall be elected throughout the county for a 4-year term without having been first elected as commissioner of the forest preserve district. Each commissioner shall be a resident of the county board district from which he or she was elected not later than the date of the commencement of the term of office. The term of office for the president and commissioners elected under this Section shall commence on the first Monday of the month following the month of election. Neither a commissioner nor the president of the board of commissioners of that forest preserve district shall serve simultaneously as member or chairman of the county board. No person shall seek election to both the forest preserve commission and the county board at the same election. The compensation for the president shall be an amount equal to 85% of the annual salary of the county board chairman. The president, with the advice and consent of the board of commissioners shall appoint a secretary, treasurer, and such other officers as deemed necessary by the board of commissioners, which officers need not be members of the board of commissioners. The president shall have the powers and duties as specified in Section 12 of this Act.

Candidates for president and commissioner shall be candidates of established political parties.

If a vacancy in the office of president or commissioner occurs, other than by expiration of the president's or a commissioner's term, the forest preserve district board of commissioners shall declare that a vacancy exists and notification of the vacancy shall be given to the county central committee of each established political party within 3 business days after the occurrence of the vacancy. If the vacancy occurs in the office of forest preserve district commissioner, the president of the board of commissioners shall, within 60 days after the date of the vacancy, with the advice and consent of other commissioners then serving, appoint a person an individual to serve for the remainder of the unexpired term. The appointee shall be affiliated with the same political party as the commissioner in whose office the vacancy occurred and be a resident of such district. If a vacancy in the office of president occurs, other than by expiration of the president's term, the remaining members of the board of commissioners shall, within 60 days after the vacancy, appoint one of the commissioners to serve as president for the remainder of the unexpired term. In that case, the office of the commissioner who is appointed to serve as president shall be deemed vacant and shall be filled within 60 days by appointment of the president with the advice and consent of the other forest preserve district commissioners. The commissioner who is appointed to fill a vacancy in the office of president shall be affiliated with the same political party as the person who occupied the office of president prior to the vacancy. A person appointed to fill a vacancy in the office of president or commissioner shall establish his or her party

[June 2, 2002]

affiliation by his or her record of voting in primary elections or by holding or having held an office in an established political party organization before the appointment. If the appointee has not voted in a party primary election or is not holding or has not held an office in an established political party organization before the appointment, the appointee shall establish his or her political party affiliation by his or her record of participating in an established political party's nomination or election caucus. If, however, more than 28 months remain in the unexpired term of a commissioner or the president, the appointment shall be until the next general consolidated election, at which time the vacated office of commissioner or president shall be filled by election for the remainder of the term. Notwithstanding any law to the contrary, if a vacancy occurs after the last day provided in Section 7-12 of the Election Code for filing nomination papers for the office of president of a forest preserve district where that office is elected as provided for in this Section, or as set forth in Section 7-61 of the Election Code, a vacancy in nomination shall be filled by the passage of a resolution by the nominating committee of the affected political party within the time periods specified in the Election Code. The nominating committee shall consist of the chairman of the county central committee and the township chairmen of the affected political party. All other vacancies in nomination shall be filled in accordance with the provisions of the Election Code.

The president and commissioners elected under this Section may be reimbursed for their reasonable expenses actually incurred in performing their official duties under this Act in accordance with the provisions of Section 3a. The reimbursement paid under this Section shall be paid by the forest preserve district.

Compensation for forest preserve commissioners elected under this Section shall be the same as that of county board members of the county with which the forest preserve district's boundaries are co-extensive.
