Member -- Mr. President and Members of the Senate, I do have -- I do have a couple more honorary Pages with me today. I am fortunate to be joined by - stand up, both of you - by Bryce Becker and Katie Harms. They are both seniors at Red Bud High School, which is about -- about twenty minutes south of where I live. Bryce is going to go to Concordia University in Wisconsin. He went there -- he picked that university because of the breathtaking scenery and the cold. But he says he's coming back. We're going to get him back after -- after he graduates. And then Katie is going to Illinois State University this -- you know, next year. So I'd asked that we give Bryce and Katie a warm Springfield welcome.

PRESIDING OFFICER: (SENATOR LINK)

State your point.

SENATOR KOEHLER:

With me today is a young man who's a Page for the Day. His name is Jordan Dooley. He's a junior at Morton High School. He's a senior drum major for the Morton High School Marching Band, which is the thirteenth time State Class 2A Champion. He also plays trombone. In addition to music, he is a member of the Law {sic} (Laws) and Order Club, the Interact Club, and the lighting operator of the school's theater program. Last May, Jordan had the honor of being inducted into the Morton High School chapter of the National Honor Society. He's a regular honor -- honor roll student. After high school, he'd like to study accounting/economics and then he'd like to continue on to law - which is what the world needs is more lawyers - so -- the end goal of becoming an -- an immigration or environmental attorney, and possibly pursuing political office one day. But the important thing that I want to tell you about Jordan is that his dad was my first campaign manager, was the director of my district office until 2012, then he went on to be a -- a -- a chef, a culinary arts person. But -- so I feel like Jordan is family. I knew him when he was, you know, about knee high to me. But, please, would the Senate welcome Jordan Dooley to the Senate today.

PRESIDING OFFICER: (SENATOR LINK)

Welcome to Springfield. Senator Harmon, for what purpose do you rise?

PRESIDING OFFICER: (SENATOR LINK)

State your introduction.

SENATOR HARMON:

Thank you, Mr. President. I have two introductions today. First, I'm joined on the Floor by Abby Ryan, my Page for a Day. She is fourteen, finishing her freshman year at Hinsdale Central, where she's on the volleyball team and on the Dean's list. She is here with her mom, Jen, who's up in the President's Gallery. And I'm looking forward to her sharing some action here on the Floor with us today. So please join me in giving a Springfield welcome to Abby Ryan.

PRESIDING OFFICER: (SENATOR LINK)

Senator Harmon.

SENATOR HARMON:

Thank you, Mr. President. I also would like to introduce a return visitor. My daughter, Maggie, an eighth grader, is here. She is a finalist in the Illinois State History Fair, going on over at the convention center tomorrow, and so she came down early to hang out with us here in the Senate Chamber today.

PRESIDING OFFICER: (SENATOR LINK)

Senator Connelly, for what purpose do you rise?

SENATOR CONNELLY:

Thank you, Mr. President. For purposes of an introduction.

PRESIDING OFFICER: (SENATOR LINK)

State your introduction.

SENATOR CONNELLY:

Thank you, Mr. President, Members of the Senate. I'd like to introduce my Page for today, Elizabeth Fox. She's thirteen years old. She's an eighth grader at Saints Peter and Paul in

She plans to attend college and law school. She's accompanied today by her father, David, sitting behind me. How about a warm welcome for my Page, Elizabeth Fox.

PRESIDING OFFICER: (SENATOR LINK)

Welcome to Springfield. Senator Weaver, for what purpose do you rise?

SENATOR WEAVER:

Point of personal privilege, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

State your point.

SENATOR WEAVER:

Well, thank you very much. I am honored to have with me Collin Grebner, who's from my district. He's visiting Springfield today as my honorary Page. He's in the eighth grade at Saint Mary's School. He enjoys showing pigs as part of his 4-H project, drawing, and gardening. He also enjoys science, consumer behavior, public speaking, and agriculture. Planning on attending college prep and then hopefully medical school - so we're proud of him for that. His mother, Susan, is also here in the gallery. And please welcome him to Springfield.

{sic} to several local dentists to ensure that those people who utilize the health care services of a self-insured entity understood that it was self-insured. So what we've done is we've changed the Uniform Health Care Service Benefits Information Card Act to make changes to the definition of "health plan benefit" {sic} ("health benefit plan"). And it strikes out current language that would exempt dental insurance from the definition, so now it's the same as what would be for health care. I know of no objections. We worked very closely with the Dental Society, as well as the insurance companies, and I would ask for an Aye vote.

SENATOR BENNETT:

Thank you again, Mr. President. Senate Bill 2899 attempts to help out our local tourism bureaus. Essentially what it does is make technical changes so that the money that comes in from the Hotel Operators' Occupation Tax can be directly deposited into the Tourism -- Promotion Fund. It also reduces from the ten percent reserve that local tourism funds are now allowed to three percent. So, in other words, what now is being used for administrative offices in Springfield will go where it needs to go, which is our local tourism offices. Gets money back where it needs to go in our communities. I'd ask for an Aye vote. I know of no opposition.

SENATOR MULROE:

Thank you, Mr. President, Members of the Senate. I'd ask for its adoption and I'm happy to explain it on 3rd.

PRESIDING OFFICER: (SENATOR LINK)

Is there any discussion? Seeing none, all those in favor will say Aye. Opposed, Nay. The Ayes have it, and the amendment is adopted. Are there any further Floor amendments approved for consideration?

SECRETARY ANDERSON:

No further amendments reported.

3rd Reading of the bill.

PRESIDING OFFICER: (SENATOR LINK)

Senator Mulroe, on your bill.

SENATOR MULROE:

Thank you, Mr. President, Members of the Senate. This actually -- bill is still a work in progress. We've been working with Senator Syverson, staff, House Members, long-term care associations to actually try to improve the process that people go through in -- in getting on Medicaid and making it more efficient. So I'm asking to move it out of the -- the Chamber. It will come back. I'd ask for your Aye votes.

PRESIDING OFFICER: (SENATOR LINK)

SENATOR ALTHOFF:

Thank you, Mr. President. Senate Bill 2919 amends the Corporate Accountability for Tax Expenditures Act. It changes the reporting of the budget to the third preceding calendar years rather than fiscal year. It extends the deadline for reporting more accurately the UED, or the Unified Economic Development Budget. Again, we worked very closely with a few labor entities that were concerned originally. They've signed off on this, and I would ask for an Aye vote.

PRESIDING OFFICER: (SENATOR LINK)

Senator Weaver.

SENATOR WEAVER:

Thank you, Mr. President. Thank you for the question. This has been sitting where this funding has been available for other entities, but never for local schools. And we believe that people are beginning to understand the importance of manufacturing, how we're going to be able to prepare people for that. We believe school districts will start asking for this funding. We know that before it can happen, there's got to be a threshold of twenty-five

PRESIDING OFFICER: (SENATOR LINK)

Senator Steans.

SENATOR STEANS:

It is the local school district that sets curriculum and including determining the minimum amount of instructional time required. We're maintaining local control. It's preserved under

this bill. They get to leave it in as they desire in their local curriculums, each school district.

Senator Barickman.

SENATOR BARICKMAN:

Does Senate Bill 3249, as amended, require school districts to include the instruction at a specific grade level?

PRESIDING OFFICER: (SENATOR LINK)

Senator Steans.

No, it does not. The legislation does not require that instruction be at a specific grade level. Again, it's up to local control to determine how to weave it into their curriculum.

SENATOR BARICKMAN:

Thank you, Mr. President. I want to commend the sponsor of the bill for her work on this legislation. Her amendment, through her -- her work and negotiation, I think does some important things that the Body should consider. The bill, as amended -- as amended, and I think we just reflected that in our -- in our -- in our discussion here, preserves local control. The amendment, I think rightfully so, weaves this into an existing school law. It does not impose a new mandate in the School Code. And finally, to the substance of the bill, I think that it ensures simply that the

history that is taught is factual and accurate, and so I intend to support it. Thank you, Mr. President.

SENATOR WEAVER:

Thank you, Mr. President. To the bill.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR WEAVER:

Yeah, I appreciate the comments that were made, but even after those comments are considered, the School Management Alliance has still remained a No vote on this or has -- is an opponent on this and they still believe that there's unnecessary mandates here and also curriculum control that this is taking away. I don't understand the dynamics of the difference here, but I know they've still remained as an opponent. I'd just encourage the folks to take a serious look at this. I know I'll personally be a No vote on it. There's also concerns about religious freedoms with regard to folks that may have a difference in opinion with regard to how this is handled in a curriculum basis. Thank you, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

Is there any further discussion? Senator Bertino-Tarrant, for what purpose do you rise?

SENATOR BERTINO-TARRANT:

I'm rising today in support of Senator Steans' bill. I do

STATE OF ILLINOIS
100th GENERAL ASSEMBLY
REGULAR SESSION

appreciate all the work that she has done, listening to her constituents, and even in my local -- my local paper today there was a nice article 'cause -- that took the students' perspective. And this is what we really have to -- to remember when we -- we look at legislation. This is -- this is not an additional mandate. We have -- there's a lot of mandates we can look at in regards to what we teach our students that probably have less importance than what we are talking about today. So I thank the sponsor for working with many people in this Chamber and with the community, and I urge an Aye vote.

PRESIDING OFFICER: (SENATOR LINK)

Is there any further discussion? Senator Steans, to close.

SENATOR STEANS:

Yes, I think this bill means a great deal to -- to a number of people. What we find is, there is an enormous drop, thirty-six percent drop, in people feeling bullied and getting derogatory remarks made about them when they're included in the curriculum, people of LGBTQ personalities. It matters, it really does. What -- few things that we do here really do help in that regard. I know there's been concerns about religious freedom. That's not what this is trying to do. As the Sun-Times noted in their support of this, it's just acknowledging that a person of historical significant {sic} was gay, lesbian, transgender, or bisexual. It makes no value judgment, except to say the person existed and made contributions. That's not the intent. This is just historical facts that we're going for. So I do appreciate your support and consideration of this very important bill. Thank you.

a component of the TRUST Act that the General Assembly passed in the last Session. The -- the paragraph that I just deleted in the amendment was the paragraph that was upsetting to the State Police and other law enforcement that would have precluded law enforcement from cooperating in certain safe zones. cavalry officer, who was assigned to the Department of Texas and Louisiana during the Reconstruction. He -- he did -- did a number of things in that regard. He removed the Governors of Louisiana and Texas, removed them from office by the point of a gun because they were assisting the Ku Klux Klan in murdering Black citizens, freed men, who wished to vote. He also arrested and court-martialed several thousand Ku Klux Klansmen, broke the back of the KKK. He ordered mayors in Louisiana and Texas to hire half of their police forces from Union veterans, which would include African Americans - half. He went on to give arms, several thousand in guns and ammunition, to Benito Juárez on the orders of General Grant, who at that time was General of the United States Army. And Sheridan issued an order to the French troops that if they didn't vacate Mexico, his battle-hardened Union troops would decimate the earth with the bodies of the French, and they left. Maximilian, the erstwhile tyrant, was executed for treason and Juárez became President of Mexico. It was a great partnership between the United States and the people of Mexico for responsible government and we should take an example from that and return to that these days. SENATOR SYVERSON:

Senator, appreciate your work on this and I know we've gone back and forth on some of the numbers and ways to try to bring this more in line to what could be handled budgetarily, but a couple questions. What is the estimated -- what is the Department's estimated cost for implementing this procedure?

PRESIDING OFFICER: (SENATOR LINK)

Senator Aquino.

SENATOR AQUINO:

Thank you, Mr. -- Senator. So, as you can imagine, the Department and the Dental Society, who are the proponents of these -- this legislation, have different numbers. HFS ranges from an expenditure of ten -- ten million to I believe up to twenty-six million dollars a year. Illinois Dental Society has a lower number, as you can imagine, at about five million. And I believe that this is -- HFS's number is without the match from the federal government, so it'd be technically half of that.

PRESIDING OFFICER: (SENATOR LINK)

Senator Syverson.

SENATOR SYVERSON:

And, Senator, I would agree with you on that range between those -- those two -- those two groups. The -- some of the discussion was about - because of the budgetary problem - about making some phase-ins or making some limitations to it, maybe just one cleaning or checkup a year or one cleaning and checkup for certain types of individual that have certain dental anomalies going on, as a way to try to reduce that cost. Have there been any further discussions on that?

Senator Aquino.

SENATOR AQUINO:

Well, a couple things. I was just notified by staff that we can do that in rules. However, I do know that the Dental Society and HFS have -- have -- have been having discussions about this. I haven't seen any new language, but I know -- I know that they are working together and have been since we've -- since I've introduced this bill.

PRESIDING OFFICER: (SENATOR LINK)

Senator Syverson.

SENATOR SYVERSON:

Yeah, I think we can find for a -- for a limited amount of dollars, we can find some of those -- those individuals that would fall under that high urgency need, that we could -- we could get this much more narrow so it could be something that's possibly affordable. And I guess, question is, whether or not you would be open to trying to narrow this to a point where maybe we can end up getting support from the administration, and if so, are you open to working with those -- or get a -- or give a commitment that working with the sponsor on the other side that we can have those discussions?

PRESIDING OFFICER: (SENATOR LINK)

Senator Aquino.

SENATOR AQUINO:

Well, I'm -- I'm certainly open to -- to -- to having those discussions. We've been having these discussions, not only with HFS, but we had discussions with the MCOs and got them to neutral over time. So I'm hoping that on the other side, they would continue that. I know that the Dental Society has been diligent

in making sure that they had been taking that point. I think in -- if you remember in committee, Dave Marsh, did indicate, it seemed, that he was willing to consider some of this -- some of these suggestions. But, again, Mr. -- Senator, we haven't seen any new language from HFS, but I -- I would encourage that on the other side, if they did present some new language, that they would -- they would include it in -- in the bill, if they'd like.

PRESIDING OFFICER: (SENATOR LINK)

Senator Syverson.

SENATOR SYVERSON:

Thank you. This is just the last question. It -- one other concern I have is, if we start paying for this procedure -- currently, a number of the MCOs already do this themselves and they pay for it. They do that as a -- as a -- marketing to try to get more individuals to go into their MCO. And so, currently, we have MCOs that are out of their own pocket paying for the adult dental. If we start funding that, obviously they're not going to do that any longer and so what we're ending up doing is we're -- we're -- we're paying someone who's already voluntarily doing it, which is also a concern. And I don't know if there's a better way to do that, where if these guys want to keep doing that, we should be encouraging them to do that at -- on their dime and not on the taxpayers' dime. But with that in mind, I -- I think this needs work. More things need to be done, and because there's a cost factor, we don't have the budget yet done, I would encourage our side to vote No until we have an agreement and a budget is done and we know how much we can afford to increase in the dental line now. But, Senator, I appreciate your working on it and getting it to where we are today and hope we can get it over the finish line.

I simply want to explain to the Members why I became the chief cosponsor of Senate Bill 2429. It was not as a result of a conversation with the State Dental Society nor with my friend and colleague, Senator Aquino. It was after the executive director of a large provider of services to developmentally disabled adults in my district mentioned to me that his agency, his non-profit, serves non-verbal intellectually/developmentally disabled adults who simply cannot tell anyone, anyone caring for them or any family member, when their teeth hurt. Thus, the need for preventive services covering adults, especially this population, strikes me as convincing. And I urge a -- I appreciate the sponsor's work on this. I appreciate the conversation with the previous speaker. This bill clearly is limited to the use of drone usage for providing safety of crowd control without stripping the public of its privacy rights. Drones are already used in Los Angeles and Boston, and we know what happened in Los Angeles and we know what happened in Boston. The bill before you reflects the laws in Las Vegas and in Massachusetts. I just want to remind -- just -- I just want you to remember that last October's massacre in Las Vegas, which killed fifty-eight and injured hundreds as the shooter rained bullets down from a hotel room, and just remember that we learned that the shooter booked, but never checked into a hotel room overlooking Lollapalooza in downtown Chicago. The only thing that stopped the attack on Lollapalooza is that the shooter never checked into the room. My children were at Lollapalooza and may -- and like your children, may have been subject to a shooter sitting in a hotel room raining bullets upon them. Senator Sandoval, the bill provides that a drone could be used at a private or public event with one hundred or more people. Does that mean law enforcement could use a drone to monitor a private event in my backyard?

PRESIDING OFFICER: (SENATOR LINK)

Senator Sandoval.

SENATOR SANDOVAL:

Senator Haine, there must always be a "legitimate law enforcement purpose". If there is no legitimate law enforcement purpose to surveil a peaceful private party, then law enforcement cannot use a drone at an event. An individual's private event, on their own property, would not fall under the exception for law enforcement for use of a drone. The bill states that large-scale events are events taking place at a sports or entertainment arena, a stadium, a convention hall, a special event center, an amusement facility, any special event licensed or permitted by the unit of local government, or an event open to the public or on government property.

For my sake, I appreciate the -- the -- the value of the utilization of drones to provide for law enforcement to have a tool to protect against tragic incidents that happen at mass gatherings and public forums. But the recitation of no legitimate law enforcement purpose remains vague to me. We took a step years ago to make sure that warrants would have to be issued for the utilization of drones to -- to invade upon private locations. And I think leaving that language is better than just this legislative intent that makes reference to the no legitimate law enforcement purposes. And so, notwithstanding that I know that my colleague's intention and the City of Chicago's intentions are to utilize - I want to trust - to

I, too, would like to commend the sponsor for being open to the amendment process on this bill to address a lot of concerns that had been verbalized by a -- a number of Members, and I think he, as Senator Raoul referred to, I think he's really struck a good balance there. I think it's important to focus on the juvenile piece here. Earlier this year, the Chicago Sun-Times did a story on carjackings in Chicago. As many of you know, they're -- they're way up. Last year, there were nearly a thousand carjackings in the City of Chicago. Various reports have found that a majority of the arrests made in those carjackings have been of juvenile suspects. So that has really fueled the problem. But what we have seen is that a number of the juveniles are almost immediately released after they are picked up on these very serious charges. There were forty-nine youthful offenders, juveniles, arrested in Cook County last year for carjacking. Thirty of them were released within twenty-four hours. That's not very -- they're not a very effective example of how we should be administering these cases in juvenile court. This bill recognizes it, and what it does is it takes an existing statute and will ensure that these youthful offenders, when they are arrested, that they undergo some form of psychiatric evaluation while they're in juvenile detention to determine if they are a threat to themselves, they're a threat to the public - I think the evidence is, is that they likely are

- and it slows down the process. It slows down the revolving door that's currently in place. But, importantly, it does not warehouse these youthful offenders. It ensures that they are getting treatment that they desperately need. So I want to commend the sponsor for adding this amendment and I, too, urge an Aye vote.

PRESIDING OFFICER: (SENATOR LINK)

Is there any further discussion? Seeing none, Senator Muñoz, to close.

SENATOR MUÑOZ:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. Again, thank all of you for your input and help, both sides of the aisle, our staff. Ashley Jenkins did an outstanding job, a lot of research. And hopefully they won't make additional changes in the House. We can't speak for the House Members, but at least we're trying to give 'em something, and if we need to come back on this, we could always do a trailer bill later. I ask for support. Thank you.

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss, on your bill.

SENATOR BISS:

Thank you, Mr. President, Members of the Senate. We had a robust debate on this bill late last week. Just to reiterate the key points, this is a bill that would protect the environment should the Trump administration succeed in significantly rolling back environmental regulations. It does not change the status quo. It does not do anything retroactive. It simply creates critical Illinois environmental protections in the event that the Trump administration does what they have unfortunately threatened to do, which is to endanger our -- our environment. I'd appreciate Aye votes.

PRESIDING OFFICER: (SENATOR LINK)

Now the opponent. Senator Haine, for what purpose do you rise?

SENATOR HAINE:

In opposition to the bill, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

SENATOR HAINE:

Thank you. Mr. President, Ladies and Gentlemen of the Senate, as a point of background, I represent the Wood River/Roxana area, the home of the largest refinery in the State. And my refinery

STATE OF ILLINOIS
100th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

118th Legislative Day

tells me that this bill -- and by the way, this refinery has the largest percentage of union employees of any refinery, maybe of any factory, in the State. They only bring in union AFL-CIO craftsmen, laborers to pipefitters, and they're telling me a number of things. Number one, that this bill is unnecessary, that there hasn't been an instance, where there's a threat to the environment by implementing the bill. If -- if it becomes an issue next year or the year after, the Legislature is always available to remedy that. Number two, there -- there have been some federal rules changes, particularly on emissions, that are in litigation and that the refinery and the other refineries of the State - and -- and I can't speak for the other factories, although I will note that the Illinois Manufacturers are strongly opposed to this - have the same issue, and to require them to figure out what is extant in January of 2017 to now is simply costly; it brings them into a nationwide figure that we're in a State which is basically hostile to any changes in environmental regs, however reasonable. I understand fully the background of the bill. In fact, I initially was going to vote for it until I realized it goes back to 2017. But this is obviously a reaction to EPA -- national EPA Director Pruitt, who's frankly shown himself somewhat unfit for the office. That's up to the President of the United States to remedy that. But that doesn't mean the -- the -- the EPA regulations that have been mollified or modified are improvident or do anything to harm the people of Illinois or my area. And I would remind us all, again, that these refineries are regulated by the Pollution Control Board, by the national EPA, by the State EPA, I believe by the -- by IDNR, and a -- and a number of other entities. This is a national industry. The other states, which

STATE OF ILLINOIS
100th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

118th Legislative Day

would not be following this proposed bill, will look at Illinois as a place that is becoming hostile to fossil fuel refining, and they will make a competitive effort to divert some of the resources from our industries to their refineries. This happened in 2002 and '03 in California to our benefit. ConocoPhillips was debating whether to put a major CORE expansion in one of three states - one of which was California. I can't think of the other one. I feel like the former Governor of Texas. What's the other one? And the -- and one was Illinois in Wood River. And California passed a series of stringent emissions rules. The result was ConocoPhillips put four billion dollars - four billion dollars - into the Wood River refinery over a five-year period, hiring forty-two hundred union craftsmen - forty-two hundred - and brought tremendous benefits to my area as it faced the recession of '08. This is the wrong message at this time. Again, it's not necessary. If it was, it would -- I -- I'm sure the refineries could work out something. The -- the -- the -- and I speak -- I can't speak for CITGO and the other refineries, although I've been in contact with the person representing them. This bill does not specifically spell out actual cases where the Illinois agencies or statutes have failed -- failed the people of Illinois in pollution. This is obviously an effort to rebuke the Trump administration and Director Pruitt - and I'm all for that. I think that's great - if it didn't impact the business environment in Illinois. Every -- we are a low-energy State. We have many things that we did to encourage these expansions, and this is a signal we're going in the opposite direction. It is a bad signal at this time and -- and I don't -- again, I must say again, to reiterate, it's not necessary. If there's a demonstration that we need to tighten, if

there's something Pruitt has done that has harmed the air quality in my area, I'd like to know about it. I know of no such act and I -- I have a great and abiding respect for the sponsor and his beliefs and his acumen. After all, he's a professor. I'm a mere lawyer. But in all seriousness, I have a high regard for him and his -- and his proposals are well-meant. In this case, I think this is injurious to the business environment, to the manufacturing base of Illinois, which we're struggling to maintain. And I would respectfully ask for an -- a No vote. Thank you.

(Secretary reads title of bill)

3rd Reading of the bill.

PRESIDING OFFICER: (SENATOR LINK)

Senator Holmes, on your bill.

SENATOR HOLMES:

Thank you so much, Mr. President. This is actually an extremely simple bill. It allows school districts to determine the schedule and frequency of physical education, provided that pupils in kindergarten through grade 12 shall engage in P.E. for a minimum of a hundred and fifty minutes per week. Currently, what they are mandated to do is to have P.E. three to five days per week. This bill changes that to a hundred and fifty minutes. So, therefore, they can divide that time up and have the flexibility to fit it into their day. I would ask for an Aye vote.

PRESIDING OFFICER: (SENATOR LINK)

Is there any discussion? Senator Righter, for what purpose do you rise?

It's my recollection that we changed the issue of the physical education mandate just maybe last year. Is that -- is that correct?

PRESIDING OFFICER: (SENATOR LINK)

Senator Holmes.

SENATOR HOLMES:

Yes.

PRESIDING OFFICER: (SENATOR LINK)

Senator Righter.

SENATOR RIGHTER:

And I don't know -- I don't know if you voted for the bill, the comprehensive agreement that changed the education funding formula and those issues. I certainly did. I think a broad bipartisan majority in this Chamber voted for that. It -- it -- seeing that that had passed just last year, what -- give me your thoughts on why it's appropriate now, before we've really even given that a chance to work, why -- why it's appropriate to change the law again?

PRESIDING OFFICER: (SENATOR LINK)

Senator Holmes.

SENATOR HOLMES:

It's just allowing the schools more flexibility. Three to five days a week is what is mandated in the bill you are referencing. All we're doing is changing it to a hundred and fifty minutes, which means you can divide that up. If you prefer to do it as three days of P.E. for fifty minutes, you can. If you prefer to do five days for thirty minutes, you can. It allows the school that flexibility.

Senator Righter.

SENATOR RIGHTER:

It -- it's my understanding, Senator, right -- current law is three days a week. If you have thirty-minute periods, this equates to five days a week. So how is it that this isn't an increase on the mandate on schools with regards to P.E.?

PRESIDING OFFICER: (SENATOR LINK)

Senator Holmes.

SENATOR HOLMES:

Every school is different. This is allowing flexibility by putting it into minutes.

PRESIDING OFFICER: (SENATOR LINK)

Senator Righter.

SENATOR RIGHTER:

To the bill, if I might, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR RIGHTER:

Thank you very much, Mr. President. Ladies and Gentlemen of the Chamber, last year the General Assembly passed and the Governor signed a landmark reform with regards to public education funding and related issues, and this was one of 'em. A broad bipartisan majority in both Chambers said we're going to give school districts a little bit of a break on the P.E. mandate and say it's going to be three days a week. Only in the Capitol Building would we suggest that we are giving schools more flexibility by telling them exactly how many minutes their kids have to do P.E. This is a step backward from the agreement that we had last year. I think -- my suggestion - I think others would agree - that we let the

reform that we passed just last year work for school districts. Let the school districts come to us and say we like this, we don't like this, we'd like this changed, before we jump right in and changing things again. Thank you, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

Senator Tracy, for what purpose do you rise?

SENATOR TRACY:

Thank you. I rise in support of the -- this bill actually and, if I could, I'd like to speak to the bill.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR TRACY:

What Senator Righter said is true; however, what I've heard from my downstate school districts is that the type of mandate relief they were seeking wasn't relief from P.E. They wanted relief from various assorted other things. But what they did say is they like the idea of flexibility. We can accomplish both purposes. We can have the flexibility for those school districts who are finding that their students can't meet all their curriculum requirements because they have to have so many days of P.E., and so they still retain that flexibility and that relief from the mandate. However, downstate school districts who do not have that wide of a curriculum choice or those that have a lot of sports participation and they allow those students to opt out of the regular P.E., they would prefer having the minutes, because they recognize that their teachers need to have students who have some time off to have a release valve. P.E. serves a very important purpose in our -- our education system. Adams County was just announced as the most obese county in the State. Now that doesn't

STATE OF ILLINOIS
100th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

118th Legislative Day

make me happy, but it is certainly - however they determine that. But that being said, we have to recognize that children need all types of educational activity in the classroom, but also outside as a release valve. So I think this makes perfect sense. I had asked that it be included when we did the original education bill. We didn't have time to get to the -- the main substance of that education bill. So I'd -- I'd ask everybody to give this a close look, because we're -- we're accomplishing both purposes. We're allowing schools that need the -- the relief -- the relief. Those that don't still have the option to put as many minutes in and give those teachers and those students, most importantly, some activity, learn about health and nutrition and all that -- that's covered in physical education. Thank you, Mr. -- thank you, Mr...

PRESIDING OFFICER: (SENATOR LINK)

PRESIDING OFFICER: (SENATOR LINK)

SENATOR BERTINO-TARRANT:

Senator, can you tell me what happens during a school week, if it's a shortened school week, to those a hundred and fifty minutes? They only have four days of school. Are they still required to get those a hundred and fifty minutes in?

PRESIDING OFFICER: (SENATOR LINK)

Senator Holmes.

SENATOR HOLMES:

The -- the bill is a hundred and fifty minutes a week.

STATE OF ILLINOIS

118th Legislative Day

5/2/2018

PRESIDING OFFICER: (SENATOR LINK)

Senator Bertino-Tarrant.

SENATOR BERTINO-TARRANT:

So what I'm understanding is that if it -- if we have a shortened school week, then some other class is going to have to reschedule somehow to make sure that P.E. has their hundred and fifty minutes. We may have to take away ten minutes from math every week or ten minutes from English every week.

PRESIDING OFFICER: (SENATOR LINK)

Senator Holmes.

SENATOR HOLMES:

I would not discuss and make the decision of what the school should do. What I'm telling the schools they're going to be doing is doing a hundred and fifty-minutes of P.E. per week, because we understand the impact of physical activity on a child's ability to learn and to retain information. We also understand that it is a nationwide problem, the obesity crisis in this country and how much money it costs all of us when we see the health effects of this obesity. So I'm going to stand here and say, you know what, P.E. is a mandate on our schools, always has been, still is, just like math and English and science are, and the schools, I trust, will have the expertise and experience to figure out how best to incorporate this into their school day.

SENATOR BERTINO-TARRANT:

My concern is -- people know very well my -- my concern with the eleventh -- eleventh-hour additions that were put onto our education funding bill. I'm going to take it from -- at a different perspective. I've heard the obesity argument. P.E.'s been a mandate since the 1950s, so I'm sure the P.E. teachers do not want that hanging over their head. Secondly, there is no other subject that has mandated minutes. English does not have mandated minutes, math does not have mandated minutes, economics does not have mandated minutes. So to prioritize this over other subjects is -- is very concerning to me. I appreciate P.E. If this was a bill to take out P.E., I'd be the first one standing up here arguing against it. P.E. is definitely necessary. But so is music, so is art, so is English, so is speech, and we don't mandate minutes for them. Again, I understand the brain research very, very carefully. And -- and the reality, if we really wanted that to work, we'd all be starting our day off with P.E., because a seventh-hour P.E. class really doesn't help with the brain research when, after they're leaving, they're leaving school. Again, this -- I understand the need for P.E. I support P.E. in schools. I would never ask for the removal, but this is about being reasonable. You can achieve a strong physical education class without mandating minutes. Thank you.

SENATOR ROONEY:

Mr. President, I would just echo the comments of Senator Bertino-Tarrant. I completely agree. This bill doesn't reflect the way a school works. The -- the -- the P.E. mandate relief, as it was called, was a silly idea from the beginning. It shouldn't have been in the bill. But to fix it with another silly way of going about it doesn't make any sense to me. One example, you take a school on a block schedule, where they happen to have the every other day periods. When it falls where the kind of day that they have gym is only Tuesday and Thursday, they're still following the minutes requirement spirit, but there's no way they can meet two hundred and twenty-five minutes in that one week. Every time you do something like this that says it has to be this many per week, a school just doesn't work that way. You'll have the Monday off, but yet there's this, still, statutory requirement. And to -- to get up here and say, well, we understand that schools will meet that requirement as best they can - yes, I'm sure they will. The point is, they shouldn't have to. They should be able to make it fit the way it fits. I wish the P.E. "mandate relief", quote, unquote, never made it into this. But to take a silly provision and try to fix it with an equally silly provision, I -- I don't see any sense in that.

PRESIDING OFFICER: (SENATOR LINK)

Any further discussion? Seeing none, Senator Holmes, to close.

SENATOR HOLMES:

Yes, I just want to clarify one point and I -- I -- I'd like to make one point. When the Senator referenced two hundred and twenty-five minutes of P.E., that is definitely what is needed for

students above sixth grade; we are not requiring that. We are saying all students a hundred and fifty. PRESIDING OFFICER: (SENATOR LINK)

Senator Althoff, on your bill.

SENATOR ALTHOFF:

Thank you, Mr. President. This is a trailer bill of such. Senate Bill 2696 completes the transfer of property from the State of Illinois to the Fox Waterway Agency, which is a quasi-State government. This will help in its self-sufficiency. It will eliminate the need for the Department of Natural Resources to carry insurance on these properties. There is the required provision that the State does have the right of first refusal in the event that the Waterway would be forced to get rid of the property. Ask for an Aye vote.

SENATOR ALTHOFF:

Thank you, Mr. President. Senate Bill 2773 enables local units of government to permissively use IFA, or the Illinois Finance Authority, for bond financing of property assessed clean energy projects on privately owned commercial, industrial, non-residential agricultural, or multi-family real estate. It lowers the cost of these projects and it creates clean-energy jobs. For the Body's notice, historically the IFA has served as the primary statewide conduit for the public financing of these types of projects and is voluntarily undertaken by private borrowers, like health care systems, educational institutions, small manufacturing -- small manufacturers, and others like this. This preserves jobs and attracts businesses to Illinois. I know of no opposition and I would ask for an Aye vote.

So, this amendment -- this bill, basically, essentially, requires the EPA to publish a copy of every Compliance Commitment Agreement on the Agency's website. This is a compromise which addresses the issue of the Rauner EPA refusing or failing to disclose Compliance Commitment Agreements. This is -- this amendment cleared up a -- a lot of opponents that were against this bill in its initial introduction. But this was through negotiations and so I'd ask for a favorable vote.
