***Explanation of Content:** The content available for previous General Assemblies varies; the earlier the GA, the less information that is available in a usable electronic format. When a previous GA is selected, a menu will be presented showing the content available for that particular GA. Types of content available include: Legislation - Bill Status and Full Text options, Votes (Senate) / Roll Calls (House), Public Acts, Members, Committees, Journals by legislative day and calendar date, Transcripts - Floor debate transcriptions by legislative day and calendar date (transcripts from older GAs are scanned images), and Summary Reports - various reports on the selected GA (older versions are scanned images).

All of the headings at the top of the Home page will now be targeting the information for the Previous General Assembly selected (For our example that would be the 103rd General Assembly) along with the links displayed on the Home page.
