1 AMENDMENT TO HOUSE BILL 1807

2 AMENDMENT NO. \_\_\_\_\_. Amend House Bill 1807 by replacing  
3 everything after the enacting clause with the following:

4 "Section 5. The Nurse Practice Act is amended by changing  
5 Sections 60-5 and 60-10 as follows:

6 (225 ILCS 65/60-5)

7 (Section scheduled to be repealed on January 1, 2028)

8 Sec. 60-5. Registered professional nursing education  
9 programs. ~~RN education program requirements; out of State~~  
10 ~~programs.~~

11 (a) The purpose of nursing education rules and regulations  
12 is to ensure that graduates of nursing education programs are  
13 prepared for safe and effective nursing practice. Early  
14 intervention when standards are not met assists programs in  
15 making improvements before warning signs are evident and  
16 before sanctions are necessary. The purpose of Board and

1 Department approval of a registered professional nursing  
2 education program is to do the following:

3 (1) promote the safe practice of nursing by  
4 implementing standards for individuals seeking licensure  
5 as registered nurses;

6 (2) grant regulatory recognition to nursing education  
7 programs that the Board and the Department determine have  
8 met established standards;

9 (3) ensure graduates meet the educational and legal  
10 requirements for the level of licensure that the graduates  
11 are seeking;

12 (4) facilitate graduates' endorsement to other states,  
13 territories, and countries as appropriate; and

14 (5) provide the public and prospective students with a  
15 published list of approved nursing programs that meet the  
16 standards established by law and the Board's rules.

17 (b) To establish a new registered professional nursing  
18 education program, the proposed program's administrator must  
19 notify the Department of the intention to establish a new  
20 program. The Department may approve the proposed program after  
21 a recommendation from the Board, upon the successful  
22 completion of the following process and a site visit:

23 (1) The proposed program must provide a feasibility  
24 study that includes the following information to the  
25 Board:

26 (A) governing institution approval and ongoing

1 support;

2 (B) evidence of adequate institutional financial  
3 support that can be provided to the program on an  
4 ongoing basis;

5 (C) availability of educational resources, such as  
6 human resources, physical resources (including access  
7 to a library), clinical resources, and technical  
8 learning resources;

9 (D) evidence of the institution meeting the Board  
10 of Higher Education's requirements and the  
11 accreditation requirements by a national accrediting  
12 body recognized by the United States Department of  
13 Education;

14 (E) evidence of the nursing program actively  
15 seeking pre-accreditation or candidate accreditation  
16 from a national accrediting body for nursing education  
17 recognized by the United States Department of  
18 Education;

19 (F) evidence of adequate numbers of clinical  
20 partnerships;

21 (G) availability of qualified faculty members and  
22 employment of a program director whose qualifications  
23 must meet the requirements set forth by the  
24 Department; and

25 (H) a proposed timeline for initiating the  
26 program.

1           (2) After the feasibility study has been submitted to  
2           the Department, the proposed program must complete the  
3           following program components and processes and submit  
4           verification of completion to the Department:

5                   (A) development of a comprehensive program  
6                   curriculum;

7                   (B) submission of the program's ongoing systematic  
8                   evaluation plan;

9                   (C) establishment of policies for student  
10                  admission, progression, retention, and graduation; and

11                  (D) establishment of policies and strategies to  
12                  address students' needs, including those with  
13                  documented disabilities.

14           (c) Nursing education rules must be based on  
15           evidence-based criteria and used to monitor the quality of a  
16           registered professional nursing education program. All  
17           registered professional nursing education programs must meet  
18           the following requirements:

19                   (1) The program must have written and published  
20                   criteria for student admission, progression, and  
21                   performance.

22                   (2) The written policies and procedures of the program  
23                   must be reviewed and approved by the program's identified  
24                   governing body and be readily accessible according to  
25                   accreditation standards.

26                   (3) The program must have policies in place that hold

1 students responsible for professional behavior, including  
2 honesty and integrity, as outlined in the program's  
3 policies or student handbook. Such handbook or policies  
4 should be made available to the Department upon request.

5 (4) The administrator of the program must (i) hold a  
6 graduate degree in nursing, (ii) have a minimum of 2 years  
7 of clinical nursing and nursing education experience,

9 a registered nurse in this State, (iv) have institutional  
10 authority and administrative responsibility over the  
11 program, and (v) be responsible for submitting the

14 deadline.

24 a registered nurse in this State and a graduate degree  
25 in nursing, if the faculty member teaches clinical,  
26 lab, or simulation experience courses.

1       A faculty member who does not hold a graduate degree in  
2 nursing, but who holds a bachelor's degree in nursing, may  
3 teach didactic nursing, clinical, lab, or simulation  
4 experience courses if the faculty member obtains a waiver from  
5 the Division of Professional Regulation. A faculty member who  
6 does not meet the requirements of paragraph (2) of this  
7 subsection but who obtains a waiver to teach shall be  
8 supervised by a faculty member with a graduate degree in  
9 nursing. No more than 20% of a program's faculty may have a

14 populations across the life span;

15 (4) combined with clinical experiences, prepare the  
16 graduate to take the NCLEX-RN exam for licensure;

2 (h) A professional nursing education program shall not use  
3 simulation as a substitute for traditional clinical  
4 experiences for more than 25% of a course's total clinical  
5 hours. Programs may seek an exception to this subsection from  
6 the Board and must follow the requirements set forth in the  
7 "Guidelines for the Use of Simulation by Prelicensure Nursing  
8 Programs" as published on the Department's website.

12 (i) The program's resources must be sufficient to support  
13 the program's needs to meet its mission, goals, and outcomes.  
14 The program must provide accessibility resources to all  
15 students, including those enrolled in distance education, and  
16 institutional resources that assist students with academic and  
17 financial challenges.

23 within 30 days after receipt.

24 (k) If the Department obtains evidence at any time that a  
25 registered professional nursing program does not comply with  
26 this Act, the Department may perform an unannounced site

1 visit. The Department shall have the discretion to determine  
2 if a complaint is unwarranted and not have to conduct a site  
3 visit. Such evidence may include, but is not limited to, the  
4 following:

14 The Department has the discretion to determine if a  
15 complaint is unwarranted and if a site visit must be  
16 conducted.

17 (1) No program shall be placed on probation until calendar  
18 year 2026 NCLEX results can be measured. Any program with  
19 NCLEX pass rates for calendar year 2026 less than 75% shall  
20 receive a written warning of noncompliance from the Division  
21 of Professional Regulation of the Department of Financial and  
22 Professional Regulation pursuant to Title 68, Part 1300,  
23 Section 340 of the Illinois Administrative Code, except the
