LRB104 08243 AAS 26206 a

1 AMENDMENT TO HOUSE BILL 2863

2 AMENDMENT NO. \_\_\_\_\_. Amend House Bill 2863 by replacing  
3 everything after the enacting clause with the following:

4 "Section 5. The Public Utilities Act is amended by  
5 changing Section 9-210.5 as follows:

6 (220 ILCS 5/9-210.5)

7 (Section scheduled to be repealed on June 1, 2028)

8 Sec. 9-210.5. Valuation of water and sewer utilities.

9 (a) In this Section:

10 "Disinterested" means that the person directly  
11 involved (1) is not a director, officer, or an employee of  
12 the large public utility or the water or sewer utility or  
13 its direct affiliates or subsidiaries for at least 12  
14 months before becoming engaged under this Section; (2)  
15 shall not derive a material financial benefit from the  
16 sale of the water or sewer utility other than fees for

1 services rendered, and (3) shall not have a member of the  
2 person's immediate family, including a spouse, parents or  
3 spouse's parents, children or spouses of children, or  
4 siblings and their spouses or children, be a director,  
5 officer, or employee of either the large public utility or  
6 water or sewer utility or the water or sewer utility or its  
7 direct affiliates or subsidiaries for at least 12 months  
8 before becoming engaged under this Section or receive a  
9 material financial benefit from the sale of the water or  
10 sewer utility other than fees for services rendered.

11 "District" means a service area of a large public  
12 utility whose customers are subject to the same rate  
13 tariff.

14 "Large public utility" means an investor-owned public  
15 utility that:

16 (1) is subject to regulation by the Illinois  
17 Commerce Commission under this Act;

18 (2) regularly provides water or sewer service to  
19 more than 15,000 customer connections;

20 (3) provides safe and adequate service; and

21 (4) is not a water or sewer utility as defined in  
22 this subsection (a).

23 "Next rate case" means a large public utility's first  
24 general rate case after the date the large public utility  
25 acquires the water or sewer utility where the acquired  
26 water or sewer utility's cost of service is considered as

1 part of determining the large public utility's resulting  
2 rates.

3 "Prior rate case" means a large public utility's  
4 general rate case resulting in the rates in effect for the  
5 large public utility at the time it acquires the water or  
6 sewer utility.

7 "Utility service source" means the water or sewer  
8 utility or large public utility from which the customer  
9 receives its utility service type.

10 "Utility service type" means water utility service or  
11 sewer utility service or water and sewer utility service.

12 "Water or sewer utility" means any of the following:

13 (1) a public utility that regularly provides water  
14 or sewer service to 6,000 or fewer customer  
15 connections;

16 (2) a water district, including, but not limited  
17 to, a public water district, water service district,  
18 or surface water protection district, or a sewer  
19 district of any kind established as a special district  
20 under the laws of this State that regularly provides  
21 water or sewer service;

22 (3) a waterworks system or sewerage system  
23 established under the Township Code that regularly  
24 provides water or sewer service; or

25 (4) a water system or sewer system owned by a  
26 municipality that regularly provides water or sewer

1 service; and

2 (5) any other entity that is not a public utility  
3 that regularly provides water or sewer service.

4 (b) Notwithstanding any other provision of this Act, a  
5 large public utility that acquires a water or sewer utility  
6 may request that the Commission use, and, if so requested, the  
7 Commission shall use, the procedures set forth under this  
8 Section to establish the ratemaking rate base of that water or  
9 sewer utility at the time when it is acquired by the large  
10 public utility.

11 (c) If a large public utility elects the procedures under  
12 this Section to establish the rate base of a water or sewer  
13 utility that it is acquiring, then 3 appraisals shall be  
14 performed. The average of these 3 appraisals shall represent  
15 the fair market value of the water or sewer utility that is  
16 being acquired. The appraisals shall be performed by 3  
17 appraisers approved by the Commission's Executive Director or  
18 designee and engaged by either the water or sewer utility  
19 being acquired or by the large public utility. Each appraiser  
20 shall be engaged on reasonable terms approved by the  
21 Commission. Each appraiser shall be a disinterested person  
22 licensed as a State certified general real estate appraiser  
23 under the Real Estate Appraiser Licensing Act of 2002.

24 Each appraiser shall:

25 (1) be sworn to determine the fair market value of the  
26 water or sewer utility by establishing the amount for

1           which the water or sewer utility would be sold in a  
2           voluntary transaction between a willing buyer and willing  
3           seller under no obligation to buy or sell;

4           (2) determine fair market value in compliance with the  
5           Uniform Standards of Professional Appraisal Practice;

6           (3) engage one disinterested engineer who is licensed  
7           in this State, and who may be the same engineer that is  
8           engaged by the other appraisers, to prepare an assessment  
9           of the tangible assets of the water or sewer utility,  
10          which is to be incorporated into the appraisal under the  
11          cost approach;

12          (4) request from the manager of the Accounting  
13          Department, if the water or sewer utility is a public  
14          utility that is regulated by the Commission, a list of  
15          investments made by the water or sewer utility that had  
16          been disallowed previously and that shall be excluded from  
17          the calculation of the large public utility's rate base in  
18          its next rate case; and

19          (5) return their appraisal, in writing, to the water  
20          or sewer utility and large public utility in a reasonable  
21          and timely manner.

22          If the appraiser cannot engage an engineer, as described  
23          in paragraph (3) of this subsection (c), within 30 days after  
24          the appraiser is engaged, then the Commission's Executive  
25          Director or designee shall recommend the engineer the  
26          appraiser should engage. The Commission's Executive Director

1 or designee shall provide his or her recommendation within 30  
2 days after he or she is officially notified of the appraiser's  
3 failure to engage an engineer and the appraiser shall promptly  
4 work to engage the recommended engineer. If the appraiser is  
5 unable to negotiate reasonable engagement terms with the  
6 recommended engineer within 15 days after the recommendation  
7 by the Commission's Executive Director or designee, then the  
8 appraiser shall notify the Commission's Executive Director or  
9 designee and the process shall be repeated until an engineer  
10 is successfully engaged.

11 (d) The lesser of (i) the purchase price or (ii) the fair  
12 market value determined under subsection (c) of this Section  
13 shall constitute the rate base associated with the water or  
14 sewer utility as acquired by and incorporated into the rate  
15 base of the district designated by the acquiring large public  
16 utility under this Section, subject to any adjustments that  
17 the Commission deems necessary to ensure such rate base  
18 reflects prudent and useful investments in the provision of  
19 public utility service. The reasonable transaction and closing  
20 costs incurred by the large public utility shall be treated  
21 consistent with the applicable accounting standards under this  
22 Act. The total amount of all of the appraisers' fees to be  
23 included in the transaction and closing costs shall not exceed  
24 the greater of \$15,000 or 5% of the appraised value of the  
25 water or sewer utility being acquired. This rate base  
26 treatment shall not be deemed to violate this Act, including,

1 but not limited to, any Sections in Articles VIII and IX of  
2 this Act that might be affected by this Section. Any  
3 acquisition of a water or sewer utility that affects the  
4 cumulative base rates of the large public utility's existing  
5 ratepayers in the tariff group into which the water or sewer  
6 utility is to be combined by less than (1) 2.5% at the time of  
7 the acquisition for any single acquisition completed under  
8 this Section or (2) 5% for all acquisitions completed under  
9 this Section before the Commission's final order in the next  
10 rate case shall not be deemed to violate Section 7-204 or any  
11 other provision of this Act.

12 In the Commission's order that approves the large public  
13 utility's acquisition of the water or sewer utility, the  
14 Commission shall issue its decision establishing (1) the  
15 ratemaking rate base of the water or sewer utility; (2) the  
16 district or tariff group with which the water or sewer utility  
17 shall be combined for ratemaking purposes, if such combination  
18 has been proposed by the large public utility; and (3) the  
19 rates to be charged to customers in the water or sewer utility.

20 (e) If the water or sewer utility being acquired is owned  
21 by the State or any political subdivision thereof, then the  
22 water or sewer utility must inform the public of the terms of  
23 its acquisition by the large public utility by (1) holding a  
24 public meeting prior to the acquisition and (2) causing to be  
25 published, in a newspaper of general circulation in the area  
26 that the water or sewer utility operates, information about

1 the public meeting being held prior to the acquisition, a  
2 notice setting forth the terms of the water or sewer utility's  
3 its acquisition by the large public utility, and options that  
4 shall be available to assist customers to pay their bills  
5 after the acquisition. The water or sewer utility being  
6 acquired shall provide a notice 30 days prior to the public  
7 meeting to customers who will be affected by the acquisition.  
8 The notice shall be sent to the customers in the same manner as  
9 the customers' monthly bills, either by mail or  
10 electronically, but shall be delivered on a page separate from  
11 the bill itself and written in no less than 12-point font. The  
12 notice shall include (i) information about the public meeting  
13 being held prior to the acquisition, (ii) information on the  
14 public body that will make the decision regarding the sale of  
15 the water or sewer utility, and (iii) if available, an  
16 estimate of the capital investment needs of the water or sewer  
17 utility being acquired and a statement stating that customer  
18 rates may change in the future due to the capital investment  
19 needs.

20 (f) The large public utility may recommend the district or  
21 tariff group of which the water or sewer utility shall, for  
22 ratemaking purposes, become a part after the acquisition, or  
23 may recommend a lesser rate for the water or sewer utility. If  
24 the large public utility recommends a lesser rate, it shall  
25 submit to the Commission its proposed rate schedule and the  
26 proposed final tariff group for the acquired water or sewer

1 utility. The Commission's approved district or tariff group or  
2 rates shall be consistent with the large public utility's  
3 recommendation, unless such recommendation can be shown to be  
4 contrary to the public interest.

5 (g) From the date of acquisition until the date that new  
6 rates are effective in the acquiring large public utility's  
7 next rate case, the customers of the acquired water or sewer  
8 utility shall pay the approved then-existing rates of the  
9 district or tariff group as ordered by the Commission, or some  
10 lesser rates as recommended by the large public utility and  
11 approved by the Commission under subsection (f); provided,  
12 that, if the application of such rates of the large public  
13 utility to customers of the acquired water or sewer utility  
14 using 54,000 gallons annually results in an increase to the  
15 total annual bill of customers of the acquired water or sewer  
16 utility, exclusive of fire service or related charges, then  
17 the large public utility's rates charged to the customers of  
18 the acquired water or sewer utility shall be uniformly  
19 reduced, if any reduction is required, by the percent that  
20 results in the total annual bill, exclusive of fire services  
21 or related charges, for the customers of the acquired water or  
22 sewer utility using 54,000 gallons being equal to 1.5% of the  
23 latest median household income as reported by the United  
24 States Census Bureau for the most applicable community or  
25 county. For each customer of the water or sewer utility with  
26 potable water usage values that cannot be reasonably obtained,

1 a value of 4,500 gallons per month shall be assigned. These  
2 rates shall not be deemed to violate this Act including, but  
3 not limited to, Section 9-101 and any other applicable  
4 Sections in Articles VIII and IX of this Act. The Commission  
5 shall issue its decision establishing the rates effective for  
6 the water or sewer utility immediately following an  
7 acquisition in its order approving the acquisition.

8 (h) In the acquiring large public utility's next rate  
9 case, the water or sewer utility and the district or tariff  
10 group ordered by the Commission and their costs of service may  
11 be combined under the same rate tariff. This rate tariff shall  
12 be based on allocation of costs of service of the acquired  
13 water or sewer utility and the large public utility's district  
14 or tariff group ordered by the Commission and utilizing a rate  
15 design that does not distinguish among customers on the basis  
16 of utility service source or type. This rate tariff shall not  
17 be deemed to violate this Act including, but not limited to,  
18 Section 9-101 of this Act. In the acquiring large public  
19 utility's 2 rate cases after an acquisition, but in no  
20 subsequent rate case, the large public utility may file a rate  
21 tariff for a water or sewer utility acquired under this  
22 Section that establishes lesser rates than the district or  
23 tariff group into which the water or sewer utility is to be  
24 combined. Those lesser rates shall not be deemed to violate  
25 Section 7-204 or any other provision of this Act if they affect  
26 the cumulative base rates of the large public utility's

1 existing rate payers in the district or tariff by less than  
2 2.5%.

3 (i) Any post-acquisition improvements made by the large  
4 public utility in the water or sewer utility shall accrue a  
5 cost for financing set at the large public utility's  
6 determined rate for allowance for funds used during  
7 construction, inclusive of the debt, equity, and income tax  
8 gross up components, after the date on which the expenditure  
9 was incurred by the large public utility until the investment  
10 has been in service for a 4-year period or, if sooner, until  
11 the time the rates are implemented in the large public  
12 utility's next rate case.

13 Any post-acquisition improvements made by the large public  
14 utility in the water or sewer utility shall not be depreciated  
15 for ratemaking purposes from the date on which the expenditure  
16 was incurred by the large public utility until the investment  
17 has been in service for a 4-year period or, if sooner, until  
18 the time the rates are implemented in the large public  
19 utility's next rate case.

20 (j) This Section shall be exclusively applied to large  
21 public utilities in the voluntary and mutually agreeable  
22 acquisition of water or sewer utilities. Any petitions filed  
23 with the Commission related to the acquisitions described in  
24 this Section, including petitions seeking approvals or  
25 certificates required by this Act, shall be deemed approved  
26 unless the Commission issues its final order within 11 months

1 after the date the large public utility filed its initial  
2 petition. This Section shall only apply to utilities providing  
3 water or sewer service and shall not be construed in any manner  
4 to apply to electric corporations, natural gas corporations,  
5 or any other utility subject to this Act.

6 (k) Nothing in this Section shall prohibit a party from  
7 declining to proceed with an acquisition or be deemed as  
8 establishing the final purchase price of an acquisition.

9 (l) In the Commission's order that approves the large  
10 utility's acquisition of the water or sewer utility, the  
11 Commission shall address each aspect of the acquisition  
12 transaction for which approval is required under the Act.

13 (m) Any contractor or subcontractor that performs work on  
14 a water or sewer utility acquired by a large public utility  
15 under this Section shall be a responsible bidder as described  
16 in Section 30-22 of the Illinois Procurement Code. The  
17 contractor or subcontractor shall submit evidence of meeting  
18 the requirements to be a responsible bidder as described in  
19 Section 30-22 to the water or sewer utility. Any new water or  
20 sewer facility built as a result of the acquisition shall  
21 require the contractor to enter into a project labor  
22 agreement. The large public utility acquiring the water or  
23 sewer utility shall offer employee positions to qualified  
24 employees of the acquired water or sewer utility.

25 (n) This Section is repealed on June 1, 2028.

26 (Source: P.A. 102-149, eff. 1-1-22.)".
