LRB104 11426 HLH 26110 a

1 AMENDMENT TO HOUSE BILL 3374

2 AMENDMENT NO. _____. Amend House Bill 3374 by replacing
3 everything after the enacting clause with the following:

4 "Section 5. The Renewable Energy, Energy Efficiency, and
5 Coal Resources Development Law of 1997 is amended by changing
6 Section 6-2 as follows:

7 (20 ILCS 687/6-2)

8 (Section scheduled to be repealed on December 31, 2025)

9 Sec. 6-2. Findings and intent. The ~~The~~ General Assembly
10 finds and declares that it is desirable to obtain the
11 environmental quality, public health, and fuel diversity
12 benefits of developing new renewable energy resources and
13 clean coal technologies for use in Illinois and to lower the
14 cost of renewable energy resources and clean coal resources
15 provided to utility consumers. The General Assembly finds and
16 declares that the benefits of electricity from renewable

1 energy resources and clean coal technologies accrue to the
2 public at large, thus consumers and electric utilities and
3 alternative retail electric suppliers share an interest in
4 developing and using a significant level of these
5 environmentally preferable resources in the State's
6 electricity supply portfolio. The General Assembly finds and
7 declares that encouraging energy efficiency will improve the
8 environmental quality and public health in the State of
9 Illinois.
