

# HB3879

## 102ND GENERAL ASSEMBLY

### State of Illinois

2021 and 2022

HB3879

Introduced 2/22/2021, by Rep. Curtis J. Tarver, II

#### SYNOPSIS AS INTRODUCED:

20 ILCS 2205/30 new

Amends the Department of Healthcare and Family Services Law of the Civil Administrative Code of Illinois. Requires the Department of Healthcare and Family Services to designate one or more health care telementoring entities based on an application to be developed by the Department. Allows approved applicants from Illinois to be eligible for State funding in accordance with rules developed by the Department. Provides that funding shall be provided based on the number of physicians who are assisted by each approved health care telementoring entity and the hours of assistance provided to each physician. Defines "health care telementoring".

LRB102 02639 KTG 12642 b

A BILL FOR

1 AN ACT concerning State government.

2 **Be it enacted by the People of the State of Illinois,**  
3 **represented in the General Assembly:**

4 Section 5. The Department of Healthcare and Family  
5 Services Law of the Civil Administrative Code of Illinois is  
6 amended by adding Section 30 as follows:

7 (20 ILCS 2205/30 new)

8 Sec. 30. Health care telementoring.

9 (a) The Department of Healthcare and Family Services shall  
10 designate one or more health care telementoring entities based  
11 on an application to be developed by the Department of  
12 Healthcare and Family Services. Applicants shall demonstrate a  
13 record of expertise and demonstrated success in providing  
14 health care telementoring services. Approved applicants from  
15 Illinois shall be eligible for State funding in accordance  
16 with rules developed by the Department of Healthcare and  
17 Family Services. Funding shall be provided based on the number  
18 of physicians who are assisted by each approved health care  
19 telementoring entity and the hours of assistance provided to  
20 each physician.

21 (b) In this Section, "health care telementoring" means a  
22 program:

23 (1) based on interactive video technology that

1 connects groups of community health care providers in  
2 urban and rural underserved areas with specialists in  
3 regular real-time collaborative sessions;

4 (2) designed around case-based learning and  
5 mentorship; and

6 (3) that helps local health care providers gain the  
7 expertise required to more effectively provide needed  
8 services.

9 "Health care telementoring" includes, but is not limited  
10 to, a program provided to improve services in a variety of  
11 areas, including, but not limited to, adolescent health,  
12 Hepatitis C, complex diabetes, geriatrics, mental illness,  
13 opioid use disorders, substance use disorders, maternity care,  
14 childhood adversity and trauma, pediatric ADHD, and other  
15 priorities identified by the Department of Healthcare and  
16 Family Services.
