(C) create the lesser of 50 new full-time employee jobs or new full-time employee jobs equivalent to 10% of the Statewide baseline applicable to the taxpayer and any related member at the time of application.

(d) For agreements entered into prior to April 19, 2022 (the effective date of Public Act 102-700), for any applicant creating the full-time employee jobs noted in subsection (c), those jobs must have a total compensation equal to or greater than 120% of the average wage paid to full-time employees in the county where the project is located, as determined by the U.S. Bureau of Labor Statistics. For agreements entered into on or after April 19, 2022 (the effective date of Public Act 102-700), for any applicant creating the full-time employee jobs noted in subsection (c), those jobs must have a compensation equal to or greater than 120% of the average wage paid to full-time employees in a similar position within an occupational group in the county where the project is located, as determined by the Department.

(e) For any applicant, within 24 months after being placed in service, it must certify to the Department that it is carbon neutral or has attained certification under one of more of the following green building standards:
(1) BREEAM for New Construction or BREEAM In-Use;

(2) ENERGY STAR;

(3) Envision;

(4) ISO 50001 - energy management;

(5) LEED for Building Design and Construction or LEED for Building Operations and Maintenance;

(6) Green Globes for New Construction or Green Globes for Existing Buildings; or

(7) UL 3223.

(f) Each applicant must outline its hiring plan and commitment to recruit and hire full-time employee positions at the project site. The hiring plan may include a partnership with an institution of higher education to provide internships, including, but not limited to, internships supported by the Clean Jobs Workforce Network Program, or full-time permanent employment for students at the project site. Additionally, the applicant may create or utilize participants from apprenticeship programs that are approved by and registered with the United States Department of Labor's Bureau of Apprenticeship and Training. The applicant may apply for apprenticeship education expense credits in accordance with the provisions set forth in 14 Ill. Adm. Code 522. Each applicant is required to report annually, on or before April 15, on the diversity of its workforce in accordance with Section 50 of this Act. For existing facilities of applicants under paragraph (3) of subsection (b) above, if the taxpayer
expects a reduction in force due to its transition to manufacturing electric vehicle, electric vehicle component parts, or electric vehicle power supply equipment, the plan submitted under this Section must outline the taxpayer's plan to assist with retraining its workforce aligned with the taxpayer's adoption of new technologies and anticipated efforts to retrain employees through employment opportunities within the taxpayer's workforce.

(g) Each applicant must demonstrate a contractual or other relationship with a recycling facility, or demonstrate its own recycling capabilities, at the time of application and report annually a continuing contractual or other relationship with a recycling facility and the percentage of batteries used in electric vehicles recycled throughout the term of the agreement.

(h) A taxpayer may not enter into more than one agreement under this Act with respect to a single address or location for the same period of time. Also, a taxpayer may not enter into an agreement under this Act with respect to a single address or location for the same period of time for which the taxpayer currently holds an active agreement under the Economic Development for a Growing Economy Tax Credit Act. This provision does not preclude the applicant from entering into an additional agreement after the expiration or voluntary termination of an earlier agreement under this Act or under the Economic Development for a Growing Economy Tax Credit Act.
to the extent that the taxpayer's application otherwise satisfies the terms and conditions of this Act and is approved by the Department. An applicant with an existing agreement under the Economic Development for a Growing Economy Tax Credit Act may submit an application for an agreement under this Act after it terminates any existing agreement under the Economic Development for a Growing Economy Tax Credit Act with respect to the same address or location. If a project that is subject to an existing agreement under the Economic Development for a Growing Economy Tax Credit Act meets the requirements to be designated as a REV Illinois project under this Act, including for actions undertaken prior to the effective date of this Act, the taxpayer that is subject to that existing agreement under the Economic Development for a Growing Economy Tax Credit Act may apply to the Department to amend the agreement to allow the project to become a designated REV Illinois project. Following the amendment, time accrued during which the project was eligible for credits under the existing agreement under the Economic Development for a Growing Economy Tax Credit Act shall count toward the duration of the credit subject to limitations described in Section 40 of this Act.

(i) If, at any time following the designation of a project as a REV Illinois Project by the Department and prior to the termination or expiration of an agreement under this Act, the project ceases to qualify as a REV Illinois project because
the taxpayer is no longer an electric vehicle manufacturer, an
electric vehicle component manufacturer, an electric vehicle
power supply equipment manufacturer, a battery recycling and
reuse manufacturer, or a battery raw materials refining
service provider, that project may receive tax credit awards
as described in Section 5-15 and Section 5-51 of the Economic
Development for a Growing Economy Tax Credit Act, as long as
the project continues to meet requirements to obtain those
credits as described in the Economic Development for a Growing
Economy Tax Credit Act and remains compliant with terms
contained in the Agreement under this Act not related to their
status as an electric vehicle manufacturer, an electric
vehicle component manufacturer, an electric vehicle power
supply equipment manufacturer, a battery recycling and reuse
manufacturer, or a battery raw materials refining service
provider. Time accrued during which the project was eligible
for credits under an agreement under this Act shall count
toward the duration of the credit subject to limitations
described in Section 5-45 of the Economic Development for a
Growing Economy Tax Credit Act.

The percentage of training costs includable in the calculation may be increased by an additional 15% for training costs associated with new employees that are recent (2 years or less) graduates, certificate holders, or credential recipients from an institution of higher education in Illinois, or, if the training is provided by an institution of higher education in Illinois, the Clean Jobs Workforce Network Program, or an apprenticeship and training program located in Illinois and approved by and registered with the

If an applicant agrees to hire the required number of new employees, then the maximum amount of the credit for that applicant may be increased by an amount not to exceed 75% of the incremental income tax attributable to retained employees at the applicant's project; provided that, in order to receive the increase for retained employees, the applicant must, if applicable, meet or exceed the statewide baseline. If the Project is in an underserved area or an energy transition area, the maximum amount of the credit attributable to retained employees for the applicant may be increased to an amount not to exceed 100% of the incremental income tax attributable to retained employees at the applicant's project; provided that, in order to receive the increase for retained employees, the applicant must meet or exceed the statewide baseline. The REV Construction Jobs Credit may not exceed 75% of the amount of the incremental income tax attributable to construction wages paid in connection with construction of the project facilities if the project is in an underserved area or an energy transition area.

(d) The Department shall certify to the Department of Revenue: (1) the identity of Taxpayers that are eligible for the REV Illinois Credit and REV Construction Jobs Credit; (2) the amount of the REV Illinois Credits and REV Construction Jobs Credits awarded in each calendar year; and (3) the amount of the REV Illinois Credit and REV Construction Jobs Credit claimed in each calendar year. Reports are due no later than May 31 of each year and shall cover the previous calendar year. The first report is for the 2022 calendar year and is due no later than May 31, 2023. For applicants issued a certificate of exemption under Section 105 of this Act, the report shall be the same as required for a High Impact Business under subsection (a-5) of Section 8.1 of the Illinois Enterprise Zone Act. Each person required to file a return under the Gas Revenue Tax Act, the Electricity Excise Tax Law, or the Telecommunications Excise Tax Act shall file a report containing information about customers that are issued an exemption certificate under Section 95 of this Act in the same manner and form as they are required to report under subsection (b) of Section 8.1 of the Illinois Enterprise Zone Act.

(g) Nothing in this Act shall prohibit an award of credit
to an applicant that uses a PEO if all other award criteria are satisfied.

(h) With respect to any portion of a REV Illinois Credit that is based on the incremental income tax attributable to new employees or retained employees, in lieu of the Credit allowed under this Act against the taxes imposed pursuant to subsections (a) and (b) of Section 201 of the Illinois Income Tax Act, a taxpayer that otherwise meets the criteria set forth in this Section, the taxpayer may elect to claim the credit, on or after January 1, 2025, against its obligation to pay over withholding under Section 704A of the Illinois Income Tax Act. The credit may be stated as a percentage of the incremental income tax and training costs attributable to the applicant's project and may include a fixed dollar limitation.

The purpose of the Fund is to offer loans to finance large firms considering the location of a proposed plant in the State and to provide financing to carry out the purposes and provisions of paragraph (h) of Section 10-3. Financing shall be in the form of a loan, mortgage, or other debt instrument. All loans shall be conditioned on the project receiving financing from participating lenders or other sources. Loan proceeds shall be available for project costs associated with an expansion of business capacity and employment, except for debt refinancing. Targeted companies for the program shall primarily consist of established industrial and service companies with proven records of earnings that will sell their product to markets beyond Illinois and have proven multistate location options. New ventures shall be considered only if the entity is protected with adequate security with regard to its financing and operation. The limitations and conditions with respect to the

Section 920. The Illinois Income Tax Act is amended by changing Sections 236, 237, and 704A as follows:

(35 ILCS 5/236)

(a) For tax years beginning on or after January 1, 2025, a taxpayer who has entered into an agreement under the Reimagining Energy and Electric Vehicles in Illinois Act is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of this Act in an amount to be determined in the Agreement. The taxpayer may elect to claim the credit, on or after January 1, 2025, against its obligation to pay over withholding under Section 704A of this Act as provided in paragraph (6) of subsection (b). If the taxpayer is a partnership or Subchapter S corporation, the credit shall be allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code. The Department, in cooperation with the Department of Commerce and Economic Opportunity, shall adopt rules to enforce and administer the provisions of this Section. This Section is exempt from the provisions of Section 250 of this Act.

(b) The credit is subject to the conditions set forth in the agreement and the following limitations:

(1) The tax credit may be in the form of either or both the REV Illinois Credit or the REV Construction Jobs Credit (as defined in the Reimagining Energy and Electric Vehicles in Illinois Act) and shall not exceed the percentage of incremental income tax and percentage of training costs permitted in that Act and in the agreement
with respect to the project.

(2) The amount of the credit allowed during a tax year plus the sum of all amounts allowed in prior tax years shall not exceed the maximum amount of credit established in the agreement.

(3) The amount of the credit shall be determined on an annual basis. Except as applied in a carryover year pursuant to paragraph (4), the credit may not be applied against any State income tax liability in more than 15 taxable years.

(4) The credit may not exceed the amount of taxes imposed pursuant to subsections (a) and (b) of Section 201 of this Act. Any credit that is unused in the year the credit is computed may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first.

(5) No credit shall be allowed with respect to any agreement for any taxable year ending after the noncompliance date. Upon receiving notification by the Department of Commerce and Economic Opportunity of the noncompliance of a taxpayer with an agreement, the Department shall notify the taxpayer that no credit is
allowed with respect to that agreement for any taxable 
year ending after the noncompliance date, as stated in 
such notification. If any credit has been allowed with 
respect to an agreement for a taxable year ending after 
the noncompliance date for that agreement, any refund paid 
to the taxpayer for that taxable year shall, to the extent 
of that credit allowed, be an erroneous refund within the 
meaning of Section 912 of this Act.

If, during any taxable year, a taxpayer ceases 
operations at a project location that is the subject of 
that agreement with the intent to terminate operations in 
the State, the tax imposed under subsections (a) and (b) 
of Section 201 of this Act for such taxable year shall be 
increased by the amount of any credit allowed under the 
Agreement for that Project location prior to the date the 
Taxpayer ceases operations.

(6) Instead of claiming the credit against the taxes 
imposed under subsections (a) and (b) of Section 201 of 
this Act, with respect to the portion of a REV Illinois 
Credit that is calculated based on the Incremental Income 
Tax attributable to new employees and retained employees, 
the taxpayer may elect, in accordance with the Reimagining 
Energy and Electric Vehicles in Illinois Act, to claim the 
credit, on or after January 1, 2025, against its 
obligation to pay over withholding under Section 704A of 
the Illinois Income Tax Act. Any credit for which a
Taxpayer makes such an election shall not be claimed against the taxes imposed under subsections (a) and (b) of Section 201 of this Act.
(Source: P.A. 102-669, eff. 11-16-21.)

(35 ILCS 5/237)
Sec. 237. REV Illinois Investment Tax credits.
(a) For tax years beginning on or after the effective date of this amendatory Act of the 102nd General Assembly, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of Section 201 for investment in qualified property which is placed in service at the site of a REV Illinois Project subject to an agreement between the taxpayer and the Department of Commerce and Economic Opportunity pursuant to the Reimagining Energy and Electric Vehicles in Illinois Act. For partners, shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this Section to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be 0.5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that
it would reduce a taxpayer's liability for the tax imposed by
subsections (a) and (b) of Section 201 to below zero. The
credit shall be allowed for the tax year in which the property
is placed in service, or, if the amount of the credit exceeds
the tax liability for that year, whether it exceeds the
original liability or the liability as later amended, such
excess may be carried forward and applied to the tax liability
of the 5 taxable years following the excess credit year. The
credit shall be applied to the earliest year for which there is
a liability. If there is credit from more than one tax year
that is available to offset a liability, the credit accruing
first in time shall be applied first.

(b) The term qualified property means property which:

   (1) is tangible, whether new or used, including
       buildings and structural components of buildings;

   (2) is depreciable pursuant to Section 167 of the
       Internal Revenue Code, except that "3-year property" as
       defined in Section 168(c)(2)(A) of that Code is not
       eligible for the credit provided by this Section;

   (3) is acquired by purchase as defined in Section
       179(d) of the Internal Revenue Code;

   (4) is used at the site of the REV Illinois Project by
       the taxpayer; and

   (5) has not been previously used in Illinois in such a
       manner and by such a person as would qualify for the credit
       provided by this Section.
(c) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(d) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service at the site of the REV Illinois Project by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(e) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(f) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved from the REV Illinois Project site within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of Section 201 for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this subsection (f), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.
Sec. 704A. Employer's return and payment of tax withheld.
(a) In general, every employer who deducts and withholds or is required to deduct and withhold tax under this Act on or after January 1, 2008 shall make those payments and returns as provided in this Section.

(b) Returns. Every employer shall, in the form and manner required by the Department, make returns with respect to taxes withheld or required to be withheld under this Article 7 for each quarter beginning on or after January 1, 2008, on or before the last day of the first month following the close of that quarter.

(c) Payments. With respect to amounts withheld or required to be withheld on or after January 1, 2008:

(1) Semi-weekly payments. For each calendar year, each employer who withheld or was required to withhold more than $12,000 during the one-year period ending on June 30 of the immediately preceding calendar year, payment must be made:

(A) on or before each Friday of the calendar year, for taxes withheld or required to be withheld on the immediately preceding Saturday, Sunday, Monday, or Tuesday;

(B) on or before each Wednesday of the calendar
year, for taxes withheld or required to be withheld on
the immediately preceding Wednesday, Thursday, or
Friday.

Beginning with calendar year 2011, payments made under
this paragraph (1) of subsection (c) must be made by
electronic funds transfer.

(2) Semi-weekly payments. Any employer who withholds
or is required to withhold more than $12,000 in any
quarter of a calendar year is required to make payments on
the dates set forth under item (1) of this subsection (c)
for each remaining quarter of that calendar year and for
the subsequent calendar year.

(3) Monthly payments. Each employer, other than an
employer described in items (1) or (2) of this subsection,
shall pay to the Department, on or before the 15th day of
each month the taxes withheld or required to be withheld
during the immediately preceding month.

(4) Payments with returns. Each employer shall pay to
the Department, on or before the due date for each return
required to be filed under this Section, any tax withheld
or required to be withheld during the period for which the
return is due and not previously paid to the Department.

(d) Regulatory authority. The Department may, by rule:

(1) Permit employers, in lieu of the requirements of
subsections (b) and (c), to file annual returns due on or
before January 31 of the year for taxes withheld or
required to be withheld during the previous calendar year
and, if the aggregate amounts required to be withheld by
the employer under this Article 7 (other than amounts
required to be withheld under Section 709.5) do not exceed
$1,000 for the previous calendar year, to pay the taxes
required to be shown on each such return no later than the
due date for such return.

(2) Provide that any payment required to be made under
subsection (c)(1) or (c)(2) is deemed to be timely to the
extent paid by electronic funds transfer on or before the
due date for deposit of federal income taxes withheld
from, or federal employment taxes due with respect to, the
wages from which the Illinois taxes were withheld.

(3) Designate one or more depositories to which
payment of taxes required to be withheld under this
Article 7 must be paid by some or all employers.

(4) Increase the threshold dollar amounts at which
employers are required to make semi-weekly payments under
subsection (c)(1) or (c)(2).

(e) Annual return and payment. Every employer who deducts
and withholds or is required to deduct and withhold tax from a
person engaged in domestic service employment, as that term is
defined in Section 3510 of the Internal Revenue Code, may
comply with the requirements of this Section with respect to
such employees by filing an annual return and paying the taxes
required to be deducted and withheld on or before the 15th day
of the fourth month following the close of the employer's taxable year. The Department may allow the employer's return to be submitted with the employer's individual income tax return or to be submitted with a return due from the employer under Section 1400.2 of the Unemployment Insurance Act.

(f) Magnetic media and electronic filing. With respect to taxes withheld in calendar years prior to 2017, any W-2 Form that, under the Internal Revenue Code and regulations promulgated thereunder, is required to be submitted to the Internal Revenue Service on magnetic media or electronically must also be submitted to the Department on magnetic media or electronically for Illinois purposes, if required by the Department.

With respect to taxes withheld in 2017 and subsequent calendar years, the Department may, by rule, require that any return (including any amended return) under this Section and any W-2 Form that is required to be submitted to the Department must be submitted on magnetic media or electronically.

The due date for submitting W-2 Forms shall be as prescribed by the Department by rule.

(g) For amounts deducted or withheld after December 31, 2009, a taxpayer who makes an election under subsection (f) of Section 5-15 of the Economic Development for a Growing Economy Tax Credit Act for a taxable year shall be allowed a credit against payments due under this Section for amounts withheld during the first calendar year beginning after the end of that
taxable year equal to the amount of the credit for the incremental income tax attributable to full-time employees of the taxpayer awarded to the taxpayer by the Department of Commerce and Economic Opportunity under the Economic Development for a Growing Economy Tax Credit Act for the taxable year and credits not previously claimed and allowed to be carried forward under Section 211(4) of this Act as provided in subsection (f) of Section 5-15 of the Economic Development for a Growing Economy Tax Credit Act. The credit or credits may not reduce the taxpayer's obligation for any payment due under this Section to less than zero. If the amount of the credit or credits exceeds the total payments due under this Section with respect to amounts withheld during the calendar year, the excess may be carried forward and applied against the taxpayer's liability under this Section in the succeeding calendar years as allowed to be carried forward under paragraph (4) of Section 211 of this Act. The credit or credits shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one taxable year that are available to offset a liability, the earlier credit shall be applied first. Each employer who deducts and withholds or is required to deduct and withhold tax under this Act and who retains income tax withholdings under subsection (f) of Section 5-15 of the Economic Development for a Growing Economy Tax Credit Act must make a return with respect to such taxes and retained amounts in the
form and manner that the Department, by rule, requires and pay
to the Department or to a depositary designated by the
Department those withheld taxes not retained by the taxpayer.
For purposes of this subsection (g), the term taxpayer shall
include taxpayer and members of the taxpayer's unitary
business group as defined under paragraph (27) of subsection
(a) of Section 1501 of this Act. This Section is exempt from
the provisions of Section 250 of this Act. No credit awarded
under the Economic Development for a Growing Economy Tax
Credit Act for agreements entered into on or after January 1,
2015 may be credited against payments due under this Section.

(g-1) For amounts deducted or withheld after December 31,
2024, a taxpayer who makes an election under the Reimagining
Energy and Electric Vehicles in Illinois Act shall be allowed
a credit against payments due under this Section for amounts
withheld during the first quarterly reporting period beginning
after the certificate is issued equal to the portion of the REV
Illinois Credit attributable to the incremental income tax
attributable to new employees and retained employees as
certified by the Department of Commerce and Economic
Opportunity pursuant to an agreement with the taxpayer under
the Reimagining Energy and Electric Vehicles in Illinois Act
for the taxable year. The credit or credits may not reduce the
taxpayer's obligation for any payment due under this Section
to less than zero. If the amount of the credit or credits
exceeds the total payments due under this Section with respect
to amounts withheld during the quarterly reporting period, the excess may be carried forward and applied against the taxpayer's liability under this Section in the succeeding quarterly reporting period as allowed to be carried forward under paragraph (4) of Section 211 of this Act. The credit or credits shall be applied to the earliest quarterly reporting period for which there is a tax liability. If there are credits from more than one quarterly reporting period that are available to offset a liability, the earlier credit shall be applied first. Each employer who deducts and withholds or is required to deduct and withhold tax under this Act and who retains income tax withholdings this subsection must make a return with respect to such taxes and retained amounts in the form and manner that the Department, by rule, requires and pay to the Department or to a depositary designated by the Department those withheld taxes not retained by the taxpayer.

For purposes of this subsection (g-1), the term taxpayer shall include taxpayer and members of the taxpayer's unitary business group as defined under paragraph (27) of subsection (a) of Section 1501 of this Act. This Section is exempt from the provisions of Section 250 of this Act.

(g-2) For amounts deducted or withheld after December 31, 2024, a taxpayer who makes an election under the Manufacturing Illinois Chips for Real Opportunity (MICRO) Act shall be allowed a credit against payments due under this Section for amounts withheld during the first quarterly reporting period
beginning after the certificate is issued equal to the portion of the MICRO Illinois Credit attributable to the incremental income tax attributable to new employees and retained employees as certified by the Department of Commerce and Economic Opportunity pursuant to an agreement with the taxpayer under the Manufacturing Illinois Chips for Real Opportunity (MICRO) Act for the taxable year. The credit or credits may not reduce the taxpayer's obligation for any payment due under this Section to less than zero. If the amount of the credit or credits exceeds the total payments due under this Section with respect to amounts withheld during the quarterly reporting period, the excess may be carried forward and applied against the taxpayer's liability under this Section in the succeeding quarterly reporting period as allowed to be carried forward under paragraph (4) of Section 211 of this Act. The credit or credits shall be applied to the earliest quarterly reporting period for which there is a tax liability. If there are credits from more than one quarterly reporting period that are available to offset a liability, the earlier credit shall be applied first. Each employer who deducts and withholds or is required to deduct and withhold tax under this Act and who retains income tax withholdings this subsection must make a return with respect to such taxes and retained amounts in the form and manner that the Department, by rule, requires and pay to the Department or to a depositary designated by the Department those withheld taxes
not retained by the taxpayer. For purposes of this subsection, the term taxpayer shall include taxpayer and members of the taxpayer's unitary business group as defined under paragraph (27) of subsection (a) of Section 1501 of this Act. This Section is exempt from the provisions of Section 250 of this Act.

(h) An employer may claim a credit against payments due under this Section for amounts withheld during the first calendar year ending after the date on which a tax credit certificate was issued under Section 35 of the Small Business Job Creation Tax Credit Act. The credit shall be equal to the amount shown on the certificate, but may not reduce the taxpayer's obligation for any payment due under this Section to less than zero. If the amount of the credit exceeds the total payments due under this Section with respect to amounts withheld during the calendar year, the excess may be carried forward and applied against the taxpayer's liability under this Section in the 5 succeeding calendar years. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one calendar year that are available to offset a liability, the earlier credit shall be applied first. This Section is exempt from the provisions of Section 250 of this Act.

(i) Each employer with 50 or fewer full-time equivalent employees during the reporting period may claim a credit against the payments due under this Section for each qualified
employee in an amount equal to the maximum credit allowable. The credit may be taken against payments due for reporting periods that begin on or after January 1, 2020, and end on or before December 31, 2027. An employer may not claim a credit for an employee who has worked fewer than 90 consecutive days immediately preceding the reporting period; however, such credits may accrue during that 90-day period and be claimed against payments under this Section for future reporting periods after the employee has worked for the employer at least 90 consecutive days. In no event may the credit exceed the employer's liability for the reporting period. Each employer who deducts and withholds or is required to deduct and withhold tax under this Act and who retains income tax withholdings under this subsection must make a return with respect to such taxes and retained amounts in the form and manner that the Department, by rule, requires and pay to the Department or to a depositary designated by the Department those withheld taxes not retained by the employer.

For each reporting period, the employer may not claim a credit or credits for more employees than the number of employees making less than the minimum or reduced wage for the current calendar year during the last reporting period of the preceding calendar year. Notwithstanding any other provision of this subsection, an employer shall not be eligible for credits for a reporting period unless the average wage paid by the employer per employee for all employees making less than
$55,000 during the reporting period is greater than the average wage paid by the employer per employee for all employees making less than $55,000 during the same reporting period of the prior calendar year.

For purposes of this subsection (i):

"Compensation paid in Illinois" has the meaning ascribed to that term under Section 304(a)(2)(B) of this Act.

"Employer" and "employee" have the meaning ascribed to those terms in the Minimum Wage Law, except that "employee" also includes employees who work for an employer with fewer than 4 employees. Employers that operate more than one establishment pursuant to a franchise agreement or that constitute members of a unitary business group shall aggregate their employees for purposes of determining eligibility for the credit.

"Full-time equivalent employees" means the ratio of the number of paid hours during the reporting period and the number of working hours in that period.

"Maximum credit" means the percentage listed below of the difference between the amount of compensation paid in Illinois to employees who are paid not more than the required minimum wage reduced by the amount of compensation paid in Illinois to employees who were paid less than the current required minimum wage during the reporting period prior to each increase in the required minimum wage on January 1. If an employer pays an employee more than the required minimum wage and that employee
previously earned less than the required minimum wage, the
employer may include the portion that does not exceed the
required minimum wage as compensation paid in Illinois to
employees who are paid not more than the required minimum wage.

(1) 25% for reporting periods beginning on or after
January 1, 2020 and ending on or before December 31, 2020;
(2) 21% for reporting periods beginning on or after
January 1, 2021 and ending on or before December 31, 2021;
(3) 17% for reporting periods beginning on or after
January 1, 2022 and ending on or before December 31, 2022;
(4) 13% for reporting periods beginning on or after
January 1, 2023 and ending on or before December 31, 2023;
(5) 9% for reporting periods beginning on or after
January 1, 2024 and ending on or before December 31, 2024;
(6) 5% for reporting periods beginning on or after
January 1, 2025 and ending on or before December 31, 2025.
The amount computed under this subsection may continue to be claimed for reporting periods beginning on or after January 1, 2026 and:
(A) ending on or before December 31, 2026 for employers with more than 5 employees; or
(B) ending on or before December 31, 2027 for employers with no more than 5 employees.
"Qualified employee" means an employee who is paid not more than the required minimum wage and has an average wage
paid per hour by the employer during the reporting period
equal to or greater than his or her average wage paid per hour
by the employer during each reporting period for the
immediately preceding 12 months. A new qualified employee is
deemed to have earned the required minimum wage in the
preceding reporting period.

"Reporting period" means the quarter for which a return is
required to be filed under subsection (b) of this Section.

(j) For reporting periods beginning on or after January 1,
2023, if a private employer grants all of its employees the
option of taking a paid leave of absence of at least 30 days
for the purpose of serving as an organ donor or bone marrow
donor, then the private employer may take a credit against the
payments due under this Section in an amount equal to the
amount withheld under this Section with respect to wages paid
while the employee is on organ donation leave, not to exceed
$1,000 in withholdings for each employee who takes organ
donation leave. To be eligible for the credit, such a leave of
absence must be taken without loss of pay, vacation time,
compensatory time, personal days, or sick time for at least
the first 30 days of the leave of absence. The private employer
shall adopt rules governing organ donation leave, including
rules that (i) establish conditions and procedures for
requesting and approving leave and (ii) require medical
documentation of the proposed organ or bone marrow donation
before leave is approved by the private employer. A private
employer must provide, in the manner required by the
Department, documentation from the employee's medical
provider, which the private employer receives from the
employee, that verifies the employee's organ donation. The
private employer must also provide, in the manner required by
the Department, documentation that shows that a qualifying
organ donor leave policy was in place and offered to all
qualifying employees at the time the leave was taken. For the
private employer to receive the tax credit, the employee
taking organ donor leave must allow for the applicable medical
records to be disclosed to the Department. If the private
employer cannot provide the required documentation to the
Department, then the private employer is ineligible for the
credit under this Section. A private employer must also
provide, in the form required by the Department, any
additional documentation or information required by the
Department to administer the credit under this Section. The
credit under this subsection (j) shall be taken within one
year after the date upon which the organ donation leave
begins. If the leave taken spans into a second tax year, the
employer qualifies for the allowable credit in the later of the 2 years. If the amount of credit exceeds the tax liability
for the year, the excess may be carried and applied to the tax
liability for the 3 taxable years following the excess credit
year. The tax credit shall be applied to the earliest year for
which there is a tax liability. If there are credits for more
than one year that are available to offset liability, the
earlier credit shall be applied first.

Nothing in this subsection (j) prohibits a private
employer from providing an unpaid leave of absence to its
employees for the purpose of serving as an organ donor or bone
marrow donor; however, if the employer's policy provides for
fewer than 30 days of paid leave for organ or bone marrow
donation, then the employer shall not be eligible for the
credit under this Section.

As used in this subsection (j):

"Organ" means any biological tissue of the human body that
may be donated by a living donor, including, but not limited
to, the kidney, liver, lung, pancreas, intestine, bone, skin,
or any subpart of those organs.

"Organ donor" means a person from whose body an organ is
taken to be transferred to the body of another person.

"Private employer" means a sole proprietorship,

entity with one or more employees. "Private employer" does not
include a municipality, county, State agency, or other public
employer.

This subsection (j) is exempt from the provisions of
Section 250 of this Act.

If the project is not located in an underserved area and the Applicant agrees to hire the required number of New Employees, then the maximum amount of the Credit for that Applicant may be increased by an
amount not to exceed 25% of the Incremental Income Tax attributable to retained employees at the Applicant's project; provided that, in order to receive the increase for retained employees, the Applicant must provide the additional evidence required under paragraph (3) of subsection (b) of Section 5–25. If the project is located in an underserved area and the Applicant agrees to hire the required number of New Employees, then the maximum amount of the credit for that Applicant may be increased by an amount not to exceed 50% of the Incremental Income Tax attributable to retained employees at the Applicant's project.

(35 ILCS 10/5-25)
Sec. 5-25. Review of Application.
(a) (Blank).
(b) The Department shall determine which projects will benefit the State. In making its recommendation that an Applicant's application for Credit should or should not be accepted, which shall occur within a reasonable time frame as determined by the nature of the application, the Department shall determine that all the following conditions exist:

(1) The Applicant's project intends, as required by subsection (b) of Section 5-20 to make the required investment in the State and intends to hire the required number of New Employees in Illinois as a result of that project.

(2) The Applicant's project is economically sound and will benefit the people of the State of Illinois by increasing opportunities for employment and strengthen the economy of Illinois.

(3) The Applicant has certified that, if not for the Credit, the project would not occur in Illinois, which may be demonstrated by evidence that receipt of the Credit
is essential to the Applicant's decision to create new jobs in the State, such as the magnitude of the cost differential between Illinois and a competing State; in addition, if the Applicant is seeking an increase in the maximum amount of the Credit for retained employees, the Applicant must provide evidence the Applicant has multi-state location options and could reasonably and efficiently locate outside of the State or demonstrate that at least one other state is being considered for the project.

(4) A cost differential is identified, using best available data, in the projected costs for the Applicant's project compared to the costs in the competing state, including the impact of the competing state's incentive programs. The competing state's incentive programs shall include state, local, private, and federal funds available. This paragraph (4) applies only to agreements entered into before the effective date of this amendatory Act of the 102nd General Assembly.

(5) The political subdivisions affected by the project have committed local incentives with respect to the project, considering local ability to assist.

(6) Awarding the Credit will result in an overall positive fiscal impact to the State, as certified by the Department using the best available data.

(7) The Credit is not prohibited by Section 5-35 of
Sec. 5-50. Contents of Agreements with Applicants. The Department shall enter into an Agreement with an Applicant that is awarded a Credit under this Act. The Agreement must include all of the following:

(1) A detailed description of the project that is the subject of the Agreement, including the location and amount of the investment and jobs created or retained.

(2) The duration of the Credit and the first taxable year for which the Credit may be claimed.

(3) The Credit amount that will be allowed for each taxable year.

(4) A requirement that the Taxpayer shall maintain operations at the project location that shall be stated as a minimum number of years not to exceed 10.

(5) A specific method for determining the number of New Employees employed during a taxable year.

(6) A requirement that the Taxpayer shall annually report to the Department the number of New Employees, the Incremental Income Tax withheld in connection with the New Employees, and any other information the Director needs to perform the Director's duties under this Act.

(7) A requirement that the Director is authorized to
verify with the appropriate State agencies the amounts reported under paragraph (6), and after doing so shall issue a certificate to the Taxpayer stating that the amounts have been verified.

(8) A requirement that the Taxpayer shall provide written notification to the Director not more than 30 days after the Taxpayer makes or receives a proposal that would transfer the Taxpayer's State tax liability obligations to a successor Taxpayer.

(9) A detailed description of the number of New Employees to be hired, and the occupation and payroll of the full-time jobs to be created or retained as a result of the project.

(10) The minimum investment the business enterprise will make in capital improvements, the time period for placing the property in service, and the designated location in Illinois for the investment.

(11) A requirement that the Taxpayer shall provide written notification to the Director and the Committee not more than 30 days after the Taxpayer determines that the minimum job creation or retention, employment payroll, or investment no longer is being or will be achieved or maintained as set forth in the terms and conditions of the Agreement.

(12) A provision that, if the total number of New Employees falls below a specified level, the allowance of
Credit shall be suspended until the number of New Employees equals or exceeds the Agreement amount.

(13) A detailed description of the items for which the costs incurred by the Taxpayer will be included in the limitation on the Credit provided in Section 5-30.

(13.5) A provision that, if the Taxpayer never meets either the investment or job creation and retention requirements specified in the Agreement during the entire 5-year period beginning on the effective date of first day of the first taxable year in which the Agreement is executed and ending 5 years after the effective date of the Agreement on the last day of the fifth taxable year after the Agreement is executed, then the Agreement is automatically terminated on the last day of the fifth taxable year after the Agreement is executed and the Taxpayer is not entitled to the award of any credits for any of that 5-year period.

   (B) that the fuel production pathway achieves at least a 50% reduction of the aggregate attributional core lifecycle greenhouse gas emissions values utilizing the most recent version of Argonne National Laboratory's GREET model, inclusive of agricultural practices and carbon capture and sequestration.

Section 980. The Telecommunications Excise Tax Act is amended by changing Section 2 as follows:
Sec. 2. As used in this Article, unless the context clearly requires otherwise:

(a) "Gross charge" means the amount paid for the act or privilege of originating or receiving telecommunications in this State and for all services and equipment provided in connection therewith by a retailer, valued in money whether paid in money or otherwise, including cash, credits, services and property of every kind or nature, and shall be determined without any deduction on account of the cost of such telecommunications, the cost of materials used, labor or service costs or any other expense whatsoever. In case credit is extended, the amount thereof shall be included only as and when paid. "Gross charges" for private line service shall include charges imposed at each channel termination point within this State, charges for the channel mileage between each channel termination point within this State, and charges for that portion of the interstate inter-office channel provided within Illinois. Charges for that portion of the interstate inter-office channel provided in Illinois shall be determined by the retailer as follows: (i) for interstate inter-office channels having 2 channel termination points, only one of which is in Illinois, 50% of the total charge imposed; or (ii) for interstate inter-office channels having more than 2 channel termination points, one or more of which
are in Illinois, an amount equal to the total charge multiplied by a fraction, the numerator of which is the number of channel termination points within Illinois and the denominator of which is the total number of channel termination points. Prior to January 1, 2004, any method consistent with this paragraph or other method that reasonably apports the total charges for interstate inter-office channels among the states in which channel terminations points are located shall be accepted as a reasonable method to determine the charges for that portion of the interstate inter-office channel provided within Illinois for that period. However, "gross charges" shall not include any of the following:

(1) Any amounts added to a purchaser's bill because of a charge made pursuant to (i) the tax imposed by this Article; (ii) charges added to customers' bills pursuant to the provisions of Sections 9-221 or 9-222 of the Public Utilities Act, as amended, or any similar charges added to customers' bills by retailers who are not subject to rate regulation by the Illinois Commerce Commission for the purpose of recovering any of the tax liabilities or other amounts specified in such provisions of such Act; (iii) the tax imposed by Section 4251 of the Internal Revenue Code; (iv) 911 surcharges; or (v) the tax imposed by the Simplified Municipal Telecommunications Tax Act.

(2) Charges for a sent collect telecommunication
received outside of the State.

(3) Charges for leased time on equipment or charges for the storage of data or information for subsequent retrieval or the processing of data or information intended to change its form or content. Such equipment includes, but is not limited to, the use of calculators, computers, data processing equipment, tabulating equipment or accounting equipment and also includes the usage of computers under a time-sharing agreement.

(4) Charges for customer equipment, including such equipment that is leased or rented by the customer from any source, wherein such charges are disaggregated and separately identified from other charges.

(5) Charges to business enterprises certified under Section 9-222.1 of the Public Utilities Act, as amended, or to electric vehicle manufacturers, electric vehicle component parts manufacturers, or electric vehicle power supply manufacturers at REV Illinois Project sites for which a certificate of exemption has been issued by the Department of Commerce and Economic Opportunity under Section 95 of the Reimagining Energy and Electric Vehicles in Illinois Act, to the extent of such exemption and during the period of time specified by the Department of Commerce and Economic Opportunity.

(5.1) Charges to business enterprises certified under the Manufacturing Illinois Chips for Real Opportunity
(MICRO) Act, to the extent of the exemption and during the period of time specified by the Department of Commerce and Economic Opportunity.

(6) Charges for telecommunications and all services and equipment provided in connection therewith between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries when the tax imposed under this Article has already been paid to a retailer and only to the extent that the charges between the parent corporation and wholly owned subsidiaries or between wholly owned subsidiaries represent expense allocation between the corporations and not the generation of profit for the corporation rendering such service.

(7) Bad debts. Bad debt means any portion of a debt that is related to a sale at retail for which gross charges are not otherwise deductible or excludable that has become worthless or uncollectable, as determined under applicable federal income tax standards. If the portion of the debt deemed to be bad is subsequently paid, the retailer shall report and pay the tax on that portion during the reporting period in which the payment is made.

(8) Charges paid by inserting coins in coin-operated telecommunication devices.

(9) Amounts paid by telecommunications retailers under the Telecommunications Municipal Infrastructure Maintenance Fee Act.
(10) Charges for nontaxable services or telecommunications if (i) those charges are aggregated with other charges for telecommunications that are taxable, (ii) those charges are not separately stated on the customer bill or invoice, and (iii) the retailer can reasonably identify the nontaxable charges on the retailer's books and records kept in the regular course of business. If the nontaxable charges cannot reasonably be identified, the gross charge from the sale of both taxable and nontaxable services or telecommunications billed on a combined basis shall be attributed to the taxable services or telecommunications. The burden of proving nontaxable charges shall be on the retailer of the telecommunications.

(b) "Amount paid" means the amount charged to the taxpayer's service address in this State regardless of where such amount is billed or paid.

(c) "Telecommunications", in addition to the meaning ordinarily and popularly ascribed to it, includes, without limitation, messages or information transmitted through use of local, toll and wide area telephone service; private line services; channel services; telegraph services; teletypewriter; computer exchange services; cellular mobile telecommunications service; specialized mobile radio; stationary two way radio; paging service; or any other form of mobile and portable one-way or two-way communications; or any
other transmission of messages or information by electronic or
similar means, between or among points by wire, cable, fiber-optics, laser, microwave, radio, satellite or similar facilities. As used in this Act, "private line" means a dedicated non-traffic sensitive service for a single customer, that entitles the customer to exclusive or priority use of a communications channel or group of channels, from one or more specified locations to one or more other specified locations. The definition of "telecommunications" shall not include value added services in which computer processing applications are used to act on the form, content, code and protocol of the information for purposes other than transmission. "Telecommunications" shall not include purchases of telecommunications by a telecommunications service provider for use as a component part of the service provided by him to the ultimate retail consumer who originates or terminates the taxable end-to-end communications. Carrier access charges, right of access charges, charges for use of inter-company facilities, and all telecommunications resold in the subsequent provision of, used as a component of, or integrated into end-to-end telecommunications service shall be non-taxable as sales for resale.

(d) "Interstate telecommunications" means all telecommunications that either originate or terminate outside this State.

(e) "Intrastate telecommunications" means all
telecommunications that originate and terminate within this State.

(f) "Department" means the Department of Revenue of the State of Illinois.

(g) "Director" means the Director of Revenue for the Department of Revenue of the State of Illinois.

(h) "Taxpayer" means a person who individually or through his agents, employees or permittees engages in the act or privilege of originating or receiving telecommunications in this State and who incurs a tax liability under this Article.

(i) "Person" means any natural individual, firm, trust, estate, partnership, association, joint stock company, joint venture, corporation, limited liability company, or a receiver, trustee, guardian or other representative appointed by order of any court, the Federal and State governments, including State universities created by statute or any city, town, county or other political subdivision of this State.

(j) "Purchase at retail" means the acquisition, consumption or use of telecommunication through a sale at retail.

(k) "Sale at retail" means the transmitting, supplying or furnishing of telecommunications and all services and equipment provided in connection therewith for a consideration to persons other than the Federal and State governments, and State universities created by statute and other than between a parent corporation and its wholly owned subsidiaries or
between wholly owned subsidiaries for their use or consumption and not for resale.

(1) "Retailer" means and includes every person engaged in the business of making sales at retail as defined in this Article. The Department may, in its discretion, upon application, authorize the collection of the tax hereby imposed by any retailer not maintaining a place of business within this State, who, to the satisfaction of the Department, furnishes adequate security to insure collection and payment of the tax. Such retailer shall be issued, without charge, a permit to collect such tax. When so authorized, it shall be the duty of such retailer to collect the tax upon all of the gross charges for telecommunications in this State in the same manner and subject to the same requirements as a retailer maintaining a place of business within this State. The permit may be revoked by the Department at its discretion.

(m) "Retailer maintaining a place of business in this State", or any like term, means and includes any retailer having or maintaining within this State, directly or by a subsidiary, an office, distribution facilities, transmission facilities, sales office, warehouse or other place of business, or any agent or other representative operating within this State under the authority of the retailer or its subsidiary, irrespective of whether such place of business or agent or other representative is located here permanently or temporarily, or whether such retailer or subsidiary is
licensed to do business in this State.

(n) "Service address" means the location of telecommunications equipment from which the telecommunications services are originated or at which telecommunications services are received by a taxpayer. In the event this may not be a defined location, as in the case of mobile phones, paging systems, maritime systems, service address means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. For air-to-ground systems and the like, service address shall mean the location of a taxpayer's primary use of the telecommunications equipment as defined by telephone number, authorization code, or location in Illinois where bills are sent.

(o) "Prepaid telephone calling arrangements" mean the right to exclusively purchase telephone or telecommunications services that must be paid for in advance and enable the origination of one or more intrastate, interstate, or international telephone calls or other telecommunications using an access number, an authorization code, or both, whether manually or electronically dialed, for which payment to a retailer must be made in advance, provided that, unless recharged, no further service is provided once that prepaid amount of service has been consumed. Prepaid telephone calling arrangements include the recharge of a prepaid calling arrangement. For purposes of this subsection, "recharge" means the purchase of additional prepaid telephone or
telecommunications services whether or not the purchaser acquires a different access number or authorization code. "Prepaid telephone calling arrangement" does not include an arrangement whereby a customer purchases a payment card and pursuant to which the service provider reflects the amount of such purchase as a credit on an invoice issued to that customer under an existing subscription plan.

more of which are in Illinois, an amount equal to the total
charge multiplied by a fraction, the numerator of which is the
number of channel termination points within Illinois and the
denominator of which is the total number of channel
termination points. Prior to January 1, 2004, any method
consistent with this paragraph or other method that reasonably
apportions the total charges for interstate inter-office
channels among the states in which channel terminations points
are located shall be accepted as a reasonable method to
determine the charges for that portion of the interstate
inter-office channel provided within Illinois for that period.
However, "gross charges" shall not include any of the
following:

a charge made under: (i) the fee imposed by this Section,

(2) Charges for a sent collect telecommunication received outside of this State.

(3) Charges for leased time on equipment or charges for the storage of data or information or subsequent retrieval or the processing of data or information intended to change its form or content. (4) Charges for customer equipment, including such equipment that is leased or rented by the customer from any source, wherein such charges are disaggregated and separately identified from other charges.

(5) Charges to business enterprises certified under Section 9-222.1 of the Public Utilities Act to the extent of such exemption and during the period of time specified by the Department of Commerce and Economic Opportunity.

Illinois Act, to the extent of the exemption and during
the period of time specified by the Department of Commerce
and Economic Opportunity.

Real Opportunity (MICRO) Act, to the extent of the
exemption and during the period of time specified by the
Department of Commerce and Economic Opportunity.

(6) Charges for telecommunications and all services
and equipment provided in connection therewith between a
parent corporation and its wholly owned subsidiaries or
between wholly owned subsidiaries, and only to the extent
that the charges between the parent corporation and wholly
owned subsidiaries or between wholly owned subsidiaries
represent expense allocation between the corporations and
not the generation of profit other than a regulatory
required profit for the corporation rendering such
services.

(7) Bad debts ("bad debt" means any portion of a debt
that is related to a sale at retail for which gross charges
are not otherwise deductible or excludable that has become
worthless or uncollectible, as determined under applicable
federal income tax standards; if the portion of the debt
deemed to be bad is subsequently paid, the retailer shall
report and pay the tax on that portion during the
reporting period in which the payment is made).
(8) Charges paid by inserting coins in coin-operated telecommunication devices.

(9) Charges for nontaxable services or telecommunications if (i) those charges are aggregated with other charges for telecommunications that are taxable, (ii) those charges are not separately stated on the customer bill or invoice, and (iii) the retailer can reasonably identify the nontaxable charges on the retailer's books and records kept in the regular course of business. If the nontaxable charges cannot reasonably be identified, the gross charge from the sale of both taxable and nontaxable services or telecommunications billed on a combined basis shall be attributed to the taxable services or telecommunications. The burden of proving nontaxable charges shall be on the retailer of the telecommunications.

(a-5) "Department" means the Illinois Department of Revenue.

(b) "Telecommunications" includes, but is not limited to, messages or information transmitted through use of local, toll, and wide area telephone service, channel services, telegraph services, teletypewriter service, computer exchange services, private line services, specialized mobile radio services, or any other transmission of messages or information by electronic or similar means, between or among points by wire, cable, fiber optics, laser, microwave, radio, satellite,
or similar facilities. Unless the context clearly requires otherwise, "telecommunications" shall also include wireless telecommunications as hereinafter defined. "Telecommunications" shall not include value added services in which computer processing applications are used to act on the form, content, code, and protocol of the information for purposes other than transmission. "Telecommunications" shall not include purchase of telecommunications by a telecommunications service provider for use as a component part of the service provided by him or her to the ultimate retail consumer who originates or terminates the end-to-end communications. Sections 521 and following) as now or hereafter amended or through an open video system as defined in the Rules of the Federal Communications Commission (47 C.D.F. 76.1550 and following) as now or hereafter amended. Beginning January 1, 2001, prepaid telephone calling arrangements shall not be considered "telecommunications" subject to the tax imposed under this Act. For purposes of this Section, "prepaid
telephone calling arrangements" means that term as defined in Section 2-27 of the Retailers' Occupation Tax Act.

(c) "Wireless telecommunications" includes cellular mobile telephone services, personal wireless services as defined in Section 704(C) of the Telecommunications Act of 1996 (Public Law No. 104-104) as now or hereafter amended, including all commercial mobile radio services, and paging services.

(d) "Telecommunications retailer" or "retailer" or "carrier" means and includes every person engaged in the business of making sales of telecommunications at retail as defined in this Section. The Department may, in its discretion, upon applications, authorize the collection of the fee hereby imposed by any retailer not maintaining a place of business within this State, who, to the satisfaction of the Department, furnishes adequate security to insure collection and payment of the fee. When so authorized, it shall be the duty of such retailer to pay the fee upon all of the gross charges for telecommunications in the same manner and subject to the same requirements as a retailer maintaining a place of business within this State.

(e) "Retailer maintaining a place of business in this State", or any like term, means and includes any retailer having or maintaining within this State, directly or by a subsidiary, an office, distribution facilities, transmission facilities, sales office, warehouse, or other place of business, or any agent or other representative operating
within this State under the authority of the retailer or its subsidiary, irrespective of whether such place of business or agent or other representative is located here permanently or temporarily, or whether such retailer or subsidiary is licensed to do business in this State.

(f) "Sale of telecommunications at retail" means the transmitting, supplying, or furnishing of telecommunications and all services rendered in connection therewith for a consideration, other than between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries, when the gross charge made by one such corporation to another such corporation is not greater than the gross charge paid to the retailer for their use or consumption and not for sale.

(g) "Service address" means the location of telecommunications equipment from which telecommunications services are originated or at which telecommunications services are received. If this is not a defined location, as in the case of wireless telecommunications, paging systems, maritime systems, service address means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. For air-to-ground systems, and the like, "service address" shall mean the location of the customer's primary use of the telecommunications equipment as defined by the location in Illinois where bills are sent.

Section 990. The Simplified Municipal Telecommunications Tax Act is amended by changing Section 5-7 as follows:

(35 ILCS 636/5-7)

Sec. 5-7. Definitions. For purposes of the taxes authorized by this Act:

"Amount paid" means the amount charged to the taxpayer's service address in such municipality regardless of where such amount is billed or paid.

"Department" means the Illinois Department of Revenue.

"Gross charge" means the amount paid for the act or privilege of originating or receiving telecommunications in such municipality and for all services and equipment provided in connection therewith by a retailer, valued in money whether paid in money or otherwise, including cash, credits, services and property of every kind or nature, and shall be determined without any deduction on account of the cost of such telecommunications, the cost of the materials used, labor or service costs or any other expense whatsoever. In case credit is extended, the amount thereof shall be included only as and when paid. "Gross charges" for private line service shall include charges imposed at each channel termination point within a municipality that has imposed a tax under this Section and charges for the portion of the inter-office channels provided within that municipality. Charges for that
portion of the inter-office channel connecting 2 or more channel termination points, one or more of which is located within the jurisdictional boundary of such municipality, shall be determined by the retailer by multiplying an amount equal to the total charge for the inter-office channel by a fraction, the numerator of which is the number of channel termination points that are located within the jurisdictional boundary of the municipality and the denominator of which is the total number of channel termination points connected by the inter-office channel. Prior to January 1, 2004, any method consistent with this paragraph or other method that reasonably apportions the total charges for inter-office channels among the municipalities in which channel termination points are located shall be accepted as a reasonable method to determine the taxable portion of an inter-office channel provided within a municipality for that period. However, "gross charge" shall not include any of the following:

(1) Any amounts added to a purchaser's bill because of a charge made pursuant to: (i) the tax imposed by this Act, (ii) the tax imposed by the Telecommunications Excise Tax Act, (iii) the tax imposed by Section 4251 of the Internal Revenue Code, (iv) 911 surcharges, or (v) charges added to customers' bills pursuant to the provisions of Section 9-221 or 9-222 of the Public Utilities Act, as amended, or any similar charges added to customers' bills by retailers who are not subject to rate regulation by the Illinois
Commerce Commission for the purpose of recovering any of the tax liabilities or other amounts specified in those provisions of the Public Utilities Act.

(2) Charges for a sent collect telecommunication received outside of such municipality.

(3) Charges for leased time on equipment or charges for the storage of data or information for subsequent retrieval or the processing of data or information intended to change its form or content. Such equipment includes, but is not limited to, the use of calculators, computers, data processing equipment, tabulating equipment or accounting equipment and also includes the usage of computers under a time-sharing agreement.

(4) Charges for customer equipment, including such equipment that is leased or rented by the customer from any source, wherein such charges are disaggregated and separately identified from other charges.

(5) Charges to business enterprises certified as exempt under Section 9-222.1 of the Public Utilities Act to the extent of such exemption and during the period of time specified by the Department of Commerce and Economic Opportunity.

(5.1) Charges to business enterprises certified under Section 95 of the Reimagining Energy and Vehicles in Illinois Act, to the extent of the exemption and during the period of time specified by the Department of Commerce.
(5.2) Charges to business enterprises certified under Section 110-95 of the Manufacturing Illinois Chips for Real Opportunity (MICRO) Act, to the extent of the exemption and during the period of time specified by the Department of Commerce and Economic Opportunity.

(6) Charges for telecommunications and all services and equipment provided in connection therewith between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries when the tax imposed under this Act has already been paid to a retailer and only to the extent that the charges between the parent corporation and wholly owned subsidiaries or between wholly owned subsidiaries represent expense allocation between the corporations and not the generation of profit for the corporation rendering such service.

(7) Bad debts ("bad debt" means any portion of a debt that is related to a sale at retail for which gross charges are not otherwise deductible or excludable that has become worthless or uncollectible, as determined under applicable federal income tax standards; if the portion of the debt deemed to be bad is subsequently paid, the retailer shall report and pay the tax on that portion during the reporting period in which the payment is made).

(8) Charges paid by inserting coins in coin-operated telecommunication devices.
(9) Amounts paid by telecommunications retailers under the Telecommunications Infrastructure Maintenance Fee Act.

(10) Charges for nontaxable services or telecommunications if (i) those charges are aggregated with other charges for telecommunications that are taxable, (ii) those charges are not separately stated on the customer bill or invoice, and (iii) the retailer can reasonably identify the nontaxable charges on the retailer's books and records kept in the regular course of business. If the nontaxable charges cannot reasonably be identified, the gross charge from the sale of both taxable and nontaxable services or telecommunications billed on a combined basis shall be attributed to the taxable services or telecommunications. The burden of proving nontaxable charges shall be on the retailer of the telecommunications.

"Interstate telecommunications" means all telecommunications that either originate or terminate outside this State.

"Intrastate telecommunications" means all telecommunications that originate and terminate within this State.

"Person" means any natural individual, firm, trust, estate, partnership, association, joint stock company, joint venture, corporation, limited liability company, or a receiver, trustee, guardian, or other representative appointed
by order of any court, the Federal and State governments, including State universities created by statute, or any city, town, county, or other political subdivision of this State.

"Purchase at retail" means the acquisition, consumption or use of telecommunications through a sale at retail.

"Retailer" means and includes every person engaged in the business of making sales at retail as defined in this Section. The Department may, in its discretion, upon application, authorize the collection of the tax hereby imposed by any retailer not maintaining a place of business within this State, who, to the satisfaction of the Department, furnishes adequate security to insure collection and payment of the tax. Such retailer shall be issued, without charge, a permit to collect such tax. When so authorized, it shall be the duty of such retailer to collect the tax upon all of the gross charges for telecommunications in this State in the same manner and subject to the same requirements as a retailer maintaining a place of business within this State. The permit may be revoked by the Department at its discretion.

"Retailer maintaining a place of business in this State", or any like term, means and includes any retailer having or maintaining within this State, directly or by a subsidiary, an office, distribution facilities, transmission facilities, sales office, warehouse or other place of business, or any agent or other representative operating within this State under the authority of the retailer or its subsidiary,
irrespective of whether such place of business or agent or other representative is located here permanently or temporarily, or whether such retailer or subsidiary is licensed to do business in this State.

"Sale at retail" means the transmitting, supplying or furnishing of telecommunications and all services and equipment provided in connection therewith for a consideration, to persons other than the Federal and State governments, and State universities created by statute and other than between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries for their use or consumption and not for resale.

"Service address" means the location of telecommunications equipment from which telecommunications services are originated or at which telecommunications services are received by a taxpayer. In the event this may not be a defined location, as in the case of mobile phones, paging systems, and maritime systems, service address means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. For air-to-ground systems and the like, "service address" shall mean the location of a taxpayer's primary use of the telecommunications equipment as defined by telephone number, authorization code, or location in Illinois where bills are sent.

"Taxpayer" means a person who individually or through his or her agents, employees, or permittees engages in the act or
privilege of originating or receiving telecommunications in a municipality and who incurs a tax liability as authorized by this Act.

"Telecommunications", in addition to the meaning ordinarily and popularly ascribed to it, includes, without limitation, messages or information transmitted through use of local, toll, and wide area telephone service, private line services, channel services, telegraph services, teletypewriter, computer exchange services, cellular mobile telecommunications service, specialized mobile radio, stationary two-way radio, paging service, or any other form of mobile and portable one-way or two-way communications, or any other transmission of messages or information by electronic or similar means, between or among points by wire, cable, fiber optics, laser, microwave, radio, satellite, or similar facilities. As used in this Act, "private line" means a dedicated non-traffic sensitive service for a single customer, that entitles the customer to exclusive or priority use of a communications channel or group of channels, from one or more specified locations to one or more other specified locations. The definition of "telecommunications" shall not include value added services in which computer processing applications are used to act on the form, content, code, and protocol of the information for purposes other than transmission. "Telecommunications" shall not include purchases of telecommunications by a telecommunications service provider
for use as a component part of the service provided by such provider to the ultimate retail consumer who originates or terminates the taxable end-to-end communications. Carrier access charges, right of access charges, charges for use of inter-company facilities, and all telecommunications resold in the subsequent provision of, used as a component of, or integrated into, end-to-end telecommunications service shall be non-taxable as sales for resale. Prepaid telephone calling arrangements shall not be considered "telecommunications" subject to the tax imposed under this Act. For purposes of this Section, "prepaid telephone calling arrangements" means that term as defined in Section 2-27 of the Retailers' Occupation Tax Act. Section 1000. The Public Utilities Act is amended by changing Sections 9-222 and 9-222.1A as follows:

(220 ILCS 5/9-222) (from Ch. 111 2/3, par. 9-222)

Sec. 9-222. Whenever a tax is imposed upon a public utility engaged in the business of distributing, supplying, furnishing, or selling gas for use or consumption pursuant to Section 2 of the Gas Revenue Tax Act, or whenever a tax is required to be collected by a delivering supplier pursuant to Section 2-7 of the Electricity Excise Tax Act, or whenever a tax is imposed upon a public utility pursuant to Section 2-202 of this Act, such utility may charge its customers, other than
customers who are high impact businesses under Section 5.5 of the Illinois Enterprise Zone Act, customers who are electric vehicle manufacturers, electric vehicle component parts manufacturers, or electric vehicle power supply equipment manufacturers at REV Illinois Project sites as certified under Section 95 of the Reimagining Energy and Electric Vehicles in Illinois Act, manufacturers under the Manufacturing Illinois Chips for Real Opportunity (MICRO) Act, or certified business enterprises under Section 9-222.1 of this Act, to the extent of such exemption and during the period in which such exemption is in effect, in addition to any rate authorized by this Act, an additional charge equal to the total amount of such taxes. The exemption of this Section relating to high impact businesses shall be subject to the provisions of subsections (a), (b), and (b-5) of Section 5.5 of the Illinois Enterprise Zone Act. This requirement shall not apply to taxes on invested capital imposed pursuant to the Messages Tax Act, the Gas Revenue Tax Act and the Public Utilities Revenue Act. Such utility shall file with the Commission a supplemental schedule which shall specify such additional charge and which shall become effective upon filing without further notice. Such additional charge shall be shown separately on the utility bill to each customer. The Commission shall have the power to investigate whether or not such supplemental schedule correctly specifies such additional charge, but shall have no power to suspend such supplemental schedule. If the Commission
finds, after a hearing, that such supplemental schedule does not correctly specify such additional charge, it shall by order require a refund to the appropriate customers of the excess, if any, with interest, in such manner as it shall deem just and reasonable, and in and by such order shall require the utility to file an amended supplemental schedule corresponding to the finding and order of the Commission. Except with respect to taxes imposed on invested capital, such tax liabilities shall be recovered from customers solely by means of the additional charges authorized by this Section.
