1   SENATE RESOLUTION

2   WHEREAS, Global JXDM (Global Justice Extensible Markup
3   Language) is an XML standard designed specifically for
4   criminal justice information exchanges, providing law
5   enforcement, public safety agencies, prosecutors, public
6   defenders, and the judicial branch with a tool to effectively
7   share data; and

8   WHEREAS, The adoption of this standard in all future
9   data-related decisions will increase the ability to conduct
10   research, to make data-driven policy decisions, and to share
11   data with appropriate access control safeguards in place; in
12   addition, cost savings will result from the elimination of
13   redundant data processes necessitated by the inability of
14   databases to effectively transfer data; therefore, be it

15   RESOLVED, BY THE SENATE OF THE ONE HUNDRED SECOND GENERAL
16   ASSEMBLY OF THE STATE OF ILLINOIS, that all Illinois agencies
17   that create, store, or transfer law enforcement or criminal
18   justice data are urged to consider the Global Justice
19   Extensible Markup Language or Global JXDM in making changes to
20   their data systems; and be it further

21   RESOLVED, That suitable copies of this resolution are
22   delivered to all Illinois state agencies.
