LRB103 30961 LNS 59472 a

1 AMENDMENT TO HOUSE BILL 3508

2 AMENDMENT NO. _____. Amend House Bill 3508 by replacing
3 everything after the enacting clause with the following:

4 "Section 5. The PFAS Reduction Act is amended by adding
5 Section 40 as follows:

6 (415 ILCS 170/40 new)

7 Sec. 40. Guidance from United States Environmental
8 Protection Agency; PFAS monitoring plan; technical assistance;
9 PFAS disposal program.

10 (a) The Agency shall follow the most up-to-date guidance
11 to states from the United States Environmental Protection
12 Agency on addressing the discharge of PFAS in National
13 Pollutant Discharge Elimination System (NPDES) permits;
14 however, the Agency shall not require monitoring for PFAS in
15 influent, effluent, and biosolids to commence less than 30
16 days after the United States Environmental Protection Agency

1 adopts an approved method for analyzing PFAS in these
2 matrices. Monitoring required under NPDES permits shall be
3 limited to those specific PFAS compounds for which an
4 analytical method has been approved by the United States
5 Environmental Protection Agency.

6 (b) The Agency shall create a PFAS monitoring plan. The
7 plan shall focus on the following:

8 (1) monitoring PFAS occurrence in wastewater flows
9 from industrial and domestic sources, stormwater
10 discharges, and solid waste streams;

11 (2) gathering State-specific information in order to
12 craft effective policies to address PFAS occurrence in
13 wastewater, stormwater, and solid waste; and

14 (3) gathering data to inform PFAS source reduction and
15 pollution prevention programs, including, but not limited
16 to, industrial pretreatment programs administered by
17 publicly owned treatment works.

18 The plan shall be submitted to the Governor and the
19 General Assembly by July 1, 2024.

20 (c) The Prairie Research Institute's Illinois Sustainable
21 Technology Center shall provide technical assistance to
22 industrial wastewater dischargers in best management
23 practices, pollution prevention, production substitution, and
24 elimination to reduce or eliminate PFAS compounds.

25 (d) The Agency shall establish a take-back program for
26 fire departments that use and store firefighting foam

1 containing PFAS. Fire departments that participated in the
2 most recent survey described in Section 25 shall be eligible
3 to participate in the program, but participation in the
4 program shall not be required. The program shall provide
5 funding and resources to ensure the proper destruction of
6 firefighting foam containing PFAS. The program shall continue
7 for a period of 5 years or until the Office of the State Fire
8 Marshal finds that no firefighting foam containing PFAS is
9 reported in the survey described in Section 25. This program
10 is subject to appropriation.

11 (e) Implementation of this Section is subject to
12 appropriation."

13 Section 99. Effective date. This Act takes effect upon
14 becoming law."
