LRB103 38039 RTM 72347 a

1 AMENDMENT TO HOUSE BILL 5094

2 AMENDMENT NO. _____. Amend House Bill 5094 by replacing
3 everything after the enacting clause with the following:

4 "Section 1. Short title. This Act may be cited as the
5 Workforce Direct Care Expansion Act.

6 Section 5. Purpose and findings.

7 (a) The General Assembly finds that:

8 (1) Administrative activities include processes that
9 require behavioral health professionals and their clients
10 to repeat data collection processes and adhere to a vast
11 and uncoordinated array of requirements.

12 (2) Not only is this duplication a burden on the time
13 and resources of behavioral health professionals, but data
14 collection can also be re-traumatizing to clients as they
15 repeat their presenting problems multiple times to various
16 professionals.

1 (3) Duplication and burden also lead to longer
2 admission processes, leaving behavioral health
3 professionals less time to provide crucial treatment.

4 (4) In behavioral health care, compliance with heavily
5 regulated industry standards falls squarely on the
6 shoulders of those providing direct services to
7 individuals.

8 (5) Behavioral health professionals have gone far too
9 long without reasonable reform, causing capable workers to
10 become overwhelmed and leave their jobs or the behavioral
11 health industry altogether.

12 (6) One of the greatest complaints from behavioral
13 health professionals is the amount of administrative
14 responsibilities that lead to less time with their
15 clients.

16 (7) Clinician burnout, if not addressed, will make it
17 harder for individuals to get care when they need it,
18 cause health costs to rise, and worsen health disparities.

19 (8) Behavioral health professionals dedicate their
20 expertise to addressing mental health and substance use
21 challenges and that it is essential to streamline
22 administrative processes to enable them to focus more on
23 client care and treatment.

24 (9) Administrative burdens can contribute to workforce
25 challenges in the behavioral health sector.

26 (b) The purpose of this Act is to:

1 (1) Alleviate the administrative burden placed on
2 behavioral health professionals in Illinois and devise an
3 efficient system that enhances client-centered services.
4 Behavioral health professionals play a critical role in
5 promoting mental health and well-being within Illinois
6 communities.

7 (2) Foster a collaborative and client-centered
8 approach by encouraging communication and coordination
9 among behavioral health professionals, regulatory bodies,
10 and relevant stakeholders.

11 (3) Make a heavy lift more bearable.

12 (4) Address paperwork fatigue that leads to burnout.

13 (5) Enhance the efficiency and effectiveness of
14 behavioral health services by reducing unnecessary
15 paperwork, bureaucratic hurdles, and redundant
16 administrative requirements that may impede the delivery
17 of timely and quality care.

18 (6) Attract and retain skilled behavioral health
19 professionals and ultimately improve access to mental
20 health and substance use services for the residents of
21 Illinois.

22 (7) Align with the State's commitment to promoting
23 mental health and substance use services, reducing
24 barriers to care, and ensuring that behavioral health
25 professionals can dedicate more time and resources to
26 meeting the diverse needs of individuals and communities

1 across Illinois.

2 (8) Enhance the overall effectiveness of the
3 behavioral health sector to improve mental health outcomes
4 and levels of well-being for all residents of the State.

5 Section 10. The Behavioral Health Administrative Burden
6 Task Force.

7 (a) The Behavioral Health Administrative Burden Task Force
8 is established within the Office of the Chief Behavioral
9 Health Officer, in partnership with the Department of Human
10 Services Division of Mental Health and Division of Substance
11 Use Prevention and Recovery, the Department of Healthcare and
12 Family Services, the Department of Children and Family
13 Services, and the Department of Public Health.

14 (b) The Task Force shall review policies and regulations
15 affecting the behavioral health industry to identify
16 inefficiencies, duplicate or unnecessary requirements, unduly
17 burdensome restrictions, and other administrative barriers
18 that prevent behavioral health professionals from providing
19 services.

20 (c) The Task Force shall analyze the impact of
21 administrative burdens on the delivery of quality care and
22 access to behavioral health services by:

23 (1) collecting data on the administrative tasks,
24 paperwork, and reporting requirements currently imposed on
25 behavioral health professionals in Illinois;

1 (2) engaging with behavioral health professionals,
2 including providers of all relevant license and
3 certification types, to gather input on specific
4 administrative challenges they face;

5 (3) seeking input from clients and service recipients
6 to understand the impact of administrative requirements on
7 their care; and

8 (4) conducting a comparative analysis of documentation
9 requirements with other geographic jurisdictions.

10 (d) The Task Force shall collaborate with relevant State
11 agencies to identify areas where administrative processes can
12 be standardized and harmonized by:

13 (1) researching best practices and successful
14 administrative burden reduction models from other states
15 or jurisdictions;

16 (2) unifying administrative requirements, such as
17 screening, assessment, treatment planning, and personnel
18 requirements, including background checks, where possible
19 among state bodies; and

20 (3) identifying and seeking to replicate reform
21 efforts that have been successful in other jurisdictions.

22 (e) The Task Force shall identify innovative technologies
23 and tools that can help automate and streamline administrative
24 tasks and explore the potential for interagency data sharing
25 and integration to reduce redundant reporting by:

26 (1) researching best practices around shared data

1 platforms to improve the delivery of behavioral health
2 services and ensure that such platforms do not result in a
3 duplication of data entry, including coverage of any
4 relevant software costs to avoid duplication;

5 (2) facilitating the secure exchange of client
6 information, treatment plans, and service coordination
7 among health care providers, behavioral health facilities,
8 State-level regulatory bodies, and other relevant
9 entities;

10 (3) reducing administrative burdens and duplicative
11 data entry for service providers;

12 (4) ensuring compliance with federal and state privacy
13 regulations, including the Health Insurance Portability
14 and Accountability Act, 42 CFR Part 2, and other relevant
15 laws and regulations; and

16 (5) improving access to timely client care, with an
17 emphasis on clients receiving services under the Medical
18 Assistance Program.

19 (f) The Task Force shall eliminate documentation
20 redundancy and coordinate the sharing of information among
21 State agencies by:

22 (1) standardizing forms at the State-level to simplify
23 access, reduce administrative burden, ensure consistency,
24 and unify requirements across all behavioral health
25 provider types where possible;

26 (2) identifying areas where standardized language

1 would be allowable so that staff can focus on
2 individualizing relevant components of documentation;

3 (3) reducing and standardizing, when possible, the
4 information required for assessments and treatment plan
5 goals and consolidate documentation required in these
6 areas for mental health and substance use clients;

7 (4) evaluating, reducing, and streamlining information
8 collected for the registration process, including the
9 process for uploading information and resolving errors;

10 (5) reducing the number of data fields that must be
11 repeated across forms; and

12 (6) streamlining State-level reporting requirements
13 for federal and State grants and remove unnecessary
14 reporting requirements for provider grants funded with
15 state or federal dollars where possible.

16 (g) The Task Force shall develop recommendations for
17 legislative or regulatory changes that can reduce
18 administrative burdens while maintaining client safety and
19 quality of care by:

20 (1) advocating for parity across settings and
21 regulatory entities, including among community, private
22 practice, and State-operated settings;

23 (2) identifying opportunities for reporting
24 efficiencies or technology solutions to share data across
25 reports;

26 (3) evaluating and considering opportunities to

1 simplify funding and seek legislative reform to align
2 requirements across funding streams and regulatory
3 entities; and

4 (4) recommending procedures for more flexibility with
5 deadlines where justified.

6 (h) The Task Force shall participate in statewide efforts
7 to integrate mental health and substance use disorder
8 administrative functions.

9 Section 15. Membership. The Task Force shall be chaired by
10 Illinois' Chief Behavioral Health Officer or the Officer's
11 designee. The chair of the Task Force may designate a
12 nongovernmental entity or entities to provide pro bono
13 administrative support to the Task Force. Except as otherwise
14 provided in this Section, members of the Task Force shall be
15 appointed by the chair. The Task Force shall consist of at
16 least 15 members, including, but not limited to, the
17 following:

18 (1) community mental health and substance use
19 providers representing geographical regions across the
20 State;

21 (2) representatives of statewide associations that
22 represent behavioral health providers;

23 (3) representatives of advocacy organizations either
24 led by or consisting primarily of individuals with lived
25 experience;

1 (4) a representative from the Division of Mental
2 Health in the Department of Human Services;

3 (5) a representative from the Division of Substance
4 Use Prevention and Recovery in the Department of Human
5 Services;

6 (6) a representative from the Department of Children
7 and Family Services;

8 (7) a representative from the Department of Public
9 Health;

10 (8) One member of the House of Representatives,
11 appointed by the Speaker of the House of Representatives;

12 (9) One member of the House of Representatives,
13 appointed by the Minority Leader of the House of
14 Representatives;

15 (10) One member of the Senate, appointed by the
16 President of the Senate; and

17 (11) One member of the Senate, appointed by the
18 Minority Leader of the Senate.

19 Section 20. Meetings. Beginning no later than 6 months
20 after the effective date of this Act, the Task Force shall meet
21 monthly, or additionally as needed, to conduct its business.
22 Members of the Task Force shall serve without compensation but
23 may receive reimbursement for necessary expenses.

24 Section 25. Administrative burden reduction plan. The Task

1 Force shall, within one year after its first meeting, prepare
2 an administrative burden reduction plan, which shall include
3 short-term and long-term policy recommendations aimed at
4 reducing duplicative, unnecessary, or redundant requirements
5 placed on behavioral health providers and improving timely
6 access to care. The administrative burden reduction plan shall
7 be submitted to any relevant State agency whose participation
8 would be necessary to implement any component of the plan and
9 shall be made publicly available online. No later than 90 days
10 after receipt of the plan, each State agency whose
11 participation would be necessary to implement any component of
12 the plan shall submit a detailed response to the General
13 Assembly about the recommendations in the administrative
14 burden reduction plan, including an explanation about the
15 feasibility of implementing the recommendations and shall make
16 these responses publicly available online.

17 Section 99. Effective date. This Act takes effect upon
18 becoming law."
