6           Section 10. The Perinatal Mental Health Disorders  
7           Prevention and Treatment Act is repealed.

8           Section 15. The Maternal Mental Health Conditions  
9           Education, Early Diagnosis, and Treatment Act is amended by

13          Sec. 5. Findings. The General Assembly finds the  
14          following:

15                 (1) Maternal depression is a common complication of  
16                 pregnancy. Maternal mental health disorders encompass a  
17                 range of mental health conditions, such as depression,  
18                 anxiety, and postpartum psychosis.

19                 (2) Maternal mental health conditions affect one in 5  
20                 women during or after pregnancy, but all women are at risk  
21                 of suffering from maternal mental health conditions.

22                 (3) Untreated maternal mental health conditions  
23                 significantly and negatively impact the short-term and

1 long-term health and well-being of affected women and  
2 their children.

3 (4) Untreated maternal mental health conditions cause  
4 adverse birth outcomes, impaired maternal-infant bonding,  
5 poor infant growth, childhood emotional and behavioral  
6 problems, and significant medical and economic costs,  
7 estimated to be \$22,500 per mother.

8 (5) Lack of understanding and social stigma of mental  
9 health conditions prevent women and families from  
10 understanding the signs, symptoms, and risks involved with  
11 maternal mental health conditions and disproportionately  
12 affect women who lack access to social support networks.

13 ~~(6) It is the intent of the General Assembly to raise~~  
14 ~~awareness of the risk factors, signs, symptoms, and~~  
15 ~~treatment options for maternal mental health conditions~~  
16 ~~among pregnant women and their families, the general~~  
17 ~~public, primary health care providers, and health care~~  
18 ~~providers who care for pregnant women, postpartum women,~~  
19 ~~and newborn infants.~~

22 Sec. 9. Intent. It is the intent of the General Assembly:

23 (1) to raise awareness of the risk factors, signs,  
24 symptoms, and treatment options for maternal mental health  
25 conditions among pregnant women and their families, the

1 general public, primary care providers, and health care  
2 providers who care for pregnant women, postpartum women,  
3 and newborn infants;

4 (2) to provide information to women and their families  
5 about maternal mental health conditions in order to lower  
6 the likelihood that new mothers will continue to suffer  
7 from this illness in silence;

8 (3) to develop procedures for assessing women for  
9 maternal mental health conditions during prenatal and  
10 postnatal visits to licensed health care professionals;  
11 and

12 (4) to promote early detection of maternal mental  
13 health conditions to promote early care and treatment and,  
14 when medically appropriate, to avoid medication.

15 (405 ILCS 120/10)

19 treatment. The Department of Human Services, in conjunction  
20 with the Department of Healthcare and Family Services, the  
21 Department of Public Health, and the Department of Financial  
22 and Professional Regulation and the Medical Licensing Board,  
23 shall work with birthing hospitals and licensed health care  
24 professionals in this State to develop policies, procedures,

1 following requirements concerning maternal mental health  
2 conditions:

3 (1) Licensed health care professionals providing  
4 prenatal care to women shall provide education to women  
5 and, if possible and with permission, to their families  
6 about maternal mental health conditions in accordance with  
7 the formal opinions and recommendations of the American  
8 College of Obstetricians and Gynecologists.

9 (2) All birthing hospitals shall provide new mothers,  
10 prior to discharge following childbirth, and, if possible,

24 review the completed questionnaire in accordance with the  
25 formal opinions and recommendations of the American  
26 College of Obstetricians and Gynecologists. Assessment for

15 infant's first birthday, and shall review the completed  
16 questionnaire in accordance with the formal opinions and  
17 recommendations of the American College of Obstetricians  
18 and Gynecologists, in order to ensure that the health and  
19 well-being of the infant are not compromised by an  
20 undiagnosed maternal mental health condition in the  
21 mother. In order to share results from an assessment with  
22 the mother's primary licensed health care professional,  
23 consent should be obtained from the mother in accordance  
24 with the Illinois Health Insurance Portability and  
25 Accountability Act. If the mother is determined to present  
26 an acute danger to herself or someone else, consent is not

1       required.

6 Section 20. The Illinois Controlled Substances Act is  
7 amended by changing Sections 100, 102, 201, 203, 205, 207,  
8 208, 209, 210, 211, 216, 312, 313, 318, 320, 410, 411.2, 413,  
9 504, 508, and 509 as follows:

10 (720 ILCS 570/100) (from Ch. 56 1/2, par. 1100)

11 Sec. 100. Legislative intent. It is the intent of the  
12 General Assembly, recognizing the rising incidence in the  
13 misuse ~~abuse~~ of drugs and other dangerous substances and its  
14 resultant damage to the peace, health, and welfare of the  
15 citizens of Illinois, to provide a system of control over the  
16 distribution and use of controlled substances which will more  
17 effectively: (1) limit access of such substances only to those  
18 persons who have demonstrated an appropriate sense of  
19 responsibility and have a lawful and legitimate reason to  
20 possess them; (2) deter the unlawful and destructive misuse  
21 ~~abuse~~ of controlled substances; (3) penalize most heavily the  
22 illicit traffickers or profiteers of controlled substances,  
23 who propagate and perpetuate the misuse ~~abuse~~ of such  
24 substances with reckless disregard for its consumptive

1 consequences upon every element of society; (4) acknowledge  
2 the functional and consequential differences between the  
3 various types of controlled substances and provide for  
4 correspondingly different degrees of control over each of the  
5 various types; (5) unify where feasible and codify the efforts  
6 of this State to conform with the regulatory systems of the  
7 Federal government; and (6) provide law enforcement  
8 authorities with the necessary resources to make this system  
9 efficacious.

10 It is not the intent of the General Assembly to treat the  
11 unlawful user or occasional petty distributor of controlled  
12 substances with the same severity as the large-scale, unlawful  
13 purveyors and traffickers of controlled substances. However,  
14 it is recognized that persons who violate this Act with  
15 respect to the manufacture, delivery, possession with intent  
16 to deliver, or possession of more than one type of controlled  
17 substance listed herein may accordingly receive multiple  
18 convictions and sentences under each Section of this Act. To  
19 this end, guidelines have been provided, along with a wide  
20 latitude in sentencing discretion, to enable the sentencing  
21 court to order penalties in each case which are appropriate  
22 for the purposes of this Act.

21 II controlled substance, which is a narcotic drug listed in  
22 Section 206 of this Act; or which contains any quantity of  
23 amphetamine or methamphetamine, their salts, optical isomers  
24 or salts of optical isomers; phenmetrazine and its salts; or  
25 pentazocine; and Schedule III, IV, or V controlled substances

1 to any person upon a written or electronic prescription of any  
2 prescriber, dated and signed by the person prescribing (or  
3 electronically validated in compliance with Section 311.5) on  
4 the day when issued and bearing the name and address of the  
5 patient for whom, or the owner of the animal for which the  
6 controlled substance is dispensed, and the full name, address  
7 and registry number under the laws of the United States  
8 relating to controlled substances of the prescriber, if he or  
9 she is required by those laws to be registered. If the  
10 prescription is for an animal it shall state the species of  
11 animal for which it is ordered. The practitioner filling the  
12 prescription shall, unless otherwise permitted, write the date  
13 of filling and his or her own signature on the face of the  
14 written prescription or, alternatively, shall indicate such  
15 filling using a unique identifier as defined in paragraph (v)  
16 of Section 3 of the Pharmacy Practice Act. The written  
17 prescription shall be retained on file by the practitioner who  
18 filled it or pharmacy in which the prescription was filled for  
19 a period of 2 years, so as to be readily accessible for  
20 inspection or removal by any officer or employee engaged in  
21 the enforcement of this Act. Whenever the practitioner's or  
22 pharmacy's copy of any prescription is removed by an officer  
23 or employee engaged in the enforcement of this Act, for the  
24 purpose of investigation or as evidence, such officer or  
25 employee shall give to the practitioner or pharmacy a receipt  
26 in lieu thereof. If the specific prescription is machine or

1 computer generated and printed at the prescriber's office, the  
2 date does not need to be handwritten. A prescription for a  
3 Schedule II controlled substance shall not be issued for more  
4 than a 30 day supply, except as provided in subsection (a-5),  
5 and shall be valid for up to 90 days after the date of  
6 issuance. A written prescription for Schedule III, IV or V  
7 controlled substances shall not be filled or refilled more  
8 than 6 months after the date thereof or refilled more than 5  
9 times unless renewed, in writing, by the prescriber. A  
10 pharmacy shall maintain a policy regarding the type of  
11 identification necessary, if any, to receive a prescription in  
12 accordance with State and federal law. The pharmacy must post  
13 such information where prescriptions are filled.

14 (a-5) Physicians may issue multiple prescriptions (3  
15 sequential 30-day supplies) for the same Schedule II  
16 controlled substance, authorizing up to a 90-day supply.  
17 Before authorizing a 90-day supply of a Schedule II controlled  
18 substance, the physician must meet the following conditions:

19 (1) Each separate prescription must be issued for a  
20 legitimate medical purpose by an individual physician  
21 acting in the usual course of professional practice.

22 (2) The individual physician must provide written  
23 instructions on each prescription (other than the first  
24 prescription, if the prescribing physician intends for the  
25 prescription to be filled immediately) indicating the  
26 earliest date on which a pharmacy may fill that

1 prescription.

2 (3) The physician shall document in the medical record  
3 of a patient the medical necessity for the amount and  
4 duration of the 3 sequential 30-day prescriptions for  
5 Schedule II narcotics.

6 (a-10) Prescribers who issue a prescription for an opioid  
7 shall inform the patient that opioids are addictive and that  
8 opioid antagonists are available by prescription or from a  
9 pharmacy.

10 (b) In lieu of a written prescription required by this  
11 Section, a pharmacist, in good faith, may dispense Schedule  
12 III, IV, or V substances to any person either upon receiving a  
13 facsimile of a written, signed prescription transmitted by the  
14 prescriber or the prescriber's agent or upon a lawful oral  
15 prescription of a prescriber which oral prescription shall be  
16 reduced promptly to writing by the pharmacist and such written  
17 memorandum thereof shall be dated on the day when such oral  
18 prescription is received by the pharmacist and shall bear the  
19 full name and address of the ultimate user for whom, or of the  
20 owner of the animal for which the controlled substance is  
21 dispensed, and the full name, address, and registry number  
22 under the law of the United States relating to controlled  
23 substances of the prescriber prescribing if he or she is  
24 required by those laws to be so registered, and the pharmacist  
25 filling such oral prescription shall write the date of filling  
26 and his or her own signature on the face of such written

1 memorandum thereof. The facsimile copy of the prescription or  
2 written memorandum of the oral prescription shall be retained  
3 on file by the proprietor of the pharmacy in which it is filled  
4 for a period of not less than two years, so as to be readily  
5 accessible for inspection by any officer or employee engaged  
6 in the enforcement of this Act in the same manner as a written  
7 prescription. The facsimile copy of the prescription or oral  
8 prescription and the written memorandum thereof shall not be  
9 filled or refilled more than 6 months after the date thereof or  
10 be refilled more than 5 times, unless renewed, in writing, by  
11 the prescriber.

12 (c) Except for any non-prescription targeted  
13 methamphetamine precursor regulated by the Methamphetamine  
14 Precursor Control Act, a controlled substance included in  
15 Schedule V shall not be distributed or dispensed other than  
16 for a medical purpose and not for the purpose of evading this  
17 Act, and then:

18 (1) only personally by a person registered to dispense  
19 a Schedule V controlled substance and then only to his or  
20 her patients, or

21 (2) only personally by a pharmacist, and then only to  
22 a person over 21 years of age who has identified himself or  
23 herself to the pharmacist by means of 2 positive documents  
24 of identification.

25 The dispenser shall record the name and address of the  
26 purchaser, the name and quantity of the product, the date and

1 time of the sale, and the dispenser's signature.

2 No person shall purchase or be dispensed more than 120  
3 milliliters or more than 120 grams of any Schedule V substance  
4 which contains codeine, dihydrocodeine, or any salts thereof,  
5 or ethylmorphine, or any salts thereof, in any 96-hour period.  
6 The purchaser shall sign a form, approved by the Department of  
7 Financial and Professional Regulation, attesting that he or  
8 she has not purchased any Schedule V controlled substances  
9 within the immediately preceding 96 hours.

10 All records of purchases and sales shall be maintained for  
11 not less than 2 years.

12 No person shall obtain or attempt to obtain within any  
13 consecutive 96-hour period any Schedule V substances of more  
14 than 120 milliliters or more than 120 grams containing  
15 codeine, dihydrocodeine or any of its salts, or ethylmorphine  
16 or any of its salts. Any person obtaining any such  
17 preparations or combination of preparations in excess of this  
18 limitation shall be in unlawful possession of such controlled  
19 substance.

20 A person qualified to dispense controlled substances under  
21 this Act and registered thereunder shall at no time maintain  
22 or keep in stock a quantity of Schedule V controlled  
23 substances in excess of 4.5 liters for each substance; a  
24 pharmacy shall at no time maintain or keep in stock a quantity  
25 of Schedule V controlled substances as defined in excess of  
26 4.5 liters for each substance, plus the additional quantity of

1 controlled substances necessary to fill the largest number of  
2 prescription orders filled by that pharmacy for such  
3 controlled substances in any one week in the previous year.  
4 These limitations shall not apply to Schedule V controlled  
5 substances which Federal law prohibits from being dispensed  
6 without a prescription.

7 No person shall distribute or dispense butyl nitrite for  
8 inhalation or other introduction into the human body for  
9 euphoric or physical effect.

10 (d) Every practitioner shall keep a record or log of  
11 controlled substances received by him or her and a record of  
12 all such controlled substances administered, dispensed or  
13 professionally used by him or her otherwise than by  
14 prescription. It shall, however, be sufficient compliance with  
15 this paragraph if any practitioner utilizing controlled  
16 substances listed in Schedules III, IV and V shall keep a  
17 record of all those substances dispensed and distributed by  
18 him or her other than those controlled substances which are  
19 administered by the direct application of a controlled  
20 substance, whether by injection, inhalation, ingestion, or any  
21 other means to the body of a patient or research subject. A  
22 practitioner who dispenses, other than by administering, a  
23 controlled substance in Schedule II, which is a narcotic drug  
24 listed in Section 206 of this Act, or which contains any  
25 quantity of amphetamine or methamphetamine, their salts,  
26 optical isomers or salts of optical isomers, pentazocine, or

1 methaqualone shall do so only upon the issuance of a written  
2 prescription blank or electronic prescription issued by a  
3 prescriber.

4 (e) Whenever a manufacturer distributes a controlled  
5 substance in a package prepared by him or her, and whenever a  
6 wholesale distributor distributes a controlled substance in a  
7 package prepared by him or her or the manufacturer, he or she  
8 shall securely affix to each package in which that substance  
9 is contained a label showing in legible English the name and  
10 address of the manufacturer, the distributor and the quantity,  
11 kind and form of controlled substance contained therein. No  
12 person except a pharmacist and only for the purposes of  
13 filling a prescription under this Act, shall alter, deface or  
14 remove any label so affixed.

15 (f) Whenever a practitioner dispenses any controlled  
16 substance except a non-prescription Schedule V product or a  
17 non-prescription targeted methamphetamine precursor regulated  
18 by the Methamphetamine Precursor Control Act, he or she shall  
19 affix to the container in which such substance is sold or  
20 dispensed, a label indicating the date of initial filling, the  
21 practitioner's name and address, the name of the patient, the  
22 name of the prescriber, the directions for use and cautionary

24 by law, the proprietary name or names or the established name  
25 of the controlled substance, and the dosage and quantity,  
26 except as otherwise authorized by regulation by the Department

2 alter, deface or remove any label so affixed as long as the  
3 specific medication remains in the container.

4 (g) A person to whom or for whose use any controlled  
5 substance has been prescribed or dispensed by a practitioner,  
6 or other persons authorized under this Act, and the owner of  
7 any animal for which such substance has been prescribed or  
8 dispensed by a veterinarian, may lawfully possess such  
9 substance only in the container in which it was delivered to  
10 him or her by the person dispensing such substance.

11 (h) The responsibility for the proper prescribing or  
12 dispensing of controlled substances that are under the  
13 prescriber's direct control is upon the prescriber. The  
14 responsibility for the proper filling of a prescription for  
15 controlled substance drugs rests with the pharmacist. An order  
16 purporting to be a prescription issued to any individual,  
17 which is not in the regular course of professional treatment  
18 nor part of an authorized methadone maintenance program, nor

20 accredited hospital, educational institution, charitable  
21 foundation, or federal, state or local governmental agency,  
22 and which is intended to provide that individual with  
23 controlled substances sufficient to maintain that individual's  
24 or any other individual's ~~physical or psychological addiction,~~  
25 habitual or customary use, dependence, or diversion of that  
26 controlled substance is not a prescription within the meaning

2 subject to the penalties provided for violations of the law  
3 relating to controlled substances.

12 signature.

13 (j) No person shall manufacture, dispense, deliver,  
14 possess with intent to deliver, prescribe, or administer or  
15 cause to be administered under his or her direction any  
16 anabolic steroid, for any use in humans other than the  
17 treatment of disease in accordance with the order of a  
18 physician licensed to practice medicine in all its branches  
19 for a valid medical purpose in the course of professional  
20 practice. The use of anabolic steroids for the purpose of  
21 hormonal manipulation that is intended to increase muscle  
22 mass, strength or weight without a medical necessity to do so,  
23 or for the intended purpose of improving physical appearance  
24 or performance in any form of exercise, sport, or game, is not  
25 a valid medical purpose or in the course of professional  
26 practice.

1 (k) Controlled substances may be mailed if all of the  
2 following conditions are met:

3 (1) The controlled substances are not outwardly  
4 dangerous and are not likely, of their own force, to cause  
5 injury to a person's life or health.

7 controlled substances must be marked and sealed as  
8 required under this Act and its rules, and be placed in a

12 labeled to show the name and address of the pharmacy or  
13 practitioner dispensing the prescription.

14 (4) The outside wrapper or container must be free of  
15 markings that would indicate the nature of the contents.

17 contrary, emergency medical services personnel may administer  
18 Schedule II, III, IV, or V controlled substances to a person in  
19 the scope of their employment without a written, electronic,

4           with the Department shall:

5           (i) prohibit analysis and reports produced under  
6           subparagraph (2) from including information that  
7           identifies, by name, license, or address, any  
8           practitioner, dispenser, ultimate user, or other person  
9           administering a controlled substance; and

10          (ii) specify the appropriate technical and physical  
11          safeguards that the county or municipal health department  
12          must implement to ensure the privacy and security of data  
13          obtained from the system. The data from the system shall  
14          not be admissible as evidence, nor discoverable in any  
15          action of any kind in any court or before any tribunal,  
16          board, agency, or person. The disclosure of any such  
17          information or data, whether proper or improper, shall not  
18          waive or have any effect upon its confidentiality,  
19          non-discoverability, or non-admissibility.

20          (g) The information described in subsection (f) may not be  
21          released until it has been reviewed by an employee of the  
22          Department who is licensed as a prescriber or a dispenser and  
23          until that employee has certified that further investigation  
24          is warranted. However, failure to comply with this subsection  
25          (g) does not invalidate the use of any evidence that is  
26          otherwise admissible in a proceeding described in subsection

1 (h) .

2 (h) An investigator or a law enforcement officer receiving  
3 confidential information under subsection (c), (d), or (f) may  
4 disclose the information to a law enforcement officer or an  
5 attorney for the office of the Attorney General for use as  
6 evidence in the following:

7 (1) A proceeding under any State or federal law that  
8 involves a controlled substance.

9 (2) A criminal proceeding or a proceeding in juvenile  
10 court that involves a controlled substance.

11 (i) The Department may compile statistical reports from  
12 the information described in subsection (a). The reports must  
13 not include information that identifies, by name, license or  
14 address, any practitioner, dispenser, ultimate user, or other  
15 person administering a controlled substance.

16 (j) Based upon federal, initial and maintenance funding, a  
17 prescriber and dispenser inquiry system shall be developed to

19 clinical practice and to prevent patients from diverting or  
20 abusing medications.

21 (1) An inquirer shall have read-only access to a  
22 stand-alone database which shall contain records for the  
23 previous 12 months.

3 link and encrypted software necessary to establish the  
4 link between an inquirer and the Department. Technical  
5 assistance shall also be provided.

6 (4) Written inquiries are acceptable but must include  
7 the fee and the requester's Drug Enforcement  
8 Administration license number and submitted upon the  
9 requester's business stationery.

10 (5) As directed by the Prescription Monitoring Program  
11 Advisory Committee and the Clinical Director for the  
12 Prescription Monitoring Program, aggregate data that does  
13 not indicate any prescriber, practitioner, dispenser, or  
14 patient may be used for clinical studies.

15 (6) Tracking analysis shall be established and used  
16 per administrative rule.

17 (7) Nothing in this Act or Illinois law shall be  
18 construed to require a prescriber or dispenser to make use  
19 of this inquiry system.

20 (8) If there is an adverse outcome because of a  
21 prescriber or dispenser making an inquiry, which is  
22 initiated in good faith, the prescriber or dispenser shall  
23 be held harmless from any civil liability.

24 (k) The Department shall establish, by rule, the process  
25 by which to evaluate possible erroneous association of  
26 prescriptions to any licensed prescriber or end user of the

1 Illinois Prescription Information Library (PIL).

3 is authorized to evaluate the need for and method of  
4 establishing a patient specific identifier.

5 (m) Patients who identify prescriptions attributed to them  
6 that were not obtained by them shall be given access to their  
7 personal prescription history pursuant to the validation  
8 process as set forth by administrative rule.

9 (n) The Prescription Monitoring Program is authorized to  
10 develop operational push reports to entities with compatible  
11 electronic medical records. The process shall be covered  
12 within administrative rule established by the Department.

13 (o) Hospital emergency departments and freestanding  
14 healthcare facilities providing healthcare to walk-in patients  
15 may obtain, for the purpose of improving patient care, a  
16 unique identifier for each shift to utilize the PIL system.

17 (p) The Prescription Monitoring Program shall  
18 automatically create a log-in to the inquiry system when a  
19 prescriber or dispenser obtains or renews his or her  
20 controlled substance license. The Department of Financial and  
21 Professional Regulation must provide the Prescription  
22 Monitoring Program with electronic access to the license  
23 information of a prescriber or dispenser to facilitate the  
24 creation of this profile. The Prescription Monitoring Program  
25 shall send the prescriber or dispenser information regarding  
26 the inquiry system, including instructions on how to log into

1 the system, instructions on how to use the system to promote  
2 effective clinical practice, and opportunities for continuing  
3 education for the prescribing of controlled substances. The  
4 Prescription Monitoring Program shall also send to all  
5 enrolled prescribers, dispensers, and designees information  
6 regarding the unsolicited reports produced pursuant to Section  
7 314.5 of this Act.

8 (q) A prescriber or dispenser may authorize a designee to  
9 consult the inquiry system established by the Department under  
10 this subsection on his or her behalf, provided that all the  
11 following conditions are met:

12 (1) the designee so authorized is employed by the same  
13 hospital or health care system; is employed by the same  
14 professional practice; or is under contract with such  
15 practice, hospital, or health care system;

16 (2) the prescriber or dispenser takes reasonable steps  
17 to ensure that such designee is sufficiently competent in  
18 the use of the inquiry system;

19 (3) the prescriber or dispenser remains responsible  
20 for ensuring that access to the inquiry system by the  
21 designee is limited to authorized purposes and occurs in a  
22 manner that protects the confidentiality of the  
23 information obtained from the inquiry system, and remains  
24 responsible for any breach of confidentiality; and

25 (4) the ultimate decision as to whether or not to  
26 prescribe or dispense a controlled substance remains with

1 the prescriber or dispenser.

2 The Prescription Monitoring Program shall send to  
3 registered designees information regarding the inquiry system,  
4 including instructions on how to log onto the system.

5 (r) The Prescription Monitoring Program shall maintain an  
6 Internet website in conjunction with its prescriber and  
7 dispenser inquiry system. This website shall include, at a  
8 minimum, the following information:

2 The content of the Internet website shall be periodically  
3 reviewed by the Prescription Monitoring Program Advisory  
4 Committee as set forth in Section 320 and updated in  
5 accordance with the recommendation of the advisory committee.

6 (s) The Prescription Monitoring Program shall regularly  
7 send electronic updates to the registered users of the  
8 Program. The Prescription Monitoring Program Advisory  
9 Committee shall review any communications sent to registered  
10 users and also make recommendations for communications as set

20 (720 ILCS 570/410) (from Ch. 56 1/2, par. 1410)

21 Sec. 410. (a) Whenever any person who has not previously  
22 been convicted of any felony offense under this Act or any law  
23 of the United States or of any State relating to cannabis or  
24 controlled substances, pleads guilty to or is found guilty of  
25 possession of a controlled or counterfeit substance under

1 subsection (c) of Section 402 or of unauthorized possession of  
2 prescription form under Section 406.2, the court, without  
3 entering a judgment and with the consent of such person, may  
4 sentence him or her to probation.

5 (b) When a person is placed on probation, the court shall  
6 enter an order specifying a period of probation of 24 months  
7 and shall defer further proceedings in the case until the  
8 conclusion of the period or until the filing of a petition  
9 alleging violation of a term or condition of probation.

10 (c) The conditions of probation shall be that the person:  
11 (1) not violate any criminal statute of any jurisdiction; (2)  
12 refrain from possessing a firearm or other dangerous weapon;  
13 (3) submit to periodic drug testing at a time and in a manner  
14 as ordered by the court, but no less than 3 times during the  
15 period of the probation, with the cost of the testing to be  
16 paid by the probationer; and (4) perform no less than 30 hours  
17 of community service, provided community service is available  
18 in the jurisdiction and is funded and approved by the county  
19 board. The court may give credit toward the fulfillment of  
20 community service hours for participation in activities and  
21 treatment as determined by court services.

22 (d) The court may, in addition to other conditions,  
23 require that the person:

24 (1) make a report to and appear in person before or

1 and proceed as otherwise provided.

2 (f) Upon fulfillment of the terms and conditions of  
3 probation, the court shall discharge the person and dismiss  
4 the proceedings against him or her.

5 (g) A disposition of probation is considered to be a  
6 conviction for the purposes of imposing the conditions of  
7 probation and for appeal, however, discharge and dismissal  
8 under this Section is not a conviction for purposes of this Act  
9 or for purposes of disqualifications or disabilities imposed  
10 by law upon conviction of a crime.

11 (h) A person may not have more than one discharge and  
12 dismissal under this Section within a 4-year period.

13 (i) If a person is convicted of an offense under this Act,

23 circuit pursuant to Section 15 of the Drug Court Treatment  
24 Act. The drug court team shall evaluate the person's  
25 likelihood of successfully completing a sentence of probation  
26 under this Section and shall report the results of its

1 evaluation to the court. If the drug court team finds that the  
2 person suffers from a substance use disorder ~~abuse problem~~  
3 that makes him or her substantially unlikely to successfully  
4 complete a sentence of probation under this Section, then the  
5 drug court shall set forth its findings in the form of a  
6 written order, and the person shall not be sentenced to  
7 probation under this Section, but shall be considered for the  
8 drug court program.
