18           community college district or may negotiate individual  
19           remediation data sharing agreements with school districts.

20           (d) The Illinois Community College Board and the State  
21           Board of Education shall develop a model remediation data  
22           sharing agreement that may be used by school districts and  
23           community college districts under this Section. The model  
24           remediation data sharing agreement shall address all of the  
25           matters set forth in subsection (b) and shall be completed by
