AN ACT concerning insurance.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Insurance Code is amended by changing Section 229.4 and adding Section 229.4a as follows:

(215 ILCS 5/229.4) (from Ch. 73, par. 841.4)
Sec. 229.4. Standard Non-forfeiture Law for Individual Deferred Annuities.

(1) No contract of annuity issued on or after the operative date of this Section except as stated in subsection (11) shall be delivered or issued for delivery in this State unless it contains in substance the following provisions or corresponding provisions which in the opinion of the Director are at least as favorable to the contract holder upon cessation of payment of considerations under the contract:

(a) That upon cessation of payment of considerations under a contract, the company will grant a paid-up annuity benefit on a plan stipulated in the contract of such value as is specified in subsections (3), (4), (5), (6) and (8).

(b) If a contract provides for a lump sum settlement at maturity, or at any other time, that upon surrender of the contract at or prior to the commencement of any annuity payments, the company will pay in lieu of any paid-up annuity benefit a cash surrender benefit of such amount as is specified in subsections (3), (4), (6) and (8). The company shall reserve the right to defer the payment of such cash surrender benefit for a period of 6 months after demand therefor with surrender of the contract.

(c) A statement of the mortality table, if any, and interest rates used in calculating any minimum paid-up annuity, cash surrender or death benefits that are guaranteed under the contract, together with sufficient
information to determine the amount of such benefits.

(d) A statement that any paid-up annuity, cash surrender or death benefits that may be available under the contract are not less than the minimum benefits required by any statute of the state in which the contract is delivered and an explanation of the manner in which such benefits are altered by the existence of any additional amounts credited by the company to the contract, any indebtedness to the company on the contract or any prior withdrawals from or partial surrenders of the contract.

Notwithstanding the requirements of this subsection, any deferred annuity contract may provide that if no considerations have been received under a contract for a period of 2 full years and the portion of the paid-up annuity benefit at maturity on the plan stipulated in the contract arising from considerations paid prior to such period would be less than $20.00 monthly, the company may at its option terminate such contract by payment in cash of the present value of such portion of the paid-up annuity benefit, calculated on the basis of the mortality table, if any, and interest rate specified in the contract for determining the paid-up annuity benefit, and by such payment shall be relieved of any further obligation under such contract.

(2) The minimum values as specified in subsections (3), (4), (5), (6) and (8) of any paid-up annuity, cash surrender or death benefits available under an annuity contract shall be based upon minimum nonforfeiture amounts as defined in this subsection.

(a) With respect to contracts providing for flexible considerations, the minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to such time at a rate of interest of 3% per annum of percentages of the net considerations, as hereinafter defined, paid prior to such time, decreased by the sum of (i) any prior withdrawals from or partial surrenders of the contract
accumulated at a rate of interest of 3% per annum and (ii)
the amount of any indebtedness to the company on the
contract, including interest due and accrued, and
increased by any existing additional amounts credited by
the company to the contract.

The net considerations for a given contract year used
to define the minimum nonforfeiture amount shall be an
amount not less than zero and shall be equal to the
corresponding gross considerations credited to the
contract during that contract year less an annual contract
charge of $30.00 and less a collection charge of $1.25 per
consideration credited to the contract during that
contract year. The percentages of net considerations shall
be 65% of the net consideration for the first contract year
and 87 1/2% of the net considerations for the second and
later contract years. Notwithstanding the provisions of
the preceding sentence, the percentage shall be 65% of the
portion of the total net consideration for any renewal
contract year which exceeds by not more than two times the
sum of those portions of the net considerations in all
prior contract years for which the percentage was 65%.

(a-5) Notwithstanding the provisions of paragraph (a)
of this subsection, the minimum nonforfeiture amount for
any contract issued on or after July 1, 2002 and before
July 1, 2005 shall be based on a rate of interest of 1.5%
per annum.

(b) With respect to contracts providing for fixed
scheduled considerations, minimum nonforfeiture amounts
shall be calculated on the assumption that considerations
are paid annually in advance and shall be defined as for
contracts with flexible considerations which are paid
annually, with two exceptions:

(i) The portion of the net consideration for the
first contract year to be accumulated shall be the sum
of 65% of the net consideration for the first contract
year plus 22 1/2% of the excess of the net
consideration for the first contract year over the
lesser of the net considerations for the second and
third contract years.

(ii) The annual contract charge shall be the lesser
of (A) $30.00 or (B) 10% of the gross annual
consideration.

(c) With respect to contracts providing for a single
consideration, minimum nonforfeiture amounts shall be
defined as for contracts with flexible considerations
except that the percentage of net consideration used to
determine the minimum nonforfeiture amount shall be equal
to 90% and the net consideration shall be the gross
consideration less a contract charge of $75.00.

(3) Any paid-up annuity benefit available under a contract
shall be such that its present value on the date annuity
payments are to commence is at least equal to the minimum
nonforfeiture amount on that date. Such present value shall be
computed using the mortality table, if any, and the interest
rate specified in the contract for determining the minimum
paid-up annuity benefits guaranteed in the contract.

(4) For contracts which provide cash surrender benefits,
such cash surrender benefits available prior to maturity shall
not be less than the present value as of the date of surrender
of that portion of the maturity value of the paid-up annuity
benefit which would be provided under the contract at maturity
arising from considerations paid prior to the time of cash
surrender reduced by the amount appropriate to reflect any
prior withdrawals from or partial surrenders of the contract,
such present value being calculated on the basis of an interest
rate not more than 1% higher than the interest rate specified
in the contract for accumulating the net considerations to
determine such maturity value, decreased by the amount of any
indebtedness to the company on the contract, including interest
due and accrued, and increased by any existing additional
amounts credited by the company to the contract. In no event
shall any cash surrender benefit be less than the minimum
nonforfeiture amount at that time. The death benefit under such contracts shall be at least equal to the cash surrender benefit.

(5) For contracts which do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up benefit provided under the contract arising from considerations paid prior to the time of the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, such present value being calculated for the period prior to the maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine such maturity value, and increased by any existing additional amounts credited by the company to the contract. For contracts which do not provide any death benefits prior to the commencement of any annuity payments, such present values shall be calculated on the basis of such interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, in no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time.

(6) For the purpose of determining the benefits calculated under subsections (4) and (5), in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant's seventieth birthday or the tenth anniversary of the contract, whichever is later.

(7) Any contract which does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount prior to the commencement of any annuity payments shall include a statement in a prominent
place in the contract that such benefits are not provided.

(8) Any paid-up annuity, cash surrender or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.

(9) For any contract which provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of subsections (3), (4), (5), (6) and (8), additional benefits payable (a) in the event of total and permanent disability, (b) as reversionary annuity or deferred reversionary annuity benefits, or (c) as other policy benefits additional to life insurance, endowment, and annuity benefits, and considerations for all such additional benefits, shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits that may be required by this section. The inclusion of such additional benefits shall not be required in any paid-up benefits, unless such additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits.

(10) After the effective date of this Section, any company may file with the Director a written notice of its election to comply with the provisions of this Section after a specified date before the second anniversary of the effective date of this Section. After the filing of such notice, then upon such specified date, which shall be the operative date of this
section for such company, this Section shall become operative with respect to annuity contracts thereafter issued by such company. If a company makes no such election, the operative date of this section for such company shall be the second anniversary of the effective date of this Section.

(11) This Section shall not apply to any reinsurance, group annuity purchased under a retirement plan or plan of deferred compensation established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code, as now or hereafter amended, premium deposit fund, variable annuity, investment annuity, immediate annuity, any deferred annuity contract after annuity payments have commenced, or reversionary annuity, nor to any contract which shall be delivered outside this State through an agent or other representative of the company issuing the contract.

(12) This Section is repealed on July 1, 2006.

(Source: P.A. 92-541, eff. 7-1-02.)

(215 ILCS 5/229.4a new)

Sec. 229.4a. Standard Non-forfeiture Law for Individual Deferred Annuities.

(1) Title. This Section shall be known as the Standard Nonforfeiture Law for Individual Deferred Annuities.

(2) Applicability. This Section shall not apply to any reinsurance, group annuity purchased under a retirement plan or plan of deferred compensation established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code, as now or hereafter amended, premium deposit fund, variable annuity, investment annuity, immediate annuity, any deferred annuity contract after annuity payments have commenced, or reversionary annuity, nor to any contract which shall be delivered outside this State through an agent or other representative of the company issuing the contract.
commenced, or reversionary annuity, nor to any contract which
shall be delivered outside this State through an agent or other
representative of the company issuing the contract.

(3) Nonforfeiture Requirements.

(A) In the case of contracts issued on or after the
operative date of this Section as defined in subsection
(13), no contract of annuity, except as stated in
subsection (2), shall be delivered or issued for delivery
in this State unless it contains in substance the following
provisions, or corresponding provisions which in the
opinion of the Director of Insurance are at least as
favorable to the contract holder, upon cessation of payment
of considerations under the contract:

(i) That upon cessation of payment of
considerations under a contract, or upon the written
request of the contract owner, the company shall grant
a paid-up annuity benefit on a plan stipulated in the
contract of such value as is specified in subsections
(5), (6), (7), (8) and (10);

(ii) If a contract provides for a lump sum
settlement at maturity, or at any other time, that upon
surrender of the contract at or prior to the
commencement of any annuity payments, the company
shall pay in lieu of a paid-up annuity benefit a cash
surrender benefit of such amount as is specified in
subsections (5), (6), (8) and (10). The company may
reserve the right to defer the payment of the cash
surrender benefit for a period not to exceed 6 months
after demand therefor with surrender of the contract
after making written request and receiving written
approval of the Director. The request shall address the
necessity and equitability to all policyholders of the
deferral;

(iii) A statement of the mortality table, if any,
and interest rates used calculating any minimum
paid-up annuity, cash surrender, or death benefits
that are guaranteed under the contract, together with
sufficient information to determine the amounts of the
benefits; and

(iv) A statement that any paid-up annuity, cash
surrender or death benefits that may be available under
the contract are not less than the minimum benefits
required by any statute of the state in which the
contract is delivered and an explanation of the manner
in which the benefits are altered by the existence of
any additional amounts credited by the company to the
contract, any indebtedness to the company on the
contract or any prior withdrawals from or partial
surrenders of the contract.

(B) Notwithstanding the requirements of this Section,
a deferred annuity contract may provide that if no
considerations have been received under a contract for a
period of 2 full years and the portion of the paid-up
annuity benefit at maturity on the plan stipulated in the
contract arising from prior considerations paid would be
less than $20 monthly, the company may at its option
terminate the contract by payment in cash of the then
present value of the portion of the paid-up annuity
benefit, calculated on the basis on the mortality table, if
any, and interest rate specified in the contract for
determining the paid-up annuity benefit, and by this
payment shall be relieved of any further obligation under
the contract.

(4) Minimum values. The minimum values as specified in
subsections (5), (6), (7), (8) and (10) of any paid-up annuity,
cash surrender or death benefits available under an annuity
contract shall be based upon minimum nonforfeiture amounts as
defined in this subsection.

(A)(i) The minimum nonforfeiture amount at any time at
or prior to the commencement of any annuity payments shall
be equal to an accumulation up to such time at rates of
interest as indicated in subdivision (4)(B) of the net
considerations (as hereinafter defined) paid prior to such
time, decreased by the sum of paragraphs (a) through (d)
below:

(a) Any prior withdrawals from or partial
surrenders of the contract accumulated at rates of
interest as indicated in subdivision (4)(B);
(b) An annual contract charge of $50,
accumulated at rates of interest as indicated in
subdivision (4)(B);
(c) Any premium tax paid by the company for the
contract, accumulated at rates of interest as
indicated in subdivision (4)(B); and
(d) The amount of any indebtedness to the
company on the contract, including interest due and
accrued.

(ii) The net considerations for a given contract year
used to define the minimum nonforfeiture amount shall be an
amount equal to 87.5% of the gross considerations, credited
to the contract during that contract year.

(B) The interest rate used in determining minimum
nonforfeiture amounts shall be an annual rate of interest
determined as the lesser of 3% per annum and the following,
which shall be specified in the contract if the interest
rate will be reset:

(i) The five-year Constant Maturity Treasury Rate
reported by the Federal Reserve as of a date, or
average over a period, rounded to the nearest 1/20th of
one percent, specified in the contract no longer than
15 months prior to the contract issue date or
redetermination date under subdivision (4)(B)(iv);
(ii) Reduced by 125 basis points;
(iii) Where the resulting interest rate is not less
than 1%; and
(iv) The interest rate shall apply for an initial
period and may be redetermined for additional periods.
The redetermination date, basis and period, if any,
shall be stated in the contract. The basis is the date or average over a specified period that produces the value of the 5-year Constant Maturity Treasury Rate to be used at each redetermination date.

(C) During the period or term that a contract provides substantive participation in an equity indexed benefit, it may increase the reduction described in subdivision (4)(B)(ii) above by up to an additional 100 basis points to reflect the value of the equity index benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction shall not exceed market value of the benefit. The Director may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit. Lacking such a demonstration that is acceptable to the Director, the Director may disallow or limit the additional reduction.

(D) The Director may adopt rules to implement the provisions of subdivision (4)(C) and to provide for further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity index benefit and for other contracts that the Director determines adjustments are justified.

(5) Computation of Present Value. Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. Present value shall be computed using the mortality table, if any, and the interest rates specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract.

(6) Calculation of Cash Surrender Value. For contracts that provide cash surrender benefits, the cash surrender benefits available prior to maturity shall not be less than the present value as of the date of surrender of that portion of the
maturity value of the paid-up annuity benefit that would be provided under the contract at maturity arising from considerations paid prior to the time of cash surrender reduced by the amount appropriate to reflect any prior withdrawals from or partial surrenders of the contract, such present value being calculated on the basis of an interest rate not more than 1% higher than the interest rate specified in the contract for accumulating the net considerations to determine maturity value, decreased by the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the company to the contract. In no event shall any cash surrender benefit be less than the minimum nonforfeiture amount at that time. The death benefit under such contracts shall be at least equal to the cash surrender benefit.

(7) Calculation of Paid-up Annuity Benefits. For contracts that do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up annuity benefit provided under the contract arising from considerations paid prior to the time the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, such present value being calculated for the period prior to the maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine maturity value, and increased by any additional amounts credited by the company to the contract. For contracts that do not provide any death benefits prior to the commencement of any annuity payments, present values shall be calculated on the basis of such interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, in no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time.

(8) Maturity Date. For the purpose of determining the
benefits calculated under subsections (6) and (7), in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant’s seventieth birthday or the tenth anniversary of the contract, whichever is later.

(9) Disclosure of Limited Death Benefits. A contract that does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount prior to the commencement of any annuity payments shall include a statement in a prominent place in the contract that such benefits are not provided.

(10) Inclusion of Lapse of Time Considerations. Any paid-up annuity, cash surrender or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.

(11) Proration of Values; Additional Benefits. For a contract which provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of subsections (5), (6), (7), (8) and (10), additional benefits payable in the event of total and permanent disability, as reversionary annuity or deferred reversionary annuity benefits, or as other policy benefits additional to life
insurance, endowment and annuity benefits, and considerations
for all such additional benefits, shall be disregarded in
ascertaining the minimum nonforfeiture amounts, paid-up
annuity, cash surrender and death benefits that may be required
under this Section. The inclusion of such benefits shall not be
required in any paid-up benefits, unless the additional
benefits separately would require minimum nonforfeiture
amounts, paid-up annuity, cash surrender and death benefits.

(12) Rules. The Director may adopt rules to implement the
provisions of this Section.

(13) Effective Date. After the effective date of this
amendatory Act of the 93rd General Assembly, a company may
elect to apply its provisions to annuity contracts on a
contract form-by-contract form basis before July 1, 2006. In
all other instances, this Section shall become operative with
respect to annuity contracts issued by the company on or after
July 1, 2006.

(14) This Section is repealed on July 1, 2007.

Section 99. Effective date. This Act takes effect on July
1, 2004.
