1

AN ACT concerning environmental protection.

- Be it enacted by the People of the State of Illinois,represented in the General Assembly:
- 4 Section 5. The Environmental Protection Act is amended
 5 by adding Section 9.11 as follows:
- 6 (415 ILCS 5/9.11 new)

7 <u>Sec. 9.11. Great Lakes Areas of Concern; mercury.</u>

8 (a) The General Assembly finds that:

9 (1) The government of the United States of America 10 and the government of Canada have entered into agreements 11 on Great Lakes water quality by signature of the Great 12 Lakes Water Quality Agreement of 1978, which was amended 13 by Protocol signed on November 18, 1987.

(2) The government of the United States of America 14 and the government of Canada, in cooperation with the 15 state and provincial governments, were required to 16 17 designate geographic areas, called Areas of Concern, that fail to meet the general or specific objectives of the 18 19 Great Lakes Water Quality Agreement, and where such failure has caused or is likely to cause impairment of 20 beneficial use or failure of the ability of the area to 21 support aquatic life. 22

23 (3) The government of the United States of America
 24 and the government of Canada have identified 43 Areas of
 25 Concern, 26 of which are in waters of the United States
 26 of America and 17 of which are in the waters of Canada.

27 (4) Waukegan Harbor in Illinois was designated an
 28 Area of Concern in 1981 by the International Joint
 29 Commission, the United States Environmental Protection
 30 Agency, and the Illinois Environmental Protection Agency
 31 as a result of the discovery of 5 beneficial use

impairments, as defined in Annex 2 of the Great Lakes
Water Quality Agreement. Beneficial use impairments at
the Waukegan Harbor Area of Concern were identified as
the restrictions on fish consumption, degradation of
benthos, restrictions on dredging activities, degradation
of phytoplankton and zooplankton populations, and loss of
fish and wildlife habitat.

8 (5) The government of the United States of America 9 and the government of Canada cooperate with the state and 10 provincial governments to ensure that remedial action 11 plans are developed to restore all impaired uses to the 12 Areas of Concern.

13 (6) Mercury has been identified as a persistent
 14 bioaccumulative contaminant of concern throughout the
 15 Great Lakes, including Lake Michigan, resulting in health
 16 advisories and restrictions on fish consumption.

17 (7) The thermal treatment of sludge creates mercury
 18 emissions.

(b) The Agency shall not issue any permit to develop, 19 construct, or operate, within one mile of any portion of Lake 20 21 Michigan that has been designated an Area of Concern under 22 the Great Lakes Water Quality Agreement as of the effective date of this Section, any site or facility for the thermal 23 24 treatment of sludge, unless the applicant submits to the Agency proof that the site or facility has received local 25 siting approval from the governing body of the municipality 26 in which the site or facility is proposed to be located (or 27 from the county board if located in an unincorporated area), 28 in accordance with Section 39.2 of this Act. For the 29 purposes of this Section, "thermal treatment" includes, 30 31 without limitation, drying, incinerating, and any other processing that subjects the sludge to an elevated 32 33 temperature.
