1

HOUSE RESOLUTION

2

WHEREAS, In the United States, approximately 12,000 women each year are diagnosed with cervical cancer; approximately 4,000 women each year die from cervical cancer in the U.S.; and

3

4

5

WHEREAS, Half of the women diagnosed with the disease are between 35 and 55 years of age; approximately 20% of diagnoses are made in women older than 65; and

6

7

8

WHEREAS, Cervical cancer rates vary, but occur more often in African-American women and Hispanic women than in non-Hispanic white women; and

9

10

11

WHEREAS, Cervical cancer is usually a slow-growing cancer that may not have symptoms; cervical cancer is primarily caused by the human papillomavirus (HPV), but can be detected by Papanicolaou test (Pap tests) or other early detection tests; and

12

13

14

15

16

WHEREAS, The Illinois Breast and Cervical Cancer Program provides access to screening and treatment options, including free pelvic exams and Pap tests for qualifying uninsured women; and

17

18

19

20

WHEREAS, Detecting cervical cancer in its earliest stages

1 greatly improves survival rates; and

2 WHEREAS, Over 90% of women diagnosed with cervical cancer
3 can survive when the cancer is localized and is caught in its
4 early stages; therefore, be it

5 RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE
6 NINETY-SEVENTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that
7 we designate January of 2012 as Cervical Health Awareness Month
8 in the State of Illinois and encourage the citizens of this
9 State to recognize the importance of good cervical health and
10 of detecting cervical cancer in its earliest stages; and be it
11 further

12 RESOLVED, That we recognize the patients and survivors of
13 cervical cancer for their tremendous courage and
14 determination.
