HB3975 Engrossed

1 AN ACT concerning regulation.

2 Be it enacted by the People of the State of Illinois, 3 represented in the General Assembly:

Section 5. The Public Utilities Act is amended by changing
Section 16-108.5 as follows:

6 (220 ILCS 5/16-108.5)

Sec. 16-108.5. Infrastructure investment and
modernization; regulatory reform.

9 (a) (Blank).

(b) For purposes of this Section, "participating utility" 10 means an electric utility or a combination utility serving more 11 than 1,000,000 customers in Illinois that voluntarily elects 12 and commits to undertake (i) the infrastructure investment 13 14 program consisting of the commitments and obligations described in this subsection (b) and (ii) the customer 15 16 program consisting of the commitments and assistance 17 obligations described in subsection (b-10) of this Section, notwithstanding any other provisions of this Act and without 18 19 obtaining any approvals from the Commission or any other agency 20 other than as set forth in this Section, regardless of whether any such approval would otherwise be required. "Combination 21 22 utility" means a utility that, as of January 1, 2011, provided electric service to at least one million retail customers in 23

HB3975 Engrossed - 2 - LRB098 15537 RPS 50567 b

1 Illinois and gas service to at least 500,000 retail customers 2 in Illinois. A participating utility shall recover the 3 expenditures made under the infrastructure investment program 4 through the ratemaking process, including, but not limited to, 5 the performance-based formula rate and process set forth in 6 this Section.

7 During the infrastructure investment program's peak 8 program year, a participating utility other than a combination 9 utility shall create 2,000 full-time equivalent jobs in 10 Illinois, and a participating utility that is a combination 11 utility shall create 450 full-time equivalent jobs in Illinois 12 related to the provision of electric service. These jobs shall include direct jobs, contractor positions, and induced jobs, 13 14 but shall not include any portion of a job commitment, not 15 specifically contingent on an amendatory Act of the 97th General Assembly becoming law, between a participating utility 16 17 and a labor union that existed on the effective date of this amendatory Act of the 97th General Assembly and that has not 18 yet been fulfilled. A portion of the full-time equivalent jobs 19 20 created by each participating utility shall include 21 incremental personnel hired subsequent to the effective date of 22 this amendatory Act of the 97th General Assembly. For purposes 23 of this Section, "peak program year" means the consecutive 12-month period with the highest number of full-time equivalent 24 25 jobs that occurs between the beginning of investment year 2 and 26 the end of investment year 4.

HB3975 Engrossed - 3 - LRB098 15537 RPS 50567 b

A participating utility shall meet one of the following
 commitments, as applicable:

3 Beginning no later than 180 days after (1)а participating utility other than a combination utility 4 5 files a performance-based formula rate tariff pursuant to subsection (c) of this Section, or, beginning no later than 6 1, 7 2012 if such utility files January such 8 performance-based formula rate tariff within 14 days of the 9 effective date of this amendatory Act of the 97th General 10 Assembly, the participating utility shall, except as 11 provided in subsection (b-5):

(A) over a 5-year period, invest an estimated
\$1,300,000,000 in electric system upgrades,
modernization projects, and training facilities,
including, but not limited to:

(i) distribution infrastructure improvements
totaling an estimated \$1,000,000,000, including
underground residential distribution cable
injection and replacement and mainline cable
system refurbishment and replacement projects;

(ii) training facility construction or upgrade
projects totaling an estimated \$10,000,000,
provided that, at a minimum, one such facility
shall be located in a municipality having a
population of more than 2 million residents and one
such facility shall be located in a municipality

having a population of more than 150,000 residents 1 2 but fewer than 170,000 residents; any such new 3 facility located in a municipality having a population of more than 2 million residents must be 4 5 designed for the purpose of obtaining, and the 6 owner of the facility shall apply for, 7 certification under the United States Green 8 Building Council's Leadership in Energy Efficiency 9 Design Green Building Rating System;

10 (iii) wood pole inspection, treatment, and 11 replacement programs;

12 (iv) an estimated \$200,000,000 for reducing 13 susceptibility of certain the circuits to 14 storm-related damage, including, but not limited 15 to, high winds, thunderstorms, and ice storms; 16 improvements may include, but are not limited to, 17 overhead to underground conversion and other for 18 engineered outcomes circuits; the 19 participating utility shall prioritize the 20 selection of circuits based on each circuit's 21 historical susceptibility to storm-related damage 22 and the ability to provide the greatest customer 23 benefit upon completion of the improvements; to be 24 eligible for improvement, the participating 25 utility's ability to maintain proper tree 26 clearances surrounding the overhead circuit must HB3975 Engrossed - 5 - LRB098 15537 RPS 50567 b

not have been impeded by third parties; and 1 2 (B) over a 10-year period, invest an estimated 3 \$1,300,000,000 to upgrade and modernize its transmission and distribution infrastructure and in 4 5 Smart Grid electric system upgrades, including, but not limited to: 6 7 (i) additional smart meters; (ii) distribution automation; 8 9 associated cyber (iii) secure data 10 communication network; and 11 (iv) substation micro-processor relay 12 upgrades. 13 (2) later than 180 Beginning no days after а participating utility that is a combination utility files a 14 15 performance-based formula rate tariff pursuant to 16 subsection (c) of this Section, or, beginning no later than 17 1, 2012 if such utility files January such performance-based formula rate tariff within 14 days of the 18 effective date of this amendatory Act of the 97th General 19 20 Assembly, the participating utility shall, except as provided in subsection (b-5): 21 22 (A) over a 10-year period, invest an estimated 23 \$265,000,000 electric in system upgrades,

25 including, but not limited to:

24

26

(i) distribution infrastructure improvements

modernization projects, and training facilities,

HB3975 Engrossed - 6 - LRB098 15537 RPS 50567 b

totaling an estimated \$245,000,000, which may 1 2 include bulk supply substations, transformers, 3 reconductoring, and rebuilding overhead distribution and sub-transmission lines, 4 5 underground residential distribution cable 6 injection and replacement and mainline cable 7 system refurbishment and replacement projects;

8 (ii) training facility construction or upgrade 9 projects totaling an estimated \$1,000,000; any 10 such new facility must be designed for the purpose 11 of obtaining, and the owner of the facility shall 12 apply for, certification under the United States 13 Green Building Council's Leadership in Energy 14 Efficiency Design Green Building Rating System; and 15

(iii) wood pole inspection, treatment, and replacement programs; and

(B) over a 10-year period, invest an estimated
\$360,000,000 to upgrade and modernize its transmission
and distribution infrastructure and in Smart Grid
electric system upgrades, including, but not limited
to:

(i) additional smart meters;

24 (ii) distribution automation;

16

17

23

25 (iii) associated cyber secure data26 communication network; and

(iv) substation micro-processor relay
 upgrades.

3 For purposes of this Section, "Smart Grid electric system 4 upgrades" shall have the meaning set forth in subsection (a) of 5 Section 16-108.6 of this Act.

6 The investments in the infrastructure investment program described in this subsection (b) shall be incremental to the 7 participating utility's annual capital investment program, as 8 9 defined by, for purposes of this subsection (b), the 10 participating utility's average capital spend for calendar years 2008, 2009, and 2010 as reported in the applicable 11 12 Federal Energy Regulatory Commission (FERC) Form 1; provided 13 that where one or more utilities have merged, the average 14 capital spend shall be determined using the aggregate of the 15 merged utilities' capital spend reported in FERC Form 1 for the 16 years 2008, 2009, and 2010. A participating utility may add 17 reasonable construction ramp-up and ramp-down time to the investment periods specified in this subsection (b). For each 18 such investment period, the ramp-up and ramp-down time shall 19 20 not exceed a total of 6 months.

Within 60 days after filing a tariff under subsection (c) 21 22 of this Section, a participating utility shall submit to the 23 Commission its plan, including scope, schedule, and staffing, infrastructure investment 24 for satisfying its program 25 commitments pursuant to this subsection (b). The submitted plan 26 shall include a schedule and staffing plan for the next

calendar year. The plan shall also include a plan for the 1 2 creation, operation, and administration of a Smart Grid test bed as described in subsection (c) of Section 16-108.8. The 3 plan need not allocate the work equally over the respective 4 5 periods, but should allocate material increments throughout 6 such periods commensurate with the work to be undertaken. No 7 later than April 1 of each subsequent year, the utility shall 8 submit to the Commission a report that includes any updates to 9 the plan, a schedule for the next calendar year, the 10 expenditures made for the prior calendar year and cumulatively, 11 and the number of full-time equivalent jobs created for the 12 prior calendar year and cumulatively. If the utility is 13 materially deficient in satisfying a schedule or staffing plan, 14 then the report must also include a corrective action plan to 15 address the deficiency. The fact that the plan, implementation 16 of the plan, or a schedule changes shall not imply the 17 unreasonableness of the infrastructure imprudence or investment program, plan, or schedule. Further, no later than 18 19 45 days following the last day of the first, second, and third quarters of each year of the plan, a participating utility 20 shall submit to the Commission a verified quarterly report for 21 22 the prior quarter that includes (i) the total number of 23 full-time equivalent jobs created during the prior quarter, 24 (ii) the total number of employees as of the last day of the 25 prior quarter, (iii) the total number of full-time equivalent 26 hours in each job classification or job title, (iv) the total HB3975 Engrossed - 9 - LRB098 15537 RPS 50567 b

number of incremental employees and contractors in support of the investments undertaken pursuant to this subsection (b) for the prior quarter, and (v) any other information that the Commission may require by rule.

With respect to the participating utility's peak job 5 commitment, if, after considering the utility's corrective 6 action plan and compliance thereunder, the Commission enters an 7 8 order finding, after notice and hearing, that a participating 9 utility did not satisfy its peak job commitment described in 10 this subsection (b) for reasons that are reasonably within its 11 control, then the Commission shall also determine, after 12 consideration of the evidence, including, but not limited to, 13 evidence submitted by the Department of Commerce and Economic Opportunity and the utility, the deficiency in the number of 14 15 full-time equivalent jobs during the peak program year due to 16 such failure. The Commission shall notify the Department of any 17 proceeding that is initiated pursuant to this paragraph. For each full-time equivalent job deficiency during the peak 18 program year that the Commission finds as set forth in this 19 paragraph, the participating utility shall, within 30 days 20 after the entry of the Commission's order, pay \$6,000 to a fund 21 22 for training grants administered under Section 605-800 of The 23 Department of Commerce and Economic Opportunity Law, which 24 shall not be a recoverable expense.

25 With respect to the participating utility's investment 26 amount commitments, if, after considering the utility's HB3975 Engrossed - 10 - LRB098 15537 RPS 50567 b

corrective action plan and compliance thereunder, 1 the 2 Commission enters an order finding, after notice and hearing, 3 that a participating utility is not satisfying its investment amount commitments described in this subsection (b), then the 4 5 utility shall no longer be eligible to annually update the performance-based formula rate tariff pursuant to subsection 6 7 (d) of this Section. In such event, the then current rates shall remain in effect until such time as new rates are set 8 9 pursuant to Article IX of this Act, subject to retroactive 10 adjustment, with interest, to reconcile rates charged with 11 actual costs.

12 If the Commission finds that a participating utility is no longer eligible to update the performance-based formula rate 13 14 tariff pursuant to subsection (d) of this Section, or the 15 performance-based formula rate is otherwise terminated, then 16 the participating utility's voluntary commitments and 17 obligations under this subsection (b) shall immediately terminate, except for the utility's obligation to pay an amount 18 19 already owed to the fund for training grants pursuant to a 20 Commission order.

In meeting the obligations of this subsection (b), to the 21 22 extent feasible and consistent with State and federal law, the 23 investments under the infrastructure investment program should 24 provide employment opportunities for all segments of the 25 and workforce, including minority-owned population and 26 female-owned business enterprises, and shall not, consistent HB3975 Engrossed - 11 - LRB098 15537 RPS 50567 b

1 with State and federal law, discriminate based on race or 2 socioeconomic status.

(b-5) Nothing in this Section shall prohibit the Commission 3 from investigating the prudence and reasonableness of the 4 5 expenditures made under the infrastructure investment program 6 during the annual review required by subsection (d) of this 7 Section and shall, as part of such investigation, determine 8 whether the utility's actual costs under the program are 9 prudent and reasonable. The fact that a participating utility 10 invests more than the minimum amounts specified in subsection 11 (b) of this Section or its plan shall not imply imprudence or 12 unreasonableness.

13 If the participating utility finds that it is implementing 14 its plan for satisfying the infrastructure investment program 15 commitments described in subsection (b) of this Section at a 16 cost below the estimated amounts specified in subsection (b) of 17 this Section, then the utility may file a petition with the Commission requesting that it be permitted to satisfy its 18 19 commitments by spending less than the estimated amounts 20 specified in subsection (b) of this Section. The Commission shall, after notice and hearing, enter its order approving, or 21 22 approving as modified, or denying each such petition within 150 23 days after the filing of the petition.

In no event, absent General Assembly approval, shall the capital investment costs incurred by a participating utility other than a combination utility in satisfying its

infrastructure investment program commitments described in 1 2 subsection (b) of this Section exceed \$3,000,000,000 or, for a 3 participating utility that is a combination utility, \$720,000,000. If the participating utility's updated cost 4 5 estimates for satisfying its infrastructure investment program 6 commitments described in subsection (b) of this Section exceed the limitation imposed by this subsection (b-5), then it shall 7 8 submit a report to the Commission that identifies the increased 9 costs and explains the reason or reasons for the increased 10 costs no later than the year in which the utility estimates it 11 will exceed the limitation. The Commission shall review the 12 report and shall, within 90 days after the participating 13 utility files the report, report to the General Assembly its findings regarding the participating utility's report. If the 14 15 General Assembly does not amend the limitation imposed by this 16 subsection (b-5), then the utility may modify its plan so as 17 not to exceed the limitation imposed by this subsection (b-5) and may propose corresponding changes to 18 the metrics 19 established pursuant to subparagraphs (5) through (8) of 20 subsection (f) of this Section, and the Commission may modify 21 the metrics and incremental savings goals established pursuant 22 to subsection (f) of this Section accordingly.

(b-10) All participating utilities shall make contributions for an energy low-income and support program in accordance with this subsection. Beginning no later than 180 days after a participating utility files a performance-based HB3975 Engrossed - 13 - LRB098 15537 RPS 50567 b

formula rate tariff pursuant to subsection (c) of this Section, 1 2 or beginning no later than January 1, 2012 if such utility files such performance-based formula rate tariff within 14 days 3 of the effective date of this amendatory Act of the 97th 4 5 General Assembly, and without obtaining any approvals from the 6 Commission or any other agency other than as set forth in this Section, regardless of whether any such approval would 7 8 otherwise be required, a participating utility other than a 9 combination utility shall pay \$10,000,000 per year for 5 years 10 and a participating utility that is a combination utility shall 11 pay \$1,000,000 per year for 10 years to the energy low-income 12 and support program, which is intended to fund customer assistance programs with the primary purpose being avoidance of 13 14 imminent disconnection. Such programs may include:

(1) a residential hardship program that may partner with community-based organizations, including senior citizen organizations, and provides grants to low-income residential customers, including low-income senior citizens, who demonstrate a hardship;

(2) a program that provides grants and other bill
payment concessions to disabled veterans who demonstrate a
hardship and members of the armed services or reserve
forces of the United States or members of the Illinois
National Guard who are on active duty pursuant to an
executive order of the President of the United States, an
act of the Congress of the United States, or an order of

HB3975 Engrossed - 14 - LRB098 15537 RPS 50567 b

1

the Governor and who demonstrate a hardship;

2 (3) a budget assistance program that provides tools and 3 education to low-income senior citizens to assist them with 4 obtaining information regarding energy usage and effective 5 means of managing energy costs;

6 (4) a non-residential special hardship program that 7 provides grants to non-residential customers such as small 8 businesses and non-profit organizations that demonstrate a 9 hardship, including those providing services to senior 10 citizen and low-income customers; and

11 (5) a performance-based assistance program that 12 provides grants to encourage residential customers to make 13 on-time payments by matching a portion of the customer's 14 payments or providing credits towards arrearages.

15 The payments made by a participating utility pursuant to 16 this subsection (b-10) shall not be a recoverable expense. A 17 participating utility may elect to fund either new or existing 18 customer assistance programs, including, but not limited to, 19 those that are administered by the utility.

20 Programs that use funds that are provided by а 21 participating utility to reduce utility bills may be 22 implemented through tariffs that are filed with and reviewed by 23 the Commission. If a utility elects to file tariffs with the 24 Commission to implement all or a portion of the programs, those 25 tariffs shall, regardless of the date actually filed, be deemed 26 accepted and approved, and shall become effective on the HB3975 Engrossed - 15 - LRB098 15537 RPS 50567 b

effective date of this amendatory Act of the 97th General Assembly. The participating utilities whose customers benefit from the funds that are disbursed as contemplated in this Section shall file annual reports documenting the disbursement of those funds with the Commission. The Commission has the authority to audit disbursement of the funds to ensure they were disbursed consistently with this Section.

8 If the Commission finds that a participating utility is no 9 longer eligible to update the performance-based formula rate 10 tariff pursuant to subsection (d) of this Section, or the 11 performance-based formula rate is otherwise terminated, then 12 participating utility's voluntary commitments the and 13 obligations under this subsection (b-10) shall immediately 14 terminate.

(c) A participating utility may elect to recover its 15 16 delivery services costs through a performance-based formula 17 rate approved by the Commission, which shall specify the cost components that form the basis of the rate charged to customers 18 19 with sufficient specificity to operate in a standardized manner 20 and be updated annually with transparent information that reflects the utility's actual costs to be recovered during the 21 22 applicable rate year, which is the period beginning with the 23 first billing day of January and extending through the last billing day of the following December. In the event the utility 24 25 recovers a portion of its costs through automatic adjustment 26 clause tariffs on the effective date of this amendatory Act of

the 97th General Assembly, the utility may elect to continue to 1 2 recover these costs through such tariffs, but then these costs 3 shall not be recovered through the performance-based formula rate. In the event the participating utility, prior to the 4 5 effective date of this amendatory Act of the 97th General Assembly, filed electric delivery services tariffs with the 6 Commission pursuant to Section 9-201 of this Act that are 7 8 related to the recovery of its electric delivery services costs 9 that are still pending on the effective date of this amendatory 10 Act of the 97th General Assembly, the participating utility 11 shall, at the time it files its performance-based formula rate 12 tariff with the Commission, also file a notice of withdrawal 13 with the Commission to withdraw the electric delivery services 14 tariffs previously filed pursuant to Section 9-201 of this Act. 15 Upon receipt of such notice, the Commission shall dismiss with 16 prejudice any docket that had been initiated to investigate the 17 electric delivery services tariffs filed pursuant to Section 9-201 of this Act, and such tariffs and the record related 18 thereto shall not be the subject of any further hearing, 19 20 investigation, or proceeding of any kind related to rates for 21 electric delivery services.

The performance-based formula rate shall be implemented through a tariff filed with the Commission consistent with the provisions of this subsection (c) that shall be applicable to all delivery services customers. The Commission shall initiate and conduct an investigation of the tariff in a manner HB3975 Engrossed - 17 - LRB098 15537 RPS 50567 b

consistent with the provisions of this subsection (c) and the 1 2 provisions of Article IX of this Act to the extent they do not 3 conflict with this subsection (c). Except in the case where the Commission finds, after notice and hearing, 4 that а 5 participating utility is not satisfying its investment amount of 6 commitments under subsection (b) this Section, the 7 performance-based formula rate shall remain in effect at the 8 discretion of the utility. The performance-based formula rate 9 approved by the Commission shall do the following:

10 (1) Provide for the recovery of the utility's actual 11 costs of delivery services that are prudently incurred and 12 reasonable in amount consistent with Commission practice 13 and law. The sole fact that a cost differs from that 14 incurred in a prior calendar year or that an investment is 15 different from that made in a prior calendar year shall not 16 imply the imprudence or unreasonableness of that cost or 17 investment.

18 (2) Reflect the utility's actual year-end capital 19 structure for the applicable calendar year, excluding 20 goodwill, subject to a determination of prudence and 21 reasonableness consistent with Commission practice and 22 law.

(3) Include a cost of equity, which shall be calculatedas the sum of the following:

(A) the average for the applicable calendar year ofthe monthly average yields of 30-year U.S. Treasury

HB3975 Engrossed - 18 - LRB098 15537 RPS 50567 b

bonds published by the Board of Governors of the
 Federal Reserve System in its weekly H.15 Statistical
 Release or successor publication; and

4

(B) 580 basis points.

5 At such time as the Board of Governors of the Federal 6 Reserve System ceases to include the monthly average yields 7 30-year U.S. Treasury bonds in its weekly H.15 of 8 Statistical Release or successor publication, the monthly 9 average yields of the U.S. Treasury bonds then having the 10 longest duration published by the Board of Governors in its 11 weekly H.15 Statistical Release or successor publication 12 shall instead be used for purposes of this paragraph (3).

(4) Permit and set forth protocols, subject to a
determination of prudence and reasonableness consistent
with Commission practice and law, for the following:

16 (A) recovery of incentive compensation expense 17 that is based on the achievement of operational metrics, including metrics related to budget controls, 18 19 outage duration and frequency, safety, customer 20 service, efficiency and productivity, and 21 environmental compliance. Incentive compensation 22 expense that is based on net income or an affiliate's 23 earnings per share shall not be recoverable under the 24 performance-based formula rate;

(B) recovery of pension and other post-employment
 benefits expense, provided that such costs are

HB3975 Engrossed - 19 - LRB098 15537 RPS 50567 b

1

supported by an actuarial study;

(C) recovery of severance costs, provided that if the amount is over \$3,700,000 for a participating utility that is a combination utility or \$10,000,000 for a participating utility that serves more than 3 million retail customers, then the full amount shall be amortized consistent with subparagraph (F) of this paragraph (4);

9 (D) investment return at a rate equal to the 10 utility's weighted average cost of long-term debt, on 11 the pension assets as, and in the amount, reported in 12 Account 186 (or in such other Account or Accounts as 13 such asset may subsequently be recorded) of the 14 utility's most recently filed FERC Form 1, net of 15 deferred tax benefits;

16 (E) recovery of the expenses related to the 17 Commission proceeding under this subsection (c) to approve this performance-based 18 formula rate and 19 initial rates or to subsequent proceedings related to 20 the formula, provided that the recovery shall be 21 amortized over a 3-year period; recovery of expenses 22 related to the annual Commission proceedings under 23 subsection (d) of this Section to review the inputs to 24 the performance-based formula rate shall be expensed 25 and recovered through the performance-based formula 26 rate;

- 20 - LRB098 15537 RPS 50567 b

HB3975 Engrossed

(F) amortization over a 5-year period of the full 1 amount of each charge or credit that exceeds \$3,700,000 2 3 for a participating utility that is a combination utility or \$10,000,000 for a participating utility 4 5 that serves more than 3 million retail customers in the 6 applicable calendar year and that relates to а 7 workforce reduction program's severance costs, changes in accounting rules, changes in law, compliance with 8 9 any Commission-initiated audit, or a single storm or 10 other similar expense, provided that any unamortized 11 balance shall be reflected in rate base. For purposes 12 of this subparagraph (F), changes in law includes any 13 enactment, repeal, or amendment in a law, ordinance, 14 rule, regulation, interpretation, permit, license, consent, or order, including those relating to taxes, 15 16 accounting, or to environmental matters, or in the 17 interpretation application thereof by or any governmental authority occurring after the effective 18 19 date of this amendatory Act of the 97th General 20 Assembly;

(G) recovery of existing regulatory assets over
 the periods previously authorized by the Commission;

(H) historical weather normalized billingdeterminants; and

(I) allocation methods for common costs.
(5) Provide that if the participating utility's earned

rate of return on common equity related to the provision of 1 delivery services for the prior rate year (calculated using 2 3 costs and capital structure approved by the Commission as provided in subparagraph (2) of this subsection 4 (C), 5 consistent with this Section, in accordance with Commission rules and orders, including, but not limited to, 6 adjustments for goodwill, and after any Commission-ordered 7 8 disallowances and taxes) is more than 50 basis points 9 higher than the rate of return on common equity calculated 10 pursuant to paragraph (3) of this subsection (c) (after 11 adjusting for any penalties to the rate of return on common 12 equity applied pursuant to the performance metrics 13 provision of subsection (f) of this Section), then the 14 participating utility shall apply a credit through the 15 performance-based formula rate that reflects an amount 16 equal to the value of that portion of the earned rate of 17 return on common equity that is more than 50 basis points higher than the rate of return on common equity calculated 18 19 pursuant to paragraph (3) of this subsection (c) (after 20 adjusting for any penalties to the rate of return on common 21 equity applied pursuant to the performance metrics 22 provision of subsection (f) of this Section) for the prior 23 year, adjusted for taxes. If the participating rate 24 utility's earned rate of return on common equity related to 25 the provision of delivery services for the prior rate year 26 (calculated using costs and capital structure approved by HB3975 Engrossed - 22 - LRB098 15537 RPS 50567 b

the Commission as provided in subparagraph (2) of this 1 2 (c), consistent Section, subsection with this in 3 accordance with Commission rules and orders, including, but not limited to, adjustments for goodwill, and after any 4 5 Commission-ordered disallowances and taxes) is more than 6 50 basis points less than the return on common equity 7 calculated pursuant to paragraph (3) of this subsection (c) 8 (after adjusting for any penalties to the rate of return on 9 common equity applied pursuant to the performance metrics 10 provision of subsection (f) of this Section), then the 11 participating utility shall apply a charge through the 12 performance-based formula rate that reflects an amount equal to the value of that portion of the earned rate of 13 14 return on common equity that is more than 50 basis points 15 less than the rate of return on common equity calculated 16 pursuant to paragraph (3) of this subsection (c) (after 17 adjusting for any penalties to the rate of return on common 18 equity applied pursuant to the performance metrics 19 provision of subsection (f) of this Section) for the prior 20 rate year, adjusted for taxes.

(6) Provide for an annual reconciliation, as described in subsection (d) of this Section, with interest, of the revenue requirement reflected in rates for each calendar year, beginning with the calendar year in which the utility files its performance-based formula rate tariff pursuant to subsection (c) of this Section, with what the revenue HB3975 Engrossed - 23 - LRB098 15537 RPS 50567 b

1 2

3

requirement would have been had the actual cost information for the applicable calendar year been available at the filing date.

The utility shall file, together with its tariff, final 4 5 data based on its most recently filed FERC Form 1, plus projected 6 plant additions and correspondingly updated 7 depreciation reserve and expense for the calendar year in which 8 the tariff and data are filed, that shall populate the 9 performance-based formula rate and set the initial delivery 10 services rates under the formula. For purposes of this Section, 11 "FERC Form 1" means the Annual Report of Major Electric Utilities, Licensees and Others that electric utilities are 12 required to file with the Federal Energy Regulatory Commission 13 14 under the Federal Power Act, Sections 3, 4(a), 304 and 209, 15 modified as necessary to be consistent with 83 Ill. Admin. Code 16 Part 415 as of May 1, 2011. Nothing in this Section is intended 17 to allow costs that are not otherwise recoverable to be recoverable by virtue of inclusion in FERC Form 1. 18

19 After the utility files its proposed performance-based 20 formula rate structure and protocols and initial rates, the Commission shall initiate a docket to review the filing. The 21 22 Commission shall enter an order approving, or approving as 23 modified, the performance-based formula rate, including the initial rates, as just and reasonable within 270 days after the 24 25 date on which the tariff was filed, or, if the tariff is filed 26 within 14 days after the effective date of this amendatory Act HB3975 Engrossed - 24 - LRB098 15537 RPS 50567 b

of the 97th General Assembly, then by May 31, 2012. Such review 1 2 shall be based on the same evidentiary standards, including, 3 but not limited to, those concerning the prudence and reasonableness of the costs incurred by the utility, the 4 5 Commission applies in a hearing to review a filing for a general increase in rates under Article IX of this Act. The 6 initial rates shall take effect within 30 days after the 7 8 Commission's order approving the performance-based formula 9 rate tariff.

10 Until such time as the Commission approves a different rate 11 design and cost allocation pursuant to subsection (e) of this 12 Section, rate design and cost allocation across customer 13 classes shall be consistent with the Commission's most recent 14 order regarding the participating utility's request for a 15 general increase in its delivery services rates.

16 Subsequent changes to the performance-based formula rate 17 structure or protocols shall be made as set forth in Section 9-201 of this Act, but nothing in this subsection (c) is 18 19 intended to limit the Commission's authority under Article IX 20 and other provisions of this Act to initiate an investigation 21 of a participating utility's performance-based formula rate 22 tariff, provided that any such changes shall be consistent with 23 paragraphs (1) through (6) of this subsection (c). Any change ordered by the Commission shall be made at the same time new 24 25 rates take effect following the Commission's next order 26 pursuant to subsection (d) of this Section, provided that the

HB3975 Engrossed - 25 - LRB098 15537 RPS 50567 b

new rates take effect no less than 30 days after the date on
 which the Commission issues an order adopting the change.

A participating utility that files a tariff pursuant to this subsection (c) must submit a one-time \$200,000 filing fee at the time the Chief Clerk of the Commission accepts the filing, which shall be a recoverable expense.

7 the event the performance-based formula rate In is 8 terminated, the then current rates shall remain in effect until 9 such time as new rates are set pursuant to Article IX of this 10 Act, subject to retroactive rate adjustment, with interest, to 11 reconcile rates charged with actual costs. At such time that 12 performance-based formula rate is terminated, the the participating utility's voluntary commitments and obligations 13 14 under subsection (b) of this Section shall immediately 15 terminate, except for the utility's obligation to pay an amount 16 already owed to the fund for training grants pursuant to a 17 Commission order issued under subsection (b) of this Section.

(d) Subsequent to the Commission's issuance of an order 18 19 approving the utility's performance-based formula rate 20 structure and protocols, and initial rates under subsection (c) 21 of this Section, the utility shall file, on or before May 1 of 22 each year, with the Chief Clerk of the Commission its updated 23 cost inputs to the performance-based formula rate for the 24 applicable rate year and the corresponding new charges. Each 25 such filing shall conform to the following requirements and 26 include the following information:

HB3975 Engrossed

(1) The inputs to the performance-based formula rate 1 2 for the applicable rate year shall be based on final 3 historical data reflected in the utility's most recently filed annual FERC Form 1 plus projected plant additions and 4 5 correspondingly updated depreciation reserve and expense 6 for the calendar year in which the inputs are filed. The 7 filing shall also include a reconciliation of the revenue 8 requirement that was in effect for the prior rate year (as 9 set by the cost inputs for the prior rate year) with the 10 actual revenue requirement for the prior rate year 11 (determined using a year-end rate base) that uses amounts 12 reflected in the applicable FERC Form 1 that reports the 13 actual costs for the prior rate year. Any over-collection 14 or under-collection indicated by such reconciliation shall 15 be reflected as a credit against, or recovered as an 16 additional charge to, respectively, with interest 17 calculated at a rate equal to the utility's weighted average cost of capital approved by the Commission for the 18 19 prior rate year, the charges for the applicable rate year. Provided, however, that the first such reconciliation 20 21 shall be for the calendar year in which the utility files 22 its performance-based formula rate tariff pursuant to 23 subsection (c) of this Section and shall reconcile (i) the 24 revenue requirement or requirements established by the 25 rate order or orders in effect from time to time during 26 such calendar year (weighted, as applicable) with (ii) the

HB3975 Engrossed - 27 - LRB098 15537 RPS 50567 b

revenue requirement determined using a year-end rate base 1 2 calendar year calculated pursuant to for that the 3 performance-based formula rate using (A) actual costs for that year as reflected in the applicable FERC Form 1, and 4 (B) for the first such reconciliation only, the cost of 5 6 equity, which shall be calculated as the sum of 590 basis 7 points plus the average for the applicable calendar year of 8 the monthly average yields of 30-year U.S. Treasury bonds 9 published by the Board of Governors of the Federal Reserve 10 System in its weekly H.15 Statistical Release or successor 11 publication. The first such reconciliation is not intended 12 to provide for the recovery of costs previously excluded 13 from rates based on a prior Commission order finding of 14 imprudence or unreasonableness. Each reconciliation shall 15 be certified by the participating utility in the same 16 manner that FERC Form 1 is certified. The filing shall also 17 include the charge or credit, if any, resulting from the calculation required by paragraph (6) of subsection (c) of 18 19 this Section.

20 Notwithstanding anything that may be to the contrary, 21 the intent of the reconciliation is to ultimately reconcile 22 revenue requirement reflected in rates for each the 23 calendar year, beginning with the calendar year in which 24 utility files its performance-based formula the rate 25 tariff pursuant to subsection (c) of this Section, with 26 what the revenue requirement determined using a year-end 1 rate base for the applicable calendar year would have been 2 had the actual cost information for the applicable calendar 3 year been available at the filing date.

4 (2) The new charges shall take effect beginning on the 5 first billing day of the following January billing period 6 and remain in effect through the last billing day of the 7 next December billing period regardless of whether the 8 Commission enters upon a hearing pursuant to this 9 subsection (d).

10 (3) The filing shall include relevant and necessary 11 data and documentation for the applicable rate year that is 12 consistent with the Commission's rules applicable to a filing for a general increase in rates or any rules adopted 13 14 by the Commission to implement this Section. Normalization 15 adjustments shall not be required. Notwithstanding any 16 other provision of this Section or Act or any rule or other 17 requirement adopted by the Commission, a participating utility that is a combination utility with more than one 18 19 rate zone shall not be required to file a separate set of 20 such data and documentation for each rate zone and may 21 combine such data and documentation into a single set of schedules. 22

23 Within 45 days after the utility files its annual update of 24 cost inputs to the performance-based formula rate, the 25 Commission shall have the authority, either upon complaint or 26 its own initiative, but with reasonable notice, to enter upon a HB3975 Engrossed - 29 - LRB098 15537 RPS 50567 b

hearing concerning the prudence and reasonableness of the costs 1 2 incurred by the utility to be recovered during the applicable 3 year that are reflected in the inputs to rate the performance-based formula rate derived from the utility's FERC 4 5 Form 1. During the course of the hearing, each objection shall be stated with particularity and evidence provided in support 6 7 thereof, after which the utility shall have the opportunity to 8 rebut the evidence. Discovery shall be allowed consistent with 9 the Commission's Rules of Practice, which Rules shall be 10 enforced by the Commission or the assigned hearing examiner. 11 The Commission shall apply the same evidentiary standards, 12 including, but not limited to, those concerning the prudence 13 and reasonableness of the costs incurred by the utility, in the 14 hearing as it would apply in a hearing to review a filing for a 15 general increase in rates under Article IX of this Act. The 16 Commission shall not, however, have the authority in a 17 proceeding under this subsection (d) to consider or order any changes to the structure or protocols of the performance-based 18 19 formula rate approved pursuant to subsection (c) of this Section. In a proceeding under this subsection (d), the 20 Commission shall enter its order no later than the earlier of 21 22 240 days after the utility's filing of its annual update of 23 cost inputs to the performance-based formula rate or December The Commission's determinations of the prudence and 24 31. 25 reasonableness of the costs incurred for the applicable 26 calendar year shall be final upon entry of the Commission's HB3975 Engrossed - 30 - LRB098 15537 RPS 50567 b

1 order and shall not be subject to reopening, reexamination, or 2 collateral attack in any other Commission proceeding, case, 3 docket, order, rule or regulation, provided, however, that 4 nothing in this subsection (d) shall prohibit a party from 5 petitioning the Commission to rehear or appeal to the courts 6 the order pursuant to the provisions of this Act.

7 In the event the Commission does not, either upon complaint 8 or its own initiative, enter upon a hearing within 45 days 9 after the utility files the annual update of cost inputs to its 10 performance-based formula rate, then the costs incurred for the 11 applicable calendar year shall be deemed prudent and 12 reasonable, and the filed charges shall not be subject to 13 reopening, reexamination, or collateral attack in any other 14 proceeding, case, docket, order, rule, or regulation.

A participating utility's first filing of the updated cost inputs, and any Commission investigation of such inputs pursuant to this subsection (d) shall proceed notwithstanding the fact that the Commission's investigation under subsection (c) of this Section is still pending and notwithstanding any other law, order, rule, or Commission practice to the contrary.

(e) Nothing in subsections (c) or (d) of this Section shall prohibit the Commission from investigating, or a participating utility from filing, revenue-neutral tariff changes related to rate design of a performance-based formula rate that has been placed into effect for the utility. Following approval of a participating utility's performance-based formula rate tariff HB3975 Engrossed - 31 - LRB098 15537 RPS 50567 b

pursuant to subsection (c) of this Section, the utility shall 1 2 make a filing with the Commission within one year after the effective date of the performance-based formula rate tariff 3 that proposes changes to the tariff to incorporate the findings 4 5 of any final rate design orders of the Commission applicable to the participating utility and entered subsequent to the 6 7 Commission's approval of the tariff. The Commission shall, 8 after notice and hearing, enter its order approving, or 9 approving with modification, the proposed changes to the 10 performance-based formula rate tariff within 240 days after the utility's filing. Following such approval, the utility shall 11 12 make a filing with the Commission during each subsequent 3-year period that either proposes revenue-neutral tariff changes or 13 re-files the existing tariffs without change, which shall 14 15 present the Commission with an opportunity to suspend the 16 tariffs and consider revenue-neutral tariff changes related to 17 rate design.

(f) Within 30 days after the filing of a tariff pursuant to subsection (c) of this Section, each participating utility shall develop and file with the Commission multi-year metrics designed to achieve, ratably (i.e., in equal segments) over a 10-year period, improvement over baseline performance values as follows:

(1) Twenty percent improvement in the System Average
 Interruption Frequency Index, using a baseline of the
 average of the data from 2001 through 2010.

HB3975 Engrossed - 32 - LRB098 15537 RPS 50567 b

(2) Fifteen percent improvement in the system Customer
 Average Interruption Duration Index, using a baseline of
 the average of the data from 2001 through 2010.

For a participating utility other 4 (3) than а 5 combination utility, 20% improvement in the System Average Interruption Frequency Index for its Southern Region, 6 7 using a baseline of the average of the data from 2001 8 through 2010. For purposes of this paragraph (3), Southern 9 shall have the meaning set forth Region in the 10 participating utility's most recent report filed pursuant 11 to Section 16-125 of this Act.

12 (3.5) For a participating utility other than а combination utility, 20% improvement in the System Average 13 14 Interruption Frequency Index for its Northeastern Region, 15 using a baseline of the average of the data from 2001 16 through 2010. For purposes of this paragraph (3.5),17 Northeastern Region shall have the meaning set forth in the participating utility's most recent report filed pursuant 18 to Section 16-125 of this Act. 19

(4) Seventy-five percent improvement in the total
number of customers who exceed the service reliability
targets as set forth in subparagraphs (A) through (C) of
paragraph (4) of subsection (b) of 83 Ill. Admin. Code Part
411.140 as of May 1, 2011, using 2010 as the baseline year.

25 (5) Reduction in issuance of estimated electric bills:
26 90% improvement for a participating utility other than a

HB3975 Engrossed - 33 - LRB098 15537 RPS 50567 b

1 combination utility, and 56% improvement for a 2 participating utility that is a combination utility, using 3 a baseline of the average number of estimated bills for the 4 years 2008 through 2010.

5 (6) Consumption on inactive meters: 90% improvement 6 for a participating utility other than a combination 7 utility, and 56% improvement for a participating utility 8 that is a combination utility, using a baseline of the 9 average unbilled kilowatthours for the years 2009 and 2010.

10 (7) Unaccounted for energy: 50% improvement for a 11 participating utility other than a combination utility 12 using a baseline of the non-technical line loss unaccounted 13 for energy kilowatthours for the year 2009.

14 (8) Uncollectible expense: reduce uncollectible
15 expense by at least \$30,000,000 for a participating utility
16 other than a combination utility and by at least \$3,500,000
17 for a participating utility that is a combination utility,
18 using a baseline of the average uncollectible expense for
19 the years 2008 through 2010.

20 (9) Opportunities for minority-owned and female-owned 21 business enterprises: design a performance metric 22 regarding the creation of opportunities for minority-owned 23 female-owned business enterprises consistent with and 24 State and federal law using a base performance value of the 25 percentage of the participating utility's capital 26 expenditures that were paid to minority-owned and HB3975 Engrossed - 34 - LRB098 15537 RPS 50567 b

1

female-owned business enterprises in 2010.

2 The definitions set forth in 83 Ill. Admin. Code Part 411.20 as of May 1, 2011 shall be used for purposes of 3 calculating performance under paragraphs (1) through (3.5) of 4 5 this subsection (f), provided, however, that the participating 6 utility may exclude up to 9 extreme weather event days from such calculation for each year, and provided further that the 7 participating utility shall exclude 9 extreme weather event 8 9 days when calculating each year of the baseline period to the 10 extent that there are 9 such days in a given year of the 11 baseline period. For purposes of this Section, an extreme 12 weather event day is a 24-hour calendar day (beginning at 12:00 a.m. and ending at 11:59 p.m.) during which any weather event 13 (e.g., storm, tornado) caused interruptions for 10,000 or more 14 15 of the participating utility's customers for 3 hours or more. 16 If there are more than 9 extreme weather event days in a year, 17 then the utility may choose no more than 9 extreme weather event days to exclude, provided that the same extreme weather 18 event days are excluded from each of the calculations performed 19 20 under paragraphs (1) through (3.5) of this subsection (f).

The metrics shall include incremental performance goals for each year of the 10-year period, which shall be designed to demonstrate that the utility is on track to achieve the performance goal in each category at the end of the 10-year period. The utility shall elect when the 10-year period shall commence for the metrics set forth in subparagraphs (1) through HB3975 Engrossed - 35 - LRB098 15537 RPS 50567 b

1 (4) and (9) of this subsection (f), provided that it begins no 2 later than 14 months following the date on which the utility begins investing pursuant to subsection (b) of this Section, 3 and when the 10-year period shall commence for the metrics set 4 5 forth in subparagraphs (5) through (8) of this subsection (f), 6 provided that it begins no later than 14 months following the 7 date on which the Commission enters its order approving the utility's Advanced Metering Infrastructure Deployment Plan 8 9 pursuant to subsection (c) of Section 16-108.6 of this Act.

10 The metrics and performance qoals set forth in 11 subparagraphs (5) through (8) of this subsection (f) are based 12 on the assumptions that the participating utility may fully 13 implement the technology described in subsection (b) of this Section, including utilizing the full functionality of such 14 technology and that there is no requirement for personal 15 16 on-site notification. If the utility is unable to meet the 17 metrics and performance goals set forth in subparagraphs (5) through (8) of this subsection (f) for such reasons, and the 18 Commission so finds after notice and hearing, then the utility 19 20 shall be excused from compliance, but only to the limited extent achievement of the affected metrics and performance 21 22 goals was hindered by the less than full implementation.

(f-5) The financial penalties applicable to the metrics described in subparagraphs (1) through (8) of subsection (f) of this Section, as applicable, shall be applied through an adjustment to the participating utility's return on equity of HB3975 Engrossed - 36 - LRB098 15537 RPS 50567 b

no more than a total of 30 basis points in each of the first 3 years, of no more than a total of 34 basis points in each of the 3 years thereafter, and of no more than a total of 38 basis 4 points in each of the 4 years thereafter, as follows:

5

6

7

(1) With respect to each of the incremental annual performance goals established pursuant to paragraph (1) of subsection (f) of this Section,

8 (A) for each year that a participating utility 9 other than a combination utility does not achieve the 10 annual goal, the participating utility's return on 11 equity shall be reduced as follows: during years 1 12 through 3, by 5 basis points; during years 4 through 6, 13 by 6 basis points; and during years 7 through 10, by 7 14 basis points; and

(B) for each year that a participating utility that
is a combination utility does not achieve the annual
goal, the participating utility's return on equity
shall be reduced as follows: during years 1 through 3,
by 10 basis points; during years 4 through 6, by 12
basis points; and during years 7 through 10, by 14
basis points.

(2) With respect to each of the incremental annual performance goals established pursuant to paragraph (2) of subsection (f) of this Section, for each year that the participating utility does not achieve each such goal, the participating utility's return on equity shall be reduced HB3975 Engrossed - 37 - LRB098 15537 RPS 50567 b

as follows: during years 1 through 3, by 5 basis points;
 during years 4 through 6, by 6 basis points; and during
 years 7 through 10, by 7 basis points.

(3) With respect to each of the incremental annual 4 5 performance goals established pursuant to paragraphs (3) and (3.5) of subsection (f) of this Section, for each year 6 7 that a participating utility other than a combination 8 utility does not achieve both such goals, the participating 9 utility's return on equity shall be reduced as follows: 10 during years 1 through 3, by 5 basis points; during years 4 11 through 6, by 6 basis points; and during years 7 through 12 10, by 7 basis points.

(4) With respect to each of the incremental annual 13 14 performance goals established pursuant to paragraph (4) of 15 subsection (f) of this Section, for each year that the 16 participating utility does not achieve each such goal, the 17 participating utility's return on equity shall be reduced as follows: during years 1 through 3, by 5 basis points; 18 during years 4 through 6, by 6 basis points; and during 19 20 years 7 through 10, by 7 basis points.

(5) With respect to each of the incremental annual performance goals established pursuant to subparagraph (5) of subsection (f) of this Section, for each year that the participating utility does not achieve at least 95% of each such goal, the participating utility's return on equity shall be reduced by 5 basis points for each such unachieved HB3975 Engrossed

goal.

1

2 (6) With respect to each of the incremental annual 3 performance goals established pursuant to paragraphs (6), (7), and (8) of subsection (f) of this Section, as 4 5 applicable, which together measure non-operational 6 customer savings and benefits relating to the 7 implementation of the Advanced Metering Infrastructure 8 Deployment Plan, as defined in Section 16-108.6 of this 9 Act, the performance under each such goal shall be 10 calculated in terms of the percentage of the goal achieved. 11 The percentage of goal achieved for each of the goals shall 12 be aggregated, and an average percentage value calculated, for each year of the 10-year period. If the utility does 13 14 not achieve an average percentage value in a given year of 15 at least 95%, the participating utility's return on equity 16 shall be reduced by 5 basis points.

17 The financial penalties shall be applied as described in this subsection (f-5) for the 12-month period in which the 18 19 deficiency occurred through a separate tariff mechanism, which 20 shall be filed by the utility together with its metrics. In the 21 event the formula rate tariff established pursuant to 22 subsection (c) of this Section terminates, the utility's 23 obligations under subsection (f) of this Section and this 24 subsection (f-5) shall also terminate, provided, however, that 25 the tariff mechanism established pursuant to subsection (f) of 26 this Section and this subsection (f-5) shall remain in effect

HB3975 Engrossed - 39 - LRB098 15537 RPS 50567 b

until any penalties due and owing at the time of such
 termination are applied.

The Commission shall, after notice and hearing, enter an 3 order within 120 days after the metrics are filed approving, or 4 5 approving with modification, a participating utility's tariff or mechanism to satisfy the metrics set forth in subsection (f) 6 7 of this Section. On June 1 of each subsequent year, each 8 participating utility shall file a report with the Commission 9 that includes, among other things, a description of how the 10 participating utility performed under each metric and an 11 identification of any extraordinary events that adversely 12 impacted the utility's performance. Whenever a participating 13 utility does not satisfy the metrics required pursuant to subsection (f) of this Section, the Commission shall, after 14 notice and hearing, enter an order approving financial 15 16 penalties in accordance with this subsection (f-5). The 17 Commission-approved financial penalties shall be applied beginning with the next rate year. Nothing in this Section 18 shall authorize the Commission to reduce or otherwise obviate 19 the imposition of financial penalties for failing to achieve 20 one or more of the metrics established pursuant to subparagraph 21 22 (1) through (4) of subsection (f) of this Section.

(g) On or before July 31, 2014, each participating utility shall file a report with the Commission that sets forth the average annual increase in the average amount paid per kilowatthour for residential eligible retail customers, HB3975 Engrossed - 40 - LRB098 15537 RPS 50567 b

1 exclusive of the effects of energy efficiency programs, 2 comparing the 12-month period ending May 31, 2012; the 12-month period ending May 31, 2013; and the 12-month period ending May 3 31, 2014. For a participating utility that is a combination 4 5 utility with more than one rate zone, the weighted average 6 aggregate increase shall be provided. The report shall be filed 7 together with a statement from an independent auditor attesting to the accuracy of the report. The cost of the independent 8 9 auditor shall be borne by the participating utility and shall 10 not be a recoverable expense. "The average amount paid per 11 kilowatthour" shall be based on the participating utility's 12 tariffed rates actually in effect and shall not be calculated 13 using any hypothetical rate or adjustments to actual charges (other than as specified for energy efficiency) as an input. 14

15 In the event that the average annual increase exceeds 2.5% 16 as calculated pursuant to this subsection (g), then Sections 16-108.5, 16-108.6, 16-108.7, and 16-108.8 of this Act, other 17 than this subsection, shall be inoperative as they relate to 18 the utility and its service area as of the date of the report 19 20 due to be submitted pursuant to this subsection and the utility 21 shall no longer be eligible to annually update the 22 performance-based formula rate tariff pursuant to subsection 23 (d) of this Section. In such event, the then current rates shall remain in effect until such time as new rates are set 24 pursuant to Article IX of this Act, subject to retroactive 25 adjustment, with interest, to reconcile rates charged with 26

HB3975 Engrossed - 41 - LRB098 15537 RPS 50567 b

actual costs, and the participating utility's voluntary commitments and obligations under subsection (b) of this Section shall immediately terminate, except for the utility's obligation to pay an amount already owed to the fund for training grants pursuant to a Commission order issued under subsection (b) of this Section.

7 In the event that the average annual increase is 2.5% or 8 less as calculated pursuant to this subsection (g), then the 9 performance-based formula rate shall remain in effect as set 10 forth in this Section.

For purposes of this Section, the amount per kilowatthour 11 12 means the total amount paid for electric service expressed on a per kilowatthour basis, and the total amount paid for electric 13 service includes without limitation amounts paid for supply, 14 15 transmission, distribution, surcharges, and add-on taxes 16 exclusive of any increases in taxes or new taxes imposed after 17 the effective date of this amendatory Act of the 97th General Assembly. For purposes of this Section, "eligible retail 18 19 customers" shall have the meaning set forth in Section 16-111.5 20 of this Act.

The fact that this Section becomes inoperative as set forth in this subsection shall not be construed to mean that the Commission may reexamine or otherwise reopen prudence or reasonableness determinations already made.

(h) Sections 16-108.5, 16-108.6, 16-108.7, and 16-108.8 of
 this Act, other than this subsection, are inoperative after

HB3975 Engrossed - 42 - LRB098 15537 RPS 50567 b

December 31, 2019 2017 for every participating utility, after 1 2 which time a participating utility shall no longer be eligible 3 to annually update the performance-based formula rate tariff pursuant to subsection (d) of this Section. At such time, the 4 5 then current rates shall remain in effect until such time as new rates are set pursuant to Article IX of this Act, subject 6 to retroactive adjustment, with interest, to reconcile rates 7 8 charged with actual costs.

9 By December 31, 2017, the Commission shall prepare and file 10 with the General Assembly a report on the infrastructure 11 program and the performance-based formula rate. The report 12 shall include the change in the average amount per kilowatthour 13 paid by residential customers between June 1, 2011 and May 31, 14 2017. If the change in the total average rate paid exceeds 2.5% 15 compounded annually, the Commission shall include in the report 16 an analysis that shows the portion of the change due to the 17 delivery services component and the portion of the change due to the supply component of the rate. The report shall include 18 19 separate sections for each participating utility.

In the event Sections 16-108.5, 16-108.6, 16-108.7, and 16-108.8 of this Act do not become inoperative after December 31, <u>2019</u> 2017, then these Sections are inoperative after December 31, 2022 for every participating utility, after which time a participating utility shall no longer be eligible to annually update the performance-based formula rate tariff pursuant to subsection (d) of this Section. At such time, the HB3975 Engrossed - 43 - LRB098 15537 RPS 50567 b

then current rates shall remain in effect until such time as new rates are set pursuant to Article IX of this Act, subject to retroactive adjustment, with interest, to reconcile rates charged with actual costs.

5 The fact that this Section becomes inoperative as set forth 6 in this subsection shall not be construed to mean that the 7 Commission may reexamine or otherwise reopen prudence or 8 reasonableness determinations already made.

9 (i) While a participating utility may use, develop, and 10 maintain broadband systems and the delivery of broadband 11 services, voice-over-internet-protocol services, 12 telecommunications services, and cable and video programming 13 services for use in providing delivery services and Smart Grid 14 functionality or application to its retail customers, 15 including, but not limited to, the installation. 16 implementation and maintenance of Smart Grid electric system 17 upgrades as defined in Section 16-108.6 of this Act, a participating utility is prohibited from offering to its retail 18 customers broadband services or the delivery of broadband 19 20 services, voice-over-internet-protocol services, telecommunications services, or cable or video programming 21 22 services, unless they are part of a service directly related to 23 delivery services or Smart Grid functionality or applications as defined in Section 16-108.6 of this Act, and from recovering 24 25 the costs of such offerings from retail customers.

26 (j) Nothing in this Section is intended to legislatively

HB3975 Engrossed - 44 - LRB098 15537 RPS 50567 b

overturn the opinion issued in Commonwealth Edison Co. v. Ill. 1 2 Comm'n, Nos. 2-08-0959, 2-08-1037, 2-08-1137, Commerce 1-08-3008, 1-08-3030, 1-08-3054, 1-08-3313 cons. (Ill. App. 3 Ct. 2d Dist. Sept. 30, 2010). This amendatory Act of the 97th 4 5 General Assembly shall not be construed as creating a contract between the General Assembly and the participating utility, and 6 7 shall not establish a property right in the participating 8 utility.

9 (k) The changes made in subsections (c) and (d) of this 10 Section by this amendatory Act of the 98th General Assembly are 11 intended to be a restatement and clarification of existing law, 12 and intended to give binding effect to the provisions of House Resolution 1157 adopted by the House of Representatives of the 13 14 97th General Assembly and Senate Resolution 821 adopted by the Senate of the 97th General Assembly that are reflected in 15 16 paragraph (3) of this subsection. In addition, this amendatory 17 Act of the 98th General Assembly preempts and supersedes any final Commission orders entered in Docket Nos. 18 11-0721, 12-0001, 12-0293, and 12-0321 to the extent inconsistent with 19 20 the amendatory language added to subsections (c) and (d).

(1) No earlier than 5 business days after the effective
date of this amendatory Act of the 98th General Assembly,
each participating utility shall file any tariff changes
necessary to implement the amendatory language set forth in
subsections (c) and (d) of this Section by this amendatory
Act of the 98th General Assembly and a revised revenue

HB3975 Engrossed - 45 - LRB098 15537 RPS 50567 b

1 requirement under the participating utility's 2 performance-based formula rate. The Commission shall enter 3 a final order approving such tariff changes and revised 4 revenue requirement within 21 days after the participating 5 utility's filing.

6 (2) Notwithstanding anything that may be to the 7 contrary, a participating utility may file a tariff to 8 retroactively recover its previously unrecovered actual 9 costs of delivery service that are no longer subject to 10 recoverv through a reconciliation adjustment under 11 subsection (d) of this Section. This retroactive recovery 12 shall include any derivative adjustments resulting from the changes to subsections (c) and (d) of this Section by 13 14 this amendatory Act of the 98th General Assembly. Such 15 tariff shall allow the utility to assess, on current 16 customer bills over a period of 12 monthly billing periods, 17 a charge or credit related to those unrecovered costs with interest at the utility's weighted average cost of capital 18 19 during the period in which those costs were unrecovered. A 20 participating utility may file a tariff that implements a 21 retroactive charge or credit as described in this paragraph 22 for amounts not otherwise included in the tariff filing 23 provided for in paragraph (1) of this subsection (k). The 24 Commission shall enter a final order approving such tariff 25 within 21 days after the participating utility's filing.

(3) The tariff changes described in paragraphs (1) and

26

HB3975 Engrossed - 46 - LRB098 15537 RPS 50567 b

(2) of this subsection (k) shall relate only to, and be 1 2 following provisions of consistent with, the this 3 amendatory Act of the 98th General Assembly: paragraph (2) of subsection (c) regarding year-end capital structure, 4 5 subparagraph (D) of paragraph (4) of subsection (C) 6 regarding pension assets, and subsection (d) regarding the 7 reconciliation components related to year-end rate base 8 and interest calculated at a rate equal to the utility's 9 weighted average cost of capital.

(4) Nothing in this subsection is intended to effect a
dismissal of or otherwise affect an appeal from any final
Commission orders entered in Docket Nos. 11-0721, 12-0001,
12-0293, and 12-0321 other than to the extent of the
amendatory language contained in subsections (c) and (d) of
this amendatory Act of the 98th General Assembly.

16 (1) Each participating utility shall be deemed to have been 17 in full compliance with all requirements of subsection (b) of this Section, subsection (c) of this Section, Section 16-108.6 18 19 of this Act, and all Commission orders entered pursuant to 20 Sections 16-108.5 and 16-108.6 of this Act, up to and including the effective date of this amendatory Act of the 98th General 21 22 Assembly. The Commission shall not undertake any investigation 23 of such compliance and no penalty shall be assessed or adverse action taken against a participating utility for noncompliance 24 25 with Commission orders associated with subsection (b) of this 26 Section, subsection (c) of this Section, and Section 16-108.6

HB3975 Engrossed - 47 - LRB098 15537 RPS 50567 b

of this Act prior to such date. Each participating utility other than a combination utility shall be permitted, without penalty, a period of 12 months after such effective date to take actions required to ensure its infrastructure investment program is in compliance with subsection (b) of this Section and with Section 16-108.6 of this Act. Provided further:

7 (1) if this amendatory Act of the 98th General Assembly
8 takes effect on or before June 15, 2013, the following
9 subparagraphs shall apply to a participating utility other
10 than a combination utility:

11 (A) if the Commission has initiated a proceeding 12 pursuant to subsection (e) of Section 16-108.6 of this 13 Act that is pending as of the effective date of this 14 amendatory Act of the 98th General Assembly, then the 15 order entered in such proceeding shall, after notice 16 and hearing, accelerate the commencement of the meter 17 deployment schedule approved in the final Commission order on rehearing entered in Docket No. 12-0298; 18

19 (B) if the Commission has entered an order pursuant 20 to subsection (e) of Section 16-108.6 of this Act prior to the effective date of this amendatory Act of the 21 22 98th General Assembly that does not accelerate the 23 commencement of the meter deployment schedule approved 24 in the final Commission order on rehearing entered in 25 Docket No. 12-0298, then the utility shall file with 26 the Commission, within 45 days after such effective HB3975 Engrossed - 48 - LRB098 15537 RPS 50567 b

date, a plan for accelerating the commencement of the 1 utility's meter deployment schedule approved in the 2 3 final Commission order on rehearing entered in Docket No. 12-0298; the Commission shall 4 reopen the 5 proceeding in which it entered its order pursuant to subsection (e) of Section 16-108.6 of this Act and 6 7 shall, after notice and hearing, enter an amendatory order that approves or approves as modified such 8 9 accelerated plan within 90 days after the utility's 10 filing; or

11 (C) if the Commission has not initiated а 12 proceeding pursuant to subsection (e) of Section 13 16-108.6 of this Act prior to the effective date of 14 this amendatory Act of the 98th General Assembly, then 15 the utility shall file with the Commission, within 45 16 days after such effective date, a plan for accelerating 17 the commencement of the utility's meter deployment schedule approved in the final Commission order on 18 19 rehearing entered in Docket No. 12-0298 and the 20 Commission shall, after notice and hearing, approve or 21 approve as modified such plan within 90 days after the 22 utility's filing;

(2) if this amendatory Act of the 98th General Assembly
takes effect after June 15, 2013, then each participating
utility other than a combination utility shall file with
the Commission, within 45 days after such effective date, a

HB3975 Engrossed - 49 - LRB098 15537 RPS 50567 b

plan for accelerating the commencement of the utility's 1 2 meter deployment schedule approved in the final Commission 3 order on rehearing entered in Docket No. 12-0298; the Commission shall reopen the most recent proceeding in which 4 5 it entered an order pursuant to subsection (e) of Section 16-108.6 of this Act and within 90 days after the utility's 6 7 filing shall, after notice and hearing, enter an amendatory 8 approves or approves modified order that as such 9 accelerated plan, provided that if there was no such prior 10 proceeding the Commission shall open a new proceeding and 11 within 90 days after the utility's filing shall, after 12 notice and hearing, enter an order that approves or 13 approves as modified such accelerated plan.

14 schedule for meter deployment approved by Anv the 15 Commission pursuant to subparagraphs (1) or (2) of this 16 subsection (1) shall take into consideration procurement times 17 for meters and other equipment and operational issues. Nothing in this amendatory Act of the 98th General Assembly shall 18 shorten or extend the end dates for the 5-year or 10-year 19 20 periods set forth in subsection (b) of this Section or Section 16-108.6 of this Act. Nothing in this subsection is intended to 21 22 address whether a participating utility has, or has not, 23 satisfied any or all of the metrics and performance goals 24 established pursuant to subsection (f) of this Section.

(m) The provisions of this amendatory Act of the 98th
 General Assembly are severable under Section 1.31 of the

HB3975 Engrossed - 50 - LRB098 15537 RPS 50567 b

1 Statute on Statutes.
