4 Section 5. The Illinois Income Tax Act is amended by adding
5 Section 224 as follows:

6 (35 ILCS 5/224 new)

7 Sec. 224. Job creation credit. For taxable years beginning
8 on or after January 1, 2014, each taxpayer who owns and
9 operates a business in Illinois shall be allowed a credit
10 against the tax imposed by subsections (a) and (b) of Section
11 201 of this Act in the amount of \$3,750 per employee hired by
12 the taxpayer and retained for 2 years. Of the \$3,750 amount, an
13 amount equal to \$2,500 may be allowed as a credit for the
14 taxable year in which the employee was hired if the employee
15 remains employed by the employer on the last day of that
16 taxable year, and an amount equal to \$1,250 may be allowed as a
17 credit for the following taxable year if the employee remains
18 employed by the employer on the last day of that taxable year.
19 A credit under this Section may not exceed the taxpayer's
20 Illinois income tax liability for the taxable year. If the
21 amount of the credit exceeds the tax liability for the year,
22 the excess may be carried forward and applied to the tax
23 liability of the 5 taxable years following the excess credit

1 year. The credit shall be applied to the earliest year for
2 which there is a tax liability. If there are credits from more
3 than one taxable year that are available to offset a liability,
4 the earlier credit shall be applied first. In the case of a
5 partnership or Subchapter S Corporation, the credit is allowed
6 to the partners or shareholders in accordance with the
7 determination of income and distributive share of income under
8 Sections 702 and 704 and Subchapter S of the Internal Revenue
9 Code. This Section is exempt from the provisions of Section 250
10 of this Act.

11 Section 99. Effective date. This Act takes effect upon
12 becoming law.
